The QUEEN'S REVIEW

Vol. 11 KINGSTON, ONT., JANUARY, 1937 No. 1

THE MODERATE MAN

By Lord Tweedsmuir

An address delivered by His Excellency the Governor-General at a special Convocation in Grant Hall on November 7, 1936.

IT is my privilege to address you shortly to-day, and in looking about for a subject it seemed to me that, as I am speaking principally to those who are just entering upon their careers, I might say something about a type of character which I believe to be estimable and worthy of all imitation, but which for the moment is unfashionable. We are living in a confused and difficult world, and in such a time the human mind is predisposed to hasty conclusions. We are all inclined to look for some short cut out of our troubles, some violent course which will shift things suddenly into a new orbit. Patience, reasonableness, what we call commonsense, are apt to seem counsels of despair. The moderate man is at a discount. This morning I would venture to say a few words on his behalf.

Moderation in the ordinary sense is not supposed to have much attraction for youth. It is assumed to be an attribute of disillusioned middle life, or even of old age. Youth desires to take the Kingdom of Heaven by storm, and has little love for the half-hearted or even for the temperate. Its model is Hotspur, not Nestor. It is shy of prudential counsels and the maxims of commonsense. Its power lies in its enthusiasm. The familiar French proverb, *Si jeunesse savait, si vieillesse pouvait*—"If only youth had knowledge, if only old age had power"—points to a popular belief that certain endowments and functions are incompatible. Vitality cannot co-exist with wisdom; wisdom involves laggard feet, weakened sinews and a faint heart. The moderate man is eternally ineffective.

I would suggest to you that this view is a fallacy, for it accepts a shallow definition of moderation. It assumes that it is the stark opposite of enthusiasm. But the man of energy need not be the "rash, inconsiderate, fiery voluntary." The wise man need not be a sort of Buddha who is content to sit still and twiddle his thumbs. Coleridge said that no great thing was ever accomplished without enthusiasm, and that is simple truth; works are impossible without faith. But I wish to divest the word moderate of the sinister associations which are apt to surround it, and offer the moderate man to you as a type most worthy of imitation, a type more valuable, more effective and, I think, more genuinely attractive than the mere fighting man, whose head is filled with battle-cries which he imperfectly understands.

The opposite of the moderate is not the enthusiast, but the fanatic. But before we can find a proper definition of him we must get out of the way that false moderation which often usurps the name. The false moderate is that dreary type of being who, when confronted with a problem, always

169014

tries to halve the difference. His notion is to keep in the centre of the road. But this mechanical, mathematical calculation is useless in the real world. Practical life is not a narrow ridge where a pedestrian naturally keeps as near the centre as possible. It is much more like a difficult estuary of a river, where there are shoals in the centre as well as at the sides. The false moderate keeps in the middle of the channel, and presently is on a sandbank. The true moderate, with a chart of the course, and using all the knowledge and wits God has given him, may steer one hour close to one bank, and the next hour close to the other. His business is not to keep in the mathematical centre, but to find deep water. On the moral side the fault of the false moderate is spiritual apathy. He does not care enough about any cause to be extreme. He is tolerant because he is careless.

Our moderate, therefore, must not owe his point of view to the fact that he believes that every controversy can be settled by halving the difference, or because he is so sluggish and timid that his permanent resting-place is naturally the fence. We shall understand him better if we look for a moment at his opposite, the fanatic.

We can find that character in his simplest form in the history of religion. Let us take examples as near as possible to our own day—in the paradox produced by the Reformation. I say the paradox, because the essence of the Reformation was the restoration of the importance of the individual soul and of the value of the individual judgment. Properly interpreted, this attitude should have made for toleration, and such, in fact, was the view taken by liberal theologians in the seventeenth century. In their view the Bible, and not an historic church, was the palladium of Christianity; but the Bible was subject to the ultimate tests of conscience and reason. "The authority of man," said Hooker, "is the key which openeth the door of entrance into the Scriptures."

But the first business of the reformers was church-making—to set up a rival institution in place of historic Catholicism. If emphasis were laid upon the individual judgment there was a danger of anarchy. The Bible was the foundation, no doubt, and must be in the hands of every Christian, but a strict canon of interpretation must be established. So we find a really great man, John Calvin, in his *Institutes* laying down an absolute canon of Scripture teaching, a doctrine outside of which there could be no salvation. The view of the liberal theologians, that since human reason was the ultimate guide to the interpretation of the Scriptures, diversity of opinion was inevitable and, indeed, essential, was condemned as the ultimate heresy. The right of private judgment was wholly denied. John Milton wrote, "If a man believe things only because his pastor says so, though his belief be true, yet the very truth he holds becomes his heresy." But this attitude was anathema to those who accepted the fanatical point of view, even to men of a far gentler and humaner temper than Milton.

I am not going to inveigle you into the deeps of theological speculation. You will find the fanatical temper in every church, in every creed, in every department of human thought and action. The rigid Calvinist of the old school who condemned mankind to eternal torments except for a handful

of his own communion; the rigid anti-Calvinist who identified religion with the observance of certain physical rites; the revivalist with his emotional short-cut to heaven; the secularist to whom all spiritual religions are a form of insanity; the devotee of Mrs. Grundy and her conventions, and the equally narrow and conventional hater of conventions and preacher of moral anarchy; the political die-hard who will drop not one jot of a creed which he learned from his grandfather or his grandmother; the rootless progressive who is crazy about anything however foolish provided it is new—all these are victims of the virus of fanaticism.

You see what it involves. In the first place it means a surrender of the reason. A formula is accepted as the ultimate truth, and about this they will not argue. Their minds are atrophied and only a little bit of them works, but to that little bit they add all the weights of character and emotion. They believe profoundly in their crudities, and they accept the fact that their faith is emotionally strong as a guarantee that it is also intellectually sound. The basis of all fanaticism is a partial atrophy of the mind.

In the second place fanaticism involves an undue simplification of life. Every false doctrine, every fanaticism, depends upon a mechanical instead of an organic conception of the world. The revolutionary who believes that all antecedent history can be neglected, that the slate can be sponged clean, and that he can write upon it what he pleases, is as much a victim of the simplification fallacy as the Covenanting divine who believed that, when he excommunicated a man or a sect, his act was promptly ratified by the Recording Angel.

Let us make no mistake about fanaticism. It is a very powerful thing, and its power comes from its narrowness. It does not suffer from a divided mind. Again and again in human history there have come times when the immediate problem seemed simple, and when latitude of mind meant weakness of mind. There is only a certain quantity of spiritual force in any man, and if it is spread over too broad a surface the stream will become shallow and languid. Fanaticism has done great things in history, but these things have almost invariably been destructive—necessary destruction, perhaps, but still destruction. Moreover, there is always the certainty that it will induce a counter-fanaticism. An arbitrary conception of the Divine will induce an arbitrary denial of its existence at all. A fanatical glorification of the powers of the State will produce as its corrective a fanatical individualism. The fanatic may do valuable work in burning down a crazy structure, but the constructive work, the erection of a new home for mankind, is a task for the moderate. It is the Meek, in the most literal and practical sense, who inherit the earth.

We are now in a position to examine the meaning of true moderation.

In the first place it involves a certain critical standpoint, a certain degree of honest scepticism. The critically constructive mind, the constructively critical mind, is needed to-day in a special degree, and it should be found particularly among those who, like you, have access to the treasures of the world's literature and thought. We need intellectual courage, the courage to ask questions and insist upon an answer.

In the second place the moderate must keep his mind bright and clear. He must reverence human reason, not because it is infallible, but because it is the best thing we have got. I am not going to embark upon the eternal philosophical discussion as to the relative value of reason and intuition. Both are necessary. I am the last man to deny the value of that instinct which cannot be expounded by any rational process. There are spheres where the ratiocinative powers of man cannot function, and where the bold leap of faith and imagination must take the place of plodding logic. We have no lack of witnesses to the value of those high moods of the soul. We have Euripides, for example—the great passage in the *Bacchae*—

> **Knowledge, we are not foes;**
> **I seek thee diligently,**
> **But the world with a great wind blows,**
> **Shining, and not from thee.**

We have Tertullian's famous *Credo quia impossible.* We have the saying of St. Ambrose which was Newman's favourite quotation: *Non in dialectica Deo complacuit salvum facere populum suum*—"Not by cold logic does God purpose to save his people."

Yes, but the recognition of this fact does not justify a revolt against the rational. For nine-tenths of life is capable of analysis and judgment by the human reason, and in such cases to refuse to reason its right is a crime against humanity. In some form or other the process which Hegel has defined as thesis, antithesis and synthesis must be gone through if we are to reach truth. Intuitions which claim the sanctity of a religious faith and decline the test of reason will almost inevitably land us in trouble. They *may* transcend any rational process, but we must make certain of that fact by first of all submitting them to the test of reason.

The fanatic lives only on his instincts. Take a countryman of mine who is deservedly held in high esteem, John Knox. He did a great work, and he also did an infinity of mischief, and the mischief was largely due to the fact that he lived wholly by flaming intuitions. His mind was incapable of ordinary logic. If you study his controversial work you will be amazed by its crudity and confusion. His Catholic opponents had almost invariably the better of the argument. Had John Knox been able to marry to his intuitive powers a respect for the human reason, and the gift of using it, the history of seventeenth-century Scotland would have been very different. Remember, the man whose conclusions are derived from a rational process respects those who differ from him, for he understands their case, having himself examined it, while to the non-rational intuitionist the case of an opponent is merely a blind perversity.

In the third place the true moderate has moral courage. The false moderate, of course, has no courage at all. The fanatic has a certain degree of courage, but not the highest kind. You will hear people talking about taking a bold line, about sticking to their principles, about backing their side. But that noisy clamour is usually a sign not of strength but of weakness. Extreme courses are easy to follow. They only require blind eyes and a hot temper, and the kind of courage which temper gives. It is a far more courageous thing to insist upon facing the facts, even when they involve the

surrender of part of your creed. One of my predecessors here, Lord Minto, when he was Viceroy of India, laid down in a public speech a principle which seems to me to deserve to rank as one of the great maxims of public conduct. "The strongest man," he said, "is the man who is not afraid to be called weak."

Have you ever considered what that passage in the Bible means: "They shall mount up with wings as eagles, they shall run and not be weary, they shall walk and not faint"? It sounds like an anti-climax, like a descent from the greater to the less. But I think that the meaning is exactly the opposite. It is an ascent from the easy to the difficult. It is the last feat which is the hardest. It is not so difficult in a great crisis to rise like eagles; it is not so difficult in moods of excitement to run and not be weary. But most of the world's work has to be done at a foot's pace, and the hardest task of all is to walk the prosaic roads of life and not faint.

Lastly, true moderation involves a certain intellectual modesty and a sensitive humanity. You cannot have humanity without humility. You cannot understand your neighbour's point of view if you are too dogmatic about your own, just as you cannot sympathize with your neighbour's troubles if you are too much occupied with your own. One feature of fanaticism is its overweening pride. It does not try to understand its opponents. It is content to despise them. I cannot think that this is a fruitful attitude in public or in private life. I commend to you rather the maxim of the old Irish Bishop Malachi in the eleventh century, who thus summarized the stages of human progress, *Spernere mundum, spernere sese, spernere nullum.* You begin by despising the world, you go on to despise yourself, and you end by despising nothing and nobody.

May I offer you in conclusion a shining example of true moderation? It is Abraham Lincoln. You remember the circumstances under which he became President of the United States. He was strongly opposed to slavery, but he had none of the narrow fanaticism on the subject which characterized the Abolitionists of the North. His business was to keep the nation united and to effect a great reform without disruption. You remember the famous letter in which he wrote: "I would save the Union. I would save it the shortest way under the Constitution. . . . If I could save the Union without freeing any slaves, I would do it; and if I could save it by freeing all the slaves, I would do it; and if I could save it by freeing some and leaving others alone, I would do that." When the Southern States broke away he had to face a desperate problem. He was a President elected by a minority vote. He had a thoroughly disloyal Cabinet, most of whom sneered at him as a self-educated country lawyer. He was the most pacific of men, with a deep horror of war. He had no army to speak of, and all the best soldiers had cast in their lot with the South. Could he by any conceivable means coerce by victory in the field five and a half million people back into the Union? He was no fire-eater, but a cautious and diplomatic statesman. You remember how he angled for the allegiance of the border States and said that he hoped to have the Almighty on his side, but he must have Kentucky.

Well, he had to think out his problem without any help, and he decided for war. He resolved that he must fight to prevent democracy making a fool of itself. To most of his colleagues it seemed an absurdly narrow ground, a mere debating issue; but to Lincoln it was an issue of the first importance, and the world has decided that he was right. Having made up his mind, the moderate became the enthusiast. He never lost his reasonableness, his gentleness and his wisdom, but he strove inflexibly for victory. The fanatics were all prepared, at various times, to throw up the sponge, but Lincoln, the moderate, never thought of surrender. He was determined to wage war, as he said, to the last cent and the last drop of blood, for only by a complete and final victory could he safeguard the Union. It was the same with his great opponent in the South, General Robert Lee. He, too, was a moderate, and only reached his decision after exhausting every other method, and after the most painful self-examination. But having decided, he was inflexible. The ordinary fire-eaters of the South might crack and waver, but Lee, the moderate, never faltered.

In Lincoln you have, to my mind, the greatest modern example of true moderation—of the spiritual power which comes not from a hot head and a hasty mind, but from a sincere reasonableness, complete intellectual candour, and that humility which realizes that human nature is at the best fallible, and which is purged of all arrogance and pride. I commend him to your study. The fires of moderation are slow to kindle, but once lit they do not go out until they have burned up much rubbish and opened a path for the advance of mankind to a better country.

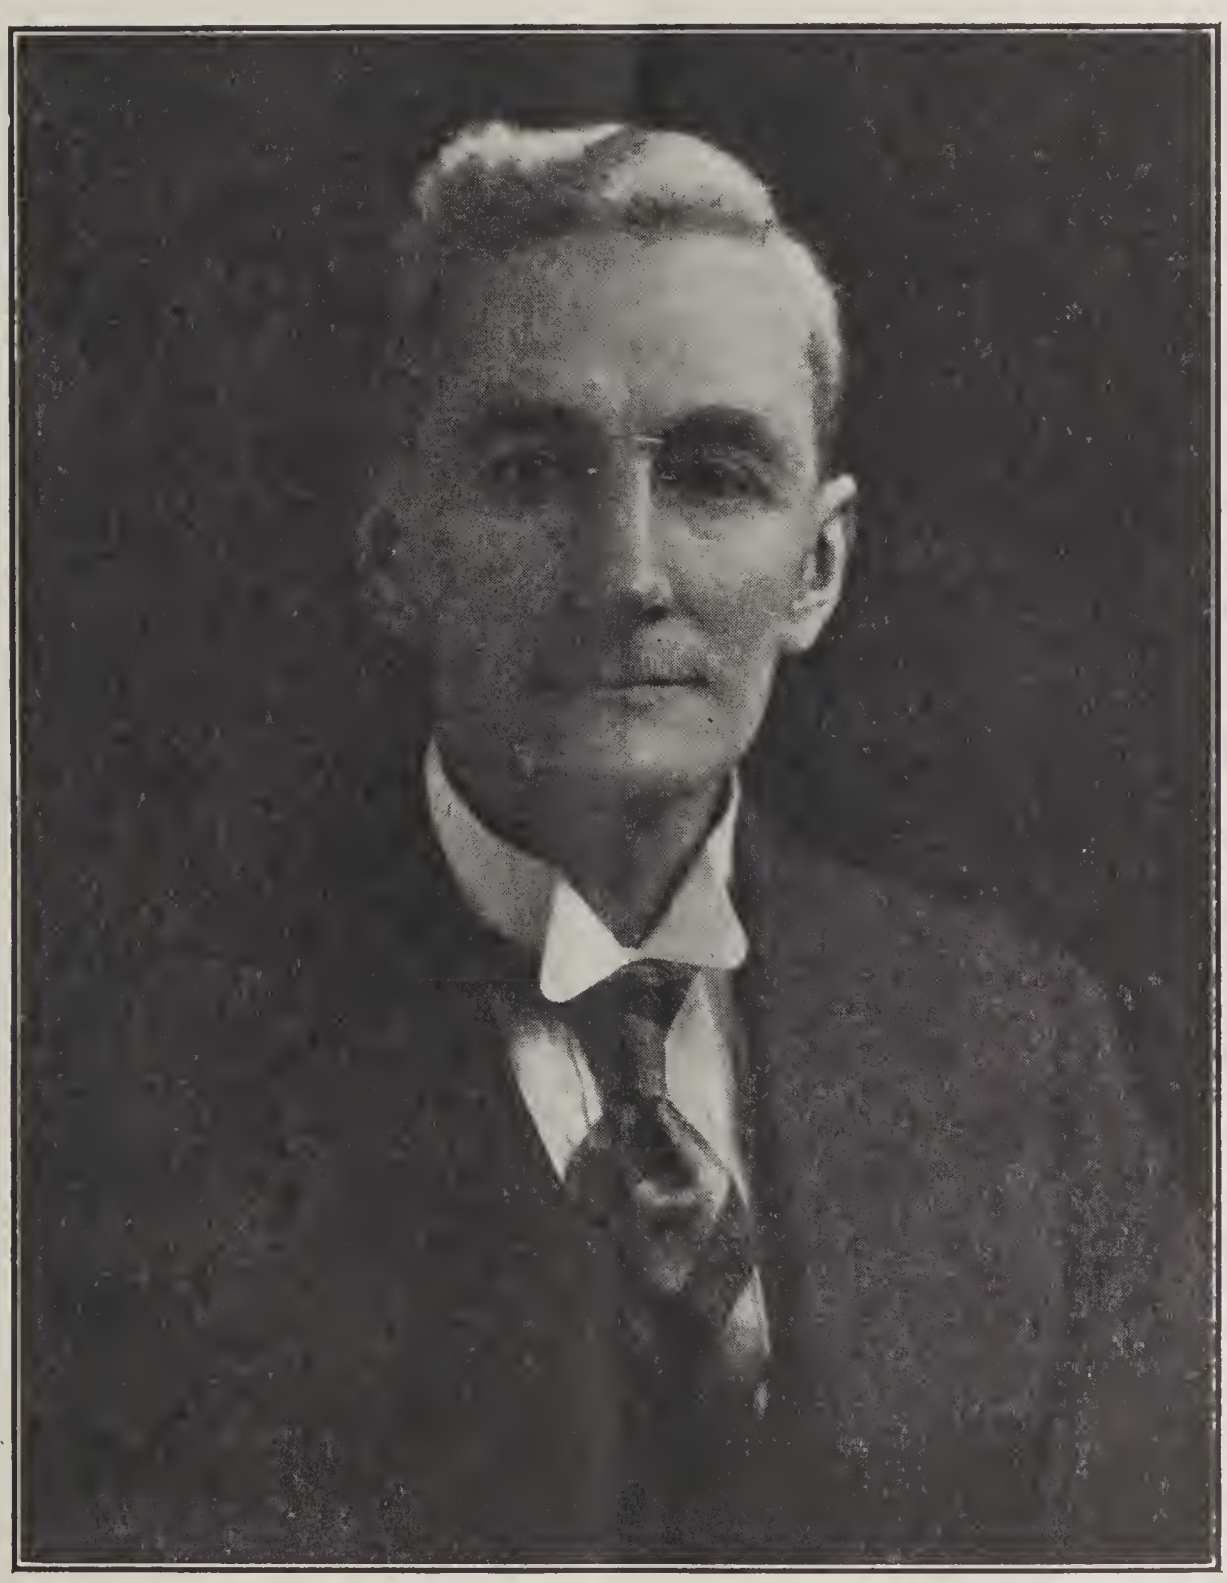

The spirit which I have tried to define has never been more necessary in the world than to-day. It is a change of heart rather than a change of mechanism which is the crying need. The revulsion from the brutalities of war in 1918 was not strong enough to bring about that clear-eyed and single-hearted effort which alone could insure the peace of the world. There were still too many fevers in the nations, and these fevers have remained as acute irritants, inflaming the eyes and distorting the mind. It is the duty of honest and public-spirited men to endeavour patiently and resolutely to bring the world back to a saner mood and a wiser temper. And that is a task in which all can help. It is a task in which our British Commonwealth especially can help with its sober realism, its steadfast good sense, and its long tradition of internal peace.

There was a famous Church Father in the Middle Ages who wrote a Latin hymn, some lines of which are always haunting my mind. "Who will achieve universal peace?" he asks, and his answer is: "The disciplined, the dedicated, the pure in heart and the gentle in spirit." Every lawyer knows that the wisest law will not succeed unless it is in tune with the spirit of a people. If it is too far ahead of that spirit it will be a dead letter. No machinery which the wit of man can frame for peace will work unless there is behind it in the world at large the proper temper of mind. To create and maintain that temper is the first duty of civilized men.

IS THE AVERAGE COLLEGE GRADUATE ILLITERATE?

IS the average college graduate illiterate? Mr. E. C. Kyte, the Queen's librarian, believes so, and said as much before the twenty-fourth annual conference of the Eastern College Librarians held at Columbia University, New York City, on November 28.

To one bored reporter, covering what promised to be a routine, dry-as-dust librarians' meeting, the words fell from Mr. Kyte's lips like manna from heaven. In the third sentence of his speech, the Queen's scholar said, "The average college graduate is illiterate," and the reporter was shocked from lethargy into action. Apparently he did not wait to hear much more, but straightway fled to

E. COCKBURN KYTE, University Librarian.

In fact, Mr. Kyte said a great deal more. He enlarged on his opening remarks about illiteracy and developed his theme in a masterful discourse upon the duties of university librarians in general, which was his intention. It was really a magnificent address, timely and to the point.

the nearest telephone to transmit his story to a news-hungry city editor.

The New York newspapers soon carried headlines concerning Mr. Kyte's statement. The United States and Canadian news service spread the glad tidings to all corners of the continent. To say that the effects were anything less than

electrifying would be an understatement. Officials of various institutions permitted themselves to be interviewed regarding Mr. Kyte's alleged heresy. A group of Queen's students, meeting in a "bull-session" in the Union, passed an informal and unofficial vote of censure. The *Queen's Journal,* commenting editorially, said that Mr. Kyte had "sounded a sour note."

And so the storm raged about the head of Mr. E. C. Kyte. Through it all, the Queen's librarian remained unperturbed. In an interview with *The Whig-Standard,* he did not take the usual "out"—that he had been misquoted—employed by speakers in similar situations. He merely said that his statement had been misinterpreted, and supported his contention with a few apt references to his complete address.

The *Review* has had an opportunity of seeing the now-famous speech in manuscript form. Mr. Kyte did say that the average college graduate is illiterate. But that phrase, ripped baldly from its context, gives an entirely erroneous impression of the general tenor of the librarian's remarks.

Said Mr. Kyte of the "average student"—"With much reading of textbooks and a little luck he obtains a B.A. and leaves the College. He has his degree and nothing else; practically an illiterate (i.e., knowing nothing of Letters), he is illiterate with a degree—and to a degree. . . . The result is that when the prodigal son of learning comes to himself, as he sometimes does, after a few years of world warfare, he discovers that his life is empty."

From this point, Mr. Kyte developed his comments to show the responsibilities of university librarians both in alleviating and preventing the conditions he had outlined. Such was the purport of his address, and the remarks regarding illiteracy were but steps leading up to his main subject. Unfortunately, as far as the newspapers concerned themselves, the steps were the only part of the house built, and hence Mr. Kyte found himself, much to his surprise, a public figure.

Now, the question will naturally arise, "To what extent is Mr. Kyte's statement true?" At first appraisal, the charge of illiteracy might create a slight resentment. But, leaving to one side the minority of scholarly, well-read and well-informed students, the weight of evidence would appear to be in support of the Queen's librarian.

The average student comes to college fired with the determination not to fail in his year. A liberal education has contributed little, at this stage, to his cultural growth. His public school has probably instilled in him a hatred of the poetry he has been compelled to learn by rote. His high-school reading has, more than likely, created a distaste for literary classics. The university calendar awes him. It mentions more books than have entered his ken before, and he is expected to read these books. But reading them promises a tangible reward in the form of a degree, and so he resigns himself to his task. Where books are divided into collateral and essential, he will probably ask which are the more essential. If reading cannot be related in some manner to his definite object it is not for him. Social responsibilities usurp most of his spare time not given to textboooks.

This is not idle theorizing, as most graduates who stop to consider their own cases will be forced to agree. Alumni are writing to the Queen's library, and probably to those of most universities, in ever-increasing numbers, sadly admitting that they have never learned the pleasures of good reading and asking for light and guidance.

It was on this premise that Mr. Kyte addressed the convention of librarians in New York. He deliberately set out to startle his listeners into attention and action, and he succeeded in presenting a forceful case. Nor was the Queen's librarian merely making a speech, for he practises what he preaches. He considers it part of his duty to make the Douglas Library interesting and attractive as well as useful to the undergraduates—to instil in them a love for fine literature. He is quite as eager to serve the alumni; his advice, his suggestions, his book lists are always available to them for the asking.

CFRC PROGRAMMES HOLD WIDE INTEREST

INAUGURATED in November, 1936, the week-by-week series of educational addresses broadcast over Queen's radio station, CFRC, was continued during December, coming to a close for the year on the eighteenth.

Although an infant project of the University, this new series of radio lectures is already firmly entrenched as one of the most popular features offered to the public of the Kingston district. The programmes have been well-balanced and thoughtfully prepared, covering the general topics of literature, science, medicine, social sciences, art, music and modern books. Thus in a single week such widely differentiated subjects as the following may be offered—"Caesar," "Misconceptions Concerning Kidney Disease," "Canada and the Commonwealth," "The Nativity in Art," and "Some New Poets."

During December, addresses were contributed by staff members, including Dr. Marcel Tirol, Prof. A. E. Prince, André Biéler (2), E. C. Kyte (3), Prof. James A. Roy, Dr. W. A. Mackintosh, Dr. F. L. Harrison, Prof. L. E. Law, Prof. J. A. Corry. Three addresses of a professional nature were given by members of the Medical faculty who, for ethical reasons, remained anonymous.

The series is being resumed this month.

GRADUATES NOMINATE THREE TRUSTEE CANDIDATES

IN the graduate nominations for the Board of Trustees, which closed on December 31, three candidates were proposed for election to the Board as alumni representatives for the ensuing three-year period. They are Dr. W. C. Clark, M.A. '10, LL.D. '35, of Ottawa; Mr. R. M. Smith, B.Sc. '14, of Toronto; and Miss Charlotte Whitton, C.B.E., M.A. '17, of Ottawa. Two of these candidates are to be elected, and ballots are now being mailed to the graduates. The ballots must be returned to the Registrar of the University on or before March 31, 1937.

Dr. Clark has been Deputy Minister of Finance at Ottawa since 1932. Prior to then he had a distinguished career as a professor in the Economics department at Queen's, as an eminent economist in the United States, and as director of courses in Commerce and Administration at Queen's. He has been a member of the Board of Trustees since 1934.

Mr. Smith has been Deputy Minister of Highways for Ontario since 1927. He rose to this important post from the junior ranks of the Provincial engineering services, to which he has been attached continuously since 1910, with the exception of four sessions at the University. He has been a member of the University Council since 1935, and a member of the Athletic Board of Control for several years.

Miss Charlotte Whitton has been executive director of the Canadian Council on Child and Family Welfare since 1925. She had previously been private secretary to the Minister of Trade and Commerce at Ottawa, and assistant secretary of the Social Service Council of Canada. She was created a C.B.E. in 1934. Miss Whitton has been active in the affairs of the University for many years, and has been a member of the Board of Trustees since 1928.

UNIVERSITY RECEIVES HANDSOME BEQUESTS

WITHIN the past few weeks, gifts totalling more than $100,000 have been received by Queen's from the estates of two benefactors, neither of whom was a graduate of the University.

Of this amount, $40,000 came on December 4 in connection with a residue distribution of the estate of the late Col. R. W. Leonard, of St. Catharines. This substantial gift will be augmented later by $20,000. The purpose to which the income from these bequests will be devoted has not yet been determined by the University. There are no conditions attached.

It was also announced that twelve special scholarships of $150 each had been added to the grant to Queen's under the terms of the Leonard will. The University had already been allotted scholarships and fellowships, aggregating more than $2800 a year, and other payments have been made from time to time.

On December 15, probate of the will of Mrs. Susan Near revealed the establishment of a $50,000 fund to be used for scholarships by Queen's. Mrs. Near's testament contained a clause identical to one in her husband's will, which, in 1935, placed a similar scholarship fund at the disposal of the University.

Colonel Reuben Wells Leonard was a mining engineer who had served as a member of the Board of Governors of the School of Mining and later as a member of the Board of Trustees of Queen's. The Leonard Field, part of the University property, was an earlier gift, made in his life-time. Colonel Leonard died in 1930.

William Wallace Near was also a warm friend of Queen's and had served on the Board of Trustees. He was president and manager of Page-Hersey Tubes, Limited, and vice-president of the Dominion Bank. His death occurred suddenly in Toronto in 1935. His widow died in November, 1936.

BENEFACTORS' TRUSTEES ELECTED BY ACCLAMATION

ONLY two persons, Mr. T. A. McGinnis, B.Sc. '09, and Mr. A. E. MacRae, B.Sc. '14, were proposed by the benefactors of the University for election as their representatives on the Board of Trustees in the nominations which closed on December 31. As there were just two vacancies to be filled, Messrs. McGinnis and MacRae, both of whom were retiring members of the Board, are thus re-elected by acclamation.

Mr. McGinnis, for many years a highway contractor with headquarters in Kingston, has been a trustee since 1932, as representative of the benefactors in general. He will now serve on the Board in the same capacity until March, 1941. Mr. McGinnis has always taken a keen interest in athletics at the University and for several years has been chairman of the Athletic Board of Control. It was due largely to his initiative that the beautiful new Gymnasium was built in 1930.

Mr. MacRae is a consulting engineer and patent solicitor, with offices in Ottawa. He is also president of the General Alumni Association of the University. He is now re-elected to the Board of Trustees for the next three years, as representative of the benefactors of the former School of Mining. He has been a member of the Board since March, 1936, having succeeded the late Dr. J. Mackintosh Bell.

H. J. HAMILTON, ARTS '32, JOINS ALUMNI STAFF

THE vacancy on the staff of the General Alumni Association, created by the death in December of C. S. Lundy, Sc. '27, has been filled by the appointment of Herbert J. Hamilton, Arts '32, as assistant editor of the *Review*. The duties of this post had been temporarily assumed by A. E. Gratton, Arts '36, during the late Mr. Lundy's illness.

H. J. HAMILTON

Mr. Hamilton comes to the *Review* with four years of experience as reporter and sports columnist on the *Kingston Whig-Standard*. During his undergraduate days "Herb" was editor of the *Queen's Journal* and president of the Press Club. He also served on various executives and committees.

QUEEN'S GRADS PROMINENT IN MEDICAL ASSOCIATION

IN late years there has been much talk of monopolies. Antagonists of the capitalistic system decry the ever-increasing tendency towards exclusive possession as one of the greatest evils of the present social order. But there is one monopoly, that enjoyed by Queen's graduates in the Lennox and Addington Medical Association, which none will question. With the exception of two, all the officers of the Association are graduates of the Faculty of Medicine at Queen's.

Here is the list of officers appointed for 1937 at a recent stag dinner, business meeting and social evening held at Napanee, Ont.: president, Dr. T. M. Galbraith, Arts '06, Med. '10, Napanee:

vice-president, Dr. A. R. E. Mounce, Newburgh; secretary-treasurer, Dr. J. M. Munro, Med. '18, Odessa; executive committee—Dr. D. R. Hall, Med. '21, Napanee; Dr. F. C. Wilson, Napanee, Dr. C. M. Stratton, Med. '02, Napanee, Dr. J. B. Willoughby, Med. '16, Napanee; other committee representatives, in addition to members mentioned above—Dr. G. W. Davis, Med. '33, Flinton, Dr. W. H. V. Duffett, Med. '16, Napanee, Dr. J. E. Mabee, Med. '87, Odessa, Dr. H. C. Burleigh, Med. '26, Bath.

To give the meeting even more of a General Alumni Association branch tinge, the following members of the Frontenac Medical Association were guests: Dr. W. A. Jones, Queen's Medical staff, Dr. J. S. Delahaye, Med. '27, Dr. R. R. McGregor, Med. '16, and Dr. D. W. Boucher, Med. '28, all of Kingston.

GRADUATE ELECTIONS TO UNIVERSITY COUNCIL

THE names of sixteen candidates have been placed in nomination by graduates or by the executive committee of the University Council for this spring's Council election. Nine of these candidates are to be elected and will hold office until 1943.

Voting papers are being mailed to the graduates, and the completed ballots must be returned to the secretary of the Council on or before March 31. For the guidance of voters, brief information regarding each candidate is given on the reverse side of the ballot.

The nominees are as follows: G. C. Bateman, Sc. '05, Toronto (one of the Council's representatives on the Board of Trustees); W. G. Cornett, Arts '18, Med. '21, Hamilton; A. E. Day, Arts '95, Kingston; W. C. Dowsley, Arts '98, Brockville; J. A. Edmison, Arts '26, Montreal; A. G. Fleming, Arts '04, Sc. '07, Montreal; W. S. Kirkland, Arts '98, Toronto; C. W. Knight, Sc. '02, Toronto; Mrs. H. A. Lavell, Arts '91, Kingston; C. B. Macartney, Med. '11, Thorold; J. Y. MacKinnon, Arts '11, Theol. '15, London; N. B. MacRostie, Sc. '11, Arts '14, Ottawa; A. D. Matheson, Arts '12, Theol. '16, Quebec City; Mrs. Etta Newlands, Arts '92, Kingston; N. G. Stewart, Arts '11, Sc. '15, Toronto; J. M. Young, Arts '02, Med. '04, Windsor.

The following appointments have been made by the executive committee to fill existing vacancies on the Council: T. J. Goodfellow, Arts '07, Med. '09; Saratoga Springs, N.Y.; J. E. S. Dunlop, Arts '04, Winnipeg; B. E. Norrish, Sc. '08, Montreal.

UNIVERSITY LECTURES PROGRAMME ANNOUNCED

"SOME Canadian Problems" is the general theme of this year's series of special Monday-afternoon lectures arranged for January and February by the Public Lectures Committee of the University.

As in the past, the lectures will be held at five o'clock in Convocation Hall. They will be broadcast over Queen's radio station, CFRC. The programme is as follows:

January 18—"Geographical Barriers in Canada. How Can They Be Overcome?" Principal R. C. Wallace.

January 25—"Canadian Immigration. What Is a Sound Policy?" Dr. W. A. Mackintosh.

February 1—"Has Canada a National Culture?" Dr. R. G. Trotter.

February 8—"The Defence of Canada. Is It Adequate?" Prof. D. M. Jemmett.

February 15—"The Problem of the Unfit. What Should We Do?" Dr. R. O. Earl.

February 22—"The Economic Stability of Canada. Are There Disintegrating Forces," J. Courtland Elliott.

GRADUATE COMPLETES FIFTY YEARS AS TEACHER

AFTER half a century in the teaching profession and with a splendid record behind him, Francis R. Parker, Arts '87, principal of the Elmira, N.Y., Free Academy, is planning to retire some time during the present school term. Mr. Parker is now serving his thirty-first year as the Academy's principal.

This prominent New York State scholar graduated from Queen's with first-class honours and the silver medal in Latin and Greek. He began his teaching career in January, 1888, as an instructor in the high school at Kemptville, Ont. In December, 1889, he went to the high school at Orangeville, Ont., where he remained until 1892, then becoming an instructor in Latin and Greek in the Owen Sound Collegiate Institute. After seven years in this position Mr. Parker moved to the United States to become principal of the Mexico, N.Y., Free Academy. One year later he was made head of the Latin and Greek department of the Cortland Normal School, a post which he held until his selection as principal of the Elmira Academy in 1906.

During summer vacation periods, Mr. Parker devoted his time to study and teaching. In 1899 he was awarded a graduate scholarship with a value of $600 for advanced study at Columbia University. He received his M.A. from Queen's in 1909.

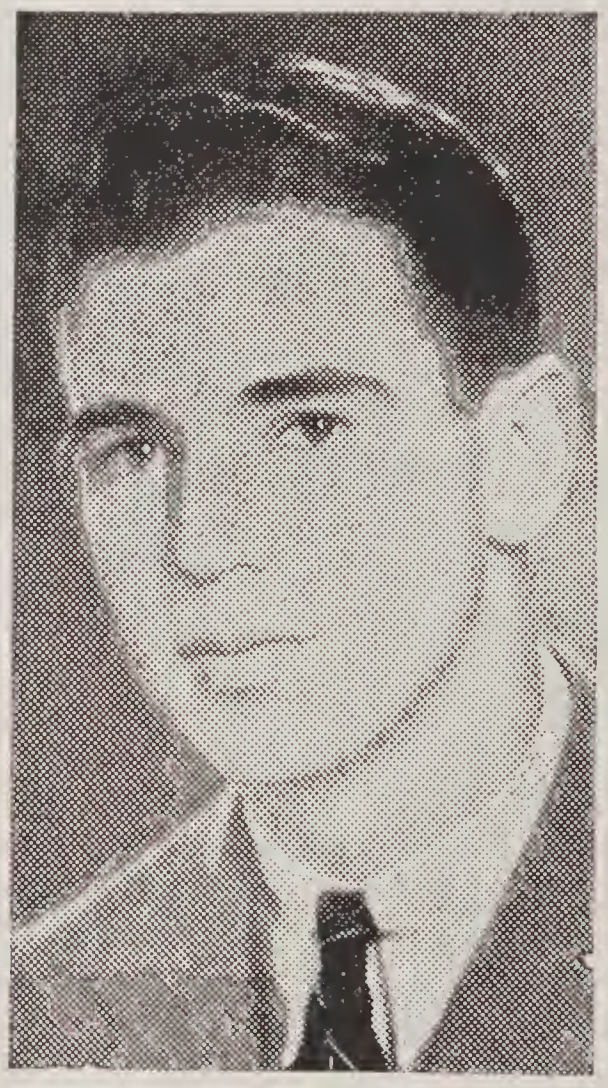

Mr. Parker has been honoured on many occasions by election and appointment to posts of responsibility. In 1905 he was made vice-president of the New York State Classical Teachers' Association, and in 1912 was appointed president of the Associated Academic Principals of New York State. In 1909 and 1910 he served as chairman of the committee for the revision of the Latin syllabus for the New York State Education Department, and from 1914 to 1918 he was examiner in Greek for the same department.

Travelling in the Western United States and Canada is Mr. Parker's programme for the immediate future.

J. G. DAVOUD, ARTS '37, WINS RHODES SCHOLARSHIP

TO John Gordon Davoud, Arts '37, belongs the honour and distinction of being the twelfth Queen's student to win a Rhodes scholarship. Only twenty years of age, Mr. Davoud expects to graduate with an Arts degree in chemistry and physics in the spring. This brilliant young man has had a meritorious scholastic and athletic record, and his selection as a Rhodes scholar has met with popular approval.

Mr. Davoud, son of Mrs. Constance Davoud and the late V. Y. Davoud, is a resident of Kingston. He was born in Salt Lake City, Utah, and later resided in Montclair, N.J., where he attended public school. He moved to Kingston in 1926, completing his primary education at Victoria School before attending Kingston Collegiate and Vocational Institute. In his final collegiate year he won the Prince of Wales scholarship in chemistry and physics and the McLeod and

J. G. DAVOUD

McLean scholarships. In his second year at Queen's, Mr. Davoud was awarded a University scholarship for general proficiency and, in the following year, he won the Leonard scholarship in physics.

The new Rhodes scholar has long evinced an active interest in athletics. As a student at K.C.V.I., he was a member of a relay team which set an Eastern Ontario record in 1932, and the mark still stands. He played junior rugby at Queen's in his first, second and final years, and was awarded the Royal Todd trophy as the most valuable player on the 1934 junior team. Mr. Davoud is also

the present holder of the singles championship of the Kingston Badminton Club and plays a strong game of golf and tennis. Among his general accomplishments can be included his recognized skill as a pianist.

The last Rhodes scholarship won by a Queen's student was awarded to D. A. Skelton, Arts '27, in 1926. Mr. Skelton is now chief statistician of the Bank of Canada. The first Rhodes award to come to Queen's was won in 1905 by J. M. Macdonnell, present chairman of the Rhodes Scholarship Committee for Ontario.

The complete list of Queen's Rhodes scholars is as follows: 1905, J. M. Macdonnell, M.A.; 1906, A. G. Cameron, B.A.; 1907, N. S. Macdonnell, M.A.; 1911, Stanley Scott, B.A.; 1912, H. S. Smith, M.A.; 1914, A. G. Cumming, B.A.; 1919, H. R. MacCallum, B.A.; 1920, K. E. Taylor, B.A.; 1922, A. D. Winspear, B.A.; 1925, L. F. Kindle, B.A.; 1926, D. A. Skelton, B.A.; 1936, J. G. Davoud.

DR. JAMES MILLER APPOINTED AS CONSULTANT PATHOLOGIST

DR. JAMES MILLER and Queen's University were highly honoured during December by the appointment of the former as consultant pathologist to the Ontario Department of Health in succession to the late Dr. Oskar Klotz, of the University of Toronto. This important post was tendered to Dr. Miller in recognition of his long service as head of the Pathology department at Queen's and as director of the Provincial laboratories at Kingston, both of which offices he has filled with distinction for sixteen years.

After graduating with the degree of M.B. at Edinburgh University in 1899, Dr. Miller served in South Africa during the Boer War and then spent a year in Germany. In 1902 he went to the University of Birmingham as lecturer in pathology and remained there for eight years. In 1904 he obtained his M.D. from the University of Edinburgh, winning the gold medal. Subsequently he became lecturer in pathology at the School of Medicine of the Royal College, Edinburgh, and at the Edinburgh School for Women. During the Great War he served as pathologist at the No. 2 Scottish General Military Hospital in Edinburgh. He came to Queen's in 1920.

Dr. Miller is a fellow of the Royal College of Physicians of Edinburgh, a fellow of the Royal College of Physicians of Canada, and a fellow of the Royal Society of Canada. He also holds the degree of D.Sc. from the University of Birmingham.

The Provincial laboratories in Kingston, which are operated in conjunction with the University and the Kingston General Hospital, serve eleven counties. They make daily reports on the water and milk supplies and on various infectious diseases. They also carry on tissue examinations and distribute serums as required. The extent of the laboratory work under Dr. Miller's direction may be gathered from the statement that during the past year twenty thousand reports and two thousand tissue examinations were made.

Dr. Miller's new appointment will not necessitate his leaving Kingston. He will carry on his consulting work in addition to his former University and Government activities.

CAMPUS BRIEFS

ROOM 111 in the Douglas Library, long the stronghold of the art exhibitions and latterly housing the Carnegie music equipment, will be devoted in the future entirely to the music lovers. The art exhibitions will now be held in the Senate Room, Convocation Hall — a happy arrangement, inasmuch as Mr. André Biéler, resident artist, has his studios on the top floor of this building.

* * * *

Christmas examinations commenced on December 14 and concluded on December 22, while the examinations in the half courses started on January 4 and continued until January 7. The large majority of students went home for the vacation period, which ended on January 7.

The Navigation School at Queen's opened for its twenty-fourth session early in January. Captain A. Barrett is again in charge, and is giving instruction for all grades of certificates, including that for coasting master. There are no tuition charges for these courses, only a nominal registration fee. The School is of three months' duration and is held in Ontario Hall.

Issue No. 1, Vol. 2, of the *Medical Log,* official publication of the Aesculapian Society, came off the press in December. It contains a number of excellent articles of a technical nature and is prefaced with a foreword by Principal R. C. Wallace. The purpose of the *Log* is to present the opinions of the staff, students and friends of the Medical faculty.

STUDENT ACTIVITIES

THE Levana debating team, consisting of Miss Margaret Fenton, '39, of Ottawa, and Miss Eileen Workman, '37, of Ottawa, and upholding the affirmative side of the resolution "that professional women should continue their careers after marriage," was defeated by a team representing the University of Toronto in Ban Righ Hall on December 2. On the same evening a Queen's co-ed team lost to McMaster University in Hamilton, debating the negative side of the same resolution.

* * * *

"The Wind and the Rain," a three-act play by Merton Hodge, was presented by the Dramatic Guild on December 9 and 10 in Convocation Hall before large audiences. The production, under the direction of Lorne Greene, Arts '37, of Ottawa, gave a vivid and humorous insight into life at a Scottish university.

Mr. H. Thomassen, chief welding engineer of the Canadian Westinghouse Company, addressed a general meeting of the Engineering Society on December 4 on "Electric Welding."

* * * *

Dr. L. J. Austin spoke on the development of the Army Medical Service before a meeting of the Queen's C.O.T.C. on December 4.

* * * *

H. V. Shaw, Arts '37, of Toronto, editor of the *Queen's Journal,* resigned at the conclusion of the fall term. He has been succeeded by W. A. Neville, Arts '38, of Kingston, who had been managing editor. Mr. Shaw has joined the staff of the *Kingston Whig-Standard.*

* * * *

Miss Bernice Brown Cronkhite, dean of women at Radcliffe College, Cambridge, Mass., addressed a meeting of Levana in Ban Righ Hall on December 8.

THE BOOKSHELF

The Carnegie Fund enables the Douglas Library to purchase books that no one department of the University might consider to be within its scope. Some of the volumes so purchased are noted below. All these, though primarily intended for undergraduate students, are quite at the disposal of alumni who wish to read them, and the Librarian will be pleased to forward any that may be desired.

ANDERSON, M.—WINTERSET. A prize-winning play, "featuring" ideas and gunmen.

BELL, G. K. A.—RANDALL DAVIDSON, ARCHBISHOP OF CANTERBURY. Life of a great and wise man.

BAKER, HERBERT — CECIL RHODES. South Africa on the upgrade.

BROOKS, VAN WYCK—THE FLOWERING OF NEW ENGLAND. A delightful account of the puritan spirit in the nineteenth century and of the men who let the flower die.

GUNTHER, J.—INSIDE EUROPE. Politics, bayonets and scared civilians.

HOGBEN, L.—MATHEMATICS FOR THE MILLION. Insinuates the idea that mathematics is just a pleasant pastime.

HUNTER, D.—PAPER-MAKING THROUGH EIGHTEEN CENTURIES. By the great American authority. Illustrated history.

JOHNSON, E. B.—THE ART OF THE PENCIL. The tricks of the trade. How to draw confidently.

JOHNSON, E. B.—THE TECHNIQUE OF FLOWER PAINTING IN OIL, WATERCOLOUR AND PASTEL. Helpful illustrations in colour.

LEAKEY, L. S. B.—STONE AGE AFRICA. An amazing record of primitive cultures.

MODERN SWEDISH SHORT STORIES. There is a fresh vitality and a new viewpoint about these.

LYTTON, EARL OF—ANTONY. A father's record of his dead son. A living book.

MILLIN, S. G. — GENERAL SMUTS. Shows the evolution of a great man.

MITCHELL, M. — GONE WITH THE WIND. An unbiased account of the sufferings of the South in reconstruction times.

MODERN PHOTOGRAPHY, 1936-37. International beauty.

MUSEUM OF MODERN ART—VINCENT VAN GOGH. The career of an amazing painter and a strange man.

PEDDIE, R. A. (ed.)—PRINTING. The leading English authority compares new and old.

PRESCOTT, F. — MODERN CHEMISTRY; THE ROMANCE OF MODERN CHEMICAL DISCOVERIES.

RICHMOND L., AND LITTLEJOHNS, J.—THE TECHNIQUE OF PASTEL PAINTING.

ROBERTSON, C. G.—BISMARK. A sharp and vivid history of a politician.

ROTHA, PAUL—DOCUMENTARY FILM. How it is prepared.

SELDES, G.—SAWDUST CAESAR. Mussolini; *not* by an admirer.

ATHLETICS

Basketball

WITH five members of last year's Intercollegiate champions and five top-flight newcomers under his charge, Coach Ralph Jack is busy building another basketball team capable of defending the laurels Queen's acquired in 1936. The Tricolour swept through the league last season with the loss of only one game and is regarded as the team to beat for the title this year.

At centre, Queen's has Captain Mal Cunningham, an all-Intercollegiate star for the past two years. The other veterans include Doug Rooke, Mal Bews, Harry Sonshine and Johnny Edwards. Those who will be seeing action with the seniors for the first time are Joe Hoba, a fine, experienced player from St. Catharines; Ian Vessie, of last year's intermediates; Vic Knowles, individual star of the sensational 1936 junior champions; Bob Davis, from Ottawa Glebe; and a lad named Spence, who hails from the West.

The annual tour of Northern New York State colleges and universities had to be abandoned this year because the time-table for mid-year examinations did not permit the Tricolour to leave before Christmas and it is not possible to make arrangements across the border after that date. A series of exhibition matches has been prepared to replace the tour and to serve as a "tune-up" prior to the opening of the Intercollegiate schedule.

One exhibition game was played on December 5 at the Queen's gym, when the Tricolour entertained Ottawa "Underwoods," who under the name of "Rangers," reached the Dominion finals last

year. After a hard-fought struggle the collegians emerged victorious, thereby serving a warning to the other college teams.

The Intercollegiate schedule opens for Queen's on January 23, when the Tricolour plays McGill in Montreal. Other games are as follows—February 5, Varsity at Queen's; February 13, McGill at Queen's; February 19, Queen's at Varsity; February 20, Queen's at Western; February 26, Western at Queen's.

Hockey

FOR the first time in seventeen years Queen's played against a United States hockey team in Kingston when they opened the newly formed International Intercollegiate League with a 6-1 win over Princeton Tigers in the Jock Harty Arena on December 19. Princeton scored in the first two minutes of play, but the Tricolour tallied three times before the period ended, to take a commanding lead that was never relinquished.

Queen's presented an aggressive lineup which should be able to hold its own in the new league. Although the Tricolour did not enjoy as great a margin of superiority against Princeton as the score would indicate, the team looked like a worthy representative. A revival of interest in college hockey is certain to follow.

Princeton, pioneer in international hockey, could do everything but score against Queen's. Still smarting from a 10-0 shutout administered by the University of Toronto the night before, the Tigers launched a methodical team-play attack and employed short-passing tactics reminiscent of the basketball court, rushing the Queen's goal-tender continually and being kept out of the scoring column only because of inability to shoot accurately.

In contrast, Queen's tried little teamwork, and most of their six goals resulted from solo sorties to the Princeton end of the rink after the Tigers had rushed *en masse* to their opponents' net. It was the first game of the season for the Tricolour, and the players were obviously nervous and over-anxious. Coach "Flat" Walsh, formerly goal-tender for the Montreal Maroons in the National Hockey League, should be able to iron out most of the team's faults and weaknesses by the time the schedule gets fully under way.

Johnny Munro, of football fame, was one of the stars of the game for the Tricolour, scoring two goals and engineering most of his team's plays. Joey Catlin, of last year's great little Kingston junior team, was also a standout, with two goals and an assist to his credit; while Johnny Poupoire proved to be one of the Tricolour stalwarts, with two goals and a steady performance throughout.

THE ALEXIS THOMPSON TROPHY

For the Tigers, Jack Bissell, captain and centre, was the best, being a genuine scoring threat at all times and the spearhead of his team's attack. Budge Miller, Bill Barrett and Harry Fraker were also prominent for Princeton.

* * * *

With the beautiful Alexis Thompson trophy as the prize, the eight college teams participating in the new International league should have a strenuous

season chasing the elusive puck. A merry scramble is to be expected among the teams from Queen's, University of Toronto, University of Montreal, McGill, Princeton, Dartmouth, Yale and Harvard before the trophy comes to a final resting place.

* * * *

Not only is the International Intercollegiate title at stake, but the American colleges are playing for the Quadrangular title and the Canadian colleges are deciding the Canadian Intercollegiate crown.

* * * *

The Tricolour had fifteen players in uniform for the game with Princeton, instead of ten as usual. American rules permit the extra five players, and all the international games in the college circuit will be played under the U.S.A. code. When Canadian teams meet, C.A.H.A. rules will prevail.

* * * *

Queen's last played an international hockey game in Kingston in 1919 against Yale, winning that encounter. Yale returns to meet the Tricolour again on February 1.

B. W. & F.

PROSPECTS for regaining the Intercollegiate boxing, wrestling and fencing title, which McGill wrested from Queen's last year by the narrow margin of one-third of a point, appear to be exceedingly bright. Graduation has taken its usual toll, but a sufficient number of veterans is present to form a nucleus of a strong team.

The biggest gaps exist in the ranks of the wrestlers, but with Coach Jimmy Bews at the helm Queen's can be counted on to produce formidable opposition. The boxing team boasts several current and former Intercollegiate champions—Sam Smolkin, Jack Irving, Des Smythe, Al Tisdale, "Chuck" McLean and "Hank" Thoman. In addition, members of former Intercollegiate squads have been turning out, so that Coach Jarvis is wearing as close to a confident smile these days as is possible for that canny mentor to achieve. Little is known of the outlook for the fencers, other than that a faithful class of foil artists has been training all fall.

Two freshmen assaults were held prior to the mid-year examinations, and both were productive of the fastest bouts seen on cards of this nature in years. Not only did the participants display a surprising knowledge of ringcraft, but at least three appeared to be already of Intercollegiate calibre.

Sport Shorts

IN selecting the most valuable member of any team, the players themselves frequently make a choice widely at variance with that of sports writers. Unanimity was the key-note this year, however, in the awarding of the John Evans trophy, presented annually by vote of the players to the "most valuable" member of the senior football team. Harry Sonshine, given a berth on many all-star Canadian teams by the experts, was picked by his team-mates for this signal honour at the dinner for coach, team and officials, held in the Students' Union on December 5.

HARRY SONSHINE

Fans who saw the Queen's team in action last fall will be prompt to concur with the selection of Sonshine. Ever since coming to Queen's, the big, rugged Toronto boy has been a standout on the Tricolour senior line-up, and this year he climaxed his college gridiron career with a performance that stamped him as one of the "greats" of the game to-day. Sonshine played football the clean, hard way, and his graduation this spring will leave a big gap in the Queen's line.

* * * *

Tom Daley, youthful star backfielder of the sensational Ottawa Rough Riders football team, is reported to be entering

Queen's next year. Daley played an important rôle in the rise of the Rough Riders from last place in the Big Four league to the championship, and he is regarded as one of the most promising players developed in recent years. Daley is attending an Ottawa collegiate this year.

* * * *

Johnny Wing, Sc. '36, former Queen's football and hockey stalwart, is another athlete who is still participating in his favourite sports after graduation. Wing is holding down the centreman's position on the Quebec Aces, in the Montreal senior league. His overtime goal gave the Aces a victory over Montreal Canadiens in his first game.

* * * *

Coach Ted Reeve of the senior team has turned author since the football season ended, his first book having been published in December. The little volume is a collection of his best newspaper pieces and is written in the vein of his best humour.

Nick Paithouski was awarded the Royal Todd trophy as the most valuable member of the junior football squad by his fellow players. Weighing only 155 pounds, Paithouski held down the snapback berth in sterling fashion and was a tower of strength to his team in its drive toward the group championship in the O.R.F.U. He hails from Sarnia and is a freshman in Science.

* * * *

Queen's is entering a team in both the intermediate and junior Eastern Ontario Basketball Association this year. The schedules of these groups start on January 16 and conclude in the middle of February.

* * * *

Dr. Reg. Patterson, Med. '36, former Queen's hockey star, is still "going strong," this time as a defence player with the St. John, N.B., Seagulls. One newspaper despatch cites Patterson as "the most outstanding player on the team."

AT THE BRANCHES

Windsor

A FURTHER contribution to the Grant Hall Fund was made by the Border Cities branch of the General Alumni Association as the result of a successful bridge party held in the Moose Temple, Windsor, on December 11.

A large number of members thoroughly enjoyed the evening's entertainment. The prizes were won by Mrs. W. R. Waddell, Miss Estella Cragg, R. J. Srigley, Sc. '25, and C. W. Scott, Sc. '26. C. G. Showers, Sc. '23, branch president, and Miss Emily Hennessy, Arts '30, secretary, were in charge of the arrangements.

A full turn-out of the Border Cities alumni is being looked for on February 5, when Principal Wallace is scheduled to visit the branch. Further details will be sent out by the executive as soon as possible.

Western Ontario

PLANS have been made for Principal Wallace to visit the Western Ontario branches of the General Alumni Association during the latter part of January and the first week of February. The tentative programme is as follows:

St. Catharines, Saturday, January 30.
Kitchener, Monday, February 1.
Brantford, Tuesday, February 2.
London, Wednesday, February 3.
Chatham, Thursday, February 4.
Windsor, Friday, February 5.
Sarnia, Saturday, February 6.

The executives of these branches will inform the alumni in their areas of the final arrangements as soon as these are completed. In the meantime all Queen's people in or nearby the centres mentioned are asked to keep the above dates definitely in mind.

Toronto

THE annual meeting of the Toronto branch of the General Alumni Association was held on November 13, and the following executive was elected for the ensuing year: honorary presidents, J. A. C. Cameron, Arts '88; J. C. Macfarlane, Arts '11, and N. G. Stewart, Arts '11, Sc. '15; past president, D. G. Geiger, Sc. '22; president, R. J. Aitchison, Arts '29; vice-presidents, Capt. E. A. Baker, Sc. '14. J. A. Broadbent, Arts '29, Dr. A. E. Lavell, Arts '91, and P. A. Moreland, Arts '24; treasurer, R. W. Willis, Sc. '27; secretary, V. S. Murray, Sc. '28; committee—H. E. Armstrong, Arts '22, Com. '24, J. W. Davis, Com. '33, K. E. Kennedy, Arts '31, A. H. Lemmon, Arts '29, L. E Marion, Sc. '32, Norman McLeod, Arts '26, R. C. McNeil. Com. '31, W. D. Muir, Com. '33, R. F. Poole, Arts '34, R. E. Story, Arts '30, and R. S. Welsh, Arts '24, Com. '28.

R. J. AITCHISON, President

A special feature of the evening was an address by J. Courtland Elliott, Arts '19, economist for Messrs. A. E. Ames and Company, who spoke on "Some Queer Facts about Public Finance." Mr. Elliott has had a great deal of experience in this connection during the past several years, and his talk was greatly enjoyed.

In addition to the elections and Mr. Elliott's address, reports by various committees were read. That of the committee in charge of the annual rugby dance, under the chairmanship of Alan Broadbent, showed that the event had been very successful in every way and that a satisfactory profit had been made. A substantial part of this revenue was voted to the Grant Hall Fund. Arrangements were also made for a dinner to be held on January 15 in honour of Principal and Mrs. Wallace.

Ottawa

ON November 27 Dr. S. F. Kirkpatrick, formerly head of the Metallurgy department at Queen's, entertained at his home a group of Ottawa graduates who had studied under him while he was on the staff of the University. Dr. Kirkpatrick was the same good friend and thoughtful and happy host that these alumni had known through the course of many years.

A buffet supper was served, and subsequently a number of those present told something of their work since graduation and furnished information regarding others with whom they had associated in college days. Dr. Kirkpatrick also directed the discussion on numerous topics of interest to engineers, and some very interesting facts were disclosed.

Those in attendance were: E. E. D. Wilson, Sc. '11, A. K. Light, Sc. '17, R. K. Carnochan, Sc. '16, R. M. Cram, Sc. '13, E. M. Dennis, Sc. '04, MacKay Meikle, Sc. '12, J. S. Stewart, Sc. '11, B. R. MacKay, Sc. '08, W. B. Timm, Sc. '06, N. B. Davis, Sc. '11, W. H. Losee, Sc. '12, A. E. MacRae, Sc. '14, C. H. Freeman, Sc. '13, H. L. Scott, Sc. '14, C. S. Parsons, Sc. '13, S. G. Dawson, Sc. '12, A. K. Anderson, Sc. '13, L. L. Bolton, Arts '02, Sc. '06, R. J. McDonald, Sc. '22, J. R. Marshall, Sc. '11, L. E. Wright, Sc. '11, H. L. Beer, Sc. '14, R. Bartlett, Sc. '11, J. R. Akins, Sc. '07.

Edmonton

ALTHOUGH there has not been an active branch of the Alumni Association in Edmonton for the past few years, the Queen's graduates in that city have not lost their "Queen's Spirit," as evinced by the occasional informal reunions that are held.

One of these, during the autumn, took the form of a very enjoyable reception, held at the home of Dr. G. E. Story, Med. '07, and Mrs. Story (Edith Malone), Arts '99. About twenty graduates with their wives and husbands were present, and spent a happy hour or two reminiscing about their college days over a cup of tea.

Montreal

MEMBERS of the Montreal branch had the pleasure of hearing a splendid address given by J. A. Edmison, Arts '26, at the regular monthly meeting held in the Mount Royal Hotel on December 9. F. W. Paynter, Arts '16, acted as chairman.

Establishment of a proper penal system in Canada will save the country thousands of dollars and untold misery to individuals, said Mr. Edmison, who is honorary legal counsel of the Prisoners' Aid and Welfare Association. He advocated the segregation of prisoners and suggested the creation of an institution similar to the Alcatrez prison in the United States. The English system of treating prisoners as individuals and maintaining a reformatory contact after release was highly praised.

Discussing the administration of justice in courts, Mr. Edmison suggested that no youth under twenty-one years be allowed to plead guilty to an indictable offence without the advice of counsel. He recommended inauguration of the public defender system, instalment payment of fines, and raising the standard of Canadian prison officials and increasing their salaries.

A hearty vote of thanks was moved to the speaker by Philip Harvey, Arts '31.

* * * *

Preparations are now under way for the annual alumni dance, in which Queen's graduates in Montreal join with the alumni of other Canadian universities for one grand night of revelry. The dance is being held in the Mount Royal Hotel on February 5, and boasts a number of new features added to the usual programme. It is staged under the joint auspices of the Queen's and the University of Toronto alumni branches, and all Queen's people in Montreal at that time are cordially invited to attend. C. A. Root, Arts '19, is chairman of the committee in charge, of which Miss Jean Tweddell, Arts '12, and A. E. Orwell, Sc. '30, are also members. Tickets are priced at $3.50 a couple, and cheques should be made payable to R. E. Hammond, 1216 St. Matthew Street, Montreal.

Niagara Peninsula

AT the annual meeting of the Niagara Peninsula branch, held at the Fox Head Inn, Niagara Falls, Ont., on November 27, D. D. Hall, Sc. '30, of St. Catharines, was elected president for the ensuing year.

D. D. HALL,
President

Other officers and representatives were appointed as follows: honorary president, Dr. W. C. Gardiner, Arts '26, of Niagara Falls, N.Y.; first vice-president, Harold Evans, Sc. '28, of Niagara Falls, Ont.; second vice-president, Dr. G. R. Stewart, Med. '18, of Ridgeway; secretary-treasurer, T. Imbleau, Sc. '19, of Thorold; representatives—A. L. Brooks, Arts '14, and G. E. Johnston, Arts '19, of Welland; H. C. Branion, Arts '25, of Dunnville; T. J. Rooney, Sc. '11, of Buffalo, N.Y.; C. R. Buss, Sc. '27, of Thorold; George Hillmer, Arts '27, Miss Gertrude Best, Arts '23, and Dr. Samuel McCallum, Arts '04, Med. '06, of Niagara Falls, Ont.; Mrs. J. W. Hunter (Florence C. MacLean), Arts '25, H. A. Norton, Sc. '21, and D. O. Notman, Sc. '21, of Niagara Falls, N.Y.; H. V. Finnie, Sc. '06, and C. A. Brown, Arts '24, of St. Catharines; Miss Jennie A. Kinnear, Arts '13, of Port Colborne; C. R. Hagey, Sc. '15, of Fort Erie; and Rev. S. A. Woods, Arts '96, of Fenwick.

Thirty-four members were present at the meeting, the business part of which was followed by an evening of bridge. It was announced that the sum of $192.50 had been collected during the recent canvass for the Grant Hall Fund, making the very respectable total of approxi-

mately $400 contributed by the branch to date.

The alumni in the Peninsula area are looking forward with much pleasure to a visit by Principal Wallace on the evening of Saturday, January 30. They will be advised by their branch officers of the final plans as soon as these are arranged.

Fort William–Port Arthur

DR. C. C. McCULLOUGH, Med. '04, was elected president of the Lakehead branch of the General Alumni Association at the annual dinner-meeting held in the Royal Edward Hotel, Fort William, on December 5. The other officers chosen for the ensuing year were as follows: vice-president, P. E. Doncaster, Sc. '10; secretary, Miss Irene Benger, Arts '15; executive committee—Miss Patricia Flanagan, Arts '33, Dr. T. D. MacGillivray, Arts '02, Med. '05, C. V. O'Connor, Arts '31, and Miss Helena Raitt, Arts '09.

Professor Watson Kirkconnell, Arts '16, head of the Classics department of Wesley College, University of Manitoba, was the guest-speaker. He painted an interesting word-picture of Dr. R. C. Wallace, the new Principal of Queen's, and then presented an address on present-day world conditions.

The hope of world peace lies in the League of Nations, the speaker told those present, numbering 72 members and visitors. He said that the policing of the world by an international force is the only way to control the rapacity of certain nations. Professor Kirkconnell also briefly described Mussolini and contrasted the Roman Empire of to-day with that of the time of Augustus.

F. V. Deamude, Sc. '22, past president of the branch, was chairman of the meeting. After "The King," Dr. McCullough proposed a toast to the new Principal, to which J. O. Clothier, Arts '00, ably responded. Mr. Doncaster proposed the toast to the alumni of other universities, to which R. B. Chandler responded.

The programme included musical numbers and stunts and proved to be highly entertaining. A minstrel show was staged by the Medical graduates, with Dr. McCullough as master of ceremonies, and a cast consisting of Dr. B. C. Hardiman, Med. '14, Dr. MacGillivray, Dr. J. H. Dennison, Med. '29, Dr. H. R. Murphy, Arts '29, Med. '31, Dr. J. C. Gillie, Med. '09, and Dr. J. A. Crozier, Arts '97. A mock trial was presented by a group of the Port Arthur women graduates, including Miss M. Belle Elliott, Arts '26, Miss Prudence Austin, Arts '21, Miss Maud Brock, Arts '28, Miss Helena Raitt, Miss Irene Benger, and Mrs. George Benger (Mabel Maxwell), Arts '13. A novelty stunt was carried out during the dinner by Dr. Hardiman, Miss Sadie Miller, Arts '27, and Mr. Doncaster. The special Science contribution was several vocal selections, presented by a quartet of Port Arthur collegians, dressed like college graduates of the 1890's and led by A. Sprott. Cecil Forrest sang two numbers, accompanied by A. K. Putland at the piano; and O. E. Walli, Sc. '25, favoured with two violin selections, with Thomas Jones as accompanist. Mrs. G. Critall also sang two solos.

A most interesting announcement was that out of a total of 60 alumni in the Lakehead area—32 in Fort William, 24 in Port Arthur and 4 in outside points—the paid-up membership of the branch was 38, or more than 63 per cent, a highly creditable achievement.

Kootenay

THE annual meeting and banquet of the Kootenay branch was held in the Kootenay Hotel, Trail, B.C., on December 9, and was well attended by alumni from Trail, Rossland and the surrounding district.

Following the banquet, which in itself was of much interest in that it consisted entirely of Italian dishes, S. S. McDiarmid, Sc. '03, president of the branch and chairman at the meeting, proposed the toast to the King; and F. C. Ransom, Sc. '30, toasted the University. The latter was responded to by A. B. Thompson, Arts '29. The toast to the Ladies was given by K. D. McBean, Sc. '21, and was replied to by Mrs. T. V. Lord and Mrs. James Atwell.

During dinner an enjoyable musical programme was given by Mr. Ernie Leschutta, who played admirably on a concertina, and who also provided the music for the ensuing dance. Copies of *Queen's in Pictures* were distributed to those present as mementos of the happy occasion.

The officers of the branch elected for the ensuing year are as follows: honorary president, S. S. McDiarmid; president, G. H. Kilburn, Sc. '09; vice-president, A. E. Allison, Arts '20; secretary-treasurer, James Atwell, Sc. '24; committee—K. D. McBean, A. M. Chesser, Sc. '24, and A. B. Thompson.

ALUMNI NEWS

Births

Bews—At Toronto, Ont., on September 15, to Donald M. Bews, Sc. '31, and Mrs. Bews, a son (Donald Luther).

Jemmett—At Kingston, on December 26, to Prof. D. M. Jemmett, Arts '11, Sc. '13, and Mrs. Jemmett, a son.

McLennan—On December 5, at the Ross Memorial Hospital, Lindsay, Ont., to Dr. Trevor McLennan, Med. '32, and Mrs. McLennan (Alwilda Martin), Arts '29, of Sunderland, Ont., a daughter (Diane Louise).

Marriages

Anderson — On September 24, Helena Robertson to Frank Elliott Anderson, Com. '33, Arts '34, of Ottawa.

Anderson—In December, at St. John's Anglican Church, Wyoming, Ont., Mabel Evelyn Anderson, Arts '34, to Oliver S. Fells, of London, Ont.

Baker—On December 30, at the home of Mr. and Mrs. Melville Dale, London, Ont., Lorna Jean Bourchier to John Hyatt Baker, Arts '29, Sc. '31, son of Prof. W. C. Baker, Arts '95, and Mrs. Baker, Kingston. They will reside in Windsor.

Batzold—On December 4, at St. Philip's Church, Georgetown, British Guiana, Bertha Marguerite Waite, daughter of Mr. and Mrs. J. G. Waite, Colborne, Ont., to John Carter Batzold, Sc. '33. They will live in Mackenzie, Demerara, where Mr. Batzold is on the staff of the Bauxite Company.

Bone—On January 1, at Belleville, Ont., Grace Graham Bone, Arts '36, to Mr. C. C. I. Merritt, of Vancouver.

Clarkson-Henderson—On December 26, in St. George's Cathedral, Kingston, Jessie Clarkson Ward, Arts '31, to William James Henderson, Arts '31. They will reside in Princeton, N.J., where Dr. Henderson is on the staff of Princeton University.

Goldring—On December 26, at Old St. Andrew's Church, Toronto, Sadie Eleanor Kinkead, of Listowel, to Leslie Warren Goldring, Arts '29, of Toronto.

Hern—On December 23, at the home of the bride's parents, Toronto, Mona Margaret Campbell to Grant George Hern, Arts '30. They will reside in Toronto.

Purtelle—In December, at 86 Lowther Street, Toronto, by Rev. W. A. McIlroy, Arts '97, Marjorie Purtelle, Arts '26, to James MacFarlane Bates, son of Mr. and Mrs. A. D. Bates, Hamilton. They will live in Burlington, Ont.

Taylor—On December 19, at All Saints' Episcopal Church, Briarcliff Manor, N.Y., Mary Samson to John Blyth Taylor, Arts '25. Mr. and Mrs. Taylor will reside at 32 Division Drive, Dobbs Ferry, N.Y.

Wilson—At St. James's Church, Kingston, on December 26, Elsie May Hunter to Morton H. Wilson, Sc. '34. They will reside in London, Ont.

Winnett—On December 12, in St. Bartholomew's Church, New York City, Mary Coverdale, daughter of Dr. W. H. Coverdale, LL.D. '22, and Mrs. Coverdale, to Albert Rendall Winnett, Arts '34, of Toronto. Among the attendants were Miss Vol Robertson, Arts '36, Graham Thomson, Arts '34, and Peter Austin, Sc. '33.

Deaths

Connolly—At his home in View Royal, Victoria, B.C., Dr. Arthur Kellogg Connolly, Arts '01, Med. '04, passed away suddenly on December 2. The late Dr. Connolly was born at Sherbrooke, Que., in 1861, but in early life moved with his parents to Cataraqui, Ont. He attended public school there, and high school at Sydenham, Ont., and then taught for six years in Manitoba. He entered Arts at Queen's in 1897 and proceeded into Medicine in 1900, receiving his M.D., C.M. in 1904 After graduation he went to Vancouver, but was forced to leave there on account of his health. He then settled in Salmon Arm, B.C., where he practised continuously until five years ago, when declining health forced him to give up active work. Following his retirement he took up residence in Victoria, where he remained until his death. In 1916 he went overseas with the Canadian forces and served until the close of the war. Besides his wife and

son, he is survived by two brothers, W. E. Connolly, of Kingston, and Dr. N. W. Connolly, Med. '08, of Stettler, Alta.

Croskery—Following a year of ill health, Robert A. Croskery, Arts '95, well-known official of the Ontario Department of Education, died on December 19 at his home in Toronto. The late Mr. Croskery, who was sixty-four years of age, was a native of Perth, Ont. After completing his preliminary education in that town, Mr. Croskery entered Queen's in 1890 and graduated in 1895 with his B.A. degree. For over a quarter of a century he was a member of the staff of the Ontario Department of Education, filling the position of registrar for several years and latterly that of librarian. He is survived by one sister.

Doughty—After an illness of several months, Sir Arthur Doughty, LL.D. '12, former Dominion Archivist, died at his home in Ottawa on December 1. Born at Maidenhead, Berks., England, in 1860, the late Sir Arthur was educated at Eldon House, London, and at New Inn Hall, Oxford. He had an international reputation as an archivist, and under his direction the Dominion Archives greatly extended its collection of papers and volumes relating to the early history of Canada. Shortly before his retirement a year ago, he was knighted in recognition of his long service. He also wrote extensively on historical and literary topics.

Gould—Word was recently received of the sudden passing in New York City during October of W. H. Gould, Arts '00, following a heart attack. The late Mr. Gould was fifty-seven years of age. He was educated in the schools of Kingston before entering Queen's, where he obtained his M.A. and the medal in mathematics in 1900. For many years he occupied a distinguished position in New York as an insurance actuary. Surviving him are his widow and two sisters.

Lundy—It is with a deep sense of personal loss that the "Review" records the death of Cecil Stuart (Sam) Lundy, Sc. '26, at the Kingston General Hospital on December 16. The late Mr. Lundy was born at Newmarket, Ont., in 1902 and received his public- and high-school education there. He matriculated with honours and entered the mining and metallurgy course at Queen's in 1922, graduating with his B.Sc. in 1927. While at college he was popular with his classmates and, displaying considerable literary talent, had charge of the "Steam Shovel" column of the "Journal." After graduation he joined the metallurgical department of the Dodge Motor Company, Detroit, Mich., and remained there until 1928, when he accepted a position on the underground-engineering staff of the International Nickel Company, Copper Cliff, Ont. Shortly after this he became ill and was compelled to take a prolonged rest. His sickness precluded his return to mining work, and as soon as he was able he devoted himself for a time to literary work, and was a frequent contributor to various magazines. In 1933 he joined the staff of the Employment and Alumni office at the University, and at the beginning of 1936 became assistant editor of the "Queen's Review." He filled this position with great success until the following July, when a recurrence of his illness obliged him to give up his work. Throughout his sicknesses and during the intervening years Sam Lundy maintained a brave outlook and a keen interest in affairs, and his kindly disposition and ready humour made a lasting impression on all those who were associated with him. His passing is mourned not only by his classmates of Sc. '26 and '27, but also by a host of other friends. Surviving him are his wife and one small son, his parents, and a brother and sister.

McMurchie—Fourth on the seniority list of Queen's alumni, Dr. Archibald McMurchie, Arts '75, Med. '83, died in North Bay on December 22 after a lingering illness. The late Dr. McMurchie was the first physician to practise in North Bay. He retired several years ago and was succeeded by his son, Dr. Archibald H. McMurchie. Deceased was born in 1851 at King, Ont., and received his early education at Richmond Hill and Lindsay grammar schools. He entered Arts at Queen's in 1871 and won three scholarships before graduating in 1875. In 1881 he returned to the University to study medicine and obtained his M.D. degree in 1883. In the same year he became a company doctor for the Canadian Pacific Railway in the North Bay district, where he went with one of the construction crews. During the building of the Timiskaming and Northern Ontario Railway he also acted for that company. He is survived by two daughters, two sons, three sisters and one brother. His wife predeceased him in 1921.

Massie—The death of Mrs. Robert Massie (Laura Allen), Arts '84, occurred in Ottawa on November 18. The late Mrs. Massie, who was seventy-seven years of age, was born and received her early education in Kingston. She entered Queen's in 1880, but remained at college for only one session. For the past twenty years she lived in Ottawa, where she took an active part in church and philanthropic work. She is survived by two sisters and five brothers.

Morris—On December 28, William Morris, Arts '82, died at his home, 190 Warren Road, Toronto, at the age of seventy-six years. He was born in Montreal in 1860, the son of the Hon. Alexander Morris, former Lieutenant-Governor of Manitoba. He received his preliminary education at St. John's College, Winnipeg, and entered

Queen's in 1878, obtaining his B.A. four years later. Interment was made in Mount Pleasant Cemetery, Toronto.

Ralph—At the Toronto General Hospital early in December, John Herbert Ralph, Arts '34, died from an infection of the jaw which set in following the extraction of a wisdom tooth. The late Mr. Ralph, who was twenty-four years of age, was a second-year law student at Osgoode Hall and had attended Queen's for two sessions. He is survived by his parents, Mr. and Mrs. J. H. Ralph, of Ottawa.

Rogers—The ranks of Queen's oldest graduates were further depleted on Christmas Day by the sudden passing of Dr. David H. Rogers, Med. '81, at his home in Gananoque, Ont. The late Dr. Rogers was eighty years of age. A life-long resident of Gananoque, where he received his early education, Dr. Rogers entered the Faculty of Medicine at Queen's in 1878 and obtained his degree in 1881. He immediately began practice in his home town. For nearly forty years he was also engaged in the insurance business and was one of the oldest agents in Canada. Surviving him are his wife and two sons, R. A. Rogers, Sc. '13, of Ottawa, and H. D. Rogers, Sc. '12, of Gananoque.

Notes

1870-1879

Rev. T. S. Glassford, Arts '75, of Alberni, B.C., celebrated his 88th birthday on December 7 and received the felicitations of many friends.

1880-1889

James Hales, Arts '88, has been practising law in Toronto for many years as a member of the firm Hales and Burt.

Dr. H. H. Pirie, Arts '87, Med. '90, who practised for nearly twenty years in Costa Rica, has been retired for some time and living at Dundas, Ont.

1890-1899

Miss Anne E. Gordon, Arts '97, is now living at 601 Mayflower Road, Claremont, Calif., where she is recuperating from a serious illness contracted over a year ago. Last summer she visited **Miss Mary Bryson,** Arts '99, at her home in La Jolla, Calif., and there had the pleasure of meeting three other Queen's people: **Mrs. George Ross** (Isabel Bryson), Arts '05, and her daughter, Phyllis, an undergraduate at Queen's, and **Miss Flora Stewart,** Arts '98.

Rev. Dr. W. M. Kannawin, Arts '96, Theol. '00, of Toronto, secretary of the Board of Sabbath Schools of the Presbyterian Church, recently gave a course of lectures on Sunday-school methods, at the Presbyterian College, Montreal.

Col. V. I. Smart, Arts '98, formerly deputy minister of the Department of Railways and Canals at Ottawa, has been appointed deputy minister of the new Department of Transport.

Dr. G. G. Stewart, Med. '95, retired from the Dominion Board of Pensions and National health last September and is now living at 4638 West 5th Ave., Vancouver. He served overseas during the war and on his return to Canada was placed in charge of the Treatment Branch in Edmonton, Alta., for the C.A.M.C., which later became the D.S.C.R. and finally the Department of Pensions and National Health. Under the latter he was chief medical officer for Northern Alberta until his retirement. He is an L.R.C.P.S. of Edinburgh.

1900-1909

Dr. A. E. R. Boak, Arts '07, of the University of Michigan, Ann Arbor, Mich., was recently appointed to the board of editors of the "American Historical Review" for the next six years.

W. A. Boland, Arts '04, is a member of the legal firm of Wilson and Boland, Yorkton, Sask.

Dr. H. E. Bond, Med. '08, is practising in London, England. His address is Central Club, 127 Clerkenwell Road, London, E.C. 1.

E. A. Collins, Sc. '05, of the International Nickel Company, was recently re-elected mayor of Copper Cliff, which office he has held for many years.

Dr. A. G. Curphy, Med. '07, who retired from the government service a year or two ago to do private practice in Claremont, Jamaica, has been elected president of the Jamaica branch of the British Medical Association for 1937. He was also recently elected a member of the parochial board and chairman of the sanitary committee for the parish of St. Ann.

R. H. Eldon, Arts '01, for many years principal of the Central High School of Commerce, Toronto, is now retired and living at 86 Albany Ave., Toronto.

E. W. Henderson, Sc. '05, of the English Electric Company, St. Catharines, Ont., was the author of an article on "The Induction Motor of To-day" in the December number of the "Journal of the Engineering Institute of Canada." The paper had previously been presented before the Montreal branch of the Institute.

J. H. McDonald, K.C., Arts '09, (LL.B. Toronto, '13), has been practising law in North Bay, Ont., since 1914. His son, Wallace, is now in second year Arts at Queen's.

Prof. F. H. MacDougall, Arts '02, (Ph.D. Leipzig), of the school of chemistry, University of Minnesota, is the author of a new "Physical Chemistry," published by the MacMillan Company during 1936.

J. G. Macphail, Arts '03, Sc. '05, formerly commissioner of lights in the Department of Marine at Ottawa, is now in charge of aids to navigation, of marine engineering and of supervision of public harbours.

Rev. S. B. Manoukian, Theol. '08, after spending many years in missionary work in Constantinople, moved recently to Sofia, Bulgaria, where he is pastor of the Armenian Evangelical Church. His address is Vladaya St., No. F 3.

R. W. Warwick, Arts '09, has been in the actuarial branch of the Department of Insurance, Ottawa, since 1911. He is an associate of the Institute of Actuaries, London, England, and of the Actuarial Society of America.

1910-1919

W. M. Armstrong, Sc. '17, has been office engineer in the bureau of economics of the Canadian National Railways, Montreal, since 1929.

Rev. W. G. (Nick) Carter, Arts '14, recently suffered a break-down in health and has had to resign from his ministry at Old Parish Church, Carluke, Scotland. His present address is 2 Hamilton Terrace, Portobello, Edinburgh.

Roger Clarke, Sc. '13, and **Mrs. Clarke** (Muriel Shortt), Arts '09, operate a fruit farm in Vineland, Ont. They spend the winters in Ottawa.

Dr. W. C. Clark, Arts '10, LL.D. '35, deputy minister of finance at Ottawa, has been appointed a member of the Canadian Farm Loan Board for a five-year term.

Miss Katherine Day, Arts '12, has given up her social work with the Ontario Department of Mental Health and is at present devoting herself entirely to painting and etching, which work she has carried on for some years as a side line. She has renovated an old log house on a fifty-acre farm near Coldwater, Ont., and is now living there.

W. H. Green, Arts '14, (B.Paed. Toronto), is principal of the vocational school at Fort William, Ont.

Prof. D. M. Jemmett, Arts '11, Sc. '13, head of the electrical-engineering department at Queen's, was guest-speaker at the annual commencement exercises of the Napanee Collegiate Institute on December 11.

H. B. King, Arts '13, of Vancouver, received his Ph.D. from the University of Washington last year. After four years war service Dr. King went to Vancouver, where he was appointed principal of the General Gordon Elementary School and later of the Kitsilano High School. Since 1935 he has been attached to the British Columbia Department of Education as technical adviser, directing curriculum revisions for elementary, junior and high schools.

A. M. Kirkpatrick, Sc. '11, who has been senior assistant engineer in the Winnipeg district for the Department of Public Works since 1927, has been promoted to the position of district engineer at Charlottetown, P.E.I.

Miss Sadie Lee, Arts '14, has been appointed public librarian at Gananoque, Ont., in succession to **Mrs. A. H. Fudge** (Evelyn Pownall), Arts '34, who recently resigned.

J. L. McKinnon, Arts '15, has been vice-principal of the Saskatoon Collegiate Institute since 1931.

G. E. Marshall, Arts '19, was recently appointed principal of the Hon. J. C. Patterson Collegiate Institute, Windsor, Ont.

J. F. Pound, Sc. '13, **Clifford Pound,,** Sc. '17, and **W. T. Pound,** Sc. '29, were bereaved on December 10 by the death of their father, George D. Pound, at his home in Kingston.

Dr. C. S. Russell, Arts '10, Med. '12, who practised for many years in Hamilton, has now retired and is living during the summer at 621 Main St. He spends the winters in Florida.

Mrs. C. B. Willis (Estelle Russell), Arts '19, formerly of Delta, Ont., is president of the Uxbridge Home and School Club, organized last season and continuing this year with a series of excellent programmes.

1920-1929

C. E. Appleyard, Sc. '24, is teaching in the technical school at Oshawa, Ont.

Miss Hazel Argue, Arts '25, of Toronto, was bereaved on December 27 by the death of her mother, Mrs. Adeline E. Argue, at Ottawa.

L. S. Beattie, Arts '24, of Toronto, has been an inspector of vocational schools for the Province of Ontario for several years.

H. S. Campbell, Sc. '28, formerly with the Autogiro Company of America, has opened an office as technical consultant in patent matters at 7 East Wharton Road, Glenside, Penn.

Dr. W. H. Costello, Med. '24, has been in general practice at Randolph, Wisc., for the past ten years.

G. R. Davis, Sc. '27, is in the operating department of the Ontario HE.P.C. and is stationed at Belleville, Ont.

T. R. Foster, Com. '27, is teaching in the collegiate institute at North Bay, Ont.

W. M. Harvey, Sc. '24, is on the mechanical-engineering staff of the Noranda Mines, Noranda, Que.

W. P. R. Holdcroft, Arts '21, Sc. '23, and Mrs. Holdcroft, of Kingston, were bereaved on January 6 by the death of their younger daughter, Patricia Jean.

Dr. H. B. Kidd, Med. '29, is an assistant medical director at the Canadian head office of the Metropolitan Life Insurance Company, Ottawa.

G. E. Lewis, Sc. '22, is president of the Varcum Chemical Corporation, Niagara Falls, N.Y. The company manufactures synthetic resins.

C. C. Lingard, Arts '29, is doing post-graduate work towards his Ph.D. at the University of Chicago.

J. A. Little, Sc. '27, is now with the Thesaurus Gold Mines, Matachewan, Ont.

J. G. L. McCrea, Sc. '23, for several years at the Dome Mines, South Porcupine, Ont., was recently appointed assistant general manager of Sigma Mines, Bourlamaque, Que.

W. S. McIlquham, Sc. '23, has been in the hydraulics department of the Dominion Engineering Works, Montreal, since 1925.

G. D. McLeod, Sc. '20, formerly with the Somerset Quarries and the Hoffman Construction Company, Great Notch, N.J., has joined the staff of the Aldermac Mine, Arntfield, Que.

E. M. Patton, Com. '26, formerly with the Bell Telephone Company at Ottawa, has been transferred to Montreal, where he is supervisor of measurements and results in the eastern area.

H. E. Salton, Sc. '23, for several years manager in Portugal for the Ingersoll-Rand Company, is now at Sao Paulo, Brazil, with the same organization.

D. G. Robertson, Sc. '24, of Toronto, was bereaved on December 20 by the death of his mother, Mrs. Herbert N. Robertson, at Kingston.

H. L. Schermerhorn, Sc. '23, is now district engineer of municipal roads for the Ontario Department of Highways, with headquarters at Napanee, Ont.

J. V. Scanlan, Arts '20, is separate-school inspector for the Hamilton district. He resides at 208 Holton St. S., Hamilton, Ont.

C. W Scott, Sc. '26, has been with the Canadian Bridge Company, Walkervile, Ont., for the past year.

H. A. Tanser, Arts '29, was recently appointed superintendent of schools in Chatham, Ont. He was formerly public-school inspector for that city.

Miss Helen Van Luven, Arts '27, has joined the staff of the Empire Life Insurance Company, Kingston.

1930-1936

R. E. Ashcroft, Arts '36, has joined the staff of the Empire Life Insurance Company, Kingston.

D. K. Atkinson, Arts '30, has been lighting specialist in the Montreal district of the Northern Electric Company for the past year.

Rev. J. G. Brown, Arts '33, Theol. '36, who is doing postgraduate work at the University of Edinburgh, Scotland, has received and accepted an invitation to become assistant minister of Preston Parish Church, Prestonpans, Scotland.

L. S. Campbell, Sc. '35, has joined the staff of the Canadian Hanson and Van Winkle Company, Toronto.

W. A. Clarke, Sc. '30, has been on the staff of the Brockville division of the On-

"How about trying a 'gelandesprung'?"
"Thanks, I'll stick to Sweet Caps!"

tario Department of Highways for some time.

F. W. Cranston, Sc. '36, has been assistant engineer at the Stadacona Rouyn Mines, Rouyn, Que., since last July.

E. F. Dobie, Arts '35, is at present teaching nature study in the Ottawa public schools.

G. W. Fraser, Sc. '36, who returned to the University this fall as an instructor in the chemistry department, joined the staff of the Edison Lamp Works of the Canadian General Electric Company, Toronto, during December.

Dr. W. E. Glass, Med. '35, is now on the staff of the Sick Children's Hospital, Montreal.

Dr. W. F. Glen, Med. '32, who has been practising at Birsay, Sask., for the past four years, is at present in New York City, doing postgraduate work in internal medicine.

W. L. Hogarth, Arts '35, of the Mutual Life Insurance Company, has been transferred from Waterloo to Kirkland Lake, Ont.

C. L. Inglis, Sc. '34, is stationed at Calgary, Alta., with the Royal Canadian Engineers.

Dr. R. D. McDonald, Sc. '31, who returned last summer from postgraduate work at Cambridge, has been at the University since September, doing special research work for the Varcum Chemical Corporation, of Niagara Falls, N.Y.

G. C. McKerrow, Sc. '31, who was in the Noranda Smelter for five years after graduation, is now superintendent in the smelter of the Cerro de Pasco Copper Corporation, Oroyo, Peru.

J. A. Martin, Arts '36, the Milton Hersey fellow in chemistry, has returned to the University and is studying for his M.A.

D. H. Noy, Sc. '33 has been at the Perron Gold Mines, Perron, Que., for some time.

G. E. Pilkey, Sc. '33, formerly with Sheldon's Limited, Galt, Ont., joined the staff of Procter and Gamble Company, Hamilton, on January 1.

Dr. D. S. Pugh, Med. '33, for the past year attached to the Burwash Industrial Farm, is now on the medical staff of the International Nickel Company, Copper Cliff. His present mailing address is Garson, Ont.

F. H. Rand, Arts '30, who has been on the French and English staff at the Royal Military College, Kingston, for the past four years, is now in charge of honour work in French at Waterloo College, Waterloo, Ont.

W. M. Rice, Sc. '30, is at present with the Melba Mines, Bourkes, Ont.

Dr. J. L. Shappert, Med. '36, is assisting Dr. S. Pollack at Sudbury, Ont. His address is Capitol Theatre Building.

Miss Martha Shepard, Arts '35, is on the staff of the Toronto Public Library.

W. F. Stahlschmidt, Sc. '34, Arts '35, is now with the Canadian Goodrich Company, Kitchener, Ont.

Dr. W. I. Taylor, Med. '35, who was for a short time assisting in a medical practice at North Bay, Ont., is now in charge of medical work for the Pineland Timber Company, Tionaga, Ont. One of his assistants is **Dr. C. E. Conners**, Med. '35, who is stationed at Foleyet, Ont.

P. I. Timmins, Arts '31, was elected president of the Kingston Teachers' Institute at the annual convention of that society held in Kingston early in November.

Freeman Waugh, Com. '34, who has been assistant manager of the Hollywood Theatre, Toronto, for the past eighteen months, was recently appointed manager of the Lyric Theatre, Kitchener.

General

Principal Wallace addressed a meeting of the Ontario Teachers' Federation, held in Toronto on December 29.

CANADA'S GEOGRAPHICAL BARRIERS
HOW CAN THEY BE OVERCOME?

By Principal R. C. Wallace

An address delivered in Convocation Hall, January 18, 1937, as the introduction to the 1937 series of University Lectures, entitled "Some Canadian Problems."

CANADA has had to face the problems of her geography throughout her history, and she has not yet reached a solution. A country politically united from east to west in a long but somewhat narrow band of populated territory has a physical terrain which is definitely north and south in trend. Canada has had to overleap her physical barriers in order to acquire a political consciousness. This very fact has put a stamp on Canadian life and thought which it may be well to examine in the introductory lecture of a series which will deal with some of the major problems with which Canada is concerned to-day.

It will help to indicate how these barriers came into being. The country which we speak of as the Canadian Shield, east and south and west of Hudson Bay, is the nucleus of what was the original continent, and through all the vicissitudes of geological times it has remained more or less above water. Mountains have been raised and have been worn away, and to-day there is left only the core of the erstwhile rugged terrain, worn down almost flat into hard, obdurate rocks which are inhospitable to the agriculturalist. And so it has come to be that the great country, from the St. Lawrence to the Mackenzie, and southwards even beyond the Great Lakes, has proved to be one of the major barriers to Canadian unity, not because of rugged relief but because of its very limited agricultural possibilities and opportunities for permanent settlement. At a later stage there rose the mountains of the Allegheny range. They are now old mountains and much subdued by the ravages of time. But they are still sufficiently formidable to have proved to be an effective barrier to easy communication between the Maritimes and the St. Lawrence Valley. Much later the great mass of the Rocky Mountains took form. Time has not yet done much to smooth down its sharpness. It remains Canada's greatest dividing line, physically and psychologically. And not only have these features broken the country up into sections with a general north and south trend, but the rigours of climate have crowded the population to the south end of these separated strips, close to the border of the United States into which the blocks articulate. Except in the Mackenzie Valley, the northward extension of cereal-growing country is greatly restricted by the shortness of the growing season. Such, in briefest outline, are the physical conditions.

It has not been an easy task to oppose the obstacles set by nature and to develop political and commercial unity in Canada. In the middle of last

century the phrase "manifest destiny" was frequently heard. It expressed the conviction which many in Canada held, that the ultimate position of Canada would be in the jurisdiction of the United States. They held this conviction because nature seemed to have willed it so. The vision of the Fathers of Confederation was all the more courageous in that they realized all the difficulties. They realized them so fully indeed that they saw no safety for British North America unless it was securely bound by political ties under a federal system. But even after the railway had tied Canada together from the Atlantic to the Pacific, Goldwin Smith in the nineties of last century saw no future for Canada except under the wing and control of the republic to the south. To a reader of the present day he argues somewhat convincingly for a manifest destiny which has not materialized. The only reasonable explanation is the one which was provided at the time by Principal Grant in his reply to Goldwin Smith, that the spirit of the Canadian people is so essentially British that obstacles serve only as an incentive to greater and more courageous effort to maintain the British link: and that this spirit will always prevail. In our own memory the reciprocity issue in the election of 1911 raised again the issue of possible absorption of Canada by the United States, and the Canadian people reacted sharply to make clear that Canada would remain independent. The events of history would therefore seem to indicate that the manifest destiny of Canada is a continuous and insistent struggle to unite the separated parts of Canada by such links as will transcend the barriers that nature has imposed, and will hold the country securely together in a unity of purpose and in a condition of political and economic co-operation.

From a physical standpoint the main link which man has created has been the railway. In the seventies the Intercolonial, in the eighties the Canadian Pacific, in the first decade of this century the Grand Trunk Pacific and the Canadian Northern have been the means by which the barriers have been overleaped. Before the Intercolonial was built, movement by land between the Maritimes and the St. Lawrence Valley in all-Canadian territory had been difficult and time-consuming. Before the Canadian Pacific Railway crossed the Canadian Shield, west-going movement had been held back. Colonization roads into the territory had proved of little value: and a by-pass was being created through American territory and northwards to the Red River Valley by the first railway to enter Western Canada. The Rocky Mountains were impenetrable except to seasoned voyageurs and fur traders and trappers, and British Columbia was a land apart. The picture is very different to-day, and for this change the railways are in the main responsible. It is true that there were major mistakes. The Canadian Pacific Railway location through the Yellowhead Pass was changed overnight to the southern route across territory which should have been left to the rancher: and the two other railways were encouraged by this fact to take the northern route, more apt for settlement, long before economic conditions justified this step. Out of this condition has come our railway problem. The northward extension of agricultural territory in the Peace and Mackenzie valleys can only with difficulty be served by railway transportation on any basis even reason-

ably economic. There are limitations to railway extensions which are much narrower than are the limitations to agricultural progress northwards. And the rocky shield of the Precambrian still remains, despite mining and pulpwood development, the great wedge between East and West.

It is assumed in the title to this discussion that the barriers have not been overcome, that they are a problem still to be faced. May I address myself to this issue. The railways have done much. They have created a flow of trade from east to west and from west to east. They have made it possible for the industrial East to serve the needs of the agricultural West, and for the primary products of the West to find outside markets through all-Canadian routes. They have facilitated intercommunication and travel between widely separated areas in Canada. They have preserved a superficial Canadian unity, and have headed off the north-south drift which is natural to the very fibre of the country. All this notwithstanding, Canada is a group of disparate and unrelated units, and this factor is our great national problem. What is the picture and wherein lies the remedy?

The picture is simple. The maritime area still remains, nothwithstanding the ameliorating influence of Royal Commissions, dissatisfied with the outcome of Confederation, which has had the effect of limiting its markets in the Eastern Seaboard States. Quebec remains a province apart, in religion, language and way of thinking. Ontario is satisfied with its own sufficiency. The Prairie Provinces, disheartened during the years of depression, feel keenly the dominance of the industrial East. The country across the Rockies turns westward in its outlook and concerns itself less with Canadian internal problems. And the far North is, even in the days of fast aeroplanes, still relatively inaccessible, except to large capital, and beyond the reach of railways.

Can the situation be materially improved by increased transportation facilities? Improvement will doubtless take place. A study of the map of the North American continent will convince an unprejudiced student that somehow the great waterway into the interior of the continent will be used to the full, and the Great Lakes will be accessible to ocean-going ships. Nowhere, except in the Mediterranean, is a continent so deeply penetrated. It is destined to be used to the full. The Hudson Bay route, as well, provides access deep into Canada, even though it be an icebound coast through which access takes place. It will take time, but this route, too, will help eventually to relieve the isolation of the central areas. Aeroplane service is rapidly becoming indispensable. From Edmonton northwards for a thousand miles, regular service has been established, making possible spectacular mining developments in Great Bear Lake. The charges for freight in the summer of 1936 were eighty cents a pound from Edmonton to Great Bear Lake. It is still a high charge, but much lower than the rates current a few years ago. The all-water route of fourteen hundred miles, open for only three months in the summer, gives a rate of one-twentieth of a cent a pound. The railway rate for outgoing grain to the East across the prairies is approximately one-fifth of a cent a pound for one thousand miles. There is much to be done in aeroplane engineering in order that it may be possible to get freight costs

down to a figure which will make the exploration and development of far-northern territory a matter of reasonable cost. When one keeps in mind the advance which has been made in the past ten years in this field, one feels justified in assuming that the far North Country will be much more a real part of Canada twenty years hence than it is at the present time, and that this will have been accomplished by further progress in the carrying of freight by heavier-than-air machines at a cost commensurate with the needs of the country.

The motor car is an agent of understanding. One learns by personal observation, and from casual conversation. But the road for the car has been north and south, not east and west. An all-Canada route has been long in contemplation, but it is not yet a reality. When it is possible to travel easily by car from east to west in Canadian territory, much will be gained: and it is a reasonable criticism of public policy that this project was not put in the very forefront of Canadian public works to relieve unemployment much earlier than actually took place. The potential value of this tie to a disjointed country was not fully realized.

But transportation facilities will not provide an adequate solution. Increased communication and better understanding will set into clearer relief the fact that the economic interests of different parts of Canada are dissimilar, and in part at least antithetical. To take the most outstanding example: the industrial St. Lawrence Valley and the agricultural Western Plains have found it difficult—increasingly difficult—to live together in national harmony. Ever since Canada established a national policy, in order to develop an industrial life, and exercised discrimination against manufactured goods from outside, the prairie producer in the West has felt himself at a disadvantage. His main product—wheat—must be marketed under world conditions, and cannot be protected. He buys in a protected Canadian market, and at *higher prices* than if the market were open. It has been estimated that he buys at a cost which represents an increased load of $55,000,000 for the Prairie Provinces each year, and with no corresponding advantage, because the West has so few manufactures to gain advantage by the tariff. That load is carried for the national policy in order to develop and strengthen the industrial life of Canada, in Ontario and Quebec. The western farmer has done what he can, through wheat-pool co-operation in selling, and the Canadian Government through a wheat board, to give the producer the best chance possible in the markets of the world; and the Government has provided the funds to peg the price when the price slipped too low. This fact notwithstanding, there is a feeling in western territory that the tariff structure is not to the advantage of Western Canada, and a proposal has been made in all seriousness that a tariff line be drawn north and south at the head of the Great Lakes, and that imports at British Columbia ports from Great Britain be duty free if consigned to any point west of this tariff line. Though it seems improbable that any such division in national policy would be permitted by the Canadian parliament, the fact that it has been seriously proposed is sufficient indication that the outlook of the various parts of our country is far from the same. Not until the development of industrial activity in the

West creates a psychology favourable to the support of industrial enterprises by tariff protection will the reaction of western people be anything but critical of the policy to which both the major political parties are in effect committed, namely, that the manufacturing life of Canada be permitted to grow under the shelter of a high-tariff wall.

This antithesis—the major strain which the federal body politic has to face—is inherent in the geographical and economic conditions which foster industrial life in one area, and agricultural development in another. The two outside wings of Canada—the Maritimes and British Columbia—are in a somewhat different situation. The Maritime Provinces entered Confederation not too enthusiastically, and their trade with the New England States has been jeopardized by the high-tariff policy of the United States, which was itself in part a retaliatory policy to the refusal of Canada to look kindly on reciprocity legislation. The market for their coal in Canada is restricted by the competition of American and Welsh coal in the St. Lawrence industrial area, though a market for half the output has now been secured in Quebec. Apples and potatoes, fish and lumber seek outside markets, and the rest of Canada does not help greatly. In British Columbia the outlook is to the Orient, and it is now easier to look across the Pacific than across the Rockies. It is a special form of isolation, but this western province is giving direction to Canada in emphasizing the growing significance of the Pacific Ocean and the peoples of the Pacific to the whole of Canada. Already goods imported at Vancouver find their way eastwards as far as Winnipeg, and the end is not yet. The Panama Canal has provided a route for grain and for goods which has greatly changed the whole flow of traffic, and has brought the Pacific Coast literally near to Europe.

Potentially, the most significant area is the Canadian Shield. It has been already referred to as a wedge between East and West. In the early colonization days it was an obstacle: and it still adds greatly to the cost of transcontinental traffic. Historically, the inhospitable territory played a not inconsiderable part in consolidating the territory which is now Canada. The fur trade in the Precambrian Shield was developed from Hudson Bay by the Hudson's Bay Company, and from Montreal by the Northwest Company and independent traders. The trade routes in fur and in goods were to and from Hudson Bay, and to and from Montreal across to Grand Portage and through the Great Lakes. They were entirely in what is now Canadian territory. They did not go southwards through the Hudson River to New York or through the Mississippi River to New Orleans. They crossed the mountains to the Pacific Coast. In a word, as Innis has pointed out, they laid the foundations for a future Canada, by familiarizing traders and business men with the possibilities that lie across the barriers, and with the means of reaching them. The central nucleus has held Canada together. And it seems probable that the function which it played in the early days may be repeated in these later days. It is the only area in Canada which lies athwart the country with identical interests from east to west. The miner, the trapper and the lumberman are the same, whether they be met in Northern Quebec or in the Northwest Territories. The country is the same. It would be

difficult to enumerate any distinctive characteristics of Northeastern Alberta and Northwestern Quebec. The physical features look alike. And the kind of industrial development which takes place varies but little throughout the territory. Waterpower development, pulp and paper industry, gold mining, base metal concentrator and smelter, lumbering—the processes, the skill and the kind of trained personnel are the same throughout. Anyone who has experienced the working-out of the processs knows how subtly the interests which are dominant in this territory can pervade and modify the attitudes of people whose own interests are purely agricultural, and whose main concern is the price of wheat. In other words, this northern territory is already beginning to play a significant part in creating a unity of interest among Canadians east and west whose main business interests are otherwise in conflict. This influence will grow as more people in various walks of life become personally concerned with the success of northern development projects. There are no regional conflicts in this northern territory.

At root the differences which we are discussing are psychological. They may be based on economic considerations: they may be based on the subtle influence of topography: they may be racial. But they are now attitudes of mind. And they will respond in the long run to psychological treatment. I must not trespass on the territory of a colleague who will discuss Canadian culture in this series: but I have not been able to discover a single Canadian culture. We are a people of infinite variety, and there is a culture for the respective areas of Canada. The literature that is worthwhile in Canada cannot be Canadian, but is related to the area which it interprets. We strain too greatly for uniformity. The country itself has so great diversity that we do a greater service to Canada to interpret its respective parts than to impose a superficial semblance of one-ness which does not in reality exist.

The task which lies before us in Canada, in the light of the conditions which have been imposed by nature, is to discover and clarify the elements which are in common in all this diversity, and to see to it that they are not lost sight of when antagonisms arise. It has already been indicated that the development of industrial life, the processing of raw materials, in the Prairies will create a bond of interest with Central Canada which does not now exist: and that the industrial activity of the North Country is already beginning to have that effect. It is equally necessary that a closer personal contact with the economic problems of the primary producer in the Prairies be achieved by the industrialist of Central Canada, who does not yet realize that there is a limit to the export market for his goods if the farmer is to continue to export his wheat. And the understanding of the Oriental problem in British Columbia or of the difficulties in the marketing of apples or fish in Nova Scotia is, for those of us who do not live in these areas, very limited indeed. The solvent is in the democratic process of legislating and administering for the good of the whole, and not for party advantage. Successive governments at Ottawa have faced the problem: and the representatives of the people have the opportunity of hearing and analyzing the claims of the various sections of the country. Gradually an understanding grows. The difficulties are within the family, but the family ties maintain. There is

no one to argue to-day for the position which Goldwin Smith took forty years ago. Canada's problems have now to be solved within a territory whose destiny is that of a self-governing country. Her position to the American continent and to Great Britain may undergo gradual change. We sense something of the process to-day. But she will remain a self-governing entity.

The rugged barriers which nature has interposed to any movement from ocean to ocean across Canadian territory and which have made Canada a patchwork of pieces of many kinds—these barriers have proved to be, as Grant said in prophecy, only the price that every nation must be ready to pay in order to realize itself, to maintain its independence, to secure for itself a distinctive future. The price has been, and continues to be a heavy one if measured in material values alone. Canada has gained much from the financial and industrial enterprise which has been shown by American citizens and corporations in developing the resources of Canada. In some fields, indeed, branches of American firms are responsible for the greater part of the industrial output. But this fact notwithstanding, Canada remains herself, secure in her own identity, striving to establish a national character in the face of nature's obstacles, and willing to undergo material loss for what to Canada has come to mean a national ideal.

"OUR FORTIETH ANNIVERSARY REUNION"

DR. W. B. MUNRO, Arts '96, of Pasadena, Calif., has published at his own expense a fifteen-page booklet bearing the above title and dealing with the highly successful reunion of his class at Queen's last fall. This brochure supplements and brings up to date an earlier work entitled *Forty Years On, 1896-1936,* which Dr. Munro distributed to his classmates a few weeks prior to the reunion.

"And what a joy the whole reunion was! What weather! What a game! What addresses! What handclasps!" With such staccato sentences the booklet opens, and the happy note is continued throughout. The closing paragraph reads: "All in all there never was a better reunion than this one, and probably there never will be until we gather in 1946 for our fiftieth anniversary. Meanwhile the Class of '96 is very greatly indebted to the secretary of the General Alumni Association for his unfailing helpfulness in connection with our recent program."

Not the least interesting feature of this charming and valuable piece of work is a picture of the graduates who were able to attend the class gathering. Dr. Munro can rest now until the fiftieth anniversary, safe in the knowledge that he has done a capable and worthwhile job as historian of his year.

REAL-LIFE DRAMA RIVALS STAGE PRESENTATION

THIS should be placed somewhere near the top of the list of queer coincidences.

Professor Henry Alexander, of the English department at the University, was playing the part, in a play at Convocation Hall, of a convict who escaped from Dartmoor and was later recaptured by the police.

On the same day at Dartmoor, England, Henry Alexander, a convict, who had escaped from the prison, was captured by the police.

Not only was there an identity in names and in prisons, but the captures in the play and in real life were the same, both taking place in deserted huts.

HERE AND THERE AMONG THE STAFF

G. J. MACKAY

Professor of Metallurgy

"NOW see here, young fellow. Just because you are taking a course in metallurgy instead of working for your B.A. degree is no reason for not writing good English. I'm not going to accept this flotation report until you arrange your ideas more logically. You must get your sentences in better shape and correct these mistakes in grammar."

G. J. MACKAY

Thus, with a twinkle in his eye which softens the gruffness in his voice and offsets the irate waving of the offending paper, has Professor George MacKay, head of the Metallurgy department, chastened, and at the same time, won the affection and respect of the students at Queen's who have been fortunate enough to work under him. Not only by this kindly, fatherly interest in their welfare, but by the excellence of his teaching, has Professor MacKay held the friendship of his students throughout the years. There is no professor at Queen's more beloved, and admired. As one student quotes: "He is our 'guide, philosopher and friend'; he 'inspires us by both his words and actions'; and, above all, he 'commands our affection, admiration and respect.'" Or, in the words of a graduate, "Professor MacKay is one of the few persons whose good opinion is essential to my self-respect."

To "George," every one of his students is an individual—a live person, not a seat number or merely a name. Most of them are his personal friends. He worries about the problems of each. His unselfish interest in his "boys" is unbelievable. The smallest triumph of any one of them delights him, while a defeat or an unworthy action is a real personal disappointment. He has been heard to say suddenly, in the midst of a totally unrelated conversation: "I can't make out that Brown. Sometimes he seems a fine fellow and then again I think he is just a lazy lout. . . . Oh, he's all right! They are all good boys!"

A graduate, who was far from being a model student and whose careless lack of attention frequently drew forth Professor MacKay's outspoken disapproval, says that time and again his inability to stay angry at "George" was a source of infuriation. "In the morning lecture he would deeply insult me by telling me some truth for my own good, and I would spend the rest of the morning and noon-hour in a rage. Then, in the afternoon lab., 'George,' having apparently forgotten the morning's incident, would spend a solid hour showing me how to do something and leave me feeling as though I owned the building."

Only two formalities are observed in Professor MacKay's classes. The student must not be late, and he must not talk except so that the whole class may hear. Otherwise, the atmosphere of his classes is like that of a group of friends meeting to discuss a topic of mutual interest. As one former student told the writer: "You cannot help but want to learn what he is teaching, and his enthusiasm and exuberance make every lecture interesting, whatever the subject."

His fund of personal anecdotes is rich and varied, and the better type of humour and fun brightens his classes. His first-hand knowledge of the industries and of the men who are developing them—given without a touch of vanity or self-consciousnesss—makes the undergraduate feel he is learning something very much alive. His lecturing technique is unique because it is an expression of his personality. There is no dogmatism. He questions each man and makes him feel that he earnestly wants the answer. For the thoughtful response, even though wrong,

there is careful consideration with arguments pro and con. For the careless reply, there is: "Naw!" with arms thrown wide, and, "You know better than that."

A characteristic pose is to perch on the vacant seat beside someone who is pondering over a hard problem, his hand on the student's shoulder, waiting for the answer as though it might revolutionize the whole world of science.

Born on a farm in Arran township in Bruce County, Ont., George MacKay received his preliminary education at Owen Sound Collegiate Institute and came to Queen's to take the course in mining and metallurgy. Somewhat older than his classmates, he was known as the "daddy" of his year. Conversely, W. R. (Bill) Alder, of London, Ont., and George C. Wright, of Kingston, were the "babies" of the Science '07 class. He encountered no difficulties in his university work. Indeed, in 1905, he won the Chancellor's scholarship in practical science. Even as a student he was immensely popular, and when he graduated in 1907 with the degree of B.Sc. in mining engineering, he was made permanent president of his class.

For three years George MacKay carried on research work at Queen's, in connection with the extraction of silver and cobalt from Cobalt ores. He was also responsible for much of the testing of various ores sent from all over Ontario and other points in Canada, Queen's having the only efficient mining laboratory in the Dominion at the time. For a few months he was engaged at Deloro, where he started a silver-oxide plant. By this time, far-away fields looked green, and when a chance arose to join the staff of the East Rand Proprietary Mine in Africa, "George" seized it. He intended to stay on the Dark Continent only one year, but remained three, and when he finally returned to Canada he spent some time on gold refining at the Dome Mine, South Porcupine. The prematurely defunct Sudbury Mining School was then returned to life through his efforts, and has since continued to prosper. The next two years he served as technical secretary to the deputy minister of mines, the late Dr. R. W. Brock, at Ottawa. From there he went to Toronto as assistant to the late Dr. F. W. Merchant, director of technical education for the Province of Ontario. After two years in that post he returned to Queen's in 1918, to take charge of the Metallurgy department, and here he has been ever since. He has done also a large amount of important consulting work for various mines, and several patented processes are to his credit.

Professor MacKay's wife is Pearl Crawford, Arts '07, and his home is always open to students and visiting alumni. Legion is the number of those who have enjoyed the MacKay hospitality. For recreation he pursues golf balls over hill and down dale, does a bit of gardening, and, in the winter, is expert with the "besom and stane." No assault-at-arms at the University seems official without the familiar face of George MacKay at the ringside.

A Science graduate of 1935 says: "Certainly, Professor MacKay, though still at the height of his academic career, is already a Queen's legend and tradition."

COLLECTION OF MAPS PURCHASED BY UNIVERSITY

DURING the past month a valuable collection of maps has been purchased by the University for the Douglas Library. The acquisition was made possible through the generous assistance of Chancellor J. A. Richardson, Arts '06, LL.D. '29, who has promised to contribute $500 towards the cost. The collection, numbering 185 items, is from the estate of the late Dr. C. M. Bell, of Winnipeg, and will add to an already extensive array in the Library.

The maps are mostly of Canada and North America. There are a few which were made in the sixteenth century, but the majority are of the seventeenth and eighteenth centuries, with a sufficient number of the early nineteenth century to show how the mapping of Canada progressed. Some of the first maps, of course, are vague, as the artists had to rely mostly upon hearsay and imagination in depicting the frontiers, but all are interesting and show that even the earliest cartographers had an amazing

amount of knowledge of their subject. A few of the oldest specimens are hand-painted and -printed, revealing a most painstaking care in manufacture.

These maps, most of which are in excellent condition considering their age, will be mounted on linen, laid flat in cases for exhibition purposes, and catalogued. To the students of Canadian history, they will prove a veritable mine of information.

UNIVERSITY OFFERS NEW PROVINCIAL SCHOLARSHIPS

NINE new entrance scholarships of particular attractiveness have been established at Queen's—one for each province of the Dominion.

These special scholarships carry a cash award of $100 in each of three years and free tuition for three years at the University. They may be held in any faculty, and their total value will be as follows: Arts, $675; Medicine, $869; Applied Science, $921. They become available next session.

The scholarships are to be awarded on the basis of honour-matriculation standing, considered together with the record of the applicant throughout his or her entire high-school course.

Applications for the Provincial Scholarships must be received on or before May 1 by the Registrar of the University, from whom detailed information may be obtained at any time.

EMPLOYMENT SERVICE NEEDS HELP ALUMNI CAN GIVE

THE Employment Service at the University is now in the midst of its annual intensive campaign to find work for a large number of prospective graduates, and summer jobs for several hundred students.

The demand for graduates, although not evenly distributed, has shown a big improvement during recent months, and the Service is hopeful of being able to find employment for many of the young men and women who will complete their courses this spring. In some divisions, however, the task is not going to be easy. But the greatest problem of the bureau is to obtain vacation work for the members of the junior years, many of whom are absolutely dependent upon their summer's earnings for funds to return to the University.

The Service therefore appeals to the alumni at this time for information regarding any openings, permanent or temporary, for which men or women with university training might be considered. The co-operation of the alumni in employment matters during the past has been invaluable. Their assistance, *your* assistance, again this spring is earnestly asked.

"SOME CANADIAN PROBLEMS" THEME OF LECTURES

UNDER the general topic of "Some Canadian Problems" the series of Monday-afternoon public lectures offered by the Extension department of the University opened in Convocation Hall on January 18, with Principal Wallace speaking on "Geographical Barriers of Canada. How Can They Be Overcome?" This excellent address is printed in full as the leading article in this issue of the *Review*.

Dr. W. A. Mackintosh, head of the Commerce department, delivered the second lecture on January 25, on "Canadian Immigration. What is a Sound Policy?"

Dr. Mackintosh said: "Although we cannot hope to reach again the volume of immigration which characterized the pre-war period, on the whole a renewal of immigration that is not based on subsidy and that is moderate in amount will definitely be a desirable contribution to mobility of labour and general re-adjustment. This important fact must be noted: that new immigration should not introduce more unskilled labour, of which we have a surfeit. Such restrictions as are imposed should be by some rough measure of quality rather than by race or nationality."

The third lecture was delivered by Dr. R. G. Trotter, head of the History department, on February 1. His topic was, "Has Canada a National Culture?"

Greatest evidence of a growing Canadian culture might be found to-day in painting, where the sectionalism and immaturity that marked most phases of art

in the country were being overcome, was the view expressed by Dr. Trotter. "As Canada matures as a nation it will build a genuine national culture," he said. "But self-criticism as well as national consciousness will be required for the building of the best Canadian culture, and that will be narrowed in scope unless there are continued influences from other countries."

The lectures were broadcast over the Queen's station, CFRC, at 1510 kilocycles.

RADIO PROGRAMMES ARE POPULAR FEATURE

THE week-by-week series of educational addresses broadcast over Queen's radio station, CFRC, was resumed on January 4, and a total of twenty lectures was delivered during the month.

In accordance with the policy of the series, the addresses covered a wide range of cultural topics. The attractive programmes are steadily gaining widespread interest and increasing the scope of the University's influence in the community.

During January, addresses were contributed by the following staff members: Prof. Henry Alexander, Dr. E. M. Boyd, Dr. Gregory Vlastos, Mr. André Biéler (2), Mr. E. C. Kyte (4), Miss Mary Macdonnell, Prof. M. B. Baker, Prof. H. M. Estall, Dr. F. L. Harrison (2), Dr. P. G. C. Campbell, Dr. J. E. Hawley, Dr. George Humphrey, Dr. W. M. Conacher, Prof. W. E. C. Harrison, and Dr. James Miller.

QUEEN'S AND KINGSTON JOIN IN HEALTH WORK

THE first step in the plan to make the City of Kingston an important centre for public health instruction in Eastern Ontario has been taken by the city council in co-operation with Queen's. The council decided in January to engage a full-time officer of health, who will also serve as a member of the staff of the Medical faculty.

The board of trustees of the University had informed the council that if the City decided to appoint a full-time health officer, the University was willing to pay $1000 towards his annual salary in return for his partial services with the Faculty of Medicine, under the direction of the departments of preventive medicine and public health.

In a letter to the council, the secretary of the board said: "By co-operation of this kind, the trustees believe that the City and the University could do work of the highest value, serving well not only their own interests, but those of the Province as a whole. There is obviously an opportunity of making Kingston an important centre for public health instruction and a model of public health administration."

SECOND BULLETIN ISSUED BY CONNELL FOUNDATION

PREFACED with a paper on "Ensol," by Dr. Hendry Connell, Arts '15, Med. '18, Bulletin No. 2 on the subject of "Cancer Research" was published by the Hendry-Connell Research Foundation, Kingston, during January. This bulletin takes the form of a clinical report and cites case histories of patients suffering from cancer and treated with ensol at Kingston, Ont., Portland, Me., Vancouver, B.C., and Wilmington, Del. It also contains four reports of experimental laboratory work done by Dr. G. H. Ettinger, Arts '16, Med. '20, of the Physiology department at Queen's.

Other contributors to Bulletin No. 2 include Dr. William Holt, of Portland, Me.; Dr. H. C. Pitts, of Vancouver, B.C.; Dr. George A. Connolly, of Wilmington, Del.; Dr. J. E. Nicol, Med. '31, of Toronto; and Dr. C. D. T. Mundell, Com. '24, Med. '30, Dr. I. Sutton, Med. '30, Dr. G. S. Burton, Med. '31, and Dr. W. A. Campbell, Med. '24, all of Kingston.

The following statements are made concerning ensol by Dr. Connell: "It is not a 'one man' exploit or undertaking. More than sixty people—biochemists, bacteriologists, cytologists, physicists, clinicians — at the two Foundations [Kingston and Philadelphia]—are working on the problems opened out by this discovery. . . . Ensol is not a 'cure' . . . It is not a secret preparation. . . . Professional visitors are welcome at both

laboratory and clinic. . . . It does not produce typical reactions and results in all cases in which it is administered. . . . Its present limitations are fully recognized, acknowledged and accepted. . . . . Ensol is a research problem upon which intensive co-ordinated work is being done, in laboratories and clinics. . . . Definite clinical results are being obtained by its use, so definite that general use is warranted as soon as possible. . . . It is not suggested or intended that the use of ensol should replace presently accepted methods of treatment. Rather it should be added to them."

UNIVERSITY ACQUIRES MOVIE PROJECTOR

THE latest type of moving-picture projector for 16-mm. film has been bought by the University and is now installed in a permanent booth in Convocation Hall. This machine, the finest of its kind, can show both sound and silent films and is a most useful addition to the University equipment. The projector is intended for class, Film Society and general purposes.

For the past ten years, a standard-size (35 mm.) projector has been in use, but it has had numerous disadvantages. It could show only silent pictures, and regulations governing its use called for a fireproof booth and a licensed operator, neither of which is necessary for the new apparatus. Also, most educational films and those of the type shown by film societies are now made in the 16-mm. size.

For the older machine, the University possesses several films of considerable historical interest. Among these are three reels, in triplicate, made at the time of the 1927 endowment campaign, and more recent films of Principal Wallace's installation and of the visit of Lord Tweedsmuir. These form the nucleus of a pictorial story of Queen's which will be invaluable in the future, and which will be added to year by year.

CAMPUS BRIEFS

PRINCIPAL WALLACE continued his series of lectures to first-year students during January. On the fourteenth he spoke on "The Economic and Political Life," and on the twenty-ninth his subject was "Our Thinking, Language, Psychology, Philosophy."

* * * *

An exhibition of Canadian water colours was held in the Old Arts building during the month of January. On the twentieth Mr. André Biéler, resident artist, gave a talk concerning the pictures.

* * * *

Tentative arrangements have been made to hold the second Canadian-American Conference at Queen's next June. Principal Wallace and Dr. R. G. Trotter, head of the History department, are members of the committee in charge of formulating plans for the meetings. Professors and graduates of Queen's made an important contribution to the success of the first conference, held in 1935 at St. Lawrence University, Canton, N.Y., which was arranged primarily for the exchange of information and opinion on political, economic, legal and educational problems.

* * * *

Queen's is a tremendous asset to Kingston, not only in dollars and cents but also for the prestige it gives the city as the seat of a university, Principal Wallace told a large gathering at the annual meeting of the local Chamber of Commerce on January 12.

* * * *

Mr. E. C. Kyte, the University librarian, has reported that the circulation of books among the students during 1936 showed an increase of 20 per cent over that of the previous year.

* * * *

An exhibition of photographs from the camera clubs of Eastern Canada was staged in the Carnegie Art Room in the Douglas Library in mid-January. The Queen's Camera Club was represented by three pictures.

GRANT HALL FUND

Approximately $1900 still remains of the General Alumni Association's commitment.

STUDENT ACTIVITIES

THE annual at-home of the Arts faculty was held in the Gymnasium on January 22, when a large number of undergraduates and their friends danced to the music of Harold Stern and his Cocoanut Grove orchestra. Decorations transformed the Gym. into a New York night club, while soft lights and a gay atmosphere added to the enjoyment. The guests were received by Dr. and Mrs. W. E. McNeill, Miss Martha Dent, and C. R. Coughlin, president of the Arts Society.

* * * *

Plans for a series of University church services on the campus were passed at an open meeting of the Alma Mater Society on January 12. The services will be held once a month or, if possible, more frequently.

* * * *

At a meeting of the *Journal* staff on January 13 the reporters formed a press club, the purpose of which will be to coordinate and foster interest in journalism on the campus. Jack Alley, Arts '38, of Toronto, was elected as secretary-treasurer.

* * * *

M. C. Tillotson, Com. '26, of the International Business Machines Company, Montreal, addressed the Commerce Club at a luncheon meeting in the Students' Union on January 15.

* * * *

Twenty students, representing four Canadian universities, assembled at Queen's the week-end of January 16 at a Student Peace Movement conference. It was decided to present a petition to the Dominion Parliament, asking that the Conscription Act be repealed.

* * * *

The A. M. S. executive has announced that a limited number of 1934 and 1936 *Tricolors* are for sale at the greatly reduced prices of $1.50 and $2, respectively.

* * * *

Dr. G. S. Melvin, professor of physiology, addressed the first meeting of the Biology Club for 1937 on January 20, speaking on "Hormones," which he described as the most important field of medical biochemistry at the present time.

* * * *

The annual banquet and smoker of the Mining and Metallurgical Society was held in the Frontenac Hotel on January 20. The guest-speaker was Mr. Joseph Errington, president of Little Long Lac Gold Mine.

* * * *

Professor K. P. Johnston, of the Mathematics department, spoke to the members of the Math and Physics Club on "The History of Time Measurement" on January 22.

* * * *

Professor W. R. P. Bridger, of the Royal Military College, Kingston, addressed the English Club on January 26, speaking on "Charles Sangster, a Canadian Poet."

* * * *

The Ban Righ "formals" were held on January 27 and 29, when the co-eds entertained their male friends according to an old Queen's tradition. The decorations turned the dance hall into the roof-garden of a New York sky-scraper.

* * * *

The League for Social Reconstruction presented as a reading, Irwin Shaw's play, *Bury the Dead,* in the Y. W. C. A. Jubilee Hall on January 31.

* * * *

Members of the Radio Club have finally acquired their own wireless transmitter, which boasts a dependable range of three to four hundred miles under any conditions.

* * * *

The Alma Mater Society executive has decided to hold an A. M. S. dinner and dance on March 5 in place of the Junior Prom. At the dinner all athletic awards won during the year will be presented.

* * * *

The Dramatic Guild is entering two one-act plays in the Eastern Ontario Drama Festival, being held in Convocation Hall in February.

ATHLETICS

B. W. & F.

WITH the Intercollegiate assault-at-arms scheduled for February 26 and 27 in Toronto, the Queen's boxers, wrestlers and fencers are busy putting the finishing touches to their training.

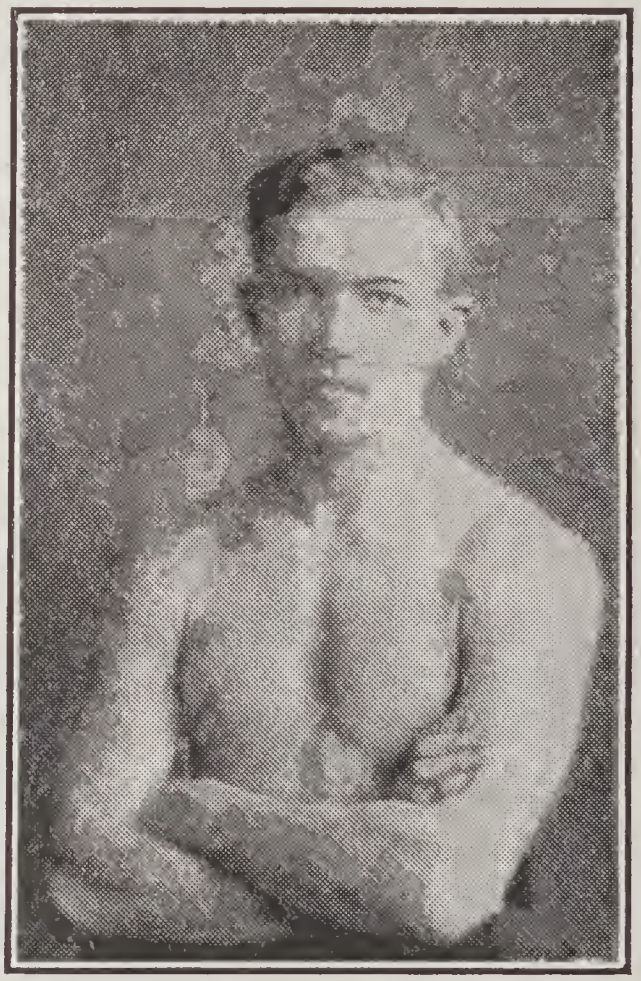

JACK JARVIS
Boxing Coach

Last year's team was riddled by graduation, ineligibility and withdrawal from competition, and local officials are making no predictions as to the potentialities of the 1937 squad, but present indications are that the boys stand a good chance of winning back the cup lost to McGill by a fraction of a point.

The boxing team shapes up as the strongest of the trio, mainly because it boasts the most experienced campaigners. The wrestlers are labouring under a heavy handicap, inasmuch as Coach Jimmy Bews has been *hors de combat* with influenza for some time. They worried along by themselves as best they could until Gordie McMahon, Sc. '37, former Intercollegiate middleweight champion, stepped in to pinch-hit for Mr. Bews.

The Tricolour squad has already had the benefit of two fast exhibition assaults, and another one is planned before the Intercollegiate matches. On January 23 the wrestling team paid a visit to St. Lawrence University, Canton, N.Y., and lost all of the nine bouts. The boys put on a better show than the results indicate and were given an enthusiastic reception by the American fans.

AL TISDALE
A veteran member of the boxing team

On January 26 the team entertained boxers and wrestlers from Toronto West End Y.M.C.A., winning four, losing the same number, and drawing one of the inter-club bouts. Two of the Tricolour boxers won by knockouts, and in what was to have been the feature bout of the evening, "Chuck" McLean's opponent declined to enter the ring and the match went to Queen's by default.

Hockey

TWO wins and three losses in the International Intercollegiate Hockey League is Queen's record since the schedule was resumed after the Christmas holidays, bringing the complete standing to three victories and as many defeats. Queen's is now tied for second place with Harvard and the University of Montreal.

The Tricolour started the 1937 portion of the schedule with a 6-4 triumph over University of Montreal at the Jock Harty Arena on January 15. Queen's played good hockey for thirty minutes and then coasted the remainder of the time. The Montreal team came to life in the second period, when the score was 6-1 in favour

ART STOLLERY
Captain of Hockey Team

of the Tricolour, and dominated the play from there on, but could not quite overtake their opponents.

Queen's wound up on the short end of a 4-2 score against the same team in Montreal on January 22. Minus the services of "Dazz" Guy, through illness, the Tricolour turned in a listless performance against the Montrealers. It was probably their poorest exhibition of the year.

On the following day, Queen's met a great McGill team and was brushed aside by the one-sided score of 11-2. Strange as it may seem, the Tricolour looked 100 per cent better than against the University of Montreal. They tried hard all the way, but could not match the Red and White speed and goal-getting ability.

The team went down to a third defeat on January 27, heart-breaking this time, when Varsity won 4-3 in overtime at the Kingston arena. Twice the Tricolour came from behind to tie up the score during the regulation three periods and ap-

GEORGE KENTY
O.H.A. Scholarship Winner

peared to have an edge on the play. There was little to choose between the teams in overtime until, with less than one minute to go, a Blue-and-White forward blazed a shot past goaler Merve McEwan and the game was lost.

The Queen's players put an end to their losing streak in no uncertain fashion when they trounced Yale 10-0 at the Harty Arena on February 1. The Tricolour showed marked superiority at every stage of the game and seemed to be able to score at will. The Americans, playing their first game in Kingston since 1919, could not cope with the Queen's attack, but left a fine impression with the large crowd because of their game display.

Johnny Munro, star halfback of the football team, has been the standout of the Tricolour hockey squad all year. He is well up with the leading scorers of the league and never enjoyed a better season. Captain Art Stollery and Ken (Dazz) Guy are also stars and engineer a large percentage of the team's scoring plays.

* * * *

The Intermediate O.H.A. team is faring none too well, being in last place. The players work well together, but appear to lack finish around the nets.

* * * *

The Junior O.H.A. team is holding down second place in its group and is conceded a chance of taking over the top position before the schedule is completed.

Basketball

QUEEN'S senior basketball team opened its title-defending campaign for 1937 with a 24-20 win over McGill on January 23 in the only Intercollegiate game played as this goes to press.

Before a capacity Montreal crowd, the Tricolour launched a systematic attack and, paced by Captain Johnny Edwards and Ernie Spence, outplayed the Red and White from start to finish. Queen's stepped out in front early in the match, ran up a six-point lead, with the score 15-9 at half-time, and staved off McGill's strong bid in the final period.

Edwards and Spence accounted for seventeen points between them, with the latter making good on five out of eight attempted free shots. Only McGill's outstanding defence work kept down the score. Queen's showed enough to warrant installation as the team to beat for the championship again this year.

On January 9, at the Queen's gymnasium, the Tricolour lost a fast exhibition game to the Ogdensburg, N.Y., Schines, 20-17. It was the first loss on the home court since 1935. Queen's enjoyed a one-point lead at half-time, but faded in the final period as the visitors forged ahead.

The Tricolour court team journeyed to Ottawa the week-end of January 15 to engage the Morrisburg, N.Y., Sailors, and the Ottawa Underwoods, last year's Dominion finalists. In a thrilling overtime battle on that evening, the Sailors, who had a string of eight straight victories to their credit, were defeated by the score of 30-28. The following night, the Tricolour came out on the short end of a 24-23 score, this game likewise going to overtime. At one stage of the final period, Queen's led by eight points, but their attack crumbled when Cunningham was ruled to the side-lines for personal fouls.

CAPTAIN MAL CUNNINGHAM

Some indication of the improvement shown in the Tricolour team since the start of the season may be gathered from the fine victory registered over Ogdensburg Schines in a game played at Queen's on January 30. The visitors, erstwhile conquerors of the Intercollegiate champions, went down under a 33-25 trimming.

* * * *

The intermediate team, entered in the Eastern Ontario Basketball Association,

holds down third place in the standing, with one win in three attempts. In first place is the Kingston Y. M. C. A. team, with four former Queen's senior players on its line-up—Graham Thomson, Arts '35, Stewart Brown, Arts '33, Wils McMahon, Sc. '36, and Bob Elliott, Arts '34.

* * * *

The junior team is in second place in its E.O.B.A. group, with one win and one loss.

* * * *

The girls' basketball team is practising faithfully every day for the Intercollegiate tourney at McGill, the latter part of February. The co-eds have participated in a number of practice games and show promise of being able to wrest the "Bronze Baby" away from Western. On January 30, the girls defeated the Merry Raiders of Ogdensburg, N.Y., 24-18.

Sport Notes

FOR being a clean, effective hockey player, showing exceptional scholastic ability, George Kenty, Sc. '40, of Cobalt, Ont., has been awarded the O.H.A. scholarship for the current academic year. Quiet and unassuming, George is one of the mainstays of the senior Intercollegiate team. He starred for the championship Haileybury squad before coming to Queen's.

The old problem, "Should some recognition be given the men and women who win more than one 'Q'?" appears to be reaching a solution. The Athletic Board of Control has approved of a plan whereby final year men will turn in their "letters" and, in return, will be given a "Q" with a blue or red star worked into the upper half—one star for every extra "Q" won in competition. This scheme will become effective as soon as sanctioned by the A. M. S. executive, whose idea it was originally.

* * * *

A regulation handball court has been laid out in one of the small auxiliary gymnasiums, and a large number of students are playing this strenuous game every day. A tournament is now in progress, and some real experts have been discovered. The game has been played at Queen's for the past three years, but this is the first time it ever reached the status of an organized sport.

* * * *

On January 30, the Medical mermen defeated Science 4-3 in the first game of the interfaculty water-polo series. The next and final game will be between Medicine and Arts, and will climax the interfaculty swimming meet.

AT THE BRANCHES

Kingston

A DELIGHTFULLY arranged event was the annual dinner of the Kingston alumnae, held in Ban Righ Hall on January 5. The president, Mrs. A. W. DesBrisay (Vera Skinner), Arts '26, presided, and the guests of honour were Mrs. R. C. Wallace and André Biéler, resident artist. Mr. Biéler delivered an interesting address on "The Lower Islands in the St. Lawrence River," and told some delightful personal stories of his experiences among the French-Canadian people.

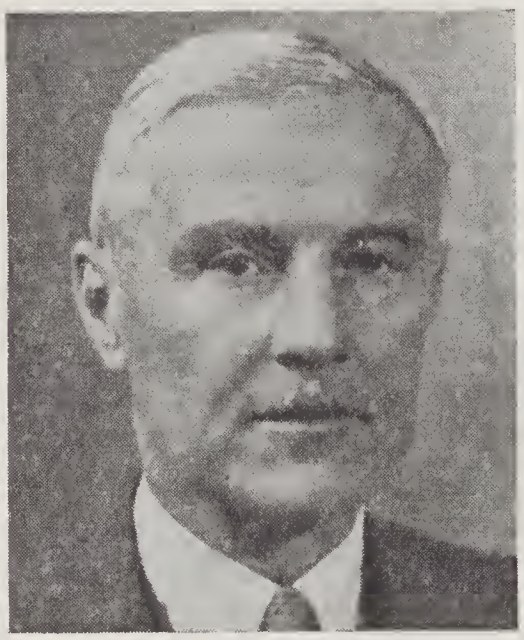

Sudbury

APPROXIMATELY eighty members of the Sudbury branch of the General Alumni Association gathered at the Nickel Range Hotel on January 30 for their annual banquet. Guest-speakers included S. N. Graham, Sc. '00, professor of mining engineering at Queen's, and Dr. L. J. Austin, professor of surgery at Queen's. A. J. DeDiana, Arts '31, president of the branch, acted as chairman.

The toast to "Queen's University" was proposed by G. S. Jarrett, Sc. '24, and

was followed by the College yell. The reply was made by K. S. Clarke, Sc. '10, who emphasized the fact that the University is, more than anything else, the men who teach in it.

E. A. Collins, Sc. '05, assistant to the general manager of the International Nickel Co., introduced Professor Graham, and made the announcement that his organization is sympathetic to employing university mining students. He said that the International Nickel Company is rapidly becoming a school in itself.

PROF. S. N. GRAHAM

Professor Graham referred to the growth of Queen's, pointing out that the enrolment had increased from 650 in the early 1900's to 1750 at present, the staff from 46 to 250, the graduates from 1700 to 8500, and the annual budget from $100,000 to three-quarters of a million. He said that this year's freshman class was the largest in the history of Queen's and expressed the opinion that the limit had been reached. "A crying need at Queen's is for a dormitory for all freshmen," he said.

The speaker reminisced of the past and studded his remarks with anecdotes of College life. He admitted that examinations were "an awful bore"—specially to the professors who have to sit and read, hour after hour, pages of answers.

Dr. Robert Orange, Med. '32, secretary-treasurer of the branch, introduced Dr. Austin, paying tribute to the skill and reputation of the Queen's professor. In his own inimitable style, Dr. Austin told a number of humorous stories and personal experiences, and also touched on world affairs.

Dr. Austin said that far more applications were being received for entrance into the Queen's medical classes than it was possible to accommodate. Classes had been cut to 42 students, while 150 applications were received from New York State alone last year. It had been found necessary to eliminate from consideration all Americans save those whose fathers or grandfathers were Canadian.

DR. L. J. AUSTIN

The thanks of the meeting for the addresses made by Professor Graham and Dr. Austin were expressed by J. R. Gordon, Sc. '20, and Dr. Faustina Kelly Cook, Arts '16.

Montreal

A LARGE attendance featured the monthly meeting of the Montreal branch of the General Alumni Association held on January 21, when Major Mead of the R.C.M.P. spoke on "Communism." This is the second time this able speaker has addressed the Montreal graduates, and on both occasions his remarks have been timely and worth-while.

Major Mead gave a short history of the existence of Communism in Canada, its effects upon certain classes, and its methods of expansion. In all cases, his illustrations were drawn from his own experiences. In closing he pointed out that the influences of such a group in

Canada would be felt keenly in the next few years, and university graduates had an important part to play in the suppression of the movement.

During the business session, C. A. Root, Arts '19, presented an encouraging report of the progress of preparations for the alumni dance in February.

Toronto

FOUR hundred graduates, friends and distinguished guests convened in Simpson's Arcadian Court in Toronto on the evening of January 15 to pay homage to Principal and Mrs. R. C. Wallace. The function consisted of a banquet and reception and was admirably arranged in every detail. It was one of the most successful Queen's gatherings ever held in Toronto.

K. E. KENNEDY
Convener

The beautifully appointed dining-hall was made even more attractive for the occasion by indirect lighting effects in red. yellow and blue; and place cards of individual design, embellished with Queen's colours, graced the head table. The famous Queen's spirit was never afforded an opportunity, away from home, to flourish in a more congenial atmosphere and setting. And when the old College songs were rendered, led by Romeo Lapierre, Arts '27, accompanied by S. M. Ketcheson, Arts '33, at the piano, and the University and Faculty yells echoed through the spacious room, the Arcadian Court became, temporarily at least, a veritable part of Queen's.

The chairman and toastmaster of the impressive gathering was R. J. Aitchison, Arts '29, president of the Toronto branch of the General Alumni Association. Among the forty guests seated with him and with Dr. and Mrs. Wallace at the head table were the Hon. Dr. Herbert A. Bruce, LL.D. '33, Lieutenant-Governor of Ontario, and Mrs. Bruce; Dr. Duncan McArthur, Arts '08, Deputy Minister of Education for the Province, and Mrs. McArthur; Dr. H. A. Cody, D.D. '03, President of the University of Toronto, and Mrs. Cody; Chancellor James A. Richardson, Arts '06, LL.D. '29; Dr. B. T. McGhie, Med. '16, Deputy Minister of Health, and Mrs. McGhie; J. M. Macdonnell, Arts '05, chairman of the Board of Trustees, and Mrs. Macdonnell; Vice-Principal and Mrs. W. E. McNeill; A. E. MacRae, Sc. '13, president of the General Alumni Association; Mrs. G. S. Young (Eva Greenhill), Arts '99, past president of the Alumnae Association, and Dr. Young; G. C. Bateman, Sc. '05, past president of the General Alumni Association; Miss Kathleen Elliott, Arts '26, president of the Toronto alumnae; Rev. Dr. Robert Laird, Arts '93, D.D. '19; and Rev. Murdoch MacKinnon, Arts '97, and Mrs. MacKinnon.

After the toast to the King, Mr. Aitchison extended a heart-felt welcome to the guests of honour on behalf of the Toronto alumni. He said that for those present the pleasure was two-fold — a chance to dine among friends and to meet Principal and Mrs. Wallace.

G. C. Bateman, secretary of the Ontario Mining Association, proposed the toast to the Province. In a brief but forceful address he lauded Ontario, referring particularly to the northern section with which he was, by nature of his profession, in such constant and close contact.

In response, the Hon. Dr. Bruce said that the true wealth of Ontario could be "assayed" in terms of education and enlightenment. Those who had prevailed upon Principal Wallace to "stake the claim" of Queen's University had performed a great service. Queen's had produced many men who had gravitated to responsible positions, and it was most important that this contribution should be continued. "The whole prosperity and future of the Province and the Dominion is dependent on the education and enlightenment of our people, and Queen's is playing no small part towards this end," said the Lieutenant-Governor.

Proposing the toast to the University, Mrs. G. S. Young spoke feelingly of the ties that bind Queen's graduates to their Alma Mater. There was a strong recip-

rocal relationship inasmuch as Queen's needed her alumni and leaned on them for support. "We all want the best for Queen's," said Mrs. Young. "With the help of the graduates, the ideals of the past will be carried on through the future."

The attention accorded Principal Wallace, in his response to the toast to the University, was a most impressive tribute. In simple but moving words, Dr. Wallace said that the presence of the graduates on such an occasion was a great encouragement to himself and to Mrs. Wallace in their work for Queen's.

What were the services that Queen's—a comparatively small university in a small city—could best render? asked Principal Wallace. Its aim should not be to duplicate the great variety of work that could be undertaken by the larger institutions, but rather to concentrate its effort in doing a relatively small number of things superlatively well. There were certain lines of activity which Queen's, owing to background, environment or other circumstances, was peculiarly fitted to pursue.

Principal Grant had envisioned a special field of this nature and had brought the School of Mining into being—a pioneer effort in Canada and one that had amply justified itself. Other phases of modern education with which Queen's appeared especially fitted to lead were those of business, governmental administration and preventive medicine.

In some of these fields Queen's had already played an important rôle, said Dr. Wallace, and she was continuing to develop them. With particular reference to business, the Principal expressed the hope that some day Queen's would be able to render specific service in helping to achieve a solution for the problems of capital and labour, and in bringing about harmony, lacking at present, between these forces.

The Arts faculty, however, said Dr. Wallace, should always remain the basic part of the institution. The subjects which deal with life and the values of life were fundamentally and inevitably the anchorage of the true university, no matter how modern it was. The disciplines of the mind, in the last analysis, were the most important. The country needed development of clear, logical thinking, and proper, clear expression in speech and writing. It was in this field that Queen's could, perhaps, best leave her mark, he thought.

"The unseen eternal things are what are in your thoughts when you band together as old Queen's people," said the Principal. "These are the well-springs of life, after all, even more than degrees."

The thanks and appreciation of the gathering for Dr. Wallace's scholarly and thought-provoking address were aptly expressed by Rev. Mr. MacKinnon. He said that the University was fortunate in having at its head a man who knew the aims and aspirations of the newer part of Canada, where great developments of the future would almost certainly take place. "The 'eternal things' are what made Queen's," he added. "There is no conflict between science and philosophy, and the 'eternal things' are still enshrined in the ideals of our Alma Mater."

After the banquet, a reception was held on the mezzanine floor, where the graduates and guests had the pleasure of meeting the Principal and Mrs. Wallace. The receiving line consisted of Mr. Aitchison, Miss Kathleen Elliott, Principal and Mrs. Wallace. A happy hour was spent in renewing old acquaintances before the delightful evening came to a close.

The committee in charge of the arrangements comprised Miss Elliott, Mr. Aitchison, Miss Florence Leggett, Arts '26, Mrs. Arthur Scace (Miss Jean Simmons), Com. '26, R. C. McNeil, Com. '31, and K. E. Kennedy, Arts '30 (convener).

Western Ontario

PRINCIPAL WALLACE returned from his visit to the branches at St. Catharines, Kitchener, Brantford, London, Chatham, Windsor, and Sarnia just as the *Review* was going to press. A complete account of his trip will be given in the March issue.

ALUMNI NEWS

Births

Ashworth — On December 14, at the Brockville General Hospital, to W. W. Ashworth, Sc. '29, and Mrs. Ashworth (Winona Hawkins), Arts '30, a son (David William).

Beavan—At Edmonton, Alta., on January 27, to A. P. Beavan, Sc. '32, and Mrs Beavan, of Goldfields, Sask., a son. Mr. Beavan is geologist and engineer at the Athona Mines.

Black—At the General Hospital, Oshawa, Ont., on June 28, 1936, to J. R. Black, Arts '32, and Mrs. Black, a daughter (Sylvia Grace).

Cushnie—On January 15, at Anson General Hospital, Iroquois Falls, Ont., to G. W. Cushnie, Arts '33, and Mrs. Cushnie, a son (John Robert).

Farlinger—At the Private Patients' Pavilion, Toronto General Hospital, on January 14, to A. W. Farlinger, Arts '27, and Mrs. Farlinger (Allie Purvis), Arts '29, a daughter (Sally Evelyn).

Fleming — In the Memorial Hospital, Perth, Ont., on January 15, to E. A. Fleming, Arts '25, and Mrs. Fleming, a son.

Honey—At Toronto East General Hospital, on January 14, to J. C. Honey, Sc. '33, and Mrs. Honey (Dorothy Mayhew), Arts '33, a son (John Roy).

Kincaid—On January 10, to D. H. Kincaid, Sc. '27, and Mrs. Kincaid, of Donnacona, Que., a daughter.

McAuley—At Toledo, Ohio, on January 13, to Dr. J. R. McAuley, Med. '26, and Mrs. McAuley, a daughter (Susan Norine).

McKelvey—At Union Medical College Hospital, Peiping, China, on January 12, to Dr. J. L. McKelvey, Arts '23, Med. '26, and Mrs. McKelvey (Ruth MacKinnon), Arts '23, a son.

Mulligan—At the Women's Hospital, Toronto, on January 19, to H. A. Mulligan, Arts '28, and Mrs. Mulligan (Wilma Pattison), Arts '28, a son (Robert).

Twidale—On January 27, at the Truro Nursing Home, Cornwall, England, to M. A. Twidale, Sc. '29, and Mrs. Twidale, of Creighton Mine, Ont., a son.

Marriages

McAlpine-McPhee—On August 8, at Seaforth, Ont., Gladys McPhee, Arts '29, to Corille McAlpine, Arts '30. They are living in Mitchell, Ont., where Mr. McAlpine is teaching in the high school.

Smith—On January 2, at Princess Street United Church parsonage, Kingston, Alice Evelyn Patterson, daughter of Mr. and Mrs. W. J. Patterson, to Arthur Edward Smith, Sc. '34. They will live in Welland, Ont., where Mr. Smith is on the engineering staff of the Electro Metallurgical Company.

Ward-Henderson (Correction) — On December 26, 1936, in St. George's Cathedral, Kingston, Jessie Clarkson Ward, Arts '31, to William James Henderson, Arts '31. They will reside in Princeton, N.J., where Dr. Henderson is on the staff of Princeton University.

Deaths

Blezard—On January 6, in Kingston, Mrs. J. A. Blezard (Ethel G. Wilder), Arts '18, wife of Dr. J. A. Blezard, Med. '14, of Edmonton, Alta., passed away after a lengthy illness. Mrs. Blezard was born in Kingston in 1891 and received her early education in public and high schools of the city. She entered Queen's in 1914 and graduated four years later with her B.A. degree. She married Dr. Blezard in 1919 and moved to Edmonton, where she lived until shortly before her death. She was deeply interested in church work, particularly among young people. Interment was made in Cataraqui Cemetery, Kingston, Dr. W. T. G. Brown, Arts '01, assisting at the service.

Carter—In the Carluke Parish Manse, Scotland, on December 5, 1936, the Rev. Walter Gordon Carter, Arts '14, passed away at the age of forty-six years. The late Mr. Gordon was born in Hastings, Ont., received his preliminary education there and at Norwood, and entered Arts at Queen's in 1910. He received his B.A. in 1914. "Nick" was one of the most widely-known students of his day at the University, and his bright, cheery manner, as well as his versatility and earnestness, won him a host of friends. He was particularly active in Y.M.C.A. and Dramatic Club work. After graduation he went to Scotland to take a course in Theology in the Church of Scotland Hall, Edinburgh. He completed this work after the war, and in September, 1920, was elected minister of St. John's Church, Hawick, Scotland. In 1930, out of sixty-seven candidates, he was chosen as minister at the Old Parish Church, Carluke. Two years ago he suffered a stroke, but recovered sufficiently to resume his duties, which he continued until late last fall. Highly esteemed by his congregations at Hawick and Carluke, whom he served with unflagging zeal and devotion, Walter made a name for himself in the Church and in

the land of his adoption. He is survived by his wife and one daughter.

Forin—Former Alberta Penitentiary physician and a past president of the Alberta Medical Association, Dr. Alexander Forin, Med. '84, died at his home in Edmonton, on January 2. Dr. Forin was born at Belleville, Ont., in 1858 and received his early education at Belleville public and high schools. He graduted with the degrees of M.D., C.M., from Queen's in 1884. He moved to Edmonton in 1902 and lived there until his demise. For many years prior to 1927 Dr. Forin was also medical supervisor of the Workmen's Compensation Board of Alberta.

Fortescue—Queen's first graduate in electrical engineering, Dr. Charles LeGeyt Fortescue, Sc. '98, died in his home at Pittsburg, Pa., in December, after a lengthy illness. The late Dr. Fortescue was internationally famous for his brilliant technical

DR. C. L. FORTESCUE

achievements, particularly in the field of lightning and its relation to electrical transmission lines and distribution systems. Perhaps the most noted of his contributions was the development of a branch of mathematics known as symmetrical co-ordinates, which has proved of great value to education as well as to industry. Nearly two hundred patents were credited to Dr. Fortescue, covering a wide range of research, product development and protective devices, and many of the original patents on economic transformer design and construction were held by him. Most of the high-voltage generation and distribution systems of the world have been perfected and are operating through developments or using equipment attributed to his genius. Pioneer work on alternating-current railway networks is in his record, as is also the design of the first 100,000-volt transformer for commercial service. Much of the development of the theory of transformer design was performed by him, either actively or in a consulting capacity. In addition to his engineering work, he prepared and read a large number of scientific papers before electrical institutes. Dr. Fortescue was born at York Factory, Man., in 1876, but received his early education in Dawlish, South Devon, England. In 1898 he obtained his B.Sc. degree from Queen's, joining the Westinghouse Electric and Manufacturing Company the same year as an apprentice. From 1918 to 1926 he was manager of the company's porcelain, insulator and transmission-engineering department, and from 1926 until his death he served as consulting transmission engineer. In this work he was distinguished by his ability to analyse and develop calculation procedures for technical problems, and to devise new and practical methods of solution based on the application of fundamental principles. Queen's bestowed the honorary degree of Doctor of Laws on her prominent son in 1929, and in 1932 he was presented with the Elliott Cresson gold medal of the Franklin Institute. He was a fellow of the American Institute of Electrical Engineers.

Hales—At the age of seventy-four years, James Hales, K.C., Arts '88, died in Toronto on January 23. The late Mr. Hales was born in Peterborough County, received his preliminary education at Forfar and Athens, Ont., and then attended Ottawa Normal School. He entered Queen's in 1884, graduating four years later with the degree of B.A. and obtaining his LL.B. degree in 1893. He then went to Osgoode Hall, reading law with Cassels and Cassels and with McMurrich and Urquhart, and eventually became senior partner of the legal firm of Hales and Burt, Toronto. He was created a K.C in 1922. He was an alderman for the City of Toronto for two years, a trustee of the Toronto School Board for six years, and a member of the Royal Canadian Institute. From 1921 until 1927, Mr. Hales served as chairman of the board of license commissioners for the Province of Ontario. He was president of A. E. Long and Co., Ltd. He is survived by his wife, a brother, and a sister, and several nephews and nieces.

Harmsworth—At the age of sixty-seven years, Sir Leicester Harmsworth, LL.D. '27, died in London, England, on January 19. Sir Leicester was born in 1870, the fourth son of Alfred Harmsworth, barrister-at-law of the Middle Temple. He sat in the House of Commons from 1900 to 1918 as a Liberal member for Caithness, and from 1918 to 1922 as a member for Caithness-Sutherland. He was created a baronet in 1918 and is succeeded by his son, Alfred Harmsworth. Sir Leicester was a brother of Lord Rother-

mere, British newspaper publisher, and a brother of the late Lord Northcliffe, newspaper owner. He was a noted British attorney. A few years ago Sir Leicester presented to Queen's the fine bronze bust of General Wolfe, at present in the reading-room of the Douglas Library.

LaRush—First person in Canada to supply the medical profesion at large with preparations for treatment of hay fever and asthma, Mrs. Florence Madelle La Rush (Florence M. Johnson), Arts '15, died suddenly in Toronto on January 24, following an operation. For her work in connection with flower pollens causing hay fever, she was made an associate member of the Toronto Academy of Medicine. Mrs. La Rush was born in Kingston, Ont., was educated at the Kingston Collegiate Institute, and received her B.A. from Queen's in 1915. She carried on postgraduate work at the University of Toronto, specializing in botany, and obtained her M.A. degree there in 1931. From 1921 to 1934 she was associated in her work with the Department of Soldiers' Civil Re-establishment, first at Connaught Laboratories and later at Christie Street Hospital. Upon the abolition of the department in 1934 she entered the commercial field.

MacLeod—Clerk of the Glengarry Presbytery of the Presbyterian Church, Rev. Dr. P. A. MacLeod, Arts '87, Theol. '93, died in hospital at Ottawa on January 21, following a week's illness. The late Dr. MacLeod was born in Prince Edward Island in 1864 and entered Queen's in 1884. He received his B.A. degree in 1887, his M.A. in 1890 and his B.D. in 1892. He served as pastor of St. Andrew's Church, Maxville, Ont., until his retirement in 1935.

Morden—Prominent lawyer, trustee and business executive, Wilson S. Morden, K.C., Arts '88, died suddenly following a heart attack at his home in Toronto on January 29. Mr. Morden was born of U.E.L. stock in Hillier, Ont., in 1864. He attended Picton High School and entered Queen's in 1885. In 1888 he received his B.A. degree and six years later his LL.B. He read law with the late Mr. Justice Clute and was called to the Ontario Bar in 1892. From then until 1910 he practised law as a member of the firm of Clute and Morden, at Belleville, and in 1910 he was created a K.C. The same year he went to Toronto and engaged in trust company business. He was general manager of the Guardian Trust Company from 1911 until its amalgamation with the Chartered Trust and Executor Company in 1919, of which he was vice-president until his death He organized the Dominion Match Company and was its president from 1910 to 1920. He was also president of the Canadian Talc Company, president of the Federal Fire Insurance Company, president of the Harvest Company (1915-1927), president of Fibre Boxes Limited (1923-1932), and a director of numerous other firms. While residing in Belleville, Mr. Morden was a member of the board of education, being chairman in 1909-1910, and was president of the West Hastings Conservative Club in 1910. He served as an officer of the 15th Regiment Argyll Light Infantry, Belleville, 1894-1911, when he was placed on the corps reserve with the rank of major. From 1919 to 1924 he was president of the U.E.L. Association of Canada. He was president of the Canadian Manufacturers Association in 1935-36. He was a past grand superintendent of the Royal Arch Masons and past master of Moira Lodge, A.F. & A.M. Dr. G. W. Morden, Arts '88, of Napanee, Ont., is a brother.

Notes

1870-1879

P. A. MacDonald, Arts '76, of Winnipeg, for many years master and referee in the Court of King's Bench and at one time public utilities commissioner, celebrated his eightieth birthday on January 6. Mr. MacDonald enjoys good health and continues to take a keen interest in current affairs.

1880-1889

Rev. W. J. Fowler, Arts '88, has retired from the active ministry in the Presbyterian Church and is now living at 4127 Marcil Ave., Montreal.

Dr. Margaret MacKellar, Med. '90, LL.D. '29, was elected honorary president of the Medical Alumnae Association of Toronto at its annual meeting held during January.

1890-1899

Rev. Thurlow Fraser, Arts '98, Theol. '02, of Union Presbyterian Church, Carney's Point, N.J., was recently presented with the Silver Beaver in recognition of his distinguished service among the Boy Scouts in Canada and the United States over a period of twenty-six years.

Frederick Heap, Arts '90, of Winnipeg, recently published a translation of Homer's "Odyssey." After graduation with his M.A. in classics, Mr. Heap taught school for some time in Ontario and then went to Manitoba, where he studied law. He was admitted as a barrister and solicitor in 1896. Since then he has practised at Selkirk, and during more recent years in Winnipeg. He has always maintained a keen interest in the classics.

Dr. W. B. Munro, Arts '96, of Pasadena, Calif., was recalled temporarily to Harvard University to direct the organization of the graduate school of public administration of that institution. Dr. Munro had been for twenty-five years professor of American history and government at Harvard before going to California.

1900-1909

Dr. N. L. Bowen, Arts '07, Sc. '09, (Ph.D. M.I.T. '12), of the Geophysical Laboratory, Washington, D.C., was elected president of the Mineralogical Society of America at the annual meeting of the organization held in Cincinnati, Ohio.

H. V. Laughton, Arts '09, of Toronto, was elected vice-president of the County of York Law Association at its annual meeting on January 8.

Rev. Dr. R. J. McDonald, Arts '07, Theol. '10, has been appointed superintendent of missions of the United Church of Canada for Southern Saskatchewan. His headquarters are at Regina.

W. L. Malcolm, Arts '05, Sc. '07, professor of municipal engineering at Queen's, addressed the members of the New York State Sewage Works Association at the Hotel McAlpin in New York City on January 22. He spoke on "Studies in the Digestion of Ground Garbage."

Rev. J. A. Petrie, Arts '01, Theol. '06, formerly of Ashcroft, B.C., is now living at Quilicum Beach, B.C.

J. C. Spence, Arts '02, of Carleton Place, Ont., retired in December as public-school inspector for Carleton West and Lanark East counties.

1910-1919

W. H. Adamson, Arts '13, was recently appointed head of the mathematics department in the Sir Adam Beck Collegiate Institute, London, Ont.

A. L. Brooks, Arts '14, has been elected president of the Welland County Law Association. Mr. Brooks has been practising law in Welland for more than ten years.

Rev. A. H. Brown, Arts '11, has retired from active work in the United Church and is living at 528 Chester St., London, Ont.

Mrs. E. A. Chester (Sara Pierce), Arts '13, is now living in Niagara Falls, Ont., where her husband is minister of the Morrison Street United Church

Dr. J. S. Cornett, Arts '13, Theol. '17, (Ph.D. Chicago), has been professor of history and social science at Kansas Wesleyan University, Salina, Kansas, since 1930. He has contributed articles to the "Journal of Religion," the "Expositor," and "Social Science," and recently published "Fifty Years of Kansas Wesleyan University, 1886-1936."

W. H. H. Green, Arts '14, is principal of the vocational school at Fort William, Ont.

Dr. B. C. Hardiman, Med. '14, was recently elected mayor of Fort William, Ont.

W. C. Johnson, Arts '14, is principal of the Sir Adam Beck Collegiate Institute, London, Ont.

C. W. Knowles, Sc. '19, is general construction manager for Walter Kidde Constructors, Inc., New York City.

J. E. McKenzie, Sc. '12, has been doing private consulting work in Calgary, Alta., for the past two years, principally on structural design and estimating.

W. J. Millar, Arts '11, is teaching in the Huntingdon Academy at Huntingdon, Que.

Dr. Lorne Pierce, Arts '12, LL.D. '28, spoke on "The Magnificent Obssesion" before a meeting of the Canadian Authors' Association held in Toronto recently. He also referred to the work of some Canadian poets, giving interesting personal experiences in collecting Canadiana.

Mrs. C. M. Scott (Katherine McNabb), Arts '17, of Peterborough, Ont., was re-elected president of the council of women of that city at the annual meeting held in January.

Mrs. A. M. Warner (Lillian Birley), Arts '12, of Vancouver, was bereaved on January 9 by the death of her mother, Mrs. Mary Amelia Birley.

1920-1929

Miss Vera Ballance, Arts '25, who taught for the past few years at Kirkland Lake, Ont., is now studying at the College Britannique, 9 Boulevard Jourdan, Paris 14, France.

A. R. Currey, Arts '25, Sc. '27, returned to the Quebec division of the Bell Telephone Company, Montreal, last December. He was on the engineering staff of the Bell organization for several years after graduation.

G. H. Day, Com. '28, and **R. C. Day,** Com. '35, of Oshawa, Ont., were bereaved on January 14 by the death of their father, Mr. H. H. Day, of Kingston.

A. W. Farlinger, Arts '27, is head of the recently formed Farlinger Realty Company, 1973 Yonge St., Toronto. His firm specializes in North Toronto, Forest Hill and Leaside properties.

F. W. Fredenburg, Com. '25, has been doing public accounting and auditing in Toronto for the past four years. Recently he has been assistant auditor for the Royal Commission on the textile industry.

C. L. Inglis, Sc. '34, is district officer for the Royal Canadian Engineers, at Calgary, Alta.

J. E. Jerome, Sc. '26, is manager of the Bousquet Gold Mines, Williamsville, Ont.

J. A. Jones, Sc. '21, is lamp-division engineer for the Canadian Westinghouse Company, at Hamilton, Ont.

D. H. Kincaid, Sc. '27, formerly with the Brown Corporation, La Tuque, Que., recently joined the staff of the Donnacona Paper Company, Donnacona, Que.

Dr. J. G. K. Lindsay, Med. '27, for several years in private practice at Lumsden, Sask., has been appointed registrar of the College of Physicians and Surgeons of Saskatchewan. He has taken up his duties at Saskatoon.

G. H. Salton, Sc. '23, has been manager of the Flin Flon Gold Mine, Flin Flon, Man., since May, 1936.

Dermid McCallum, Arts '27, Com. '28, has been with the Goodyear Tire and Rubber Company, Toronto, since graduation. He is now in charge of the interplant relations

department and instructor of the flying squadron.

D. B. McKillop, Sc. '29, of Victoria, B.C,. has been for several years in the bridge engineer's department of the C.N.R. He has recently been doing harbour construction work at Cowichan Bay on Vancouver Island.

Cecil Rutherford, Sc. '23, is at present with the Spooner Gold Mines, Empire, Ont.

J. A. Saunders, Com. '28, formerly assistant superintendent with the Ralston Purina Company, Woodstock, Ont., has been feed-plant superintendent with Toronto Elevators, Limited, Toronto, for the past three years.

J. G. Schaeffer, Sc. '23, has been appointed sanitary engineer for the Saskatchewan Department of Public Health, Regina, Sask. He was formerly doing highway work in that province.

H. L. Schermerhorn, Sc. '23, of Napanee, has been appointed road engineer for the County of Lennox and Addington.

Dr. R. K. Shirley, Med. '23, was recently elected head of the staff of King's Daughters Hospital, Martinsburg, West Virginia. Dr. Shirley has a private practice at Hedgesville, West Virginia.

T. C. Shore, Arts '26, is assistant professor of German at Victoria College, University of Toronto.

S. W. Small, Sc. '25, production manager of Beck Koller and Company, synthetic resin manufacturers, at Detroit, Mich., has just returned from a two months' business trip to England and the Continent, where two branches of the company were recently opened.

Mrs. R. F. Vair (Bessie Walsh), Arts '20, of Kingston, was bereaved on January 12 by the death of her husband, Robert F. Vair, sheriff of the County of Frontenac.

R. W. Willis, Sc. '27, who was with the Canadian Bridge Company, Walkerville, Ont., for some time after graduation, has been designing engineer of bridges for the department of works at Toronto since 1929.

1930-1936

F. E. Anderson, Com. '33, Arts '34, is in the Auditor General's Office, Ottawa, Ont.

W. A. Anderson, Com. '26, is manager of merchandise for the American Blower Corporation, Cincinnati, Ohio.

T. D. Anderson, Sc. '35, formerly at the Howey Gold Mines, Red Lake, Ont., is now manager of the Sturgeon River Gold Mines, via Jellicoe, Ont.

A. A. Anglin, Com. '31, has been admitted into partnership in the firm of Gray, Teskey and Hill, chartered accountants, 159 Bay St., Toronto.

D. B. Archer, Sc. '35, is on the chemical staff of the Imperial Oil Company at Sarnia, Ont.

Dr. A. P. Asselstine, Med. '35, is in private practice at Fernie, B.C.

R. R. Basserman, Sc. '31, formerly at the Howey Gold Mines, Red Lake, Ont., is now with the Normetal Mining Corporation, Dupuy, Que.

A. D. Bennett, Med. '34, has been doing underwriting work for the Metropolitan Insurance Company in the Kingston district for the past three years.

G. H. Bentley, Arts '36, is plant inspector for the Dominion Department of Agriculture. His headquarters are in the Customs Building, Toronto.

J. C. Byrne, Arts '33, formerly of Greenlee Mines, is now manager of the Athona Mines, Goldfields, Sask.

T. A. Carter, Sc. '31, has been with the Saguenay Power Company at Arvida, Que., since graduation.

Miss Margaret Chambers, Com. '34, Arts '35, is now in the research department of the Bank of Canada, Ottawa.

R. J. Chambers, Sc. '33, of the Anglo Canadian Pulp and Paper Mills, Quebec City, had an article in the December issue of the "Pulp and Paper Magazine of Canada." It was entitled "Conservation and Use of Low Potential Heat," and was awarded first prize in the contest sponsored by this magazine on the subject "The Occurrence, Reduction and Recovery of Manufacturing Wastes in the Pulp and Paper Industry." At the annual convention of the Canadian Pulp and Paper Association, held in Montreal in January, Mr. Chambers read a paper on "Factors Affecting Dryer Performance."

Miss Ruby Cordy, Arts '34, who did post-graduate work in France after graduation and later attended O.C.E., is now teaching French, English and history in the high school at Avonmore, Ont.

Dr. W. J. Houghtling, Med. '32, is at the United Church Hospital, Bonnyville, Alta.

Cecil Jones, Arts '30, formerly of Coldwater, Ont., where he operated the "Coldwater News" for several years, is now editor of the "Port Hope News."

A. G. Miller, Sc. '31, is at present on the engineering staff of the Kleine Hollow Tile Company, London, England. His residence address is 117 Maida Vale, W. 9, London, England.

K. H. Munger, Sc. '30, has been with the International Harvester Company, Chicago, Ill, since graduation.

Dr. Nelson Perea, Med. '36, is on the staff of the Mayaguez West Charity Hospital, Mayaguez, Puerto Rico. Dr. Perea passed second in the state medical board examinations held in San Juan, Puerto Rico, last September.

C. J. Rorke, Sc. '34, has joined the staff of Canadian Bitumals, Leaside, Ont.

A. E. Salton, Arts '34, is now with the Leland Company, Simcoe, Ont.

M. T. Saunders, Arts '33, is at present in the manufacturing division of the United

Drug Company, Toronto. His address is 79 Langley Ave.

W. H. Shortill, Com. '34, is with Messrs. Chambers and Meredith, financial, real-estate and insurance brokers, 24 King St., W., Toronto.

A. H. Smith, Arts '35, is doing postgraduate work towards his Ph.D. in educational psychology at Teachers College, New York City.

C. M. Stanbury, Sc. '32, is an engineer at the Morris Kirkland Mine, King Kirkland, Ont.

Arthur Sutherland, Arts '34, is at present attending the American Academy of Dramatic Art, New York City. He appeared in the senior-class production "Holliday," presented at the Empire Theatre on January 15.

W. E. Taylor, Sc. '35, who went with the International Nickel Company, Copper Cliff, Ont., after graduation, recently accepted a position with the International Petroleum Company at one of its large refining plants in Peru.

W. T. Unsworth, Sc. '36, is at present a full-time demonstrator in the department of chemistry at Queen's.

Dr. W. J. Yarmey, Med. '35, has opened a practice in Toronto. His office is at 540 Bathurst St.

C. J. Tottenham, Arts '35, who has been with the Dominion Life Assurance Company, Waterloo, Ont., for the past two years, is now on the French and English staff at the Royal Military College, Kingston.

General

Dr. L. J. Austin, professor of surgery at Queen's, addressed the Sudbury district Medical Society on January 30 on "Gall Bladder Problems" and "The Origin of Syphilis." Queen's doctors who attended the meeting were: **K. J. W. Bromley,** '29, **O. E. Kennedy,** '16, **M. J. Kennedy,** '17, **G. A. Henry,** '15, **D. S. Pugh,** '33, **Robert Orange,** '32, **W. I. Taylor,** '33, **J. L. Shappert,** '36, and **Mrs. Faustina Kelly Cook,** Arts '16, (M.D. Toronto). While in Sudbury Dr. Austin also held clinics at St. Joseph's Hospital, at which various surgical cases were presented, addressed the Sudbury High School pupils, and attended the annual banquet of the Sudbury Branch of the General Alumni Association as one of the guest-speakers.

Dr. George Herbert Clarke, head of the English department, has had published by the Macmillan Company his latest poem, "On the Burial of King George the Fifth." Sir Charles G. D. Roberts, dean of Canadian literature, writes of it: "It is a great Ode, one of the very few entirely successful poems of ceremonial occasion that I know.

"What's your most popular treatment here?"
"Passing 'round the Sweet Caps!"

SWEET CAPORAL CIGARETTES

"The purest form in which tobacco can be smoked."—Lancet

It is sustained at so high a pitch of eloquence—so rich and varied in its music—and so genuine in its artistically restrained emotion."

Dr. Heinrich Henel, head of the German department at Queen's, addressed the annual meeting of college teachers of German, held in Hamilton recently.

Mr. E. C. Kyte, the University librarian, was the author of a paper entitled "Fort Niagara in the War of 1812: Side-Lights from an Unpublished Order-Book," which appeared in the December issue of the "Canadian Historical Review."

Rev. Dr. J. M. Shaw, of the Queen's Theological staff, was elected president of the Kingston Ministerial Association at its annual meeting in January.

Dr. J. B. Walkem, LL.D. '28, was elected president of the Frontenac Law Association at the annual meeting held in Kingston early in January. **Francis King**, Arts '89, was elected vice-president, and **T. D. Slater**, Arts '21, secretary-treasurer.

* * * *

The following Queen's graduates are in attendance at the Ontario College of Education this year: Douglas Argue, J. H. Bocking, Eileen Clery, R. B. Code, Helen Cram, Helen Eakin, Ruth Fishleigh, Marjorie Forrest, Myrtle Green, Isabel Jickling, Laura Lang, Leonard Lucas, Eileen MacLean, J. W. Marriott, R. E. Murphy, Mary Alice Murray, H. R. Partridge, Frances Read, T. R. Requa, J. V. Rose, W. F. Thom, Margaret Walt, G. M. Watts, Mary William, all of Arts '36; Edna Lorimer, Ethel Millard, Alden Moore, R. B. Munro, Ethelwynne Murphy, J. D. Waugh, of Arts '35; Jean Cameron, W. J. Mackey, Thomas Tipton, of Arts '34; Florilla Dunlop, of Arts '32; A. E. D. Nicholson, Irene Seymour, of Arts '31; and J. D. Murray, Sc. '25.

* * * *

At a meeting of the laboratory section of the Canadian Public Health Association held in the Royal York Hotel, Toronto, recently, **Dr. John Orr**, Med. '23, associate professor of bacteriology at Queen's, acted as chairman, and **Dr. G. D. W. Cameron**, Med. '27, research fellow at the Connaught Laboratories, Toronto, was present as secretary. Three scientific sessions, a luncheon meeting and a dinner meeting comprised the programme. Among those giving papers at the scientific sessions were **Dr. John Wyllie**, of the Queen's Medical staff, and **Dr. J. E. Josephson**, Med. '34, assistant bacteriologist at the Toronto General Hospital. **Dr. G. B. Reed**, professor of bacteriology at Queen's, was one of the speakers at the dinner, while at the luncheon, the chief speaker was **Dr. B. T. McGhie**, Med. '16, deputy minister of health and hospitals for Ontario.

THE "QUEEN'S JOURNAL" OF YESTERYEAR

By the late C. S. Lundy, Sc.'27*

TO alumni of recent years, mention of the *Queen's Journal* will recall memories of the present-day, six-column, eight-page student newspaper which appears upon the campus twice a week. Older graduates, however, particularly those who were at the University prior to 1910, will remember the *Journal* as a much smaller periodical, in magazine or pamphlet form.

The first number of the *Queen's College Journal* saw the light of publication on October 25, 1873. The issue of that date, and every succeeding number, is duly filed in the treasure-room of the Douglas Library, and a perusal of the yellowed old pages of those early editions amply repays any reader.

In its infancy the *Journal* was admittedly a magazine rather than a newspaper. It was not until 1911 that the present-day news-sheet, in which reports of current events predominated, began to appear. Prior to that year the *Journal* remained steadfastly faithful to its original conception, varying occasionally perhaps, but never forgetting its primary aims and purposes, which, according to the editorial announcement in the first issue, were "to foster a literary taste among the students, and to afford them an opportunity of giving expression to their opinions on the leading topics of the day."

Volume One, Number One, was a pamphlet of eight pages, each eight by eleven inches in size and containing three columns of fine, closely set type. No pictures alleviated the severity of its columns—nor did illustrations appear in the *Journal* for many a long day—and flamboyant headlines were entirely missing. It was printed at the *British Whig* (in later years the *Daily News* did the work), but no mention of the first editor's identity is made. Possibly some alumni of the seventies will have information on this point.

The paper appeared fortnightly during the College session. According to the masthead statement, the terms of subscription were: "One Collegiate year (in advance), $0.50, each, $0.05." A modest fee, surely, but judging by the various pleas and exhortations which frequently decorated the early issues, the publishers had considerable difficulty in collecting even that much. Apparently they had not at that time hit upon the simple and effortless scheme employed now—that of having the subscriptions collected by the University treasurer at the time of registration.

Poetry played an important rôle in the contents of the first *Journals*, and there were very few issues which did not contain at least two odes, sonnets or jingles. These creative efforts were always given a prominent position in the left column of the front page. Indeed, the entire front page of the first edition, in 1873, was occupied by a lengthy poem of

*This article was written by Mr. Lundy while he was assistant editor of the "Review," a few months prior to his death in December, 1936.

twenty verses, entitled "The Mystery of the Jewels," in which the bard sang rapturously of the beauty inherent in gems. "You offered burning sacrifice of praise," he said, addressing the objects of his poetic and fervid imagination, "ere primal monsters in the bloody mire which, reeked with slaughter, did each other tear."

Another classic in a later number was entitled "Taming a Masculine Shrew," and was based, in construction, on the form of "The Raven." It recounted the sad tale of a martinet husband who sat in the parlour tyrannically demanding bitters while his wife was frying fritters, until his incessant impositions drove the poor woman to distraction. Eventually she attacked him, using the frying-pan brimming over with frizzling fritters as a weapon, chasing him from his home and castle, and keeping the door barred against him until he promised to relent and tyrannize her "nevermore."

In the main, however, the contents of the magazine were substantial and solid, not to say stolid. Writers treated their subjects thoroughly, completely and prosily, worrying them like a dog with a bone. And since many of the topics thus presented were somewhat dull in their own right, they have a tendency to be unappealing to the modern reader.

In the very first issue, for instance, an industrious scribe started an ambitious treatise entitled "Meditations on Food: Historic, Aesthetic and General." This monumental work occupied a page and a half of the first number, and was continued in instalments of similar length in the two succeeding editions. Protracted accounts of the establishment of Queen's and the Medical School filled column after column of eyestraining fine type. Such titles as "Longevity and Work," "Formation of Habits," "The Devil Fish," "The Approaching Transit of Venus," "Canadian Amphibia," "Curiosities of Lunacy," and "The Science of Love," appeared regularly, and in each instance the writers contributed exhaustive and exhausting essays.

For a number of years this type of writing predominated in the *Journal,* campus news being confined to comparatively negligible insertions regarding Alma Mater Society or Glee Club meetings. News of athletics at the University was restricted to the barest minimum. Not until 1890 did the *Journal* editorial board see fit to give more prominence to reports of current events. Even then they must have been a little dubious about the experiment; for a regular column headed "Campus News," started that year, was sometimes betrayed and given in entirety to a lengthy essay.

Also in 1890, localized wit and humour began to appear. Such pungent paragraphs as "Hello, Yank!" and "John is sporting around the halls in a black suit,'" were published. How the objects of these witty thrusts must have squirmed in their Victorian modesty!

The *Queen's College Journal,* being an enterprising publication, took cognizance of the co-educational question as early as 1876. (The College was opened to women in 1879.) The *Journal* of those days did not approve of the co-educational idea, and it had no hesitation in saying so.

The controversy commenced when the Toronto *Telegram* discovered that a woman had been taking lectures at Queen's, and forthwith publicized the fact as the innovation of equal educational rights for women. The *Journal* of December 16, 1876, took issue with the *Telegram*, claiming that the attendance of one woman at the class in logic had no such significance as was attached by the Toronto newspaper.

Having established that point to their own satisfaction at least, the *Journal* editors went on to relieve themselves of some very definite opinions regarding co-education. "We do not deem it expedient," said the editors, speaking of the ladies, "that they should be admitted to all the privileges of universities. The bestowal of degrees upon women would be a great step towards effectuating (sic) the views of the advocates of Women's Rights, and opening to them the professions and employments of public life, a consummation devoutly to be deprecated. . . . . The highest ideal of society is not that in which women become logic-choppers. The severer studies which are found necessary in the training of young men would not be best suited to women. Their proper sphere of action is the domestic circle."

This indictment of university education for the fair sex continued at great length, and finally ended with the following triumphant flourish: "May the day be far distant when Canadian Lady Jane Greys shall fill up the pauses in the dance with quotations from Plotinus, and spice their drawing-room conversations with discussions on the differential calculus or transcendental idealism."

It is almost a safe wager that the editors dusted their palms, after they had written that, and said, "There! That ought to hold 'em."

It was scarcely to be expected that such an unqualified expression of opinion as this would be allowed to pass un-

THE "JOURNAL" STAFF OF 1893-94

J. M. Mowat, J. McInnes, J. L. Millar, J. R. Conn, J. R. Fraser, G. R. Lowe, C. F. Lavell, R. Burton, J. D. Stewart, F. Hugo, R. Laird, E. R. Peacock, A. E. Ross, E. C. Currie, Miss Marty, F. Playfair, D. McG. Gandier, W. W. Peck, J. S. Shortt, E. C. Watson, Miss McManus, W. W. King, W. B. Munro, R. F. Carmichael, (inset) S. A. Mitchell.

challenged. Surely enough, in the very next issue a lady signing herself "Aliquis" replied at tremendous length—and very effectively, too. She turned their cleverest phrases and shrewdest arguments neatly back upon the editors, and piled paragraph after paragraph of contumely upon their editorial heads. Apparently even the retiring ladies of the seventies were not without resource when sufficiently aroused.

Nor was the controversy allowed to drop there, for in the next issue a powerful figure entered the lists. Dr. John Watson, then professor of philosophy, took up his pen on behalf of the ladies. He commended "Aliquis," condemned the editors, and went on to write a lengthy letter on the subject. "To me it seems impossible," he wrote, "that any argument can be advanced against the admission of women to any or all of the classes in our college, that would not, if carried out to its manifest consequences, keep women in perpetual ignorance of even the rudiments of knowledge."

To this the editors, far from finding it impossible to advance an argument, saw fit to reply in the following edition with a prodigious editorial four columns long. They regretted, they said, having offended "Aliquis" and Professor Watson, but they stood resolutely by their original guns, and it required several thousand words and a good deal of sarcasm to do so. Having had the last word, the editors wisely let the matter drop, and thus ended one minor flurry in the early days of the *Journal*.

The advertisements in the first issues, when perused to-day, provide intriguing sidelights on the manners of the seventies. For instance, the issue of March 28, 1874, carried an advertisement for glass visiting-cards—"red, white, blue, green, purple; transparent and beautiful. Your name beautifully printed in gold. One dozen, any colour, 50 cents." Whoops, my dear!

A druggist who dispensed his wares at 16 Princess Street,, and who offered "a liberal discount to students," advertised a complete assortment of brushes, with a parenthetical classification, as follows: "Brushes (Hair, Tooth, Nail, Cloth and Shaving)." In the lower part of this advertisement a black hand, severed at the wrist and unsupported, pointed with rigid forefinger to the information that "Medicines may be obtained at any time during the night by ringing the bell."

Mahood's store on Princess Street (which is still doing business, by the way) advertised "an extensive and well-assorted stock of jewelry, plated and cabinet ware, cutlery, fishing tackle, footballs, fancy goods, and responsible sticks." Just what a "responsible stick" might be is a moot point. Perhaps some older graduate can enlighten the *Review*.

Clothiers and booksellers were consistent employers of the advertising columns in the early days, as was Mr. Clark Wright, hatter and furrier, at whose shop heads were "fitted by a Paris conformateur." A chemist and druggist, who conducted his business "opposite the Post Office," sold silver lamps which provided "the purest, brightest and cheapest light from coal oil yet discovered," and of which a single burner gave "a light equal to 17 or 26 sperm candles." The discrepancy between the numbers of candles used as units of comparison was not explained.

An interesting and, we hope, flourishing business was conducted by Mr. John Cridiford, "Hair-Dressor, &c." (the *Journal's* version, not ours), on King Street. In addition to hair-dressing, Mr. Cridiford advertised "Baths open on Saturday during the winter season; tickets on reasonable terms; none but first-class workmen employed." Presumably

the proximity of Lake Ontario rendered the bath business negligible, even on Saturdays, during the summer months. Mr. Cridiford, apparently, was a man of parts because, supplementary to his bath and hair-dressing business, he offered for sale a "large assortment of jewelry at cost."

In this manner the habits and life of another age are revealed in the old and yellow pages of the early *Journals*. Although this scrivener has found much at which to laugh, the laughter is sympathetic and not deprecatory. Perhaps, some day, the early editions of the *Review,* with which this issue might be included, will be made the subject of a similar article — "thus the whirligig of time brings in his revenges."

SPLENDID GIFT TO QUEEN'S FROM MEDICAL GRADUATE

THE death in Smith's Falls, Ont., on February 27 of Dr. Agnes D. Craine, Med. '88, enables the *Review* to announce the identity of the anonymous benefactor of Queen's who, as Vice-Principal McNeill mentioned in his Convocation address last spring, had given the University approximately $340,000 during the previous year. This amount was later supplemented by Dr. Craine by nearly $40,000.

Deeply loving the "College" where she had received her training as a physician and surgeon almost half a century before, and wishing to have a part in ensuring its progress throughout the future, the late Dr. Craine made this splendid gift to her Alma Mater to aid in carrying on special work in biochemistry and allied subjects.

The original stipulation was that $3000 out of the income from the gift could be used each year for the programme stated, but that the remaining revenue should be added to the principal amount until the total reached $1,000,000. Subsequently, however, Dr. Craine decided to release $125,000 of the fund for the immediate construction and equipment of a biochemistry building, to be called the "Craine Building." She also consented that the whole of the income from the remaining capital might be used year by year for the purposes set out in her agreement with the University.

Although at the time of making her original gift Dr. Craine asked that there should be no newspaper publicity, she made a condition that a tablet should be erected at the University in memory of her father, mother and brother. Accordingly, a fine bronze plaque was placed in the Old Arts Building a year ago. It contains the following inscription:

This Tablet
Records the Generous Gift
Made to Queen's University
In Memory of
John Joseph Craine
Agnes Muir Craine
And Their Son
John Craine
By Their Daughter
Dr. Agnes Douglas Craine
Smiths Falls, Ontario
Graduate of the Year 1888
In Medicine and Surgery

Plans for the Craine Building have already been approved, and it is expected that its construction will commence in the late spring. It will be 98 by 48 feet in size, and will be erected on Arch Street, just north of the entrance to the Medical quadrangle.

RADIO EDUCATIONAL SERIES CONTINUED

TWENTY more lectures in the week-by-week series of educational addresses offered by Queen's over the University radio station, CFRC, were broadcast during the month of February.

Mr. E. C. Kyte, University librarian, continued to be the most prolific, with four to his credit. Other contributors to the series included the following: Prof. Wilhelmina Gordon, Prof. J. K. Robertson, Dr. Gerald Graham, Dr. F. L. Harrison (2), Dr. H. S. Shurtleff, Dr. A. L.

Clark, Prof. J. L. McDougall, Dr. John Stanley, Mr. Hugh Walpole, Dr. J. F. Logan, Prof. A. E. Prince, Dr. W. E. McNeill, Prof. K. P. Johnston, Miss Winnifred Kydd and Dr. L. A. Munro.

PRINCIPAL WALLACE VISITS WESTERN ONTARIO BRANCHES

DURING the first week in February Principal Wallace made a tour of the branches of the General Alumni Association in Western Ontario, visiting St. Catharines, Kitchener, Brantford, London, Chatham, Windsor and Sarnia. At each centre he was met by many graduates, eager to greet the new head of Queen's, and was accorded a most enthusiastic reception. No effort was spared to make his brief visits as pleasant as possible, and there were many evidences that the arrangements proved of mutual benefit and enjoyment.

The tour gave the Principal an opportunity for his first close contact with large groups of alumni, beyond the receptions held at the University early in his incumbency. He met with cordial hospitality everywhere, returning to Queen's stimulated and enriched by his experiences and warm in his praise of his new-found friends.

But if Dr. Wallace was delighted with the graduates, they in turn greatly enjoyed meeting their distinguished guest and hearing his thought-provoking addresses. Altogether, the new Principal of Queen's made a most favourable impression, as the many letters which have come in from the various branches have testified.

Principal Wallace told the *Review* that he had been much impressed with the size of the groups that attended the branch meetings, and thought that the alumni organizations showed a remarkable vitality and enthusiasm. In several instances the graduates had to travel ten, fifteen or twenty miles to reach the meeting-place, and in one city the entire staff of a high school had turned out.

"Perhaps the most surprising feature is the relationship between education and our more mature Queen's people," said the Principal. "It is remarkable how close a grip Queen's has with the education of Ontario. I returned with the feeling that we must maintain in every way our contact with the teachers of the Province. It is very important that Queen's hold on to this field, where much can be accomplished."

"We have no school of education at Queen's," he continued, "but in every other way, in the Faculty of Arts and in our Summer School, we can meet the requirements of those training to enter the educational field. We may some day need a professor of education so that

PRINCIPAL WALLACE

students training for the teaching profession may learn in their Arts courses the psychology and philosophy of education."

The Principal said he was also struck with the large number of younger engineers he had met, particularly in the vicinity of Niagara Falls and Windsor. He felt that the Faculty of Applied Science was making a definite contribution to that southern area of the Province. The same was true of Niagara Falls, both in Ontario and New York State, regarding medical men, for there the Principal met a larger group of doctors than anywhere else in his travels. And throughout the tour, he encountered Queen's graduates in Theology, comparatively few in num-

ber but represented in each area and usually holding key posts.

Dr. Wallace was afforded an opportunity of visiting various plants, such as the Canadian Industries Limited, at Windsor, and other large concerns. He also had contact with several schools with which, in the main, he found Queen's people connected.

At London, the Principal was the guest of honour at a luncheon given by the University of Western Ontario. He had a discussion with Dr. William Sherwood Fox, LL.D. '29, President of the University, and was particularly impressed with the work that the London institution is carrying on in that area.

"The trip was of great value to me in making a large number of personal contacts which will give me a better understanding of and a closer relationship with the graduates of Queen's in this populous area of Ontario," said Dr. Wallace. "It would not be possible, under any circumstances, to find a group of men and women more loyal or who have a greater sense of responsibility to their own institution than these Queen's graduates. It is our duty to see that the students now at Queen's get so much out of their undergraduate life that when they go out their affection will be as warm and generous as that of the older graduates."

DR. HARRISON LEADS QUEEN'S CHORAL SOCIETY

UNDER the direction of Dr. F. L. Harrison, resident musician, the Queen's Choral Society and the Kingston Orchestral Society gave their annual concert on February 25 in Grant Hall.

The programme, which was extensive and ambitious, included orchestral numbers, unaccompanied singing, and piano solos, and was climaxed by Brahms' *Song of Destiny* for chorus and orchestra. "Most successful" was the concensus of the appreciative audience.

The chorus and orchestra each numbered about fifty musicians, and splendid volume was obtained on the great crescendoes of the *Song of Destiny*, the highlight of the evening. The chorus was also particularly effective in Vaughan Williams' setting of *The Turtle Dove* and R. O. Morris's arrangement of the folksong, *High Germany*.

Dr. Harrison had excellent control of both chorus and orchestra at all times and combined the two with great satisfaction to the audience.

PUBLIC LECTURE SERIES CONCLUDED IN FEBRUARY

ON February 22, the 1937 series of six special Monday-afternoon lectures arranged by the Public Lectures Committee of the University came to a close. All the addresses, which were delivered in Convocation Hall, were well attended, and the broadcasts over Queen's radio station, CFRC, brought them within the range of an even larger audience.

Prof. D. M. Jemmett, head of the Electrical Engineering department, delivered the fourth address on February 8, on "The Defence of Canada. Is It Adequate?"

Naval, air and infantry garrisons on either coast, strong enough to deal with attempts by European and Asiatic nations to paralyze trade at Canadian seaports, were described by the speaker as basic needs to be considered in a revision of Canada's defence system. In Britain, he said, the expenditure per capita was eleven times the outlay in Canada. In the Dominion there was not a single tank, no anti-aircraft guns, no modern rifles, no mechanized rolling stock, no modern gas masks—only two armoured cars and ammunition that had been made during the Great War. "We are shirkers living on the Old Country," Professor Jemmett stated.

The fifth lecture was delivered by Dr. R. O. Earl, professor of biology at Queen's, on February 15. His topic was "The Problem of the Unfit. What Should We Do?"

The speaker strongly opposed sterilization as a means of dealing with the socially unfit. In his opinion, one of the most effective methods of combating mental irregularities was to increase social services and improve environment. Greater public assistance in research of the problem, greater distribution of available knowledge on the subject, cautious ac-

tion, and co-operation among members of society to promote the cause were cited as other means of approach.

The sixth and final lecture of the series was delivered on February 22 by J. Courtland Elliott, Arts '19, Toronto, economist for Messrs. A. E. Ames and Company, on the subject of "The Economic Stability of Canada. Are There Disintegrating Forces?"

Mr. Elliott expressed the opinion that most current visible problems arising from the depression in Canada did not constitute threats to economic stability comparable to an incipient boom. He felt that public budgets should not be balanced in the earlier stages of a depression; but that as the financial deflation of Canada was long since ended, continued borrowing by governments, financed in part by the inflation of bank credit, was now exerting a deleterious influence. Experience had shown that over-expansion was invariably followed by collapse, and Mr. Elliott concluded that the attainment of budgetary balance and the control of easy money at low interest rates were essential if economic stability were to be achieved.

STUDENT DEBATERS WIN PROVINCIAL CHAMPIONSHIP

QUEEN'S Debating Union won the intercollegiate championship of Ontario in a series of radio competitions sponsored by the Canadian Broadcasting Corporation.

On February 12, Frank Gascoigne, Arts '40, of Kingston, and William Alton, Sc. '38, of St. Catharines, successfully opposed the motion: "Resolved that the history of the world has been decided by the digestive tract," which was upheld by a team representing the University of Toronto.

David Henry, Arts '30, of Ottawa, and Mr. Gascoigne supported the motion: "Resolved that the prosperity of Canada depends more upon the exploitation of mineral resources than upon agriculture," against the University of Western Ontario on February 26, and again Queen's won.

Queen's will now compete with McGill in the Eastern Canada finals.

QUEEN'S DRAMATIC GUILD WINS FESTIVAL HONOURS

FOR the second time in four years, the Queen's University Dramatic Guild earned the right to represent Eastern Ontario in the Dominion Drama Festival finals at Ottawa in April when it was awarded first-place honours in the fifth annual regional festival, held in Convocation Hall on February 11, 12 and 13.

LORNE GREEN

Five male students comprised the cast of *The Secret,* translated from the Spanish by Ramon Spender, and presented under the direction of Lorne Green, Arts '37, of Ottawa, and Mrs. G. B. Reed, wife of Dr. G. B. Reed, professor of bacteriology at Queen's. Of the five students, three were members of the first prize-winning play in 1934—Mr. Green, Gerald Chernoff, Arts '37, of Montreal, and Donald Lapp, Arts '36, of Toronto. Mrs. Reed had also been producer of this earlier play. Other members of the 1937 cast included W. C. Patterson, Sc. '38, of Calgary, and Alan Gold, Arts '39, of Montreal.

This marks the fourth successive year in which the Guild has achieved distinction in the regional festival. In 1934 it won first place in the adjudication and represented Eastern Ontario in the Do-

minion finals. The following two years the students were included in the honourable-mention list.

The Guild entered two plays this year, *The Secret,* and *The Long Voyage Home,* by Eugene O'Neill. Those taking part in the latter production were George Tottenham, Arts '37, of Kingston, Fred Marcuse, Arts '38, of Montreal, Miss Anne Macdonnell, Arts '39, of Toronto, James Conacher, Arts '38, of Kingston, Ian Campbell, Arts '39, of Nottingham, England, A. P. Carlinsky, Med. '41, of Montreal, Bert Marcuse, Arts '38, of Montreal, Dorothy Powis, Arts '40, of Montreal, Betty Anne Mackenzie, Arts '38, of Galt, Lorne Green and Gerald Chernoff. The Faculty Players were not represented this year.

GERALD CHERNOFF

Only nine plays were entered, as compared with fifteen the year previous, but the competition was very strong and the students are to be commended for their splendid achievement. The Ottawa Drama Club has won the festival three times and this year took second place with Luke Stewart's *Release.* Although composed of amateurs, the Ottawa organization has a professional sense of the theatre, and in winning first place, the Queen's Dramatic Guild had to rise to great heights.

In accepting the coveted award of the festival, the Brockville Trophy, Mr. Green, president of the Queen's Dramatic Guild, paid tribute to Mrs. Reed. She was chiefly responsible for the success of *The Secret,* he said. Individual prizes for the best players among the men and the women were awarded to Dale Macdonald and Miss Barbara Easson, both of Ottawa.

CHARGES OF PACIFISM APPEAR UNFOUNDED

CHARGES that the pacifist element in Canada seemed to have its centre in Queen's, as expressed by Col. Rev. R. H. Steacy, C.M.G., rector of All Saints' Church in Westboro, Ont., during a sermon delivered in February, were scouted at the University.

Colonel Steacy stated that the politicians were apparently using Queen's to give pacifism an air of respectability. "The one hope of scotching this is through Principal Wallace," he said.

The general concensus at the University was that the criticism was inspired by a student peace conference held at Queen's in January. This conference, attended by representatives of eastern Canadian colleges and at which a petition to abolish the conscription clause from the Militia Act was drawn, was organized, however, chiefly from Montreal, the *Review* learns. The Alma Mater Society subsequently gave permission to circulate the petition on the campus.

Dr. Gregory Vlastos, head of the Philosophy department, was quoted by the *Kingston Whig-Standard* as saying that he has not encountered pacifism at Queen's to any extent. W. A. Neville, editor of the *Journal,* said that pacifism was receiving less attention on the University campus than at most Canadian universities.

CLASSES SHOULD ORGANIZE NOW FOR 1937 REUNION

WITH the newspapers due to be carrying breezy little items about the "first robin" almost any day, now is the time to start making plans for the Reunion at the University next fall.

Such an occasion is too important to leave arrangements to a last-minute rush.

so it behooves all those responsible for, or interested in, the reunions of the various years to start the machinery. The office of the General Alumni Association is prepared, as usual, to co-operate in every way possible. Class lists with addresses and all related data are available for year executives arranging for dinners, parties and other functions.

The 1937 Reunion should be a real success if its predecessors of the past few years are any criterion. Under the Dix Plan, the classes of '87, although included in last fall's regular '87-'90 group, are scheduled to return again this year in special celebration of their Golden Anniversary; and for those of '86, the reverse is the case—they are listed again in the normal '83-'86 group. In addition, the classes of '12 will be celebrating their Silver Jubilee.

The complete list of years due to return in 1937 is as follows: '83, '84, '85, '86 and '87; '02, '03, '04 and '05; '12; '21, '22, '23 and '24. Three complete "generations" and the jubilee years augur well for a happy Reunion!

Drop a line to the Association now regarding *your* reunion while the matter is still fresh in mind.

DR. SKELTON IS PRAISED HIGHLY BY STATESMEN

HIGH tribute was recently paid to Dr. O. D. Skelton, Arts '99, LL.D. '34, Under-Secretary of State for External Affairs and formerly Dean of the Arts Faculty at Queen's, by Prime Minister Mackenzie King and ex-Prime Minister R. B. Bennett.

Commenting editorially, the *Ottawa Journal* said: "The tributes were deserved. Lord Tweedsmuir, whose experience entitles him to speak with authority, said recently that Canada's technical and professional Civil Service ranked with any in the world. That, true of most of our leading permanent civil servants, applied with especial force to Dr. Skelton. Author, historian, economist, schooled in finance and in the art and meaning of government, this country is indeed fortunate in these years in the possession of a public servant of such outstanding abilities.

"A Liberal of the old school, speaking always the accents of authentic Liberalism, Dr. Skelton was brought to the public service by Mr. King. It is to the credit of Mr. Bennett that, well aware of Dr. Skelton's political antecedents and views, he gave him fullest trust and confidence, drew freely upon his judgment and experience. In the result, Canada was able to retain Dr. Skelton's services,

DR. SKELTON

and to-day, enjoying the confidence of all parties, his knowledge, advice and high devotion to duty in a post of the highest responsibility are at once a national asset and an inspiration to public duty."

FOURTH OLDEST GRADUATE STILL HALE AND HEARTY

FOURTH on the graduates' seniority list and one of the two remaining members of the class of Arts '75, Rev. Thomas Stuart Glassford, of Alberni, B.C., recently entered upon his eighty-ninth year.

Mr. Glassford was born at Beaverton, Ont., the fifth in a family of nine, of Scottish and Irish parentage. In his early years, he lived the strenuous life of the pioneers of that period. Attending public school, he won a scholarship which gave him his secondary education in a grammar school, fifteen miles from home. Week-ends he tramped the long distance and back, whistling at times to drown

the cries of the lynx or the distant howling of the wolves. He taught school long enough to enable him to enter Queen's.

Following his Theological course and two years in the mission field, he was inducted into the ministry of the Presbyterian Church at Richmond, Ont., in 1880, where he remained for ten years. In 1881 he married Catherine Shannon, sister of Dr. J. R. Shannon, Arts '84, Med. '90, and of the late Brig.-Gen. L. W. Shannon, Arts '77, and the late A. W. Shannon, Arts '75.

Mr. and Mrs. Glassford took up residence in British Columbia in 1890. His work was in mission fields, and he was well known in the Fraser Valley, where for a time he was the only ordained Presbyterian minister for hundreds of miles. He returned to Ontario for a short period, preaching near his old home; but in 1900 he went back to the West, to take up work in Cumberland and later in Alberni.

TWO SENIOR GRADUATES

Judge T. D. Cumberland, LL.D. '23, of Victoria, B C. (left), and Rev. T. S. Glassford, the two remaining members of Arts '75.

Mr. Glassford spent nearly forty-four years in active service in the Presbyterian ministry. Although now in retirement, he still officiates at services and emergency calls, performs marriage ceremonies for many couples who are determined to have no one else, and also conducts the funeral rites of many old friends.

An interesting and colourful raconteur, he is to be seen every day in daily walks or tending his garden.

NEW "QUEEN'S SONG BOOK" GIVEN GOOD RECEPTION

A TWELVE-PAGE song booklet, containing all the old College favourites, a few new compositions having particular reference to Queen's, and about fifty other lyrics and hymns of more general interest, has recently been published by authority of the Alma Mater Society. The music is not printed, but the tunes in almost all cases are well known.

The series starts with the stirring *Queen's College Colours* and concludes with the hymn, *The Day Thou Gavest, Lord, Is Ended.* The Queen's anthem written by G. S. Ketiladze, Sc. '29, is included.

The booklet has been splendidly received by the students—it is available to undergraduates and alumni at five cents a copy, or at three cents in quantities over ten—and one result already noted is the revival of student sing-songs about the campus. It is hoped that a further outcome may be a renascence of the between-class and other informal singing which was such a pleasing feature of former days at Queen's, but which has been sadly missing in recent years.

For some time past, the Sunday evening sing-songs at Ban Righ and more recently the impromptu get-togethers in the Students' Union have served to keep some degree of interest in group-singing alive among the students. With the publication of the new "Song Book" the two have merged and promise to become an increasingly important part of student life at Queen's.

SPECIAL GEOLOGY LECTURES BY VISITING SCIENTISTS

EIGHT lectures in geology have been given by special speakers during the session. D. A. Nichols, Sc. '11, of the Geological Survey of Canada, gave a series of three illustrated addresses dealing with the geology and physiography of the Eastern Canadian Arctic; Dr. T. L. Tanton delivered three lectures regarding special problems of Western Ontario and Eastern Manitoba geology; Dr. F. T. Jolliffe, Arts '29, of the Geo-

logical Survey, spoke on the geology and mineral resources of the Northwest Territories; and Dr. H. C. Horwood, Sc. '31, of the Ontario Department of Mines, lectured on the metamorphic effects of granite intrusions.

HON. NORMAN McL. ROGERS NEW RECTOR OF QUEEN'S

THE Alma Mater Society has unanimously chosen the Honourable Norman McLeod Rogers, Minister of Labour at Ottawa, as Rector of the University for the next three years.

HON. NORMAN McL. ROGERS

The Rectorship is a feature of the old Scottish universities, after one of which —St. Andrew's—Queen's was patterned by her founders. At Queen's it is largely an honourary post, in that there are no specific duties attached beyond membership in the Board of Trustees. It is customary for the Rector to deliver an address to the student body.

The new Rector needs no introduction to the undergraduate body, as there are still students in attendance who took classes from him at the University before his election to the Dominion Parliament. Mr. Rogers was a professor of history at Acadia University from 1922 to 1927, and secretary to Prime Minister Mackenzie King from 1927 to 1929. From 1929 until 1935, he was professor of political science at Queen's.

Mr. Rogers succeeds the Rt. Hon. R. B. Bennett, LL.D. '26. Other incumbents of the position during recent years have been Dr. O. D. Skelton, Arts '99, LL.D. '34, Under-Secretary of State for External Affairs, and Dr. W. H. Coverdale, LL.D. '22, president of Canada Steamship Lines.

DOCTOR'S SADDLE-BAG GIVEN TO MEDICAL MUSEUM

WHILE visiting Sudbury recently, Dr. L. J. Austin, professor of surgery at Queen's, was presented with an ancient relic of the early pioneering days—a well-preserved saddle-bag of the type that country doctors used to carry on their rounds on horseback. The bag is approximately ninety years old and has evidently seen but little use.

The gift had passed from the collection of the late Dr. Howie to Dr. Faustina Kelly Cook, Arts '16, and Dr. Dales, of Sudbury. They kindly presented the bag to Dr. Austin for the museum of the Queen's University Medical School.

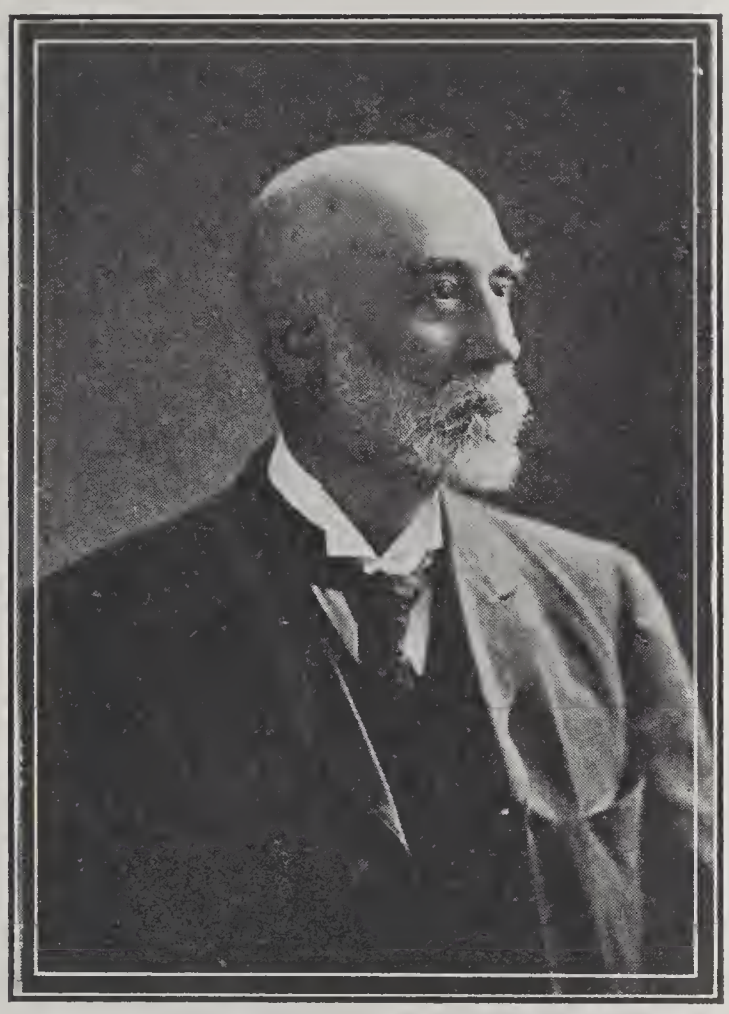

It is hoped that a definite historical museum will be formed in connection with the Medical School and properly housed. A start has already been made with other relics, and further contributions of equipment or instruments of the early days of Medicine will be welcomed.

EMINENT QUEEN'S SCHOLAR HAS NINETIETH BIRTHDAY

ONE of the greatest philosophers in the world, a scholar whose works are known to students in Canadian, American, British, French and German colleges, Dr. John Watson, professor emeritus of Queen's, observed his ninetieth birthday on February 25 at his home in Kingston.

It is sixty-four years since Dr. Watson, who was born in Glasgow, Scotland, came to Queen's as professor of mental and moral philosophy. A member of the staff at the tender age of twenty-five, he was teaching for five years before the

illustrious Dr. George Munro Grant became Principal of the University. Despite many offers of more remunerative posts elsewhere, Dr. Watson remained faithful to Queen's, where he found the atmosphere to his liking and which he left only to go into retirement.

DR. JOHN WATSON

Dr. Watson still takes his daily walks on the streets of Kingston, and enjoys comparatively good health for a man who has his own ideas about the allotted span of three-score years and ten.

CAMPUS BRIEFS

A MEMORIAL exhibition of ninety canvases by the late Homer Watson, R.S.A., was held in the Senate Room of the Old Arts Building during the last two weeks in February. On the fifteenth, an address on the life and art works of the late Mr. Watson was given by Ross Hamilton, well-known art critic and writer, of Toronto, Ont.

* * * *

An assembly of the Kingston branch of the League of Nations Society of Canada, held in Convocation Hall on February 4, voted 52 to 12 in support of a motion that Canada should continue to signify her assent to the programme of the League of Nations, as it is now constituted. Chief speakers included Prof. W. M. Conacher, of the French department, and Prof. J. A. Corry, of the Political Science staff. Dr. J. M. Shaw, of the Theological College, president of the branch, was in charge of the meeting.

* * * *

Principal Wallace delivered the seventh in his series of lectures to the first-year students on February 10, speaking on "Beauty." The eighth and last address was given on February 19 on "Our Sense of Right Conduct."

* * * *

Rev. G. R. Cragg, editor of the *New Outlook*, was the preacher at the University service held in Sydenham Street United Church on February 14.

STUDENT ACTIVITIES

THE annual Science at-home was held in the Gymnasium on February 12 and, as usual, was one of the most brilliant social events of the University season. The Gym had been transformed into a smart roof-garden, with the tall towers of skyscrapers silhouetted against a starry sky. The *motif* was carried out in a colour scheme of black and gold and, as at previous Science dances, much of the effect of the decorations depended upon the lighting. The music was provided by Pierre Muir and his orchestra, of London. As a souvenir of the occasion, each lady received a lovely string of imitation pearls. The patronesses were Mrs. R. C. Wallace, Mrs. A. L. Clark, Mrs. Alexander Macphail, Mrs. S. N. Graham, Mrs. G. J. MacKay, Mrs. J. E. Hawley, Mrs. L. T. Rutledge, Mrs. O. A. Carson, Mrs. S. C. Morgan and Mrs. R. L. Dorrance.

W. R. Davies, editor of the *Kingston Whig-Standard*, spoke to the Press Club on "Editorial Policy" on February 2. C. G. Jones, Arts '30, editor of the *Port Hope News*, gave a talk on "Some Features of a Small Town Weekly" on February 26.

* * * *

The Dramatic Guild presented three one-act plays on February 3—Eugene O'Neill's *The Long Voyage Home, The Secret* by Ramon Spender, and Merrill Denison's *Brothers in Arms*.

* * * *

On February 5, in Kingston and Toronto, members of the Queen's Debating Union won a series of two debates with Osgoode Hall on the motion: "Resolved that the economic forces have been overemphasized as a controlling factor for the individual and for society."

* * * *

"Waterpower Development" was the topic of an address delivered by Mr. R. F. Leggett, of the Civil Engineering staff, before a meeting of the Engineering Society on February 5. A. E. MacRae, Sc. '14, Ottawa, spoke on "Patents and Inventions" on February 19.

* * * *

Dr. Gregory Vlastos, associate professor of philosophy, addressed the League for Social Reconstruction on "The Theory of the Totalitarian State" on February 7. At a meeting on February 14, the League heard reports submitted by members on social conditions in Kingston. Mrs. C. B. Wade spoke on February 21 on "Economic Equality," and an address on "Contemporary France" was given by Mr. Hugh Walpole, of the French department, on February 28.

* * * *

M. Pierre Scrivener, French exchange student at the University, spoke on "Paris" at a meeting of the English Club on February 9.

* * * *

The Commerce Club heard an interesting address by Mr. James Thomson, of the merchandising department of the T. Eaton Company, Toronto, on February 10.

* * * *

A session of the Alma Mater Society Court was held on February 22, and freshmen who participated in the fracas at the Richardson Stadium last October, following the Queen's-McGill game, were fined.

* * * *

The Theological Society sponsored a seminar under the general heading, "The Church and Its Ministry To-day," on the week-end of February 13.

* * * *

Mr. E. G. Berry, Arts '36, of Kinburn, Ont., spoke on "Greek Anthology" at a meeting of the Classics Club on February 17.

* * * *

Principal Wallace addressed a meeting of the Levana Society on February 17, speaking on "Education."

* * * *

G. B. Macgillivray, of Port Arthur, has been elected permanent president of the class of Arts '37.

* * * *

The Alma Mater Society has appointed a committee to study the problem of selecting and adopting an official Queen's blazer.

* * * *

Robert Proudfoot, Arts '37, of Vankleek Hill, Ont., and K. G. Carr, Arts '37, of Toronto, spoke to a meeting of the Math and Physics Club on February 19.

* * * *

The Student Christian Movement held a special service on February 21. After chapel, Miss Gertrude Rutherford, Arts '40, of Hawkesbury, Ont., spoke on "The Christian World Community."

* * * *

Dr. Robert Newton, head of the biological division of the National Research Council, Ottawa, was the guest-speaker at an open meeting of the Biology Club on February 25.

* * * *

The League for Social Reconstruction has collected $52.30 which will be forwarded to the committee formed to aid Spanish democracy. The L. S. R. explained that the purpose of the drive was to collect money to finance Dr. Norman Bethune's blood transfusion corps in Spain.

* * * *

The *Queen's Journal* is planning to issue a literary supplement before the end of the present academic year.

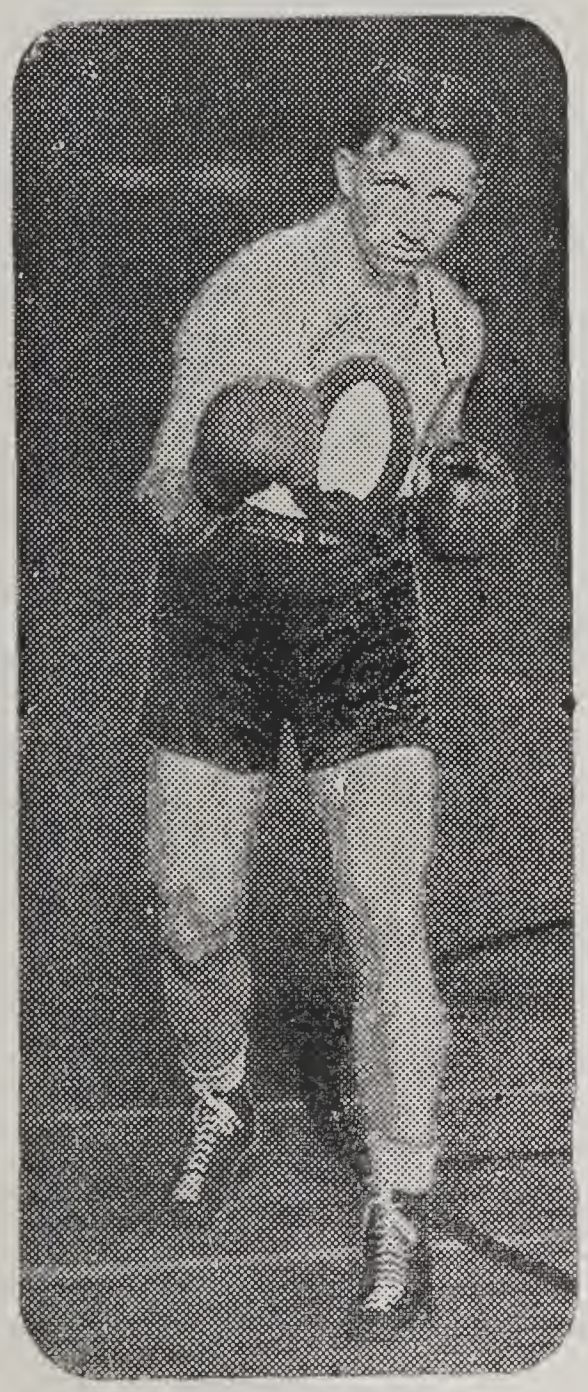

* * * *

Arts freshmen not wearing their tams and ribbons will be fined $5, according to a warning issued by the Arts Concursus.

ATHLETICS

B. W. & F.

QUEEN'S last hope for a senior Intercollegiate championship in the current academic year went the way of all flesh when the Varsity mit, mat and foil artists made a surprising sweep of the honours at the annual assault-at-arms, held in Toronto on February 26 and 27.

"CHUCK" McLEAN

The Tricolour team placed second with three wins, but the Blue-and-White total of eleven points was reminiscent of the clean-up made by Queen's in Kingston two years ago. Sammy Smolkin, "Chuck" McLean and "Chuck" Peck, all boxers, were the successful campaigners. For Smolkin it meant a third title in as many years, while McLean made it two out of three tries. Peck, a new-comer to the team in 1936, collected his first championship. Both Peck and McLean won their final bouts with first-round knockouts.

The wrestlers fared poorly, the one survivor of the first-night matches being eliminated by a decision in the finals. But for each and every member of the grappling squad it was a first competition in Intercollegiate circles. Most of these lads will be back next year and the year after that, so the future still holds promise.

Queen's and Varsity shared the honours the first night, with the Tricolour advancing seven men to the finals and Toronto ten. The only knockouts on the card were scored by Queen's fighters—the husky Boucher registering a second-round kayo in the 165-pound class, and McLean, in the 175-pound division, dropping his man in the first round. Al Tisdale, former ruler of the 155-pound class, and Smolkin hung up decisions. Alexander, at 118 pounds, and Peck, heavyweight, drew byes, to give Queen's six boxers in the finals. Grant, in the 125-pound division, eked out an extra-round decision, to become the only wrestling survivor.

On the final night, Alexander lost out on a close decision after giving a first-rate account of himself. Tisdale ran up against Powell, the man who scored a surprise win over Merve Peever three years ago, and came out on the short end. Boucher was knocked out in the third round, after winning the first two frames. Grant ran into the man who has held the championship of the 125-pound division since away-back-when, and who still holds it.

As for the fencers, they lacked the necessary experience and could not cope with the sword experts from Varsity and McGill.

Swimming

AQUATIC sports experienced a revival of interest during the current season, with keen competition taking place in the interfaculty meet and with Queen's competing against an outside club for the first time in two years.

On February 27, the Queen's natators were hosts to the Plant Bath Club of Ottawa. The visitors brought a strong representation of high-class swimmers, including several title-holders, but were able to defeat the Tricolour by only 69-54. Queen's won the 50-yard free-style event for women; and the 50-, 100- and 200-yard free-style, the 100-yard backstroke and the 200-yard relay events for men. Ottawa took the men's and women's diving events, and the Tricolour won the water-polo game by a score of 10-2.

Hockey

FOUR wins and six defeats was the record of the Queen's senior hockey team in the International Intercollegiate league when the boys hung up their gear in February. The Tricolour more than justified its inclusion in the new eight-club loop and next year is expected to land higher than fifth, this season's standing. In February, Queen's registered one victory and three losses, and with a little luck would have broken even, at least.

McGill, ultimate champions, played the Tricolour in Kingston on February 5 and won 8-1. Although losing decisively, Queen's pressed the Redmen hard enough to make this game about the best of the home schedule. For two periods and part of the third, the Tricolour held McGill to a 2-1 count. Then a penalty at a crucial moment weakened and demoralized the team, and the rout began.

Queen's played Harvard on the latter's ice on February 10 and went down to a 5-2 defeat. As the Cambridge squad finished in second place in the league, there was nothing startling about this setback. The two teams entered the third period on even terms, but the Harvard attack clicked for three goals to settle the issue.

The following day, Queen's emerged victorious over Dartmouth, 2-1, in a hard-fought game. Dartmouth obtained the only goal of the first period, but the Tricolour came back strongly, counting twice in the second period, and the game ended with no further score.

Queen's wound up the season in Toronto, against Varsity, on February 20, U. of T. winning 2-1. The victory gave the Blues third place in the group and shoved the Tricolour down into fifth position. Varsity scored in the first period and again in the second, while Queen's got one goal in the third.

JOHNNY POUPORE
Flashy Tricolour Forward

In the last three games of the schedule, the Queen's team was without the services of Captain Art Stollery, who was unable to make the trips.

Basketball

THE senior basketball team was given rough treatment in the February part of its schedule and was able to register only one victory in five starts, Varsity picking up the crown dropped by the erstwhile Intercollegiate champions.

The Tricolour clashed with the Blue-and-White in Kingston on February 6

and were leading with ten minutes to play when the visitors staged a rally that swept them into a 37-28 win. Queen's came from behind—they were trailing 19-14 at half-time—but were unable to cope with the dashing play of the Blues in the late stages.

On February 13, Queen's entertained McGill in another home game, dropping the toughest contest of the season by one point, 33-32. A Red marksman sank a foul shot in the last two seconds of play, to give his team the victory. After the Tricolour's win over McGill in January, the 1936 champions were expected to repeat easily, but it was not to be.

Queen's tackled Varsity in Toronto on February 19 and lost by the almost unbelievable score of 50-15. From the start of the game the final outcome was never in doubt, as the Blues were in form and apparently could not make a false move, while the Tricolour were equally unable to do anything right.

That trouncing must have taken the heart out of the Queen's court team, for on the following night, against Western, the boys went down to a 35-20 defeat. For all but three minutes of the first half the Tricolour enjoyed an edge in the play, but in those fatal one hundred and eighty seconds the Purples ran wild and netted seventeen points.

The final game of the schedule was played in Kingston on February 26, with Queen's defeating Western 38-30. Nothing hinged on the result, but the Tricolour, minus the services of two veteran regulars and an experienced alternate, turned in a sparkling brand of basketball to win handily.

Sport Shorts

A FRESHETTE almost crashed down one of the last remaining barriers to man's private world when she nearly made a place on the Queen's B. W. & F. team as a fencer. Miss Dorothy Powis, of Montreal, was the ambitious co-ed, and only for a difference in style she might have represented the Tricolour at the annual assault-at-arms in Toronto. Had she done so, Miss Powis would have been the first woman in Canadian intercollegiate history to have achieved such distinction. She was eliminated from competition, however, in a private challenge bout.

* * * *

Harry Sonshine, Arts '37, of Toronto, who was voted the most valuable player on the Queen's senior football team, was not content to rest on his laurels during the winter season. He played for the senior basketball team as usual, and this year added wrestling to his accomplishments, representing the University in the 175-pound division in the meet at Toronto.

* * * *

Queen's won the consolation series in the women's basketball tourney in Montreal, the week-end of February 20. The Tricolour lost to Varsity, 28-22, in the first round and then defeated McGill, 25-24, to take the consolation title.

* * * *

Arts won the interfaculty swimming and basketball championships, while Science took the hockey title.

* * * *

The intermediates won third place in the Eastern Ontario Basketball Association group, with the juniors placing second in their division.

* * * *

Johnny Munro, Arts '37, of Toronto, was the leading scorer for Queen's in senior hockey and seventh in the league standings. Johnny garnered nine goals and seven assists, for a total of sixteen points.

* * * *

The intermediate hockey team qualified for the play-offs in the eastern group of the Ontario Association, but lost out in two straight games to Gananoque in the finals. The juniors finished in second place in their group.

* * * *

The annual snooker tournament at the Students' Union was in progress as the *Review* went to press. Some keen competition was promised before a champion would emerge, with all his opponents behind the eight-ball.

* * * *

The handball tourney is approaching the finals, all but a few of the large number of players having been eliminated.

* * * *

The co-eds have been initiated into the mysteries of archery this year, and the sport has become quite popular. The males who frequent the gym also appear to be interested.

AT THE BRANCHES

Northern Ontario

PLANS are being made for Principal Wallace to visit the alumni branches in Northern Ontario during April. The tentative schedule is as follows: Timmins, April 14; Kirkland Lake, April 15; Noranda, April 16. There is a possibility that North Bay may also be included in the itinerary.

The graduates in these centres and adjacent areas will be informed by their respective branch executives regarding definite arrangements as soon as these are completed.

Owing to Dr. Wallace's close association with geological and mining affairs throughout his career, his forthcoming visit is being awaited with keen interest by the alumni in the North Country.

Hamilton

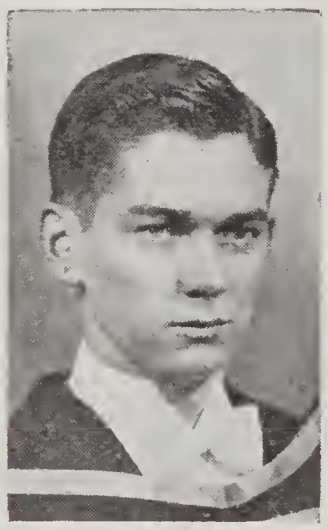

NEARLY one hundred graduates and their friends attended a meeting of the Hamilton branch held in the Bruce Room of the Hamilton Art Gallery on February 22.

The president, Dr. W. G. Cornett, Arts '18, Med. 21, was in charge of the gathering and introduced the speaker, J. A. M. Galilee, Arts '22, of the Canadian Westinghouse Company. Mr. Galilee gave an illustrated lecture on "Modern Lamps of Aladdin." To his appreciative audience he outlined some recent developments in lighting, and indicated the growing importance of new type lamps in the fields of medicine and science. A hearty vote of thanks to the speaker was moved by Dr. G. O. McMillan, Arts '06.

A short business session followed, and a committee was chosen to draw up a slate of officers for the ensuing year. A dainty lunch was served, after which the meeting came to a close with a rousing Queen's yell.

* * * *

On February 27 a further business meeting was held, at which the following executive was appointed: past president, Dr. Cornett; president, Dr. C. H. Playfair, Med. '24; first vice-president, H. G. Conn, Sc. '31; second vice-president, Miss Eva E. Coon, Arts '17; secretary, W. N. Simmons, Sc. '36; treasurer, Dr. L. T. Williamson, Med. '27; committee—R. G. Storms, Sc. '34, Miss Margaret J. Newton, Arts '36, Dr. H. T. Ewart, Arts '26, Med. '35, Rev. Donald MacInnes, Arts '22, and Allan Donnell, Arts '09.

W. N. SIMMONS
Secretary

MISS EVA COON
Vice-President

The Hamilton branch has made arrangements for a dinner-dance on or about April 12. R. G. Storms is convener of the committee in charge. Preliminary plans are also being discussed for a Queen's picnic during the summer and for an "Alumni Night" a little later. For the fall, a dinner, with Principal Wallace as guest of honour, is in mind—to be followed by a stag smoker and possibly a theatre party. A bulletin outlining these plans will be sent to the members shortly.

Kingston

UNDER the convenership of Mrs. A. N. Chown (Edith Pense), Arts '35, the Kingston alumnae held their annual tea for the Levana graduating class in Ban Righ Hall on February 13. The guests were received and welcomed by

the president, Mrs. A. W. DesBrisay (Vera A. Skinner), Arts '26, Mrs. R. C. Wallace, and Miss Winnifred Kydd, dean of women. The common-room was attractively arranged with spring flowers, and glowing logs in the grate added another cheerful note. The tea-table was presided over by Mrs. W. E. McNeill, Mrs. J. E. MacKay (Eleanor Minnes), Arts '14, Mrs. John Matheson and Miss Jean I. Royce, Arts '30.

Montreal

SO successful was the annual Queen's-Varsity "Frolic," staged by the Montreal branch on February 5, that the members are contemplating a purely Tricolour dance next year.

More than nine hundred people were in attendance, a record for these functions. The entire ninth floor of the Mount Royal Hotel was placed at the disposal of the guests, and the management opened up the convention room as a cocktail lounge. The committee arranged for the use of the piazza in addition to the ballroom, and two orchestras were hired instead of one as originally planned. During the evening an excellent floor-show was provided by two accomplished ballroom dancers, an innovation that proved very popular.

C. A. Root, Arts '19, served as general chairman; and the success of the affair was owing in no small measure to his untiring efforts and to those of his committee, which included Miss Jean Tweddell, Arts '12, and A. E. Orwell, Sc. '30.

* * * *

The monthly meeting of the Montreal branch was held at the Mount Royal on February 17, with Mr. Lovell-Baker, the diamond buyer of Henry Birks and Sons, Limited, as guest-speaker. Mr. Lovell-Baker gave a most interesting talk on "Diamonds." He outlined the history of the world's most famous stones and displayed replicas of them. There was a large attendance, and interest in the address was evinced by the the speaker's being kept busy answering questions until a late hour.

* * * *

For the March meeting, the branch is arranging to have as speaker Principal Morgan of McGill University.

Sault Ste. Marie

THE first annual dance and bridge party of the Sault Ste. Marie branch was held in the Algonquin Hotel on February 25 with eighty members and guests in attendance.

MISS M. KERFOOT
Secretary

Queen's colours were used as decorations with striking effect through the artistic arrangement made by Miss Emma McPeake, Com. '30, Miss E. Ruth Hogarth, Arts '30, O. A. Evans, Sc. '33, Rolph Reesor, and H. P. Cliffe, Arts '17. Over the fireplace at one end of the room hung a large Queen's crest, while over each of three large mirrors at one side were the crests of McGill, Western Ontario and Toronto universities. On mirrors directly opposite were the faculty shields, and a large and colourful "Q" was placed above the mirror at the far end of the room. The University colours were also evident in the streamers used to decorate the ceiling and doorways. Tricoloured rosettes were given each guest.

Rousing college songs and cheers enlivened the evening, with M. A. Leishman, Sc. '35, acting as the leader. At midnight a delicious supper was served.

The patrons and patronesses were W. A. Dawson, Sc. '23, and Mrs. Dawson, A. M. Wilson, Sc. '28, and Mrs. Wilson (Norah Connell), Arts '26, and Mrs. J. A. McColl.

Toronto

THE annual "At Home" of the Toronto branches of the General Alumni and the Summer School associations was held in the Eaton Auditorium on February 5, when four hundred and fifty guests enjoyed dining, dancing and renewing old friendships. Excellent music was provided for the dancing by Don Romanelli and his orchestra; and a rousing sing-song under the able direction of R. P. Lapierre, Arts '27, with S. M. Ketcheson, Arts '33, at the piano, provided further entertainment.

The patrons and patronesses were Dr. Duncan McArthur, Arts '08, Deputy Minister of Education for Ontario, and Mrs. McArthur; Dr. C. C. Goldring, Arts '18, and Mrs. Goldring; J. Courtland Elliott, Arts '19, and Mrs. Elliott; A. H. Carr, Arts '25, and Mrs. Carr; Dr. W. T. MacClement, Arts '88; S. M. Ketcheson and Miss L. Thompson; R. J. Aitchison, Arts '29, and Mrs. Aitchison.

* * * *

A stag dinner at the Toronto branch is being held at the Central Y. M. C. A. on Friday, March 12, at 6.15 p.m. The presence of three able speakers and the other excellent items on the programme ensure an evening of unusual enjoyment.

Kitchener-Waterloo

APPROXIMATELY sixty Queen's enthusiasts — graduates, extramurals, former students and friends—gathered at a dinner-meeting of the Kitchener-Waterloo branch held at the Granite Club, Kitchener, on February 1, to greet Principal Wallace on his first visit.

COL. LOCHEAD
President

Col. W. M. O. Lochead, Arts 96, as president of the local branch and chairman of the meeting, welcomed the visitors from outside points. From Guelph came Dr. G. G. McNab, Arts '02, president of the branch of that city, and Mrs. McNab; Miss M. I. McFaddin, Arts '30, secretary of the Guelph branch; Miss W. M. Humphries, Arts '18; and Dr. M. C. McNab, Arts '28. Hamilton was represented by G. E. Pilkey, Sc. '33, F. D. S. Marett, Arts '32, Sc. '34, H. G. Conn, Sc. '31, and W. M. Simmons, Sc. '36; and Galt by Duncan McIntosh, Com. '34.

All joined in singing the good old Queen's songs, and the yells were rendered with the enthusiasm of college days. Miss Ruth Srigley, Arts '29, supplied the piano accompaniment; while F. (Casey) Waugh, Com. '34, and M. W. Brown, Com. '30, did excellent work in leading the singing. Mr. Waugh also contributed a solo entitled "A Song of Queen's" which was greatly appreciated.

A toast to "Our Sister Universities" was proposed by Dr. J. W. Fraser, Med. '14, and responded to by representatives of Toronto, McMaster and Western Ontario. H. W. Brown, Arts '12, proposed the toast to "Our Alma Mater," and Principal Wallace replied. With his sincerity and charming personality, the Principal won his way into the hearts of all, giving a picture of Queen's, past, present and future which will long be remembered. Every Queen's man and woman there could not help but feel proud to be connected with a university which was filling such an important place in the life of the Dominion.

MISS E. J. ROBERTS
Vice-President

Dr. McNab thanked the speaker on behalf of the gathering and extended a general invitation for all to attend the Guelph branch meeting on April 2, when the Principal will be the guest of honour. Everyone voted the meeting "the best held locally in many years." Much of the success can be credited to the preparatory work of Mrs. C. S. Wilson (Angeline Benson), Arts '29, assistant secretary of the branch, and of Miss Evelyn Jean Roberts, Arts '28, vice-president. An attractively designed menu card, edged with the Queen's colours, made a splendid souvenir of this memorable occasion.

Brantford

THE newly reorganized branch of the General Alumni Association at Brantford held a most auspicious inaugural meeting and banquet in honour of Principal Wallace on February 2. The sixty graduates in attendance were unanimous in their praise of the function and justifiably optimistic concerning future activities.

The banquet was held in the main dining-room of the Bodega Tavern, the rear curtain of which was drawn to form the

background for a large "Q" in red, yellow and blue. The old college songs and the faculty yells echoed through the corridors, to give definite assurance that the spirit of undergraduate days had not died.

After "The King," the toast to Queen's was proposed by J. S. Jackson, Arts '15, of Simcoe. Miss Frances Morrish and Leo Carroll, students from the Ontario School for the Blind, rendered two vocal duets, which were much enjoyed; and Mrs. C. H. Drew sang two solos, accompanied at the piano by M. E. Foster, who also played the accompaniment for the school songs.

C. H. DREW
President

F. S. GROBB
Secretary

Dr. Wallace was capably introduced by E. T. Sterne, Sc. '13, of Brantford, who stressed the qualities of the new Principal, touching on the highlights of his work in Canada, both in universities and on geological commissions in the Northland.

"The object of Queen's University is not to see how many things it can do, but to do a few things and do them superlatively well," said the Principal, in outlining the standard that had been set. "Queen's cannot live on its past reputation, but must continue to survive by excelling in its particular lines of endeavour. At Queen's we train men to earn a living; but something else that we teach them, far greater than earning a living, is to enjoy the cultures of life, which are not confined to any one faculty."

Miss Anne Johnson, Arts '31, of St. George, vice-president of the branch, thanked Dr. Wallace for his address, and stated that it was only by hearing such remarks that the alumni could keep up with the many changes and advancements which were continually being made at the University.

The undoubted success of the meeting was due to the able and enthusiastic co-operation of all members of the dinner committee, which was composed as follows: C. H. Drew, Com. '25 (chairman), Miss Johnson, E. H. Reynolds, Arts '25, F. S. Grobb, Sc. '33, H. J. Vallentyne, Arts '20, of Brantford; J. S. Jackson, Arts '15, of Simcoe; and C. W. Butcher, Arts '17, of Paris.

* * * *

The Brantford executive is planning to follow up this meeting with a social evening, to be held during the month of April at the Ontario School for the Blind.

Niagara Peninsula

A SPLENDID reception for Principal Wallace was held in conjunction with the annual dinner-dance of the Niagara Peninsula branch of the General Alumni Association at St. Catharines on January 30. As this was the first stop in the Principal's tour of Western Ontario, it was only fitting that the festivities should be an unqualified success.

More than two hundred graduates and their friends attended the function, which took place at the Welland House, the guests being received by Mrs. G. H. Berkeley, Mrs. E. W. Henderson, Mrs. A. S. Townshend (Margaret B. Plunkett), Arts '24, and Mrs. D. D. Hall. An opportunity was afforded everyone to meet the Principal personally.

D. D. Hall, Sc. '30, president of the branch, was chairman at the dinner and proposed the toasts to the King, to Queen's and to Sister Universities, each of which was responded to by songs and appropriate yells. C. H. Donnelly, Arts '14, Sc. '19, of Simcoe, led the singing.

The Principal's address was the highlight of the programme, of course, and his remarks were listened to with great interest. M. I. Beeshy, Arts '15, of Ridgeway, introduced the speaker, and at the conclusion of the address Dr. W. C. Gardiner, Arts '26, of Niagara Falls, N.Y., presented Dr. Wallace with a handsome pair of book-ends. The remainder of the evening was spent in dancing and card-playing.

The ballroom was effectively decorated with balloons and Queen's colours, and pretty favours were distributed to the ladies. At intermission Miss Marjorie Swan danced the Highland Fling, to the accompaniment of Piper Hugh McPherson. At the bridge tables the prizes were won by Dr. Samuel McCallum, Arts '04, Med. '06, and Mrs. McCallum, of Niagara Falls, Ont.

The committee in charge consisted of Dr. G. H. Berkeley, Arts '19 (chairman), Mrs. Carroll, T. Imbleau, Sc. '18, A. S. Townshend, Sc. '24, and H. V. Finnie, Sc. '06. Too much credit cannot be given to these members for the success of the whole affair. Not the least satisfactory feature was that the loss sustained in past dinner-dances was partially recouped. It is hoped to keep the "ball rolling" with a large bridge party at Niagara Falls after Easter.

On the following day, Dr. and Mrs. C. H. Berkeley entertained the executive of the branch at a delightful tea in honour of Principal Wallace. Mrs. E. W. Henderson presided at the tea-table, which was beautifully decorated with spring flowers and lighted candles in Queen's colours.

Sarnia

PRINCIPAL WALLACE'S tour of Western Ontario inspired the Queen's graduates in Sarnia and Lambton County to organize a branch of the General Alumni Association, and the first meeting was held on February 6 at the Embassy Club in Sarnia with the Principal as the guest-speaker. The distinguished visitor was given a hearty welcome, and the enthusiasm displayed by the alumni augurs well for the future of the new organization.

Rev. Dr. J. R. Hall, Arts '97, was elected as president of this most recent addition to the ever-increasing number of branches. Other officers appointed were as follows: vice-president, Peter MacKichan, Arts '13; secretary-treasurer, W. G. Coles, Arts '18; executive—Mrs. D. S Simmons (Florence J. Frost), Arts '29, and Dr. C. M. Carruthers, Med. '21.

Dr. Wallace told the gathering that no system of education could get far from religion if it was to fulfil its purpose. While Queen's was not now a denominational university, it still retained a strong religious background. The atmosphere at Queen's was one of freedom, Queen's was the freest university in Canada, said the Principal. While the Provincial Government conrtibuted one

REV. DR. J. R. HALL
President

quarter of a million dollars a year to the support of the University, there was no dictation from that body. There was not even a Government representative on the Board of Trustees, to say how the Government's money should be spent.

A university should not train a person only to make a living, but also how to live, stated the Principal, who advanced the claim that Queen's was outstanding in this respect. A student required training to enable him to attune his emotional and intellectual life so that there would be no conflict between them, he asserted in conclusion.

While in Sarnia, Principal Wallace was the guest of the Rev. Dr. and Mrs. Hall.

Chatham

FOR Principal Wallace's visit, the Chatham branch prepared a most delightful banquet at the William Pitt Hotel on the evening of February 4.

Artistic and colourful was the arrangement of Queen's colours conspicuously displayed in the banquet-rom of the hotel. Two large bowls filled with red tulips, yellow daffodils and blue iris adorned the head table. The other tables were graced with vases of spring flowers, alternated with tall, tricoloured tapers in silver candlesticks. Red, yellow and blue streamers decorated the centre of each table, while pennants of Queen's and

other Canadian universities were given suitable prominence.

John Gilchrist, Arts '15, of Blenheim, branch president, acted as chairman and toastmaster. Rev. James Abrey, Theol. '99, of Morpeth, proposed the toast to Queen's, and the response was made by A. H. Tennyson, Arts '32, of Wallaceburg. The toast to Sister Universities was made by C. E. Leeder, Arts '31, to which replies were given by A. D. Bell for the University of Toronto, R. D. Steele for the University of Western Ontario, and J. A. M. Hay for McMaster. During the programme, Joseph Mathers, of Tilbury, rendered several vocal selections, accompanied by Mrs. G. B. Kendrick.

Principal Wallace, introduced by G. A. Pearson, Arts '24, told his audience that Queen's had special contributions to make to the country. For example, a meeting of industrial personnel directors was held at the University recently, at which men dealing with labour problems held valuable discussions. He felt that Queen's could very profitably train men to become leaders in this field.

The Principal also believed that Queen's was peculiarly fitted to train men and women for public administration. He felt that the University could do this particularly well and said that Queen's had "the opportunity and the tradition to carry it out."

The committee in charge of the banquet comprised: Mr. Gilchrist, Miss Norma M. Stevens, Arts '34, Mrs. W. L. Wray (Marion Blackburn), Arts '26, Mrs. W. N. Humphrey (Mary Thelma Cliff), Arts '21, Dr. G. B. Kendrick, Arts '09, Med. '11, C. A. Shaver, Arts '08, and C. M. Fisher, Arts '28, all of Chatham; Miss Evelyn Shillington, Arts '35, of Blenheim; Miss Veronica M. McGuire, Arts '30, and J. W. Edwards, Arts '19, of Ridgetown.

After the banquet, Mr. and Mrs. Pearson entertained the executive and a few friends at their home in honour of Principal Wallace, thus affording the guests a chance to meet and talk with the Principal informally. Mr. and Mrs. Pearson also acted as hosts to Dr. Wallace during the latter's stay in Chatham.

Border Cities

GAELIC yells shook the rafters of the Hotel Foley in Windsor on February 5 when Queen's graduates and their friends, to the number of one hundred and fifty, congregated for their annual dinner-dance, with Principal Wallace as the guest of honour.

MISS E. W. HENNESSY
Secretary

Decorated in Queen's colours, the ballroom presented a highly attractive appearance, and bouquets of spring flowers gave an added touch. The place-cards were adorned with tricoloured ribbon and the University crest, while the menu and programme folder bore a picture of Grant Hall on the cover. Mrs. F. E. Gardiner, soprano, entertained during the dinner with several vocal selections. Afterwards, the alumni and their guests danced far into the night.

G. E. Marshall, Arts '20, proposed the toast to Queen's, stating that while the University was not large in comparison with others, the institution on the Old Ontario Strand emphasized the building of personality and character among its students. Dr. S. M. Asselstine, Med. '13, responded with an account of several distinguished Queen's graduates.

C. G. Walton, Sc. '15, proposed the toast to Sister Universities, urging that Queen's alumni should unite with the graduates of other major colleges in holding joint social gatherings at least once a year. F. E. Gardiner, a graduate of McGill, replied.

In introducing Principal Wallace, J. F. Twigg, Arts '12, pointed out that the new head of Queen's was a man noted for his tenacity of purpose, strength of will, spirit of self-sacrifice and high scholarship. He also commented upon the steady growth of the University.

Dr. Wallace told his audience that Canada's great north country was the bond that one day would unite the Dominion. Geographical barriers prevented Canada from being a really unified na-

tion now, but the northern country would be the link of the future.

Years ago, said the Principal, the Government was induced to establish a course in mining at Queen's, with the idea then in mind of developing the mineral resources of the north country. This course had proved most successful, with the result that Queen's men were to be found all through the North to-day, building a greater future for Canada.

During the business part of the meeting, G. E. Marshal was elected president of the branch, in succession to C. G. Showers, Sc. '23. Other members of the executive for the ensuing year are as follows: vice-president, Dr. S. M. Asselstine; secretary, Miss Emily W. Hennessy, Arts '30; treasurer, Miss Gladys E. Thomas, Arts '34; committee—Arts, Miss Marion H. Brown, Arts '19, J. T. Robinson, Arts '29; Medicine, Dr. W. M. McNeely, Med. '22, Dr. J. M. Young, Arts '02, Med. '04; Law, W. M. Wright, Arts '12, W. H. MacLeod, Arts '21; Theology, Rev. D. L. Gordon, Arts '97; Science, D. M. Wilson, Sc. '14, N. J. Goebel, Sc. '18; Undergraduates, Doris Yokum, Cecil Bunt.

London

MEMBERS and friends of the London, Ont., branch gathered at the London Hotel on February 3 to meet Principal Wallace, the occasion being made the basis for a highly successful dinner-bridge.

After the toast to the King, the president, C. F. Deeley, Arts '31, welcomed the guests of honour—Dr. Wallace and Dr. W. T. MacClement, Arts '88—and also those graduates who were newcomers to the City of London. A letter from Dr. William Sherwood Fox, LL.D. '29, President of the University of Western Ontario, was read, expressing sincere regret that he and Mrs. Fox were unable to be present.

The toast to "Our Sister Universities" was proposed by W. C. Johnson, Arts '14, and replied to by Dr. K. P. R. Neville, Arts '96, Registrar of Western. Rev. Kenneth Taylor, Arts '20, proposed the toast to Queen's; and Dr. MacClement, as he rose to reply, was given a rousing reception, indicative of the great affection in which this recently retired Queen's professor is held. He spoke of the Queen's of his student days and told what the University had meant to those privileged to attend.

Dr. H. R. Kingston, Arts '08, of the University of Western Ontario and who had been a member of the staff of the Manitoba University contemporaneously with Dr. Wallace, introduced the Principal. The latter paid tribute to Western and likened her struggle for leadership to that of Queen's. He stressed the special contributions made by Queen's to mining, banking and the public services, and expressed the hope that the University would continue to do special things for Canada in these and other fields.

Mrs. W. R. Hambly (Edna McGill), Arts '12, thanked Dr. Wallace and voiced the appreciation of those present for the opportunity to meet him so soon after his appointment as head of Queen's.

W. M. Herron, Arts '28, secretary-treasurer of the branch, reviewed the work of the London group for the past year and reported one hundred and seven Queen's graduates in the city—Arts, 71; Science, 18; Medicine, 10; Theology, 5; Commerce, 3. The remainder of the evening was devoted to bridge, the prizes being won by Mrs. W. H. Adamson, Mrs. W. M. Herron (Ruth Maud Reddick), Arts '31, Dr. J. E. Fraser, Arts '13, Med. '16, of Port Elgin, and A. F. McKillop, Arts '16.

The following executive was elected for the ensuing year: honorary presidents, Dr. Wallace and Dr. MacClement; past president, C. F. Deeley; president, O. H. Banks, Arts '28; vice-president, W. M. Herron; secretary-treasurer, H. A. Stewart, Arts '26; representatives—W. R. Urlin, Arts '15, A. F. McKillop, W. A. Spencer, Com. '32, Dr. H. M. Thomas, Arts '15, W. W. Baker, Sc. '28, W. J. Bright, Sc. '34, Dr. J. M. Growse, Med. '32.

While in London, Principal Wallace was entertained by Dr. and Mrs. Kingston. At noon on February 3 he was the guest of honour at a luncheon given by the staff members of the University of Western Ontario; and in the afternoon he spoke to the students of the Sir Adam Beck Collegiate Institute, where W. C. Johnson, Arts '14, recently succeeded J. H. Dolan, Arts '97, as principal.

ALUMNI NEWS

Births

Burgess—On February 23, at the Private Patients' Pavilion, Toronto General Hospital, to T. J. Burgess, Sc. '30, and Mrs. Burgess, a son (John Thomas).

Cotton—On February 26, at the Ottawa Civic Hospital, to C. H. Cotton, Sc. '31, and Mrs. Cotton, a daughter.

Gibbons—At Grace Maternity Hospital, Halifax, on January 23, to Dr. N. E. Gibbons, Arts '27, and Mrs. Gibbons (Alice Bennie), Arts '29, a daughter (Janith Carolyn).

Neilson—On December 28, at the Cornwall General Hospital, to J. E. Neilson, Sc. '28, and Mrs. Neilson (Korleen Ball), Arts '30, of Montreal, a son (Robert James).

Orwell—At the Royal Victoria Hospital, Montreal, on February 27, to A. E. Orwell, Sc. '30, and Mrs. Orwell, a daughter (Carol May).

Osborne—At St. Catharines, Ont., on February 24, to Harold Osborne, Sc. '24, and Mrs. Osborne, of Toronto, a daughter.

Swerdfeger — At the Cornwall General Hospital, on February 2, to H. E. Swerdfeger, Arts '31, and Mrs. Swerdfeger, a daughter (Mary Eunice Heather).

Walker—On February 18, to Mr. Stanley Walker, and Mrs. Walker (Katherine Krug), Arts '25, of Toronto, a daughter (Ethel Louisa).

Winston—At the Mercy Hospital, Canton, Ohio, in March, to Dr. S. H. Winston, Med. '29, and Mrs. Winston, a son.

Marriages

Bews-Woodsworth—At Kingston, on February 17, Mary Ellen Woodsworth, Arts '36, daughter of Dr. H. S. Woodsworth and Mrs. Woodsworth (Ada Chown), Arts '09, of Kobe, Japan, to Dr. Donald Cameron Bews, Med. '35, son of Mr J. G Bews, superintendent of buildings and physical instructor at Queen's, and Mrs. Bews. They will reside in Karuizawa, Japan, where Dr. Bews will be in charge of a hospital.

Deaths

Caldwell—On February 12, Rev. J. A. Caldwell, Arts '02, died suddenly at his home in Mannville, Alta., at the age of sixty-two years. The late Mr. Caldwell was born at Watson's Corners, near Lanark, Ont., and attended Almonte High School before entering Queen's in 1897. He obtained his B.A. degree in 1902 and his testamur in Theology in 1904. As an undergraduate he won the Buchan No. 3 theology matriculation scholarship. Most of his ministry was served in the West. He moved to Mannville, near Edmonton, in 1927.

Craine—One of the most prominent residents of Smith's Falls, Ont., and sole remaining member of a pioneer family of that district, Dr. Agnes Douglas Craine, Med. '88, died at her home on February 27 at the age of seventy-five years. The late Dr. Craine was born in Smith's Falls, the daughter of John Joseph and Agnes Muir Craine. She received her preliminary education at the public and high schools of her home town and entered Medicine at Queen's in 1884. She graduated with the degrees of M.D., C.M. four years later, with first-class honours in every examination, and became one of Canada's pioneer women in medicine. After leaving Queen's, Dr. Craine went to Europe for postgraduate work, studying in Great Britain, Paris, Berlin and Vienna. In the last city she attended Dr. Bilroth's famous English clinic. In addition to her M.D.,C.M. degrees, Dr. Craine held the following titles: M.C.P. and S. (Ont.), L.C. R.P., L.R.C.S. (Edinburgh), L.F.P. and S.G., M.C.P. and S. (New York). She was a direct descendant of the first settlers to land at Chateauguay, Que., and maintained her connection with the family home on the Isle of Wight. That she treasured her associations with Queen's is amply demonstrated by her handsome gift, as noted in the news columns of this issue. The funeral was attended by Principal Wallace and Vice-Principal McNeill.

Kelly—At his home in Bay City, Mich., Dr. W. G. Kelly, Med. '97, died on February 17 at the age of sixty-three years. The late Dr. Kelly was born in Kingston, and entered Queen's in 1893, after receiving a private preliminary education. He graduated with the degrees of M.D.,C.M. in 1897, and went to Bay City, where he practised until his death. Dr. Kelly was past master of Bay City Lodge, A.F. & A.M., past president of the Bay County Medical Society, and was Bay County coroner from 1909 to 1913. He was a member of the First Presbyterian Church. Surviving are his wife, one son and one brother.

McConachie—At his late residence in Toronto, Rev. James Cameron McConachie, Arts '03, Theol. '05, died on February 22. The deceased was born at Cranston, Ont., in 1870 and received his preliminary education at Caledonia High School and Hamilton Collegiate Institute. He came to Queen's in 1899 and obtained his B.A. degree in 1903. In 1902 he entered Theology and secured his B.D. two years later. He obtained his M.A. in 1906. As an undergraduate,

the late Mr. McConachie won numerous scholarships and prizes, including the following: Buchan No. 2 theology matriculation, 1902; Gowan Foundation prize in political science, 1903; Anderson No. 1, 1903; Lewis prize in theology, 1905; medal in moral philosophy, 1906. He is survived by his wife, formerly Miss Gertrude A. Cook, Arts '02.

McCormack—At the age of fifty-three years, Rev. Samuel Garfield McCormack, Arts '03, died in Peterborough on February 5. The late Mr. McCormack was born at Lansdowne, Ont., and received his early education at Lyn Public School and Brockville Collegiate Institute. He entered Arts at Queen's in 1900 and Theology in 1909, graduating with his M.A. degree in 1903 and obtaining his testamur in Theology in 1912. As a student he won many prizes and scholarships, including the following: Mayor's senior matriculation scholarship, 1900; professor's prize in French, 1901; Chancellor's scholarship in theology, 1911; Mackie scholarship in theology, 1911; Rankine No. 1 scholarship, 1912. After many years of service in the Presbyterian Church, he entered the United Church of Canada and latterly had been serving as pastor of Knox United Church, Peterborough. Among the survivors is a sister.

McKay—While in Ottawa for the Parliamentary sessions, Dr. Matthew McKay, Arts '79, of Pembroke, Liberal member for Renfrew North, died on February 14 at the age of seventy-eight years. The deceased was born in Simcoe County, Ont., and was educated privately before entering Queen's in 1875. In his final year he won the Prince of Wales Prize and was awarded the gold medal in English literature. He also took several other scholarships during his undergraduate days. In addition to being a brilliant student, the late Dr. McKay was one of the outstanding athletes at the University. A noted sprinter, he won the Intercollegiate 100- and 200-yard dashes for three years in succession, besides being captain of the Tricolour soccer and lacrosse teams in the Intercollegiate leagues. After leaving Queen's in 1879 with his B.A. degree, he worked as a teacher, traveller, agent and clerk in order to obtain funds for a dental education. He then attended the Royal College of Dental Surgeons and graduated in 1887. For years he practised as a dentist in Pembroke, where he served on the high-school board and for five years on the town council. Dr. McKay was first elected as Liberal member for North Renfrew in 1921, but was defeated in the general elections of 1926 and 1930. He was returned to the House of Commons in 1935 with a substantial margin over Conservative and Reconstruction opponents. He served for a period as Ontario Liberal Whip and as acting chief Liberal Whip. A son, Dr. W. W. McKay, Med. '17, of Ottawa, and two daughters survive.

Thompson—Chief of the chemical division of the bureau of mines, Department of Mines and Resources, Ottawa, E. A. Thompson, Sc. '10, passed away suddenly in that city on February 5. The late Mr. Thompson was born at Chesley, Ont., fifty-eight years ago, and while still young moved with his parents to Brandon, Man., where he spent his early life. He entered Queen's in 1906 and attended for several years, studying to be a chemist, but did not graduate. He then taught for a time at the University of Manitoba, going to Ottawa in 1916 to join the then Department of Mines. He was a member of the American Chemical Society and past chairman of the Ottawa section of the Society of Chemical Industry. Active in fraternal circles, he was a 32nd degree Mason and a member of the Scottish Rite. He was unmarried and leaves two sisters as survivors.

Notes

1880-1889

Col. D. M. Robertson, M.V.O., V.D., Arts '86, barrister and solicitor, of Toronto, celebrated his seventy-eighth birthday during January. Colonel Robertson has always taken a very keen interest in military matters and is honorary lieutenant-colonel of the 48th Highlanders of Canada.

Dr. J. R. Shannon, Arts '84, Med. '90, is now residing in Richmond, Va. His address is Monroe Terrace, West Franklin St.

1890-1899

Dr. J. T. Fowkes, Med. '91, has been practising for many years in La Fargeville, N.Y.

Rev. Dr. Robert Laird, Arts '93, D.D. '19, of Toronto, treasurer of the United Church of Canada and former professor of practical theology at Queen's, was nominated for the presidency of the council of the World Alliance of Reformed and Presbyterian churches at the closing session of a two-day conference of the western section of the alliance, held in New York City on February 24 and 25.

Rev. G. W. Rose, Arts '98, is minister of the United Church at Annan, Ont.

D. H. Shortell, Arts '98, now resides at 1215 Bishop St., Montreal.

1900-1909

E. J. Bolger, Sc. '06, is with the Hardrock Gold Mines, Geraldton, Ont.

A. L. Cumming, Sc. '05, for a number of years in charge of the office of the Department of the Interior, Fort Smith, N.W.T., was recently transferred to Ottawa.

Rev. Dr. J. A. MacSporran, Arts '01, is minister of Hillside Avenue Presbyterian Church, Orange, N.J. He received a D.D. from Southwestern University, Memphis, Tenn., in 1920.

F. D. Reid, Sc. '04, of Toronto, was appointed to the board of directors of the National Life Assurance Company of Canada early in February.

1910-1919

F. X. Ahern, Sc. '14, has been deputy fire commissioner for the Province of Quebec since July, 1934.

Dr. H. A. Boyce, Med. '16, was recently re-elected chairman of the board of education at Deseronto, Ont.

William Colby, Sc. '17, of Chatham, was elected president of the Ontario Good Roads Association at a meeting held on February 25. **J. G. Cameron**, Sc. '14, of Cornwall, was elected first vice-president.

F. B. Goedike, Sc. '10, of Toronto, has been added to the staff of the British Amer-

ican Mining Company, Philadelphia, Pa., to survey certain gold mining properties controlled by this company in Northern Ontario.

McGregor Easson, Arts '12, (D.Paed. Toronto), is inspector of public schools in Ottawa.

Dr. G. M. Gibson, Med. '10, has been practising in Drumheller, Alta., for the past eighteen years.

C. M. Johnston, Sc. '18, is vice-president of the engineering firm, Welch and Johnston, Ltd., 472-476 Bank St., Ottawa.

K. P. Macpherson, Sc. '14, is wire and cable sales manager of the Northern Electric Company, Montreal.

MacKay Meikle, Sc. '12, is now in charge of the office of the Department of the Interior at Fort Smith, N.W.T. He is also stipendiary magistrate for the MacKenzie district. All the mining work in the area and also the Wood Buffalo Park are under his supervision.

D. A. Nichols, Sc. '11, of the Dominion Geological Survey, Victoria Museum, Ottawa, spent the past summer in the Eastern Arctic Archipelago, where he made physiographic studies of the strand-lines with a view to determining the amount and character of coastal movements.

J. C. Reynolds, Arts '19, barrister, was elected president of the Kingston Chamber of Commerce for 1937.

E. P. Sawyer, Sc. '12, is manager of the Alcona Mine, via Sioux Lookout, Ont.

Dr. A. J. Tripp, Med. '17, of Maryfield, Sask., was bereaved on February 11 by the death of his father, Samuel A. Tripp, at Fitzroy Harbour, Ont.

Dr. G. M. Weir, Paed. '18, provincial secretary and minister of education for British Columbia, was one of the prominent speakers who delivered radio addresses over a Dominion wide hook-up during Educational Week in February. The programme was under the auspices of the Women Teachers' Federation.

Stanley Wightman, Arts '13, is principal of the high school at Tillsonburg, Ont.

1920-1929

H. F. Armitage, Sc. '21, is at present on the staff of the Canadian Bitumuls Company, Leaside, Ont. His residence address is 810 Shaw St., Toronto.

J. A. Broadbent, Arts '29, of Toronto, has been appointed assistant superintendent of the United States agencies of the Manufacturers Life Insurance Company.

G. G. Campbell, Sc. '23, formerly captain of the Wright-Hargreaves Mine, Kirkland Lake, Ont., has been appointed manager of the Wendego Mine, Kenora, Ont.

R. D. Campbell, Sc. '24, is now in the charge cost division of the Procter and Gamble Company, Hamilton.

E. H. Coon, Sc. '21, who spent last summer in New Zealand for the Gutta Percha and Rubber Company, has returned to the company's head office at Toronto.

Dr. H. T. Carmichael, Med. '23, who has been in the department of psychiatry at the medical school of the University of Chicago since 1935, was appointed assistant professor of psychiatry early in January.

H. W. Chapman, Arts '26, has been in the Latin department of the collegiate institute at Regina, Sask., since graduation.

J. E. Clark, Sc. '28, of the Bell Telephone Company, has been transferred from Kingston to Ottawa.

Dr. T. W. Faulkner, Arts '21, Med. '24, has been practising as an eye, ear, nose and throat specialist at Huntington, Long Island, N.Y., for the past four years.

Dr. G. D. Furse, Sc. '24, (Ph.D. Wisconsin), of Toronto, has joined the statistical department of F. O'Hearn and Company, brokers, Toronto.

Dr. H. B. Geiger, Med. '26, who practised at Vars, Ont., for several years after graduation, went to New York City several months ago and is now a member of the Currence, Pratt and Geiger Clinic, 219 West 44th Street.

L. F. Grant, Sc. '26, has been promoted to the rank of lieutenant-colonel and is now in command of the 9th Field Brigade, R.C.A., Kingston.

Dr. E. Y. Handford, Med. '29, has been practising for the past two years at Renfrew, Ont.

Dr. A. V. Johnston, Med. '26, is in private practice at Utica, N.Y. His address is 268 Genesee St.

J. A. Little, Sc. '27, has been appointed superintendent for the Normetal Mining Corporation, Dupuy, Que.

J. C. Macgillivray, Arts '24, formerly at Rotterdam, Holland, is now Canadian Government Trade Commissioner at Hamburg, Germany.

Rev. Donald MacInnes, Arts '22, Theol. '24, moved recently from Forest, Ont., to Hamilton, where he is minister of St. Enoch's Presbyterian Church.

A. G. MacKenzie, Sc. '24, is manager of the McRae Gold Mines, Val d'Or, Que., and also field engineer for the Richard Exploration Company, Montreal.

Dr. R. M. MacLean, Med. '24, is practising at McAdam, N.B.

K. G. McNab, Arts '27, assistant agency superintendent of the Manufacturers Life Insurance Company since January, 1935, was recently appointed agency superintendent. His special field is the company's agencies in the Orient and Africa and entails an annual trip around the world.

B. P. Rapley, Sc. '23, who spent the past several months on the staff of the Imperial Oil Company, Sarnia, Ont., after having previously been in Talara, Peru, returned to Talara in January as chief engineer of the International Petroleum Company.

J. L. Shearer, Sc. '28, is temporarily at Arvida, Que., on plant extension work for the Aluminum Company of Canada.

G. E. Shipman, Sc. '24, is now in charge of the groundwood department of the Donnacona Paper Company, Donnacona, Que.

W. A. Torrie, Com. '23, is teaching at the Scarboro Collegiate Institute, Toronto.

1930-1936

Dr. R. C. Adams, Med. '31, was recently appointed to the staff of the Mayo Clinic, Rochester, Minn.

W. W. Bake, Sc. '33, formerly with the Lake Shore Mine, has been in the engineering department at the Teck Hughes Mine, Kirkland Lake, Ont., since last November.

A. A. Calvin, Arts '31, was recently promoted to the inspection and audit division of the head office of the Canadian Bank of Commerce, Toronto.

Miss Honor Bailie, Arts '34, recently on the Queen's library staff, has joined the circulation department of the library at the University of Toronto.

Dr. F. W. Bowers, Med. '30, is in private practice at 421 Huguenot Street, New Rochelle, N.Y.

Dr. R. C. Burr, Med. '32, has been assistant radiologist at the Kingston General Hospital since 1935. He had previously done postgraduate work at Edinburgh, where he received his F.R.C.S.

Dr. R. L. Cockfield, Med. '31, left his practice at Brechin, Ont., in 1934 to go to China as a medical missionary. He is at present in the Kei Kwong Hospital, Shekki, Chung Shaan, South China.

W. V. Crich, Arts '30, is teaching in the Northern Vocational School, Toronto.

J. B. Davis, Arts '32, who has been with the Texas Company for the past two and a half years, is now station auditor with that company, with headquarters at Houston, Texas.

Rev. W. A. Dempsey, Arts '30, Theol. '36, has been minister of the Augusta, Ont., charge of the United Church of Canada since last July.

H. P. Dickie, Sc. '30, was recently appointed manager of the Gold Eagle Gold Mines, McKenzie Island, Ont. He had been on the staff of the Howey Mine since 1933.

C. J. Finlay, Arts '35, Com. '36, has joined the staff of the Colgate-Palmolive-Peet Company, Toronto.

F. L. Edwards, Sc. '36, is now stope boss at the Frood Mine, Frood Mine, Ont.

Miss Lillian Fairweather, Arts '35, is teaching in the high school at Moncton, N.B.

Lieut. R. L. Franklin, Sc. '30, of the Royal Canadian Ordnance Corps, is now stationed at Kingston. He spent the past three years at Woolwich, England.

John French, Sc. '33, is general manager of the Pandora Cadillac Gold Mines, Amos, Que.

E. A. S. Galbraith, Arts '36, is with the Department of Trade and Commerce, Ottawa.

"Sure — good tobacco is its own best smoke-filter."
"Right! That's why I stick to Sweet Caps!"

SWEET CAPORAL CIGARETTES

"The purest form in which tobacco can be smoked."—Lancet

R. C. Gardiner, Sc. '31, has for the past several months been sales engineer in the Montreal area for the William J. Michaud Chemical Company, Montreal.

Mrs. Reginald Gardiner (Christine Cluff), Arts '31, is now living in Picton, Ont.

G. C. Garrow, Sc. '35, is on the chemical staff of the Canadian Celanese Company at Drummondville, Que.

D. M. Giachino, Sc. '33, formerly assistant to Mr. H. S. Denny, consulting mining engineer at Rouyn, Que., is now resident engineer at the Mooshla Gold Mines, Amos, Que.

F. D. Greenwood, Arts '30, Sc. '31, has been in the mechanical department of the Hollinger Mines, Timmins, Ont., for some time.

Dr. J. W. Groves, Arts '30, (Ph.D. Toronto), is in the division of botany at the Central Experimental Farm, Ottawa.

R. E. Hallett, Sc '33, of Merritton, Ont., was bereaved on January 15 by the death of his father.

L. E. Harris, Sc. '35, is in the laboratory of Courtaulds (Canada) Ltd., Cornwall, Ont.

Miss Emily Hennessy, Arts '30, has been teaching mathematics in the vocational school at Windsor, Ont., since graduation.

N. F. Hoch, Sc. '36, has joined the engineering staff of the Spruce Falls Power and Paper Company, Kapuskasing, Ont.

W. A. Hoffman, Sc. '34, is now with the McLeod-Cockshutt Gold Mines, Oklends, Ont.

S. J. Holmes, Arts '30, is principal of the high school at Prescott, Ont.

Walter Horn, Com. '34, formerly at Kitchener, is now in London, Ont., where he is district manager for the Goodrich Rubber Company.

C. E. Kennedy, Arts '30, has been in Cartagena, Colombia, since June, 1935. He is chief cashier and payroll master for the Andian National Corporation, a subsidiary of Imperial Oil Limited, engaged in the transportation of crude oil from the wells at El Centro to the coast. Mr. Kennedy was married on February 20, 1935, in Kingston, Jamaica, to Miss Marion Cahalan, of Toronto. Among the guests at the wedding was **Dr. A. C. Curphey,** Med. '07, who is now practising in Claremont, Jamaica.

Paul Kidd, Sc. '33, (Osgoode Hall '36), has been called to the bar and is now a member of the legal department of Hiram Walker-Gooderham and Worts, in their head office at Walkerville, Ont.

H. V. Kinsey, Sc. '36, is now on the metallurgical staff in the iron foundry of the Canadian Westinghouse Company, Hamilton, Ont.

Mrs. W. J. Lackey (Grace McLennan), Arts '31, has been doing secretarial work with the Confederation Life Association, Toronto, since last summer.

Lawrence Labow, Sc. '36, has joined the staff of Charles Spearman, Sc. '10, consulting mining engineer and geologist, Montreal, and is now at the Kirkland Gold Rand Mine, Kirkland Lake, Ont.

M. A. Leishman, Sc. '35, has been on the engineering staff of the Algoma Central Railway since May, 1935. His headquarters are at Sault Ste. Marie, Ont.

C. W. Lewis, Sc. '36, after graduation at the Howey Mines and later at the Hollinger, is now on the engineering staff of the Kerr-Addison Mines, Larder Lake, Ont.

A. H. Louden, Arts '30, is teaching science subjects in the Humberside Collegiate Institute, Toronto.

J. I. McAskill, Sc. '36, has joined the staff of the Lamaque Gold Mines, Bourlamaque, Que.

Miss Kathleen McCreary, Arts '30, is principal of the continuation school at Pakenham, Ont.

Miss Ruth MacDonald, Arts '32, is teaching in the continuation school at Nipigon, Ont.

Dr. C. H. McGowan, Med. '34, formerly of Kirkland Lake, Ont., recently opened a practice in Timagami, Ont.

Dr. J. E. McIntosh, Med. '34, has been in private practice at Chateaugay, N.Y., since last July.

Dr. W. N. McKee, Med. '34, has opened a practice at Dawson Creek, B.C.

Mrs. C P. MacLean, Arts '31, has moved from Shelter Bay, Que., to St Catharines, Ont., where her address is 171 King Street.

G. P. McLean, Sc. '32, is manager of the McManus Red Lake Gold Mines, Red Lake, Ont.

Miss Mary McLennan, Arts '33, who last June obtained her diploma from the department of social science at the University of Toronto, is now a junior case worker with the Family Welfare Association, Montreal.

A. N. McLeod, Arts '32, is in the Auditor General's Department, Ottawa. The "Journal of Philosophy" recently published an article by him, called "A Problem in Philosophy," which dealt with Zeno's paradoxes of motion and their relation to the problem of the continuity of change.

C. E. McMullen, Arts '33, has been on the staff of the Toronto Normal-Model School for the past five years.

R. C. McNeil, Com. '31, has been promoted from cashier in the down-town branch of the Manufacturers Life Insurance Company, Toronto, to sales representative of that branch.

Dr. M. S. Macphail, Arts '33, (Ph.D. Oxford), has been appointed teacher of mathematics and physics at Ashbury College, Ottawa, Ont.

E. O. Magnusson, Sc. '33, is with the Preston East Dome Mines, South Porcupine, Ont.

Miss Dora Miller, Arts '35, is teaching in the high school at Amherstburg, Ont.

G. M. Malcolmson, Com. '35, is doing cost-accounting work with the Ford Motor Company, Windsor, Ont.

G. C. Mervyn, Arts '31, is teaching science subjects in the high school at Fort Frances, Ont.

N. S. Moore, Arts '34, is on the staff of the "Evening Guide" newspaper, Port Hope, Ont.

J. H. Neville, Arts '30, has been connected with the publication of the "News Letter," official organ of the Manufacturers Life Insurance Company, since leaving Queen's.

Rev. R. C. Nunn, Arts '34, who after graduation attended Emmanuel College, Toronto, was ordained by the Hamilton conference of the United Church in June, 1936. He is now assistant minister of Trinity United Church, Kitchener, Ont.

Miss Catherine O'Brien, Arts '31, is head of the classics department in the collegiate institute at Renfrew, Ont.

Dr. T. J. Orford, Med. '32, is now stationed at Pangnirtung, Baffin Island, and not at Chesterfield, N.W.T., as was reported in the October, 1936, issue of the "Review."

W. H. Paterson, Sc. '34, is doing construction material sales work with the General Supply Company of Canada, Toronto.

F. B. Petch, Com. '33, left recently for South America, where he has a position as accountant with the Andian National Corporation, Cartagena, Colombia.

J. H. Peters, Com. '36, has joined the accounting staff of the Canadian General Electric Company, Toronto.

K. J. Platt, Sc. '33, formerly with National Canned Foods, at Brantford, Ont., has been with the Bristol Company, instrument engineers, Philadelphia, Pa., since July, 1936. He is now service engineer in the Philadelphia district.

H. A. Radler, Arts '34, is general manager of the Gotham Hat Mfg. Company, Montreal.

M. L. Rapoport, Com. '32, who attended Osgoode Hall after graduation, and was called to the bar last November, is now in charge of the legal department of Martin Transports, Ltd., Toronto.

L. H. Ratz, Sc. '35, is assistant manager of the H. E. Ratz Lumber Company, St. Clements, Ont.

E. G. Shiner, Com. '35, joined the staff of the Canadian Raybestos Company, Peterborough, on February 1. He is in charge of cost accounting.

H. D. Short, Sc. '33, is sales engineer with the Canada Wire and Cable Company, Toronto.

W. M. Thomson, Arts '36, is principal of the continuation school at South Mountain, Ont.

L. V. Vineberg, Arts '36, is at present attending the Harvard Graduate School of Business Administration.

R. S. Walker, Sc. '30, of the technical staff of the Spruce Falls Power and Paper Company, has this winter been doing special experimental work in Toronto on hydraulic test models, preliminary to a construction project of his company at Smoky Falls, Ont.

F. S. Ward, Sc. '35, is in the air-conditioning department of the Canadian General Electric Company, Toronto.

R. B. Warren, Arts '31, is teaching in Lorne Park College, Port Credit, Ont.

Miss Katherine Wayling, Arts '36, is in the department of the Minister of Finance, Ottawa.

Dr. Peter Wenger, Med. '35, is in general practice at Timmins, Ont.

A Message to College Men

Whether buying a life insurance policy as a provision for the future, or contemplating the selling of life insurance as a profession, you would do well to consider the outstanding sixty-seven year record of The Mutual Life of Canada. Communicate with our nearest Branch Manager or our Home Office.

I. S. Widdifield, Sc. '35, is in the engineering department of the Norton Company, Chippawa, Ont.

Miss Pearl Wilson, Arts '31, who is teaching in the high school at Marmora, Ont., followed the oral French course at Sillery, Que., this past summer and won the class B medal for conversation.

H. D. Worden, Sc. '35, is assayer and engineer at the Margaret Red Lake Gold Mines, McKenzie Island, Ont.

Dr. S. A. Yaffe, who interned at St. Joseph's Hospital, Hamilton, after graduation, sailed early in March on the "Queen Mary" for England, where he will do postgraduate study in medicine.

General

Members of the University staff present at the recent meeting of the American Institute of Mining and Metallurgical Engineers, held in New York City, were **Dr. E. L. Bruce,** Sc. '09, Arts '11, Miller professor of research geology, who presented the leading paper in a symposium on the localization of ore deposits, and **Prof. S. N. Graham,** Sc. '00, head of the Mining department, who was representative of the Canadian Institute of Mining and Metallurgy.

A pamphlet entitled "Reginald Walter Brock, Born 1874, Died 1935," was recently published by the Royal Society of Canada, as a reprint from the "Proceedings" of the Society for 1936. The pamphlet summarizes the life of the late **Dr. Brock,** Arts '95, LL.D. '21, and lists his many publications.

Prof. A. E. Prince, of the English department, addressed an open forum in Peterborough, Ont., during February on "The European Situation." He was introduced by **W. D. McHoull,** Arts '34.

Principal Wallace was in Ottawa on February 10 and 11, where he delivered addresses before the Ottawa Ministerial Association and the annual convention of Ottawa teachers. On February 19 he spoke to the Brockville Theatre Guild on "The World a Stage," and on March 1 he addressed the Canadian Club of Montreal on "East and West, a Canadian Problem," and the Women's Canadian Club of Montreal on "Our Resources, Natural and Human."

A MODERN BRIDGE OF SIGHS

By a Graduate

IT happened in the spring of 1928. I was a freshman in Science and nineteen years old. At that age the world is an oyster, just waiting to be opened by a young man with ambition.

It was my intention, and indeed a necessity, to work my way through college. Living in Kingston with my family, I did not have to worry about board and lodging, but there were tuition fees and other expenses to be paid. Although my only experience with work had been at odd jobs, I had no doubt of my ability to meet these obligations.

For some reason or another that escapes me now, perhaps a possible job in the offing or the thought that the Lord will provide, I did not give the question of summer employment serious attention until late in the spring. One day it dawned upon me that I would have to act and act quickly, as the final examinations were about to start and the holidays were only a few weeks distant. Slightly panicky, I made for the Employment Service office, at that time housed in a dusty corner of the Old Gymnasium.

I poured out my troubles into the sympathetic ear of the manager, then Mr. J. S. McDonell, but it appeared as if sympathy were to be the only fruit of that venture. It seems that I was late, much too late, that all the available jobs had been snapped up long ago, while I had been day-dreaming. Of course, I could have a salesman's job, peddling I forget what from door to door, but since I was of the type that could not sell dollar bills at half-price, this proposition was next to hopeless. Even "J. S." did not think much of it, but it was the best he could offer at the moment. However, I was instructed to call around a day or two later and, in the meantime, I lived an enforced Micawber-like existence.

But it seems that my guardian angel or the Providence that looks after fools and freshmen was working overtime on my behalf, for the next time I visited the Employment Service I was informed that I could have a job near Windsor with a construction company, driving a truck at fifty cents an hour. A student previously placed in this "position" had landed something better in the interim, and thus the vacancy. Mr. McDonell asked whether I could drive a truck. Could I drive a truck! I could have operated any kind of a machine in my delight over the turn of events, and I assured "J. S." that I was just a natural-born truck driver. True, practically my only experience with motor-driven vehicles had been in my father's old "490" Chevrolet, but in my enthusiasm I attempted to convey the impression that trucks and myself were a combination similar to that of ham and eggs.

Mr. McDonell tried to keep my ardour within reasonable bounds by pointing out that he knew nothing about the job and thus was holding no brief for it, but if I wanted to accept, it was mine. Of course I accepted, and I left the office with a song of happiness in my heart.

A few weeks later I entrained for Chatham, in company with a Medical

sophomore who was going to the same construction company. For him, however, the job was merely something with which to mark time until the passenger boats commenced operations on the lakes. I forget what duties he expected to perform at the camp, but I felt they could not be so attractive as mine. Little did I dream that my expectations were too good to be true and that, instead of driving a truck at fifty cents an hour, I would be pushing a wheel-barrow at thirty-five. But I am rushing ahead of my story.

I had been given to understand that the particular piece of construction to which I was proceeding was the erection of a bridge. I envisioned a chasm-hurdling job of somewhat gigantic proportions. Never will I forget my disappointment when I discovered that the bridge was a comparatively minor affair intended to provide a highway crossing over a small creek.

When we reached Chatham we changed to a bus and continued westward until we were about six or seven miles from Windsor. Here we alighted, to be met by the construction foreman. It did not occur to me until long afterward that that much harassed gentleman must have wondered how in the name of heaven, out of all the foremen in the world, he had been chosen to inherit a pair of such prize packages. My friend was somewhat stout and certainly did not look as if he had ever done a day's hard work in his life. I weighed about 135 pounds with my boots on and must have looked years shorter of maturity than I actually was.

The foreman, a gruff Scot, said nothing. Perhaps his silence was eloquent had we had the ability to interpret it, but he was kindness itself. Under his guidance we found haven in the farm-house that was to be our home, or mine at any rate, for the summer. I was delighted with the arrangements and could scarcely wait for the morrow.

The morning came soon enough. At six o'clock we were called to breakfast, and at a quarter to seven we were on the highway, for the scene of operations was half-a-mile distant. After the first shock of disappointment at the size of the construction job, the next set-back was that nary a truck was to be seen anywhere. I was given a shovel and told to start digging. I took the implement, somewhat fazed but willing to be patient.

The job had been underway for several weeks before my arrival. An old bridge had been torn down, and the work-gang was engaged in digging the foundation for the newer, larger and more up-to-date structure that was to take its place. My first commission was to help dig up the mud that lay at the base of one of the old foundations. This level was about twenty feet below the surface of the road. Men, working in pairs, would shovel up the muck and dirt to a scaffolding, whence it was thrown up to another shelf and from there relayed to the roadway. At this point the various dirt-lines converged, and a couple of men had the job of loading the sludge in a wheel-barrow and dumping it in a ditch a few hundred feet away.

Down into the mud-hole I went and started to shovel with a right good will. My fellow-worker was a young lad from a nearby farm, and this job was an old story to him. He scooped up a shovelful of mud and water and threw it up on the scaffolding with a grace that belied the effort involved. For me, too, the first half hour went well enough. I kept up a respectable pace, with my companion as an incentive. Then I began to slacken a bit. I would straighten up and

rest my back for longer and longer periods. By this time the sun was shining brightly and it was hot work.

As the morning wore on, how I came to loath the very sight of mud! My boots were wet through; I was mud to the hips, my hands were caked with it, and my nostrils filled with the musty smell. Perhaps the most distressing feature was the manner in which the infernal mud would stick to the shovel. I would push the spade into the slime, place my right hand at the free end of the handle and the left at the other end, and lift up. The shovel always came away with a curious sucking noise as the water rushed in to fill up the hole. At first I could throw the mud up to the scaffolding in one rhythmic sweep, but hitherto undiscovered muscles soon protested. I found it easier to pause for a moment and then heave.

Theoretically I was then through with that spadeful of mud, but not practically. Of every load I headed towards the scaffolding, at least half would stick to the shovel. The effect was the same as if a person tried to hurl a heavy weight, only to find that it was tied to his hand. My arms would jump and strain at the sockets when the shovel reached the end of its trajectory. It proved to be a steady chore to keep the shovel clean enough to make any headway at all.

How long I lasted at that part of the work, I do not know definitely. The passage of time has mercifully erased many of the details from my mind and only the more painful highlights remain. I do remember, though, that the foreman finally took pity on me and moved me up to the first scaffolding.

Here I had to relay to the next scaffolding the dirt thrown up by the two men directly below me. This was easier, because I did not have to dig, merely shovel. But when my back began to play out on this job, I got behind until finally the men were taking it easy.

My next promotion was up to the second scaffolding, and ultimately I graduated to the top level, where I was made a committee of one in charge of a wheelbarrow. This might, perhaps, be called getting up in the world.

Never will I forget crawling out of bed the first few mornings to start a new day's work. The first time was bad enough. My back was stiff, my tender hands were blistered, and my feet were sore. But the second morning was real torture, pure and unalloyed. I could not straighten up, and I consequently must have looked like a prematurely aged man as I miserably shuffled off to work. After an hour or two of toil I was able to move a little more freely, but by then my hands would be giving me trouble.

I had purchased a cheap pair of canvas gloves, and these served to protect my hands for a brief time. When they wore through at the palms I put them on backwards, placing my thumbs in the little fingers; but when this strategy failed, my innocent hands made their first contact with the heartless handle of a shovel.

By the time I was operating the wheelbarrow my hands were practically useless. Huge water blisters had formed on the palms and, breaking, smarted until I felt I knew something of the experiences of the unfortunates tortured in the Spanish Inquisition. I could scarcely bend my fingers one way or the other. As a relief I used to place the wheelbarrow handles on my wrists and go my wretched way as best I could.

How I used to envy the man who had been given the job of flagging motorists to draw their attention to the temorary and rickety wooden structure

which served as a detour! Most of the time he sat on a fence-rail, in the shade; and when a car approached, all he had to do was to walk to the middle of the road, wave a red flag, and shout an instruction or two.

I was also given a taste of operating an air compressor, breaking up the asphalt surface of the roadway. I rather enjoyed this job at first, but the machine used to rattle and jar my body so that it is a wonder every tooth in my head was not shaken loose. At the end of the day I would put aside the compressor, but my muscles and nerves continued to vibrate as if I had St. Vitus dance.

About half of the workmen were farmers and the other half comprised "hunkies" or "bohunks." It was one of the latter who earned my respect. His first name was Peter, but his last name I never mastered. It sounded something like a cross between a freight train bucking a stiff grade and a cement mixer in motion, and ended like a cow pulling its hind leg out of a bog.

Peter was a simple man of nature, who liked work and could not get too much of it. He was always at the job half an hour early, sitting beside the tool box and impatiently waiting for the foreman to appear. He seldom spoke, and when he did break silence it was usually to utter only an unintelligible grunt. Although the others used to gain a moment's respite by rolling a cigarette, Peter did not smoke until his day's work was over. And what he could accomplish in a shift was well-nigh unbelievable. There were plenty of good, honest workmen in that gang, but they could not compare with him.

One day I was told to hold a drill-steel in place while another man hit it with a sledge hammer. This was ticklish business, particularly when the operator of the hammer grew careless. The only time I felt at all secure was when Peter did the swinging. Steady and sure his blows would rain down, every stroke landing squarely on top of the drill as long as I held it firmly. A couple of the lads had their hands pinched and narrowly missed having them smashed to a pulp by the sledge hammer, but never when Peter was in charge.

I had not drawn my first pay before I did a little figuring, and came to the inevitable conclusion that I was not going to be as well off financially as I had expected. At thirty-five cents an hour I would gross $17.50 a week, provided, of course, that I put in a full week. If it rained a few days, then I would scarcely make enough to pay my board and room and other expenses.

That in itself was enough to make me discontented, but I had heard that the "big boss" was coming and so decided to bide my time concerning the truck proposition. In the meanwhile I commenced to harden up, and felt that at last I could do a respectable day's work. I even reached the point where I did not have to go to bed at eight o'clock, but would walk a couple of miles to the nearest village for a little entertainment.

Finally the boss arrived, but I had no chance to speak to him the first day. Late the following afternon he came over to me and asked my name and a few other questions. Just when I was about to explain that I was really an excellent truck driver in disguise, he let the blow fall.

It seemed that I would not do for this gang. He said it was no disgrace to me, as it was a bit too much to expect a green college youth to keep pace with those experienced labourers. As far as he was concerned personally, as an old Queen's man, I could be carried along all summer, but it was bad for the morale of the

rest of the gang. No, neither I nor the other lad from Queen's would do.

He let me down as gently as he could, but it was still a bitter disappointment. I felt that I was not a man. I had been weighed in the balance and found wanting. I asked about the trucking job and was told that the summer would be nearly over before such an opportunity would present itself. It seemed that there had been a misunderstanding all round.

I got one break, inasmuch as the boss gave the other lad and me a drive as far as Toronto. There we were turned loose, a sadly disillusioned pair. Subsequently I landed a pick-and-shovel job in Kingston and finished out the summer, thus earning my expenses for the next year and regaining my self-respect.

CRAINE BUILDING TO BE AVAILABLE BY FALL

IN order that the new biochemistry building, made possible by the generous gift of the late Dr. Agnes D. Craine, Med. '88, of Smith's Falls, Ont., may be ready at the beginning of the 1937-38 session, construction will start almost immediately.

DR. AGNES D. CRAINE

After careful consideration, the executive committee of the Board of Trustees decided that the best site for the Craine Building was adjacent to those at present housing the Faculty of Medicine. It is therefore to be erected on Arch Street, with its main entrance facing the Old Medical Building, thus completing the Medical quadrangle.

It is proposed also to move pharmacology, which at Queen's is closely associated with biochemistry, into the new building. By this transfer, a greater amount of space will be made available in the Old Medical Building for the rapidly expanding work in preventive medicine and public health.

As the classrooms and laboratories for physiology and bacteriology, which subjects are likewise closely related to biochemistry, are situated in the New Medical Building, this building is to be connected with the new structure by an underground passage, thus facilitating the transportation of material for demonstration purposes.

The Craine Building will be approximately ninety-eight feet by forty-eight in size, and four storeys in height, including the basement, which will be for the most part above ground level. The basement and second floors will be used chiefly for biochemistry, the third floor will be devoted to pharmacology, and the fourth will be equipped as an "animal room." On both the third and fourth floors, there will be space available for future needs.

WEEK-BY-WEEK SERIES OF ADDRESSES CONCLUDED

EIGHTY-SEVEN educational programmes were delivered over Queen's radio station, CFRC, in the week-by-week series which came to a close on April 5. Inaugurated in November, 1936, the series of quarter-hour addresses, or occasionally musical studies, proved highly popular in the community.

During March, lectures were given by the following: Mr. A. A. Day, Mr. H. W. Curran, Rev. J. O. Watts, Mr. E. C. Kyte (4), Mr. Eric Duthie, Dr. L. F.

Goodwin, Dr. G. B. Reed, Prof. A. Macphail, Prof. W. R. P. Bridger of the Royal Military College, Dr. A. C. Neish, Mr. A. W. Currie, Dr. G. H. Clarke, Prof. W. L. Malcolm, Prof. J. L. McDougall, and Prof. L. M. Arkley. The special programmes of music were presented by the University trio and by Dr. F. L. Harrison.

The series ended with an address on "Joseph Lister, Father of Antiseptic Surgery," delivered by Dr. Thomas Gibson on April 5.

IMPORTANT ENACTMENTS ARE PASSED BY A.M.S.

NO longer are freshmen at Queen's to suffer indignities at the hands of the lordly sophomores.

At the annual meeting of the Alma Mater Society, held on March 24, provision was made in the constitution for a minimum fine of $25 to be levied on any person or persons instigating initiation ceremonies, other than the wearing of tams and faculty ribbons. The A.M.S. court was given full power to deal with infractions of the law.

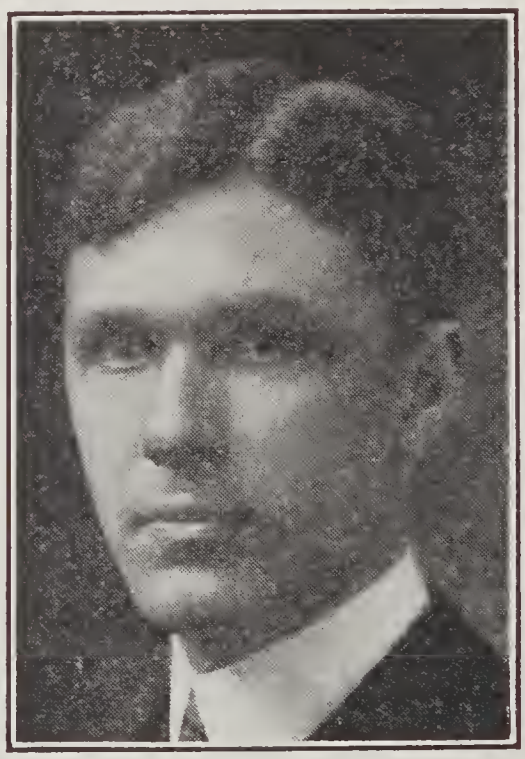

The ridiculous extremities to which initiation "rites" had gone during recent sessions were far from doing credit either to the University or the student body. It is well that they are to be eliminated in future.

Many other important matters were dealt with in the revision of the constitution. Constables appointed by the A.M.S. will henceforth attend all undergraduate functions. Provision was made for the establishment of regular University church services. The question of holding the annual elections of the Society in the spring rather than in the fall will be settled by a referendum next autumn.

Incidentally, the Alma Mater Society, the subsidiary faculty organizations, and the undergraduates at large are to be heartily commended upon the very noticeable improvement in the entire tenor of student life that has shown itself at Queen's during the past session. The social functions have had a most desirable wholesomeness, and the general atmosphere has been definitely superior to that of several years past. The *Review* takes much pleasure in passing on the tributes in this connection which have reached it from numerous sources during recent weeks.

DR. S. A. MITCHELL, ARTS '94, TO HEAD ECLIPSE EXPEDITION

ONE of the largest and most completely equipped expeditions ever organized to study a total eclipse of the sun is to be led during the coming summer by Dr. S. A. Mitchell, Arts '94, LL.D. '24, director of the Leander McCormick Observatory at the University of Virginia.

DR. S. A. MITCHELL

The expedition is being sent by the National Geographic Society, with the co-operation of the United States Navy, to observe the eclipse on June 8 from an uninhabited desert island in the Phoenix group, far out in the Pacific Ocean. The eclipse will have a longer duration of totality than any in the last twelve hundred years.

Dr. Mitchell and his party will sail from Honolulu on May 6 on the *U.S.S. Avocet,* a mine sweeper recently converted into a naval tender for the trip of eighteen hundred miles. The expedition will carry ten tons of delicate instruments, tents and all supplies for living ashore for one month.

Many scientific honours have come to this prominent Queen's graduate. Dr.

Mitchell is president of the commission on eclipses of the International Astronomical Union, a foreign associate of the Royal Astronomical Society of Great Britain, a member of the National Academy of Sciences, the American Philosophical Society, the American Academy of Arts and Sciences and of other scientific organizations. He is also a past president of the American Association of University Professors.

The total eclipse on June 8 will be the tenth for Dr. Mitchell.

UNIVERSITY TO HONOUR FIVE PROMINENT CANADIANS

SPRING Convocation will take place this year on the afternoon of Friday, May 7, at 3 o'clock (D.S.T.), in Grant Hall. This will be the first time in many years that the closing exercises at Queen's have been held on other than a Wednesday. The ceremonies will mark the closing of the ninety-sixth session.

The honorary degree of Doctor of Laws will be conferred on Dr. W. T. MacClement, Arts '88, formerly professor of biology at Queen's; Mr. Sidney E. Smith, president of the University of Manitoba; and Mr. W. S. Allward, designer of the Vimy Memorial. The degree of Doctor of Divinity, *honoris causa*, will be bestowed upon Rev. G. A. Sisco, Arts '25, secretary of the United Church of Canada, and Rev. A. Howard, principal of Albert College, Belleville, Ont.

Convocation will be followed by the customary University tea in the Gymnasium for the new graduates and their friends. In the evening, the regular Convocation dance will take place in Grant Hall, under the auspices of the General Alumni Association.

The annual meeting of the University Council will be held in the Douglas Library on the evening of Thursday, May 6.

The semi-annual meetings of the Board of Trustees and of the Board of Directors of the General Alumni Association are also scheduled for Convocation week-end.

The special Convocation, ending the eighty-fourth session of the Faculty of Medicine, will be held in Grant Hall at 3 p.m. on May 26, after which the University authorities will entertain at tea.

FOUR MEMBERS OF TRUSTEE BOARD ARE RE-ELECTED

IN the elections to the Board of Trustees by the graduates of the University, which closed on March 31, Dr. W. C. Clark, Arts '10, LL.D. '35, of Ottawa, and Miss Charlotte Whitton, Arts 17, of Ottawa, were re-elected. They will act as alumni representatives on the Board for a further period of three years.

Dr. Clark has been deputy minister of finance for the Dominion Government since 1932. Prior to his federal appointment he served as director of courses in Commerce and Administration at Queen's. He has been a member of the Board since 1934. Miss Whitton has been active in the affairs of the University for many years and a member of the Board since 1928. She is executive director of the Canadian Council on Child and Family Welfare.

The nominations for representatives of the University Council on the Board of Trustees, which also closed on March 31, resulted in the re-election by acclamation of Alexander Longwell, Arts '00, Sc. '03, of Toronto, and J. C. Macfarlane, Arts '11, of Toronto. They will hold office until 1940.

Mr. Longwell is a prominent mining engineer and director of mining companies, and has been a trustee of the University since 1918. Mr. Macfarlane is general counsel for the Canadian General Electric Company and has served on the Board of Trustees for the past four years. He is also first vice-president of the General Alumni Association.

REV. SARKIS MANOUKIAN WRITES FROM BULGARIA

A MOST interesting letter has been received by the *Review* from Rev. S. B. Manoukian, Theol. '08, of Sofia. The communication speaks for itself:

"We are now very happy in such a country so safe and free. Bulgaria is a small country but is productive and

very beautiful. It has very high mountains with deep valleys.

"Our church is a small one with about fifty church members, but it is a living one.

"There are about 30,000 Armenians in this country, mostly refugees. About 4,000 of them are living in Sofia. We are doing our best to reach all those who are not yet saved.

"It is with a great pleasure that I remember those very happy days passed at Queen's. I wish I could once more come to Queen's and see those many great changes took place there.

"Please excuse me for my mistakes in English as I hadn't much opportunity in using it for the passed thirty years."

ALUMNAE ASSOCIATION HOLDS ANNUAL MEETING

THE annual meeting of the Queen's Alumnae Association was held in Ban Righ Hall on March 27 and culminated with a dinner in the Hotel LaSalle. The latter function was under the convenership of Miss Olive Chown, Arts '15, of Kingston.

Miss Eva E. Coon, Arts '17, of Hamilton, was elected president of the Association for 1937-38, succeeding Miss Florence S. Dunlop, Arts '24, of Ottawa. Other officers appointed were as follows: first vice-president, Miss Hilda C. C. Laird, Arts '18, Kingston; second vice-president, Miss Catherine N. Holland, Arts '18, Montreal; third vice-president, Miss Mary E. White, Arts '29, Toronto; secretary, Miss Anne A. Smith, Arts '22, Hamilton; treasurer, Miss Gwyneth M. Gwillim, Arts '33, Kingston; investment treasurer, Miss Jennie B. Rogers, Arts '15, Montreal; archivist, Mrs. N. Miller (Grace H. Jeffrey), Arts '14, Kingston; councillors—Dr. Viola M. Davidson, Arts '18, Toronto; Miss Verna D. Munro, Arts '28, Ottawa; Miss E. Doreen Montgomery, Arts '28, Smith's Falls; Miss Marion H. Brown, Arts '19, Windsor; Mrs. W. S. Blake (Annie M. Campbell), Arts '25, South Porcupine; Miss Ada Wilkie, Arts '16, Edmonton; Mrs. S. J. Schofield (Florence A. Tait), Arts '13, Vancouver; Miss Georgina Ross, Arts '38, Montreal.

At the dinner, Principal Wallace spoke on "The Place of Women at Queen's." He said that women students could and did play a prominent part in the general life of a university, and for this reason it was essential that their attendance should not diminish. Every effort should be expended to make the courses for them as attractive as possible.

The Principal spoke of the great effect which an educated woman could have upon the community in which she lived, whether she were a professional woman or married and the mother of a family. He said that as many women as possible, no matter what their plans for the future, should have a college education.

TWO NEW MEMBERS ELECTED TO UNIVERSITY COUNCIL

IN the elections of the University Council which closed on March 31, seven retiring members were returned to office and two new members were chosen. There were sixteen nominees. The nine elected will hold office until 1943.

The newcomers to the Council are Dr. W. G. Cornett, Arts '18, Med. 21, Hamilton, former president of the General Alumni Association branch of that city; and N. B. MacRostie, Sc. '11, Arts '14, Ottawa, consulting engineer, and president of the Ottawa branch of the Association.

The members who were re-elected are G. C. Bateman, Sc. '05, Toronto; W. C. Dowsley, Arts '98, Brockville; Dr. W. S. Kirkland, Arts '98, Toronto; Mrs. H. A. Lavell, Arts '91, Kingston; Rev. Dr. J. Y. MacKinnon, Arts '11, Theol, '15, London; Mrs. Etta Newlands, Arts '92, Kingston; and Dr. J. M. Young, Arts '02, Med. '04, Windsor.

RENOVATED GRANT HALL ATTRACTIVE TO STUDENTS

IN the two years that have elapsed since the renovation of Grant Hall, many of the graduates have been able to see for themselves the great transformation that has taken place under the aegis of the General Alumni Association.

The Hall, whose interior was an eyesore in 1934, has been changed into one

of the show-places of the campus. It is now an auditorium of which the University, the alumni and the students are justly proud—a credit to Queen's, thanks to the generosity of the graduates. The old building, so well remembered and beloved by hundreds of former students, is no longer to be looked at askance.

And that the "New Grant Hall," with its fresh attractiveness, is appreciated by the undergraduates is well indicated by the extent to which their social functions have gravitated back to the University grounds—a "consummation devoutly to be wished" when the renovation took place. Grant Hall had had nearly thirty years of strenuous and useful service before it achieved such a state of shabbiness that it was shunned by the students. Since 1935, however, it has come back into its own as the centre of student life, as a glance at the "bookings" will attest.

These figures reveal a steady decline in the number of social events held in the Hall from 1928 up to the time of the renovation, but since then there has been a return to the "boom" level. In 1928 there were thirteen student functions of a purely social nature; 1929, twelve; 1930, ten; 1931, seven; 1932, six; 1933, four; 1934, three; 1935, fifteen; 1936, seventeen; 1937 (to date), nine. Thus it is manifest that Grant Hall is being used more than ever before—that it is now, in fact, the "hub" around which the undergraduate social life revolves. This is a most desirable feature, as it means that no longer do the students hire halls in the downtown section of the city where they are more or less outside the jurisdiction of the University.

MAIN CORRIDOR OF GRANT HALL

Interviewed by the *Review,* Principal Wallace stated he was very pleased with the desire of the students to use Grant Hall for their dances and other social

affairs. He said that the University authorities were endeavouring to make it as easy as possible for the students to obtain the Hall for their various activities. A policy has been adopted of reserving the building for purely University functions.

The fact that decorations are not allowed in Grant Hall—and these are really no longer necessary because of the attractiveness of the interior—has had the highly desirable result of keeping down the prices of dances, which in recent years has shown an alarming tendency to climb. For example, the Alma Mater Society was able to arrange a "formal" dance this spring at the modest price of two dollars a couple.

The alumni who have contributed to the Grant Hall Fund may well be pleased with the result that their assistance has brought about, From all angles, the project redounds to their credit. Of the Association's original commitment of $14,000, approximately $1500 still remains unpaid, and it is the earnest hope of the directors that this balance will be liquidated in the very near future. If you have not yet done your bit, please send in your subscription now.

SOLVES BAFFLING MYSTERY AFTER FIVE YEARS' WORK

PAGING Mr. Sherlock Holmes! E. R. Smith, Arts '24, Com. '25, of Windsor, Ont., recently "made" the headlines of the newspapers with a sleuthing achievement that would have done credit to the master mind of fiction. Mr. Smith, a lawyer, succeeded in clearing up a case which entailed five years' work, the writing and reading of fifteen hundred letters, and the search of many newspaper files.

In 1932 a man was drowned in Northern Ontario. At the request of a client, who believed the dead man to be a relative, Mr. Smith tried to find out the deceased's identity. Years of patient search revealed that the dead man was somebody else—someone worth $9000 instead of being penniless as first thought. Mr. Smith painstakingly persevered, finally discovered the man's true identity, and located his relatives in England.

IMPORTANT SCHOLARSHIP AWARDS ARE ANNOUNCED

THE Marty Memorial Scholarship, established by the alumnae of Queen's in memory of Dr. Aletta Marty, Arts '94, LL.D. '19, and her sister, Miss Sophie Marty, Arts '97, has been awarded to Miss Winnifred Rutledge, Arts '36, of Kingston. This is the first time that the award has been made.

Dr. Marty was outstanding among the graduates of Queen's as a teacher and school inspector. She died in 1929 in South Africa, where she was serving for a year as inspector. Her sister, who accompanied her, died shortly afterwards.

MISS RUTLEDGE

Miss Rutledge is a graduate of the Kingston Collegiate Institute, and last year obtained an honour B.A. in classics at Queen's. During the past session she has been working for her M.A. degree. Miss Rutledge plans to hold the scholarship for the academic year 1937-38, carrying on postgraduate work at The University of London.

Other important awards include the German exchange scholarship, which was won by George Macgillivray, Arts '37, of Port Arthur; and the French exchange scholarship, won by George Tottenham, Arts '37, of Kingston.

LOYAL GRADUATE REVERES MEMORY OF ALMA MATER

AN indication of the deep affection in which Queen's is held by her graduates was recently given in the answer of an alumnus to a letter from the Endowment Committee, requesting payment, if possible, of the balance of a pledge made during the 1926 campaign. This graduate discharged his obligation by return mail with the following remarks:

"I do this very gladly, as I owe a very deep debt of gratitude to my Alma Mater and to the fine staff of my time—Dupuis, Shortt, Watson, Dyde, Nichol-

son and others, not forgetting Cappon and Principal Grant, who were all great Canadians and fine teachers and lovable characters. Their memories will always be treasured while the students of my time remain to enjoy in retrospect the formative periods of their careers."

DR. DONALDA DICKIE EDITS NEW CANADIAN MAGAZINE

FEW women graduates of Queen's have had a more illustrious career than Dr. Donalda J. Dickie, Arts '10, of Edmonton, Alberta. Dr. Dickie's latest achievement has been the founding of a new Canadian publication entitled *The Children's Magazine*.

After graduating with her M.A. from Queen's in 1910, Miss Dickie studied at Columbia and Oxford universities. In 1929 she was awarded the degree of Ph.D. by the University of Toronto in recognition of the work she had done at Oxford, under the late Sir Walter Raleigh, before degrees were granted to women at that institution. Her thesis was expanded into a book and was published under the title, *John Foxe and the Book of Martyrs*.

Dr. Dickie is now professor of English in Edmonton Normal School. She has written and published several series of textbooks of unusual quality and is the author of a number of children's stories. In 1932 she was one of sixteen Canadian university women who attended the sixth triennial conference of the International Federation of University Women in Edinburgh, Scotland.

Her many friends will wish her entire success in her new editorial venture..

GRADUATE SINGS PRAISES OF DR. JOHN WATSON

THE article in the March issue of the *Review* noting the ninetieth birthday of Dr. John Watson, professor emeritus at Queen's, elicited the following interesting letter from Dr. Lawson P. Chambers, Arts '04, who had the good fortune of being a student and later an assistant of the great philosopher. Dr. Chambers, after several years as a missionary and teacher in Turkey, with a brief interlude when he served on the staffs of Queen's and Dalhousie universities, returned permanently to North America in 1923, and since 1925 has been associate professor of philosophy at Washington University, St. Louis, Mo. Mrs. Chambers was Ada E. Pierce, also of Arts '04.

"All Dr. Watson's students must have been thrilled to learn that he was still in good health.

"The name 'Watson' conjures up a few incidents and anecdotes from my undergraduate days. For example, there was that occasion when he slyly remarked, as a few of us were floundering through Hegel's *Logik* and were turning the tortuous German into tortured English, 'It is fortunate there is no one present who is not antecedently sympathetic with Hegel.' And his humour was also revealed in his reply to me years later, when I was assisting in the department and had asked him when he thought Professor Cappon would publish his long-awaited work on Wordsworth. 'Professor Cappon does not seem to know,' he said, 'that God is the only one who can turn out a perfect work.' And again, when he was paying us a visit at our summer home in Gananoque, he regaled us with humorous anecdotes of Queen's of the old, old days, having stored them up for the occasion because he sensed that the deafness which was coming upon him made it difficult for us to carry on a conversation.

"But it is not these memories that the name 'Wattie' primarily calls up. Rather do I think of the classroom, with the tall dignified figure who opened every period with prayer and then lectured straight ahead, without notes. His lectures were perfectly organized in style and thought; not to be comprehended while you were taking them down—for you were writing as fast as you could and had no time to stop and digest the information—but a veritable mine of profound ideas, some few of which you might later dig out of your notes if you had perseverance and penetration. Professor Watson did not lecture 'down' to the class or court the interest of those who would not work. He knew few of the devices of the pro-

fessional pedagogue—how to present the subject so as to connect it with the precedent interests of his hearers or how to lead the backward student gently over the hard places. He gave you solid meat, and you took it or left it; or rather, you took as much of it as you could. And, at least in my undergraduate days, you did not ask questions; or if you did he seemed to find it inconceivable that you should not understand the simple problem your question raised, that you saw in it meanings and implications which took you far beyond the first difficulty into others still more complicated.

"But this does not mean that Professor Watson was not a great teacher. For, if some of those who took their pass work in philosophy under him did not obtain much in the way of concrete ideas from the course, all did get a sense of the dignity and value of truth, and an aversion to superficiality and sham even if the superficial would have proved more tangible. To study under Professor Watson was to be initiated into the mysteries of the love of and search after wisdom. But it was not all merely imponderable; for in his day—and he taught at Queen's for fifty-two years—philosophy exercised a definite and far-reaching influence in the University. This was owing partly to the honour students in the department, who formed the nucleus of many a spontaneous discussion group, and partly to the fact that some of the most influential of his colleagues were themselves steeped in the philosophic tradition of which he was so outstanding a representative, but mainly to his own personality and scholarship.

"In Theology his influence was most strongly felt, for his honour courses were recruited largely from Divinity students. I have heard it said that nearly every Presbyterian manse in the Canadian West had its shelf of Watson's books: the *Outline of Philosophy,* the *Philosophical Basis of Religion, Hedonism and Christianity,* and others, and later the two volumes of Gifford lectures on *The Interpretation of Religious Experience.* Despite the initial difficulty of the subject and the unbending manner of its presentation, if you had respect for philosophy—and at Queen's it was held in high respect—and if you were willing to work hard, you would be amply rewarded; for you found there a profound, consistent and broad treatment of the fundamental problems of humanity.

"Watson belongs to the great tradition of Hegelian thought, which is characterized not merely by its confidence in reason, i.e., in clear and consistent thinking—for how could one be scientist or philosopher who lacked this confidence? —but also by its happy blend of the scientific and the religious attitudes. Too often is the supposed 'conflict of science with religion' solved (?) by taking sides, to the impoverishment of one's philosophy and to the stultification of both the anti-religious science and the anti-scientific religion; or else by compromise or attempts at harmonizing. In contrast with these efforts to sterilize science and religion, what characterizes Hegelian thought is its frank and unqualified acceptance, on the one hand, of the methods and results of the sciences; while, on the other hand, it finds in science neither an enemy of religion, nor a difficulty to be overcome, but the firm and only satisfactory basis for man's spiritual values.

"It was fortunate for the students who went through Queen's in Watson's time that this same attitude prevailed; for in my undergraduate days the air was filled with religious controversy. Echoes of the dispute over evolution still lingered, and the higher criticism had come to stir up new issues. But at Queen's we found ourselves in an atmosphere where the study of science was not regarded a menace to religious faith, but only to credulity, and where the fullest and frankest discussion of our doubts and our insights was welcomed and encouraged. I attribute it as much to Watson's philosophy as to the enlightened and scholarly character of her Theology professors that Queen's was 'modern' in her theology and yet played so great a part in the rapidly developing religious life of the Canadian West; also that there was such perfect harmony and respect among staff and students and between the other faculties and Theology, which was then still a faculty of the University."

CAMPUS BRIEFS

A SPECIAL University service was held in Chalmers United Church on March 14, with Prof. E. F. Scott, LL.D. '20, of Union Theological Seminary, New York City, a former member of the Queen's Theological College staff, as the guest-speaker. A second service was held in Grant Hall on March 21, with Rev. Lyman Hoover, of Peiping, China, speaking on "Christianity and the Contemporary Life." Dr. H. A. Kent, Principal of Queen's Theological College, was in charge, assisted by Principal Wallace and D. M. F. Biehn, Med. '37, of Parry Sound, president of the Alma Mater Society.

* * * *

Convocation Hall was crowded to capacity on March 5 to hear Dr. Griffith Taylor, of the University of Toronto staff, lecture on "Illustrations of the New Geography with a Canadian Slant."

Crests of Queen's University, the Royal Military College and the Royal Canadian Horse Artillery have been placed in Sydenham Street United Church, Kingston.

* * * *

Thirty original drawings of George Clark, newspaper syndicate cartoonist, were exhibited in Convocation Hall early in March; and Prof. W. M. Conacher, of the French department, spoke on "Caricature in Art" on the fifteenth. Later in the month there was an exhibition of the paintings of Mr. André Biéler, resident artist.

* * * *

Lectures in Arts and Science ended on April 2 and examinations began on April 5. The Medical classes will close on May 7 and final examinations commence on May 8.

* * * *

The Provincial Government's grant to Queen's for the coming year has been increased from $250,000 to $275,000.

GRADUATING CLASS, WOMEN'S MEDICAL COLLEGE, 1888

Left to right—Elizabeth S. Mitchell, Elizabeth Embury, Alice A. Marshall, Annie Lawyer, Agnes D. Craine, Nettie Ogilvie.

STUDENT ACTIVITIES

AS its sixty-ninth public performance, the Dramatic Guild presented three one-act plays in Convocation Hall on March 10. Miss Anne Macdonnell, Arts '38, of Toronto, was elected president of the Guild for next year.

* * * *

The German Club presented *Doktor Johannes Faust* in Convocation Hall on March 3. The dialogue was entirely in German.

* * * *

The second annual exhibition of the Queen's Camera Club was opened in Convocation Hall on March 1 by Mr. André Biéler, resident artist, who discussed the prints shown.

* * * *

Foreign students in attendance at the University were the guests of the Rotary Club of Gananoque, Ont., on March 3.

* * * *

Miss Margaret Davis, Arts '37, of Ottawa, was awarded the *Journal* trophy for "distinguished services to Queen's by a student," at the annual Colour Night, held in the Gymnasium on March 5. Presentation of A.M.S. executive pins was also made.

* * * *

Mrs. A. A. Day, of the French staff at Queen's, spoke to the French Club on March 9 on "Paris."

* * * *

The annual meeting of the Student Christian Movement was held on March 11. Mr. H. M. Estall, of the Philosophy department, spoke on "The Student Approach to Religion." Miss Gertrude Rutherford, principal of the United Church Training School, Toronto, and one-time national secretary of the S.C.M., was the speaker at the special meeting held in February.

* * * *

E. G. Berry, Arts '36, spoke at the final meeting of the English Club on March 9 on "Anthony Trollope."

* * * *

J. C. Cameron, Com. '32, of Canada Packers Limited, Toronto, addressed a meeting of the Commerce Club on March 10. F. C. S. Evans, transport service representative of the Canadian Pacific Railway, Montreal, was the speaker at the meeting on March 19.

* * * *

Miss Georgina Ross, Arts '38, of Montreal, was elected president of the Levana Executive for 1937-38 at the annual elections on March 9.

* * * *

At the meeting of the *Journal* staff on March 9, W. A. Neville, Arts '38, of Kingston, was re-elected as editor-in-chief for the ensuing academic year.

* * * *

Sgt. P. C. Black, Arts '39, of Toronto, will represent the C.O.T.C. contingent in the Canadian militia unit to be sent to the Coronation of King George VI in May.

* * * *

Levana entertained at the annual tea-dance at the LaSalle Hotel on March 13. Miss Phyllis Ross, Arts '38, of Toronto, was the convener.

* * * *

Dr. H. L. Tracy, head of the Classics department, spoke at the final meeting of the Classics Club on March 15.

* * * *

Approximately eighteen per cent of the student body of Queen's signed the National Student Petition for the abolition of the Cabinet's power of conscription in time of war and the clarifying of Canada's position in the British Empire in war-time. The petition was circulated on the campus by the Student Peace Movement.

* * * *

Murray Campbell, Sc. '38, of St. Thomas, was elected president of the Engineering Society for next year at the annual elections on March 13.

* * * *

"Canada's Place in World Affairs" was the subject of an address delivered by Principal Wallace at the annual banquet of the International Relations Club on March 11.

* * * *

The annual banquet of the Flying Club was held at the Kingston Badminton Club on March 18.

ATHLETICS

Colour Night

PRESENTATION of athletic awards for the session was one of the pleasant highlights of the first annual Colour Night, which was held in the Gymnasium on March 5.

Johnny Edwards, Arts 37, of Ottawa, as the A.M.S. athletic stick, introduced the captains of next year's football and basketball teams, George Sprague, Arts '39, of Holyoke, Mass, and Ernie Spence, Arts '38, of Winnipeg, Man., respectively.

T. A. McGinnis, Sc. '08, chairman of the Athletic Board of Control, spoke of past attempts to hold a Colour Night, and expressed the hope that the event would take place each year. Mr. McGinnis made the presentation of the awards, the complete list of which appears below. Harry Sonshine, Arts '37, of Toronto, winner of the Johnny Evans trophy as the most valuable member of the senior football team, and Nick Paithouski, Sc. '40, of Sarnia, winner of the Royal Todd trophy as the most valuable member of the junior football team, also spoke briefly on receiving their awards.

The new letters, consisting of a "Q" with a star for each additional time the honour had been earned, were presented to the individual winners. The complete list of letter awards is as follows:

Graduating Star Q Holders

BARKER, R. D., Arts	3 star Q	football and B. W. & F.
BEWS, M. A., Arts	4 star Q	football and basketball
CONNOLLY, E. C., Com.	3 star Q	tennis and skiing
CUNNINGHAM, M. A., Com.	2 star Q	basketball and track
EDWARDS, J. F., Arts	5 star Q	football, basketball and track
JONES, A. M., Arts	3 star Q	football
KIRKLAND, A. G., Sc.	2 star Q	football
KRUG, C. M., Arts	3 star Q	football
LEWIS, J. A., Com.	1 star Q	football
MILLER, R. G., Med.	4 star Q	B. W. & F. and football
MUNRO, J. M., Arts	2 star Q	football
ROOKE, E. D., Med.	2 star Q	basketball
SONSHINE, H., Com.	4 star Q	football and basketball
THOMPSON, M. W., Arts	1 star Q	football

1936-37 Q Winners

BARNABE, E. A., Com. '38	football
YOUNG, C. T., Sc. '38	football
SMOLKIN, S., Med. '39	B. W. & F.
TISDALE, A. P., Arts '38	B. W. & F.
McLEAN, C. S., Arts '38	football and B. W. & F.
PECK, C. C., Arts '38	football and B. W. & F.
DENNIS, G. W., Arts '38	football
STOLLERY, A. W., Sc. '39	football
CONLIN, G. H., Sc. '40	football
SPRAGUE, G. L., Arts '38	football
CARSON, G. T., Med. '41	football
McPHERSON, W. A., Arts '37	football
GRANT, F. E., Arts '38	B. W. & F.
BOUCHER, H. P., Sc. '40	B. W. & F.
STEVENSON, J. H., Arts '38	track
CARMICHAEL, A. D., Sc. '39	B. W. & F.

Jenkins Trophy Awarded

AWARDED annually to the "student who has brought most honour to Queen's by his athletic and scholastic ability," the beautiful Jenkins Trophy this year goes to Johnny Edwards, Arts '37, of Ottawa.

JOHNNY EDWARDS

Edwards well deserves this distinction. He has been a member of the senior football, senior basketball and senior track teams for three years, and a star on the ski team for one year. He was the Athletic Stick of the Arts Society for 1935-36, and held this office during the current year for the Alma Mater Society, as well as being Athletic Stick on the permanent executive of Arts '37. During 1936-37 he served as sports editor of the *Queen's Journal*. He is the only graduating athlete this year who boasts a "Q" and five stars.

In spite of his many athletic achievements, Johnny did not allow sports to interfere with his studies and had a good scholastic record. His name richly deserves to rank with those already engraved on the Jenkins Trophy.

Basketball

THE Queen's senior basketball team will be captained next year by Ernie Spence, Arts '38, of Winnipeg.

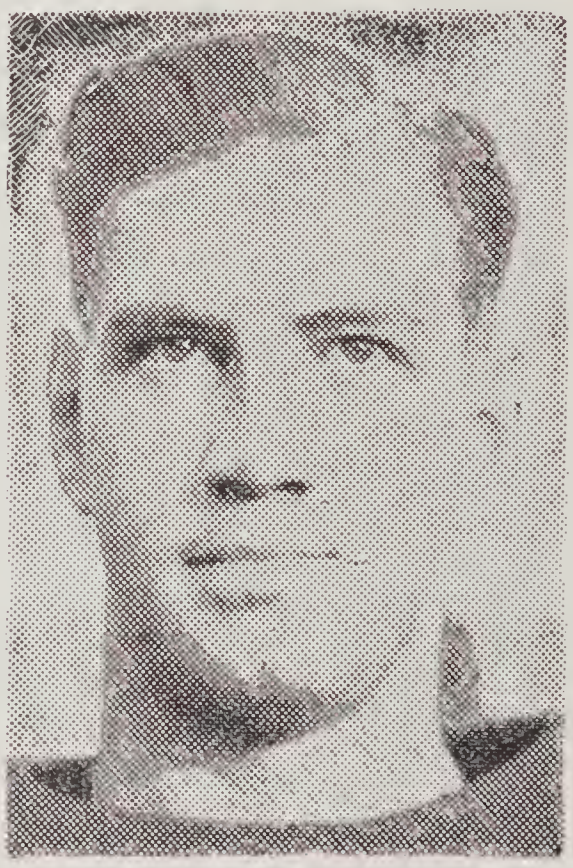

The new leader of the court squad is twenty-two years of age and holds a B.A. degree from the University of Manitoba. He entered Commerce at Queen's in 1936. Although he has played only one year with the Tricolour, he has proved his worth so effectively that his choice as captain is a popular one.

Ernie has been starring on basketball teams since he entered Kelvin Technical High School in Winnipeg. As the Queen's captain he can be counted upon to flash his best form next year.

Football

AT the annual football meeting held in the Gymnasium on March 4, George Sprague, Arts '39, of Holyoke, Mass., was elected captain of the 1937 edition of the Tricolour senior team.

Big, strong and reliable, George was one of the prominent factors in the campaign last fall, which saw Queen's reach

GEORGE SPRAGUE

the play-offs with Varsity. Graduates who attended the Reunion will remember George as the player who smashed through for the only touchdown of the game with the University of Toronto, thus enabling the Tricolour to win 6-1. His general play all year earned him a berth on the mythical all-star Intercollegiate team at middle wing.

George entered Queen's in 1931 and played for the junior team. The following year he went to McMaster University, where he starred on the intermediate squad. In 1935 he partnered with his famous brother Dave on the Ottawa Rough Riders in the senior Interprovincial League. He then left college and joined the R.C.M.P., and the fall of 1934 found him a member of the Regina Rough Riders, who reached the Canadian finals. A transfer sent him to Calgary in 1935, where he played with the Calgary Bronks, and in 1936 he returned to Queen's.

Sports Shorts

THE decision of the Canadian Intercollegiate Athletic Union to hold the annual fencing championships separate from the boxing and wrestling tourneys should meet with the approval of Tricolour fans, as Queen's has lost six titles in recent years through failure to win in the fencing bouts. At the annual meeting of the C.I.A.U. when this ruling was made, Dr. J. H. Orr, Med. '23, was elected honorary secretary.

* * * *

Prof. W. L. Malcolm, Arts '05, Sc. '07, has been elected honorary vice-president of the Canadian Badminton Association for the ensuing year.

* * * *

The Arts '40 basketball team won the all-campus year title, to become the first champions of the newly formed league. Four Arts teams, three Medical, one Science and one Theology team were entered this year.

* * * *

Barbara Rooke, Arts '40, of Kingston, finished in third place in the 50-yard breast stroke event at the Intercollegiate swimming meet, held in Hamilton on March 6, and was the only point-winner of the Tricolour co-ed team of five members.

* * * *

Mal Cunningham, Arts '37, of Ottawa, captain of the 1936-37 basketball team, was the unanimous choice of the college sports editors as centre on the Intercollegiate all-star team.

AT THE BRANCHES

Saskatoon

THE old Gaelic yell and popular campus songs filled the air at the annual banquet of the Northern Saskatchewan branch, recently held in the Bessborough Hotel, Saskatoon. Approximately sixty members and their friends were in attendance and enjoyed a most pleasant evening.

Preceding the banquet, an informal reception was held in the lounge, with the president, W. A. Gilchrist, Arts '08, and Mrs. Gilchrist welcoming the guests. During the dinner Prof. M. F. Munro, Arts '04, Theol. '07, D.D. '33, led in the singing of college songs, and the guest artist, Mrs. Carl Nidernost, with Mr. Nidernost as the piano acompanist, rendered a number of vocal solos.

Rev. Dr. Nils Willison, Arts '26, principal of the Saskatoon Lutheran College, as the main speaker of the evening, stressed the fact that the tradition of Queen's was one of service. The University inspired confidence and close relationship and had sought always to serve.

The speaker declared that he was glad to have the opportunity of lauding Queen's, for he had never forgotten what the University had done for him. He still liked to think of the limestone buildings and the campus, and to remember what the institution stood for and how it sent forth from its halls men and women qualified to play prominent parts in national affairs. He also liked to recall that Queen's had been a wise pioneer in summer-school training, and that it had shared its educational values with many by means of its extramural courses.

J. L. McKinnon, Arts '15, who was a representative of the Saskatoon alumni

at the installation services for Principal Wallace, gave an interesting account of the proceedings, describing the various impressive ceremonies and telling of men and places familiar to his listeners. He had come away fully aware that "Queen's was rich in men who really made their students think."

A. M. Mowat, Arts '16, expressed the appreciation of the guests for the delightful addresses.

H. M. Fisher, Arts '17, secretary-treasurer, presented the annual report, which included a summary of the activities and work carried on during the past year.

Dr. W. W. Swanson, Arts '05, was chosen as president for 1937 during the election of officers. The remainder of the executive was appointed as follows: honorary president, Principal Wallace; first vice-president, Robert McGregor, Arts '13; second vice-president, C. P. Seeley, Arts '12; secretary-treasurer, Mr. Fisher; committee—Mrs. G. M. Binning (Katherine Quark), Comm. 29, Dr. R. K. Johnston, Med. '16, Mrs. M. A. F. Lindsay (Mabel Aylesworth), Arts '04, Mr. Mowat, and D. M. Wilson, Sc. '14.

G. H. Lewis, Arts '27, moved a sincere vote of thanks to the outgoing executive, in which he expressed appreciation of the leadership given the branch by Mr. Gilchrist, the retiring president.

Guelph

APPROXIMATELY eighty graduates and friends attended the banquet held in the Guelph Y.W.C.A. in honour of Principal Wallace on April 2. Guests were present from Kitchener, Preston, Paris, Morriston, Fergus, Hillsburg, Owen Sound, Grimsby, Port Credit and Milverton to hear Dr. Wallace's splendid address on "Queen's as a National Institution."

During the business part of the meeting, the following executive, proposed by Rev. T. M. Goodwill, Arts '98, was elected for the ensuing year: president, Dr. G. G. McNab, Arts '02; secretary, Mrs. S. S. Smith (Edna Musgrove), Com. '25; committee—Miss Wilhelmina M. Humphries, Arts '18, Miss Margaret I. McFadden, Arts '30, Miss Jane H. Craig, Arts '29, J. B. Walker, Com. '32, Rev. L. C. Lawson, Arts '32, Dr. F. H. C. Baugh, Arts '20, Med. '22.

Bouquets of mixed spring flowers graced the head table, which was illuminated by tall yellow candles, while bud vases holding daffodils centred the small tables. Streamers in red, yellow and blue were strung from corner to corner of the ceiling, entwining the pillars of the room.

MRS. SMITH, Secretary

Principal Wallace was welcomed by Dr. McNab, who acted as chairman and toastmaster. After "The King," the toast to the visitors was proposed by Dr. L. H. Leggett, Med. '24, and responded to by Col. W. M. O. Lochead, Arts '96, of Kitchener. Dr. Baugh proposed the toast to "Our Alma Mater," and the response was made by the Principal.

Dr. Wallace said that he saw the future of Queen's as a national, not a regional, institution, through the maintenance of the high quality of work being carried on at present. To achieve this end there were three basic requirements—first, the personality and ability of the members of the staff, who must have a breadth of culture outside their particular subjects; second, the standard of attainment must be no less, and even better, than that of any other institution anywhere; third, the University must be imbued with the spirit of research.

The Principal gave his idealistic conception of teachers, as men whose knowledge was not widespread and shallow but of solidity and depth; men courageous in their outlook, permitting free expression of opinion and belief on all matters, in order that students might

develop strength and courage to form their own decisions; and men of character, who had an understanding of life.

Toronto

REPRESENTING classes from 1884 to 1936, one hundred and thirty-five members of the Toronto branch met in the auditorium of the Central Y. M. C. A. in that city on March 12. The guests were welcomed by the president, R. J. Aitchison, Arts '29, who also briefly outlined the present status of the Grant Hall Fund.

Dr. A. E. Lavell, Arts '91, composer of the famous Tricolour yell and founder of the Arts Society, sketched the first fifty years of Queen's. The speaker paid tribute to the prominent part played by Scotsmen in the history of the University. "The present inference is clear," he said.

Capt. E. A. Baker, Sc. '14, managing director of the Canadian National Institute for the Blind, was delightfully reminiscent of the Queen's of twenty-five years ago; and E. O. Morgan, Sc. '26, superintendent of the Canadian National Carbon Company, presented an inspiring picture of the University of to-day. Ted Reeve, coach of the Tricolour senior football team, spoke on sport at Queen's in his own inimitable manner. Mr. Reeve was introduced by J. W. Davis, Com. '34, and a vote of thanks for his remarks was moved by Mr. Elmer Davis, of Kingston.

S. M. Ketcheson, Arts '33, provided the piano accompaniment for the musical part of the programme. Mr. Frank Oldfield was the guest soloist. Community singing was enjoyed, particularly when two old graduates taught the assembly how to render *The Red, Blue and Yellow* and *The Grant Hall Clock*. The former was first sung by the Glee Club of 1890 in Convocation Hall.

The rest of the evening was spent in cards, bowling, billiards and the renewal of old friendships. The oldest graduate present was Judge A. G. Farrell, Arts '84, with Dr. Lavell and Dr. R. Laird, Arts '93, D.D. '19, next in seniority. There was a most gratifying attendance of the alumni of recent years, promising well for the future of the branch.

Montreal

THE large number of members who attended the March meeting of the Montreal branch on St. Patrick's Day heard a most interesting address delivered by Principal Morgan of McGill on "Canadian Universities."

Each university was individually different yet functioned for a common purpose, with men and women being trained to become leaders in Canadian communities, he said. Unfortunately, not all those seeking higher education were fitted for leadership, and circumstances prevented many brilliant students from proceeding with their studies. Canada had been slow to support the university training of its youth by state scholarships, and the colleges were doing their utmost to assist those who could not afford to bear the full expense.

The University prepared a man to do better the type of work for which he was naturally fitted, said the speaker. He was made a better citizen and his outlook was broadened. Canadian educational institutions offered a culture that was essential to the growth of Canada.

Principal Morgan criticized the trend of college sport toward exhibition rather than participation. He said there was more value to the students if they played for their own enjoyment than for the entertainment of large numbers of spectators.

Each university was a part of a great cause to make Canada a better country in which to live, said the Principal in conclusion.

Peterborough

A SOCIAL function of the Peterborough branch is being planned for May, and preliminary arrangements are under way for Principal Wallace to visit the group in the early fall, probably during the week-end of October 9. Alumni in the Peterborough area will be well advised to keep these events in mind. Detailed information will be sent out later by the branch officials.

ALUMNI NEWS

Births

Baxter—On March 17, at Mount Hamilton Hospital, Hamilton, Ont., to J. M. Baxter, Arts '27, and Mrs. Baxter, a son (Richard Preston).

McKelvey—At Johns Hopkins Hospital, Baltimore, Md., on March 18, to Dr. G. J. McKelvey, Arts '30, Med. '32, and Mrs. McKelvey, a son.

Marshall—At the General Hospital, Niagara Falls, Ont., on March 17, to D. W. Marshall, Arts '34, and Mrs. Marshall (Helen Kennedy), Arts '34, of Stamford, Ont., a son (Douglas Woodworth).

Torrie—On March 24, to W. A. Torrie, Com. '23, and Mrs. Torrie, of Toronto, a son.

West—At Almonte, Ont., on March 23, to J. D. West, Arts '36, and Mrs. West, a son.

Marriages

Lennox—In Pittsfield, Mass., on May 29, 1936, Kathryn H. Lennox, Arts '34, to William C. Hurt, Jr. They are living at 119 Holmes Road, Pittsfield, Mass.

Macdonnell—In April, at Grace Church on the Hill, Toronto, Sally Baker, daughter of Mrs. F. F. Baker and the late Mr. Baker, to Gordon F. Macdonnell, Sc. '26, son of Mr. and Mrs. P. J. Macdonnell, Perth, Ont. E. O. Morgan, Sc. '26, was best man.

McLaughlin—On April 3, at Christ Church, Sag Harbour, N.Y., Aimee Virginia, daughter of Mr. and Mrs. Thomas Bisgood, to Dr. Harrison Lloyd McLaughlin, Med. '33, of New York City. Dr. A. S. Kenny, Med. '33, was best man.

Deaths

Barker—One of the Ottawa Valley's best-known residents passed away after a brief illness in Chambers Memorial Hospital, Smith's Falls, Ont., on March 20, in the person of Dr. R. R. Barker, aged 49. The late Dr. Barker was born at Forfar, Ont., and attended Forfar Public School and Athens Collegiate Institute before entering Arts at Queen's in 1904. The following year he enrolled in Medicine and graduated with his M.D.,C.M. in 1910. As a student he starred on the senior football and hockey teams. After graduation Dr. Barker was medical officer for the Canadian National Railways during the construction of the line between Smith's Falls and Sydenham, Ont., and later practised in Ottawa. In 1916 he went overseas as a medical officer with the Canadian Forestry Corps, holding the rank of major at demobilization in 1918. He took up residence in Westport, Ont., on his return to Canada and practised there until 1932, when he moved to the village of Jasper, Ont. In 1936 he became a resident of Smith's Falls. Always keenly interested in sport, Dr. Barker served on several team executives and was an active curler and golfer. He also held office, including the presidency, in the Leeds County Conservative Association for years. He was a member of the Canadian Legion, and of Westport Lodge, No. 441, A.F. & A.M. Surviving are his widow, one son and one daughter, three brothers and one sister.

Howard—After a short illness, Loretto Donovan, Arts '25, wife of Dr. Allan J. Howard, Med. '26, died at the Faxton Hospital, Utica, N.Y., on March 12. Mrs. Howard, who was born in Lansdowne, Ont., received her public-school and part of her high-school education in Gananoque. She later attended Notre Dame Convent, Kingston, where she passed her matriculation examinations. In 1920 she entered Queen's and remained with the class of '24 for three years. After a year spent at home, she returned to the University and graduated with her B.A. in 1925. In December, 1930, she married Dr. Howard and took up residence in Utica, where her husband was attached to the staff of the New York State Hospital. They later moved to the State Hospital at Marcy, N.Y., and were living there at the time of Mrs. Howard's death. Besides her husband and little daughter, Ann, she is survived by her father and three brothers, one of whom is Dr. Joseph Donovan, Med. '21, of Greystone Park, N.Y.

Keillor—At his home in Toronto, James Keillor, Arts '00, died on March 27 at the age of sixty-nine years. Matriculating from Port Elgin High School, the late Mr. Keillor enrolled at Queen's as an extramural student in 1891 and obtained his B.A. degree nine years later. He then entered the teaching profession and was engaged at various schools before joining the staff of North Toronto Collegiate, where he remained for nearly twenty years, retiring three years ago. He is survived by his wife and one son.

Little—At the manse in Westport, Ont., Rev. A. M. Little, Arts '19, died on March 15, after an illness of seven weeks. The late Mr. Little, who was sixty-three years of age, was born in Perth County and received his preliminary education at Listowel High School. He entered Arts at Queen's in 1904 and Theology in 1907, obtaining his B.A. in 1909 and his testamur in Theology in 1910. Ordained to the ministry of the Presbyterian Church on May 10, 1910, he found his first charge at Snake

River, Ont., after which he was stationed, successively, at Tamworth, McDonald's Corners and Kirk Hill, before going to Westport in 1931 to become the Presbyterian minister for that place and Newboro. He was a member of the A.F. & A.M. and took a deep interest in various community organizations. Rev. Dr. Donald MacOdrum, D.D. '30, of Brockville, moderator of the Ottawa and Montreal Synod of the Presbyterian Church, conducted the funeral service, assisted by Rev. L. S. Throop, Arts '18, of Newboro. Mr. Little is survived by his wife and one daughter.

McCullough—One of the oldest practising physicians in Ontario, Dr. T. P. McCullough, died at his home in Peterborough on March 18 after a brief illness. The late Dr. McCullough was born at Baillieboro, Ont., in 1865 and received his early education at Owen Sound and St. Thomas. He entered Queen's in 1884, but finished his course at Trinity College, University of Toronto. He practised at Alliston, Ont., for six years after graduation and then moved to Peterborough. He is survived by his wife, three sons, one brother and one sister

Mather—A long and useful career came to a close on March 16, when Dr. William Milton Mather, Med. '86, of Tweed, Ont., passed away at his residence after an illnes of about two months' duration. The late Dr. Mather was born near Plainfield, Ont., in 1859. He attended the Thurlow Township School and Albert College, Belleville, before entering the Medical College at Queen's in 1882. After graduating in 1886 he started practice in Tweed, and from that time until his last illness he was actively engaged in ministering to the sick. He was highly esteemed by his fellow-practitioners, and on June 9, 1936, he was tendered a banquet by the Hastings and Prince Edward Medical Society in honour of his golden jubilee. At this event prominent men of the profession were present from near and far. The deceased was coroner for the County of Hastings and also medical health officer for the Village of Tweed and the Township of Elzevir. Fraternally, Dr. Mather was a member of the A.F. & A.M. and the I.O.O.F. His survivors include one daughter, one brother and two sisters.

Notes

1880-1889

Rev. W. J. Drummond, Arts '85, is still living in Nanking, China, where for many years he did missionary work for the American Presbyterian Church. He retired in 1934 at the age of seventy.

Rev. David Flemming, Arts '87, associate pastor of Westminster United Church, Winnipeg, received the honorary degree of D.D. from Pine Hill Divinity College, Halifax, N.S., early in April.

The QUEEN'S REVIEW is published monthly, October to May inclusive, and in August. Annual subscription is $3.00. If subscriber is an alumnus of Queen's, REVIEW subscription is included in the annual membership dues of the General Alumni Association.

Editor and Business Manager—Gordon J. Smith, B.A., B.Sc.

Assistant Editors—H. J. Hamilton, B.A.
Anna F. Corrigan, B.A.

Address all communications to the QUEEN'S REVIEW, General Alumni Association, Douglas Library, Queen's University, Kingston.

PRINTED AND BOUND BY THE JACKSON PRESS, KINGSTON, ONT.

SPRING CONVOCATION GROUP, 1937

Left to right, Front row: Rev. Principal Kent, Principal Wallace, Chancellor Richardson, Hon. Norman Rogers, Vice-Principal McNeill.
Back Row: Rev. Dr. Bert Howard, Rev. Dr. G. A. Sisco, Dr. S. E. Smith, Dr. W. S. Allward, Dr. W. T. MacClement.

The QUEEN'S REVIEW

Vol. 11 KINGSTON, ONT., MAY, 1937 No. 5

TO THE NEW GRADUATES

Principal Wallace's Address at Convocation
Grant Hall, May 7, 1937

THE Roman god Janus, placed at the door of the temple, faced forward and backward. You who are about to graduate, and to go out from your university into life, to-day more than at any other time in your life, are looking behind and before. It is fitting that we, who rejoice with you to-day, should give our thoughts and our words to you, and to you alone. Will you permit us to look with you backward over the trail through which you have come; and to cast a look forward, as you are doing, to the way which you are hoping to travel. And you will permit me too, I feel sure, to speak very simply. This is not a time for a display of learning but rather for understanding. There are times when the heart speaks. This should be such a time.

Your thoughts are turning backwards to the days which you have spent at Queen's. Already there is a wistful feeling. It is hard to go. You are thinking of the student associations and the friendships which grew during these days. Already you are conscious of the fact that these were the best days that you have had, or will have; and that never again will relationships be so free and intimate as they have been here. You may even have tried to analyse what it is that your university has given you; for you are wise enough to know that a degree, much as it may appear at the moment, is a poor thing if it be all. But there is more. You have learned that there is only one way to approach any problem, however difficult and however much it may arouse emotional reaction; and that is with complete honesty and impartiality. You have acquired, or you should have acquired, a mental poise; for it is the place of a university to maintain an atmosphere of calm judgment and understanding, no matter how much the storms may rage outside. If you have not learned to say to yourselves: "I am not going to permit myself to be swept away by any propaganda, however seductive. I am determined to find what the facts are before I reach my decisions and form my convictions," — if you have not so learned the way of the educated man, you have failed, even although you obtain your diploma to-day. It is no easy way. We go on learning to do it, but our university taught us that there is no other way.

But there is more. Somewhere in the course of these years there have been encountered realms of thought which have whetted your curiosity and stimulated your mind. You have discovered your intellectual interests. You have determined that in the pursuit of those interests you will satisfy your mind. There you will find your education. There is no greater tragedy than that any one of you should leave your University jaded in mind and blasé; for your education has stopped almost before it has begun. You are waiting until

this machinery of examinations and testing and degree-conferring is over, in order that you may settle down undisturbed to the following of your own bent. You may have discovered it unaided; more probably the stimulating influence of the mind of an able teacher has set you going. You have determined to go on. If that is so, Queen's has opened the door to your education, and no university can do more.

To-day, especially, you are thinking of the human associations which have moulded you here. The give and take in discussion and debate, the discipline of the rules of the game which you played, the part you had in handling the affairs of your organization and in taking responsibilities which involved decisions, difficult to make; above all, the influence of the teachers whom you learned to respect and admire—these are the things uppermost to-day. You feel them inarticulately now, but the time will come when you will have no difficulty in putting them into words. They will endure. If you have given much yourselves, much will have been given to you. By enriching you will have been enriched. I would hope for you that you are going out with deeper and finer sensibilities because of the human relationships which have been yours in your student days.

These backward glances notwithstanding, your eyes are on the path ahead. What can one say about a road which has not yet been travelled, and where the valleys and the heights have yet to be explored? Nothing but a few simple things which are gleaned from the experience of the ways of life as they have been learned by those who are older in experience, if not in wisdom.

You have indicated by your standing that you have the ability to master a subject which you may choose to select as your special interest. You do not yet profess to have mastered it. May I suggest to you that under the conditions of modern living there is great need that in the things which we are supposed to know we do not fail in deep and accurate knowledge. There is a superficial breadth of knowledge in our day, to which the radio and the moving-picture machine have contributed. Good in themselves, these agencies cannot take the place of that quality of concentration and mastery of knowledge which can come only through individual effort. It will be expected from you. Without it you cannot be relied on in your professional work and in your personal contacts. Without it you will not be a strength to others; without it you will not have confidence in your own strength.

Out of knowledge should come the exercise of judgment and decision. A graduate of a university who is flabby in his mind and will is a reflection on the kind of training and discipline that a university should give. After taking due thought, and after having gathered the material on which thought can be based, there should be no question as to where we stand on issues which are fundamental. And not only as to where we stand, but as to our courage to take active part, if need be, in the sometime disagreeable task of demonstrating our stand by action as well as words. The times need courage and conviction and strength from those whose minds have been trained to discriminate between the spurious and the real, the dross and the gold. And if the issue is a fine one, as so often is the case, it helps to remember that,

when we have taken our position, those who think differently are in all probability as sincere as we are. That fact should give us liberality in judging others; it would be fatal if it were to lead us to the attitude that the cause did not matter, that the truth is not in it, but somewhere between. Enthusiasm is the gift of the gods to youth, and no dialetic should rob you of your birthright.

You will have learned, too, that character counts, and that without stability and high purpose, mental qualities do not pull their weight in life. You have had the opportunity to study the mind and spirit of man in his time of high exaltation; you have learned to give your respect and affection to some of your teachers who interpreted life to you as they unfolded the subject which they professed. This is a realm where words count for little. But many of you—all of you, I hope—leave Queen's grateful in your hearts to some teacher who has taught you the way to live. It is not an unfair request to make of you that you be a centre of inspiration and a source of strength in the community to which you go. That you cannot be unless you, too, have somehow found the things that are worth while in life, and are building up for yourselves a strength of personality and character which will count for much for yourselves and those about you.

Queen's will always remain to you what it was when you left. There were movements afoot in your time which you will continue to follow with interest. On the medical side, the building of Craine Hall for biochemistry and pharmacology will make possible a teaching and research institute which, we confidently expect, will become an outstanding centre of research in fat metabolism, and a stimulus, not only in medicine, but in other fields of science. The linking-up with clinical work in public health, through the co-operation of the City of Kingston, will give the City and the University a key position for education and instruction in the fundamental procedures in preventive medicine. The establishing of a sanitary engineering laboratory will make possible a widening of training for the engineer in the best municipal practice in sanitary treatment of water and sewage, linking together the medical man and the engineer in the fight against disease. The establishing of an industrial relations section, under the Department of Economics, with the co-operative support of many of the larger industries in Canada, will give Queen's the opportunity to build up a clearing-house of information as to the relationships of management and labour in Canadian industries, and as to the measures which are being taken throughout the world in the spirit of conciliation and justice in industrial life. Queen's looks forward to a great field of national service open before her as a repository of up-to-date information, and as a medium of instruction to students in labour-industrial relations. It is necessary that Queen's be constant in service in the problems of the day, no less than constant and unwavering in the teaching of the essentials which do not change from age to age. It will be well if this is the impression of your old university which you will carry with you as you go out, and hold as your picture of the old seat of learning throughout your lives.

Nothing more remains but to express to you my appreciation of the way that you have carried yourselves during the short year that I have known you here. Many of you have had to accept responsibilities in the directing of student affairs, and you have acquitted yourselves well. You have seen weaknesses when strength was needed; and you have gone about the administration of your problems in a way that has reflected credit on yourselves and the institution which you are now to leave. There are matters which you have perforce to leave to your successors; but they too will face them with wisdom, as you have done. Now you will face greater opportunities and heavier cares. May you continue to play the game of life with loyalty and with good heart, with zest and with high hope. Your Alma Mater wishes you well.

MUSIC ROOM FURNISHED BY MRS. ETHERINGTON

THROUGH the generosity of Mrs. Frederick Etherington, wife of the dean of the Medical faculty, the music room in the Douglas Library has been entirely refurnished and is now one of the most attractive spots in the University.

The walls and ceiling have been redecorated in an ivory and pale green colour scheme. An appropriate inlaid linoleum and a beautiful rug cover the floor. The lighting is both direct and indirect, from standard lamps and overhead fixtures. The furniture consists of settees and easy chairs of silvered oak and red leather, specially designed by Mr. André Biéler, resident artist. Shelving for the music books and records lines the lower part of the walls. A piano in keeping with the room is being added.

The recent gifts of the Carnegie Corporation are housed in the music room. These include an electric phonograph with a separate loud-speaker, a 22-tube radio-gramophone, fifteen hundred records, and two hundred volumes on music.

The room is to be primarily a place where the students may come for an hour or two and enjoy the best music. The lectures of Dr. F. L. Harrison, resident musician, will be given there; and if music is elevated to the status of a course, the Douglas Library will be the centre of instruction as well as entertainment.

The numerous art exhibits held in "Room 111, Douglas Library," prior to its becoming the music room, are now staged in the Senate room in the Old Arts Building.

RECORD NUMBER LAUREATED AT SPRING CONVOCATION

CHANCELLOR James A. Richardson conferred the record number of 331 degrees on graduating students in Arts, Theology and Science at Spring Convocation on May 7, which marked the close of the ninety-sixth session of the University.

In addition, five distinguished Canadians who have made notable contributions in the field of art, theology and education, received honorary degrees as follows: LL.D.—Mr. Walter Seymour Allward, sculptor and designer of the Canadian war memorial at Vimy Ridge, William Thomas MacClement, Arts '88, for thirty years professor of biology at Queen's, and Mr. Sidney Earle Smith, president of the University of Manitoba; D.D.—Rev. Gordon Alfred Sisco, Arts '25, general secretary of the United Church of Canada, and Rev. Bert Howard, principal of Albert College, Belleville, Ont.

Grant Hall was filled to capacity, as usual on such occasions, but so well had the preparations been made that there was no confusion and the entire ceremony was conducted smoothly. The

band of the Royal Canadian Horse Artillery supplied an excellent programme of music, as well as the accompaniment for the traditional hymn, "O God, Our Help in Ages Past." The proceedings were broadcast over the Queen's radio station, CFRC.

Principal Wallace's address, reported in full elsewhere in this issue, was a feature of the programme. President Smith spoke on behalf of the recipients of the honorary degrees.

The degrees by examination in Theology, Arts and Science were awarded as follows: B.D., 4; M.A., 17; B.A. (honours), 50; B.A. (pass), 137; M.Com., 1; B.Com., 19; M.Sc., 2; B.Sc. (honours), 16; B.Sc. (Pass), 85.

The candidates for honorary degrees were presented to the Chancellor by Principal Wallace. The sponsios to the graduating students were administered in the usual manner, and the candidates were presented by Rev. Dr. Watts, Dean Clark and Dean Matheson, according to faculty.

In expressing the appreciation of the recipients of the honorary degrees, President Smith said, in part:

"One need read but little history of the past eight or nine decades in Canada before observing that Queen's and Queen's men have contributed, out of proportion to its size and their numbers, a great deal to the development of this country.

"Graduates of other Canadian universities have marvelled at, and sometimes coveted, the *esprit de corps* and clannishness of Queen's men and their pride in their institution. This pride has been a source of strength to Queen's men, carrying with it an adherence to high ideals and the spirit of *noblesse oblige.*"

With reference to Principal Wallace the speaker said: "He combines in his personality the rich tradition of a liberal education with the zeal of a scientist. We congratulate Queen's on securing him as principal; under his leadership Queen's will grow in power and influence, and serve the whole Dominion in even a greater degree as a unifying force in this far-flung country. Knowing something of the genius of Queen's, we prophesy that her staff will never acknowledge that she has reached perfection. It will always be true of her that she 'Partly is and wholly hopes to be!'"

Medals, scholarships and prizes were presented to the winners who were members of the graduating class. The names of the winners in junior years were announced in the printed programme.

TESTAMURS ARE GRANTED TO FOUR GRADUATES

FOUR graduates of Queen's Theological College received testamurs at the closing exercises of the ninety-sixth session, held on April 15 in Convocation Hall. The Very Rev. Dean W. W. Craig, D.D., of Kingston, delivered the Convocation address, and the ceremonies were conducted by Rev. Dr. J. R. Watts, Arts '01, Theol. '04.

Testamurs were granted to Samuel Alexander Delve, B.A., Oshawa; Arthur Frederick Gardiner, B.S.A., Norwood; David Gilchrist Gault, B.A., Stella; Alexander James Grant, B.A., Williamstown.

In his address to the graduating class, Dean Craig said that his message was one of experience, which was never more valuable than in this age of transition. The older men in the ministry were trained in the peace, progress and stability of the Victorian age, so different from conditions of to-day.

The Dean touched on various problems confronting young men now entering the ministry and gave advice from the depths of his experience. In conclusion he said: "It is your duty so to live with God that your eyes are ever open to see His glory, faithfulness and love."

In the absence of Principal H. A. Kent, Dr. Watts traced the history of Queen's Theological College since its beginning in 1842 with an enrolment of eleven students. The speaker announced a special presentation of books to the graduates by Dr. Thomas Gibson, professor of pharmacology and therapeutics at Queen's.

Also assisting in the service was Rev. S. M. Gilmour and Dr. J. M. Shaw, of the Theological College. The University was represented by Dean John Matheson, Arts '01.

Included in the ceremonies were the awards of prizes and scholarships.

THE BOOK-PLATE

By E. Cockburn Kyte
University Librarian

THE printed or engraved mark of ownership known as "Ex-Libris" or Book-plate dates almost from the appearance of the printed book itself. It engaged the attention of many of the greatest artists; one of the earliest book-plates was designed by Albrecht Durer for his friend, Willibald Pirckheimer. This was a handsome rendering of the owner's coat-of-arms. Indeed, the book-plate from its birth has had an armorial branch; and armorial book-plates produced during the last few years will bear comparison with many of those engraved in the sixteenth century.

As time went on the plates assumed various characteristics. They began to express more the personal idiosyncrasies, amusements, or pursuits of their owners. They referred both to decoration and to architecture. In the seventeenth century the architectural book-plate is at its best. The eighteenth century gave us decoration; it also gave us the Chippendale book-plate and the frames and scrolls of neo-Classical taste; but not until the nineteenth century was well advanced did the interest in book-plates become almost as general as the interest in collecting books. The dispersal by auction of some famous collections in the mid-nineteenth century called public attention to the book-plates that were in the volumes. To be able to prove that a certain book had figured in such a collection, and had therefore been found worthy of possession by a famous book-lover, caught the fancy of many collectors not so famous. Great artists were called upon to design book-plates, and some lesser artists found that their market for these small reproductions on paper was better than that for their larger pictures on canvas. The names of Eves, G. W. Sherborn and W. P. Barrett are famous in England, while in the United States the best known name is that of E. D. French. To this artist Queen's naturally turned when in quest of a book-plate, and the illustration here given is of the result. It happens to be Mr. French's only plate of Canadian interest, and as such it is scarce and sought after by collectors.

The future of the book-plate is difficult to assess. It can never be more than a mark of ownership and can scarcely

ever attain, in single copies, a high financial value. The man who has many books desires to place his plate in each of them; he can scarcely, therefore, attach to each volume a signed etching by an artist of repute. The man with few books seldom obtains a book-plate, or if he does it is one of little value. Certain very wealthy men have personal book-plates that bear a double value, both that which accrues from the distinction of the artist and that which comes from the celebrity of the owner. Book-plates, however, like stamps, are collected and gathered in albums to be sold by second-hand dealers. Few come so seldom into the market as that of Queen's University.

One may note in closing that the book-plate is a mark of personal ownership that should never be attached to an ephemeral volume or one that is not to form part of a permanent collection. The mere book label, such as many book-owners use for their less important volumes, is sufficiently a reminder to the careless. For the determined book-thief no barriers appear sufficiently strong.

Book-plates may be produced by any process that the draughtsman can use; by etching, by line engraving, printing, photogravure, by means of wood-blocks or by lino-cuts. The result may have significance and beauty, may give a clue to the tastes of the owner and the nature of his library; or may bear about the same relation to art that a grunt does to language or that "Bill Smith X his mark" does to literature.

BOARD OF TRUSTEES HOLDS SPRING MEETING

THE semi-annual meeting of the Board of Trustees was held in the Douglas Library on the evening of May 7.

The chairman, J. M. Macdonnell, Arts '05, Toronto, was re-elected for another term. With deep regret the trustees accepted the resignation of William H. Curle, Arts '89, Montreal, whose ill health prevented his attendance at meetings. His place was filled by the appointment of R. M. Smith, Sc. '14, Toronto, Deputy Minister of Highways. Dr. J. G. Dwyer, Arts '02, Med. '05, LL.D. '27, New York City, D. I. McLeod, Arts '08, Toronto, and Fraser D. Reid, Sc. '04, Toronto, were re-elected for further terms. Rev. G. A. Brown, Arts '04, Theol. '07, D.D. '33, Kingston, and J. C. Macfarlane, Arts '11, were added to the executive committee.

Resignations were received from the following members of the University staff: Dr. H. S. Shurtleff, Arts '26, classics; H. J. Styles, Sc. '29, mathematics; Dr. H. W. Fairbairn, Sc. '29, geology and mineralogy. Leave of absence was granted to Dr. Heinrich Henel, German, for the second term of next session, and to Dr. Gregory Vlastos, philosophy, and Prof. W. E. C. Harrison, history, for the whole session.

The following members of staff received promotions: associate to full professorship—F. A. Knox, Arts '23, C. A. Curtis, Dr. G. H. Ettinger, Arts '16, Med. '20; assistant to associate professorship—Dr. L. A. Munro, Dr. John Stanley, and Dr. W. Ford Connell, Med. '29; lectureship to assistant professorship—Dr. Eldon M. Boyd, Arts '28, Med. '32, R. A. Low, Sc. '28.

The Treasurer's report showed an operating surplus of $1,052.50 for the year.

It was agreed to erect a small laboratory at the southeast corner of the central-heating plant for work in sanitary engineering, soil mechanics, and highway engineering. In order to provide additional space for draughting and classrooms, it was decided to put a floor in the Old Gymnasium at the level of the running track.

The main benefactions in the course of the year, apart from the funds pro-

vided by the late Dr. Agnes D. Craine, were as follows: from the Leonard estate, cash and securities, $90,000; bequest of the late Mrs. W. W. Near of $50,000, to be used for scholarships; contribution from Senator and Mrs. Hardy of about $15,000, bringing the amount of the Hardy foundation up to $55,000, the interest to be used toward the payment of the Hardy professor in politics; contribution of $9,000 by Mrs. Laura Neish Black and Miss Ada E. Neish, to found the William Neish fellowship in chemistry in memory of their father; bequest of the late Mrs. Bogart of $2,000, to found a fellowship in Greek in memory of her daughter, Flossie May Bogart; gift of $2,500 from Mrs. Goodwill, of Evanston, Ill., to found a prize or scholarship in memory of her husband; gift of E. A. Collins of $1,000, for research in bacteriology; gift of Isaac Cohen of $1,000, as part of his foundation for scholarships in electrical engineering and philosophy; gift of the Carnegie Corporation of a music set valued at $2,500; gifts of Mrs. Frederick Etherington, who is financing the work in the fine arts and who has borne the cost of redecorating and furnishing Room 111 of the Douglas Library as a music room.

MEMORIAL ERECTED TO LATE R. O. MERRIMAN

IN memory of the late R. Owen Merriman, Arts '22, and in recognition of his fame as an ornithologist, a beautiful statue has been erected by the Bird Protection Society of Hamilton, Ont., near that city.

Mr. Merriman was one of the founders as well as the first president of the organization now honouring him. It was largely owing to his efforts that a bird and game sanctuary was established in a marsh not far from Hamilton.

At the time of his death in 1935, Mr. Merriman was associated with the Economics department at Queen's. While at the University, he conducted valuable experiments in the banding of chimney-swifts. Utilizing the large chimneys at Nicol and Fleming halls, he captured many thousands of birds, banded them and then gave them their freedom.

The memorial at Hamilton is the work of a well-known Canadian sculptress, Mrs. Elizabeth Bradford Holbrook, of Toronto. The statue is of a kneeling girl with a dove perched on her hand and is five feet high by three feet wide. The memorial, worked in Roma limestone obtained near Orillia, Ont., is situated not far from the sanctuary that was one of Mr. Merriman's greatest achievements in the cause of bird life.

DR. EBENEZER HOOPER HAS NINETIETH BIRTHDAY

A FINE, old graduate, Dr. Ebenezer Hooper, Med. '85, recently observed his ninetieth birthday at Brockville, Ont., and celebrated the event by preaching in the Baptist Church of that city.

Dr. Hooper must come of sturdy stock, as he has one sister and six brothers---one almost ninety-two years of age—still living and taking an active part in life.

AT THE 1935 REUNION
Left to right: Dr. E. Hooper, Dr. T. A. Bertram, and Dr. A. W. Dwyre, all of Med. '85.

He was born on the third of January, 1847, in the corner house of Bermondsey Square, London, Eng. He received his education, under capable masters, at Bermondsey, Redhill, Lewes and Dormans Land.

While still young he went to work in his father's tanyard. In the 1860's he engaged in horticultural work near Angers in France, and in commercial work in England. Later he emigrated to Canada and began a strenuous career as a Baptist minister in several important charges. In 1881 he entered Queen's and

graduated with the degrees of M.D., C.M. four years later. He also obtained a medical degree in England.

Fifty years ago he served as a surgeon in the Northwest Rebellion. His life in Canada has been the odd mixture of farming, medicine and ministry — a singularly useful and full existence.

An editorial in a Canadian newspaper stated: "That wonderful man, Dr. Ebenezer Hooper, is about to celebrate his ninetieth birthday and, characteristically, he will spend part of it preaching the Gospel as he has preached it for more than the average lifetime. We make use of the adjective 'wonderful' in describing this fine citizen of Brockville because, in spite of his years, he exhibits no sign whatever of either mental or physical decay."

SOCIAL FUNCTIONS ROUND OUT CONVOCATION

IN recent years, various social functions held in conjunction with Spring Convocation have helped to make that day memorable for all concerned.

A new feature was introduced this year when the members of the Science faculty entertained the graduating students and their friends and relatives at a buffet luncheon in the Gymnasium prior to the Convocation ceremonies. More than two hundred and sixty people attended, and the affair was an unqualified sucess. The luncheon was arranged under the chairmanship of Prof. D. S. Ellis, professor of civil engineering.

The candidates for honorary degrees were guests at a Convocation Day luncheon at the residence of Principal and Mrs. Wallace, at which the officials of the University and the deans of the faculties were also present.

Immediately after Convocation, the Kingston alumnae provided tea in the Gymnasium for the graduates, their friends and families, and the University staff. The guests were received and welcomed by Principal and Mrs. Wallace. Congratulations and best wishes were extended to the new graduates, and the atmosphere was one of jollity.

The interesting day was brought to a close with the annual dance in Grant Hall under the auspices of the General Alumni Association, about three hundred guests being present. The music was provided by Herb Simmons, Arts '39, and his orchestra, and dainty refreshments were served in the basement supper-rooms at midnight. The patronesses were Mrs. R. C. Wallace, Mrs. W. E. McNeill, Mrs. A. L. Clark, Mrs. Frederick Etherington, Mrs. John Matheson and Mrs. W. A. Mackintosh.

CONFERENCE OF UNIVERSITIES TO BE HELD AT QUEEN'S

THE seventeenth National Conference of Canadian Universities is being held at Queen's on May 31 and June 1. Between sixty and seventy delegates are expected to attend.

The programme lists the following addresses: "Is the Arts Course Losing Ground?" Principal M. W. Wallace, of University College, Toronto; "The Effect of Summer Schools on the Standards of Faculties of Arts," Prof. J. F. Macdonald, of the University of Toronto, and Dean John Matheson, of Queen's; "Safeguarding Matriculation Standards," Principal R. C. Wallace, of Queen's; "The Necessity of Compulsory Latin for Arts Matriculation," Prof. G. R. Henderson, of Dalhousie University; "Can University Statistics be Improved?" Mr. J. E. Robbins, of the Dominion Bureau of Statistics; "The Differentiation and Distribution of Academic Work among Canadian Universities," President L. S. Klinck, of University of British Columbia, and Chancellor C. C. Jones, of University of New Brunswick; "The Workers' Educational Association," Mr. Drummond Wren, secretary of the Association; "Honours Courses—From the Universities' Standpoint," Dean S. Beatty, of University of Toronto, "—From the Schools' Standpoint," Prof. B. A. Flecther, of Dalhousie University.

Rooms and meals will be provided for the delegates at Ban Righ Hall. On the evening of May 31 the University will be host to the representatives at a dinner.

Queen's members of the excutive committee of the Conference include Dr. W. A. Mackintosh as secretary-treasurer, and Principal Wallace.

THE DIX PLAN FOR CLASS REUNIONS

Class ★	YEAR OF REUNION

By this plan each class returns 4 times in a cycle of 19 years, always with other classes of its generation at College. The 25th and 50th anniversaries are also observed. Follow your own class through its reunions. **This fall's Reunion, October 15-16.**

INTERNATIONAL CONFERENCE TO BE HELD AT QUEEN'S FROM JUNE 14 TO 18

SPONSORED by the Carnegie Endowment for International Peace, the second Conference on Canadian-American Affairs is being held at Queen's, June 14-18. One hundred and fifty leaders in the fields of history, political and economic science, and foreign affairs, from the United States and Canada, are expected to attend.

The meetings are not open to the public, but arrangements have been made to broadcast parts of the programme over Queen's radio station, CFRC.

The purpose of these conferences is to promote more intelligent appreciation of current affairs and long-range trends in relations between the two countries. The first was held during the summer of 1935 at The St. Lawrence University, Canton, N.Y., and was highly successful.

The Conference Council is headed by Owen D. Young, LL.D. '33, and includes the following: Queen's—Principal R. C. Wallace, J. M. Macdonnell, Arts '05, chairman of the Board of Trustees; The St. Lawrence University—President Laurens H. Seelye, Mr. M. H. Jencks, chairman of the Board of Trustees; Carnegie Endowment for International Peace—President Nicholas Murray Butler, James T. Shotwell, director of the division of economics and history; executive committee—Dr. R. G. Trotter (chairman), of Queen's, Prof. Albert B. Corey, of The St. Lawrence University, Mr. H. S. Haskell, of the Carnegie Endowment for International Peace, and Prof. W. W. McLaren, of Williams College.

His Excellency, Lord Tweedsmuir, Governor-General of Canada, will be a visitor during the Conference and will give an address. The complete programme is as follows:

June 14, 6 p.m.—dinner of welcome, chairman, Mr. Macdonnell; speakers, Principal Wallace and Dr. Young. *8 p.m.*—general session dealing with "Tariffs and Movements of Trade," chairman, Hon. Newton D. Baker; speakers, Prof. W. W. McLaren, of Williams College, W. H. Moore, M.P., of Oshawa.

June 15, 9.30 a.m.—general discussion, "Tariffs and Movements of Trade," chairman, Dr. W. A. Mackintosh, of Queen's; leaders of discussion, Prof. Frank Graham, of Princeton University, Prof. Hubert R. Kemp, of University of Toronto. *3.15 p.m.*—round-table discussion, "Financial Interrelationships: Trends in Balance of International Payments, Capital Movements, etc.," chairman, Prof. F. A. Knox, of Queen's. *8 p.m.*—general session, "Movements of Population," chairman, Prof. W. B. Hurd, of McMaster University; speakers, Prof. Marcus Hansen, of University of Illinois, Dr. R. H. Coats, Dominion Statistician; leaders of discussion, Dr. Edith Ware, editor of *The Study of International Relations in the United States,* Mr. M. C. MacLean, chief of the social analysis branch of the Dominion Bureau of Statistics.

June 16, 9.30 a.m.—general session, "Geographical Factors," chairman, President Isaiah Bowman, of Johns Hopkins University; speakers, Prof. Griffith Taylor, of University of Toronto, Mr. C. W. Thornwaite, of the U. S. Department of Agriculture; discussion led by Prof. J. L. McDougall, of Queen's. *2 p.m.*—visit to Fort Henry. *4.45 p.m.*—informal talk by Mr. André Biéler, resident artist at Queen's, on "National Aspects of Contemporary American and Canadian paintings," in connection with a loan exhibition of Canadian paintings. *8 p.m.*—general session, "Cultural Trends," chairman, President Seelye; address on "Imaginative Literature in the United States and Canada," by B. K. Sandwell, editor of *Saturday Night,* Toronto; discussion led by Dr. G. H. Clarke, of Queen's, Prof. Allan Nevins, of Columbia University.

June 17, 9.30 a.m.—general session, "Labour Organization," chairman, Mr. Thomas Moore, vice-chairman of the National Employment Commission and formerly president of the Trades and Labour Congress of Canada; speakers, Mr. E. Ingles, Canadian vice-chairman of the International Brotherhood of Electrical Workers, Mr. John G. Winant, former Governor of New Hampshire and recently head of the Social Security Board of Washington; leaders of discussion, Miss

Mary Van Kleeck, director of the department of industrial studies, Russell Sage Foundation, Prof. H. A. Logan, of University of Western Ontario. *1 p.m.*—luncheon meeting, toastmaster, Dr. Young; address by His Excellency, Lord Tweedsmuir. *4.30 p.m.*—films depicting agrarian problems. *8 p.m.*—general session, "Foreign Policy," chairman, Dr. James Brown Scott, Washington, D.C.; speakers, Prof. Lindsay Rogers, of Columbia University, J. W. Dafoe, LL.D. '29, editor of *The Winnipeg Free Press.*

June 18, 9.30 a.m.—session for general discussion, "Foreign Policy," chairman, Dean H. L. Hoskins, of Fletcher School of Law and Diplomacy; leaders, Prof. Norman MacKenzie, of University of Toronto, Dr. Shotwell. *12.30 p.m.*—closing luncheon, chairman, Chancellor James A. Richardson, Arts '06, LL.D. '29, of Queen's; speakers, Dr. Frederick Keppel, president of the Carnegie Corporation, Mr. Macdonnell, and Mr. Jencks.

DR. SINCLAIR APPOINTED CRAINE PROFESSOR

A GRADUATE of Queen's, class of Arts '24, Dr. R. G. Sinclair has been appointed Craine Professor of Biochemistry and head of this new department at the University. His duties are to commence on July 1.

Dr. Sinclair is also a graduate of the University of Rochester, where he obtained his Ph.D. degree. For the past several years he has been connected with the School of Medicine and Dentistry, University of Rochester. He has been engaged in research in the field of fat metabolism, particularly on the phospholipids, on which he has become an authority.

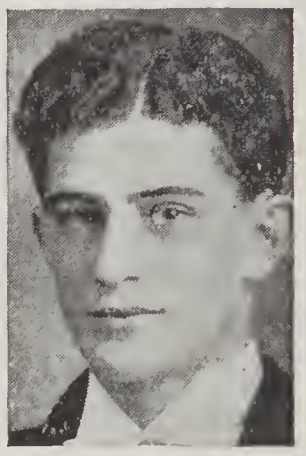

NATIONAL RESEARCH AWARDS WON BY RECENT GRADUATES

RECENT graduates of Queen's collected no fewer than six of this year's National Research Council scholarships, it was announced early in April. These scholarships are awarded annually to encourage postgraduate work in scientific research, chiefly in the graduate schools of Canadian universities.

Studentships valued at $600 each went to W. A. Alexander, Arts '35, of Shawville, Que., Morris Lieff, Arts '34, of Ottawa, and A. G. Ward, Arts '35, of Peterborough, Ont. Mr. Alexander and

W. A. ALEXANDER

MORRIS LIEFF

Mr. Lieff have been carrying on postgraduate studies in chemistry at McGill. Mr. Ward has been working with Dr. J. A. Gray at Queen's, in the field of

R. P. GRAHAM

R. H. HAY

Beta rays, and has obtained important results.

Bursaries worth $500 each were awarded to R. P. Graham, Arts '37, of Ottawa,

A. G. WARD

LEON KATZ

R. H. Hay, Sc. '36, of Stettler, Alta., and Leon Katz, Sc. '34, of Kingston. The case of Mr. Graham is particularly noteworthy as it is unusual for a final-year student to win one of these scholarships, but his record in chemistry merit-

ed such distinction. Mr. Hay has been engaged as a part-time demonstrator in the Physics department at Queen's during the past year. He has also been working towards his M.Sc. degree and has been doing research with Prof. J. K. Robertson on metallic vapours. Mr. Katz has been studying for his M.Sc. in physics with Dean Clark, conducting an investigation in the ratio of specific heats of gases by a new method, which promises important results.

H. H. Penley, a graduate of the University of Saskatchewan, who has been carrying on research in physics at Queen's, received a special scholarship worth $1000.

ENCOURAGING REPORTS HEARD BY COUNCIL

A RECORD attendance of fifty members was one of the highlights of the annual meeting of the University Council, which took place in the Douglas Library on the evening of May 6. Encouraging reports and stimulating discussions of policy featured the agenda. Principal Wallace occcupied the chair.

The new members of the Council—Dr. W. G. Cornett, Hamilton, Mr. N. B. MacRostie, Ottawa, Mr. J. E. S. Dunlop, Winnipeg, Dr. T. J. Goodfellow, Saratoga Springs, N.Y., and Mr. B. E. Norrish, Montreal—were welcomed.

Principal Wallace reported that the intramural registration for the past session was 1700. Including those who attended Summer School, 2424 young men and women had taken degree work within the University during the academic year. The gross total of intramural and extramural students was 4696.

The Principal stated that he was extremely pleased with the general attitude of the student body during the term just ended. He declared that the undergraduates had seldom failed when asked to shoulder responsibility.

The conference on industrial relations at Queen's last September had resulted in the provision by several of the large industrial organizations in Canada of a fund of $10,000 to $15,000 annually, for five years, in order that the University might inaugurate a scheme to promote a happier relationship between men and capital, said Dr. Wallace. It was suggested that a man who was a sound economist and who had a close association with industry be appointed to take charge of this project. Part of his time would be spent in lecturing on the subject, and part in keeping in close touch with industry. It was hoped that the plan would be set in motion in the near future.

In conclusion, the Principal stated that the aims of Queen's were to give vital, able teaching to students both inside and outside the classroom, and to maintain the University's position as an important centre of investigation and research.

Vice-Principal McNeill's report was equally encouraging, with the statement that the past year had been the most successful in the history of Queen's. Benefactions were unusually substantial, and the income of $780,000 set a new record.

The University needed, however, an additional endowment of $1,500,000 to $2,000,000 in order to carry on its work satisfactorily, said the Vice-Principal. To attract the better type of student, more high-value scholarships were necessary; and to provide for these alone, an endowment of more than a half-million dollars was required. A recent extension of the scholarship programme was the establishment of nine new Provincial scholarships, ranging in value from $675 to $921, including free tuition.

Considerable discussion took place concerning the restriction of admission to students with honour matriculation, the retention of Latin as a requirement for registration in Arts and Medicine, and other matters pertaining to the welfare of the University.

Principal Wallace received the hearty approval of the members when he stated firmly that freshmen initiation would no longer be tolerated. A resolution was passed, commending the Alma Mater Society on its recent action banning initiations.

Student discipline and behaviour also came up for discussion, and it was reported that the whole atmosphere of undergraduate life was steadily improving. The quality of leadership recently shown by the A. M. S. executive was commented upon most favourably.

Principal R. C. Wallace, Principal H. A. Kent, Vice-Principal McNeill, Mr. J. M. Farrell, Mr. Francis King, Dean A. L. Clark, Dean Frederick Etherington, Dean John Matheson and Mr. G. J. Smith were re-appointed as the executive committee of the Council for the ensuing year.

IMPORTANT SCHOLARSHIPS AWARDED TO STUDENTS

THE Prince of Wales prize, awarded to the student making the highest standing in the Arts faculty, was won by Jeanne S. Le Caine, '37, Port Arthur; and D. J. Dewar, '37, Ottawa, took the highest award in the Science faculty—the Governor-General's medal — it was announced at the Spring Convocation on May 7.

MISS LE CAINE

D. J. DEWAR

Miss Le Caine also won the $500 Arts research resident fellowship, and the departmental medal in mathematics. Mr. Dewar added to his laurels with a Reuben Wells Leonard fellowship worth $500, and the departmental medal in chemistry.

The Arts research travelling fellowship, $500, went to E. G. Berry, '36, Martintown, Ont.; and the $300 Arts research resident fellowship was awarded to Helena Riedel, '37, Kingston.

The Right Honorable R. B. Bennett scholarship, providing for a summer session at the Geneva School of International Studies, was won by Phyllis Nunn, '37, Hamilton, who was also awarded the medal in history and the Western Ontario graduates fellowship in history, $320. A special additional scholarship for the Geneva School summer session was won by Anne Sedgwick, '37, Ottawa.

The Reuben Wells Leonard resident research fellowships in Arts, each valued at $500, were awarded to Kenneth Carr, '37, Toronto, Isabel Hope, '37, Ottawa, and Barbara Craig, '37, Kingston. In addition, Miss Hope won the medal in biology, and Miss Craig the medal in French.

Other major awards in Arts were: medal in chemistry, R. P. Graham, '37, Ottawa; French Government medal, George Tottenham, 37, Kingston; Curtis Memorial Foundation prize, $56, A. C. Ironside, '37, Nanaimo, B.C.; W. W. Near scholarship in French, Esther A. Stevenson, '37, Russell, Ont.; McIlquham Foundation prize in English, $20, T. J. Allen, '36, Peterborough; Sir James Aikins fellowship in Canadian history, $400, Gladys Heintz, '37, Navan, Ont.; Leonard scholarship in chemistry, $150, J. A. Pearce, '37, Regina.

The Science faculty medals were awarded to graduates of this spring as follows: mining engineering, J. G. Rutherford, Kingston; chemical engineering, A. G. Scobie, Hamilton (also the E. T. Sterne prize, $25); metallurgical engineering, A. E. Hyde, Hamilton; civil engineering, J. A. Clazie (Arts '35, Sc. '37), Port Elgin; mechanical engineering, R. H. Swingler, Port Arthur (also the L. M. Arkley prize, $40); electrical engineering, W. M. Foster, Guelph.

Many other scholarships, prizes and awards in the junior classes in Arts and Science were also announced.

SUMMER SCHOOL STARTS TWENTY-EIGHTH SESSION

THE twenty-eighth session of the Summer School at Queen's will begin this year on July 6 and continue until August 16. Dr. W. T. MacClement, Arts '88, LL.D. '37, will again be in charge.

It is not possible now to predict with any certainty whether the enrolment will equal the 1936 record attendance of 967 students, but present indications point to a most successful session.

The historical research division of the School, which is held at the Public Archives in Ottawa, has already attracted the interest of the best group of students

in the history of the course. Scholars from widely scattered points in Canada and the United States have signified their intention of attending. This section will be under the direction of Dr. R. G. Trotter, James Douglas Professor of Canadian and Colonial History and head of the history department at Queen's.

The activities of the Ottawa division will include round-table discussions and personal consultations concerning the special problems connected with each student's individual research. Incidentally, this will be the fifteenth session of the research school.

The regular summer school classes in history at the University will again be under the direction of Professors Prince and Harrison, assisted by Prof. A. B. Corey, of The St. Lawrence University, Canton, N.Y., who is one of the organizers of the first and second Conferences on Canadian-American Affairs.

Honours and pass courses will be given as usual in the various other departments.

Prof. Mary L. Macdonnell, and Prof. W. M. Hugill, of the University of Manitoba, will be in charge of the work in classics. Dr. Heinrich Henel will act as professor of German. The French division will be under Dr. P. G. C. Campbell, Dr. M. Tirol, Dr. W. M. Conacher, and Mr. C. A. Chabot, of the Royal Military College. On the English staff there will be Prof. J. D. Robins, of Victoria College, Toronto, Dr. W. O. Raymond, of Bishop's University, Lennoxville, Que., and Prof. Milton Simpson, of Kalamazoo College, Mich.

The political and economic science division will be looked after by the euphonious combination of Dr. C. A. Curtis, Prof. J. A. Corry, and Mr. A. W. Currie. Other departments include: philosophy and psychology—Prof. H. R. MacCallum, of the University of Toronto, and Dr. T. Goudge, of Harvard and Toronto universities; mathematics—Dean G. H. Ling, of the University of Saskatchewan, and Professors K. P. Johnston and G. L. Edgett; physics—Dean A. L. Clark, and Professors W. C. Baker, E. Flammer and J. K. Robertson; chemistry—Dr. A. C. Neish, Dr. L. A. Munro, Dr. E. H. Charlesworth; biology—Dr. R. O. Earl, Dr. F. P. Ide, of the University of Toronto, and W. G. Dore, Arts '33, of the Central Experimental Farm, Ottawa; geology—N. D. Runnalls, Arts '33, of the Timmins, Ont., Technical School.

Art is offered again this year, this time under the instruction of the resident artist, André Biéler. Special courses in drama, play production and music are also available. The first two will be under the charge of Mr. William Milne, of Toronto; while Dr. F. L. Harrison, resident musician, will conduct the music classes.

SCIENCE '34 MEMBERS PLAN TO HOLD REGULAR MEETINGS

THROUGH the efforts of K. J. Southern, permanent president of Science '34, arrangements have been completed whereby members of this class living in Toronto or vicinity will hold frequent "get-togethers" in that city. It is believed that this is an innovation on the part of an individual year, and the experiment will be followed with interest.

K. J. SOUTHERN

The first of these gatherings was held during January, with twenty-one members present, some of them coming from as far away as London, Ont. It was then decided to establish the first Sunday in each month as a regular reunion day, when members who so desired would have evening dinner together, informally, at the Walker House.

Every three or four months more formal functions are to be held, for which invitations will be sent to the members of the year. The first of these special dinners took place on April 3, when twenty-five guests attended. Plans were made for the next large rally—a picnic in the Niagara district during the week-end of the Civic Holiday in August.

Members of Science '34 may secure full information regarding future affairs by communicating with Mr. Southern, 344 Palmerston Blvd., Toronto.

DR. MABEE AND DR. JAMES MARK 50th ANNIVERSARY

MEMBERS of the class of Med. '87, Dr. James E. Mabee., of Odessa, Ont., and Dr. Michael James, of Mattawa, Ont., recently celebrated their fiftieth anniversary in the medical profession. Each was honoured and fêted by friends and fellow practitioners in the community.

The Kingston and Frontenac Medical Society was host to Dr. Mabee at a dinner held in the Kingston General Hospital on April 13. A large number of the doctors of the city and district were in attendance as a tribute to the venerable Odessa physician. Dr. John S. Delahaye, Med. '27, presided.

Representing Queen's, Vice-Principal McNeill conveyed to Dr. Mabee the greetings of the University. The speaker heartily congratulated the guest of honour on having completed a half-century in the practice of his profession and expressed the hope that he would have many more happy years.

A telegram of felicitation was read from Dr. W. K. Colbeck, president of the Ontario Medical Association. Dr. W. A. Jones, professor of radiology and physical therapy at Queen's, as councillor of the Association, added his personal congratulations.

On behalf of the Kingston and Frontenac Medical Society, Dr. L. J. Austin, professor of surgery at Queen's, presented Dr. Mabee with a gold-headed cane. In reply, Dr. Mabee said that it had been one of the happiest nights of his life, and expressed his deep gratitude for the kind things said and the spirit shown toward him. Dr. H. E. Preston, Med. '16, of the Leeds and Grenville Medical Society, Dr. T. M. Galbraith, Arts '06, Med. '10, of the Lennox and Addington Medical Society, Dr. I. G. Bogart, Med '01, of Kingston, and Dr. W. T. Connell, Med. '94, professor of medicine at Queen's, also made brief congratulatory speeches.

Equally significant of the esteem in which Dr. James is held, was the banquet in his honour at Mattawa General Hospital on April 28, when the Grey Nuns of the Cross, assisted by the Hospital Auxiliary, entertained Dr. and Mrs. James, their personal friends and a number of representative citizens of the town. Dr. J. A. Bergeron acted as chairman.

DR. MABEE

DR. JAMES

After toasts to the King, the medical profession, the hospitals and the doctors, short speeches of congratulations and best wishes were heard from Rev. J. N. Duquette, parish priest, Mayor Arthur Valois, E. A. Lapierre, M.L.A., and Mr. D. A. Mooney.

Mr. Frank McElligott, principal of Mattawa High School, read an address which related the life story of the guest of honour. In book form, beautifully embossed and adorned with golden ribbons, it will remain with Dr. James as a lasting souvenir and treasure. Flowers were presented to Mrs. James.

During the evening, messages of good wishes were received from friends in Kingston, Pembroke, Toronto, Ottawa, Montreal and New York.

To the assembled guests Dr. James made a fitting reply in his own inimitable manner and recounted the highlights of his fifty years of practice.

The strains of "For He's a Jolly Good Fellow" brought the pleasant evening to a close.

PRINCIPAL'S REPORT

Graduates may obtain copies of the Principal's report for the 1936-37 session by writing to the Principal's Secretary, Douglas Library.

REUNION PLANS FORMULATED AT DIRECTORS' MEETING

THE 1937 Reunion will be held during the week-end of October 16, to coincide with Fall Convocation and the Western-at-Queen's football game, it was decided at the semi-annual meeting of the Board of Directors of the General Alumni Association held in the Douglas Library on May 7. The date of the Toronto-at-Queen's game, the customary Reunion fixture, was considered to be too late in the season, as it is the last event in this fall's Intercollegiate schedule and will not take place until November 13.

Further plans formulated for Reunion week-end call for a University reception on Friday evening, to be held in conjunction with the annual meeting of the Association, and for two dances on Saturday evening—one in Grant Hall, for the alumni and staff, and one in the Gymnasium, for the students. The latter arrangement was adopted to provide better accommodation for the many graduates who attend the reunions.

In summarizing the work of the Associations during the preceding six months, the Secretary-Treasurer stated that the membership had again shown a satisfactory increase, and that the branches now numbered thirty-two, an increase of three since last meeting. He said that the Employment Service had just completed its most successful year since 1929. More than four hundred placements of graduates and students had been affected—an increase of about one hundred and fifty over the previous period.

The work of the Alumni office in connection with endowment matters and University publicity was also mentioned, and the semi-annual financial statement presented. The latter showed that there had been an increase in the net cost of the *Review*, owing to the new cover paper and a decrease in the revenue from advertising.

Dr. T. H. Farrell, of Utica, N.Y., reported on behalf of the committee appointed to consider the proposed change in the name of the Association. After considerable discussion, Dr. Farrell's resolution that there be no change was adopted.

The Secretary-Treasurer stated that $12,501.11 had been raised up to April 30 towards the Association's $14,000 debt for the renovation of Grant Hall. A balance of $1498.89 therefore remained, and President MacRae urged the branch representatives to do their utmost to clear up this balance in the immediate future.

It was announced that the class of Arts '14 was contributing $135 to the Association for the purchase of a Chancellor's chair to match the Arts '18 Convocation table. The chair was now being made, in solid mahogany and dark red leather, and would be ready for use at Fall Convocation.

Prof. S. N. Graham was re-appointed as a member of the Board for the coming year; and Dr. E. L. Bruce, Prof. D. S. Ellis, and the Secretary-Treasurer were named as the Reunion committee, with power to add.

President A. E. MacRae, of Ottawa, occupied the chair, and in addition the following members of the Board or branch representatives were present:, Vice-Presidents, J. C. Macfarlane, Toronto, and Miss May L. Macdonnell, Kingston; Profs. E. L. Bruce, D. S. Ellis, S. N. Graham and W. P. Wilgar, all of Kingston; Drs. T. H. Farrell, J. E. McAskill, Watertown, N.Y., G. G. McNab, Guelph, J. H. Orr, Kingston, W. G. Cornett, Hamilton, A. E. Lavell, Toronto, and G. A. Publow, Thorold; Messrs. G. C. Bateman, Toronto, H. G. Bertram, Dundas, C. H. Drew, Brantford, A. J. Meiklejohn, Kingston, N. B. MacRostie, Ottawa, E. L. Longmore, Timmins, A. C. Hanley, Kingston, and S. M. Warrington, Montreal; and the Secretary-Treasurer.

BRIEF NOTES

THE Queen's Dramatic Guild presented Ramon Sender's *The Secret* at the Dominion Drama Festival finals in Ottawa on May 1, but the production was not placed among the winners, although it elicited considerable praise from the adjudicator. The student organization had already earned distinction, however, in having been accorded the Eastern Ontario Drama Festival honours for the second time.

Kingston's Coronation Day celebration was held in the George Richardson Memorial Stadium on May 12. All civic arrangements were made under the chairmanship of Dr. J. M. Shaw, of Queen's Theological College. One of the features of the programme was the ten-minute address delivered by Principal Wallace. During the evening, the buildings of the University were illuminated in honour of the occasion.

* * * *

The contract for the erection of the new Craine Building was awarded to the Frid Construction Company, Hamilton, and construction started on May 4. It is expected that the building will be completed by September 25.

* * * *

Through the co-operation of the Ontario Department of Health, the City of Kingston, the Kingston General Hospital and the Medical faculty of Queen's, a diagnostic chest clinic is to be opened at the General Hospital in the near future. The object of the clinic is both educational and curative.

* * * *

Kingston members of the Queen's Hospital Unit and the 21st Battalion held a get-together at the City armoury on the evening of May 7. These two units sailed on the *S.S. Metagama* from Montreal twenty-two years ago.

* * * *

An interesting visitor at the Spring Convocation ceremonies was Mrs. Agnes Kaufmann, of Cologne, Germany, who came to see her daughter, Miss Ursula Kaufmann, graduate. Miss Kaufmann was the German exchange student at Queen's this year.

* * * *

The annual meeting of the board of management of Queen's Theological College was held on the morning of May 7.

* * * *

The Student Christian Movement sponsored a spring camp for undergraduates near Kingston from April 24-29. The camp leaders included the following members of the staff: Principal Wallace, Dr. George Humphrey and Mr. H. M. Estall.

* * * *

The 1937 Year-Book made its appearance on the campus just before the end of the spring examinations. The book, under the editorship of A. Milton Jones, Arts '38, Toronto, maintained its usual high standard.

* * * *

A special edition of the *Queen's Journal* was published on the morning of Spring Convocation. It contained the names of the graduates and last-minute University news told in a breezy, entertaining manner.

* * * *

Dr. Lawson P. Chambers, Arts '04, whose fine tribute to Dr. John Watson appeared in the April number, has informed the *Review* that he inadvertently gave "Hedonism and Christianity" as the title of one of Dr. Watson's books, whereas there are two volumes on these subjects—*Hedonistic Theories* and *Christianity and Idealism*.

AT THE BRANCHES

Hamilton

COVERS were laid for 114 guests at the banquet and dance of the Hamilton branch held in the Scottish Rite club on April 12, when a most enjoyable evening was spent. The president, Dr. C. H. Playfair, Med. '24, acted as toastmaster.

Replying to the toast to Queen's, proposed by Dr. W. G. Cornett, Arts '18, Med. '21, Professor Norman Macdonald, Arts '13, of McMaster University, spoke of a "drifting away from primary purposes of education" in universities. The training should be an interpretation rather than an accumulation of facts—teaching the student to think—he said.

A toast to other universities was replied to by D. W. Bates, a graduate of the University of Toronto.

Introduced by Allan Donnell, Arts '09, W. M. MacLean told a fascinat-

ing story of Eskimo life in the far North. The speaker described an interesting three months' journey made in 1935 on a Royal Mail ship to Ellsmuir Island, the most northerly post office in the world. Pictures revealed the hazards faced by the ice-breaker in its annual voyage to the North and illustrated the modes of living among the Arctic natives.

Professor Macdonald delivered an entertaining address, in which he offered humorous and convincing evidence that schoolboy "howlers" are not restricted to the grade-school classrooms, but are often found in university examination papers. Several examples were quoted, Dr. Playfair remarking that the answers sounded all right to him.

* * * *

The branch is considering a picnic and a Queen's night at Brant Inn on the evening of June 25. Tentative plans include inviting graduates in Toronto, St. Catharines, Kitchener and Brantford.

Toronto

AT a recent meeting of the Toronto alumnae, Miss Florence Leggett, Arts '26, was elected president for next year, succeeding Miss Kathleen Elliott, Arts '26.

Other officers were appointed as follows: honorary president, Mrs. T. MacMillan, Norval, Ont.; first vice-president, Mrs. A. L. Scace (Jean Simmons), Com. '26; second vice-president, Mrs. Douglas G. Geiger (Goldie Bartels), Arts '22; third vice-president, Miss Marie L. Stock, Arts '26; recording secretary, Miss Constance F. Grant, Arts '34; corresponding secretary, Miss Kathleen M. Jarvis, Arts '34; treasurer, Mrs. W. H. Slinn (Myrtle B. Fraser), Arts '18; social committee—Mrs. R. C. Hawkins (Jessie Isobel de Renzy), Arts '30, Miss Ruth Miller, Arts '31, Miss Anna L. Kerfoot, Arts '31; membership committee—Miss Mabel G. Knight, Arts '29, Miss Barbara A. Gowans, Arts '35, Mrs. A. E. Harkness (E. Rolston), Arts '14; programme committee——Mrs. John Davidson (Helen Anglin), Arts '26, Mrs. J. A. Bell (Doris A. Heron), Arts '27, Miss Hazel A. Argue, Arts '25.

Arrangements were made by the executive to hold a luncheon meeting in the Round Room of Eaton's College Street in May. The speaker was to be the distinguished young psychiatrist, Dr. Ruth McLaughlin Franks, M.A., M.D., Ph.D., and the topic, "How To Get Along With People."

North Bay

APPROXIMATELY one hundred graduates and guests attended the banquet held by the North Bay branch on April 13, at which Principal Wallace was guest-speaker. Walter Little, Arts '28, president, acted as chairman.

WALTER LITTLE

After the toast to the King, Mr. Little gave a brief résumé of the Principal's life. W. J. Neale, Arts '27, proposed the toast to the other universities represented and to the non-Queen's guests. Miss Grace Morgan responded for the universities and Mr. T. J. Patton spoke on behalf of the business men of the city.

Rev. M. N. Omond, Arts '09, proposed the toast to Queen's which, he stated, fostered a feeling of comradeship among its students and graduates, possibly more so than any other college in Canada.

Something a great deal more than the practical side of education was necessary, said the Principal. Quality of education and personality were vital factors, if one were to achieve wider contacts in life and a richness of living.

To attain this objective three things were necessary—accuracy and depth of knowledge in some field or other, mental and moral courage to stand by what was believed to be right, and character. Of these, character was the most vital, and the manner in which to-day's generation might gain this was, bluntly, through hero worship. A youth should take some truly great man as the model for his life, the Principal stated, in conclusion.

Several splendid musical selections were enjoyed during the evening, and the programme came to a close with the singing of *O Canada.*

While in North Bay, Dr. Wallace was the guest of Mr. Omond and Mrs. Omond (Olga Harvey), Arts '12. Prior to the meeting, the Principal, accompanied by Mr. Omond and Mr. Little, visited the Dafoe Hospital near Callander and saw the Dionne quintuplets. An hour was also spent with Dr. Dafoe, who kindly showed the visitors many of his private pictures of the famous youngsters.

Porcupine

A DINNER in honour of Principal Wallace was held in the Empire Hotel, Timmins, on April 14, with one hundred and sixteen graduates and guests attending. A. E. Pugsley, Sc. '33, president of the Porcupine branch, acted as chairman.

One of the features of the meeting was the large number of alumni of recent years who were present.

In his address, which was broadcast from the Timmins radio station, Principal Wallace heartily endorsed the Queen's policy of keeping the enrolment of the University within such limits as would allow the professors and students really to know each other. He said that educational institutions were only as great as their teaching staff, and Queen's could be proud of the men who were serving her in this capacity.

The importance of the staff's influence for good among the students was stressed by Dr. Wallace, who cited Prof. G. J. MacKay and the interest he takes in the students with whom he comes in contact. Such procedure would not be possible in a large institution.

The dinner was followed by the annual dance which brought a most enjoyable evening to a close. The proceeds from the dance are to be turned over to the Grant Hall Fund.

E. L. Longmore, Sc. '12, and Mrs. Longmore, were hosts to Principal Wallace during the latter's stay in Timmins.

Kirkland Lake

SIXTY graduates of the Kirkland Lake district, ranging from the classes of '04 to those of '36, entertained Principal Wallace at a dinner-meeting held on April 15. The occasion provided the first opportunity for the alumni of that area to meet the new Queen's "Prexy," and proved mutually enjoyable.

"Through the long history of Queen's, there have always been men of character on the staff, and the institution is small enough for the students to know intimately at least one member who will remain an everlasting inspiration in their lives," said the Principal, in his address.

Dr. Wallace denounced any tendency of universities to become merely vocational schools. Something of the cultural and spiritual, besides the practical, values of life had to be imparted to young men and women if they were to provide leadership in the communities where they would later reside.

Art, music, drama, poetry and philosophy should be integral parts of a university course, he contended. These had always existed at Queen's, to be found sometimes within and sometimes without the classroom.

Dr. Wallace also spoke before the Kiwanis Club of Kirkland Lake, and many Queen's people attended this meeting. In addition, he addressed the high-school children.

While in Kirkland Lake, the Principal visited the mining properties of that district.

* * * *

The annual meeting of the Kirkland Lake branch was held on February 17, when the following officers were elected for the ensuing year: president, Eric Holt, Sc. '23; first vice-president, Miss Florena Cramp, Arts '35; second vice-president, Dr. J. J. O'Reilly, Arts '16, Med. '24; secretary-treasurer, H. A. Hosking, Sc. '33.

Preliminary plans were made for the annual dance, to be held in September.

Rouyn-Noranda

PRINCIPAL WALLACE was given an enthusiastic reception at the meeting of the Rouyn-Noranda branch held in the Noranda Hotel, Noranda, Que., on April 16. About thirty-five alumni, wives and friends were present.

In the absence of K. W. Fritzsche, branch president, A. V. Corlett, Sc. '22, acted as chairman. The tables were tastefully decorated with flowers and candles in Queen's colours.

Mr. H. L. Roscoe, manager of Noranda Mines, replied briefly to the welcome accorded the guests, remarking on the exceptional loyalty of Queen's graduates to their Alma Mater. Mr. Oliver Hall, president of the newly formed branch of the Graduates' Society of McGill University, responded to a toast to sister universities, proposed by Dr. J. E. A. Lindsay, Med. '28.

Principal Wallace replied to the toast to Queen's, and his inspiring address left a deep impression on his audience. A. D. Carmichael, Sc. '14, expressed the appreciation of the gathering for the Principal's remarks.

Mrs. Lois Carlson entertained at the piano with a medley of Scottish airs which was greatly enjoyed. Most of those attending the banquet remained to play bridge, and college songs and yells enlivened the lull between activities. The ladies' bridge prize was won by Mrs. V. Oille (Dorothy Hearne), Arts '33, and the gentleman's prize by Mr. Corlett.

The arrangements for the banquet were ably made by Mrs. A. D. Carmichael, assisted by Mrs. Oille. Mrs. K. W. Fritzsche was in charge of the bridge.

While in Noranda, Dr. Wallace was the guest of Dr. G. G. Suffel, Sc. '25, and Mrs. Suffel at their home on Tremoy Road. After spending the morning of April 17 visiting the plant of Noranda Mines, he was the guest-of-honour at a small luncheon given by Mr. and Mrs. Carmichael.

Montreal

A LARGE number of graduates were present for the meeting of the Montreal branch which was held on April 14. Mr. Claude Richardson, young Montreal lawyer, spoke on "The British North America Act." An authority on the subject, Mr. Richardson gave an enjoyable and inspiring address.

The speaker traced the history of the B.N.A. Act, the lives of the men in public office at the time of its enactment, the circumstances that forced the issue, and the views of the different provinces that entered into the union. The Act was briefly described to be an allotment of the powers of administration to the Federal and Provincial governments.

Although Canada had developed in every way each year since Confederation and the equipment of industry and the science of education had improved, the B.N.A. Act had remained the same, said Mr. Richardson. The Act could not be criticized for omissions, for it covered every question of government administration. On the other hand, it could not be used as a final court of appeal with any wisdom because of changed conditions in the Dominion.

A Royal Commission is to investigate the Act, and the task will entail one year of detailed study, said the speaker. Three problems confronting Canada to-day—unemployment, transportation and taxation—will also be considered by this Commission.

Mr. Richardson closed by asking for the support of university graduates to help other citizens lead a fuller life in which education and leisure would play more important parts than is now the case.

The speaker was introduced by J. A. Edmison, Arts '26, and thanked by T. M. Dick, Arts '20.

Lanark County

OUTLINING his conception of the fundamentals of true education, Principal Wallace delivered an inspiring address at the annual banquet of the Lanark County branch, held in Smith's Falls on April 8. More than one hundred graduates and friends were present.

The meeting was a typical Queen's gathering, with the guests joining lustily in the singing of traditional Tricolour songs and with speakers paying eloquent and sincere tribute to their Alma Mater. Dr. Margaret O'Hara, Med. '91. LL.D. '32, Smith's Falls, presided.

All Canadian universities were doing their own work in their own way, each possessing and stressing some different quality, said Dr. Wallace. He expressed the hope that this state of affairs would continue.

A university's task was to develop young men and women so that the new generation might be able to accomplish what their forebears had been unable to do, he said. The teacher must have a deep rather than a superficial knowledge of the subject he was teaching. The edu-

cator must also be prepared to take an honest stand on any issue, caring not whether it be the popular side. Methods by which students were taught to look at problems from the standpoint of the instructor were denounced as propaganda.

Principal Wallace was introduced to the guests by Dr. O'Hara and, at the conclusion of his address, was extended the appreciation of the meeting by Miss Doreen Montgomery, Arts '28, Smith's Falls.

The toast to Queen's was proposed by Rev. D. N. Morden, Theol. '07, D.D. '34, Perth, and responded to by Rev. J. MacB. Miller, Arts '22, Theol. '25, formerly of New Amsterdam, British Guiana. A. D. Lamont, Arts '15, Carleton Place, proposed the toast to "Our Sister Universities," to which Mrs. H. G. Robertson replied.

During the evening, vocal solos were rendered by Miss Flora Newsome. A surprise feature came near the close of the programme when Miss Mary McCallum, Arts '16, Smith's Falls, presented Dr. O'Hara with a beautiful bouquet as a mark of affection and esteem on the occasion of her approaching birthday.

D. D. Findlay, Sc. '22, Carleton Place, was elected president of the branch for the ensuing year. Other officers named were as follows: honorary presidents, Dr. O'Hara, Dr. W. A. Dwyre, Med. '85, Perth, and Dr. N. B. Topping, Arts '85, Perth; vice-presidents, G. R. McLennan, Arts '31, Almonte, Rev. A. D. Cornett, Arts '07, Theol. '11, Smith's Falls; secretary-treasurer, Miss Hilda Cram, Arts '34, Carleton Place; executive committee —Miss Mary McCallum, Arts '16, Smith's Falls, Miss Eva Bouchard, Arts '24, Smith's Falls, Dr. J. A. Kidd, Med. '35, Perth, Miss Denise de Hertel, Arts '34, Perth, Mr. Lamont, W. J. Saunders, Arts '00, Almonte, and Rev. I. N. Beckstead, Arts '99, Watson's Corners.

Kingston

THE regular monthly meeting of the Kingston alumnae was held in Ban Righ Hall on April 6 with a large number of members present. After routine business had been transacted, a delightful little play was presented under the direction of Mrs. James Miller.

The following are the officers who were elected for the ensuing year at a previous meeting: president, Mrs. A. W. DesBrisay (Vera A. Skinner), Arts '25; past president, Miss Jean I. Royce, Arts '30; first vice-President, Mrs. Norman Miller (Grace H. Jeffrey), Arts '14; second vice-president, Mrs. J. E. MacKay (Eleanor Minnes), Arts '14; secretary, Mrs. Ian MacLachlan (Sybil M. Spencer), Arts '26; treasurer, Miss Dorothea Druce, Arts '25; councillors, Mrs. Dorothy Bews McVeigh, Arts '32, Miss Melva Eagleson, Arts 25, Miss M. Elsie Davidson, Arts '23, Miss Irene F. Gordon, Arts '29.

Renfrew County

UNDER the chairmanship of D. W. Stewart, Arts '84, dean of Queen's alumni in the Ottawa Valley, one hundred graduates and friends gathered at a dinner-meeting in Renfrew on April 29 to organize the Renfrew County branch of the General Alumni Association and to meet and welcome Principal and Mrs. Wallace.

Dr. G. B. Burwell, Arts '13, Med. '15, Renfrew, was elected president of this latest addition to the Association's family. The other officers chosen for the ensuing year were: vice-president, Dr. J. H. Box, Med. '15, Renfrew; secretary-treasurer, S. M. Chown, Arts '22, Renfrew; executive committee—Miss Lillian R. Potter, Arts '23, Pembroke, Miss E. Ruth Campbell, Arts '20, Arnprior, Miss Marie Adelaide Higginson, Arts '13, Renfrew, and F. R. Roche, Arts '23, Renfrew.

Dr. Wallace, who was introduced by the chairman, stated that the smallness of the student body at Queen's kept everyone in closer contact with one another than was possible in large institutions, and therein lay the secret of the renowned "Queen's Spirit." He also declared that humans were apt to rely too much on past greatness, and that the responsibility of the University to-day was not only to live up to its established traditions but to create worthy new ones.

He spoke of the steps being taken to develop in Kingston a public health centre for Eastern Ontario, by linking public health in a clinical way with the Fac-

ulty of Medicine at Queen's. Efforts were also being made to establish a bureau of information at the University with reference to labour, the industrial pension system and conciliation boards. In this way Queen's would be able to render valuable service to Canada as a whole. While universities must have the fundamental purpose of learning constantly before them, they could not exist unless they were fully conversant with the throb of business life.

Referring to the munificence of the late Dr. Agnes D. Craine, which made possible the new biochemistry building, now being erected, Dr. Wallace paid tribute to the women students, who had contributed so much to the progress of Queen's.

At the close of his address, the thanks of the meeting were extended to the Principal by E. J. Stewart, Arts '96, Renfrew, and by Dr. S. H. Murphy on behalf or other universities.

While in Renfrew, Dr. and Mrs. Wallace were entertained by Mr. and Mrs. D. W. Stewart.

Ottawa

THE annual meeting of the Ottawa branch was held at the Ottawa Ladies' College on April 16, with one hundred and twenty-five people present. Vice-Principal and Mrs. W. E. McNeill were the guests of honour. The president, N. B. MacRostie, Sc. '11, Arts '14, acted as chairman.

The programme opened with the singing of a few old Queen's songs, led by Dr. C. F. Williams, Med. '12. The activities of the past year were reviewed in the report given by the secretary-treasurer, C. D. Wight, Sc. '28.

On behalf of the Grant Hall Fund committee, J. M. Wardle, Sc. '12, briefly outlined the work undertaken by the branch, and reported that $1465 had been contributed by two hundred members in the Ottawa district.

The report of the nominating committee was presented by W. I. Garvock, Arts '13, and approved. The officers for the coming year are as follows: honorary president, C. Jackson Booth, Arts '86; immediate past president, N. B. MacRostie; president, Dr. R. B. MacKay, Sc. '08; first vice-president, J. M. Wardle; second vice-president, Mrs. W. C. Clark (Margaret H. Smith), Arts '14; third vice-president, A. K. Light, Sc. '17; secretary-treasurer, C. D. Wight; committee—Miss Helen E. Wilson, Arts '24. Miss Eva M. Doak, Arts '27, Miss Anna Miller, Mrs. W. I. Garvock (Ethel R. Guthrie), Arts '15, Dr. C. W. Kelley, Med. '28, A. H. Brown, Arts '96, Rev. F. S. Milliken, Arts '15, Theol. '17, R. S. Whittle, Arts '30, V. E. Bullock, Arts '22, D. K. MacTavish, Arts '20, and Dr. J. H. Hamlin, Med. '35.

Dr. MacKay extended a sincere welcome to Dr. and Mrs. McNeill, emphasizing the great contribution that Dr. McNeill had made to Queen's as professor, treasurer, vice-principal and acting principal, as well as an outstanding scholar.

Speaking on "Rising to the Occasion," Vice-Principal McNeill delivered a thoughtful and masterly address that held his listeners spell-bound. He drew on his rich knowledge of literature and history for apt examples, such as Pericles' famous funeral oration, Lincoln's Gettysburg address, Kipling's "Recessional," and Haig's army order, "Backs to the Wall."

Certain memorials were also cited as cases of "rising to the occasion"—the cenotaph in London, the Edinburgh memorial and Canada's own Vimy Ridge memorial in France. It was most fitting that the designer of the last, Mr. W. S. Allward, was to be honoured by Queen's at the Spring Convocation on May 7. It was also appropriate that the honour was being conferred in Grant Hall, itself a memorial to Queen's greatest principal.

Dr. McNeill was thanked for his splendid address by Dr. W. C. Clark, Arts '10, LL.D. '35.

Refreshments were served in the basement dining-hall; and the guests were received at the entrance by Dr. and Mrs. McNeill, Dr. and Mrs. MacKay, Dr. and Mrs. W. C. Clark, and Miss I. J. Gallaher, principal of the Ottawa Ladies' College.

Dancing brought to a close a most enjoyable evening.

ALUMNI NEWS

Births

Arkinstall—At Moreton-in-Marsh, Gloucester, England, to Dr. W. C. Arkinstall, Arts '28, Med. '30, and Mrs. Arkinstall, a son.

Gemmell—At St. Joseph's Hospital, Sudbury, Ont., on April 9, to J. A. Gemmell, Sc. '28, and Mrs. Gemmell, of Port Hope, Ont., a son (Douglas Arthur).

Little—At the Civic Hospital, North Bay, Ont., on October 9, 1936, to Walter Little, Arts '28, and Mrs. Little (Marjorie McDonald), Arts '28, a son (Robert Ainslie).

MacArthur—At the Private Patients' Pavilion, Toronto General Hospital, on January 5, to C. P. MacArthur, Arts '14, Theol. '21, and Mrs. MacArthur (Viola Gibson), Arts '22, of Streetsville, Ont., a son (Peter Howard Douglas).

MacKinnon—At the Ottawa Civic Hospital, on April 28, to Keith A. MacKinnon, Sc. '26, and Mrs. MacKinnon, a daughter.

Stone—At the Private Patients' Pavilion, Toronto Western Hospital, on April 21, to W. D. Stone, Com. '28, and Mrs. Stone, a son (Gregory Lally).

Taylor—On April 20, at the Private Patients' Pavilion, Toronto General Hospital, to R. F. Bruce Taylor, Com. '24, and Mrs. Taylor, a son.

Thomas—At London, Ont., on May 13, to Dr. Hartley M. Thomas, Arts '15, and Mrs. Thomas (Ruth MacClement), Arts '25, a daughter (Alison Guthrie).

Ward—At Arnprior, Ont., on April 13, to A. C. Ward, Sc. '23, and Mrs. Ward, a son (Arthur Allan).

Marriages

Abell—On May 1, at Rochester, N.Y., Doris Hunting Abell, Arts '36, to Albert C. Diedrich.

Boland—At Kirkland Lake, Ont., on January 9, Mabel Lewis, of Mount Forest, Ont., to George Grant Boland, Sc. '36. They will live in Sudbury, Ont.

Fleming-Paulsen—On May 1, at Trinity Lutheran Church, Hamilton, Ont., Helen Margaret Marie Paulsen, Arts '35, to Marston Greig Fleming, Sc. '36, son of Mr. A. G. Fleming, Arts '04, Sc. '07, and Mrs. Fleming, Montreal. Dorothy Naphtali, Arts '35, was bridesmaid, and J. D. Mateer, Sc. '36, was best man. Ian Jennings, Sc. '37, was an usher. Mr. and Mrs. Fleming will reside in Timmins, Ont.

Horwood — In St. George's Cathedral, Kingston, on April 22, Dorothy Margaret Horwood, Arts '34, to Harold Polson Davis. The bride was given in marriage by her step-father, Dr. E. L. Bruce, Sc. '09, Arts '11, Miller professor of research geology at Queen's. Among the ushers were Dr. H. C. Horwood, Sc. '31, brother of the bride, and J. W. Davis, Com. '33, of Toronto.

Muir—On May 15, in Melrose United Church, Hamilton, Janet Fraser Smith, to William Douglas Muir, Com. '33. They will reside at 1122 Laird Blvd., Town of Mount Royal, Montreal, Que.

Orange-Brennan—At St. Vincent de Paul Church, Deseronto, Ont., on May 12, Margaret Ursula Brennan, Arts '30, to Dr. Robert Orange, Med. '32. F. A. Orange, Sc. '27, was best man. Dr. and Mrs. Orange will reside in Sudbury, where Dr. Orange is in private practice.

Ross—In the Morgan Memorial Chapel, Queen's University, on April 10, Edna M. Hawke, of Orillia, Ont., to John Henry Ross, Sc. '35. The best man was David Rattray, Sc. '35. Mr. and Mrs. Ross expect to leave shortly for Buenos Aires, where Mr. Ross has been transferred by the National Carbon Company.

Deaths

Burns—A member of the Dominion championship football team of 1921-22, Robert Phillips (Flip) Burns, Sc. '23, died in Montreal in January after an illness of eight months. Mr. Burns was born at Smith's Falls, Ont., and received his preliminary education at Brockville. He graduated from Queen's in 1923 with a B.Sc. degree in mechanical engineering. For several years he was assistant chief engineer of the Ross Engineering Company of Montreal and latterly he had been in the bond business. The funeral service was held at the D. A. Collins Chapel, Montreal, and interment was made at Pakenham, Ont. He is survived by his wife.

Leach—At his home in Toronto, Dr. G. C. Leach, prominent physician, died on April 1 at the age of sixty-eight years. Born at Fenella, Ont., the late Dr. Leach attended Cobourg High School and the University of Toronto, where he graduated in Arts. He later entered the Faculty of Medicine at Queen's and obtained his M.D., C.M. degrees in 1904. After graduation he practised for a time in Peterborough, and then went to Hamilton, where he remained for twenty-two years. In 1935 he moved to Toronto. Several years ago he gave up his general practice and specialized in manipulative surgery, particularly in the treatment of arthritis and similar troubles by the methods made famous by Dr. M. W. Locke, Med. '05, of Williamsburg, Ont. He is survived by his wife, one son and two daughters.

Phelan—Sixth on the seniority list of Queen's graduates, Dr. Daniel Phelan, Med.

'77, died at the Hotel Dieu Hospital, Kingston, on May 2, after an illness of several months. Dr. Phelan was born in 1854 at North Gower, in the Ottawa district, and attended St. Joseph's College, Ottawa, before entering Queen's in 1875. As an undergraduate, he was an outstanding athlete and won many honours in track-and-field events. After receiving his M.D., C.M., he carried on postgraduate work in England, France and Germany. He then returned to Kingston to start a medical practice, which he maintained until his retirement a few years prior to his death. The late Dr. Phe-

lan was surgeon of the Kingston Penitentiary for twenty years and served a term as president of the American Prison Medical Association. He was widely known in psychiatric circles and spoke before several international conventions on his personal observations and studies of criminals. He was attending physician at the Hotel Dieu Hospital and House of Providence at Kingston, and medical officer for the separate schools for many years. He also served as a member of the city council and trustee of the separate-school board. He is survived by one daughter.

Nimmo—Editor of the "Detroit Saturday Night" and a leader in newspaper circles for more than thirty years, Harry M. Nimmo, Arts '98, LL.D. '19, died on April 30 in the Charles Godwin Jennings Hospital, Detroit, Mich., of an infection following a severe cold. Dr. Nimmo was born in Bath, Ont., in 1877, the son of the late Rev. and Mrs. J. H. Nimmo. He received his preliminary education at Brockville Collegiate Institute, entering Queen's in 1894. In his senior year he won the prize for Greek composition, and managed both the football and hockey teams in addition to doing editorial work on the "Journal." After graduating with honours in classics, he worked on Kingston newspapers and then served three years as purser on the Toronto-Montreal run of what now is the Canada Steamship Lines. He joined the old Detroit "Tribune" in 1901 as exchange editor, and within two years became telegraph editor and city editor. In 1907 Dr. Nimmo and the late Mr. W. R. Orr organized the "Detroit Saturday Night." After Mr. Orr's death in 1914, Dr. Nimmo added the business management of the publication to his duties as editor. A year later he split the organization into two companies, the Detroit Saturday Night Co., which published the paper, and the Saturday Night Press, Inc., operating a general printing and publishing business. Among the honours that came to him was an honorary membership in the Wayne County Medical Society for his attacks on medical quacks. In 1919, Queen's made him the recipient of an LL.D. in recognition of his eminent work in journalism. For years he was an active member of The Players, where his ability at burlesque made him a popular figure. In 1926 he was president of the Detroit Athletic Club. He is survived by two sons and one daughter. His wife (Kate Beaton, Arts '97) predeceased him two years ago.

H. M. NIMMO

Notes

1880-1889

Miss E. Lillian Mowat, Arts '86, of Kingston, was elected honorary vice-president of the Ontario Provincial Women's Missionary Society of the Presbyterian Church at the closing session of its twenty-third annual meeting held in London, Ont., on April 22.

Dr. D. G. Russell, Med. '85, has been practising for many years at Seattle, Wash. His address is 923—14th Ave. N.

1890-1899

Rev. Dr. W. P. Fletcher, Arts '96, minister of the United Church at Odessa, Ont., was elected chairman of the Belleville presbytery of the United Church at a regular meeting of that body held in Thomasburg, Ont., recently.

Rev. K. J. Macdonald, Arts '94, Theol. '96, is now retired and living on Collingwood Street, Kingston.

Dr. Margaret McKellar, Med. '90, LL.D. '29, who is now living in Toronto after having served for many years as a medical missionary in India, recently published a sixteen-page booklet entitled "Amelia J. Harris: The Story of Her Life." The pamphlet was written as a contribution to the diamond jubilee celebration of the Canadian Mission in Central India, 1877-1937. It deals with the life and the valuable, but all-too-brief, work in India of Miss Harris, who died in 1892 at the age of twenty-seven years.

Miss Hattie McPherson, Arts '97, is now living at Prescott, Ont.

1900-1909

Col. J. L. H. Bogart, Sc. '03, has been appointed commanding officer of Military District No. 13, Calgary, Alta. Colonel Bogart was formerly stationed at Petawawa, Ont., and was at one time director of engineering services for the Department of National Defence.

Mrs. D. R. Cameron (Edna Spottiswood), Arts '07, lives at 135 Celina St., Oshawa, Ont. Her son, **W. D. Cameron,** Sc. '36, is with the International Nickel Company, Creighton Mine, Ont., and a daughter, Margaret, is an undergraduate at Queen's.

Rev. A. D. Cornett, Arts '07, Theol. '11, of Smith's Falls, Ont., has been elected chairman of the Renfrew presbytery of the United Church of Canada for the ensuing year.

G. A. Jenkins, Sc. '09, is now research engineer with Warren Brothers Company, 38 Memorial Drive, Cambridge, Mass. He was stationed for a number of years at Portland, Oregon, with this company. Mrs. Jenkins was **Hattie Davidson,** Arts '10.

D. G. Kilburn, Sc. '07, has been appointed chief engineer of the Board of Railway Commissioners, Ottawa.

Rev. G. B. McLennan, Arts '01, Theol. '16, minister of First United Church, Ottawa, has accepted a call to become min-

ister of Manor Road United Church, Toronto, next fall.

1910-1919

H. C. Bates, Sc. '17, is with Dufferin Paving and Crushed Stone Ltd., Toronto.

Dr. J. A. Blezard, Med. '14, who practised for many years in Edmonton, Alta., recently moved to London, Ont., to open a practice there. His address is 156 Langarth St.

H. T. Eaton, Sc. '13, has been transferred from the London to the Brockville district as engineer for municipal roads under the Ontario Department of Highways. He will make his headquarters in Ottawa.

R. A. Elliott, Sc. '12, of Deloro, Ont., was elected a life member of the Ontario Baseball Amateur Association at the nineteenth annual meeting of the Association held in Oshawa early in April.

Dr. J. G. Ettinger, Arts '13, LL.D. '35, recently retired from the teaching profession. He had been principal of Victoria School, Kingston, for many years.

Miss Grace Gillespie, Arts '13, has been senior assistant in the Wayne County Library Service, Detroit, Mich., since December, 1932.

Dr. W. D. Harding, Sc. '12, has been appointed to the permanent staff of the Ontario Department of Mines.

Miss Winnifred Hay, Arts '19, and **J. Lewis Hay,** Arts '23, of Campbellford, Ont., were bereaved on April 21 by the death of their mother.

Dr. P. H. Huyck, Med. '11, of Kingston, has been elected a district governor of the International Rotary Club.

W. H. Losee, Sc. '12, of Ottawa, was bereaved by the death of his mother on April 9.

Miss Mary L. Macdonnell, Arts '09, assistant professor of classics at Queen's, was elected president of the Kingston Business and Professional Women's Club at its annual meeting in April.

Dr. W. W. McKay, Med. '17, of Ottawa, has been promoted to the rank of lieutenant-colonel and placed in command of No. 5 Casualty Clearing Station, Royal Canadian Army Medical Corps.

Rev. H. A. McLeod, Arts '18, has been minister of Robertson United Church, Edmonton, Alta., for several years.

L. A. Marlin, Arts '10, formerly school inspector in the Welland district, is now retired and living at Welland, Ont.

Angus Mowat, Arts '16, public librarian at Saskatoon, Sask., for the past five years, has been appointed inspector of public libraries for Ontario. His headquarters will be in Toronto.

J. P. Page, Arts '13, has been principal of the commercial high school at Edmonton, Alta., for the past sixteen years. He is the author of "'Practical Office Training" and

"What are you fussing about now?"
"Well, I can't remember where I packed my Sweet Caps!"

SWEET CAPORAL CIGARETTES

"The purest form in which tobacco can be smoked."—Lancet

of several articles which have appeared in Canadian magazines. He is also coach of the famous Edmonton Grads basketball team.

T. J. Reid, Sc. '11, has been fruit farming for several years near Milton, Ont. His daughter, Mary, as the outstanding student in Milton, was chosen to attend the Coronation.

William Shales, Arts '12, Paed. '18, and **Walter Shales**, Arts '13, both of London, Ont., and **Dr. John Shales**, Arts '14, (Ph.D. Cornell), of Muncie, Indiana, were bereaved on April 13 by the death of their father, Mr. William Shales, at Perth Road, Ont.

S. R. Turner, Sc. '16, is manager of the North American Pulp and Paper Corporation Cheboygan, Mich.

Dr. C. F. Williams, Med. '12, practises at 324 Someret St., Ottawa.

C. G. Yorke, Arts '13, of Glencoe, Ont., was recently bereaved by the death of his mother, Mrs. E. M. Yorke, of Kingston.

1920-1929

Dr. N. E. Berry, Med. '26, was elected president of the Kingston and Frontenac Medical Society at its annual meeting held on April 13.

E. H. Bronson, Sc. '24, who has been on the metallurgy staff at the University for the past two sessions, is at present with the Denver Equipment Company, 45 Richmond St. W., Toronto.

Rev. W. D. Craig, Arts '29, who has been minister of the United Church at Roblin, Ont., for several years, has received a call to the United Church at Shannonville, Ont.

Dr. Florence Dunlop, Arts '24, of Ottawa, Ont., is president of the Ottawa Women's Choir.

J. A. Edmison, Arts '27, of the legal firm Creelman and Edmison, Montreal, was recently appointed chief legal counsel to the Society for the Protection of Women and Children in Montreal, and also chairman of the committee on the penal system of Canada of the Montreal Council of Social Agencies.

Dr. C. W. Ferrill, Med. '20, is practising in Carleton Place, Ont.

P. E. Gilbank, Arts '28, is on the staff of the Westdale Vocational School, Hamilton, Ont.

J. C. Honsberger, Sc. '28, latterly field engineer for the Hennessy Exploration Company, Haileybury, Ont., is now associated with Technical Mine Consultants, Ltd., Toronto.

Dr. Robert Laird, Arts '23, who received his M.D. from Toronto in 1928, and later did postgraduate work in London, has been practising in Toronto for the past two years. His office is at 170 St. George St.

H. W. Loveless, Arts '29, has been teaching for some time in the H. B. Beal Technical and Commercial High School, London, Ont. His address is 555 William St.

Dr. Percy Lowe, Ph.D. '25, of the Royal Military College staff, Kingston, was recently elected president of the Kingston Tennis Club.

D. A. McMaster, Arts '21, has been teaching in the Regina Collegiate Institute for the past twelve years. He received his B.Paed. from the University of Toronto last year.

D. C. Macpherson, Sc. '24, formerly with Messrs. Crane Limited, Montreal, is now factory superintendent for the Canadian Marconi Company in that city.

W. F. Mainguy, Sc. '28, is now power-sales engineer with the commercial and distribution department of the Shawinigan Water and Power Company, Montreal.

J. M. Milne, Sc. '29, for several years with the Canada and Dominion Sugar Company, Montreal, recently joined the staff of the Donnacona Paper Company, Donnacona, Que.

Dr. C. E. Moore, Med. '27, is doing general surgery at Harrisburg, Pa. He was recently appointed staff surgeon at the Harrisburg Polyclinic Hospital.

C. E. Ployart, Arts '26, is assistant inspector of high schools for the Province of Quebec. His residence address is 384 Chemin St. Foy, Quebec City.

W. T. Pound, Sc. '29, who has been with the Ontario Paper Company, Thorold, Ont., for several years, is now at Comeau Bay, Que., on the engineering staff of this company.

Dr. John Ralph, Arts '24, (Ph.D. Chicago), has been promoted from assistant to associate professor of classics at the University of Western Ontario, London, Ont.

J. N. Reid, Sc. '30, is teaching at the collegiate institute and vocational school in Belleville, Ont.

Dr. A. F. Rowsom, Med. '26, has been practising at Locust Valley, Long Island, N.Y., for several years.

S. F. Ryan, Arts '27, formerly connected with the Cockfield, Brown Advertising Agency, Toronto, is now general manager of Radio Station CKLW, Windsor, Ont.

J. L. Shearer, Sc. '28, has joined the staff of the Ontario Department of Highways, Ottawa district.

H. J. Vallentyne, Arts '20, principal and superintendent of the Ontario School for the Blind, Brantford, Ont., was bereaved on April 14 by the death of his wife.

Dr. R. G. Yoerger, Med. '22, practises in Humboldt, Sask. He did postgraduate work in Chicago and received his F.A.C.S. there in 1933. In 1934 and 1935 he studied at Edinburgh and Vienna.

Major J. E. Zeron, Arts '20, of Windsor, Ont., was recently made company commander of the newly formed Essex Regiment (tank), the first of its kind in Canada.

1930-1937

G. C. Arthey, Sc. '34, is now in the sales division of the Nichols Chemical Company,

Montreal. He has been with this company at Sulphide, Ont., and at New York City since graduation..

J. C. D. Blaine, Com. '34, who has been director of the business administration and commerce courses at Albert College, Belleville, Ont., since 1935, has been awarded a teaching fellowship in economics and commerce at the University of North Carolina, Chapel Hill, N.C., for the session of 1937-38. He has been granted a year's leave of absence by Albert College.

M. H. Borland, Sc. '31, recently in the mill of the Kirkland Lake Gold Mines, Kirkland Lake, Ont., has been appointed mill manager at the Gem Gold Mines, Van Anda, Texada Island, B.C.

Miss Barbara E. Brown, Arts '34, has been awarded the Henry Drisler fellowship in Greek at Columbia University for 1937-38.

Dr. Howard W. Carter, Med. '33, has been appointed medical officer of health and city physician for Sarnia, Ont.

J. B. Clement, Sc. '36, since graduation with the Royal Canadian Corps of Signals, at Camp Borden, Ont., recently joined the western engineering staff of the Canadian Pacific Railway Company. His headquarters will be in Winnipeg.

J. D. Elliott, Sc. '31, has been appointed superintendent of the Gem Gold Mines, Van Anda, Texada Island, B.C. He was at the Hollinger from graduation until recently.

GIVE BOOKS for HOLIDAY READING

Canadian travel books, Irish wit and wisdom, a novel.

SNOBS AND SPIRES
By Austin F. Cross

An ideal holiday gift—a collection of travel sketches of North America. Even better than *Cross Roads*, Austin Cross' first book, which came out in July, 1936, and went into a second edition in three months. **$2.00.**

CANADA CAVALCADE
By Robert H. Davis

The author knows Canada intimately from the Maritime Provinces to Vancouver, and his lively book has hunting and fishing and travel stories of all parts of the Dominion. Ideal for holiday reading. Illustrated. **$3.00.**

AS I WAS GOING DOWN SACKVILLE STREET
By Senator Oliver St. J. Gogarty

The story of Dublin during the last thirty years—brilliantly told. "A piece of reminiscence which is at once an original and daring portrait of a man, a city and a nation."—*New York Times Book Review.* **$5.00.**

THE EAST WIND OF LOVE
By Compton Mackenzie

Compton Mackenzie's new novel has been selected by *The Daily Mail, Evening Standard* and the *Monthly Book Circle* as their book-of-the-month. **$2.50.**

THE RYERSON PRESS, 299 Queen St., W., Toronto

Dr. D. O. Ferris, Med. '31, who practised in Niagara Falls, Ont., for the past four years, has been nominated to and has accepted a fellowship in surgery in the Mayo clinic at Rochester, Minn.

T. M. Gaetz, Sc. '30, is now assistant superintendent at the International Nickel Company, Frood Mine, Ont.

Miss Marjorie Grant, Arts '36, attended the library school at the University of Toronto during the past year.

A. D. Wilmot, Sc. '36, is now in charge of the assay office at the Box property of the Consolidated Mining and Smelting Company, Lake Athabaska, Sask.

General

André Biéler, resident artist, received the distinction of having two of his paintings chosen to be sent to the exhibition of Canadian painting at the Coronation and at the Paris 1937 Exposition Internationale. The National Art Gallery selected only some ten or twelve pictures altogether.

Dr. F. L. Harrison, resident musician, won the Schumann Trophy for obtaining the highest marks in the whole section for original composition in the Quebec musical competition festival held in Montreal recently. The trophy, a handsome brass plaque, will be hung in the music room of the University.

Mrs. W. E. C. Harrison, wife of Professor Harrison, had two paintings exhibited recently, one at the Toronto spring exhibition of the Ontario Society of Artists, and the other at the spring exhibition of the Artists' Association of Ottawa. One of the pictures was a portrait of Alfie Pierce, and the other a portrait of Peter King, Sc. '30, of the University staff.

The QUEEN'S REVIEW

Vol. 11 KINGSTON, ONT., AUGUST, 1937 No. 6

HOW RUGBY BEGAN AT QUEEN'S

By W. I. Garvock, Arts '12

WITH the opening of the football season just a few weeks away, it is interesting to note that the first Queen's rugby team was formed in 1882, through the desire of a group of enthusiastic freshmen, headed by C. Jackson Booth. to make the institution bet'er known throughout the Dominion.

At that time association football was the chief sport at the University. When R. A. Gordon, J. Fred. Booth, and his brother, C. Jackson Booth, who had all played rugby at Ottawa Collegiate, arrived at Queen's in 1882, they talked about rugby in boarding-house and classroom, and wherever groups of freshmen were wont to gather to discuss, freshmen fashion, the weighty problems of the day. A rugby team would be a fine advertisement for the University, they maintained. Rugby was then played in Ottawa, which had two strong teams, and in Montreal, Toronto, Hamilton, London and other cities. It was also played at the Royal Military College.

The total attendance at Queen's in 1882 was about 275, with 165 in Arts, 88 in Medicine, 20 in Theology, and 2 in Law. The teaching staff numbered 30. The University buildings included the present residence of the Principal and the adjacent houses, which were used partially for classrooms, the Old Medical Building, and the Old Arts Building, which had been erected a year or two before.

The undergraduate body, although small in numbers, was feeling and responding to the influence of George Munro Grant, who had become Principal in 1877. Principal Grant was impressing on his students the importance of a national outlook and of the development of a broad sympathy among themselves. A rugby team would help to reach these objectives, said the rugby enthusiasts. It would have a unifying influence among the undergraduates. It would compete with teams from the larger cities, and thus effectively further the interests of the University. In this manner, the first Tricolour team came into being.

A few of the ardent soccer players joined the rugby squad and soon became adept at the game. The team which first represented the University was as follows: fullback, C. J. Booth; halves, R. M. Hamilton, J. F. Booth, R. A. Gordon; quarter, William Coy; scrimmage, Joseph Foxton, Thomas Marquis, R. M. Dennistoun; forwards, A. D. Cartwright, Fred Strange, Ramsay Duff, Æneas Macdonnell, Herbert Rathbun, Fred Young, A. Montgomery. In 1883, the team, which was little changed from the team of the previous year, was as follows: fullback, C. J. Booth; halves, R. M. Hamilton, J. F. Booth, R. A. Gordon; quarter, William Coy; scrimmage, R. M. Dennistoun, John Kennedy, Joseph Foxton; forwards, Æneas Macdonnell, John Renton, W. A. Logie, R. Burdett, W. Bain, A. D. Cartwright, Ramsay Duff.

From the University records and from other sources, some facts have been gleaned about several, but unfortunately not all, of these old players.

A. D. Cartwright, son of the late Sir Richard Cartwright, the doughty opponent of Sir John A. Macdonald, was for many years secretary of the Board of

Railway Commissioners. Recently superannuated, he resides in Ottawa. He was wiry, and hard to tackle. Fred Strange was a fast runner and ball-carrier. He went to Portland, Oregon, after playing with Queen's. He was not an undergraduate, but in the early days of rugby a certain number of city players were allowed on the team.

Joseph Foxton was a tower of strength as a scrimmage man. It is believed he is now dead. T. G. Marquis was a well-known journalist. For a time he was editor of the *Ottawa Free Press* and later was a notable contributor to *Toronto Saturday Night* and other periodicals. He was a powerful plunger and a terror to his opponents. He died a year or more ago.

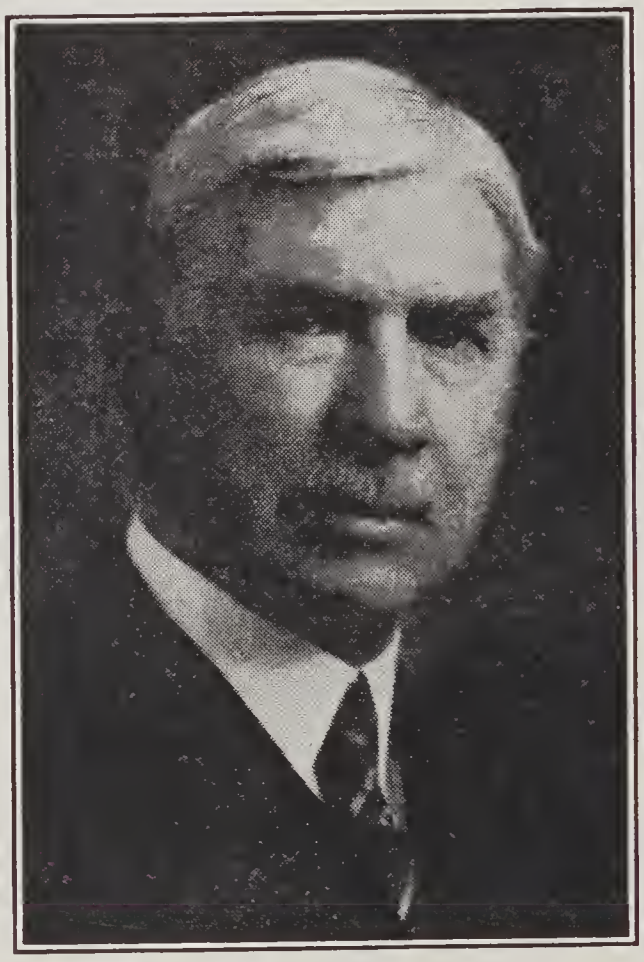

Æneas Macdonnell was a fast forward, always on the ball. His whereabouts are not known. R. M. Dennistoun, who with Marquis and Foxton made up a strong scrimmage, is now a distinguished member of the Manitoba Court of Appeal. William Coy practised medicine for many years in Vancouver and passed on in 1936.

J. Fred Booth, who was associated with his brother in J. R. Booth, Limited, until his death in 1930, shared the kicking honours on the first team. He was also a hockey player of note and introduced this sport to Queen's when he cut an india-rubber lacrosse ball into an octagonal-shaped disc, from which was evolved the modern puck.

R. A. Gordon, a good kicker and runner, learned the game in Ottawa. He was elected captain because of his natural qualifications as a leader, and he could uphold his end in any argument or dispute. He died in New York. Ramsay Duff eventually became a colonel in the permanent force of Canada, and was stationed at Kingston until his death in Egypt during the Great War.

Herbert Rathbun, who is also dead, came from Deseronto, where his family was well known in the lumbering business. Fred Young, a county judge in Prince Rupert, B.C., died last May. R. M. Hamilton, an excellent kicker, now resides in Peterboro.

C. Jackson Booth, who in his time had few equals as a punter and drop-kicker, has not lost his early enthusiasm for

C. JACKSON BOOTH

rugby since the first game was played at Queen's fifty-five years ago. He rarely misses seeing the team play every year. A benefactor of the University and a member of its Board of Trustees, he is keenly interested in the welfare of Queen's, and his counsel is valued highly by his associates on the Board.

"The first team to represent Queen's was light but husky, and could have held its own with many a squad that later wore the Tricolour," C. Jackson Booth told the writer. "The next year it was heavier and averaged about one hundred and seventy pounds. The forwards were strong and hard tacklers. The backfield

was fast, and could kick as well as catch and run. Hamilton, Kennedy and Dennistoun stood over six feet. Logie was also tall. Coy, the quarterback, was the smallest man."

"The players must have been of pretty sturdy stuff to stand the gaff," we remarked, as we noticed their light outfit in a photograph of the first team, which Mr. Booth presented to the University. The uniform consisted of a blue sweater —every student had a blue sweater, apparently, as an essential part of his wardrobe fifty-five years ago — and white knickers that buckled below the knee.

There is a marked contrast between this light equipment and modern rugby togs of leather armour, shoulder, hip and knee pads, stout leather helmet, nose protector, sturdy reinforced moleskin pants, closely knit sweater, elastic knee and ankle supports, and heavy, strong, cleated boots.

The rugby players of 1882 were almost as lightly and jauntily arrayed as the participants in a married- versus single-men's softball game at an annual Sunday School picnic. Some of the players wore canvas shoes, but most of them simply nailed three pieces of narrow leather, about an eighth of an inch thick, across their ordinary walking boots.

The distinctive red, yellow and blue colours, whose very appearance on a gridiron or in a gymnasium gives Queen's graduates and undergraduates a thrill, were not adopted until about two years later. Nor did the team have the encouragement that comes from hearing that inspiring cry,

Queen's! Queen's! Queen's!
Oil thigh na Banrighinn gu-brath,
Cha gheil! cha gheil! cha gheil!

THE FIRST TRICOLOUR FOOTBALL TEAM, 1882

Left to right, top row: A. D. Cartwright, Fred Strange, Ramsay Duff, J. F. Booth, Joseph Foxton, Thomas Marquis, C. J. Booth, Æneas Macdonnell.
Middle row: R. M. Dennistoun, R. A. Gordon, Herbert Rathbun.
Bottom row: Fred Young, A. Montgomery, R. M. Hamilton, William Coy.

It was not until 1892 that Don Cameron composed the stirring, Gaelic yell now so intimately associated with Queen's.

"The team was made up of fifteen men, and the playing time for a game was two three-quarter-hour periods," Mr. Booth explained. "No time was taken off when the ball went into touch. There were no huddles or conferences to consider the next play—a play that in modern football most likely has been worked out by the coach, reviewed in a chalk-talk on a blackboard, and then tried out in practice. Strategy was evolved as the game went on. There was no coach or trainer. Alfie Pearce, who was mascot, trainer and rubber for many years, did not come on the scene until later, in Guy Curtis' day.

"If a player was disabled and it was impossible for him to keep on playing—and there was plenty of give and take in those days—the captain of the opposing team would decide whether a fresh player would be allowed to take the place of the injured one. Sometimes, in the first period of a game, a new man would be allowed to come in, but it depended on the skill of the substitute and that of the player who was *hors de combat*. In the second period, fresh men would seldom be allowed to enter the game. Thus a team might be forced to play a man short.

"There was much more kicking then than now. One misses the long kicks that were an important part of the game in our time. Forward passing has replaced kicking to a great extent. The forward pass has opened up the game which, owing to the influence of American football with its frequent scrimmages, had lost a lot of interest for both player and spectators. There is an element of surprise in the forward pass, and when completed, it gives the spectators a great thrill—but it does not take the place of kicking."

"How did the players run and tackle in your time?" we asked.

"The first team soon learned to tackle low, although we did not have the advantage of any tackling dummy," Mr. Booth replied.

"When the ball was kicked into touch there was a tussle for it. It gave a team an advantage to get the ball when it went into touch. Both sides lined up at right angles to the touch-line, and a player from the team that got possesion of the ball when it went into touch would throw it in, if possible, to one of his own side."

"That would give some of those six footers who, like Saul, stood head and shoulders above their fellows, an advantage in grabbing it," we suggested.

"Yes, and it was an advantage to have a tall player like Kennedy or Hamilton throw the ball in, too," Mr. Booth answered.

"The main object of the game was to kick a goal," he said. "Kicking comes natural to some players. It does not depend on length of leg, but more on a free-and-easy swing and correct timing."

Like "Pep" Leadlay, of Queen's Dominion championship team of 1922-23-24, Mr. Booth spent hours every week of the football season practising kicking. Part of his system was to kick a ball against a brick wall. This developed a sure pair of hands in catching the rebound.

"It was more important to kick a field-goal or to score a goal by a place-kick than to secure a touchdown. The team that kicked the most goals won. Goals were scored by place- or drop-kicks. After a touchdown, the ball would be brought out immediately in front of the spot where the touchdown was made, and a

place-kick attempted. If that kick was successful, it counted more than if the opposing team scored two touchdowns but did not kick a goal. The rule that allowed a player to catch the ball and 'make his mark,' so that he couldn't be tackled, developed kicking. Kicks to the dead-line were not allowed, but rouges and safety-touches counted.

"Queen's played two games with Brockville in 1882 and won both. The next year we challenged the Royal Military College. Our players and supporters looked forward to this game with keen interest. The Cadets had an advantage over our players, none of whom had the pre-season physical training of their opponents.

"R. M. C. opened the game with a rush, and soon Carey and von Illford, the Cadet star halfbacks, were kicking for long gains. Then von Illford kicked a field-goal. Later Renton kicked a field-goal for our team, to even the score. We scored a touchdown which was not converted, but the margin of the touchdown gave us the game. We played on the Kingston cricket grounds in a drenching rain but, in spite of the downpour, Principal Grant, who was an ardent supporter of the team from its beginning, remained throughout."

Queen's tactics to stave off defeat showed the advantage of having tall players and hard heads. Near the end of the game, von Illford kicked the ball to Jackson Booth, who returned it into touch. A Queen's forward, who recovered it, instead of throwing it among the players who were lined up, handed it to a husky teammate, who promptly put his head down and butted an R. M. C. player, going into touch again. These tactics were repeated as the team advanced down the field without losing possession of the ball. R. M. C. was not quite prepared

THE QUEEN'S FOOTBALL TEAM, 1883

Left to right, top row: W. G. Bain, A. D. Cartwright, Ramsay Duff, R. Burdett, William Coy, W. A. Logie John Renton, Æneas Macdonnell.
Middle row: J. F. Booth, R. M. Hamilton, R. A. Gordon, R. M. Dennistoun, John Kennedy.
Bottom row: Joseph Foxton, C. J. Booth.

for these ramlike butts of the Queen's players, and their chief-of-staff, a bit nonplussed at this display of "head" work, was unable to rally his players for a counter-attack before darkness and the referee's whistle ended the game.

Queen's played two games with the Ottawa City team the next year. The game in Ottawa took place on the Rideau Hall field, which forms a part of the grounds surrounding the residence of the Governor-General. Ottawa, with its more seasoned players, won both games.

Rugby soon became the major sport at Queen's, and it has enjoyed this status ever since. The games in Kingston, Montreal, Toronto, Ottawa, Hamilton and elsewhere, in which the Tricolour takes part, bring together thousands of students and alumni, to form part of that peculiar bond known as the Queen's Spirit. In establishing rugby at Queen's, Jackson Booth succeeded far beyond his own expectations and those of the other enthusiastic freshmen who assisted him, back in 1882.

UNIVERSITY RADIO STATION HAS FIRST ANNIVERSARY

THE first birthday of Queen's radio station, CFRC, as a daily broadcasting unit occurred on June 29.

Up until 1936 CFRC had been operated only intermittently. The University then decided to increase the scope and influence of the station by making it available for commercial purposes and by joining with the Canadian Broadcasting Corporation. An arrangement was reached with the *Kingston Whig-Standard* whereby the latter would handle the commercial activities of the station and the University would look after the technical side.

One of the main reasons for the extension of the facilities of CFRC was that radio programmes from the metropolitan stations were not always clearly heard in this district, while it had been proved that the University unit was clear and reliable. Also important was the factor that the cultural influence of Queen's could be widened by means of more frequent broadcasts.

With the station now entered upon its second year, the two sponsors may rightly feel that their efforts have been well justified. Kingston and its environs have been provided with much clearer reception of national and international programmes as well as with many excellent local features, including a splendid series of lectures by the members of the University staff.

CFRC looks forward to many improvements, both in equipment and programmes, during the current year, and it is expected that its usefulness will continue to increase.

QUEEN'S SUMMER SCHOOL HAS LARGE ENROLMENT

WITH a total enrolment of 953 students taking the various courses offered by the Summer School, this year's registration almost equals the all-time high of 967, established in 1936.

There are 510 students registered in the regular Arts classes, including eight in the historical research section, which is being conducted at the Public Archives, Ottawa, under the direction of Dr. R. G. Trotter, head of the history department; 305 enrolled in the education course, given by the Department of Education; 73 taking upper-school work; and 65 in the physical training division.

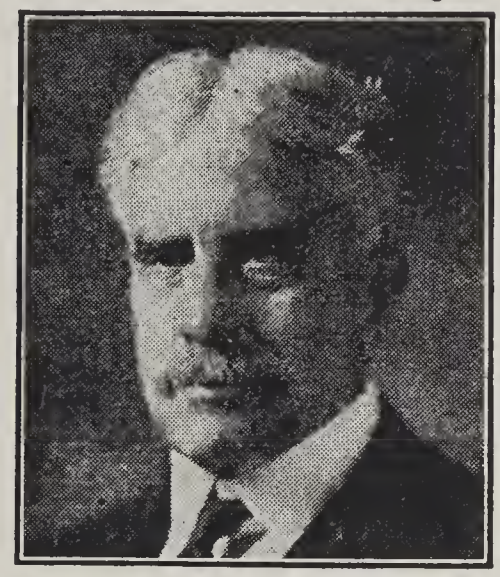

Special features of this year's curriculum include a course in drama and play production, and one in music. These do not carry degree credits, but are designed to stimulate and satisfy the cultural interest of teachers and others.

Tennis tourneys, baseball, boat trips, dances, a track meet, golf tournament, aquatic meet and other diversions have been arranged by the students.

FORMER QUEEN'S CHANCELLOR DIED DURING SUMMER

DISTINGUISHED statesman and former chancellor of Queen's, Sir Robert Laird Borden, LL.D. '03, died in Ottawa on June 10. He would have been eighty-three years old June 26.

Sir Robert was born in Grand Pré, N.S., in the historic locality immortalized by Longfellow. He was educated at Acadia Villa Academy in Horton, N.S., and started out in life to be a teacher, moving to New Jersey, where he became a professor in the Glenwood Institute. After a year or two he returned to Nova Scotia to study law and eventually entered politics.

SIR ROBERT BORDEN

Originally a Liberal, he differed from the party platform in 1891. He slowly drifted into the Conservative camp and finally, in 1896, at the age of forty-two, he was elected Conservative member for Halifax. Belonging to a small minority group, he soon made his presence felt in Parliament and was marked for higher things. At a caucus in Ottawa in 1901, Borden was selected party leader. The Conservatives were badly disorganized at the time, but Borden slowly welded the party together, and rode into power in 1911 in fighting opposition to the Taft-Fielding reciprocity pact with Washington. He was knighted June 3, 1914, after twice declining a title, not believing the time opportune.

It was Borden's destiny to be leader of a government during war time, and he was the only head of a combatant nation who held the reins of power from the beginning to the end of hostilities. He seemed to be fitted by nature for the task — patient, determined, self-sacrificing. He played a leading part at the Versailles peace conference and he insisted that Canada sign the treaty as a separate nation. Then, until July 10, 1920, he remained in office, starting the reconstruction period.

His health undermined and his job done, Borden retired from politics to the sort of life he loved—time for books and time for golf. He travelled. He picked up sufficient business connections to keep him busy. And he found time to represent Canada at world events. In 1918 Sir Robert was appointed chancellor of McGill University, holding the position until 1924 when he became chancellor of Queen's. He served in the latter capacity for five years.

Sir Robert was elected president of the Crown Life Insurance Company in 1928 and became president of Barclays Bank (Canada) when it opened in the Dominion in 1929. He was a director of the Bank of Nova Scotia, Keewatin Flour Mills, Nova Scotia Telephone Company, Eastern Trust Company and Canadian Forestry Association. An Anglican, he was for years vice-president of the Lord's Day Alliance and life director of the Carleton County Hospital.

He is survived by his wife. The University was officially represented at the funeral by the rector, Hon. Norman McL. Rogers, minister of labour.

TO REPEAT CONFERENCE ON INDUSTRIAL RELATIONS

THE first Canadian Conference on Industrial Relations, which was held at Queen's last fall, is being repeated at the University, September 9-11. The Conference is sponsored by Queen's, the Montreal Personnel Association, and the Personnel Association of Toronto.

It is expected that approximately one hundred delegates will be present, including prominent representatives of Canadian and American companies, members of university staffs, government officials and industrial counsellors. The meetings are private in the sense that attendance

is by invitation, and only those are invited who are actively engaged in problems of industrial relations.

Papers and addresses pertinent to the various relationships into which the personnel factor enters will be delivered.

EXHIBITION SCHOLARSHIP WON BY A. G. WARD

VALUED at £250 per annum, an Exhibition of 1851 Scholarship has been won by Arthur G. Ward, Arts '35, of Peterborough, Ont.

A. G. WARD

This scholarship, one of the most coveted prizes open to Canadian graduates, is ordinarily tenable for two years. Usually eight overseas awards are made annually, allotted as follows: three to Canada, two to Australia, and one each to South Africa, New Zealand and Ireland (Irish Free State).

The scholarships are "postgraduate," and are intended to enable selected students, who have already completed a full university course and given evidence of capacity for scientific investigation, to devote themselves for two years to research under conditions most likely to equip them for practical service in the scientific life of the Empire.

The research for which Mr. Ward has been given recognition was the investigation of properties of Beta rays, which are negatively charged particles emitted from certain radio-active atoms, and, in particular, the scattering of these particles by atoms of various metallic foils. Results of considerable significance have been obtained.

The scholarship may be held at any institution, approved by the Commissioners, in the United Kingdom or abroad. Mr. Ward will carry on his postgraduate work at Cambridge.

Shortly after the announcement of the Exhibition Scholarship, Mr. Ward received notification that he had been awarded a studentship, worth £150, at Emmanuel College, Cambridge. It is rare for a student to hold an Exhibition award and a studentship at the same time.

Surplus funds of the famous Exhibition of 1851 provide for the scholarships. Acting upon the suggestion of Prince Albert, a Royal Commission was formed to use the funds for scientific education. Among the various undertakings of the Commissioners, none had a more important or wider influence than the scholarships they introduced in 1891. Since then, opportunities have been created for approximately seven hundred young graduates to train under skilled direction in order to equip themselves for responsible positions in the scientific service of the Empire.

The list of winners and the record of their achievements show that the vision of the Commissioners has been more than justified. Perhaps the most famous of all successful candidates is Lord Rutherford, director of the Cavendish laboratory at Cambridge since 1919. Most of the others are prominent on university staffs, or are engaged in government and public services or in industry.

In the last thirteen years, Queen's has had ten winners of these scholarships, a notable record. Of these ten, seven were from the department of physics, two from chemistry and one from metallurgy. Great credit is due to the training these students received in their respective departments before branching out into research.

The ten winners and the years of award are as follows: R. H. F. Manske, M.Sc., 1924; D. C. Rose, M.Sc., 1924; H. M. Cave, M.A., 1926; B. W. Sargent, M.A., 1928; E. H. Charlesworth, M.A., 1931; G. S. Farnham, B.A., M.Sc., 1932; W. J. Henderson, M.A., 1932; W. E. Bennett, M.A., 1934; John Stewart Marshall, M.A., 1935; and A. G. Ward, M.A., 1937. All except Marshall, who is still at Cambridge, and Ward, have since obtained their Ph.D. degrees.

Members of the staff at Queen's who have been winners of the Exhibition scholarships include Principal R. C. Wallace, Prof. W. C. Baker, Dr. Cave, Dr. J. A. Gray, Prof. Alexander Macphail and Dr. Sargent.

UNIVERSITY REPRESENTATIVES CONVENE AT QUEEN'S

EDUCATIONAL problems were reviewed and discussed at the seventeenth National Conference of Canadian Universities, held at Queen's on May 31 and June 1. Fifty-five representatives from institutions across the Dominion, and numerous visitors were in attendance.

Speakers included the following: Principal R. C. Wallace, and Dean John Matheson, Arts '01, of Queen's; Principal M. W. Wallace, of University College, Toronto; President Carleton Stanley, Prof. G. H. Henderson and Prof. B. A. Fletcher, of Dalhousie University; Mr. J. E. Robbins, of the Dominion Bureau of Statistics; President H. G. James, of Ohio University; President L. S. Klinck, of University of British Columbia; Chancellor C. C. Jones, of University of New Brunswick; Mr. Drummond Wren, secretary of the Workers' Educational Association; Prof. J. F. Macdonald, Arts '99, and Dean S. Beatty, of University of Toronto.

Chancellor H. P. Whidden, LL.D. '29, of McMaster University, was elected president of the Association for the ensuing year, with President H. J. Cody, D.D. '03, of University of Toronto, as vice-president. Dean K. P. R. Neville, Arts '96, of University of Western Ontario, was appointed as secretary-treasurer.

SANITARY ENGINEERING LAB FILLS LONG-FELT NEED

WORK on the new Sanitary Engineering Laboratory began on July 8 and will be completed in the near future. It is expected to have the building in operating order by the time the students return for classes in the fall.

The laboratory, which is being built on the lakefront, behind the power house, is approximately 100 feet in length, 35 feet in depth and 24 feet in height. It will have two floors at the east end and one at the west. It will be semi-fireproof, the frame being of steel and the walls of hollow tile. The exterior will have a stucco finish, with the exception of the eastern end, facing MacDonald Park, which will be of limestone, thus preserving the uniformity of the University buildings.

The lower part of the east end of the new building is to be used as a highway and soils mechanics laboratory. The former will be utilized for the testing of stone, gravel, asphalt and other materials used in the construction of roads and streets. The soils mechanics section will, it is hoped, adequately take care of the requirements for soil stabilization, so necessary in the most recent advances in road design.

The upper floor at the easterly end will be an up-to-date analytical laboratory for the chemical, bacteriological and microscopical analyses of water and sewage.

The other sections of the building will be used as sewage and water treatment laboratories. One part will house the sewage treatment devices, including sedimentation basins, aeration and final settling tanks for the activated sludge process, and percolating and trickling filters. These will take care of 50,000 gallons of sewage a day, the sewage being pumped from wet wells connected to the O'Kill Street sewer. The room will contain all the necessary air compressors, vacuum machines, chemical dosing apparatus, and the latest equipment for the chemical treatment of sewage, insofar as space will permit.

The digester room will contain eight digestion tanks, which are capable of handling daily 321 cubic feet of sludge, of 95 per cent moisture. This will enable studies to be made of gas generation and analyses, and of the final disposition of the sludge. An Oliver filter for sludge dewatering will form part of the equipment.

In the water treatment laboratory will be found three rapid sand filters, with all the necessary control, mixing, waste- and clear-water tanks. One or two slow sand filters will also be provided with the essential control apparatus. Chemical feeding machines will form part of the equipment. Modern methods of odour and taste control, as well as those for chemi-

cal and bacteriological treatment, will be provided.

Students of sanitary engineering at Queen's have long laboured under a handicap, as there are no civic plans for sewage treatment or water purification within a reasonable distance of Kingston. The University will now have a plant unequalled in Canada for instruction purposes.

NUMEROUS STAFF CHANGES HAVE BEEN ANNOUNCED

IN addition to the previously reported engagement of Dr. R. G. Sinclair, B.A. '24, as Craine professor of biochemistry and head of this department, several staff changes or appointments for the 1937 term have been announced by the University.

In the electrical engineering department, Prof. S. C. Morgan, B.Sc. '16, who has been on the staff since 1928, latterly as assistant professor, has resigned to accept the post of associate professor at the University of British Columbia. H. S. Pollock, M.Sc. '34, has ben appointed lecturer in this department.

Other changes in the Science faculty include the resignation of Dr. H. W. Fairbairn, B.Sc. '29, from the lectureship in mineralogy which he has held for the past two years, to accept an associate professorship at Massachusetts Institute of Technology, and the appointment of Newton W. Buerger, S.M. (M.I.T.), as lecturer in geology and mineralogy. H. G. Conn, B.Sc. '31, lately plant engineer for the Procter and Gamble Company, Hamilton, becomes lecturer in mechanical engineering. P. C. King, B.Sc. '30, demonstrator in the civil engineering department, resigned last spring to accept a position with the Combustion Engineering Company, Montreal; and E. H. Bronson, B.Sc. '24, instructor in mining and metallurgy, has joined the Denver Equipment Company, Toronto. Appointments to the last two vacancies have not yet been made.

R. M. Winter, M.A. '27, has been chosen as director of extension and extramural work. Mr. Winter was with Messrs. R. A. Daly and Company, investment bankers, Toronto, for some years after graduation, then went to O. C. E., and latterly has been teaching at Danforth Collegiate Institute, Toronto. He has had considerable experience in extension work at the University of Toronto.

In the Medical faculty, Dr. C. F. Blackler, a graduate of McGill, has been appointed as assistant professor of public health. He will also serve as medical officer of health for the City of Kingston.

Dr. Gerhard Schmidt, who has been carrying on special research work in biological chemistry at Queen's for the last two years under the sponsorship of the Carnegie Corporation, has gone to New York City, with the Rockefeller Foundation; and Dr. E. H. Charlesworth, M.A. '31, instructor in the chemistry department, has received an appointment as lecturer at the University of Manitoba.

In the Arts faculty, Dr. Gregory Vlastos, associate professor of philosophy, has been granted sabbatical leave, and T. A. Goudge, M.A. (Toronto), has been named as instructor in his absence. L. S. Stavrianos, B.A. (British Columbia) and M.A. (Clark), will be instructor in the history department during the absence of Prof. W. E. C. Harrison, also on sabbatical leave. J. D. Stewart, M.A. '30, who has been a member of the Queen's radio station staff and also instructing in physics since his return from postgraduate work in Germany last year, has been appointed lecturer in mathematics.

MISS JEAN WILTON WINS IMPORTANT SCHOLARSHIP

A SCHOLARSHIP valued at $1500, for study of the French language in France, has been awarded by the Ontario Department of Education to Miss Jean B. Wilton, Arts '26, of Kingston.

Miss Wilton was *en route* to France for travel and study when notified of the scholarship, which is tenable at any French university. Her final plans are not yet made, but she intends to enrol at some prominent institution this fall.

Since graduation Miss Wilton has taught in the high schools of Gananoque, Aurora and Whitby.

GIFT TO QUEEN'S TO AID IN FIGHT AGAINST CANCER

A NUMBER of copies of the first edition of *Far Places,* written in 1931 by the late Dr. James Mackintosh Bell, have been generously turned over to Queen's by Mrs. Bell, with the suggestion that the proceeds from their sale be used by the Medical Faculty to purchase additional equipment for the free radium treatment of cancer in the Kingston hospitals. The books are now available to alumni at the University Post Office at the special price of $1.00 each.

DR. J. M. BELL

Mrs. Bell's generous gift was inspired by the fact that this 175-page volume contains a chapter describing her husband's trip to the Great Bear Lake region in 1899. Dr. Bell's geological reports upon this journey, particularly upon the mineralization around Echo Bay, led to Mr. Gilbert LaBine's later discovery of the deposit of pitchblende—the radium-bearing ore. This discovery in turn was responsible for Canada's present position in the production of radium for world needs.

Upon receiving his M.A. in geology at Queen's in 1899, Dr. Bell joined the Geological Survey of Canada, and one of his first assignments was the trip to the Great Bear Lake district. After a few years' further scientific work in Canada and postgraduate study in the United States, he was appointed director of the Geological Survey of New Zealand and became intimately acquainted with that country.

He then spent four years exploring the wilds of New Caledonia, the Kara Kum district of Russian Turkestan, the Ural Mountains of Siberia and other remote parts of the northern and southern hemispheres for an English firm. During the war he was engaged in intelligence service in Siberia for the British Government. From 1930 until his death in 1934 he carried on extensive geological and geographical researches in Canada, Asia and elsewhere.

Dr. Bell had the happy faculty of writing in a most entertaining manner of his travels and adventures. Among his numerous publications were *Tales of the Red Children, The Wilds of Maoriland, Sidelights on the Siberian Campaign* and *Far Places.*

Far Places is an interesting account of an interesting personality in interesting and out-of-the-way corners of the earth. It tells of the remote parts of Northwest Canada, of New Caledonia, of the Kirghiz Steppes, of Jamaica and of Albania, and describes these countries and their peoples in a fascinating and vivid way. It is a book that would grace the library of any Queen's graduate.

SECOND FLOOR IS BUILT IN OLD GYMNASIUM

WORK on the Old Gymnasium—installing a second floor and fireproofing the interior—is progressing rapidly and will be completed in the near future.

The new floor is being laid at the level of the old running-track, and the upper storey will be used as a drafting-room. Drafting facilities on the top floor of Carruthers Hall have been inadequate for the large second-year Science classes for some time, and the renovation of the Old Gym provides the solution.

The basement, which has been the hydraulics laboratory since 1930, has not been altered.

The main floor, now of reinforced concrete, is to have two offices and a small dark-room at the west end, while a classroom with accommodation for about seventy students will be at the south side. The remaining L-shaped part of this floor will be available for laboratory work in airflow and aerodynamics.

The steadily increasing attention being paid to ventilation, not only of buildings but of mines, renders it imperative that practical work in airflow be provided. Further, the interest in aviation makes it necessary that instruction be given in the principles of flight and the forces acting upon aeroplanes.

The equipment in airflow will be fairly complete, comprising fans of all standard types and ranging in size from small blower to large building fans. Accommodation is provided for ducts of all sizes and types.

Elementary work in aerodynamics will be carried out in two wind tunnels—one very small, for miniature experiments on streamlining; the other of fair size, with a two-foot diameter open jet in which velocities as high as ninety miles per hour may be attained.

It is expected that the building will be available for the students at the start of the 1937-38 session.

CANADIAN-AMERICAN AFFAIRS DISCUSSED AT CONFERENCE

ANOTHER step toward a clearer understanding of Canadian relations with the United States was taken at the second Conference on Canadian-American Affairs, held at Queen's from June 14-18, with the co-operation of The St. Lawrence University, Canton, N.Y., and the backing of the Carnegie Endowment for International Peace.

Approximately one hundred and fifty leaders in the fields of history, political and economic science, and foreign affairs, of both countries, discussed questions of common and vital interest in a manner that augurs well for future international good-will. It is in conferences such as these that Canada and the United States have a lesson in neighbourliness to give the rest of the world.

Out of the programme grew a valuable exchange of information, with an honest examination of conflicting attitudes and viewpoints. There was no trite discussion of nondebatable questions. The delicate problems of trade and finance between the two countries were discussed frankly and openly, stripped of the veneer of propaganda that so often surrounds them. Labour organization, foreign policy, cultural trends and geographical factors were also subjected to searching analysis.

His Excellency, Lord Tweedsmuir, Governor-General of Canada, addressed the Conference at a luncheon in his honour, at which Owen D. Young, LL.D. '33, industrialist and world figure, acted as toastmaster. Dr. John W. Dafoe, LL.D. '29, editor of the *Winnipeg Free Press*, Newton D. Baker, secretary of war in the cabinet of Woodrow Wilson, James Brown Scott, secretary of the Carnegie Endowment for International Peace, and other eminent men took a prominent part in the proceedings.

Nor was the value of the Conference defined by the number and importance of the men who attended and expressed their views. Exceedingly good press coverage was given by leading Canadian and American newspapers, which were represented at the Conference either by staff or syndicate newsmen. The Queen's radio station, CFRC, broadcast selected parts of the programme to the surrounding district and hooked up with the Canadian network on several occasions, to be heard by a nation-wide audience. Thus, the deliberations of the Conference reached a large audience on both sides of the border.

Members of the University staff and Queen's graduates played a prominent rôle in the Conference. Much of the undoubted success of the gathering was due to the untiring efforts of Dr. R. G. Trotter, head of the history department, who acted as chairman of the executive committee. Principal Wallace delivered the address of welcome and was a keen and interested visitor at all discussions. Chancellor James A. Richardson, Arts '06, LL.D. '29; James M. Macdonnell, Arts '04, chairman of the Queen's Board of Trustees; Dr. W. A. Mackintosh, Arts '26, head of the commerce department: Prof. F. A. Knox, Arts '23; Prof. J. L. McDougall; Dr. G. H. Clarke, head of the English department; Mr. André Biéler, resident artist; and others also took part. Prof. A. B. Corey, of The St. Lawrence University, and a member of the Conference executive council, is teaching history at Queen's Summer School this session.

One of the highlights of the Conference was a special convocation, at which the University conferred honourary degrees on five distinguished American visitors: Newton D. Baker; Isaiah Bowman,

president of Johns Hopkins University; Laurens Hickok Seelye, president of The St. Lawrence University; James Brown Scott; and James Thomson Shotwell, director of the Carnegie Endowments Division of Economics and History.

The results of the Conference should prove beneficial and far reaching. The ease with which thinking men and women from Canada and the United States can approach problems of common interest in frank discussion has been vividly illustrated. It must thrill every Queen's graduate to know that his Alma Mater has taken a leading part in an international meeting of such significance.

CRAINE BUILDING READY FOR OCCUPATION THIS FALL

CONSTRUCTION of the new biochemistry building, made possible through the generosity of the late Dr. Agnes D. Craine, Med. '88, of Smiths Falls, is progressing rapidly. The masons are now working on the third storey, and it is confidently expected that the structure will be completed by the time the students return in the fall.

The Craine Building is being erected on Arch Street, with its main entrance facing the Old Medical Building, thus completing the Medical quadrangle. Part of the old, curving driveway has been sacrificed for the site.

VALUABLE ADVICE OFFERED TO MEDICAL GRADUATES

"REMEMBER, the only way to success is along the road of hard work," the words of advice of the late Dr. William Osler, was the message given to the forty-seven members of the graduating class by the Hon. Dr. L. J. Simpson at Medical Convocation on May 26.

To offset the danger of too much hard work, however, the graduates were advised to take a holiday every year in order to provide a break in the routine. A doctor should enter into the life of his community, be it small or large. He should not neglect any opportunity for self-improvement and should always keep abreast of the continual advancement of medical science. Finally, a doctor should remain loyal to his Alma Mater, although in the case of Queen's men, this recommendation was scarcely necessary, said the speaker.

The new graduates were presented by Dean Etherington to the Vice-Chancellor, Principal Wallace, to receive their degrees, and were hooded by Dr. W. T. Connell and the Dean. Dr. H. A. Kent, principal of the Theological College, acted as chaplain for the occasion. Music was provided by the R. C. H. A. band.

DR. E. D. ROOKE

The presentation of medals, fellowships, scholarships and prizes was made by Principal Wallace. Edward Douglas Rooke, of Kingston, carried off the lion's share of the major awards, winning the medal in surgery, the honour for the medal in medicine, the honour for the Mundell prize in surgical applied anatomy, the honour for the James prize as the student judged by his teachers to be best adapted to apply his medical training in practice, the honour for the Professor's prize in surgical and clinical surgery, the Fowler scholarship and a Leonard scholarship.

The award of the medal in medicine went to Borden Chamberlain Miller, of Consecon, Ont., who also won the award for the James prize. Melville Swartz, of Fort William, Ont., won the award of the Mundell prize and the Ontario Medical Association prize. The Professor's prize in medicine and clinical medicine went to John Wallace McDougall, of Brockville, Ont. Harry Victor Morris captured the award for the Professor's prize in surgery and clinical surgery, second prize for the best essay on a subject of clinical interest, and was tied with Frank Stephen Clarke, of Kirkland Lake, Ont., and Ross Morrison McCullough, of Kingston, for the Professor's prize for the best series of pathological case reports. To Donald MacKillican Frick Biehn, of Parry Sound, president of the

Alma Mater Society, went the mental hygiene prize. John Patrick McManus, of Garden Island, Ont., was awarded the Canadian Medical Institute essay prize, and his brother, Joseph Forde Anthony McManus, received first prize for the best essay on a subject of surgical interest. James Harold Shaw, of Trinity, Newfoundland, won the Goodwill essay prize.

At the conclusion of Convocation the graduates, their families and friends were guests at a tea in the Gymnasium.

DR. NORMAN L. BOWEN JOINS CHICAGO STAFF

ONE of the world's best-known authorities on the nature and origin of rocks, Dr. Norman L. Bowen, Arts '07, Sc. '09, petrologist of the Carnegie Geophysical Laboratory, Washington, D.C., has been appointed Charles L. Hutchinson Distinguished Service Professor in the department of geology at the University of Chicago.

Dr. Bowen is the first to hold this professorship, established in recognition of the generous interest of the late Mr. Hutchinson, for many years a trustee of Chicago University, and of his widow, Frances K. Hutchinson.

Interested particularly in the chemical and physical characteristics of the molten materials from which rocks are formed, Dr. Bowen has carried on extensive experiments in rock syntheses at the Geophysical Laboratory, work which has not only thrown light on the nature of geological processes but which also has had important bearing on industrial processes. It was on the basis of his experience with these artificial "melts" that he was able to take over during the war, when the foreign product was unavailable, the scientific direction of the production of optical glass for the War Industries Board. He is joint discoverer of Mullite, the fundamental constituent of fire-clay refractories.

This eminent Queen's alumnus obtained his M.A. degree in 1907 and his B.Sc. in 1909. Three years later he received his Ph.D. at the Massachusetts Institute of Technology. From 1912 until the present he has served as petrologist at the Geophysical Laboratory, with the exception of one year, 1919-20, which he spent at Queen's as professor of mineralogy.

Dr. Bowen was one of the distinguished international group of sixty-two scholars and scientists who received honorary degrees from Harvard University last September at its tercentenary celebration.

President this year of the Mineralogical Society of America, Dr. Bowen is also a member of the Geological Society of America and the Mineralogical Society of Great Britain. He is likewise a member of the National Academy of Sciences, the American Philosophical Society, the American Academy of Arts and Sciences, the Washington Academy of Sciences, the Kaiserlich Deutsche Akademie der Naturforscher, Halle, and the Indian Academy of Sciences. In 1931, the Geological Society of London awarded him the Bigsby medal.

His appointment is to become effective on October 1.

PAID-UP MEMBERS RECEIVE FEE SLIPS BY MISTAKE

THE *Review* apologizes to any paid-up members of the Alumni Association who received notice, in the May issue, that their 1937 fees were overdue.

In spite of the precautions taken by the Alumni office, the printers of the *Review* mixed the wrappers addressed to the paid-up alumni residing outside of Canada with those of the non-paid, and inserted fee slips in many or all of the magazines of the former group.

As a result of this error, members in good standing were "dunned" and several expressed their righteous indignation. The *Review* regrets the inconvenience these members were caused.

PROGRESSING FAVOURABLY

PROF. G. J. Mackay, Sc. '07, head of the metallurgy department, who has been seriously ill since the close of the spring term, is now making favourable progress. He will be confined to his home, however, for some time yet.

RELIEF MAY BE FOUND FOR COMMON COLD

A SERIES of experiments made on more than one hundred Medical students by Dr. Eldon M. Boyd, Arts '28, Med. '32, and Dr. W. F. Connell, Med. '29, indicates that relief for the majority of persons suffering with common colds is possible.

DR. E. M. BOYD

DR. W. F. CONNELL

In a recent issue of the *Canadian Medical Association Journal,* the two doctors report that their investigations show that a considerable number of people suffer from colds as a result of a deficiency of the essential, unsaturated fatty acids in their diet. The student "guinea-pigs" were given a concentrated mixture of linoleic and linolenic acids prepared from refined linseed oil. The result was a reduction of the average incidence of colds by 64 per cent and diminution of the average duration by 78 per cent.

Experiments with dosages will be carried on among the students this coming term. Both discoverers of the potential cold cure are members of the University staff.

CAMPUS BRIEFS

CONCRETE tunnels to carry the heating and power lines to Carruthers Hall, the Old and New Medical buildings, the Old Gymnasium, the Technical Supplies, the Harty Arena, and the Principal's residence were laid during the summer. Previously, these buildings were fed heat and power through tile conduits from the main service tunnel, and water seeping through presented frequent trouble. The new individual tunnels will remove this difficulty and permit ready access to these lines at any time.

* * * *

The interior walls of the Old Arts Building and Convocation Hall were sand-blasted and painted this spring. The exterior wood-work was also painted.

* * * *

The first floor of the Old Medical Building will now house the departments of preventive medicine and public health, the pharmacology department being moved to the new Craine Building. The necessary changes have been made to accommodate the Old Medical's new "tenants."

* * * *

In order to display some of the treasures of the Douglas Library, Mr. E. C. Kyte, librarian, arranged a series of exhibitions in the reading-room during the Summer School term. The schedule was as follows: July 8-16, early printed books; July 17-24, some old books for children; July 26-31, books about Canada; August 2-7, some famous first editions; August 9-14, manuscripts; August 16-21, some interesting letters. The exhibitions will be repeated for the winter students.

* * * *

An exhibition of Canadian art was held in Grant Hall in June and July, under the supervision of Mr. André Biéler, resident artist. The pictures were on display for the Conference on Canadian-American Affairs and held over for the enjoyment of the Summer School students.

* * * *

Vice-Principal McNeill left in July to spend a short vacation with Chancellor Richardson at the latter's summer home on Lake of the Woods. From there, he proceeded to the Pacific Coast, stopping at several of the larger cities where Queen's groups had invited him to speak.

* * * *

Queen's will be represented this year, for the first time, in the exhibit sponsored by the Ontario Educational Association at the Canadian National Exhibition, Toronto. The Queen's display is to be on the second floor of the West Annex of the Coliseum.

THE 1937 REUNION

FRIDAY AND SATURDAY, OCTOBER 15-16

ARRANGEMENTS having been completed with the Meteorological Bureau for ideal weather, and a well-rounded programme having been drawn up, hundreds of alumni are expected to be attracted back to the Queen's campus for the Reunion on October 15 and 16. Under the Dix Plan, certain groups of classes are invited, but any Queen's graduate who feels the urge to revisit the scenes of his college days will be welcomed.

Highlights of the two-day programme include the University reception, the annual meeting of the General Alumni Association, Fall Convocation, the Queen's-Western football game, class dinners, and the alumni and student dances in Grant Hall and the New Gymnasium. Running like a bright thread through the entire proceedings, of course, is the opportunity to renew old friendships and to reminisce of the happy days of yore.

Thirty-seven classes are scheduled to come back this fall. The classes of '87 and '12 will be celebrating their Golden and Silver jubilees and may be expected to set the pace for the others, which include the "generations" of 1883-84-85-86, 1902-03-04-05, and 1921-22-23-24. These years represent a generous cross-section of the University's history, and a successful gathering is looked for.

No matter how recently the graduates have visited their Alma Mater, there are a number of new and interesting things to be seen. The Medical alumni will be particularly interested in the Craine building, which will house the biochemistry and pharmacology departments. This structure will have been just opened by the time the graduates return. The Science students will find much of interest in the new sanitary engineering laboratory which has been erected at the rear of the power plant. Graduates of all faculties, particularly those of the older "years" who remember the hard work and sacrifice involved in the erection of the Old Gymnasium, will be interested in the renovation of this building into a hydraulics and aerodynamics laboratory, and drafting-room. Many other minor changes about the campus are also to be noted. For the alumni who have not been back in many years, there is even a great deal more to be seen.

The Queen's-Western football game is certain to please the home-coming crowd, many of whom have never seen the invading Mustangs in action. The Purple and White from the University of Western Ontario play a fast, wide-open game, and last season proved to have the most effective forward-passing attack of any team in the Intercollegiate. The Mustangs were strong enough to defeat the Tricolour here last year, although Queen's succeeded in turning the tables in London, so that a close contest may be expected. Too, the Intercollegiate schedule will be only in its second week—just warming up—by the time Reunion week-end rolls around, so that it will be an excellent opportunity to size up the relative strength of the college teams and to estimate Queen's chances of regaining the Intercollegiate title.

The alumni dance in Grant Hall, as the climax to the full week-end, will be restricted to graduates, staff and friends, thus eliminating the crush that prevailed last year. The students and such alumni as wish will be accommodated at a second dance held in the Gymnasium, so that ample dancing room is assured for all.

Now is the time to make all preparations for getting away from business and attending the Reunion. You owe it to yourself and to Queen's to return to the Old Ontario Strand for this brief visit. Come on back; a royal welcome is awaiting you!

TENTATIVE PROGRAMME

Friday, October 15

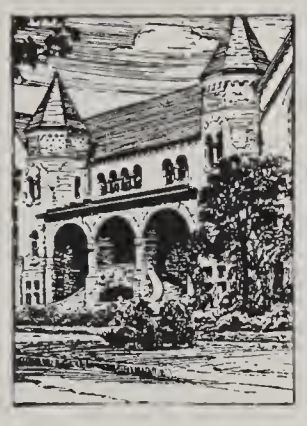

Registration and Visiting the University and Hospitals.
Evening—University Reception, at which the Alumni will have the opportunity of meeting Principal Wallace.
Annual meeting of the General Alumni Association.

Saturday, October 16

Morning—Registration and Visiting the University and Hospitals.
Fall Convocation.
Afternoon—Queen's-Western Football Game.
Evening—Class Dinners.
Alumni Reunion Dances.

Date and Time Undecided

Fall Meetings of the University Board of Trustees and Board of Directors of the General Alumni Association.

WELCOME TO QUEEN'S!

THE REUNION CLASSES

ARTS AND MEDICINE '83-84-85-86

These fine old classes will be the veterans of the 1937 Reunion. To them belong the richest memories and choicest reminiscences, with so many years of life to look back upon. But there is one quality they will have to share with all graduates—the Queen's Spirit.

ARTS '87

Arts '87, one and all, are cordially invited to return to their Alma Mater this fall in special celebration of their Golden Jubilee. A few came back last year; let it be unanimous this time.

MEDICINE '87

To the eight survivors of this venerable year, including those who were on hand last October, a similar invitation goes forward. There have been many changes at Queen's in half a century.

ARTS '02-03-04-05

There is bound to be a happiness and joy around the campus when these classmates of the Naughties get together this fall. Queen's had got "into her stride" when you were here, and she has since made many notable advances. How long since you have looked them over?

MEDICINE '02-03-04-05

Just tack up a sign—"Back in Ten Minutes"—pack up your bags, and set sail for Kingston and Queen's. You can count on a jovial week-end and a hearty welcome at the Old School.

SCIENCE '02-03-04-05

A lot of water has run under the bridge since you made the walls of Carruthers Hall re-echo "Steam drills and concentrators." Try them with "It's always fair weather" when you come back this fall.

ARTS, MEDICINE AND SCIENCE '12

A Silver Anniversary is always an occasion for special rejoicing, and the members of '12 should not miss this opportunity. After twenty-five years in the wide, wide world, what tales there are to tell, what incidents to recall, what friendships to renew!

SCIENCE '21-22-23-34

High time these years got together again, isn't it? Remember all the fun you had and the history you made as undergraduates? When you hear from your class conveners, be sure to answer that you will be present.

MEDICINE '21-22-23-24

Now that you Medicos are securely established in your own practices or holding responsible posts, you can afford to give yourselves a rest and a real treat by returning to the Old Ontario Strand on October 15 and 16.

ARTS '21-22-23-24

Some of these classes already have their preliminary arrangements well under way, and their plans are gaining momentum daily. Is your year among them? Be sure to lend your co-operation towards making yours the outstanding gathering of this fall. You will enjoy meeting old friends of your own and adjacent classes.

QUEEN'S GRADUATES HEAD MASONIC ORDER IN ONTARIO

AND now the Masonic Order has been added to that long list of organizations whose destinies are guided by men of Queen's.

Grand Lodge, A.F. & A.M., of Canada elected on July 22 as grand master in the Province of Ontario. William J. Dunlop, Arts '12, with Dr. J. A. Dobbie, Arts '11, M.B. '13, M.D. '15, as deputy grand master.

Mr. Dunlop, an outstanding educationalist, has been administrator of the department of extension and publicity of the University of Toronto since 1920. From 1934 to 1936 he was president of the Canadian Association for Adult Education.

Dr. Dobbie is assistant superintendent of the Ottawa Civic Hospital. He is one of the best informed in Masonic lore and, as a sincere and enthusiastic worker in the craft, has a noteworthy record.

NOTABLE ADVANCE MADE IN SILICOSIS RESEARCH

"THE presence of small amounts of metallic aluminum almost completely prevented silicosis material from passing into solution."

This important statement was made by J. J. Denny, M.Sc. '21, metallurgical engineer and mill superintendent at the McIntyre-Porcupine Mines, Dr. W. D. Robson, chief surgeon at the McIntyre, and Dr. D. A. Irwin, associate professor in the department of medical research at the University of Toronto, in a joint article in the July issue of the *Canadian Medical Association Journal*. The paper was entitled "The Prevention of Silicosis by Metallic Aluminum—A Preliminary Report," and had been presented before the Academy of Medicine, Toronto, on June 15, 1937.

In 1932, an extensive investigation of silicosis, the dread disease which takes a large toll among miners and gives rise to tuberculosis, was undertaken at the McIntyre Mine, after a discussion of the problem with Sir Frederick Banting and his staff. Experimentation with animals, under actual mine dust conditions, was begun shortly afterwards under the guidance of Mr. Denny and Drs. Robson and Irwin. Eventually, it was found that the chemical reaction rather than the physical presence of silicosis material was responsible for the production of fibrosis in silicosis; also that the size of the quartz particles was a determinate factor. The investigators assumed that if the solubility of the silicosis material could be reduced sufficiently by the addition of some nontoxic element or compound the usual fibrotic response would be modified.

Tireless and painstaking work led to the discovery last year that the addition to the mine dust of less than 1 per cent of metallic aluminum powder—99 per cent pure and -20 microns in size—inhibited silicosis in the group of rabbits upon which the experimentation was carried on.

Further research is being conducted at present, with larger groups of animals, and there is considerable optimism that the final result will be the entire elimination of the silicosis scourge.

SENIOR INTERCOLLEGIATE RUGBY SCHEDULE, 1937

October	9—Queen's at Toronto McGill at Western	October	30—McGill at Queen's Western at Toronto
October	16—Western at Queen's Toronto at McGill	November	6—Queen's at Western McGill at Toronto
October	23—Queen's at McGill Toronto at Western	November	13—Toronto at Queen's Western at McGill

ATHLETICS

THE 1937 FOOTBALL TEAM

By Coach Ted Reeve

THE outlook for the football season at Queen's this year would seem to point towards a sturdy, hard-hitting team, with a certain shortage of backfield strength but a strong wingline. It is a team that may not win the title, but that should be in every game right up to the knees and elbows.

We lose several good men. Eleven of last year's squad graduated in the spring, the gents who stepped out with their sheepskins being Sonshine, Krug, Edwards, McManus, Smith, McPherson, Bews, Kirkland, Barker, Lewis and Thompson.

Joe McManus did not play much last year. After some stalwart seasons, he was put away in an exhibition match with Ottawa and was forced to look on for the rest of the season. His hard tackling and team spirit were sadly missed. His injury must have been the tip-off for a season of such calamities, as we wound up the year with practically the entire line in the hospital at play-off time.

Queen's was due for some bad luck in this way, of course. We had been fortunate, with our small squad, to get by the schedule of 1935 and win the title before our shorthanded backfield fell apart. And, in '34, when the "Fearless Fourteen" staggered through the season, it was a bit of a jolly old miracle that thirteen of these iron men were able to play in every game. So we were bound to get some bad breaks last year, as injuries seem to go in such cycles (as well as motorcycles). But we hardly expected to wind up in the play-off match with Sprague, Kirkland, Lewis, Edwards and Peck on the sidelines, for four of those men and Jones had been named as our regular line at the start of the campaign.

Naturally, little was said about these misfortunes at the time. There is no use bleating when defeated, but in fairness to some of the lads who have left school now we have to point out the fact that they made a splendid showing last autumn in spite of the Jonah that seemed to pursue them throughout. Perhaps it will even up this season. It is to be hoped so, as we have a good starting team, by the look of matters at present, without having many substitutes.

It goes without saying that we shall miss Harry Sonshine. Our system of defence has always been built around the centre secondary, and we have been fortunate in our seasons with the Tricolour in having Hamlin, Kostuik and finally Sonshine to occupy that position. To our grateful eyes it always seemed that Harry spent his entire college career under a pile of opposing players.

The departure of Krug and Edwards will knock the back out of the backfield on the attack. Johnny, or Jake the Snake as he was called, was the speed-boy of the rearguard, a fine tackler and a climax runner. He climbed out of a hospital cot to get into his last college match, and collapsed in his efforts to carry on. Krug was the lad who invariably, over four years of play, put his team in position to score the winning points, or made a long run to carry us out of danger. He was a brilliant player in college ranks, but his case is just another that shows the advantage held by the city clubs. Curly, during the past year, has grown about twenty pounds heavier and correspondingly stronger. He attained man's physique just as he graduated, which shows how unfortunate it is, from our standpoint, to have brilliant students in our club. They come in young and go out before they have reached their peak. We predict this burly Woodstock boy will be a standout in the Big Four this season.

Mel Thompson, a sturdy, steady lineman; Jack Smith, who laboured long and loyally with the Seconds and came up in his final year to star for the battered Seniors; Mal Bews, who played almost every position on the team and, like Krug, took his scholastic honours when just reaching his top form; and Mucker McPherson, the hard-plunging husky who finally caught up with examination requirements in his final year to make the top team, will be others missing from our squad on the field and from the rough-houses in the dressing-room.

Then there is Jack Lewis, a lineman of note in '35, who spent almost all last year on the sidelines when his knees came undone at the hinges. It was the hardest kind of luck when this big lad (another gent who went through college all too swiftly) could not be out there in his senior year. And Reg Barker, the rangy, hardworking snapback who, with his uncanny ability to shoot out that ball at a mile a minute to a player on the dead run, had much to do with the ground-gaining ability of Krug, Edwards and Munro. Finally, there is Archie Kirkland, who also played through his entire college career on a pair of legs that were pulled apart from injuries and operations. He went through his last game (the one in which we took Varsity 6-1 in our best showing of the season) with his kneecap around the side of his leg. How Senator Powell kept him strapped up and going is something we will never be able to figure out. There may have been better all-round football players in the old Red, Yellow and Blue sweaters, but never a gamer one than Mining Engineer Kirkland.

We will miss that lot. And the worst feature of coaching such a bunch of happy, husky birds is that we miss them not only from a football standpoint but as companions as they scatter to the four corners of the Dominion.

But, to get back to business, we have twelve or possibly thirteen men who took part in some senior games last year, back for duty. The one uncertainty is Art Stollery, the sturdy quarterback who is now up to his neck in summer school and sups. We certainly hope he can make it.

The others we have to start with are Johnny Munro for the hoofing chores, who will have to be the steadying influence on the backfield; Ted Young and Jack Latimer, the Pony Express pair, on the halfline; and Grover Dennis, the big high-running kid who filled in for Johnny Edwards last year and also made a good job at end. Young and Dennis are due for regular positions, and we think they will come through.

If Art Stollery doesn't make the grade, all the quarterbacking will be left to Ed Barnabe, the deadly tackling, drop-kicking captain of last season. Ed had a bad shoulder in 1936, but starred in almost every game.

For a line, there will be big Chuck Peck, another of our wounded, who was a great plunger when right (if he can stay in one piece this year, he will be All-Star Intercollegiate middle wing); Captain George Sprague, the find of last season with his plowing and defensive work; Marty Jones, a veteran of four years' play who had his best season in '36; Jerry Conlin, the hard-tackling utility man; and Chuck McLean, the boxing champ who developed so well as an inside wing. Arch Kerr and young Sampson, who came up as line replacements at the end of last year, will be back and ready for a lot of work; while Kid Carson, the fast-running boy from Ottawa, is about the only regular end who will be reporting for duty again.

Of the other possibilities—Tuffy Griffiths, formerly flying wing for Argos, Bernie Thornton, outside wing of the Tigers, and Ab Miller, who played end for Calgary — all scored well in their exams and will, thank goodness, be eligible for the first team this autumn. Griffiths, who coached the Juniors, says that several of his kids are fine prospects, notably Paithowski, of Sarnia, the squat snapback who blocked so many kicks for the Thirds. Thornton and Miller, who looked after the "Ints.," report favourably on Mulvihill and Cummings, who are also centre men by trade. We can use them.

So there is the layout for 1937. They will be under-dogs on the dope sheets, but they will be a fighting team. You may lay to that. And with a couple of reinforcements who may turn up (we usually find one dark horse or so), and a fair break in the hospital list, we may be in there again. Even if we have to brush up the goalpost play once more.

Exhibition Game

AN exhibition game with the Ottawa Rough Riders has been arranged for the senior team on September 25 in Ottawa. Although the players will have had little conditioning and practice, this early game provides the coach with an opportunity to see his charges in action and to size up the prospects. Last year the Tricolour played the Rough Riders in a similar contest, and although the students came out on the short end of the score against their better-trained (at that stage of the season) opponents, they gave a good account of themselves.

Football Tickets

THE cost of tickets for the senior Intercollegiate games at the Richardson Stadium this fall is as follows:

Covered Grand Stand—$1.50.

West Bleachers—$1.00.

East Centre Bleachers—$1.00.

East End Bleachers—75c.

The Athletic Board of Control, Gymnasium, Queen's University, will be pleased to make reservations by mail or telephone (Kingston 1718), but tickets so reserved must be called for at the A. B. of C. office before 10 a.m. on the day of the game. *Tickets will not be held after this hour unless they have been paid for.*

AT THE BRANCHES

Peterborough

THE Kawartha Golf and Country Club provided a lovely setting for the meeting of Queen's alumni of the Peterborough district on May 8, when nearly eighty graduates and their friends gathered for dinner and an informal party.

Mrs. H. R. H. Kenner (Mary Williams), Arts '04, the retiring president, welcomed the guests, who came from Madoc, Keene, Campbellford, Norwood, Lakefield, Newcastle, Port Hope and Peterborough. C. D. Munro, Arts '27, and Thomas Allen, Arts '36, led in the singing of college songs between courses.

At a short business meeting, E. R. Shirley, Sc. '12, was installed as president for the coming year. Mrs. Kenner and Richard Lees, Arts '91, were made honorary presidents. Other appointments included the following: vice-president, Dr. H. G. Carleton, Arts '23, Med. '26, of Norwood, Leo Copp, Arts '25, of Peterborough, and J. F. Harvey, Arts '02, of Lakefield; secretary, Mrs. R. G. Corneil (Mildred G. Tape), Arts '27, of Peterborough; treasurer, A. S. Zavitz, Arts '12, of Peterborough; chaplain, Dr. C. M. Scott, Arts '12, Med. '14, of Peterborough; committee — Miss Gladys Moore, Arts '22, Mrs. V. R. Henry (Lulu Lawrence), Arts '13, Mrs. V. R. Currie (C. Marion Spence), Arts '25, W. D. McHoull, Arts '34, Mr. Munro and Mr. Allen.

The new president announced that Principal Wallace had kindly consented to come, as guest speaker, to a dinner planned for October. An invitation to attend was extended to those present and to their friends.

Arising out of a discussion concerning the disposal of funds in the treasury, it was suggested that a small prize—possibly books—might be given to a deserving student of the district. A committee was appointed to look into the matter.

After dinner, a varied programme was presented by the following: Dr. J. C.

Smith, Med. '13, soloist; Dr. C. B. Waite, Med. '13, violinist; R. F. Downey, Arts '07, Paed. '08, soloist; Miss Marita Shaughnessy, tap-dancer. Accompaniment was provided by Mr. Munro and Mr. J. Telford. Tricks of magic by Dr. Scott, who had spent several years as a medical missionary in India, "brought down the house," as did occidental tricks of more doubtful legerdemain staged by V. R. Henry, Sc. '13, and Mr. Copp. Contests and a charade were contributed by other alumni, followed by a fun-provoking game of musical chairs, ending with a fashion-hat parade of those who paid forfeits.

The remainder of the evening was spent in dancing and renewing acquaintances in the comfortable rooms of the clubhouse. A vote of thanks for the most enjoyable programme was passed to the committee in charge, which comprised Mrs. Kenner, Mrs. Corneil, Miss Moore, Miss Amelia Thompson, Arts '22, Mr. Munro and A. B. Gates, Sc. '11, who as member of the Kawartha Club, had sponsored the party. Appreciation was also expressed to the contributing artists.

The guests departed declaring that the 1937 spring function had been one of the jolliest and friendliest of Queen's gatherings ever held in the Peterborough district.

Brantford

A MOST successful golf game and social evening was held by the Brantford branch on June 25 at the Brantford Golf and Country Club, with twenty alumni in attendance.

Winners in the golf tournament included the following: lowest score on a hole selected by the member of the oldest graduating year present (Mrs. Mary Harkness Race, Arts '06), E. H. Reynolds, Arts '25; highest score on a hole drawn by the member of the most recent graduating year (F. S. Grobb, Sc. '33), C. H. Drew, Com. '25.

Following the informal dinner in the evening, Mr. Drew, branch president, reviewed the minutes of the last meeting of the General Alumni Association and answered numerous questions. He also gave a brief summary of his own impressions of the results that could be obtained by regular meetings of the branches. In this connection, Mr. Drew stressed the value of all graduates keeping in close touch with the progress at Queen's in order to be better prepared to explain to others what the University has to offer in academic training.

The programme ended with a bridge game in the ladies' lounge of the clubhouse. The prizes were won by Mrs. G. E. Howell, for the ladies' high score, and by A. G. Scott, Arts '14, for the men's high score.

Toronto

WITH two ballrooms and two orchestras engaged, the annual football dance of the Toronto branch of the General Alumni Association, to be held in the Royal York Hotel on October 9, promises to eclipse even its most successful predecessors.

This dance has developed into one of the major social events of the season. It provides a fitting climax for the annual Queen's-at-Toronto week-end and, next to the Reunion itself, is the largest social gathering of Queen's alumni during the year.

This fall, the Banquet Hall and the Crystal Ballroom of the hotel will be available for dancing, the music being supplied by the orchestras of Luigi Romanelli and Stanley St. John, both well-known Toronto syncopaters. The admission is a modest $1.00 a person. All Queen's people are welcome.

* * * *

The annual spring golf tournament of the Toronto branch was held at the St. Andrew's course in June. The weather conditions were rather unhappy, but about thirty-five players managed to get in at least a few holes before the rain came down in earnest. The "Bingle, Bangle, Bungle" competition, among others, provided both golfers and lookers-on with plenty of merriment.

In spite of the rain, some good scores were recorded. W. H. Browne, Com. '23, again had the lowest gross, while R. E. Story, Arts '30, managed to nose out R. W. Willis, Sc. '27, for top honours (in reverse).

After the dinner, which was presided over by the convener, H. E. Armstrong, Arts '22, Com. '34, Mr. Story was presented with the Ferguson cup and several golf balls. This trophy was donated by W. P. Ferguson, Arts '08, past president of the branch, for the most ambitious golfer at the annual tournament. The remaining prizes were won by C. B. Murphy, Sc. '28, J. A. Bell, Sc. '24, E. C. Gill, Arts '23, V. S. Murray, Sc. '28, and others.

* * * *

Sound advice concerning behaviour within the intimate family circle was given by Dr. Ruth Franks, speaking before a meeting of the Toronto alumnae at a luncheon meeting in Eaton's Round Room late in May. Dr. Franks is the brilliant young woman who was the first in Canada of her sex to secure a Ph.D. in psychiatry.

"'A husband never knows his wife well enough not to stand when she enters the room," said the speaker. "Nor does a son ever know his mother well enough not to touch his hat when he meets her on the street. It is the little niceties of life that help us get along together."

Dr. Franks urged every woman to build up a personality—one could acquire poise, charm and understanding as easily as one could learn that two and two made four. Education in this respect had, unfortunately, been very much neglected. Women made a great mistake in allowing their friendship with other women to be affected by differing opinions.

A hearty vote of thanks was moved to the speaker for her most interesting and stimulating address.

Victoria

MORE than forty members of the Victoria branch attended a banquet in Spencer's Restaurant on May 21 in honour of Rev. Gordon A. Sisco, Arts '25, D.D. '37, and Rev. Robert Laird, Arts '93, D.D. '19, who were delegates to Victoria at the sessions of the British Columbia Conference of the United Church. W. E. Cook, Sc. '12, presided, and introduced those present in order of graduation.

Dr. Sisco spoke of the great Queen's professors of the past who had laid special emphasis on the philosophical and humanistic side of the curriculum. He professed faith that the University would progress under its new principal. Queen's graduates who were occupying important positions in the nation were named, and the hope was expressed that the University would be able to continue this leadership.

Dr. Laird, a member of the first Tricolour football team to win the Dominion championship, in his address mentioned the association of his family with Queen's, which had been continuous since his enrolment in 1893 with the exception of one year. "The strength of the University lies in her graduates," maintained the speaker.

Short speeches were made by A. M. Ferguson, Arts '83, Dr. Helen Reynolds Ryan, Med. '85, Lt.-Col. Lennox Irving, Arts '85, Rev. C. H. Daly, Arts '90, of Rossland, Rev. T. J. Ferguson, Arts '98, of Nelson, Rev. R. Herbison, of Vancouver, Rev. H. Feir, Arts '95, of Agassiz, Rev. W. Stott, Arts '07, of North Vancouver, Rev. Andrew Walker, Arts '01, of Creston, Mrs. D. M. Perley, of Grand Forks, and T. A. Brough, Arts '93, of Vancouver.

J. W. Gibson, Arts '08, led the singing of Queen's songs and acted as cheerleader for the college yells. Miss A. Hazel Sargent, Arts '28, was the accompanist.

At the conclusion of the programme, the annual branch elections were held, and Mr. Gibson was chosen as president. Other officers appointed included R. D. Matthews, Arts '26, as vice-president, and Miss Esther F. Tervo, Arts '28, as secretary-treasurer.

Science '34

UNIQUE among Queen's gatherings was the convention of science '34, held at Niagara Falls, Ont., the week-end of August 1. This class has been holding get-togethers regularly during the past year, with the enthusiasm of the permanent president, K. J. Southern, as its inspiration. Arrangements for the con-

vention were in the capable hands of R. T. Sawle and A. M. Pederson.

On July 31, the classmates, their families and friends, registered, and danced at Crystal Beach in the evening. The following day was spent in playing golf, tennis, swmming, sightseeing, with a picnic in the afternoon as the highlight of the programme. In the evening the guests visited Niagara Falls, N.Y., and Buffalo for a round of the theatres, dance-halls and night-clubs.

The programme of August 2 speaks for itself: "Aspirin, golf and swimming. Break up."

Montreal

MEMBERS of the Montreal branch of the Alumni Association heard a timely and instructive address, "Tragedy in Spain," delivered by Rabbi Stern, of Emmanu-El Congregation, Westmount, Qne., at the April meeting. The Rabbi, who has made a study of recent happenings on the Continent, and who had just returned from a trip to Europe, was able to speak from the view-point of a student and an observer.

The speaker said that he had witnessed, in Spain, a tragedy that surpassed anything that had happened in the Great War. The country, a leading power among the nations of the world four hundred years ago, was now the battlefield for the warring factions of alien governments. The flame in Spain reflects the fire that is seething throughout Europe, he said.

Rabbi Stern answered many questions relative to the current struggle. The members took full advantage of the opportunity to clear up doubtful points concerning the civil war on which the eyes of the world are focussed to-day.

The speaker had been introduced by J. A. Edmison, Arts '26, and was thanked by A. G. Fleming, Arts '04.

* * * *

The annual golf tournament of the branch was held at Marlborough Golf and Country Club on June 16 and was followed by a dinner at the club, attended by forty alumni, wives and friends.

The Neil Polson cup was again won by H. S. Van Patter, Arts '12, Sc. '15, who carded the low gross score. The Past President's trophy, for low net, was won by A. J. Legault, Sc. '21, W. M. Armstrong, Sc. '20, had the second low gross, and Fred Paynter, Arts '16 the second low net. M. Bruce McLachlan, Arts '14, won the blind-par competition; and the prizes for sealed holes were taken by H. W. Davidson, Com. '34, J. E. Neilson, Sc. '28, J. F. Cliff, Arts '34, and Dr. P. D. M. Grant, Arts '26, Med. '28, J. S. Warrington, Arts '33, and B. E. Norrish, Sc. '08, won the awards for the high gross and high net, respectively. Mrs. Van Patter (Jean McPherson), Arts '19, and Mrs. R. H. Bissell (Marjory Dowsley), Arts '29, won the ladies' prizes.

The awards were presented by N. C. Polson, Jr., Arts '02, R. M. Calvin, Arts '11, Sc. '14, and Gordon J. Smith, Arts '12, Sc. '15, secretary-treasurer of the General Alumni Association, who also gave an informative talk on recent happenings at Queen's.

Sault Ste. Marie

QUEEN'S alumni in the Sault area were hosts to fifty-two members of the University of Alberta's mining and geological touring party, at a dinner and entertainment held in the Windsor House, early in May.

An excellent programme of toasts, speeches, vocal solos and community singing, enlivened by college yells, provided a most enjoyable evening. The dining-hall was tastefully decorated with the shields and colours of both universities, and with flowers supplied by the Sault Parks Board. The guests were loud in their praise of the Tricolour hospitality and, indeed, the affair reflected the utmost credit on the Sault Ste. Marie branch.

W. A. Dawson, Sc. '23, president of the branch, acted as chairman and toastmaster. After the toast to the King, Mr. Dawson pointed out that Queen's had a link with the University of Alberta in Principal R. C. Wallace, who had come to Kingston from the western institution.

Oldest university in Ontario, Queen's was one of the oldest in Canada, proudly

added the chairman. Her students were drawn from every province in the Dominion and her graduates were bound together by a spirit that was famous. The Queen's branch was the only alumni organization in the Sault.

Pride in Canada was expressed by H. F. Cliffe, Arts '17, as he proposed the toast to the Dominion. There was little fear of communism or fascism undermining the stable government of Canada, he said, asserting confidence in the future prosperity of the nation. Dr. A. D. Roberts, M.P.P., Med. '22, in response said it was the duty of all citizens of Canada to fight subversive influences.

W. W. Cook, Arts '30, proposed the toast to the professions, pointing out that the many branches had one thing in common—advancement of one meant progress for all. Response was made by Dr. R. L. Rutherford, of the University of Alberta, in a witty speech.

J. A. McInnis, Arts '15, proposed the toast to the guests, saying that love for their Alma Mater was a distinguishing mark of Queen's graduates. He urged the visitors to develop and foster the same spirit. Mrs. N. F. W. Graham, Alberta graduate, in reply recalled some of the happy episodes of her undergraduate days. Prof. O. J. Walker, of Alberta, also responded, expressing appreciation for the kind hospitality that had been accorded the tourists.

The toast to sister universities was proposed by Dr. N. F. W. Graham, Alberta graduate; and reply was made by L. H. Derrer, of McGill, J. L. Lang, of the University of Toronto, Fraser McDougall, of McMaster, and Frank McKay, of the University of Manitoba. Prof. J. Porteous led in three hearty cheers for the hosts.

A vocal solo by Miss Lillian Jobling, accompanied by Miss Jessie Elliott, was much enjoyed, as was a violin solo by Mr. E. E. Hanelt, accompanied by Miss Phyllis Foster. Rev. C. D. Donald led in the community singing, with Dr. R. F. Cain at the piano.

The chairman expressed his thanks to the committee in charge of this highly successful affair.

ALUMNI NEWS

Births

Batstone—At the Kingston General Hospital, on June 20, to Dr. H. L. Batstone, Com. '26, Med. '32, and Mrs. Batstone, a son.

Boyd—At the Kingston General Hospital, on June 21, to Dr. E. H. Boyd, Arts '28, Med. '32, and Mrs. Boyd (Eleanore Rowland), Arts '33, a daughter (Marion Agnes).

Calvin—At the Private Patients' Pavilion, Toronto General Hospital, on June 27, to C. C. Calvin, Arts '14, and Mrs. Calvin, a daughter.

Crain—At the Ottawa Civic Hospital, on May 2, to H. F. Crain, Sc. '32, and Mrs. Crain, a daughter.

Donnelly—At the Private Patients' Pavilion, Toronto Western Hospital, on May 16, to J. H. Donnelly, Arts '31, and Mrs. Donnelly, a daughter (Judith).

Edmison—On May 15, at the Royal Victoria Hospital, Montreal, to J. A. Edmison, Arts '26, and Mrs. Edmison, a daughter (Joan Alice).

Ferguson—At Port Arthur, Ont., on May 27, to Dr. G. C. Ferguson, Arts '26, Med. '28, and Mrs. Ferguson, a daughter.

Hiltz—At Toronto East General Hospital, on July 4, to Dr. J. W. Hiltz, Med. '33, and Mrs. Hiltz, of Cobourg, Ont., a daughter (Anne Louise).

Hinchley—At the General and Marine Hospital, Owen Sound, Ont., on June 7, to J. M. Hinchley, Arts '25, and Mrs. Hinchley, a daughter.

Hughes—At St. Michael's Hospital, Toronto, on May 23, to B. W. Hughes, Com. '26, and Mrs. Hughes, a son (Bernard William).

Hulse—At the Private Patients' Pavilion, Toronto Western Hospital, on May 31, to T. A. M. Hulse, Arts '29, and Mrs. Hulse, a daughter.

Lieff—At the Ottawa Civic Hospital, on July 21, to A. H. Lieff, Com. '36, and Mrs. Lieff, of Trenton, Ont., a daughter.

Macpherson — At the General Hospital, Collingwood, Ont., on May 18, to Rev. A. G. Macpherson, Arts '31, and Mrs. Macpherson (Sara Ethel MacDonald), Arts '31, of McIntyre, Ont., a daughter (Janet Agnes Ellen).

Megill—At Timmins, Ont., on June 1, to H. B. Megill, Sc. '35, and Mrs. Megill, a daughter.

Newlands—At the Medical Centre, New York City, on July 17, to Dr. W. A. Newlands, Arts '22, Med. '26, and Mrs. Newlands, of Tarrytown, N.Y., a daughter.

Nicholson—At Battleford, Sask., on July 29, to G. W. L. Nicholson, Arts '31, and Mrs. Nicholson (Edith Ashcroft), Arts '31, a daughter.

Plunkett—At the Ottawa Civic Hospital, on June 14, to Dr. J. E. Plunkett, Med. '30, and Mrs. Plunkett (Marion Moffatt), Arts '26, a daughter (Diana Bayne).

Rickerd—At the Chambers Memorial Hospital, Smiths Falls, Ont., on June 4, to Harry Rickerd, Arts '25, and Mrs. Rickerd (Mildred Sheridan), Arts '18, a son.

Rutledge—At the Private Patients' Pavilion, Toronto Western Hospital, on July 16, to C. M. Rutledge, Arts '33, and Mrs. Rutledge, a son (John Christopher).

Shorey—At the Private Patients' Pavilion, Toronto General Hospital, on June 19, to Dr. K. M. Shorey, Med. '16, and Mrs. Shorey, a son.

Slack—At the Kingston General Hospital, on June 4, to Dr. W. R. Slack, Med. '34, and Mrs. Slack, of Harrowsmith, Ont., a daughter.

Spence—At Timiskaming, Que., on July 6, to G. H. Spence, Sc. '30, and Mrs. Spence, a daughter (Sandra Jean).

Stevens—At St. Joseph's Hospital, Sudbury, Ont., on June 14, to M. S. Stevens, Sc. '31, and Mrs. Stevens (Janet Margaret Nelson), Arts '30, a daughter.

Tennyson—At the General Hospital, Chatham, Ont., on May 21, to A. H. Tennyson, Arts '32, and Mrs. Tennyson, of Wallaceburg, Ont., a daughter (Cynthia Jean).

Marriages

Anderson—On May 20, at St. Michael's and All Angels Church, Toronto, Helen Mae Minns to John Nelson Anderson, Sc. '28.

Bohan—At St. Thomas Church, Wilmington, Del., on June 5, Mary Anne Mullarkey, daughter of Mr. and Mrs. John Mullarkey, to Dr. Edward Michael Bohan, Med. '31.

Brigginshaw—In Vancouver, B.C., during February, Mary Helena Brigginshaw, Arts '14, to Thomas Bennett, of Ottawa.

Clemens—At St. Clement's Church, North Toronto, in June, Ruth Irene Clemens, Arts '35, to Robert Wilson Downey.

Cudmore—On July 1, at Buffalo, N.Y., Mary Marguerite Runstadler to Dr. William Everard Cudmore, Med. '27.

Darling—On April 17, at Bissett, Man., Bernice Demler, of Starbuck, Man., to Ralph Vernon Darling, Sc. '35.

Darling-Smith—At Kirkland Lake, Ont., on August 5, Edith Marion Smith, Arts '37, to Allan Graydon Darling, Sc. '35.

Donnelly—On May 29, at Westminster Central United Church, Toronto, Lulu Marian Lloyd, daughter of Mr. and Mrs. J. H. Lloyd, of Creemore, Ont., to William David Donnelly, Sc. '25, of Windsor, Ont.

Hayes—At St. Theresa's Church, Ottawa, on May 11, Elizabeth Frances Warnock, of Arnprior, Ont., to J. E. Hayes, Sc. 35, of Ottawa.

Horne—At Strathcona, Que., on June 5, Fannie Alberta Horne, Arts '22, to Ashley James Smith, of Campbellton, N.B.

Hudgin—On July 23, in Kingston, Mary Rosalind Hudgin, Arts '33, to James Michael Bryne, of Manchester, England.

Hunter—On June 19, in Dutton, Ont., Florence Cathleen MacLean Hunter (Florence MacLean), Arts '25, to A. Robert Huisgen. The ceremony was performed by the bride's father, and Miss Marion McLean, Arts '25, was bridesmaid. Mr. and Mrs. Huisgen are residing at 1046 North Military Road, Niagara Falls, N.Y.

Kenney—At Sydenham Street United Church, Kingston, on May 29, Margaret Webster Best, daughter of Mr. and Mrs. L. T. Best, Kingston, to Dr. Athol Stewart Kenney, Med. '33, of Philadelphia, Pa.

Krug—At Hamilton, Ont., on June 10, Dorothy Berthena Buck to Clayton Milton Krug, Arts '37.

Lee—On June 27, at St. Andrew's United Church, North Bay, Ont., Amey Caroline Lee, Arts '29, daughter of Mr. and Mrs. George W. Lee, to Gilbert Crichton Temple, of Toronto.

Lott—At Parkview United Church, Stratford, Ont., on July 3, Alfreda Gladding to G. Albert Lott, Arts '22, of Toronto.

Low—At Chalmers United Church, Kingston, on July 17, Ruth Taylor Wright to Richard Alexander Low, Sc. '28, of the Science staff at Queen's.

McGuire—At Smiths Falls, Ont., recently, Jeannette Naud to Dr. John J. McGuire, Med. '33.

McKenzie—On April 21, in Kitchener, Ont., Elizabeth Hastings to Allan Hugh McKenzie, Arts '27, of Toronto.

McLennan—On July 31, at Knox College Chapel, Toronto, Mary Margaret Ovens to Grant Ramage McLennan, Arts '31. The ceremony was performed by the groom's father, Rev. G. B. McLennan, Arts '01, Theol. '16, and Mary McLennan, Arts '34, was bridesmaid.

Mauer—On June 4, in St. Paul's Church, Yonkers, N.Y., Alice Virginia Redding, daughter of Mr. and Mrs. F. W. Redding, New York City, to Dr. John Henry Mauer, Med. '37.

Meiklejohn-Ramsay—On August 4, at King Street United Church, Trenton, Ont., Margaret Jean Ramsay, Arts '30, to Allen Francis Meiklejohn, Arts '30.

Plewes—On August 4, at St. Peter's Church, Brockville, Ont., Margaret S. Hardy, of Hornepayne, Ont., to Dr. Argyle Campbell Plewes, Sc. '29, of Charleston, West Virginia.

Preston—On July 22, at Saffron, Walden, Eng., Frances Read to Flying Officer J. H. G. Preston, Med. '35.

Purvis—At St. Clement's Church, Toronto, Ont., on June 26, Anne Estelle Fuller McKinley to Dr. William McCrimmon Purvis, Med. '33.

Rankin—On May 18, at Collins Bay, Ont., Marion Pirie Rankin, Arts '27, to Reginald Morgan Kennedy, of Guelph, Ont.

Ransom—On July 27, at Nelson, B.C., Erica Mundy to Frederick Charles Ransom, Sc. '30.

Rattray-Brown—On July 1, in Sydenham Street United Church, Kingston, Ont., Edith Margaret Brown, Arts '35, to David Eugene Rattray, Sc. '35, of Toronto.

Revelle—On July 7, at Ottawa, Mary Deluca to Dr. Ian Revelle, Arts '15, Med. '27.

Robb—On May 22, in Kingston, Edna Vietta Pound, daughter of Mrs. Pound and the late Mr. F. J. Pound, Kingston, to Andrew Stuart Robb, Sc. '36, of Copper Cliff, Ont.

Rogers—Recently, in the Morgan Memorial Chapel, Queen's University, by the Rev. Dr. W. P. Fletcher, Arts '96, Frances Pauline McKeown, of Croydon, Ont., to Dr. Homer C. Rogers, Med. '37, of Regina, Sask.

Scharfe—On May 29, in New York City, Marjorie McConaghy to Rev. Howard C. Scharfe, Arts '31.

Seager—In St. Paul's Cathedral, London, Ont., on June 26, Margaret Lillian Seager, Arts '29, to James Lauriston Auld, of London.

Sharpe—On July 1, in St. James's Church, Kingston, Fredericka May Sharpe, Arts '27, to Joseph Wilson Dyer, of Toronto.

Smith-Edwards—In the Morgan Memorial Chapel, Queen's University, on June 26, Mabel Edwards, Arts '25, to Arthur Browning Smith, Arts '35, of Toronto.

Smith-Shillington—On June 25, Evelyn Claire Shillington, Arts '35, to L. M. A. Smith, Sc. '36, of Timmins, Ont.

Snedden — In Princess Street United Church, Kingston, on June 30, Flora Miriam Sproule, of Westbrook, Ont., to Dr. Frederick William Snedden, Med. '31, of Iroquois, Ont.

Stein—On March 25, 1936, at Ogdensburg, N.Y., Sally Dubenofsky, of Kingston, to Dr. Felix Stein, Arts '33, Med. '37.

Strong—At Deer Park United Church, Toronto, on July 3, Helen Jean Harper to Albert Earle Strong, Arts '30, of Toronto.

Sugarman—Cohen—On July 20, at the home of the bride's father, Kingston, Miriam Sybil Cohen, Arts '34, to Dr. Irwin Sugarman, Arts '34, Med. '36. Dr. and Mrs. Sugarman expect to sail in September for England, where Dr. Sugarman will do postgraduate work.

Tobin-Keenan—In St Patrick's Church, Watertown, N.Y., on June 6, Mary Margaret Keenan, Arts '28, of Kingston, to Dr. Harry L. Tobin, Med. '28, of Binghamton, N.Y. The bride was attended by her sister, Catherine Ann Keenan, Arts '27.

Weir—At St. Paul's Church, Kingston, on June 26, Gladys Geraldine Wylie to Robert Lehigh Weir, Sc. '36, of Hamilton, Ont.

Widdifield—On July 24, Vera E. Fewings, of Millbank, Ont., to Ivan Widdifield, Sc. '35, of Niagara Falls, Ont.

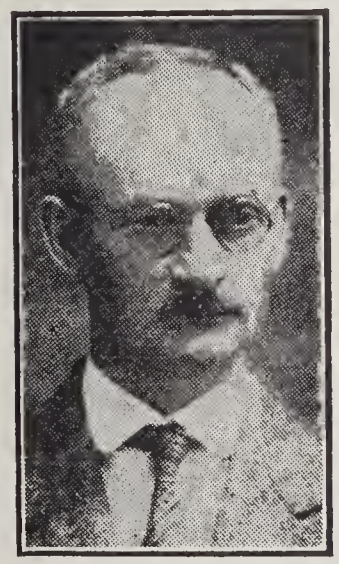

Winsor — Recently, at Trinity United Church, Summerside, P.E.I., Jean Mildred Townsend, of Sherbrooke, P.E.I., to Dr. A. E. Lacey Winsor, Med. '29, of Norton, N.B.

Wright-Scott—At the home of the bride's parents, Kingston, on July 5, Maud Geraldine Scott, Arts '29, to Frederick Garland Wright, Sc. '33, of Westport, Ont.

Young-Couch—In the Morgan Memorial Chapel, Queen's University, on June 30, Marguerite Alta Couch, Arts '35, of Smiths Falls, Ont., to Rev. Robert William Young, Arts '33, Theol. '36. They will reside at Belle Plaine, Sask.

Deaths

Anderson—Head of the science and agricultural departments and assistant principal of the Brockville, Ont., Collegiate Institute and Vocational School, John A. Anderson, Arts '09, died suddenly in Brockville on June 30 aged sixty-two years. Mr. Anderson was born at Rossmore, Ont., and attended Albert College, Belleville, before entering Queen's in 1905. As an undergraduate he won the Gowan Foundation prize in botany. In 1909 he obtained his B.A. degree, and the following year his non-professional specialist certificate in science. He taught at Smiths Falls and Wingham, Ont., and Davidson, Sask., before going to Brockville in 1919. He was a member of the Wall Street United Church official board, a teacher in the Sunday School and a valued member of the choir. He was a vice-president of the Brockville Horticultural Society, and a former president of the Kingston division of the Ontario Secondary School Teachers' Federation. Surviving are his wife, one son (Samuel Anderson, Arts '37), three brothers and two sisters.

J. A. ANDERSON

Anglin—For thirty years superintendent of the Provincial Hospital, Lancaster, N.B., Dr. James Vickers Anglin, Arts '83, Med. '87, died in Saint John General Hospital on July 8, at the age of seventy-six. Dr. Anglin was born and received his preliminary education in Kingston. He entered Queen's at fifteen, and as an undergraduate won two scholarships. In 1883 he obtained his B.A. degree and four years later graduated in Medicine. A postgraduate course

at Edinburgh followed and, in 1891, he joined the staff of Verdun Asylum, Montreal. He was assistant medical superintendent there when he received the appointment as head of the Lancaster Hospital in 1904. For thirty years he held this post, performing his arduous duties with ability, not only as an authority on mental diseases but as an administrator. He retired in 1934. Dr. Anglin had served as local vice-president of the Maritime Medical Association and as provincial secretary of the Canadian Medical Association. He had been a member of the Mental Hygiene Council of New Brunswick and was a strong advocate of better provision for the care of mental defectives. In 1918, he was elected president of the American Psychiatric Society. Also, for a period, he had been surgeon to the 62nd Regiment, with rank of captain. He was an active member of Centenary United Church. He had been president of the Canadian Club and, for years, a prominent Rotarian. He is survived by his wife and three sons.

Armstrong—Assistant office engineer of the topographical survey branch of the Department of Mines and Resources, William B. Armstrong, Sc. '11, died in Ottawa on June 10, in his fifty-fifth year, following an illness of about two weeks' duration. Mr. Armstrong was born near Hamilton, Ont., and was tutored privately before entering Queen's in 1907. He graduated with his B.Sc. degree four years later and immediately joined the staff of the topographical survey division. In 1919 he was appointed assistant office engineer, which position he held until his death. He was a member of the Masonic Lodge, A.F. & A.M., of Dorchester, Ont.; a member of the Ottawa Temple Choir and of the choir of St. James United Church. Surviving are his wife, two daughters, two sons, one brother and two sisters. Interment was made in Beechwood Cemetery, Ottawa.

Fairfield—Suddenly, at the home of his sister in St. Catharines, Ont., Dr. Charles Alexander Durham Fairfield, Arts '87, passed away on July 4. He was seventy-three years of age. Dr. Fairfield was born in St. Catharines, of U. E. L. stock, and received his early education in that city. He entered Queen's in 1883 and graduated four years later with the degree of B.A. He attended Trinity Medical College, Toronto, after leaving Queen's, obtaining his M.D. in 1890. The remainder of that year he spent in postgraduate study in London, Edinburgh and Dublin. In 1891 he opened a practice in Beamsville, Ont., which he carried on for forty years, operating a drug-store as a side-line. He was an active member and worker in the Methodist Church. His wife predeceased him in 1931, and two years later he retired from his profession and business, making his home with his sister, Miss Belle Fairfield.

Marlin—At the age of sixty years, Lewis A. Marlin, Arts '10, passed away at his home in Welland, Ont., on May 26. Mr. Marlin was born and received his early education at Barrie. After graduating from Queen's in 1910 with his M.A. degree and his specialist's certificate in science, he taught in various schools of the Province. In 1922 he was appointed as a public-school inspector at Cochrane, and in 1931 he was transferred to Welland, retiring four years later owing to ill-health. He was a member of the Canadian Order of Foresters at Barrie, and of Perth Masonic Lodge. Surviving are his wife, two sons and two daughters.

Morrison—In failing health for several months, Matthew Ramille Morrison, Arts '35, died in Ottawa on July 11, at the age of thirty. A member of the Ottawa public schools staff for seven years, Mr. Morrison was recently appointed principal of Lady Evelyn School. He was born in Scotland and came to Canada when a child, receiving his early education in Belleville, Ont. He attended several sessions of Queen's Summer School and Toronto Normal School, obtaining his B.A. from Queen's in 1935. For five years he served as principal of the public school at Point Anne, near Belleville, before going to Ottawa. He was prominent in several fraternal societies of Ottawa and elsewhere and was also keenly interested in various sports. He is survived by his wife, one brother and one sister.

Young—One of the pioneer lawyers of British Columbia, Judge Frederick McBain Young, Arts '86, died at his home in Vancouver on May 31 after an illness of six months. Judge Young was born at English River, Que., near Montreal, in 1863. He received his early education in Napanee, Ont., and entered Queen's at the age of seventeen, obtaining his B.A. degree four years later. He studied law at Osgoode Hall and began legal practice at Grimsby, Ont. In 1888 he went to British Columbia, opening a practice at Nanaimo. At the time of the gold rush he moved to Atlin, and was appointed first judge of the county court of Atlin in 1905. The county seat was later moved to Prince Rupert, where he lived until his retirement in 1933. Judge Young served as grand master of the Masonic Lodge of British Columbia in 1901 and 1902, and was a member of Doric Lodge, A.F. & A.M., Nanaimo. He is survived by his wife, one daughter, one son and one brother.

Notes

1890-1899

Rev. I. N. Beckstead, Arts '99, of Watson's Corners, Ont., is retiring after many years in the ministry of the Presbyterian Church.

Miss Anne E. Gordon, Arts '97, who spent the past year and a half in California, has now returned to Beeton, Ont.

ROOM 505, 112 YONGE ST.
TORONTO, ONT.
'PHONE EL. 3159
G. R. MCLAREN, SC. '07
COLIN A. CAMPBELL, SC. '22

Miss Edna B. Griffith, Arts '96, who has been on furlough in Canada for some time, is returning to her missionary work in China this month.

Hon. H. H. Horsey, Arts '95, who has been a member of the Senate of Canada since 1928, and who for many years prior to then was general agent for the Manufacturers Life Insurance Company in Eastern Asia, had an interesting article in the June "News Letter" of that company concerning insurance in the Orient.

W. W. King, Arts '95, has resigned from the staff of the Barringer High School, Newark, N.J., owing to ill health. He is living at 30 North Burnett St., East Orange, N.J.

Rev. A. McMillan, Arts '99, has moved from Kelowna to Naramata, B.C.

Col. V. I. Smart, Arts '98, deputy minister, Department of Transport, Ottawa, delivered a paper on "Railway Construction" at the semicentennial meeting of the Engineering Institute of Canada, held in Montreal in June.

1900-1909

Dr. E. L. Bruce, Sc. '09, Arts '11, Miller research professor of geology at Queen's, was official representative of the Canadian government at the recent International Geological Conference in Russia. He was also one of the representatives of the Geological Society of America. During June,

Dr. Bruce was with the survey parties of the Geological Survey of Great Britain.

Miss Wilhelmina Gordon, Arts '05, assistant professor of English at Queen's, who is educational secretary for the Imperial Order, Daughters of the Empire, attended the national convention of the order held in Quebec City in May.

D. B. Johnston, Arts '01, has resigned after a long and successful career in the teaching profession in Vancouver, B.C. He went there to teach immediately after graduation, and in 1917 was appointed principal of the King George High School, which position he has held since.

G. R. (Scotty) McLaren, Sc. '07, is now in partnership with **Colin A. Campbell,** Sc. '22 under the firm name of McLaren, Campbell and Company, Consulting Engineers, Room 505, 112 St. George St., Toronto.

Miss Elizabeth McNab, Arts '01, is secretary to the Lieutenant-Governor of Saskatchewan.

J. G. Macphail, Arts '03, Sc. '05, chief of the aids to navigation division of the Dominion Department of Transport, delivered a paper on "'Lighthouse Engineering" at the semicenteninal meeting of the Engineering Institute of Canada, held in Montreal in June.

Dr. R. K. Paterson, Med. '06, of Ottawa, was elected president of the Ontario Medical Association at its annual meeting held in Ottawa recently .

Dr. P. J. Quinn, Med. '08, is in private practice at 1110 Genesee Park Blvd., Rochester, N.Y.

J. H. Smith, Arts '03, who has been public-school inspector at Stratford, Ont., for nearly thirty years, is retiring this summer. He joined the public-school teaching staff at Stratford in 1904, and four years later was appointed public-school inspector for the city. A few years later five townships were added to his inspectorate.

W. P. Wilgar, Sc. '03, professor of civil engineering at the University, has been appointed to represent the city on the Kingston Suburban Roads Commission.

1910-1919

H. M. Anderson, Sc. '12, is secretary-treasurer for the Red Lake Mackenzie Mines, with headquarters in Toronto.

Dr. I. P. Asselstine, Arts '19, is in dental practice at Port Dover, Ont.

A. L. Brooks, Arts '14, of Welland, Ont., was bereaved on June 23 by the death of his wife.

F. W. Danby, Arts '11, principal of the Kingston Collegiate and Vocational Institute, was recently elected president of the Kingston Rotary Club.

Miss Hilda Laird, Arts '18, assistant professor of German at Queen's, is spending the summer at Cornell University, Ithaca, N.Y.

Miss Elizabeth MacCallum, Arts '19, who is in charge of the International Literature and information service of the League of Nations Society, was guest speaker at a recent meeting of the Kingston Local Council of Women. She spoke on the efforts of the Society in the cause of peace.

Rev. J. Y. MacKinnon, Arts '11, Theol. '15, conducted the baccalaureate services held on May 30 at St. Andrew's United Church, London, Ont., in connection with the graduating exercises of the University of Western Ontario.

Dr. W. A. Mackintosh, Arts '16, head of the commerce department at the University, spoke to the Montreal Kiwanis Club on June 10 on "Some Aspects of Employment." Dr. Mackintosh was introduced by **George Fraser,** Arts '04, of the Fraser Publishing Company.

G. W. MacLeod, Sc. '13, has been appointed head of the mines department of the Algoma Steel Corporation, Sault Ste. Marie, Ont.

K. P. Macpherson, Sc. '14, formerly with the Northern Electric Company, is now plant superintendent for the Canadian Marconi Company, Montreal.

S. C. Morgan, Sc. '16, who has been assistant professor in the electrical engineering department at Queen's since 1928, has been appointed associate professor of electrical engineering at the University of British Columbia. He will assume his new duties in the fall.

D. A. Nichols, Sc. '11, was recently appointed a member of the International Geographical Union, National Committee of Canada. He left Ottawa in the early summer to continue his geographical studies of the Eastern Arctic Archipelago and Bellot Strait, at the tip of the Boothia Peninsula, which no expedition has touched for more than a hundred years.

R. M. Scott, Arts '17, formerly assistant agricultural editor of the "Winnipeg Free Press," is now director of publicity in the division of marketing, Department of Agriculture, Ottawa. Mr. Scott graduated from the Manitoba Agricultural College in 1926.

R. M. Smith, Sc. '13, deputy minister for the Ontario Department of Highways, delivered a paper on "Road Building" at the semicentennial meeting of the Engineering Institute of Canada, held in Montreal during June.

J. M. Wardle, Sc. '12, director of the surveys and engineering branch of the Department of Mines and Resources, Ottawa, delivered a paper on "Surveying and Mapping" at the semicentennial meeting of the Engineering Institute of Canada.

R. R. Watson, Sc. '12, is purchasing agent for the Lamaque Gold Mines, Bourlamaque, Que.

Dr. E. H. Wood, Arts '11, Med. '14, of Ottawa, was the author of two very interesting articles in the February and May issues of the "Legionary" on his work and experiences overseas with the Royal Army Medical Corps.

1920-1929

Mrs. J. H. Armstrong (Freda Moses), Arts '24, is living at 112 York St., Cornwall, Ont.

W. M. Armstrong, Sc. '20, was recently promoted to the position of assistant director of the bureau of economics, Canadian National Railways, Montreal.

C. O. Bartels, Com. '27, has been carrying on business in his own name as an investment counsellor in Toronto for some time. His address is 73 Adelaide St. W.

R. H. Bauld, Sc. '28, after several years with the British Copper Refineries, Prescott, England, is now superintendent of the smelter at the Roan Antelope Mines, Luanshya, Northern Rhodesia.

R. H. Bissell, Sc. '28, of the purchasing staff of Canadian Industries Limited, Montreal, is president of the Montreal Young Men's Canadian Club for the 1937-38 year. year.

Austin Cross, Arts '23, of the "Montreal Daily Star," is writing a series of five articles on the waterfront for Maclean's, some of which have already been published. He is also contributing to "Canada Weekly," an English publication devoted to Canadian trade, and to "Canadian Business," the official organ of the Canadian Chamber of Commerce. His second book, "Snobs and Spires," has just been published by the Ryerson Press.

Elsie Davidson, Arts '23, of Prescott, Ont., was bereaved by the death of her father in July.

J. A. Edmison, Arts '26, was recently appointed counsel to the Montreal Tourists Convention Bureau.

J. H. Hipwell, Sc. '23, is in the engineering department of the Eastman Kodak Company, Rochester, N.Y. His residence address is 17 River Heights.

H. C. Jenkinson, Sc. '27, is now on the staff of Mr. John Stadler, consulting engineer, 1117 St. Catherine St. W., Montreal.

F. S. Lee, Sc. '25, is resident engineer in Toronto for the Shell Oil Company. His address is 294 Williard Ave.

W. M. Lewis, Sc. '25, is now road superintendent for the Township of Ernestown. His address is R.R. No. 4, Napanee, Ont.

J. V. Ludgate, Sc. '23, is assistant division engineer for the Ontario Department of Highways at North Bay, Ont.

Dr. R. O. MacFarlane, Arts '24, professor of history at the University of Manitoba, was the special speaker at the luncheon meeting of the Ontario College of Pharmacy Alumni Association held during the druggists' convention at Kingston in June. His subject was "His Majesty King George VI, King of Canada."

J. S. McGrath, Com. '27, of Montreal, and **Dr. J. J. McGrath**, Med. '30, of Poughkeepsie, N.Y., were bereaved on May 16 by the death of their father.

Lending is a Public Service

Sound banking is essential to the progress of a community.

One of the major services The Canadian Bank of Commerce has to offer is the lending of money to farmers, manufacturers and other business men.

If you need a bank loan, based upon good faith, ability and resources, consult any of our Branch Managers.

IMPERIAL OIL LIMITED

H. M. McIlroy, Sc. '28, who has been with the International Harvester Company, Hamilton, Ont., since graduation, is going to the University of British Columbia this fall as a member of the engineering staff.

W. S. Miller, Sc. '28, who was temporarily with the Chromium Mining and Smelting Company at Sault Ste. Marie, recently returned to Canadian Industries Limited, Shawinigan Falls, Que.

Dr. C. D. T. Mundell, Com. '24, Med. '30, is now on the staff of the Franklin Institute, Philadelphia, Pa.

J. D. Murray, Sc. '25, of Ottawa, was bereaved on July 28 by the death of his mother, Mrs. David Murray, of Kingston.

H. J. Racey, Sc. '28, who has been with Messrs. Crane Limited, Montreal, for the past two years, was moved to St. John's, Que., recently, where he became assistant manager of Canadian Potteries, Limited, the sanitary-ware plant of the Crane Company.

D. G. Robertson, Sc. '23, formerly on the Toronto staff of the Coca Cola Company, is now with George Robertson and Son, Ltd., wholesale grocers, Kingston.

Cecil Rutherford, Sc. '23, is superintendent of the Raven River Mines, Larder Lake, Ont.

E. A. Thomas, Com. '26, has been appointed Montreal manager for Messrs. Craine Limited, printers, of Ottawa.

G. C. Toner, Arts '28, of Gananoque, Ont., has just published a booklet entitled "Preliminary Studies of the Fishes of Eastern Ontario," which is being circulated by the Eastern Ontario Fish and Game Protective Association.

1930-1937

H. P. Beale, Arts '30, has completed his studies at Osgoode Hall and was recently called to the bar.

J. F. Benjafield, Sc. '33, has joined the Foundation Company of Canada, at Montreal, Que.

E. I. Browne, Sc. '36, is now office manager for the F. F. Barber Machinery Company, of Toronto, Orillia and Walkerville. His address is 369 Davisville Ave., Toronto.

Rev. J. G. Brown, Arts '33, Theol. '36, of Prestonpans, Scotland, supplied for three weeks this summer at Erskine and American United Church, Montreal.

Dr. J. E. Boucher, Med. '35, has started a private practice at Chelmsford, Mass.

D. G. Burr, Arts '36, has joined the staff of the London Life Insurance Company, London, Ont.

Dr. E. H. Charlesworth, Arts '30 (Ph.D. Oxford), who has been on the staff of the chemistry department at Queen's for the past three sessions, recently accepted a position as lecturer in chemistry at the University of Manitoba.

R. E. Clarke, Sc. '35, of the Ontario Department of Highways staff, is at present doing construction work on the scenic highway near Ivy Lea.

C. R. Coughlin, Com. '37, is in the statistical division of Jones, Heward and Company, St. James St., Montreal.

F. W. Cranston, Sc. '36, recently joined the staff of the Babcock-Wilcox and Goldie McCullough Company, Galt, Ont.

R. G. Davidson, Sc. '35, who was on the staff of the employment service at the University from September, 1936, to June, 1937, is now with the Bell Telephone Company, Montreal.

W. G. Dore, Arts '33, has been appointed lecturer in botany at Dalhousie University, Halifax, and will take over his duties this fall. Since graduation he had done research work at McGill, receiving his M.Sc. there in 1935, and this summer he has been instructing in botany at the Queen's summer school.

Miss Muriel D. Farmer, Arts '37, has accepted a position as laboratory technician at the Holy Cross Hospital, Calgary, Alta.

K. C. Field, Sc. '37, is with the International Harvester Company, Hamilton, Ont. His address is 99 Gladstone Avenue.

Miss Hazel Francis, Arts '35, received her diploma in social science at the University of Toronto in May.

Dr. W. J. Gordon, Med. '32, formerly at Ottawa, recently opened a practice at 166 Brock St., Peterborough, Ont.

Miss Marjorie Grant, Arts '36, who did postgradute work at the library school of the University of Toronto last year, has been appointed to the permanent staff of the Toronto public libraries.

F. W. H. Gussow, Arts '34, has been in the sales department of the Bell Telephone Company, Montreal, for the past year and a half.

W. L. Hare, Arts '31 Sc. '33, who did postgraduate work in mechanical engineering at Queen's last session, is now on the staff of the Dominion Rubber Company, Montreal.

A. A. Hesketh, Sc. '36, is in the dyeing and finishing department of Canadian Celanese Limited, Drummondville, Que.

J. G. Kerfoot, Sc. '36, is in the telephone department of the Phillips Electrical Company, Brockville, Ont.

H. H. Langford, Arts '35, has been appointed principal of Victoria School, Kingston.

A. H. Lieff, Com. '36, is a pilot officer in the stores and accounts branch of the R. C. A. F., and is stationed at Trenton, Ont.

C. I. Little, Com. '32, has been cost accountant with Philco Products, 1244 Dufferin St., Toronto, for the past year.

O. E. B. Low, Arts '34, who has been studying at Osgoode Hall since graduation, was called to the bar in June.

Miss Marie McCann, Arts '35, has received her diploma in social science from the University of Toronto.

Dr. J. B. McCarthy, Med. '35, has opened an office for the practice of medicine and surgery at 2905 Avenue M., Brooklyn, N.Y.

Dr. A. J. McCue, Med. '36, who has been assisting **Dr. J. T. Hogan,** Med. '05, of Smiths Falls, Ont., during the past year, left recently to take a postgraduate course in surgery at Cleveland, Ohio.

R. G. McKelvey, Sc. '32, formerly on the staff of the Hollinger, was recently appointed underground superintendent at the Hardrock Gold Mines, Geraldton, Ont.

Miss Emma McPeake, Com. '30, has a position with the Great Lakes Power Company, Sault Ste. Marie, Ont.

Dr. M. St. J. Macphail, Arts '33 (Ph.D. Oxford), recently teaching at Ashbury College, Ottawa, has been appointed to the mathematics staff of Acadia University, Wolfville, N.S.

Ernie Marks, Arts '34, was awarded the silver medal and the Chancellor VanKoughnet scholarship, worth $400, when he graduated from Osgoode Hall recently.

A. D. Matheson, Arts '35, is at present in the chemical division of the National Research Council, Ottawa.

J. D. Millar, Sc. '30, of the Ontario Department of Highways, has been transferred from the Brockville to the London district, where he is municipal engineer for the counties of Oxford, Norfolk, Middlesex and Elgin.

Dr. R. B. Murray, Med. '35, who spent two years as Richardson fellow in pathology at the Kingston General Hospital, recently opened a practice in Markdale, Ont.

R. M. Nicholson, Sc. '33, has accepted a position with the Tropical Oil Company at Barranca-Bermeja, Colombia. He was formerly on the staff of the Dufferin Construction Company, Toronto.

Dr. Maurice O'Connor, Med. '34, has joined the staff of the St. Lawrence State Hospital, Ogdensburg, N.Y.

John Parker, Arts '34, was recently called to the Ontario bar and is now practising at Kirkland Lake, Ont., as a member of the firm of Hill and Parker.

D. M. Parsons, Sc. '36, has been with the Northern Electric Company, Montreal, for the past few months.

W. H. Paterson, Sc. '34, is now on the engineering staff of the Tropical Oil Company in Colombia.

Allan Pollock, Sc. '33, is working at the McIntyre Mine, Schumacher, Ont.

Dr. K. H. Running, Med. '36, is assisting **Dr. D. A. Coon,** Med. '90, in his practice at Elgin, Ont.

Dr. J. C. Samis, Med. '32, has been appointed to the fellowship in surgery at the Kingston General Hospital, as provided under the Alice Richardson bequest. He will also do private practice in surgery in Kingston.

Miss Ilse Schroeder, Arts '32, formerly teaching at Picton, Ont., has been appointed head of the department of modern languages at the Galt Collegiate Institute.

"Do you believe in love at first sight?"

THREE GIRLS ON WHEELS

By Jean Cameron, Arts '34

MUNICH has more bicycles than any other city in the world except Copenhagen. Everyone, even grandmothers and babies, owns and rides a machine. In order to enjoy the life fully I bought a bicycle, and many an interesting journey I made in and out of this picturesque German city. Thus, when two Smith College girls invited me to to accompany them on a five-hundred-mile jaunt to Vienna, I was prepared and eager for such an adventure.

JEAN CAMERON

The papers necessary for crossing borders proved to be as complicated as if we were driving automobiles instead of humble bicycles. For the trip I wore a Dirndl dress, the national costume of Bavaria, while my companions donned shorts, which often *en route* inspired hooting and cat-calls, particularly from soldiers.

We started our long tour with an hour's ride on the train to Rosenheim. We had sworn no foolish oath to pedal every kilometer or not to cheat by stealing a tow from trucks passing us on the hills; and although we loved the great plain around Munich, with its onion-towered Baroque churches and gaily printed, balconied peasant-houses, we thought best to save time for the southeastern corner of Germany. So, one Saturday morning early in May, we were pedalling resolutely down the long dusty street which leads from Rosenheim into the country, each with a heavy knapsack strapped to the back of her bicycle.

After a pleasant day we arrived at Gstadt, a small town on Lake Chiemsee. The latter is famous in southern Bavaria for its two tiny islands, the Herreninsel and the Fraueninsel. We secured a room for the night and then rowed across the stormy-looking lake to the Fraueninsel. On this miniature island is a quaint little Benedictine convent where the nuns make delicious liqueurs. After exploring the island, we enjoyed a cup of coffee in the only *Gasthaus,* where we met a large group of men and women tourists. They belonged to an organization founded by Hitler, whereby all German employees are enabled to tour the country, attend operas, ski, etc., at ridiculously low prices—about one-third the usual amount.

We had a good night's rest in a clean, attractive room, despite the gruntings and snortings of pigs which were stabled in the house itself, directly under our bedroom. After a substantial peasant breakfast, no continental coffee-and-roll affair, we set forth again, early Sunday morning. As we left, several of the townsfolk—the women in their attractive native costumes with tight bodices and full skirts, the men in short leather breeches, embroidered jackets and socks—waved good-bye.

Late in the day we arrived at Berchtesgaden, after a delightful afternoon spent pedalling through the beautiful Bavarian Alps. A surprising fact is that one seldom tires in these mountains, no matter how great the exertion, as the air is so bracing and refreshing.

The next morning we made a flying trip down to Königssee — one of Bavaria's best-known and most beautiful lakes. We rented a small skiff and rowed to the little chapel of St. Bartholomä. Our rowing caused considerable amusement for a boatful of soldiers, but we cared little.

Regretfully we returned to Berchtesgaden, where we waited, in vain, for an impending thunder-storm to pass over. Little did we realize that, with the exception of our three days in Vienna, we were to have almost continuous rain for the whole two weeks of cur journey.

We reached Schellenberg, a frontier village, in an hour's time. As we were waiting for the German official to see that we were taking out of the country no more than the famous ten Reichsmarks, we were greeted by several peasants on their way home from work, with a lusty *"Heil Hitler!"* This form of salute has entirely replaced the picturesque *"Grüss Gott!"* in many districts.

The Austrian officials were quite interested in us—three girls all alone, and from America! Endless questions about the life over there, where we were going, our plans and so forth. Finally we were passed through, and the first lap of our journey was ended.

Salzburg was the next stop, and our arrival was greeted by a terrific storm. We were kindly invited into the police station to wait for the rain to pass, and the officials even went so far as to telephone a boarding-house in order to arrange for our night's accommodation. Such kindness we soon found was not at all uncommon.

In the morning we wandered through the old section of the town until we reached the Cathedral, which possesses the largest pipe organ in Europe. Here we had the good fortune to hear one of the famous organ recitals. We had lunch beside the Cathedral in the Peterskeller, a well-known restaurant, relic of the ancient days when the monks themselves served the guests with wine.

Then we climbed up a long, steep road to the Salzburg fortress which, in medieval times, must have been almost impregnable—huge, thick, practically unscalable walls, its own water supply—a small village in itself. At present it is used as a garrison post for Austrian soldiers.

THE AUTHOR, EN ROUTE

For the next two days, incessant rain and foggy weather prevented us from appreciating the beauties of the Salzkammergut district. We passed by Mondsee, the famous Wolfgangsee, and down to the Hallstättersee. A few kilometers from Hallstatt are extraordinary caves dating back to the ice age, i.e., the Hallstatt era in geology. In order to visit these caves, we were forced to leave our bicycles at the foot of a mountain and then climb for about two hours. We had been warned to wear heavy clothing because of the terrific cold, but we did not have any. At the summit was a skiing shelter, and here we fortified ourselves with a plate of hot soup. The moun-

tains in this region are honeycombed with caves, and the one we visited was magnificent. It was artificially lighted, the bulbs being skilfully hidden behind the ice formations. Only white light was used, but the thickness and clarity of the ice transmitted varying colours of blue, green and yellow. After an hour in this intensely cold cave, we visited others, and it was a relief to emerge into the bright warm sunshine. On the way down the mountain, we plucked many little Alpine flowers to keep in remembrance of our visit.

On the way home we were once more drenched to the skin. I wonder that we did not catch dreadful colds on this trip, as we were wet most of the time and the innkeepers seemed to think they had done their duty if the kitchen was kept warm. Apparently they are not in the habit of considering the poor, wet guest shivering upstairs in a cold bedroom or trying to enjoy a meal in a draughty dining-room.

The next day, after visiting a quaint old chapel, we started out for Bad Aussee, just twelve kilometers distant. But what a twelve kilometers! We took the only road, which was grossly misrepresented by a sign marked "Good Road." At first we climbed higher and higher over a gravel trail, practically vertical, pushing our bicycles ahead of us, and all the while small mountain torrents rushed down the road-bed and swirled about our feet. But even this road, poor as it was, soon gave way to a path pitted with holes and mud-puddles, and strewn with numerous boulders—a mere track over the face of the mountain. The rain increased and the wind blew steadily, until we thought we could cope with the elements no longer. My hands and feet were numb with cold.

Whatever possessed us to set out on a bicycle trip at this season of the year? Well, weeks earlier the mayflowers were blooming near Innsbruck and the crocuses and gentians were already fading in the Tyrol valleys. We had had every right to think that summer had arrived.

Eventually we reached Bad Aussee where, despite the lateness of the hour, an innkeeper gave us a delicious lunch of *Wienerschnitzel* and salad. After drying out our clothes around the only stove, we continued to sit there as drowsiness crept over us, loathe to resume our journey. But proceed we must!

Just after we set out again, the rain came down even harder, and now, besides having to walk up the hills, we had also to walk down, because the brakes were too wet to grip. It was three cold, hungry, ill-tempered girls who were ushered into a *Gasthaus* to sit down before cups of steaming tea, spiked with rum, and delicious home-make cakes. We would gladly have spent the night there; but as luck would have it, there were only two small beds, so on we plodded to the nearest town, Stanach. Here we were accommodated in the "royal suite" of the local inn—three giant beds in an enormous room, and warmth!

The next morning we awakened to the gentle sound of snow softly falling on the trees outside our windows. *Oh Weh!* This was the limit. There lay the ground, as far as the eye could see, under a white blanket. Imagine snow on the 24th of May! Too late did we learn that this is not an uncommon occurrence in these mountains. It took us about one minute to decide we had better load our bicycles on to the train for Vienna—still about two hundred kilometers distant.

Thus, early afternoon found us seated in a crowded, overheated third-class compartment of a *Bummelzug,* a train which stops at every station. The conductor proved to be a most social soul who had learned a few words of English

during his stay in a war-time prison camp.

"Oh you're from Canada—where is that?" he asked.

No one in Austria seemed to have heard of Canada!

Two more men—one a student from Vienna, the other a salesman—were most helpful in recommending to us suitable hotels in the capital, and even wrote a list of places of interest for us to see. They complimented us on our being able to converse with them in such fluent German, which, of course, made us more voluble than ever.

Midnight—Vienna—our goal! Here we were in Vienna, the gayest city of Europe, the Vienna of Strauss and light opera and Maria Theresa. But none of this romance was in our hearts as we stood on the station platform, hungry, tired, *Ausländer,* still in doubt as to where we would spend the night. Two hotels recommended to us proved far too smart for our knapsacks and too expensive for our self-imposed budget. Austrians may be poor, but they certainly know how to take advantage of the two months when the tourist trade is at its height. Only after a long search did we find a suitable lodging-place, where, having indulged in the luxury of a hot shower, we crawled into bed dead tired but happy.

Morning dawned warm and bright, with the sun streaming in at our bedroom windows—our first sunny day for over a week. We spent three glorious days in this great European metropolis — three days of continuous rushing in order that we might at least see, if not have time to digest and fully appreciate, all its wonders.

First, the great Dom Peterskirche—one of the largest cathedrals I have ever seen. It is a great pity that one cannot stand back and gaze at it from a distance. But its setting in the centre of the city, with unimportant buildings crowded up against it, lessens its majesty.

All around the outside were booths where old ladies were selling a great array of odds and ends — first-communion cards, indigestible-looking candies, wreaths, rosaries and trinkets of all kinds. Inside, one was overwhelmed by the space, the loftiness of the great edifice, the exquisite stained-glass windows, the huge towering pillars, and the throngs of worshippers. I never saw so many people in a church.

Then the Prater — Europe's oldest amusement park. Well-dressed people strolling through beautifully arranged, quiet avenues bordered by stately trees; children playing games; wealthy people driving in carriages or automobiles. We were happily riding our bicycles along these avenues, fancying ourselves as part of this smart world, when someone shouted at us *"Zwei Schillinge!"* Suddenly I suspected we were up against one of the the famous *verbotens.* I hopped off and asked a policeman—Yes, a two-shilling fine.

We noticed hundreds of young children—the girls clothed in white with wreaths in their hair, the boys in black—driving with their parents through not only the Prater but the entire city. They were in carriages or taxis decorated with brightly coloured paper flowers, as if for a wedding. It was their first communion. What a note of festivity this added to that already gay city!

Next, the Rathaus or stately town hall; then the parliament buildings and the wonderful old Residenz, the home of the Hapsburgs; also nearby, a huge statue of the beloved Empress Maria Theresa—all monuments to the glorious era when Austria was one of the proudest countries in Europe.

But to quote a waiter in our hotel:

"Austria, what is she? A country in debt to every nation. Last year we borrowed from France, this year from England, next year who knows? And there is always Italy to be watched. In spite of it all, we wish to maintain our pride and independence. What we need is a Hitler. Something must happen. Things cannot go on like this. And do you know that since this *Grenzesperrung* (closing of the frontier between Austria and Germany) we have lost exactly ninety per cent of our tourist trade. The Germans were our best customers. We are so

ST. BARTHOLOMA

fond of them. After all, we too are Germans, you know."

A sad plight for a proud country!

Small wonder there was such rejoicing over the Austro-German pact, two months later. *"Wissen Sie, der Friede ist da?"* (Have you heard, peace has come?) exulted an Austrian girl, addressing a German youth, a friend of ours, on a Brighton street.

From the Kahlenberg, a mountain overlooking Vienna, we could see the old Danube, the new Danube and the canal. In the old river were little sail-boats flitting hither and thither through a hazy sunshine, like large white butterflies.

One morning we made a fifteen-kilometer trip out to Burg Liechtenstein, a small fortified castle, recently restored. What restoration had been done was so skilful that one could scarcely distinguish the new from the old. A tiny, wizened old lady was our guide, and it was plain to be seen that she was in love with her work. An enthusiastic guide can make or mar any castle or cathedral for the tourist. She allowed us to spend as long as we wanted in the quaint old rooms.

From Liechtenstein we returned to Vienna by way of Schönbrunn, a miniature Versailles, built by the royal family of Austria and completed during the reign of Maria Theresa. At the time of our visit, the beautiful formal gardens of the palace were being replanted.

Next morning at five o'clock we were making our way to the docks at the other end of the city. We were leaving gay Vienna behind and starting up the Danube on our return journey.

Everyone had assured us we would find the voyage extremely boring, but on the contrary we were delighted with it. The scenery immediately outside Vienna was not at all interesting, but by lunch time we had reached a rolling, wooded section with here and there small picturesque castles. It was a temptation to get off the boat and spend the afternoon exploring some of the queer, winding streets in the charming villages along the banks.

By late evening we reached Passau. Home again on German soil! The Austrian customs officer, having finished his work for the evening, kindly offered to escort us to a hotel away down narrow streets and winding lanes.

Morning found us climbing the high hill to the Oberhaus, a fortified dwelling overlooking the town. Here was a unique sight, which our professors had told us about. At our feet was the junction of three rivers—the black Ilz, the green

Danube and the brown Inn. The three streams flow several hundred yards side by side before their colours gradually merge into one.

Leaving Passau about four o'clock in the afternoon, we bicycled over ninety kilometers before nightfall—along the banks of the Danube, through a countryside covered with poppies. The next day, our last, we headed for Regensburg in the pouring rain. All along the road we met parties of young girls and boys, making bicycle trips over the holiday, the Whitsuntide week-end.

"Was it raining where you came from?" they would call as soon as they came within hailing distance. "Yes, and it has been—for two weeks!"

At Regensburg came the parting of the ways. I had to return to Munich to continue my studies, while my two friends went their way up through Germany to the Baltic Sea.

It was a glorious experience.

UNIVERSITY TO ESTABLISH NEW INDUSTRIAL COURSE

QUEEN'S University has decided to establish an Industrial Relations Section in the School of Commerce and Administration, of which Prof. W. A. Mackintosh is director. With the co-operation of the Personnel Associations of Toronto and Montreal, conferences of industrial relations men, industrial executives, government and labour officials and university men, have been held in Kingston in each of the past two years. This experience has convinced the University that it has an important function to perform in this field.

The decision to establish an Industrial Relations Section has been reached after consultation with leading industrialists, labour officials, and industrial relations experts. The co-operation and financial support for a five-year period of a number of industrial corporations has been secured. The arrangements ensure that the work of the Section will be entirely unfettered and unbiased.

An appointment will be made of a man, qualified to undertake investigation and experienced in the problems of industry and of labour, to take immediate charge of the work. Research and secretarial assistants will also be appointed. A library and information centre will be built up covering the whole field of industrial relations. In particular, there will be assembled full and precise information on the policies and practices which obtain in Canadian industry in the relationships and responsibilities of management and labour. In providing a clearing-house of information, accurate and up-to-date, it is hoped that a service will be available to management and to labour which will be constructively of value in promoting sound thinking and industrial understanding.

It is planned that the Industrial Relations Section will give a further service in that students in Applied Science and Commerce in the University will be kept in touch with the problems in this field, and with the methods which are being used to meet these problems. With this background they may thus go out into industry and business with knowledge and with a sympathetic understanding of the difficulties which have to be faced.

It is of the first importance that the work commend itself both to labour and to industrial management. It will go forward with that aim continuously in view.

ATTRACTIVE QUEEN'S BOOTH AT TORONTO EXHIBITION

FOR the first time in its history, Queen's was represented at the Canadian National Exhibition, Toronto, from August 27 to September 11.

A most attractive booth, situated in the west annex of the Coliseum, was used to publicize the University, and many favourable comments were heard from sightseers. The exhibit was under the

direction of J. W. Henley, Arts '36, who gave out information and pamphlets concerning Queen's to all who were interested.

The trees of the campus, on a mural designed by Mr. André Biéler, resident artist at the University, formed the background of the booth, and seven graceful Greek columns lent classical beauty and dignity to the scene. Pictures of campus views adorned the walls, on which the names of the major courses available at Queens were also displayed.

MISS BARBARA CRAIG WINS FRENCH SCHOLARSHIP

VALUED at 12,000 francs, a scholarship has been awarded by the French Government to Miss Barbara Craig, Arts '37, of Kingston, in order that she may continue her studies in France during the next year. This is the first time that a nomination for this scholarship has been open to Queen's.

BARBARA CRAIG

Miss Craig obtained her B.A. degree at Queen's last spring, with first-class honours in French, and was awarded a Leonard scholarship valued at $500, and the medal in French. She won the Ellen M. Nickle Memorial matriculation scholarship in 1933.

WILLIAM F. MARSHALL DOING HUMANE WORK

MORE than 250,000 persons in Saskatchewan have reason to feel grateful to William F. Marshall, Arts '98, Red Cross Commissioner of that province.

Under his direction, at least that number of people have been helped with clothing and bedding or given other assistance. Most pleas for help have come from the drought area, particularly during the past six years. The Red Cross has done a wonderful work in alleviating the sufferings of the drought victims, and much of the credit for the efficiency of that organiaztion belongs to this Queen's graduate.

During his university days, Mr. Marshall worked in the summer months as a $15-a-month clerk on the large timber rafts then common on the St. Lawrence River, and thus partly financed his course. After graduation he secured employment, in turn, as a teacher, a member of a publishing house, and an insurance agent. In the early war days he became secretary of the Red Cross branch at Saskatoon, and soon organized voluntarily two hundred Red Cross groups in northern Saskatchewan, where there was a wide-open field for such work. He also assisted in raising $175,000 for his organization.

Imbued with the ideals of Red Cross work, he became provincial secretary and, subsequently, commissioner. He is now immersed in the greatest peace-time Red Cross effort Canada has ever known.

ADDITIONAL STAFF CHANGES HAVE BEEN ANNOUNCED

STAFF changes for the 1937-38 session, in addition to those already announced, include the appointment of Dr. William Angus, B.A. (Bowdoin), Ph.D. (Cornell), as lecturer in English and public speaking. Dr. Angus, who has carried on postgraduate work at Harvard and Northwestern universities, has had teaching experience in several institutions, and last year was associate professor of English and director of dramatics at Northern Illinois State Teachers' College. He will fill the vacancy created through the resignation of Mr. E. E. Duthie, M.A. (Aberdeen).

A. W. Currie, B.A., B.Com. (Queen's), M.B.A. (Harvard), assistant to the director of courses in Commerce, is completing his doctorate studies at Harvard this year. During his absence, part of his work will be carried on by Miss Pearl Paynter, Arts '39.

Mr. H. J. Styles, B.Sc. (Queen's), who was a lecturer in mathematics last year, becomes lecturer in draughting this session, succeeding Mr. R. W. Stevens, B.Sc. (Queen's), who has resigned. Mr. C. L.

Emery, B.Sc. (Queen's), has been appointed lecturer in mining and metallurgy.

INDUSTRIAL PROBLEMS DISCUSSED AT QUEEN'S

QUEEN'S was the meeting-place of the annual Canadian Conference on Industrial Relations again this autumn. Inaugurated last year under the sponsorship of the University, the Montreal Personnel Association and the Personnel Association of Toronto, the first conference was highly successful; and the second, which was held on September 9, 10 and 11, was considered even more valuable. The attendance numbered approximately one hundred, composed of members of university staffs, representatives of Canadian companies, personnel experts and government officials.

The programme included addresses, papers, discussions and forums, dealing with such problems as industrial conflict, fair-wage structure and labour legislation. All the meetings were private, admission being by invitation only.

The delegates were housed in Ban Righ Hall, and the business meetings were held in Grant Hall. Luncheon meetings took place at Ban Righ and at the Cataraqui Golf and Country Club.

Queen's people taking an active part in the programme included Principal Wallace, Hon. Norman McL. Rogers, Minister of Labour, and Dr. W. A. Mackintosh, Director of the School of Commerce and Administration. Dr. Mackintosh was general chairman.

$1320 STILL NEEDED FOR GRANT HALL FUND

AT the time of going to press the Alumni Association has raised $12,679.19 towards its $14,000 commitment for the renovation of Grant Hall. The balance still owing is therefore $1320.81.

The Directors of the Association sincerely hope that they will be able to pay off the remaining debt before the end of 1937. If *you* have not yet sent in your contribution, please do so now.

EXTRAMURAL DEPARTMENT SHOWS STEADY PROGRESS

PROBABLY no division of Queen's is doing more unobtrusive and yet more useful work than the Extramural Department. Started originally in 1888, it has developed until to-day its enrolment is more than two thousand.

The recent appointment of R. M. Winter, Arts '27, as director of extension and extramural work, means that the scope

R. M. WINTER

and influence of this department will be further widened, thus increasing the value of its contribution to the progress of the University. Mr. Winter was with Messrs. R. A. Daly and Company, investment bankers, Toronto, for some years after graduation. Latterly he has been teaching at Danforth Collegiate Institute, Toronto. He has had considerable experience in extension work at the University of Toronto.

That the Extramural Department has filled a real need in the Dominion is shown by the fact that from the 33 students enrolled in 1894-95, the numbers have risen to 442 in 1910-11, to 1090 in 1932-33, and to 2047 in 1936-37. The large increase in recent years has been mainly on account of the regulation of

the Ontario Department of Education that a teacher must have credit for five university courses in order to secure a permanent first-class certificate. Previous to 1935-36 the men were in the majority —about 60 per cent. In the past two years the balance has been in favour of the women—nearly 55 per cent.

A large majority of the students are teachers, but an increasing number of civil servants and professional men are registering for extramural work—some with the intention of completing courses for a degree, others merely taking work in which they are particularly interested.

QUEEN'S RADIO STATION EARNS HIGH PRAISE

QUEEN'S radio station, CFRC, was accorded high praise at a meeting of RCA Victor dealers held in Kingston recently.

Mr. M. J. Sims, manager for Ontario, said: "Queen's University and the *Whig-Standard* deserve the thanks of all radio listeners throughout this district. The clarity of reception from CFRC must be a great joy to all within range of the station."

EMPLOYMENT FORMS HELP GRADUATES SECURE WORK

READERS of the *Review* will be receiving their annual Alumni Record-Employment forms, together with slips soliciting the payment of their Alumni dues, in the near future.

The membership of the Association has shown a satisfactory increase during the past year, but there are still many graduates and former students who are not members and whose co-operation and support would be heartily welcomed. It is therefore hoped that all those whose names have been on the Association's roll during the past will see that they are kept there during the coming year, and that the alumni who have not previously been members will enter the fold.

With regard to employment, the alumni are reminded that they should complete *both* sides of the record form, in as much detail as possible, and return it if they wish to be notified of suitable opportunities that come to the attention of the Employment Service. An application that is two or three years old, although still kept on file, is unsatisfactory. Up-to-date information about the alumni who are seeking work or who are interested in a change of position is absolutely essential to the efficient operation of the Employment Service.

Every application received is carefully filed, and as opportunities arise the applicant is informed. If the alumnus does not hear from the Service after his or her employment form has been sent in, other than the formal acknowledgment of its receipt, it does not mean that the application is either neglected or forgotten; there simply have not been any suitable openings to pass along. During the past year, however, the Service has been able to help about four hundred graduates and students to secure employment or better their positions.

The full co-operation of all Queen's alumni is therefore urged in the work of both the Alumni Association and the Employment Service during the coming year.

WIDESPREAD PUBLICITY GIVEN TO RUGBY ARTICLE

SELDOM has an article in the *Review* received more widespread publicity than the excellent "How Rugby Began At Queen's," by W. I. Garvock, Arts '12, which appeared in the August issue. The Ottawa *Citizen* printed the story in full, while the Montreal *Star*, Toronto *Globe and Mail*, Kingston *Whig-Standard*, and many other leading newspapers and periodicals, quoted it liberally. Many favourable comments from readers also reached the Alumni office.

Since the article was published, it has been learned that R. M. (Max) Hamilton, one of the members of the first team, resides at Mingan, Que., where he is in charge of the Labrador Fishing Company. His address had been confused with that of his brother, Miles, who lives in Peterborough, Ont.

Information has also been received that John Renton, of the 1883 team, who was formerly a member of the staff of the Winnipeg Post Office, now resides in California in the winter. Dr. Æneas John

Macdonnell is at present a resident of Victoria, B.C., having left Winnipeg, where he had carried on a large medical practice.

The number of those early players who are still hale and hearty would indicate that football does not shorten the lives of gridiron athletes. In fact, had the article been written two or three years ago, most of the original members of the first team would have been alive.

NOTICE TO GRADUATES AND BENEFACTORS OF QUEEN'S

IN accordance with the by-laws of the University Council, which govern the elections of the administrative bodies of Queen's, graduates and graduate-benefactors are hereby notified that nominations of candidates for election to these bodies may be made as provided below. Printed forms for these nominations are no longer sent out, except to the elective members of the University Council and to the non-graduate benefactors in the case of the Trustee elections.

Nominations of Trustees by the Graduates.

Graduates of the University (except those who are elective members of the University Council, from whom nominations are solicited as stated above) may nominate two members of the Board of Trustees, to succeed V. K. Greer, M.A., Toronto, Ont., and O. D. Skelton, M.A., Ph.D., F.R.S.C., LL.D., Ottawa, Ont., whose terms expire on March 31, 1938. Mr. Greer and Dr. Skelton are eligible for re-election. No other present member of the Board should be nominated, and no member of the University staff is eligible. Candidates must be nominated by five or more electors in order to qualify. Nominations must be in writing, signed, and received by the Registrar of the University on or before December 31, 1937. The Trustees elected will serve until 1941.

Nominations of Trustees by the Benefactors.

Benefactors who have contributed $100 or more to the University (except those who are non-graduates, from whom nominations are solicited as stated above) may nominate three members of the Board of Trustees, as follows:

(a) Under the Act of 1912 (General)—One Trustee to serve until March 31, 1942, in succession to J. M. Macdonnell, M.A., Toronto. Mr. Macdonnell, who is chairman of the Board at present, is eligible for re-election. One Trustee to serve until March 31, 1939, in succession to Mr. G. F. Henderson, B.A., K.C., Ottawa, who has resigned.

(b) Under the Act of 1916, providing for representation of the "School of Mining" (Special Science)—One Trustee to serve until March 31, 1941, in succession to Mr. J. M. Campbell, Kingston, Ont. Mr. Campbell is eligible for re-election.

No present member of the Board, other than Messrs. Macdonnell and Campbell, should be nominated, and no member of the University staff is eligible. Candidates must be nominated by five or more electors in order to qualify. Nominations must specify the category, whether "General" or "Special Science"; and must be in writing, signed, and received by the Registrar of the University on or before December 31, 1937.

Nominations to the Council by the Graduates.

Graduates of the University may nominate nine candidates for election to the University Council, to succeed the following members whose terms expire in 1938: E. T. Corkill, B.Sc., Toronto, Ont.; C. W. Drury, B.Sc., Ph.D., Toronto; Judge A. G. Farrell, B.A., Toronto; T. J. Goodfellow, B.A., M.D.,C.M., Saratoga Springs, N.Y.; J. C. Macfarlane, M.A., K.C., Toronto; W. S. Murphy, B.A., M.D.,C.M., Smiths Falls, Ont.; W. A. Newman, B.Sc., Montreal, Que.; Edward Ryan, B.A., M.D.,C.M., Kingston, Ont.; T. F. Sutherland, B.Sc., Toronto. Retiring members are eligible for re-election. No other present member of the Council should be nominated. Candidates must be graduates of Queen's and must receive five or more separate nominations in order to qualify. Nominations must be in writing, signed, and received by the Secretary of the University Council on or before December 15, 1937. The members elected will serve until March 31, 1944.

THE 1937 REUNION

Friday and Saturday, October 15 and 16

Revisit Queen's - - - - Meet Your Old Classmates - - - - See the Western Game
Inspect the Many Changes at the University Since Your Day.

NOW is the time for all good graduates to come to the aid of the Reunion. From the number who have already indicated their intention to revisit their Alma Mater on October 15 and 16, it appears that this year's Reunion should be one of the best ever held.

Here are the classes which are specially slated to return: 1883-84-85-86-87, 1902-03-04-05, 1912, 1921-22-23-24, in all faculties. But alumni of all years are urged to attend, irrespective of whether their classes are holding formal Reunion gatherings. They are assured of a warm welcome and an interesting and enjoyable two-day programme. There is much that is new to be seen, old friendships to be renewed, many incidents of the past to be recalled. It will be a delightful and refreshing experience.

PROGRAMME

Immediately upon arrival proceed to Registration Headquarters, Common Room, Students' Memorial Union. Inquire there about class events. Senior students, wearing guide badges, will be present to conduct visitors around the University and the Hospitals. The University buildings will be open for inspection on Friday afternoon, on Saturday morning, on Saturday afternoon from 4.30 to 6, and on Sunday from 9 to 12 in the morning and from 2 to 4 in the afternoon. Principal Wallace will be in his office on Friday afternoon, to receive any alumni who wish to visit him.

Friday, October 15

Afternoon—Registration, and Inspection of University and Hospitals.

3.30 p.m.—Semi-Annual Meeting, Board of Directors, General Alumni Association, Douglas Library.

8.30 p.m.—Reception by Principal and Mrs. Wallace, Grant Hall. The Reception will be followed, at 9.30, by the Annual Meeting of the General Alumni Association. After a brief business session, there will be a Reunion Address by Mr. J. M. Macdonnell, Arts '04, General Manager of the National Trust Company, Toronto, and Chairman of the Board of Trustees of Queen's. Mr. Macdonnell's subject will be "Why Do We University Graduates Count so Little in Politics?"

All visiting and local alumni and members of the University staff are invited.

Saturday, October 16

9.00 a.m.—Registration, and Inspection of University and Hospitals. Clinics for Visiting Doctors at General Hospital.

11.00 a.m.—Autumn Convocation, Grant Hall, at which Sir Edward Beatty will deliver the main Address.

2.15 p.m.—Senior Intercollegiate Football, Queen's vs. Western, George Richardson Memorial Stadium.

6.00 p.m.—Class Reunion Dinners.

8.00 p.m.—Meeting, University Board of Trustees, Douglas Library.

9.00 p.m.—Reunion Dances. Alumni, Staff and Friends, Grant Hall. Students and Friends, Gymnasium. Admission, 75 cents per person.

DR. MITCHELL CONCLUDES SUCCESSFUL EXPEDITION

QUEEN'S alumni must have listened with deep interest to the radio broadcasts from Canton Island, in the middle of the Pacific Ocean, where Dr. S. A. Mitchell, Arts '94, LL.D. '24, director of the Leander McCormick Observatory of the University of Virginia, was stationed as the scientific leader of the National Geographic Society-U. S. Navy expedition to observe the total eclipse of the sun on June 8. Unusually clear weather enabled Dr. Mitchell and his party to make valuable observations.

At 12.15 on the morning of June 9, London, England, was put in radio communication with Canton Island, where the time was shortly after noon on June 8. One of the greatest British eclipse authorities, Prof. Alfred Fowler, F.R.S., asked questions of Dr. Mitchell concerning the phenomenon; and the conversation of the two astronomers, situated on opposite sides of the world, was heard over the coast-to-coast network of the National Broadcasting Company.

Also on Canton Island was an expedition from New Zealand, brought there by H. M. S. *Wellington,* a naval vessel of about the same tonnage as U. S. S. *Avocet* which had carried the American party to the uninhabited coral atoll. The leader of the New Zealand group had worked side by side with Dr. Mitchell at the 1930 eclipse on Niuafoou or "Tin Can Island," situated in the Pacific Ocean eight hundred miles south of Canton Island.

After the eclipse, Dr. Mitchell returned to Honolulu and then travelled to China to meet Mrs. Mitchell. They left Shanghai on August 9, just five days before the bombing of that city.

While in Japan, Dr. and Mrs. Mitchell were entertained twice by Toshi Ikehara,

REUNION IN JAPAN

Left to right: Toshi Ikehara, Dr. S. A. Mitchell, Mrs. Mitchell.

Arts '96. On one occasion, there were also present Miss Annie Macgregor, Arts '05, and Miss Grace Macgregor, Arts '05, both of Ottawa, Ont., who had been attending the world educational conference in Tokyo. The accompanying photography was taken in the Ikehara garden, which contains three hundred and fifty rose bushes, many of which were the gift of the distinguished Queen's graduate, Sir Edward Peacock, Arts '94.

On their journey home, by way of Canada, Dr. and Mrs. Mitchell were met at Victoria, B.C., by a friend of long standing, the noted Canadian astronomer, Dr. J. S. Plaskett, F.R.S., C.B.E., LL.D. '34.

CAMPUS BRIEFS

SOMETHING new in Summer School ventures was attempted early in August when a "Theatre Night" was held in Grant Hall. The first half of the programme, broadcast over Queen's radio station, CFRC, consisted wholly of musical selections and was excellently presented. The purpose of the "Theatre Night" was to raise funds for the recently projected scholarships for summer students.

* * * *

The students of the Summer School course in play production gave four one-act plays in Convocation Hall on August 12 and 13, under the direction of Mr. W. S. Milne. Despite the hot weather, large audiences saw both performances.

* * * *

Resplendent in a new coat of paint, the Memorial Union was ready for the students when they returned to the University at the end of September. "Sarge" Plumb was particularly proud of the shining surface of the hardwood floors.

* * * *

Under the direction of Dr. Frank L. Harrison, resident musician, the Summer School Glee Club presented an exceptionally finished programme of madrigals and chorales just before the close of the session.

* * * *

Mr. George Croskery, of Ottawa, was elected president of the Queen's Summer School Association for 1938 at the annual meeting held on August 2.

SOME INTERESTING DATA ABOUT YOUR ALMA MATER

BELOW is a copy of a pamphlet recently issued by the University. It presents, in a concise way, many interesting facts about Queen's which the alumni may be glad to have at their disposal. For example, the information might be passed along to some high-school student who is thinking about entering university. Additional copies of the pamphlet may be obtained upon application to the Registrar.

QUEEN'S UNIVERSITY

History.

Queen's University was founded by Royal Charter granted by Queen Vicria, October 16, 1841.

The Presbyterian Church, though originally given authority to appoint all the Trustees, gradually relinquished its right and in 1912 consented to an Act of the Dominion Parliament revising the Charter and making the University in every respect undenominational.

Queen's was the first university in Ontario to engage in teaching.

Property, Endowment, Income.

Queen's has thirty buildings, mostly of limestone. The value of property and endowment is $9,000,000. The annual income, derived from interest on investments, fees, and government grants, is about $800,000. This is used for maintenance, administration, and teaching.

Classrooms and laboratories are spacious and well-equipped.

The Library has 175,000 volumes.

A new Gymnasium with swimming pool, an Arena with artificial ice, hard-surfaced tennis courts, and a football stadium give an excellent opportunity for sports and exercise.

Ban Righ Hall and three annexes accommodate 117 women students in residence.

Ban Righ Hall has union facilities for all women students and the Students' Memorial Union for all men students.

Grant Hall, newly redecorated, provides an ideal place for social functions.

Convocation Hall, equipped as a little theatre, admirably serves the dramatic activities of students and staff.

Courses of Instruction.

Queen's has three Faculties: Arts, including Commerce, offering courses in language, literature, history, economics, philosophy, mathematics, science, art and music; Applied Science, including the most important branches of Engineering; and Medicine.

Queen's Theological College is an independent but affiliated institution.

Summer School.

Queen's has the oldest Summer School in Canada. It was organized to enable teachers and others unable to attend the winter sessions to satisfy the residence requirements for a degree.

Extramural Work.

Queen's has the oldest Extramural study system in Canada, enabling mature students to complete by home study and correspondence part of the work for the degree of B.A. and B.Com.

Queen's also does Extramural teaching for the Canadian Bankers' Association and for the Institutes of Chartered Accountants of Ontario and other provinces.

Registration.

The number of students enrolled in 1936-1937 was 4,700, as follows:

Degree Courses		
Arts—intramural 847, extramural, 1297, Summer School 724	2,868	
Applied Science	559	
Medicine	294	
		3,721
Non-Degree Courses		
Arts—Summer School	26	
Middle and Upper School	31	
Banking Course	492	
Chartered Accountants Course	430	
		979
		4,700

Staff.

Teachers, 244; administration officers, Library and clerical staffs, 50; maintenance staff, 37. Total 340.

Teachers' and Inspectors' Certificates.

Courses in the Faculty of Arts lead to academic certificates for Inspectors, Specialists, and High School Assistants. Queen's in proportion to its size has made a larger contribution to the Department of Education than any other university in the province.

Expenses.

Queen's is situated in a small city where the cost of living is relatively low. The average student pays from $7.00 to $8.50 a week for board and lodging. Total annual fees, exclusive of Student Interests and deposits, are $125 in Arts, $207 in Applied Science, and from $175 to $197 in Medicine.

Scholarships.

Annual awards of scholarships and prizes amount to about $25,000. In addition each Faculty has a small number of resident or travelling fellowships.

Employment Service.

Queen's maintains an Employment Office which has been very successful in finding summer work for students and placement after graduation. No charge is made for the service.

Health Insurance.

Under a Health Insurance plan students have the free services of a medical officer, and, if necessary, a free week of Hospital care.

Publications.

The University issues the following publications which (except where a price is named) will be sent free of charge on request:

- Requirements for Matriculation, including complete lists of Scholarships and Prizes.
- Calendar of the Faculty of Arts.
- Calendar of Courses in Commerce and Administration.
- Calendar of the Faculty of Applied Science (Engineering).
- Calendar of the Faculty of Medicine.
- Calendar of Summer School and Extramural Courses.
- Queen's in Pictures.
- Queen's Quarterly: A Canadian Review ($2.00 a year).
- Queen's Review (published by the General Alumni Association, $3.00 a year).

Queen's celebrates a hundred years of teaching on October 16, 1941. The University is old enough to have traditions, small enough to have character, and big enough to have sound learning.

THE BOOKSHELF

The Old Ontario Strand

A Corner of Empire. By T. R. Glover, LL.D. '10, and D. D. Calvin, Arts '02. Published by the Macmillan Company of Canada, Limited.

HERE is a book that should delight every graduate of Queen's, for it is a story of Kingston and the University told in vivid and entertaining fashion. Not a dull history of these locales, but a colourful narrative, studded with anecdotes and brimming over with human interest. It is the kind of book that should provide many topics for conversation wherever old Kingstonians and Queen's alumni are wont to gather.

The authors should know whereof they speak. T. R. Glover is a former professor of Latin at Queen's, having served on the staff from 1896 to 1901. He was the recipient of an honorary degree in 1910. He is a scholar and lecturer of note, and since 1920 has been public orator at Cambridge University. He is the author of many books, mostly of a religious nature. He regularly summers in Canada, often in the vicinity of Kingston.

D. D. Calvin is a graduate in Arts of 1902. The firm of Shephard and Calvin, architects, Toronto, of which he is a partner, designed the Douglas Library and Ban Righ Hall. He is a frequent contributor to the *Queen's Quarterly*. It is doubtful whether any family has had a longer and more intimate contact with Queen's than his. Mr. Calvin was born and raised around Kingston and has a rare knowledge of the City as well as of the University.

In *A Corner of Empire*, the chapters on Queen's and George Monro Grant might well be "required reading" for all students. Too many young men and women enter Queen's, spend a number of years in quest of learning and then depart with only a hazy appreciation, if any, of the historical background of the University and the City. They know something of the "Queen's Spirit" and are proud of their Alma Mater, but of the foresight, sacrifice and headaches that were the foundations of the modern institution of to-day they know little or nothing. And the same is true in regard to Kingston. *A Corner of Empire* would help to change all that.

It is not walls but men that make a great University, and wisely have the authors recognized this fact. The history of Queen's is told, not as a mere recital of facts, but as a parade of many of the colourful personalities who contributed to her growth and progress. John Watson, J. B. Mowat, Donald Ross, George D. Ferguson, Archie Knight, "Pheesics" Marshall, "Nicky" Nicholson, G. Y. Chown, Nathan Dupuis, James Cappon, John McNaughton, Adam Shortt and others are here recorded for posterity.

One figure stands out, of course—that of George Monro Grant. "Grant is Queen's," so the newcomers used to be told. Now it is explained why. Something of the debt that Queen's will ever owe to this magnetic personality is here unfolded. Nor is his picture painted in sympathetic colours only, for his weaknesses and foibles are limned as well, to make his character live and breathe on the printed page.

The early history of the City is equally interesting. The story begins with the coming of the French to Canada and is traced down to the present day. Here the device of anecdote is used to good advantage, particularly in Mr. Calvin's sparkling, lively treatment of his boyhood on Garden Island.

Not the least interesting feature of *A Corner of Empire* is the twelve beautiful plates from rare prints and photographs which are used as illustrations. These pictures add much to an already valuable and interesting volume.

All in all, *A Corner of Empire* makes delightful reading. One cannot help but wish that all books of history were as interestingly written.

Footloose in North America

SNOBS AND SPIRES. By Austin F. Cross, Arts '23. The Ryerson Press, Toronto.

A MODERN Peregrine Pickle, Austin F. Cross has been travelling far and wide ever since he left Queen's in 1923 with his B.A. clutched firmly to his bosom. *Snobs and Spires* is his second book in as many years, and where he finds the time to do all this writing in addition to reporting for the Montreal *Star,* contributing to leading national magazines, and building up his current reputation as an after-dinner speaker, will always remain a mystery to those of us who invariably owe a letter home.

His first book, *Cross Roads,* was well received; ran into two editions, in fact. His second effort should have an even more enthusiastic reception, for it is livelier, better written, and his criticisms have a more mellow tone. His humour is more natural and spontaneous, and the result is a pleasing and entertaining book.

Like his earlier work, *Snobs and Spires* is a series of travel sketches that might well be taken as a textbook on how to go sightseeing. For Cross does not visit the local "points of interest" with a "rubberneck" party; rather he prefers to satisfy his own whims and fancies, and consequently he is able to present a more vivid and unusual picture of the places he has seen.

The title of the book is derived from his opening treatise on Ottawa, which, he says, has "more prigs to the square inch than any other city in Canada." Natives of the Capital City may not take too kindly to some of Cross's pungent comments, but even the most biased will have to admit that there is truth in his charges and that his criticism takes a constructive form. And when he finds something he can honestly praise he is unsparing with his adjectives.

If *Snobs and Spires* does nothing else it should instill in the reader a desire to see Florida and Cuba and the Bahamas. Even if you happen to be one of those fortunate souls who have already travelled extensively in those corners of the world, you will want to go back to see what you missed and Cross did not. The author's natural lust for facts invariably takes him off the beaten path, and his methods of telling about his adventures makes them doubly interesting.

With Cross the reader will meet the ocean liners at Father Point and interview the great and near-great; make a flying trip to Washington, with its inevitable comparison with the Canadian Capital; junket through the New England states, visiting six state capitals in thirty hours; ride through the Black Hills of South Dakota; and travel on the St. Lawrence on a government icebreaker. In "My Discovery of Piopolis," Austin gives vent to humorous fantasy in a manner reminiscent of Stephen Leacock at his best.

And the reader is not allowed to forget that Cross is a Queen's man. As the blurb on the jacket says: "Never has any Alma Mater had a more faithful propagandist. He has an unerring instinct for unearthing Queen's men."

Snobs and Spires makes excellent reading. Whether you are a seasoned or a fire-side traveller, you will be interested in Mr. Cross's peregrinations and his running commentary on life in general.

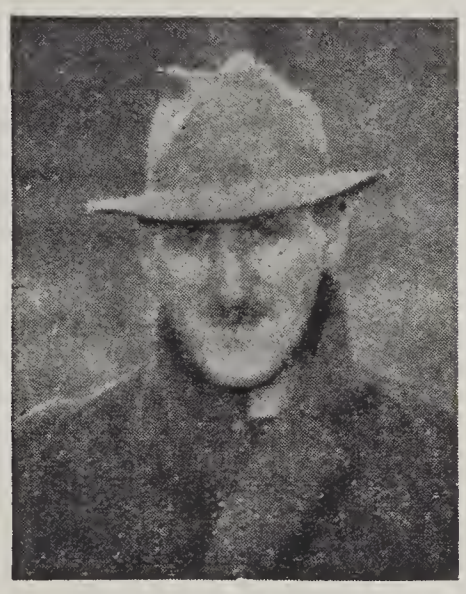

SENIOR INTERCOLLEGIATE RUGBY SCHEDULE, 1937

October	9—Queen's at Toronto McGill at Western	October	30—McGill at Queen's Western at Toronto
October	16—Western at Queen's Toronto at McGill	November	6—Queen's at Western McGill at Toronto
October	23—Queen's at McGill Toronto at Western	November	13—Toronto at Queen's Western at McGill

ATHLETICS

Football

THE curtain is just about to rise on the 1937 Intercollegiate football season: on October 9 Queen's plays Varsity in Toronto and Western entertains McGill. For the Tricolour to have to clash with its traditional foe, the Blue and White, right at the start means opening the schedule the hard way, but there is the advantage of having the team geared at top speed from the first.

COACH TED REEVE

By the time this reaches print Queen's will have played half of the Interprovincial Union in exhibition games. They will have met the Argonauts in Toronto on September 25, and the Rough Riders in the Capital City on October 2. There will be time for only a few practices before the Argos' game, but Coach Ted Reeve was always a firm believer in actual competition as opposed to theory.

Graduation has played hob with the ranks of last year's good team, as usual.

JOHNNY MUNRO

The Tricolour loses stalwart Harry Sonshine, Curly Krug, Johnny Edwards, Mel Thompson, Jack Smith, Archie Kirkland, Reg Barker, Mal Bews, Mucker McPherson and Jack Lewis. These boys are almost a pennant-contending team in themselves, and it goes without saying that they will be missed. Incidentally, Sonshine, Barker, Lewis, Krug and Ed-

ED BARNABE

MARTY JONES

wards have been turning out with Argonauts in practice.

However, there will be twelve or thirteen men with senior experience for Coach Reeve to use as a nucleus for the 1937 team. Johnny Munro will be available for the kicking and will serve as a steadying influence on the backfield. Ted Young and Jack Latimer, light but fast, will be on the halfline. There is also Grover Dennis, who can play either half or end and is due for a big year. Ed Barnabe, last year's captain and dropkicking expert, may have to look after quarterbacking chores if Art Stollery isn't returned a victor in his battle with the "supps."

On the line, there will be Chuck Peck, the Intercollegiate heavyweight boxing champion, Captain George Sprague, demon plunger, the silent and efficient Marty Jones, veteran of four years' campaigning, Chuck McLean, the Intercollegiate middleweight boxing champ, Jerry Conlin, Archie Kerr and young Sampson.

Also available for action this year are Tuffy Griffiths, formerly flying wing for the Argos, Bernie Thornton, outside wing of the Hamilton Tigers, and Ab Miller, who once upon a time held down an end position for Calgary. These are men who would be an asset to any team in the country. A number of good prospects are also to be found among the juniors and intermediates of last season.

With that kind of material Coach Reeve can be depended upon to turn out a fighting team that may not be the experts' choice to win the Intercollegiate title, but which may well prove to be the surprise of the league. After all, the other college teams have suffered from graduation, too. If the injuries jinx will only pass by the squad this year, after having a field-day with the Tricolour in 1936, Queen's will have a lot to say concerning the disposition of the championship.

AT THE BRANCHES

Vancouver

WHEN Vice-Principal and Mrs. McNeill recently visited Vancouver, the Queen's alumni in that city took advantage of the all too rare opportunity to tender their guests a reception.

The affair was held in the Georgia Hotel and was followed by the annual meeting of the branch. The president, W. H. MacInnes, Arts '02, Theol. '05, was in the chair.

Dr. McNeill, in an informal and interesting address, told of changes and developments at the University, and of plans being made for new buildings and new courses. Queen's now had an enrolment of 1700 students, as large as it ever cared to become, he said.

During the business session Dr. McNeill was elected as honorary president, with Judge A. M. Harper, Arts '00, as president. Other officers appointed were as follows: vice-presidents, D. A. McGregor, Arts '05, Dr. C. W. Topping, Arts '12, Theol. '19, and Mrs. S. J. Schofield (Florence A. Tait), Arts '13; secretary-treasurer, C. B. Huyck, Sc. '12; executive—Rev. W. Stott, Arts '07, Mrs. C. B. Huyck (Olive Boyd), Arts '12, Mrs. E. C. McLeod (Ella Percival), Arts '18, Mrs. M. Y. Williams (L. M. Philp), Arts '09, Mrs. R. B. Crummy (Ruth E. Harrop), Arts '18, and Mr. McInnes.

Toronto

"BIGGER and better than ever," is the slogan of the Toronto branch in preparing for its annual football dance in the Royal York Hotel on October 9. Two ballrooms and two of the best orchestras in the Queen City have been engaged for the occasion.

This dance, coming as a climax to the Queen's-Varsity football game in Toron-

to, is expected to attract its usual horde of Queen's supporters. In fact, the event has come to be the largest social gathering of Queen's alumni during the year, with the exception of the Reunion.

The admission is $1.00 a person. All Queen's people in Toronto for the week-end of the Varsity game are invited.

Edmonton

WITH a fine disregard for superstition, the Edmonton alumni held a successful reception on Friday, August 13, at the Macdonald Hotel, in honour of Vice-Principal and Mrs. McNeill, who were on a holiday trip.

Queen's colours formed the decoration motif, carried out by flowers tastefully arranged around the room. On the tea-tables were lovely sprays of gladiolus blossoms. Presiding over the urns were Mrs. G. E. Storey (Edith Malone), Arts '00, Mrs. A. W. Haddow, Mrs. F. C. Casselman (Cora Watt), Arts '12, and Miss Ruby C. Nash, Arts '13.

Reminiscences of university days were enjoyed as Dr. McNeill spoke informally about Queen's and the staff. The speaker also answered many questions asked by his listeners.

The excellent arrangements were made by a committee composed of A. W. Haddow, Sc. '07, (convener), Dr. G. E. Storey, Med. '07, and Mrs. Storey, Mrs. Casselman, Miss Nash, Rev. D. C. Ramsay, Arts '06, and A. H. Gibson, Arts '07, the last two of Fort Saskatchewan.

Dr. and Mrs. McNeill were entertained at luncheon by Dr. J. M. MacEachran, Arts '02, and Mrs. MacEachran. Later they were driven around the city to see some of the beautiful gardens, and to visit the Parliament Buildings and the University of Alberta.

Hamilton

WITH two dances and a picnic successfully staged, the Hamilton branch has had an enjoyable summer programme.

The picnic was held on June 12 at the summer home of Dr. R. M. Stringer, Med. '29, on Lake Ontario, under the convenership of H. G. Conn, Sc. '31. Approximately one hundred and twenty-five were in attendance and enjoyed the golf-driving competition, the softball game, races for the youngsters, a tug-of-war, swimming and the basket supper. The Meds-Science tug-of-war team, with a little outside assistance, managed to win from Arts, in one of the feature events of the afternoon.

On June 23, a "Queen's Night" was held at the Brant Inn, Burlington, with eighty couples present. Ferde Mowry's orchestra provided the music, including a number of Queen's songs.

The second dance was held at the Terrace Star Garden, five miles east of Hamilton, on August 28. Despite the oppressive heat, twenty-five couples were present and had a thoroughly enjoyable time. The Garden is operated by Mrs. T. Walsh (Winnifred Margaret Perry), Arts '24.

The committee in charge of the dances included R. K. Thoman, Sc. '36, W. N. Simmons, Sc. '36, and W. M. Warnick, Sc. '35.

The branch is now making preparations for the visit of Principal Wallace on November 10.

Porcupine

THE Porcupine branch held a joint picnic with the Kirkland Lake alumni at Child's Beach, popular holiday grounds about forty miles from Timmins in the direction of Kirkland Lake, on August 22. About sixty, including friends and families of the graduates, were present.

A softball game between the two branches proved to be the highlight of the programme. Swimming and other sports, as well as the renewing of old acquaintanceships, served to make the day most enjoyable.

Lakehead

A SUCCESSFUL alumni dinner was held in Fort William on the occasion of the visit of Vice-Principal and Mrs. McNeill to the Lakehead district recently. Dr. C. C. McCullough, Med. '04, presided, and Dr. McNeill spoke briefly.

Trips about Fort William, Port Arthur and the harbour were arranged for Dr. and Mrs. McNeill, their hosts being Dr. and Mrs. McCullough, P. E. Doncaster, Sc. '10, and Mrs. Doncaster, Dr. T. D. Macgillivray, Arts '02, Med. '05, and Mrs. Macgillivray.

Winnipeg

WHILE visiting in Winnipeg, Vice-Principal and Mrs. McNeill were the guests of honour at a luncheon held on August 16 in the private dining-room of the Hudson's Bay Company by the alumni of that district. The president, R. D. Guy, Arts '05, occupied the chair.

Chancellor Richardson introduced Dr. McNeill, who, in an informal address, compared the past and present life of Queen's. He spoke of recent developments, which include a chair of public health and courses in industrial relations, sanitary engineering, art and music.

There were about thirty present, including Chancellor and Mrs. Richardson, Dr. J. W. Dafoe, LL.D. '29, (Chancellor of the University of Manitoba), Prof. G. H. Herriot, Sc. '07, and Mrs. Herriot, W. F. Loucks, Arts '10, and Mrs. Loucks, M. S. Blanchard, Arts '31, and Mrs. Blanchard, W. R. McVittie, Arts '30, and Mrs. McVittie, Mrs. H. Arkle, Mrs. R. M. Fisher (Mabel Scholes), Arts '13, Miss Maud Anderson, Arts '24, Miss Betty Laird, Arts '36, Mr. Guy, Rev. P. T. Pilkey, Arts '10, Rev. A. M. J. Gray, Theol. '30, Rev. David Flemming, Arts '87, C. E. Joslyn, Sc. '15, J. E. S. Dunlop, Arts '04, D. H. Laird, Arts '98, F. H. Brooks, Arts '25, and J. B. Clement, Sc. '36.

While in Winnipeg, Dr. and Mrs. McNeill were the guests of Dr. and Mrs. Richardson.

* * * *

In his autobiography, G. K. Chesterton writes, "a good game is a good thing, and many go golfing because this is a concentrated form of recreation. If half a day is to take a man out of himself or make a new man of him, it is better done by some sharp competitive excitement like sport."

During the late afternoon of August 26 about twenty of the Winnipeg alumni (the alumnae will please read no further, or if they do, upon terms that they forgive the alumni for not having invited them) enjoyed this experience on the links of the Southwood Country Club, adjoining the University of Manitoba. There one could see the ever-youthful president, R. D. Guy, the energetic Chancellor, Dr. J. A. Richardson, the sober trustee, D. H. Laird, the enthusiastic member of the University Council, J. E. S. Dunlop, the still-young Rev. David Flemming, and also deputy provincial ministers, professors, teachers, doctors, lawyers and business executives

A WINNIPEG FOURSOME
Left to right: R. D. Guy, D. H. Laird, J. A. Richardson, Dr. C. R. Donovan.

too numerous to mention. The good game was all the better when played in the company of Queen's men.

No prizes were awarded, nor count kept of lost balls or of lost equanimity. Humidity, or perhaps vanity, restrained the turning in of score cards, but rumour has it that the energetic secretary of the golf committee, C. E. Joslyn, had the lowest score with an 88, but under the circumstances, and as this was not certified by an independent audit, perhaps it is subject to review.

After the struggle, dinner was served, concluded by the Queen's yell, and all went home looking forward to similar events in the future.

The Winnipeg branch commends the experiment to other branches, with the suggestion of inter-city competitions. Per-

haps the Association's secretary-treasurer might try such an innovation on his already crowded Reunion programme. Is it heresy to harbour and express the thought that those taking part in such a game would find it more entertaining and more recreative than sitting and watching a football match?

ALUMNI NEWS

Births

Aylesworth—At the Metropolitan General Hospital, Windsor, Ont., on August 13, to John B. Aylesworth, Arts '20, and Mrs. Aylesworth, a daughter.

Bayne—On August 20, to A. S. Bayne, Sc. '35, and Mrs. Bayne, of Port Arthur, Ont., a son (John Stewart).

Bernstein—At the Royal Victoria Hospital, Montreal, in July, to Dr. P. H. Bernstein, Med. '34, and Mrs. Bernstein, a son.

Breithaupt — At the Kitchener-Waterloo Hospital, Kitchener, Ont., to F. A. Breithaupt, Arts '24, and Mrs. Breithaupt, a son.

Danton—Early in September, to G. W. Danton, Med. '27, and Mrs. Danton, of Endicott, N.Y., a son.

Griffin—At the Private Patients' Pavilion, Toronto General Hospital, on August 21, to H. W. Griffin, Sc. '23, and Mrs. Griffin, a son.

Hay—In Kingston, on September 3, to Dr. W. D. Hay, Arts '14, Med. '21, and Mrs. Hay (Edna Saunders), Arts '24, twin sons.

Henel—At the Kingston General Hospital, on September 2, to Dr. Heinrich Henel, head of the German department at the University, and Mrs. Henel, a son (Rolf Heinrich Johannes).

Kidd—At St. Joseph's Hospital, Toronto, on August 21, to K. W. Kidd, Arts '25, and Mrs. Kidd, of Mimico, Ont., a daughter.

MacInnes—At Mount Allison Hospital, Hamilton, Ont., on September 11, to Rev. Donald MacInnes, Arts '24, and Mrs. MacInnes, a son (Donald Lloyd).

Todd—At the Kingston General Hospital, on September 1, to Rev. Horatio Todd, Arts '34, Theol. '37, and Mrs. Todd, of Braeside, Ont., a daughter.

Marriages

Bain—On September 4, in St. Clair Avenue United Church, Toronto, Jean Wilkie Adsit, of Kingston, to Howard Stuart Bain, Com. '36, of North Bay, Ont.

Baker—At St. Mary's Cathedral, Kingston, on August 9, Mary Gertrude Burke to Dr. John E. Baker, Med. '34, of Port Colborne, Ont. Dr. J. E. Bedard, Med. '36, was groomsman.

Dickson—At Grafton, Ont., on August 14, Mrs. Una Cartwright Lobb to Charles William Dickson, Arts '99, of Kelowna, B.C.

Edwards—In August, at Saskatoon, Sask., Hazel Brandon, daughter of Mr. and Mrs. James Brandon, to F. Lloyd Edwards, Sc. '36. They are living in Sudbury, Ont., where Mr. Edwards is on the staff of the International Nickel Company.

Ellis—On September 10, in Christ Church, Roche's Point, Lake Simcoe, Ont., Olwen Mary Owen to Donald Metcalfe Ellis, Arts '28, of Toronto.

Falkner—At St. John's Church, Peterborough, Ont., on August 21, Elizabeth MacBeth, younger daughter of Mrs. H. Morrow and the late David Mulholland, to Graeme Falkner, Arts '31.

Fraser — On September 18, at Chalmers United Church, Kingston, Mary Ray Fraser, Arts '35, to Joseph William Bishop, of Toronto.

Hawkins — In St. George's Cathedral, Kingston, on August 7, Violet Mary Caswell, of Toronto, to Reginald Ernest Hawkins, Sc. '37, of Montreal.

Tett—In St. Mary's Church, Newboro, Ont., on September 4, Honor Preston Tett, Arts '30, to Dr. Kenneth George Gray, of Toronto. The bride was attended by her sister, Eleanor Tett, Arts '28.

Hearne—At Burford, Ont., on July 10, Edna Marie Hearne, Arts '30 (Ph.D. McGill), to Hugh John Creech.

Hesketh-Dibben—At the home of Elizabeth Sheldon, Arts '21, Brockville, Ont, Jessie Irene Dibben, Arts '39, of Hamilton, Ont., to Arthur Alfred Hesketh, Sc. '36. They are living at Drummondville, Que. where Mr. Hesketh is chemist with Canadian Celanese Limited.

Kitto—On June 26, in Grace Church, Brampton, Ont., Thelma Jessie Turner to William Cecil Kitto, Arts '34. Mr. Kitto was ordained into the ministry of the United Church on June 13 and is now pastor at Nakina, Ont.

Racey-Leggett — At the home of the bride's parents, Newboro, Ont., on August 21, Mary Phyllis Leggett, Arts '31, to Dr. Arthur Gerald Racey, Sc. '32, of Westmount, Que. They will live in Boston for a year, where Dr. Racey will do postgraduate work in dentistry at Harvard.

Loucks—At Holy Trinity Church, Bear Brook, Ont., on August 15, Vera Griffith to Dean H. Loucks, Arts '33. They will reside at Manotick, Ont., where Mr. Loucks is principal of the continuation school.

McCreary—At St. Andrew's Church, Pakenham, Ont., early in August, Kathleen

Harriet McCreary, Arts '30, to Everett Walter Stirtan. They will reside in Carp, Ont., where Mr. Stirtan is on the staff of the high school.

McIntyre—On August 28, at First United Church, Hamilton, Helen Maxin Broderick to Hugh McIntyre, Sc. '32, of Larder Lake, Ont.

MacLennan—At Calvary Church, Staten Island, N.Y., on May 1, Inglis MacLennan, Arts '34, to Robert Livingston Winsor, of Staten Island. The ceremony was performed by the bride's brother, Rev. David MacLennan, of Timothy Eaton Memorial Church, Toronto, and the bridesmaid was Emily MacInnes, Arts '33.

McMahon—On August 27, at the summer home of the bride's sister, Rideau Ferry, Ont., Lillian Couch to Gordon Henry McMahon, Sc. '36, of Kingston.

Murray—In Chalmers United Church, Kingston, on August 28, Helen Isobel Mylks, daughter of Dr. G. W. Mylks, Med. '97, and Mrs. Mylks, Kingston, to Dr. Ronald Buchan Murray, Med. '35, son of Dr. H. G. Murray, Med. '96, and Mrs. Murray, of Owen Sound, Ont.

Orr—On August 7, at High Park Avenue United Church, Toronto, Margaret Tempest Hamilton to William Winston Orr, Sc. '27, of Toronto.

Palmer—On August 11, at the home of the bride's parents, Dobbinton, Ont., Frances Audrey Hanbridge to Earl Thomas Palmer, Arts '33. They will live in Iroquois Falls, Ont., where the groom is a member of the high-school staff.

Rice—On August 10, at First Congregational Church, Barre, Vermont, Margaret Estelle Rice, Arts '37, daughter of Rev. E. L. Rice and Mrs. Rice (Henrietta Henderson), Arts '11, to Rev. Reginald Neve Savary, of Halifax, N.S. The ceremony was performed by the bride's father, assisted by the groom's father. They left immediately after the ceremony for Yokohama, where Mr. Savary has an appointment under the Mid-Japan Mission of the Church of England in Canada.

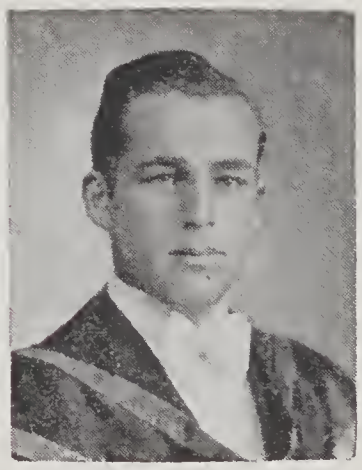

Ruttle—On August 28, at the home of the bride's parents, Innisville, Ont., Edith Lillian Ruttle, Arts '30, to W. J. Earl Willows.

Teal—Recently, at the home of the bride's parents, Kingston, Mildred Irene Wood to Aubrey Leroy Teale, Arts '35, of Richmond Hill, Ont.

Deaths

Brown—One of the first Canadian women to graduate as a doctor, Sarah Amelia (Minnie) Brown, Med. '90, died in Greenwich, Conn., on August 19, at the age of seventy-four. Miss Brown—her own express wish was that she not be called "Doctor"—was born in Toronto, and received her early education in the schools of London, Ont., and St. Catharines. She qualified to enter the teaching profession, but enrolled instead at the Women's Medical College at Queen's in 1886. There were eight women altogether in that class, two dropping out later and six graduating in 1890. After receiving the degrees of M.D.,C.M., Miss Brown practised in Kingston and in Bethlehem, Pa., for a short time before taking a nurse's course in New York City. In 1905 she moved to Greenwich as private nurse and companion to two wealthy women, and resided there until her death. She is survived by one sister. Dr. Margaret MacKellar, the sole remaining classmate of Miss Brown, in a letter to the "Review" wrote as follows: "I remember her so well throughout our College course. She was the cleverest student in our class. Timid and reluctant to enter the dissecting-room on her first visit, she opened the door a few inches and peeped in, but seeing us all intent in our work, she gained confidence and came in. Under the enthusiastic teaching of the late Hon. Michael Sullivan, 'Brownie' became the most proficient member of the anatomy class."

Alves—A victim of poliomyelitis, Charles A. Alves, Arts '36, passed away at his home in Shebeshekong, Ont., on August 5, at the age of twenty-four. Mr. Alves was born near Parry Sound, Ont., and was educated in the public and high schools of the district. He entered Queen's in 1932 and graduated with an honour B.A. four years later. While an undergraduate he served as a demonstrator in the chemistry department at the University. After graduation he joined the chemical staff of the Swift Canadian Company, Toronto.

CHARLES ALVES

Clark—In his seventy-first year, Luther John Clark, Arts '98, died at his home in Toronto on August 17. Born in Erin, Ont., he began teaching in Dufferin County at the age of seventeen. He entered Queen's in 1895 and graduated three years later. He then taught in various high schools of the Province, including Smiths Falls and Walkerton. He went to Toronto in 1898 to join the staff of Harbord Collegiate Institute, where he remained until 1914, when he went to North Toronto Collegiate as a language specialist, retiring three years ago. Survivors include his wife, one sister and four children.

Craig—Second on the alumni seniority list, Rev. Dr. Robert John Craig, Arts '71, of Demorestville, Ont., died at Picton on September 15, after an illness of five days. Dr. Craig was born in Kingston in 1850, and received his early education at the Kingston Grammar School. He entered Queen's in 1867, and obtained his B.A. de-

gree in 1871 and his M.A. in 1874. As an undergraduate he won seven scholarships. After graduation he was ordained into the Presbyterian ministry at Deseronto, Ont., and remained in the pastorate of Church of the Redeemer there for eighteen years. He then spent three years in postgraduate study in the Old Country, and on his return was engaged in supply work in Kingston. From 1909 to 1913 he worked as a missionary in Northern Ontario, afterwards moving to Prince Edward County where he held a pastoral charge for many years. A former Grand Chaplain of the Grand Lodge of Canada, A.F. & A.M., Dr. Craig was a thirty-third degree Mason, Scottish Rite, and Knight Templar, and founder of the Craig Masonic Lodge at Deseronto. He was a past moderator of the Presbyterian Synod of Toronto and Kingston, and also served as clerk of the Kingston Presbytery for many years, being active in the latter capacity until a few days before his death. In 1935 he was made the recipient of a D.D. degree by the Presbyterian College of Montreal. Belonging to a type of churchman renowned for its vigour, robustness and enthusiasm, Dr. Craig was greatly loved by all with whom he came in contact. He is survived by one daughter and two sons, one of whom is H. B. R. Craig, Sc. '03, London, Ont.

Gibson—At the age of seventy-one years, Dr. James L. Gibson, Med. '93, died at his home in Linden, Ont., recently. Dr. Gibson was born in Cherry Valley, Ont.

Girvin—Chief chemist at the Steel Company of Canada, Harold G. Girvin, Arts '00, died suddenly at his home in Hamilton on Aug. 12. Born in Stella, Ont., in 1877, he received his early education in the Kingston schools. He entered Queen's in 1896, leaving four years later to join the Steel Company's plant in Hamilton as assistant chemist. Shortly afterwards he became chief chemist and served in this capacity for thirty-six years. Mr. Girvin was a member of the Hamilton Chemical Association, of which he had been president. An enthusiastic chess player, he was a former president of the Hamilton Chess Club. He was also a member and one-time president of the Roselawn Bowling Association. The American Foundry Association claimed him as a member. He is survived by his wife and one daughter.

Jamieson—After more than fifty years in the medical profession, Dr. Archibald Jamieson, Med. '86, passed away on August 19 at his home in Arnprior, Ont., at the age of seventy-eight years. Dr. Jamieson was born at Kars, Ont., and entered Queen's in 1882. After obtaining his B.A. degree he took a postgraduate course in London, England. He commenced his medical practice in North Gower, Ont., later going to Ottawa, and twenty-five years ago he moved to Arnprior. He served as medical health officer of McNab Township, as a member of the Arnprior school board, as an honorary member of the Arnprior Horticultural Society, and as a coroner for a number of years. He was a past master of the Masonic Lodge of Richmond, and was one of the first officers of the Dochart Chapter of Arnprior. He is survived by his wife, two sons, one daughter and two sisters.

Lee—Fatally injured in an automobile accident near Toronto on August 22, John McDonald Lee, Com. '27, died while being taken to the hospital. He was riding in the rumble seat of a friend's car which crashed into a truck. Mr. Lee was born at North Bay, Ont., in 1905, and educated in the schools of that city. He entered Queen's in 1923, graduating four years later. He was employed by the Robert Simpson Company, Toronto, for a number of years, and since 1933 he had been connected with the firm of F. O'Hearn, stock brokers, Toronto. He is survived by his wife and two children.

McCuaig—Outstanding figure in the earlier educational life of Welland, Ont., Herbert Malcolm McCuaig, Arts '84, died at his home in that city on August 6, after an illness of nearly a year. Born at Innerkip, Ont., Mr. McCuaig received his preliminary education in Kingston schools, entering Queen's in 1880 at the age of fifteen years. After graduation, he taught school at several Ontario centres, including Williamstown, Picton and Richmond Hill. He became principal of the Welland High School in 1891, when the building contained five rooms, three teachers, and fewer than 100 pupils. He continued when the present school was erected in 1915. After his retirement in 1923 his "old boys and girls" organized the Welland High School Alumni Association, and at a reunion at the school, attended by hundreds of former scholars from all parts of Canada and the United States, he was presented with a purse of $2,000 by Dr. John Phillips, one of the foremost medical men in the United States.

Ryan—For many years electrical and mechanical engineer at the plant of the Canadian Locomotive Company, Kingston, F. Hubert Ryan, Sc. '09, was found dead of asphyxiation in his home in Kingston on September 18. A leaking gas jet on the kitchen stove was believed responsible. A friend of the deceased, Mr. Roy Atkinson, of Toronto, who was visiting him, was also found badly gassed. Mr. Ryan was born in Camden East, Ont., in 1888, and was educated at Napanee Collegiate Institute before entering Queen's in 1905. He graduated four years later with a B.Sc. degree in electrical engineering. In addition to his engineering duties he also acted as an insurance adjuster. He was well-known as a sailor and golfer. He took an active part in industrial safety work and held office in the Industrial Accident Preventive Association. He is survived by his wife, two children, and three brothers, including Dr. J. F. Ryan, Med. '15, of Brooklyn, N.Y.

Tower—Word has just been received of the death of Dr. James L. Tower, Arts '11, Med. '13, which occurred at Albany, N.Y., on July 10, 1936. Dr. Tower was born in Belleville, Ont., in 1891, and received his preliminary education in the schools of that city. He entered Queen's in 1907 at the age of sixteen, obtaining his B.A. in 1911 and the degrees of M.D.,C.M., two years later. After graduation he served as an interne at Bloomingdale Hospital for Mental Diseases, White Plains, N.Y., and later was a member of the staff of the department of mental hygiene, Syracuse State School, Syracuse, N.Y., and of the Hospital of the Good Shepherd, in the same city. During the World War he was connected with the No. 7 General Hospital, C.A.M.C., in France. On his return he opened a medical practice in Belleville. In October, 1926, he was appointed assistant child guidance psychiatrist for the New York State Commission for Mental Defectives. When the latter organiaztion was merged with the State Hospital Commission to form the Department of Mental Hygiene, Dr. Tower continued in the service as child guidance psychiatrist, which position he filled until his retirement in 1935. After his resignation, he pursued postgraduate studies in psychiatry in England. He is survived by his wife and one daughter.

Weiss—Stricken with a cramp while swimming in the Blanche River fifteen miles from Kirkland Lake, Ont., Herman Weiss, Sc. '31, was drowned on August 10. His body was recovered the following day by Henry Hosking, Sc. '33. Mr. Weiss was born at Bozen, Italy, in 1909. He attended public and middle schools in Austria and spent one year in the Meraner Pensionats-Handelsschule. He came to Canada in 1924 and worked for a year and a half as assistant assayer at the Keeley Silver Mine in Northern Ontario. He entered Queen's in 1926 and graduated with the degree of B.Sc. in mining and metallurgy in 1931. He then joined the engineering staff of the Lake Shore Mine, remaining there until his death. He is survived by his mother and one brother.

HERMAN WEISS

Notes

1880-1889

Dr. A. E. Freeman, Med. '87, has been practising at Inverary, Ont., for many years.

Rev. W. M. Thompson, Arts '88, is minister of the Presbyterian Church in Durham, N.S.

Rev. Dr. J. W. H. Milne, Arts '85, D.D. '14, resides at 176 Carling Ave., Ottawa.

1890-1899

Rev. Dr. J. A. MacCallum, Arts '99, has been secretary and manager of the Ministers Mutual Life Insurance Company of Boston, for the past year. He has also acted for several years as chairman of the finance committee of the Presbyterian Ministers Fund. He was preacher at the Institute of Public Affairs, University of Virginia, on July 4, 1937, and afterwards addressed the Institute on the possibilities of a warless world and led a number of round-table discussions. He was a commissioner to the 149th assembly of the Presbyterian Church in the United States, which met at Columbus, Ohio, in May, and also at the general council of the Alliance of Reformed Churches holding the Presbyterian System, which met at Montreal in June. Since its formation a year ago, Dr. MacCallum has been chairman of the Philadelphia Committee to Aid Spanish Democracy. The committee, in appreciation of his services, recently decided to establish a home in Spain to be called the "Dr. John A. MacCallum Home for Spanish Children."

Dr. W. G. Malcolm, Med. '93, has practised for many years in Chetek, Wisc.

1900—1909

Dr. M. R. Bow, Arts '08, Med. '11, of Edmonton, Alta., president of the Canadian Public Health Association and deputy minister of health for the Province of Alberta, delivered the presidential address at a joint session of the Canadian Public Health Association and the Ontario Health Officers Association in Ottawa in June. The address, entitled "Public Health, Yesterday, To-day and To-morrow," was published in the "Canadian Public Health Journal" for July.

R. C. Easson, Arts '08, who teaches in the collegiate institute at Moose Jaw, Sask., was bereaved last January by the death of his wife.

Dr. S. L. Lucas, Med. '06, has been in Atlantic City, N.J., for the past eighteen years and is now associated in private practice with Dr. Albert E. Forsythe. He was appointed assistant health officer for Atlantic City in 1929 and has done outstanding work in this capacity since.

Dr. Duncan McArthur, Arts '08, deputy minister of education for Ontario, spoke on "Education for Citizenship in Canada" at the convention of the Canadian Institute on Economics and Politics at Geneva Park, Lake Couchiching, Ont., early in August. He also spoke later in the month at the opening of the Ontario Educational Association exhibit at the Canadian National Exhibition.

Rev. J. A. McConnell, Arts '99, Theol. '03, of the United Church, Little Britain, Man., recently returned from a six weeks' visit to England.

Rev. D. A. McKeracher, Arts '03, formerly in charge of Wesley United Church, Alliston, Ont., is now at Uno Park, near New Liskeard, Ont.

Miss Della Stewart, Arts '10, is with the mines and geology branch of the Department of Mines and Resources, Ottawa.

R. M. Stevenson, Arts '05, Theol. '07, has been appointed assistant principal of the Winnipeg Normal School. At one time he was principal of the high school at Souris, Man., later an inspector, and then principal of the normal school at Dauphin, Man., until its closing.

B. O. Strachan, Sc. '05, is mine superintendent of the Ely Mine, Ely, Minn.

Dr. H. J. Williamson, Arts '01, Med. '05, is overseas medical representative for the Dominion Department of Pensions and National Health. His headquarters are at Canada House, Trafalgar Square, London, England. After graduation Dr. Williamson practised in Port Arthur until he went overseas in 1915. He was made registrar and adjutant of No. 2 Canadian General Hospital in January, 1918, and held this position until his present appointment in the spring of 1919.

1910-1919

H. G. Bertram, Sc. '10, of Dundas, Ont., was bereaved on August 13 by the death of his daughter, Barbara.

Dr. N. D. Black, Med. '16, was recently appointed clinical director of the Marcy State Hospital, Marcy, N.Y.

A. P. Blackburn, Sc. '17, after eighteen years' connection with the steel industry, has joined the general contracting firm of Dansereau Limitée, Outremont, Que.

Dr. H. A. Boyce, Med. '16, has been elected president of the Liberal Club of Deseronto, Ont.

Dr. E. W. Bradwin, Arts '14, principal of the Frontier College, Toronto, was guest speaker at a special meeting of the Toronto Kiwanis Club, held in the Royal York Hotel on August 4.

Miss Ruth Buchanan, Arts '14, is living with her father, **Rev. J. H. Buchanan,** Arts '85, at the Canadian Presbyterian Mission in Amkhut, Central India, where she is engaged in social work among the Bhils of that district. Her experience as a teacher and her knowledge of the language make her work of great value to the mission.

C. B. Dawson, Sc. '17, has been doing consulting work in mining engineering and geology since 1935. His office is in the Hamilton Building, Winnipeg, Man.

Lt.-Col. Philip Earnshaw, Sc. '15, Royal Canadian Signals, has been transferred from Halifax to Ottawa.

Dr. A. J. Flood, Med. '12, of Catskill, N.Y., was bereaved on August 6 by the death of his mother, at Kingston.

Dr. A. J. McIntyre, Arts '14, Med. '19, formerly practising at Englin, Man., is now attached to the medical staff of the Ontario Hospital Service and is situated at Hamilton, Ont.

K. P. Macpherson, Sc. '14, is still wire and cable sales manager for the Northern Electric Company, Montreal. It was incorrectly stated in the August "Review" that Mr. Macpherson had become plant manager of the Canadian Marconi Company.

W. C. Ringsleben, Sc. '17, for many years geologist with the Hollinger Consolidated Mines, is now managing engineer for Brigham Mining Associates, 170 Bay St., Toronto.

1920-1929

Dr. F. A. Alexander, Arts '29, Med. '33, has been appointed clinical professor of anesthesia in the Albany Medical College, and director of anesthesia in the Albany Hospital, Albany, N.Y.

Dr. J. K. Bigelow, Med. '24, is practising in Lethbridge, Alta., in partnership with Dr. Fowler. He is lieutenant-governor of the Kiwanis Club for Alberta.

A. L. Clemence, Sc. '26, has joined the staff of the technical school at Walkerville, Ont.

Dr. H. T. Ewart, Arts '26, Med. '35, is practising at 433 King St. E., Hamilton, Ont.

J. C. Gibson, Sc. '23, who has been on vacation in Canada for the past four months, returned recently to Cartagena, Colombia, where he is chief engineer of the Tropical Oil Company.

"I don't see you at many fashion shows . . ."
"I'd go to more—if they'd pass around Sweet Caps!"

SWEET CAPORAL CIGARETTES

"The purest form in which tobacco can be smoked."—Lancet

C. S. Gibson, Sc. '22, of Timmins, Ont., attended the C.I.M.M. and A.I.M.E. convention held in Vancouver on September 17. He read a paper on "Silicosis."

Mrs. A. D. F. Hamilton (Isabel Davidson), Arts '29, formerly of Grand Falls, Nfld., is now residing at 69 Spadina Road, Toronto.

R. J. McKenzie, Arts '23, has been appointed a provincial school inspector for Manitoba. He was principal of the school at Frankin, Man., for the previous four years. His headquarters will be at Roblin, Man.

Dr. H. S. Murphy, Med. '28, who has been doing postgraduate work in Chicago, was recently appointed obstetrician and gynaecologist at the Kenosha Clinic, Kenosha, Wisc.

M. E. Nagel, Sc. '29, recently returned from South America and is now on the staff of the Waite-Amulet Mine, Noranda, Que.

A. M. Potter, Sc. '27, is with the Adolski Mining Corporation, St. Felicien, Que.

Edward Ryan, Sc. '28, has been appointed to the science staff of the Kingston Collegiate and Vocational Institute.

D. A. Skelton, Arts '27, chief of the research department of the Bank of Canada, has been appointed secretary of the Rowell commission on Dominion-Provincial relations.

Dr. W. G. Watt, Med. '29, who spent three years after graduation specializing in diseases of children at the Cornell University teaching hospitals in New York City, and then practised pediatrics in Ottawa for three years, has moved his office to 7 London Block, Timmins, Ont.

1930-1937

N. F. Batchelder, Arts '37, is in the cost department of the Empire Cotton Mills, Welland, Ont.

Dr. H. W. Blakely, Med. '31, after interning at the Polyclinic Hospital, New York City, is now in private practice at Foxboro, Ont.

Joseph Booth, Sc. '37, is employed in the silver refinery of the Consolidated Mining and Smelting Company, Trail, B.C.

K. W. T. Bowles, Sc. '31, of Ottawa, was bereaved on August 28 by the death of his mother.

E. V. Briceland, Sc. '37, is with the Canadian General Electric Company, Peterborough, Ont.

Dr. Sidney Brownstone, Med. '36, has been on the staff of the State Sanatorium, Oakdale, Iowa, since July.

Dr. Desmond Burke, Med. '32, of Ottawa, has won a place on the 1938 Bisley team.

John Cannon, Sc. '36, has accepted a position as demonstrator in chemistry at McGill University.

R. J. Chambers, Sc. '33, of the Anglo-Canadian Pulp and Paper Mills, Quebec City, was this year awarded the Weldon medal by the Canadian Pulp and Paper Association for the best technical paper presented at the annual meeting of this organization.

H. K. Coulthart, Arts '36, is a full-time demonstrator in the chemistry department at Queen's this session.

R. V. Darling, Sc. '35, who joined the staff of the San Antonio Mine after graduation, recently became field engineer in charge of development work for a Toronto mining syndicate. His address is Suite 204, 80 Richmond St. W., Toronto.

Miss Daisy Davidson, Arts '33, is teaching at Haileybury, Ont.

Rev. W. T. R. Delve, Arts '30, of Sexsmith, Alta., and **S. A. R. Delve,** Arts '34, of Morven, Ont., were bereaved recently by the death of their father, Rev. R. A. Delve.

Aloysius Dolan, Sc. '37, has succeeded **P. C. King,** Sc. '30, as demonstrator in the civil engineering department at Queen's.

R. F. Dore, Sc. '32, is now junior topographical engineer in the bureau of economic geology, Department of Mines and Resources, Ottawa.

R. L. Douglas, Sc. '37, who joined the staff of the Trane Company after graduation, is now stationed at La Crosse, Wisc.

Miss Ray Ellis, Arts '32, is teaching English and history at the collegiate institute in Picton, Ont.

O. T. Flint, Arts '34, formerly of Porterville, Ont., has been appointed to the public-school staff at Oshawa, Ont.

G. A. Franklin, Sc. '30, formerly with Price Brothers, Kenogami, Que., and latterly with the Spruce Falls Company, Kapuskasing, Ont., is now control superintendent with J. R. Booth, Ltd., Ottawa.

J. O. Giles, Sc. '37, is now on the staff of the combustion department of the Imperial Oil Company, Sarnia, Ont.

Dr. J. E. Gorman, Med. '34, is practising at Rimbey, Alta.

R. P. Graham, Arts '37, is back at the University this fall doing postgraduate work in physical chemistry.

J. N. Gray, Sc. '33, formerly with the Goodyear Tire and Rubber Company, Toronto, is now in the engineering department of the Canadian National Carbon Company, Toronto.

C. H. Hillier, Sc. '34, was recently appointed head of the mechanical department of the Kellogg Company of Canada, London, Ont., with which organiaziton he has been connected since graduation.

D. E. Hillier, Sc. '36, who went to the Beattie Gold Mines after graduation, recently joined the staff of the Deloro Smelting and Refining Company, Deloro, Ont.

M. D. Isbister, Sc. '37, is at the Falconbridge Nickel Mines, Falconbridge, Ont.

Stewart Ireton, Com. '31, of Ottawa, was bereaved on August 26 by the death of his mother.

Dr. J. A. Kearns, Med. '30, has gone to London, England, for a year's postgraduate

work. He formerly practised at Kazubazua, Que.

R. B. King, Sc. '35, formerly at the Britcana Gold Mines, Englehart, Ont., is now on the staff of the Raven River Gold Mines, Larder Lake, Ont.

Kenneth Kleinsteuber, Arts '33, has been appointed to the staff of the high school at Newburg, Ont.

Dr. Horace Leigh, Med. '35, was recently appointed resident anesthetist at St. Luke's Hospital, New York City.

Miss Marguerite Lemmon, Arts '35, is teaching mathematics in the high school at Kenora, Ont.

K. D. Little, Com. '34, is in the audit department, Legislative Buildings, Regina, Sask.

W. C. Little, Sc. '30, is now regional engineer at Toronto with the Canadian Broadcasting Corporation. His address is 1 Hayter St.

Dr. C. J. Locke, Med. '35, has opened a practice at Winchester, Ont.

W. L. Lovell, Arts '30, formerly on the high-school staff at Kirkland Lake, Ont., was recently appointed public-school inspector for South Temiskaming, Ont.

Archibald Macalister, Arts '36, who was back at the University last session doing postgraduate work in chemistry, is now junior chemist at the Sherritt-Gordon Mines, Sherridon, Man.

W. J. McGill, Sc. '37, is back at the University this session doing postgraduate work in geology and acting as part-time demonstrator in the chemistry department.

Herman McGuire, Arts '31, who has been on the teaching staff of the Toronto Board of Education for the past thirteen years, and at Bloor Street Collegiate Institute since 1931, has been appointed to the staff of the University of Toronto Schools.

Miss Christine MacKeracher, Arts '34, is on the staff of the public library in Timmins, Ont.

C. E. McRoberts, Sc. '31, is with the Amalgamated Electric Corporation, Toronto.

Miss Agnes Medley, Arts '34, formerly with the Connell Research Foundation, is now doing laboratory work at the Kingston General Hospital.

A. F. Meiklejohn, Arts '30, has been appointed to the staff of the Kingston Collegiate and Vocational Institute as assistant teacher of English and history.

J. L. Milton, Sc. '37, has joined the staff of the American Can Company, Hamilton, Ont.

Miss Dorothy Morton, Arts '32, who has been teaching in the high school at Deseronto for the past three years, left there recently to join the staff of the Runnymede Collegiate Institute, Toronto.

Miss Betty Montgomery, Arts '37, is on the staff of the Bank of Commerce at Bloomfield, Ont.

G. W. Motherwell, Arts '37, is in the chemistry division of the Experimental Farm, Ottawa.

K. L. Murray, Sc. '37, is in the schedule department of the Canadian Locomotive Company, Kingston.

A Message to College Men

Whether buying a life insurance policy as a provision for the future, or contemplating the selling of life insurance as a profession, you would do well to consider the outstanding sixty-seven year record of The Mutual Life of Canada. Communicate with our nearest Branch Manager or our Home Office.

A GRATE FIRE AND A GOOD BOOK---

And here are the books

For those who enjoy a good novel—**THE CITADEL,** by A. J. Cronin, author of *The Stars Look Down*, is a best seller and deserves to be. It is the story of a young doctor's early struggle in his profession; 93,000 sold in the first few weeks of publication. $2.50.

For those who enjoy travel articles—**SNOBS AND SPIRES,** by Austin F. Cross, is a collection of travel sketches of North America. Even better than *Cross Roads*, Austin Cross's first book, which came out in July, 1936, and went into a second edition in three months. $2.50.

For those interested in Canadian Art—**TOM THOMSON** or **CORNELIUS KRIEGHOFF,** both by Albert H. Robson, in the new Canadian Artists' Series. These little books make ideal gifts. They contain not only a biography and critical appreciation, but ten full-colour reproductions of the artist's work. Cloth, $1.00; paper, 50 cents.

For those who enjoy unusual and entertaining people—**LIFE WITH MOTHER,** by Clarence Day. A bit of the same cloth as *Life with Father*, which is one of the best-loved books of our time. $2.25.

WHY ARE UNIVERSITY GRADUATES SO INEFFECTIVE IN POLITICS?

By James M. Macdonnell, Arts '04

An address delivered in Grant Hall, Queen's University, October 15, 1937, on the occasion of the Annual Alumni Reunion.

MY title makes a rather sweeping assumption and perhaps one that you will not at first be inclined to admit. You may argue with force that we have many university graduates in the Dominion Parliament and Provincial Legislatures, and you will be right. But that is not my point. We have produced, I don't doubt, a good number of people prominent in public life. But that is not what I am talking about. What I am talking about is the mass performance of the great body of university graduates. I wish in the first place to examine their record in the political field. What have they done? What have they failed to do and why? Secondly, to see whether the state of their country is such that they can safely leave all responsibility for its welfare to others. And finally to consider what they might do in the field of politics.

I come back to my first point, what is the true picture of our performance, not as prime ministers, cabinet ministers, not as members of parliament, but just as ordinary citizens doing public service in small and undistinguished ways.

I shall constitute you the judges, and I can perhaps best indicate to you the tests which I want you to apply by telling you briefly of a conversation with a friend of mine which is right to the point. This friend remarked to me one day that he was fed up with democracy. 'Well," I said, "would you like to live under a system where if you criticize the Government you will be laid by the heels and put in gaol? For," I added, "surely Mussolini, Hitler, Stalin and Company have shown us that there is no middle ground between our democratic form of government and the brutal tyranny of the totalitarian state." He admitted that he would not like to live under the repressive method of autocracy, but went on to complain that party politics was so degraded that one could have nothing but disgust for it. "Well," I said, "if it's true, it's your fault—yours and mine and our friends'." This obviously annoyed him and he asked what on earth I meant by such a statement. "Well," I asked, "did you ever belong to any political organization or do any work in one?" "No," he replied. "Did any of your friends?" I continued. "No!" "Did you ever subscribe to the funds of a party?" "No." "Did any of your friends?" Again "No!" "Well," I said, "why isn't it your fault if you and all the other people like you, who on the whole regard yourselves as the best people in the community, have nothing to do with politics, why isn't it your fault?" "Oh! but you couldn't do anything," he said, "your influence would be nil." "In my opinion you are quite wrong," I replied.

And in proof of my view I told him how on returning from the War I had joined the Great War Veterans' Association, and found there that, while an officer might be under some suspicion at first, once it was clear that he did not expect any precedence on the ground of being an officer but that he was content to work patiently and to share on terms of perfect equality in the counsels of the Association, he eventually gained whatever influence his character and ability entitled him to have. I added that I had been informed by those who had taken part in ward associations on the lines I had just outlined that the same was true of them, and I added that in my opinion the truth is that we have little or no influence in ward associations because we have not enough imagination to see that our duty calls us to take the time and trouble to do what on the face of it is dull.

I now ask you to apply to yourself, no, to each other, the questions which I asked my friend. I leave the result to you with considerable confidence, and shall assume that I have made my point and you agree that we university graduates as a whole are ineffective in politics for the very good reason that we take little or no part in them.

At this point I should like to digress for a moment to say that I am not forgetting that party politics is not the whole of politics. Politics is the science or art of government, the science dealing with the form, organization and administration of a state. This, of course, will include the work of the student of politics in its broad sense. Nevertheless the fact remains that it is only through men engaged in party politics that effect can be given to the results worked out by others, and in the main, to-night I propose to confine myself to party politics.

I revert now to the contention contained in my title. What are the reasons for this apparently inexplicable and unworthy conduct? Different people will give different reasons, but I think there are three that stand out.

1. Because, like my friend, we are fed up with the party system and politicians. We say we want a national government of business men.

2. Because we say politics is a dirty business and we won't have anything to do with it—we may even teach our children this.

3. Because we insist we couldn't have any influence.

Let us examine these reasons.

Because we are fed up with the party system and want a national government. It seems to me that the events of the last few years should have commended to us the party system and should have cured us finally of the desire for national or non-party government except in some grave emergency. Surely the events in Germany, Italy and elsewhere have made clear, beyond peradventure, that the only safeguard of freedom and democracy is the system whereby a change of government is possible without force—by ballots and not bullets—and only the party system can provide this unless, like the Athenians, we draw lots for office. Certainly it is hard at times to be loyal to the party system, but Hitler and Mussolini should make it easier for us.

As for big business government, this idea that we can hand our government to big business is a will-o'-the-wisp. It overlooks the fact that democratic government is government by persuasion, and persuasion is not usually

the forte of big business men. It assumes that, whereas in other professions years of training are required, the business of government is an amateur's game. But is there anything in experience to justify this? My own belief is that the business of courting democracy, and after all it must be courted before it can be governed, is a highly skilled profession for which men must have a long training, as in other professions. There is no use in having fine plans and projects for the benefit of the state and keeping them in a vacuum. To put these ideas into effect popular support must first be won. Far from being adepts at securing popular support big business men, whose training is to make their own decisions, are apt quite innocently to alienate popular support.

I come to the second objection, that politics is a dirty game and we won't have anything to do with it. Party politics is a fight, and admittedly fights can produce many unpleasant things. The ammunition used in party fights is mainly two-fold—arguments and personalities. The choice of ammunition depends on the audience I think it a fair assumption that a political speech made to an audience such as you, or to an audience where there was even a modicum of people such as you, would be a speech dealing mainly with arguments and principles. But how many of you, or people like you, go to political meetings, and what use would it be to address arguments of that kind to an audience composed only of political workers interested in the loaves and fishes. And therefore I say boldly and emphatically that if we find politics low and disgusting let us blame ourselves and not the political leaders. Armchair critics like us are like the spectators on the sidelines, and we should be very slow indeed to criticize those in active politics who are in the midst of the hurly-burly. To-morrow at the football match those on the field will give and take hard knocks, and how much more admirable they are than those who never took or gave hard knocks but who have merely looked on and often piously decried what they merely lacked the courage to do themselves.

John Bright, when criticized by his friends for making appeals which they thought beneath him, roundly told them that it was not through them that he could get his ideas carried out, but that he must accommodate himself to his audience and excite, amuse, cajole them to the end that he could finally bend them to his great purpose.

And now the third reason—the reason that you can do little or nothing and, therefore, why try at all. That is, of all arguments, the worst, because obviously it is pure negation and has no validity till you have tried and failed. Moreover, the positive evidence is against you too. History abounds with cases of people who, inside party politics and out, have by their force of character and ability shifted the mind of nations. And we need not confine it to individuals. Various instances will spring to your mind where the consciences of nations have been stirred to the depths. It happened to ourselves during the War and it happened during the Confederation period. Wilberforce and Lincoln stirred the conscience of two nations on slavery. It is happening in England to-day over Japanese aggression. It could happen here to-day in Canada except that, alas! our political conscience seems to be

sunk peculiarly low, due no doubt to our largely increasing preoccupation with internal dissensions which render us peculiarly incapable of common action.

Besides, is it really an argument that need seriously detain us that people who may be fairly described as forming a large part of the more intelligent element in the community can have no influence? If we really believed that, life would not be tolerable, and deep down we don't believe any such thing. Our great impediment, if we are honest with ourselves, is that we really count the humbler forms of political work hardly worth while. Let me say at once that we must get over that. We must be prepared to join in the rank and file and do whatever work offers. Here our Socialist friends set us an example. They are prepared to do the humbler forms of work because they believe in their cause. Our trouble is that we seem to see no cause worth maintaining, and yet I hope to satisfy you this evening that we have a cause and that it is nothing less than the safety of our country, which, as Mr. Bennett said to the people of Alberta the other day, is in danger.

I wish here to turn aside to consider for a moment the implications of the want of interest which I believe I have established, and there are two things I should like to point out. First, that we are going entirely contrary to the great principle laid down by Aristotle, practised with such great success by the Greeks in the city state and, so far as I know, never doubted, that man is a political animal and that it is only in association with his fellow that he realizes his true self. Second, that we should all be interested in the government of our country more than we can possibly be in anything else, and I venture to say that if a stranger to this planet were told that the people who by their training and experience should be among those best qualified to take part in the government of their country and to be leaders have abdicated their functions and left them to others, he would receive it with incredulous amazement.

But, you may say, suppose we admit that we are ineffective, suppose we admit that our attitude to politics has been wrong, suppose we even admit that our lives are the poorer because we are entirely failing to develop what the Greek philosopher said was our outstanding characteristic as men and women—nevertheless we prefer to go on as we are. We prefer also that our children should go on as they are and, further, nothing is taking any harm by our so doing. We are like shareholders who believe the company is doing well and leave well enough alone. I wonder if that is so. Are things really going so well with us? Let us give you briefly the evidence of one or two observers. First let me quote from an article by G. R. Stevens which recently appeared in the Yorkshire *Post,* entitled "Canada and her Provinces, Disintegrating Influences at Work." The writer says:

> To-day Canada moves slowly but surely toward disintegration—during the past fifteen years the authority of Ottawa has diminished and the authority of nine provincial capitals has increased. During these years no new tie has been found to dedicate mountain and prairie, east and west, French Canada and Anglo-Saxon to a common purpose.

There is some rhetoric here but in the main it is sober truth.

The next quotation I wish to make is from an editorial in the *Canadian Forum* on the Privy Council's judgment re Mr. Bennett's social legislation. The quotation does not deal with the merits or demerits of the legislation but bears wholly on the results on Canada's Constitution of the Privy Council judgment.

> The Privy Council has now delivered judgment on Mr. Bennett's reform measures. The decisions are the most important from every point of view that have ever been rendered by that body since Confederation. The results are nothing short of disastrous. The most exaggerated doctrine of provincial rights has been accorded full recognition and the national sovereignty of Canada in the international field has been destroyed. . . . We are nine peoples not one. . . . To all intents and purposes . . . Canada is thrust back to a position of constitutional infantilism.

It is disconcerting to find the same view from a casual visitor to our shores. Richard Parritt, M.P. for Radcliffe, in the *Globe and Mail* of October 11 predicted a dark future for Canada unless Provincial-Federal rivalry is overcome. Speaking of the clashes between the Dominion and Provinces, Mr. Parritt prophesied that another decade would find them "even more miserable" if the trouble was not cleared up in five years.

The same point was made in a speech recently delivered in Sydney by the Hon. W. D. Herridge. He really puts the whole matter in a nutshell when he says in effect that we Canadians have no genuine love of country.

And finally, a word from J. W. Dafoe which approaches our problem from the international point of view. "The end of the present precarious peace of Europe will bring the collapse of the present Canadian policy of preserving national unity by postponing decisions."

Turning from the past, let us look at a situation which faces us at the moment. What is the Rowell Commission going to be told? Well, let us forecast for a moment. All the other parts of Canada will fall upon Ontario and Quebec. British Columbia will complain that she buys from the East far more than the East buys from her, and that it is all wrong and what is going to be done. The Prairie Provinces will quote from a brief of Hon. Norman Rogers that Ontario and Quebec, through the tariff, levy $55,000,000 annually upon the Prairies. The Maritimes will complain that Confederation has worked out to their great disadvantage. Even Ontario and Quebec, who are regarded by the rest as almost a pair of racketeers and who should hang together lest they hang separately, even they are divided by racial and religious suspicion.

And where is it all to end? Our Anglo-Saxon disposition, of course, when faced with problems tends to sidestep and to say that somehow we shall muddle through. But remember that the Anglo-Saxon in his little island has homogeneity and a common tradition which make men in times of crisis instinctively stick together, and that both of these advantages are denied to us. Remember that geography makes common action easy for him just as it makes common action hard for us, and do not let us carelessly and indolently reason from his experiences. Let us rather ask ourselves honestly

and earnestly if Mr. Steven is really wrong when he says no new tie has been found to dedicate us to a common purpose.

And now let me see where I have got. I submit that I have made a *prima facie* case, that we are in the position of people who have a vast inheritance which is in jeopardy and are doing nothing about it. In my view the situation calls for serious concern and action on our part.

But, you may say, what are we to do? We are not in positions of authority. We shall have to leave it to men in public life. That I believe to be the last and worst mistake. Surely it is not thinkable that if the great body of university men and women were as passionately alive as their forefathers were seventy years ago to these problems they could do nothing.

Besides, the idea that these grave questions can be safely left to our public men is not warranted by the facts, and that not for reasons which imply any *prima facie* criticism of them.

In the first place, our public men are busy with many things—the State now does so many things—and their administrative work is endless, to say nothing of their political work. Moreover, they have many liabilities in the way of promises to liquidate when elections are over, and the liquidation or compromise of these takes much of their time and attention.

In the second place, the larger questions, so full of possible good or evil, are not familiar to the public and it is idle for us to expect public men to give a lead where there is no response on the part of the public. The leader must derive much of his strength and inspiration from his followers. A platoon commander friend of mine who led men over the top told me once he never could have done it without the inspiration of the men following him.

Besides, it is no disrespect to our public men to say that they have vested interests in the Governments to which they belong just as strong as the vested interests in private business, and it is just too much to expect of them to abate lightly one iota of the political pretension of the Government to which they belong. In those circumstances we can hardly leave to them the whole task of arousing the spirit of compromise and, in some cases, perhaps sacrifice and dedication without which it will go hard with our country. Put in plain words, we have ten sets of public servants, Dominion and Provincial, and unless we can assist them to a different attitude toward each other we shall waste a substantial part of our assets in fighting with each other. If you have any doubts on the matter, search the records of litigation between the Provinces and Dominion since Confederation.

But if our public men cannot be expected to deal with these questions, what then? It may well be that these grave matters will not receive in time the consideration which they deserve unless the whole weight of the intelligent elements in the community is directed towards them.

"The whole weight of the intelligent elements in the community." That is a large order you will say, and you will be inclined to dismiss it with a wave of the hand. But bear with me a moment and remember—all that I am asking is that you should be as much concerned for the largest enterprise in which you are interested as you are in the smaller ones, for the smaller ones

cannot prosper unless the larger one does too. And don't forget that in other countries this devotion which we have previously had still exists—in the United Kingdom and to a real extent in the other Dominions, where they have learned to know that federations make demands on the courage, generosity and often the unselfishness of the partners.

And here let me remind you that even in the dictatorships the leaders confidently appeal to their peoples not with promises of what they will get but with demands for sacrifice. And let us further remember that while much of this sacrifice is forced, there is much that is genuine and unselfish.

And now let me in the few minutes that remain suggest some of the things that we should do, particularly those of us who are young enough not to be incorrigible. First and most obvious, we should become members of some political party by joining its organization. And remember that in doing so you must not be "high hat," but must come in without any pretensions. In the second place, subscribe and get your friends to subscribe to party funds, for if everyone subscribed, there would come a greatly increased interest in the welfare of the party and, moreover, a multitude of small subscriptions would free public men from the necessity of large ones, which, for obvious reasons, may be very undesirable.

Next remember that if a democracy is to succeed and persist, public opinion must be sensitive and capable of expressing itself. You will remember how in England at the time of the Hoare-Laval incident pressure on the Government was applied by public opinion in the course of a single week-end. That was because people throughout the length and breadth of England were following events, constantly judging the action of their representatives, and were thus able to make their opinion felt and effective, as I have said, almost over night.

Let me mention two respects where I think there is particular scope for influencing public opinion by people like ourselves at the present time. The first is in the relation between French and English in Canada. We have made singularly little progress in 170 years. Indeed, sometimes one almost wonders if we are going backwards. We English have been greatly to blame, partly because we don't even take the first step towards understanding, namely, learning French. The solution is full of difficulty, and I have no intention of dwelling on it, but this surely must be said, the best hope of solution will be understanding and sympathy, and surely the best chance of sympathy is among those of higher education who can meet on a plane above that of prejudice where there is a common ground of knowledge and artistic appreciation. We can see the possibilities of this in the warm welcome given in Montreal to Sir Ernest MacMillan. An obvious lesson here, of course, is that we should see to it that all our children can speak French fluently. That in itself would go a long way.

The second case, and one where I think the need is even more important and urgent, is raised by the appointment of the Rowell Commission. The Rowell Commission has been appointed to make recommendations on subjects which are of vital importance to us all. When the report appears it

is reasonable to suppose that it will contain recommendations calling for sacrifices, perhaps of material things, perhaps—even more searching—of political pretensions and privileges from various sections of Canada in aid of the common good. Is there anything to indicate that in our present temper there will be the slightest disposition for any section to make sacrifices which involve loss of income or prestige in any of the Provinces? And yet surely it is clear that failing some miracle which will sweep away all our problems in a spate of prosperity—a very dubious blessing—we shall not surmount these grave problems without finding in ourselves some public spirit, some of what Stevens calls the spirit of dedication. And is it likely that this spirit will appear in public affairs without some effort on the part of people like ourselves who might be expected to give some lead in the matter?

This spirit, which is so sadly needed, should not be beyond our grasp. Have you never found anyone in Canada inspired by it? I have—the late Lord Byng. Though he was a Canadian only temporarily and by adoption, I have heard him speak of this country with such a genuine, unselfish and moving love that I felt that given a hundred, yes twenty, men like that, nothing would be impossible.

Like all great things, this spirit is perfectly simple and infinitely difficult. It consists chiefly of two things—imagination to see our country's need and firm will and sincere desire to carry it out.

I make no apology for having spoken with all the earnestness and seriousness of which I am capable on these high questions. It matters little what has been said by me to-night, but it matters tremendously what will be done by you and the many thousand other university graduates in Canada, particularly those who are still young enough to orient their lives, and to whom I would say, "Do not delay a minute in taking action." If any word of mine can affect in any degree, however small, the action of my fellow-graduates, I shall be more than repaid. For myself I am profoundly convinced that if we continue to neglect what I have maintained to-night is our plain duty, we may suffer consequences beneath our darkest imaginings, while if we dedicate ourselves loyally and zealously to this duty we shall reap rewards beyond our fondest dreams.

GREATEST REGISTRATION IN HISTORY OF QUEEN'S

SMASHING all previous records for intramural registration, the total enrolment of the University and the Theological College this session is 1805, an increase of 97 over last year. The former "high" was recorded in 1930, with 1725 students.

The increase has been in the Faculties of Arts and Applied Science, with the latter contributing the larger percentage. The registration in Medicine is four below that of last year.

The Extramural department reports an enrolment of 1340 for the winter term, a figure considerably below the record number of 1566 established in 1936-37. The decrease is explained by the fact that many of the teachers of the Province have now satisfied the Ontario Department of Education's regulation requiring that five university courses be taken in order to qualify for a permanent first-class certificate.

The tabulated totals for intramural registration are as follows:

	1935	1936	1937
ARTS—			
First Year	260	272	300
Other Years	570	573	587
SCIENCE—			
First Year	140	202	181
Other Years	338	355	435
MEDICINE—			
First Year	60	46	44
Other Years	258	250	248
THEOLOGY—			
(Not taking Arts courses)	13	10	10
GROSS TOTAL	1639	1708	1805

SIR EDWARD BEATTY SPEAKS AT CONVOCATION

AT Autumn Convocation, held in Grant Hall on the morning of October 16, the honorary degree of Doctor of Laws was conferred upon Sir Edward Beatty, Chancellor of McGill University and President of the Canadian Pacific Railway.

ARRIVING FOR CONVOCATION

Left to right. Mr. Macdonnell, Principal Wallace, Chancellor Richardson, Sir Edward Beatty.

In presenting Sir Edward to the Chancellor, Principal Wallace said, "We rejoice to associate with the honour roll of Queen's one who has performed signal service for Canada."

In conferring the degree, Chancellor Richardson spoke feelingly of the close friendship that had existed between him and Sir Edward for many years and of the eminent place that the latter occupied in Canadian affairs. He referred to the pleasure that it gave both him and Queen's to honour Sir Edward, particularly on his sixtieth birthday.

The presentation of various University scholarships not awarded last spring, and of the Honour Matriculation, the Dominion Entrance and the new Provincial scholarships formed a further interesting part of the programme. This was the first fall Convocation for many years of which the awarding of these scholarships formed a part.

CONVOCATION GROUP

Left to right. Rev. Dr. Kent, Dr. McNeill, Chancellor Richardson, Sir Edward Beatty, Principal Wallace, Mr. Macdonnell.

In a brief speech Principal Wallace mentioned recent developments at Queen's, the new buildings that were now approaching completion, the outstanding work of many members of the University staff, and the plans that were being made for the celebration of the centenary of Queen's in 1941. He stated that strenuous efforts would have to be put forward to ensure that the University would be in a strong position, both academically and financially, at the commencement of her second century of service.

Sir Edward in his address dealt with freedom of speech and thought from the university standpoint. While taking the position that the governing authority of a university could not undertake to direct

the intellectual or scientific trends of the efforts made, he pointed out that public confidence in the institution must be maintained. For this reason freedom of thought and speech must be exercised with a knowledge of facts and principles that cannot be challenged.

Convocation was opened with a Scripture reading and prayer, and closed with the Benediction, by Dr. H. A. Kent, Principal of Queen's Theological College. At the beginning and the end of the ceremony the band of the Royal Canadian Horse Artillery played suitable music.

THE LATE GEORGE J. MacKAY

AFTER an illness of several months, George J. MacKay, Sc. '07, head of the Metallurgy department at Queen's, died at his home in Kingston on October 21. Although not unexpected, his passing came as a distinct shock to a wide circle of friends.

Professor MacKay was one of the best loved and most highly respected staff members who ever taught at Queen's. A strict disciplinarian, with a saving grace of humour, he took a fatherly interest in the welfare of his students, and formed with them an enduring bond of friendship. His enthusiasm and exuberance were contagious and contributed much to his success as a teacher. His death is a heavy loss to the University which he loved and served so well.

G. J. MACKAY

Born on a farm in Arran Township in Bruce County, Ont., Professor MacKay received his preliminary education at Owen Sound Collegiate Institute. He entered Queen's in 1903 and two years later won the Chancellor's scholarship in practical science. As a student he was very popular, and when he graduated in 1907 with the degree of B.Sc. in mining engineering he was made permanent president of his class.

For three years he carried on research work at Queen's, in connection with the extraction of silver and cobalt from Cobalt ores. He was also responsible for much of the testing of various ores sent from all over Ontario and other points in Canada, Queen's having the only efficient mining laboratory in the Dominion at that time. For a few months he was engaged at Deloro, where he started the silver-oxide plant.

He went to Africa for three years when an opportunity arose to join the staff of the East Rand Proprietary Mine. Upon his return to Canada he spent some time in gold refining at the Dome Mine, South Porcupine. The prematurely defunct Sudbury Mining School was then rejuvenated through his efforts and has continued to prosper ever since.

The next two years he served as technical secretary to the deputy minister of mines at Ottawa. From there he went to Toronto as assistant to the late Dr. F. W. Merchant, director of technical education for the Province of Ontario. After two years in that post he returned to Queen's in 1918, to take charge of the Metallurgy department, and here he remained until his death.

Professor MacKay also did a large amount of important consulting work for various mines, and several patented processes are to his credit. For recreation he played golf and tended his beautiful garden, and in the winter he was expert with the "besom and stane."

The funeral service, held at Chalmers United Church, Kingston, on October 23, and conducted by the Rev. Dr. G. A. Brown, Arts '04, Theol. '07, was attended by members of the University staff and student body and by a large number of citizens. Also present were C. H. Bland, Arts '07, chairman of the Civil Service Commission, representing the Ottawa Branch of the General Alumni Association; J. M. Wardle, Sc. '12, director of surveys and engineering in the Department of Mines

and Resources, representing the Ottawa branch of the Engineering Institute of Canada; L. L. Bolton, Arts '02, Sc. '06, of the mines and geology branch of the Department of Mines and Resources, representing Dr. Charles Camsell, Sc. '01, LL.D. '22, deputy minister of that department; G. C. Monture, Sc. '21, chief editor, Department of Mines and Resources; F. M. Connell, Sc. '06, consulting mining engineer, Toronto; J. A. Reid, Sc. '02, consulting engineer, Toronto; A. G. Fleming, Arts '04, Sc. '07, chief chemist of the Canada Cement Company, Montreal, and a number of others. The pallbearers were Professors S. N. Graham, O. A. Carson, W. L. Malcolm, D. S. Ellis and Bruce Rose, and C. L. Emery, Sc. '36.

Professor MacKay is survived by his wife, Pearl Crawford, Arts '07.

BOARD OF TRUSTEES HOLDS SEMI-ANNUAL MEETING

THE autumn meeting of the Board of Trustees was held at the University on the evening of October 16. The following out-of-town members were present: Chancellor J. A. Richardson, and Mr. D. H. Laird, Winnipeg; Chairman J. M. Macdonnell, Mr. J. C. Macfarlane, Mr. R. M. Smith, Mr. D. I. McLeod, Mr. D. D. Calvin, Dr. Dennis Jordan and Mrs. G. H. Ross, Toronto; Mr. A. E. MacRae, Mr. Jackson Booth, Senator H. H. Horsey, Senator A. C. Hardy, Dr. W. C. Clark and Miss Charlotte Whitton, Ottawa; Mr. John Irwin and Rev. Dr. Leslie Pidgeon, Montreal; Dr. T. H. Farrell, Utica, N.Y.

A special committee of the Trustees was appointed to co-operate with local committees in an effort to raise funds for the extension of Ban Righ Hall. This project is associated with the plans of the Permanent Endowment Commitee to achieve a substantial increase in the endowment of the University by the time of the centenary celebration in 1941.

On the recommendation of the committee having charge of the preparation of a history of Queen's, to be issued just before the centenary, D. D. Calvin, Arts '02, was appointed historian. At a later date others may be associated with Mr. Calvin in preparing certain parts of the history.

The Vice-Principal reported the following gifts: a further payment of $4000 and $17.87 in dividends from the Leonard estate, as the University's one-fifth share of unused assets transferred to the B2 portion of the estate; the sum of $500 from the Chancellor, towards the cost of the Bell maps recently purchased by the Library for $750; contributions of $1000 from T. A. McGinnis, Sc. '08, $1000 from Mrs. McGinnis, Arts '09, and $750 from W. W. King Sc. '17, towards the cost of the new Sanitary Engineering Laboratory; a gift by Mrs. Mackintosh Bell of two hundred copies of her late husband's book, *Far Places,* to be sold at $1 each, the net proceeds to be used for radium treatment of cancer; the presentation by Arts '14 of a ceremonial chair for Grant Hall, to match the table given by Arts '18; and a gift by Mrs. Alice Turton, of Montreal, of two pictures, one of Wagner and one of Liszt.

Mr. D. H. Laird, chairman of the committee supervising the University's mortgages in Western Canada, made a valuable report on the present status of these investments.

Confirmation was given to the various staff appointments made before the opening of the session and which have already been announced in the *Review.*

J. C. MACFARLANE, ARTS '11, ELECTED ALUMNI PRESIDENT

AT the semi-annual meeting of the Board of Directors of the General Alumni Association, held at the University on the afternoon of October 15, J. C. Macfarlane, Arts '11, of Toronto, was elected president of the Association for the ensuing year; E. A. Collins, Sc. '05, of Copper Cliff, Ont., was chosen as first vice-president; and Miss Mary L. Macdonnell, Arts '09, of Kingston, was reappointed as second vice-president.

President MacRae, who was chairman of the meeting, reported briefly upon the activities of the Association during the past year, referring specially to the excellent work that was being done by many of the branches. He mentioned the keen interest at some of the centres in West-

ern Canada as a result of Dr. McNeill's recent visit, and emphasized the great value of frequent visits to the branches by members of the University staff.

The secretary-treasurer presented general and financial reports. The latter, published at the front of this issue of the *Review,* showed that the Association had ended the year with a small surplus.

The general summary revealed that membership had again increased — the growth being nine per cent — and that the number of branches was three greater than that of the previous year. The *Review* had continued to serve as an excellent means of contact among the alumni and as a bond between them and the University.

Referring to the work of the Employment Service, the secretary-treasurer reported that during the year more than four hundred graduates and students had been placed in permanent or temporary positions — an increase of thirty per cent over the previous period. The employment situation had been found very satisfactory although the demand had not been evenly distributed, unfortunately, with regard to the various faculties or courses.

A separate statement upon the Grant Hall Fund showed that by September 30, $12,679 had been raised. A balance of $1321 had still to be collected in order to wipe out entirely the Association's $14,000 debt. Interest was now accruing on this balance.

W. A. Dawson, Sc. '23, president of the Sault Ste. Marie branch, submitted a suggestion on behalf of his year in connection with a "Book of Remembrance" or some other suitable alumni memorial at the University. Consideration of this matter was delegated to a special committee to be appointed by the new president.

The following directors or branch representatives were present at the meeting: President A. E. MacRae; Vice-Presidents J. C. Macfarlane and Miss M. L. Macdonnell; Mrs. W. C. Clark; Professors D. S. Ellis, S. N. Graham, and W. P. Wilgar; Drs. G. B. Burwell, E. L. Bruce, T. H. Farrell, W. A. Mackintosh, A. E. Lavell, C. C. McCullough, J. H. Orr and C. H. Playfair; Senator H. H. Horsey; Messrs. G. C. Bateman, A. G. Fleming, H. G. Bertram, W. A. Dawson, M. B. MacLachlan, and A. J. Meiklejohn; and the secretary-treasurer.

THUMB-NAIL SKETCHES OF ALUMNI OFFICERS

THE new president of the General Alumni Association, Mr. J. C. Macfarlane, of Toronto, the first vice-president, Mr. E. A. Collins, of Copper Cliff, and the second vice-president, Miss Mary

E. A. COLLINS

MISS MACDONNELL

L. Macdonnell, of Kingston, are presented below in thumb-nail sketches.

Mr. Macfarlane received his M.A. in 1912. He graduated from Osgoode Hall in 1915, and practised law from 1915 to 1918 with Messrs. Kerr, Davidson, Paterson and McFarland, Toronto. He then organized his own firm, Macfarlane and Thompson, and also became general counsel for the Canadian General Electric Company, Toronto, which position he still holds. He was made a King's Counsel in 1933. He is president of several companies and a director of numerous others associated with the electrical industry in Canada. He has been a member of the Alumni directorate since 1932, and a member of the Board of Trustees of Queen's since 1933. He is chairman of the University's permanent endowment committee.

Mr. Collins graduated with his B.Sc. in 1905. For the next three years he was employed at Joplin, Mo., with the Canadian Copper Company. He then returned to Ontario and was engaged in

various mining works until 1912, when he became inspector of mines for the Province. In 1918 he joined the staff of the International Nickel Company of Canada, Copper Cliff, as safety engineer, eventually becoming assistant to the general manager, his present position. He has been a member of the Board of Directors of the General Alumni Association since 1931, and a trustee of the University since 1933.

Miss Macdonnell, an M.A. of 1910, and assistant professor of classics at the University, has been a member of the Alumni Directorate since 1928, and second vice-president for the past two years. After graduation, Miss Macdonnell taught for a year in Carleton School, Ottawa, and for a similar period in St. Margaret's College, Toronto. She then spent about four years in settlement work in Montreal and Winnipeg before joining the classics staff at Queen's.

CLASS OF ARTS '14 GIVES CHANCELLOR'S CHAIR

AN interesting feature of the Autumn Convocation ceremonies was the presentation to the University of a new Chancellor's chair by the class of Arts '14.

The chair is of solid mahogany, with the seat and back finished in red leather matching in colour the pillars of Grant Hall. The Queen's crest is carved at the top of the back-rest. The presentation was made by Mr. James H. Stitt, a former president of Arts '14 and now a member of the Civil Service Commission, Ottawa. Mr. Stitt spoke as follows:

> Mr. Chancellor, Principal Wallace and Trustees of Queen's University, Professors and Associates of the teaching staff, Graduates and Students, Ladies and Gentlemen:
>
> As one of the former presidents of Arts '14 it is my great privilege to-day to present to you, Mr. Chancellor, this new Chancellor's Chair as a memorial of the class in Arts of that year.
>
> The words "Nineteen Hundred and Fourteen" are eloquent of events that are forever enshrined in the common history of Queen's, of Canada, and of the British Empire. As I perform this office, which I now do in all humility of pride, I am conscious of the fact that I act not only on behalf of those graduates who are happily here and of those who are unavoidably absent, but also of those who, inspired by the teaching they received within these walls, went out and passed on upon the wasting ways of war that Queen's might be justified by her sons in a love that learned its consecration even unto death.
>
> It is, therefore, with a sense of the presence of that great company not only of the living but of the nobler dead that I present to you, Mr. Chancellor, this chair. I have wondered what message the men and women of old Arts '14 would have me convey. In my memory and vagrant thought I have talked with men and women who, in places near and remote, are expending their lives' labour in churches, in courts of justice, in schools and colleges, in public service, in business offices, in the professions, in mines, in markets and in camps, in factories, on farms and in homes, but my thoughts have also wandered, sir, to lonely graves in England, in Egypt, in France and on Flanders Fields. It therefore seems to me, Mr. Chancellor, that each and every one of my old year would have me ask you to say to Queen's, who is, and was and ever shall be our loving mother, "May God Who made thee mighty to teach truth and to foster freedom, make thee mightier yet."
>
> To you, sir, I am sure they would have me convey their admiration and respect personally, and to express the wish that you will long continue to occupy this chair as Chancellor of our Alma Mater, for we all have knowledge of the unselfish devotion and of the unparalleled service which you have always given to our own beloved Queen's.

In accepting the chair, Chancellor Richardson expressed his own thanks and those of the University.

EDUCATIONAL PROGRAMME PRESENTED OVER CFRC

THE week-by-week series of educational addresses broadcast over Queen's radio station, CFRC, so successful last year, was started again on October 11 when Principal Wallace spoke on "Queen's University and the Radio."

The programme consists of a quarter-hour talk given each evening, with the exception of Saturday and Sunday, by a member of the staff or by some prominent speaker visiting the University. The feature begins at 7.30 o'clock, and the daily divisions are as follows: Mon-

day, literature; Tuesday, science and medicine; Wednesday, social science; Thursday, art and music; Friday, talks on books and general subjects.

Those who have participated in the series this autumn up to October 30, are: Principal Wallace, Prof. A. E. Prince, J. C. Macfarlane, Arts '11, of Toronto; Prof. L. E. Law, Prof. G. S. Graham, Mr. André Biéler, Dr. F. L. Harrison (2), Dr. J. M. Shaw, Prof. A. A. Day, Rev. Dr. Gordon A. Sisco, Arts '25, D.D. '37, Toronto; Rev. Dr. Neil M. Leckie, Arts '02, Theol. '02, D.D. '30, Turnerville, Ont.; E. C. Kyte; and two members of the Medical staff who, for ethical reasons, remain anonymous.

TWO NEW MEMBERS ELECTED TO ALUMNI DIRECTORATE

IN the annual elections of the General Alumni Association, which closed on September 27, the following members were chosen as directors of the Association for the ensuing three years: Dr. E. L. Bruce, Sc. '09, Arts '11 (Ph.D. Columbia), Miller Research Professor of Geology, Queen's University; E. A. Collins, Sc. '05, assistant to the general manager, International Nickel Company of Canada, Copper Cliff Ont.; Dr. W. C. Cornett, Arts '19, Med. '21, physician, Hamilton, Ont.; A. G. Fleming, Arts '04, Sc. '07, chief chemist, Canada Cement Company, Montreal, Que.; and Dr. W. A. Mackintosh, Arts '16 (Ph.D. Harvard), Sir John A. Macdonald Professor of Political and Economic Science and Director of Commerce Courses, Queen's University. Dr. Cornett is a newcomer to the Board, while Dr. Mackintosh returns after an absence of a few years.

Dr. Cornett received his B.A. in 1919 and his M.D., C.M., in 1921. After two years' hospital work he settled in Hamilton and has now one of the most extensive practices in that city. He is at present doing some special work in England. He is a past president of the Hamilton branch of the Alumni Association and a member of the University Council.

Dr. Mackintosh obtained his M.A. at Queen's in 1916 and his Ph.D. at Harvard in 1922. From 1917 to 1919 he lectured in economics at Brandon College, Brandon, Man., and joined the Queen's staff in 1920. He served as investigator for the Combines Investigation Act, 1926, and for the Advisory Board on Tariff and Taxation, 1926-29. He was director of research for the Canadian Pioneer Problems Committee, 1929-34 and a member of the National Employment Commission, 1936. He is a fellow of the Royal Society of Canada, and president of the Canadian Political Science Association, 1936-37.

THREE AWARDS ESTABLISHED BY SUMMER SCHOOL

THREE prizes of $16 each have been established by the Queen's Summer School Association to be awarded to the students who, after attending the Summer School lectures, have made the highest marks in the September examinations in English 2, History 3, and Philosophy 1.

This fall, the first year of award, the prizes were won by Kenneth Williams, of Kingston, Fred Malone, of Port Burwell, and Norman McLeod, of Sault Ste. Marie. The money was obtained through a concert staged in Grant Hall, and similar means will be employed to raise the required sum in the future.

A former president of the Q. S. S. A., Carter B. Storr, Arts '37, of Ottawa, has been awarded the Curtis Memorial Foundation, value about $56. Founded in memory of the late J. T. Curtis, this prize is given to a graduate who has completed the degree course by extramural and Summer School work. The award is made by a special committee on the basis of scholastic ability, interest in athletics, and service to the Summer School.

RALPH H. CARRUTHERS WINS IMPORTANT AWARD

VALUED AT $1500, an American Library Association fellowship was recently awarded to Ralph H. Carruthers, Arts '26, of New York City.

The scholarship will enable Mr. Carruthers to make a survey of photographic problems of importance to libraries, under the direction of the New York Public Library, of whose photostat service he

has been in charge for the past ten years. It is estimated that the survey will take nine or ten months to complete.

Mr. Carruthers will continue to work part time in the New York Library and will also take a further postgraduate course at Columbia University. He already holds a B.S. degree in library service from Columbia.

FORMER CLASSMATES APPOINTED TO CABINET

TWO young men who used to board together when they were undergraduates at Queen's—Colin A. Campbell, Sc. '22, Arts '23, and Eric W. Cross, Arts '24—were recently appointed by Premier Mitchell Hepburn to the Ontario Cabinet. Mr. Campbell is now the Minister of Public Works, and Mr. Cross is the Minister of Municipal Affairs and Welfare.

Colin Campbell had represented the riding of Frontenac-Addington in the House of Commons since 1934, but resigned to contest Addington in the provincial election. He was defeated by a small majority, but a seat was found for him subsequently. He is a mining engineer by profession.

At thirty-two years of age, Eric Cross is the youngest cabinet minister in Ontario's history. He entered politics in 1931, and in 1935 he was appointed chairman of the Ontario Municipal Board. He is a lawyer by profession and holds the title of King's Counsel.

Another Queen's man, Angus McCallum, Sc. '19, of Sunbury, Ont., has been given Mr. Campbell's seat in the Federal house by acclamation.

DR. JAMES DOUGLAS A GENEROUS BENEFACTOR

THE memory of the late Dr. James Douglas, Arts '58, one-time Chancellor and generous benefactor of Queen's, has been refreshed by two events of the first week of October. Douglas Hall, a new residence for men at McGill University, built mainly through his munificence, was formally opened by His Excellency the

ONTARIO CABINET MINISTERS

COLIN A. CAMPBELL
Minister of Public Works

ERIC W. CROSS
Minister of Municipal Affairs and Welfare

Governor-General; and his distinguished grandson, Dr. Lewis Williams Douglas, was appointed Principal and Vice-Chancellor of McGill.

Dr. Douglas's gifts to Queen's included the chair of colonial and Canadian history (the earliest in Canada), the Douglas lectureship in pharmacology, the Douglas Memorial Library, and grants to the School of Mining, the Medical School, the women's residence, and the general University endowment funds. He served as Chancellor of Queen's from 1915 to 1919.

The biographical sketch of Dr. Douglas in the *Canadian Who Was Who* was written in 1934 by Prof. A. E. Prince of the Queen's history department.

NUMBER OF ADMISSIONS TO SCIENCE CURTAILED

AFTER a long and careful examination of the problem, the staff of the Faculty of Applied Science last spring decided to limit first-year registration to 175 students. This restriction has been under consideration for the past five or six years.

Last year more than two hundred freshmen were admitted to Science, and there was every indication that a greater number might be expected this year. One hundred and seventy-five was agreed upon as the maximum that could be taken care of efficiently.

If the restriction had not been put in force this year, it would have been necessary to enlarge every Science building, increase the staff or hold night classes in order to provide for all the applicants. The capital expenditure involved in such a project would not be justified if the present interest in the Science courses waned within a few years' time, as is quite possible.

Much research was necessary to determine the best restrictive arrangement, but the Faculty was not caught unprepared, having foreseen such a contingency years ago. It was evident that "first come, first served," would not answer, and Dean Clark formed a committee, including the Vice-Principal, the Registrar and members of staff, to investigate, and find a solution. A survey was prepared showing the relation between matriculation standing and university records over a ten-year period, making it possible to judge, with fair accuracy, the scholastic ability of candidates for admission. With these statistics as a basis, it was decided to admit all whose standing fulfilled certain requirements. Later it was found necessary to make the requirements more stringent. In arriving at a decision, the Registrar's accurate memory and keen appreciation of the problem was an important factor.

Wherever possible, preference has been given to candidates who are the sons of Queen's graduates. The committee has also communicated with high school principals for additional information regarding border-line cases. Tact has been employed in enforcing the restriction, and students whose standing has not warranted immediate admission have been notified in time to make application elsewhere.

A marked decrease in the number of failures in the Science Faculty may be expected to result from the new regulations, and another problem may appear later if senior classes become too unwieldy. In the meantime, it is considered that the Science staff has exercised sound judgment in its manner of coping with a serious problem.

NEW CRAINE BUILDING OFFICIALLY OPENED

IN the presence of a large number of staff members, graduates and students, the new Craine Building was officially opened by Sir Edward Beatty, LL.D. '37, president of the Canadian Pacific Railway, in a brief ceremony on Reunion Saturday morning, October 16.

Principal Wallace paid tribute to the amazing loyalty of the late Dr. Agnes Craine, Med. '88, who had sacrificed personal comforts in order that she might contribute to medical science at Queen's. This building, to be devoted to instruction and research in biochemistry and allied subjects, forms part of her gift to the University.

J. M. Macdonnell, Arts '04, chairman of the Board of Trustees, said that the founders of Queen's had hoped to estab-

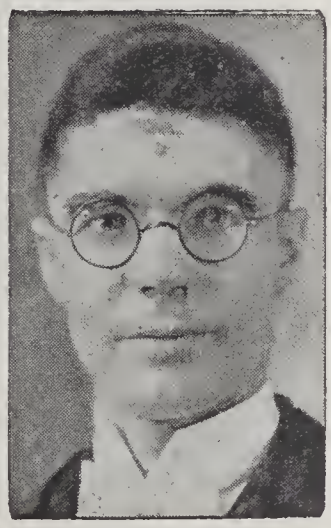

lish a university where thrift, hard work and loyalty would flourish. He felt that this new building was a symbol or the fulfilment of their wishes, and that it would serve as an inspiration to those carrying on the tradition of Queen's.

Sir Edward then formally declared the building open.

J. C. CAMERON APPOINTED NEW DEPARTMENT HEAD

A GRADUATE of Commerce '29, James C. Cameron has been appointed head of the Industrial Relations section in the School of Commerce and Administration at Queen's. He assumed his duties early in October.

After obtaining his B.Com. degree in 1929 Mr. Cameron carried on research work at Queen's, under Dr. W. A. Mackintosh, for the Canadian Pioneer Problems Committee. He received his Master's degree in 1932. He joined the staff of Canada Packers, Limited, Toronto, in 1933, as economist and as personal assistant to the president, spending most of his time on industrial relations problems. He served in this capacity until his appointment to the University.

J. C. CAMERON

In his association with industry Mr. Cameron has had close relationship with labour problems. He comes to the new department, established this year, with a background of experience and knowledge, and with a constructive point of view in relation to the problems which face labour and industry together.

NOTABLE ADDRESS FEATURES ANNUAL ALUMNI MEETING

AS the opening function of Reunion week-end, the University reception and the annual meeting of the General Alumni Association in Grant Hall on Friday evening, October 15, proved most enjoyable. More than five hundred visiting and local alumni and members of the University staff were present.

The reception formed the first part of the programme; and for an hour the guests, who were received by Chancellor and Mrs. Richardson and Principal and Mrs. Wallace, mingled in the hall, renewing old friendships with classmates and staff.

At 9.30 o'clock President A. E. MacRae called the meeting to order, and extended a hearty welcome to the alumni. In reporting upon the activities of the Association during the past year, he stated that the work of that organization had been carried on with much enthusiasm, and that the "Queen's spirit" had been sustained and strengthened. There was at present a fraternal feeling among Queen's people everywhere far exceeding even that of the past.

High tribute was paid by Prof. W. P. Wilgar, Sc. '03, to the work of the president during his term of office; and by Dr. A. E. Lavell, Arts '91, to that of the permanent staff of the Association.

Secretary-Treasurer G. J. Smith gave a synopsis of his general and financial reports for the year ending September 30. He stated, in addition, that Queen's now had 8484 living graduates, 7815 of whom were in Canada, 938 in the United States, and 236 in other countries. He also mentioned that only $1321 of the Association's $14,000 commitment for the renovation of Grant Hall remained to be raised.

Following the announcement of the election of the officers for the ensuing period, which had taken place at the Directors' meeting in the afternoon, and of the other elections and appointments, all of which are recorded in this number, Mr. MacRae installed J. C. Macfarlane, Arts '11, of Toronto, as the new president of the Association.

Mr. Macfarlane thanked the Directors and the members for the honour given him and expressed the hope that he would justify the faith that had been placed in him. He stated that the constant thought of all Queen's people should be: "Queen's

has done much for us in the past; what can we do for her in the future?"

The following nominating committee was appointed for 1937-38: Prof. A. Jackson, Sc. '16, Kingston (convener); Mrs. R. G. Corneil, Arts '27, Peterborough; Dr. H. P. Folger, Arts '17, Med. '22, Kingston; C. D. Wight, Sc. '28, Ottawa; F. W. Paynter, Arts '16, Montreal; Capt. E. A. Baker, Sc. '14, Toronto.

At the conclusion of the business session, the president introduced the speaker of the evening, J. M. Macdonnell, Arts '04, general manager of the National Trust Company, Toronto, and chairman of the Board of Trustees of Queen's. Mr. Macfarlane stated that few men were so highly respected or occupied so important a position in the fields of education and business in Canada as the graduate — the University's first Rhodes scholar, incidentally—who would deliver the Reunion address. The Association was fortunate in having him as its guest-speaker on this occasion.

Mr. Macdonnell's masterly address on "Why Are University Graduates so Ineffective in Politics?" apears as the leading article in this issue of the *Review*. It was also broadcast over a nation-wide hook-up through the Queen's radio station, CFRC.

At the close of the address, the appreciation of the audience was expressed by the Hon. Eric Cross, Arts '24, Minister of Welfare and Municipal Affairs for the Province of Ontario.

The serving of refreshments by members of Levana brought the evening to a close.

MED.-SCIENCE CANDIDATES SWEEP A.M.S. ELECTIONS

FOR the fourth successive year Medicine-Science candidates dominated the Alma Mater Society elections, and this session they made a clean sweep, winning all five positions.

In the contest for the presidency, Ken Campbell, Sc. '38, St. Thomas, defeated Wallace Muir, Arts '38, Kingston, by 180 votes. Colin Campbell, Med. '38, St. Thomas, was elected vice-president over Miss Isabel Hope, Arts '37, Ottawa. The position of treasurer went to Maurice James, Med. '39, Kingston, who defeated George Sprague, Arts '39, Holyoke, Mass., by the narrow margin of 28 votes. Jeff Bruce, Sc. '38, Vancouver, won the secretaryship from Hugh Gibson, Arts '38, Kingston; and the position of athletic stick went to Joe McManus, Med. '38, New York City, who was victorious over Jack Stevenson, Arts '38, Edmonton.

KEN CAMPBELL

FORTY-FIFTH CONFERENCE OF THEOLOGICAL ALUMNI

THE forty-fifth annual conference of the Queen's Theological Alumni Association was held at the University from October 25 to October 28.

This year the Chancellor's lecturer was the Rev. Prof. E. F. Scott, LL.D. '20, D.D., of Union Theological Seminary, New York City, eminent scholar and preacher, who delivered a series of thought-provoking addresses on "The Task of the Primitive Church."

The opening lecture on the programme was given by Principal R. C. Wallace on "From the Layman's Point of View." Subsequent papers were presented by the

following: "A Scientist Speaks to a Bishop," by Rev. Dr. H. A. Kent, Principal of Queen's Theological College; "The Significance of John Calvin," by Rev. G. R. Cragg, Editor of *New Outlook,* Toronto; "The Main Issues of the Oxford and Edinburgh Conferences," Dr. J. M. Shaw, of Queen's Theological College; "Some Problems for Education," by President H. N. MacCracken, Vassar College, Poughkeepsie, N.Y.; "Some Agricultural Problems in Ontario," by Hon. J. G. Gardiner, Minister of Agriculture, Ottawa. The Chancellor's lectures and the addresses of Principal Wallace, President MacCracken and Hon. J. G. Gardiner were broadcast over Queen's radio station.

The morning devotional services and the closing service were held in Morgan Memorial Chapel and the lectures in Convocation Hall, except that of President MacCracken, which was delivered in Grant Hall.

Meals were served each day in the Students' Union, and on Wednesday afternoon a delightful reception was held at the home of Principal and Mrs. Kent.

At the annual business meeting of the Association, the following officers were elected to the executive: president, Rev. Dr. T. J. Thompson, Arts '95, Ottawa; vice-president, Rev. A. D. Cornett, Arts '07, Theol. '11, Smiths Falls; secretary, Rev. H. W. Cliff, Kingston; treasurer, Rev. Dr. J. R. Watts, Arts '01, Kingston.

CAMPUS BRIEFS

PRINCIPAL and Mrs. Wallace held a reception in Grant Hall on October 29 for the members of the teaching and administrative staffs of the University. A very pleasant time was spent in conversation, dancing and bridge. During the evening punch and refreshments were served.

* * * *

An exhibition of paintings from the picture Loan Society of Toronto was held in the Senate Room in the Old Arts Building during the latter part of October. At a private view held for Queen's students and members of the Kingston Art Association, Mr. André Biéler, resident artist, discussed the pictures.

* * * *

Four meetings of the Science Research Society have been planned for the present term. The first was held in the histology laboratory, Medical Laboratories Building, on October 28, when Dean A. L. Clark presented a paper on "Research at Queen's."

* * * *

Naturalists from the Eastern Ontario area convened at Queen's early in October, and an extensive programme, including field trips, was arranged.

* * * *

Werner Kluck, of Germany, is the only foreign exchange student in attendance at Queen's this year. Mr. Kluck will spend a year in commerce study.

* * * *

The customary football dances are being held in Grant Hall on the evenings of home games, under the auspices of the General Alumni Association. Both dances to date have been well attended, and substantial sums have been realized for the Grant Hall Fund.

* * * *

Principal Wallace gave the first of a series of addresses to the freshmen and freshettes in Grant Hall on the morning of October 23, thus continuing the custom of last year.

* * * *

Dr. Lorne A. Pierce, Arts '13, LL.D. '28, prominent author and publisher, and Mr. E. C. Kyte, Queen's librarian, are visiting Guelph in the near future to look at bound copies of newspapers of Elora, Guelph, Galt and Toronto of the period of 1847-57, with a view of purchasing them for the Douglas Library. The Library is always anxious to obtain old Canadian newspapers, which are becoming increasingly scarce. There is now no complete file in existence of any Canadian newspaper, a most regrettable state of affairs.

HAVE YOU SENT IN YOUR 1937-38 ALUMNI FEE?

If not, please do so now. Your co-operation and support are needed.

THE ALUMNI HOMECOMING

NEVER were weather conditions more ideal for a Reunion week-end than on October 15 and 16, when hundreds of alumni came from all corners of the continent to convene at Queen's. Perhaps the weather was but the reflection of the happy mood of the old boys and girls; for while there have been reunions which outranked the 1937 edition in sheer numbers, none surpassed it in enthusiasm and enjoyment.

Out of thirty-seven classes scheduled to attend, twenty-nine were represented, and scores of other graduates, for whom no specific reunions had been arranged, came along to join in the fun. The thoughts and best wishes of many graduates who were unable to attend were with their more fortunate brethren, judging from the pile of letters and telegrams received expressing regret over enforced absence.

There were many highlights in the programme, including the University Reception, the annual meeting of the General Alumni Association, the Reunion address by Mr. J. M. Macdonnell, the official opening of the Craine Building, autumn Convocation, the address by Sir Edward Beatty, the football game, the class dinners and the alumni and student dances.

The most interesting feature of all reunions, the opportunity to renew old friendships and to reminisce of the days of yore, was very much in evidence. Many were present who had not seen their Alma Mater since graduation, and their interest in the numerous changes was contagious. Student guides were provided by the Association to conduct alumni about the campus, but the majority of the visitors preferred to find their own way around. Every opportunity was given for inspection of the buildings which, for the first time in Reunion history, were open for several hours on Sunday.

The one discordant note in the Reunion symphony was the football game between Queen's and Western, in which the Tricolour was defeated by the narrow margin of one point. Several times during the last quarter it appeared as if Queen's would emerge victorious, but the fates decreed otherwise. The graduates, however, were given plenty to enthuse about, even in defeat, as the team looked good enough to earn a play-off position.

After the game the alumni broke temporarily into groups for their class teas and dinners. Principal Wallace, accompanied by the Association's secretary-treasurer, visited most of the dinners and spoke briefly at each. This new feature of the Reunion programme was much appreciated.

In the evening there was a departure from the arrangement of previous years, in that the Reunion dance was divided into two functions—one in Grant Hall for the alumni, staff and friends, and one in the Gymnasium for the students and their friends. Both dances were successful in every way, and the overcrowding which clouded the single events of the past few years was avoided. Apparently the Reunion dance problem, which had given the Directors of the Association considerable worry, has thus been solved.

Although not a part of the regular Reunion programme, the first of this year's University church services was held on Sunday morning in Grant Hall and was extremely well attended by graduates and students. Rabbi Maurice Eisendrath, of Holy Blossom Synagogue, Toronto, spoke on "Where Jew and Christian Meet." Principal Wallace assisted in the service.

Thus, another Reunion has come and gone. It is safe to say that the 1937 edition merits a place with the best of its predecessors.

Science '03, '04, '05

DINNER was served in the private dining-room of the LaSalle Hotel for sixteen members of these three years. During the evening each guest spoke briefly. W. P. Wilgar, Sc. '03, acted as chairman.

Among those present were the following: M. D. Finlayson, Grand River, N.S.,

C. W. Knight and Alex. Longwell, Toronto, S. N. Graham and W. P. Wilgar, Kingston, all of Sc. '03; T. W. Cavers, Goward, Ont., Ben Tett, Newboro, Ont., A. R. Webster, K. R. McLennan, H. M. Balfour and F. D. Reid, Toronto, all of Sc. '04; John Sears, Port Hope, Ont., G. C. Bateman, Toronto, and P. A. Shaver, Finch, Ont., all of Sc. '05.

Arts '02, '03

INFORMAL and pleasant was the Arts '02 dinner at the Rendezvous, with two members of Arts '03 as guests. Mrs. E. L. Fay (Meta Newton), Washington, acted as chairman.

After the toast to the King, Dr. J. M. Young, of Windsor, proposed the toast to Queen's. Response was made by Mrs. Fay. The evening was spent in reminiscing about the happy days spent at the University. The brief visit of Dr. Wallace and Mr. Gordon J. Smith added to the enjoyment of the programme.

Those present included the following: Mrs. Fay; Miss Helena Mabel Wright, Renfrew; Mrs. G. McNab (Margaret Stewart), Douglas; Mrs. M. P. Lawson (Florence Ewing), Kingston; Miss Marion Redden, Kingston; Mrs. A. Kennedy (Lena M. Forfar), Arts '03, Toronto; Mrs. C. W. Workman (Lucy Cumming), Kingston; Dr. Campbell Laidlaw, Ottawa; D. D. Calvin, Toronto; James Dingwall, Arts '03, Cornwall; and Dr. Young.

Credit for the success of the gathering belongs to Mrs. Fay, who worked enthusiastically and tirelessly in making the preliminary arrangements.

Med. '04

ONLY three members of this class—T. J. Gray, of Saskatoon, Sask., C. C. McCullough, of Fort William, Ont., and W. Gibson, of Kingston—turned up, but that did not prevent them from enjoying the Reunion programme to the full. After dinner in the British American Hotel, they joined the Science '04 group at the LaSalle Hotel.

Science '12

HAVING had a reunion two years ago, Science '12 did not hold a formal gathering, but a few of the stalwarts got together for dinner at the LaSalle Hotel. Among those who signed the registration book were R. A. Elliott, Deloro, Ont.; W. H. Losee and J. M. Wardle, Ottawa; E. E. Watts, Weston, Ont.; L. C. Prittie, S. A. Purvis and J. A. McNicol, of Toronto.

Med. '21

THE second Reunion dinner of the class was held at the Chateau Belvidere and was attended by eleven members and seven of their wives. The latter added greatly to the success of an enjoyable evening. Dr. J. R. Third, Arts '19, Med. '21, of Kingston, acted as chairman.

The gathering was honoured with a visit from Principal Wallace who, introduced by Mr. Smith, secretary-treasurer of the General Alumni Association, welcomed the guests to the University. This visit was much appreciated and proved to be one of the features of the Reunion programme.

The members included the following: C. M. Carruthers, Sarnia, Ont.; D. I. Dolan, Alexandria, Ont.; W. J. Gibson, Brockville, Ont.; M. G. Lynch, Webster, N.Y.; A. C. Locke, Tweed, Ont.; I. W. James, Carleton Place, Ont.; E. T. Wood, Westmeath, Ont.; R. P. E. Boyle, Long Island, N.Y.; R. K. Childerhose, Allenwood, Pa.; W. D. Hay, Arts '14, Med. '21, Kingston; and Dr. Third.

The conveners were Dr. Third and Dr. Hay.

Arts '21

SEVEN members and two visitors attended the dinner in the Students' Union, held in conjunction with the Arts '23 banquet. Telegrams and letters were received from a number of others expressing regret over inability to be present.

Conveners of the class reunion were Miss Lois Allen and Dr. P. A. McLeod, both of Kingston.

Science '21, '22

ABOUT forty-five attended the Science '22 dinner at the LaSalle Hotel. Of this number, eighteen were wives of members of the class, and three were guests from the class of Science '21. The

permanent president, Jeff Comer, acted as chairman.

At the dinner each member was called on to give a few remarks about himself and what he had been doing since graduation. Several confessed that this was their first visit to Queen's since they were students. After the dinner the guests adjourned to the mezzanine floor for a little visit, and later attended the alumni dance at Grant Hall in a body.

Colin A. Campbell, newly appointed minister of public works at Toronto, entertained his classmates at a stag luncheon on Saturday, and after a most enjoyable time, all went to the football game.

Members who registered for the Reunion include the following: R. C. Mott, H. E. Searle, J. B. Saunders, J. E. Van Buskirk, D. D. Findlay, A. V. Corlett, D. R. Roughton, H. M. Fair, J. A. H. Henderson, J. P. Devenny, A. G. Hamilton, J. P. Young, D. G. Geiger, C. E. Bulmer, J. F. Comer, and N. J. Taylor.

Much of the credit for the success of the Science '22 get-together is due to the preliminary arrangements made by Messrs. Findlay, Comer and Roughton.

Science '23

WITH H. A. C. Couse, of Hamilton, as chairman, forty-eight members and friends attended the dinner in the Students' Union. Prof. D. M. Jemmett was the guest of honour. During the evening Dr. L. J. Austin delivered an impromptu address, and Principal Wallace gave a few remarks.

Those who signed the registration book included the following: J. V. Ludgate, North Bay, Ont.; G. W. Warner, Quebec City; Carl Showers, Sandwich, Ont.; A. J. Baker, Lakeside, Ont.; W. A. Dawson, Windsor, Ont.; J. B. Saunders, Brockville, Ont.; E. E. Kidd, A. R. Foster, B. H. Budgeon, all of Toronto; J. D. Murray, V. A. Minnes, W. S. Lowry, all of Ottawa; A. E. Chalmers, Peterborough, Ont.; L. C. Anderson, St. Catharines, Ont.; Cecil Climo, Niagara Falls, Ont.; G. W. Read, Oshawa, Ont.; L. E. Ennis, Montreal; H. A. Taggart, Westport; H. A. C. Couse, Hamilton; N. A. Morrison, New York City; G. M. Parsons, St. Lambert, Que.; J. L. Spence and D. W. Stewart, Montreal; Don Robertson, Kingston.

A year meeting was held on Reunion Saturday morning.

Here's what one Science '23 man felt about his class reunion, as expressed in a letter to the *Review*: "I don't know when I ever enjoyed a long week-end more. I would like to go back next time and hire a dormitory for that gang of ours. We could eat and sleep together for three days. You could never see enough of that outfit. I am still chuckling over some of their capers both at school and at the reunion. They simply stepped into Kingston and turned the clock back the full fourteen years. It was grand."

Med. '23

AFTER having tea at the residence of Dr. L. J. Austin, eleven members attended the dinner in the Sergeants' Mess at the Students' Union. Dr. Austin was the guest of honour. Every member was called upon to say a few words, and a very pleasant evening was enjoyed. Dr. J. H. Orr, of Kingston, served as chairman.

Those present included C. A. Louden, Morrisburg, Ont.; Dr. George Flanagan, Myerstown, Pa.; A. A. Grant, Sugar Grove, Pa.; A. W. Pense, Wassaic, N.Y.; A. R. Richards, Cobourg, Ont.; J. P. Davies, Huntsville, Ont.; S. O. Morris, G. C. Lindsay, and J. H. Orr, Kingston.

Arrangements for the reunion were handled by the Kingston members.

Arts '23

TWENTY graduates of the famous year of Arts '23, accompanied by their wives or husbands, as the case might be, assembled for their Reunion dinner in the large upstairs banquet hall of the Students' Union, Herman Browne, of Toronto, acted as chairman.

Dean Matheson, first honorary president of the class, and Prof. A. E. Prince, incumbent of that office in the final year, were guests of honour, and each spoke briefly. Mrs. A. R. Foster (Margaret Porteous), the class poetess, read a short poem apropos of the occasion, and Curator Austin F. Cross spoke briefly on

some things in general and other things in particular.

A feature of the programme was the visit made by Principal Wallace and Mr. Gordon Smith. The Principal spoke a few words to the members, who appreciated his appearance at a time when he was so busy.

It seemed like old times to hear that noisy crowd of Science '23 in an adjoining room, and then afterwards to have them "barge in" led by "Hairpin" Holdcroft, the illustrious cheerleader in the balmy days of yore. The invaders graciously withdrew after giving a lusty cheer for "Bum Arts!"

The register at the banquet-room door revealed the following present: Mrs. H. B. Mattson (Margaret Brophy), Ian MacLachlan and Mrs. MacLachlan (Sybil Spencer), Beatrice Cummings, Elsie Davidson, Mr. and Mrs. Edgar M. Lockett, B. I. England, Jack Day and Mrs. Day (Belva Halliday), Prof. and Mrs. Frank Knox, all of Kingston; Mrs. A. R. Foster (Margaret Porteous), Mr. and Mrs. E. C. Gill, Mr. and Mrs. W. H. Browne, Dr. Robert C. Laird, all of Toronto; Huntley Sinclair, Dunrobin, Ont.; Mrs. G. Case (Margaret Summerby), Cobalt, Ont.; Mr. and Mrs. Austin F. Cross, and Miss Price, of Montreal; A. G. S. Wartman and Mrs. Wartman (Julia Sexsmith), Gananoque; Mrs. W. J. Kirkwood (Marion Sinclair), Aultsville, Ont.; Dr. C. S. Slack and Mrs. Slack (Lillian Carter), Picton, Ont.

This was the third Reunion banquet held by the class of Arts '23 and, in the opinion of all, the best yet. The one disappointing feature was that so many class celebrities did not put in an appearance, but better luck is looked for next time.

Arts '24

TWENTY-FIVE members of Arts '24 renewed their youth "like the eagle's" during Reunion week-end, and few expected, it is safe to say, to enjoy themselves as much as they did. From the first get-together in Grant Hall on Friday night until the end of the dance in the same place on Saturday night, the thermometer of hilarity went steadily upwards.

It was nearly 10 o'clock before the banquet at the Frontenac Hotel broke up on Saturday evening, and by that time the party had pretty well exhausted itself of wit and wholesome vituperation. Those who recall John Lansbury's cartoon at the time of the A. M. S. election in 1924 will appreciate the significance of the opening ceremony, when the Hon. Eric Cross was seized and carried around the banquet table in a bath-tub labelled "The man who made his mark."

In the absence of President Murphy, the secretary, Gerry Graham, took the chair and proposed the toast to the University. In reply, Prof. J. A. Roy gave a masterly address, tinctured with sufficient anecdote to win the hearts of even those who have turned their backs on further learning.

Kathleen Dolan, who was introduced by Margery Booth, the permanent vice-president, proposed the toast to Arts '24 in a particularly apt and finished manner. Dave Rankin, although he had forgotten his notes on the "History of '24," was able to make suitable reply, despite the exuberant competition of two guests from Arts '25, Andy Walker and "Skin" Carson, who continued to suffer muscular spasms from a joke rendered some ten minutes before.

"The Faculty and the Home" was proposed by Paul Moreland, unanimously acclaimed "the typical father," and responded to by Eric Cross, as the official mother of the Dionne quintuplets.

Rev. Jack Creeggan said Grace. Business procedure concerned itself chiefly with reading messages from distant members, and the display and judging of members' wives and husbands.

Among those present were Jack Emery and Mrs. Emery (Helen Agnew), Helen Tofield Duff, Edith McDermid, Mr. and Mrs. Beattie, Stella Campbell, Anne Corrigan, Mr. and Mrs. R. M. Winter, Mrs. Edna Saunders Hay, Mr. L. A. Monroe and Mrs. Monroe (Della Douglas), Lundy Ferguson, Miss Snider, Ruth Huffman Swerdfeger, Mr. and Mrs. Gordon Sinclair, Huntley Sinclair, Mace Mair, Neil Fraser, Harold Cave, Clarence Hopins and Jack Wood.

STUDENT ACTIVITIES

THE initial general assembly of the first-year students took place in Grant Hall on September 30, when Principal Wallace met the freshmen and introduced them to the Vice-Principal and the deans of the various faculties. Dr. Wallace welcomed the new students to Queen's.

* * * *

Leonard Field was the scene of Levana's annual bonfire and weiner roast on October 7. The freshettes were given instruction in the rendering of College and faculty yells. On October 12 the freshettes were initiated into Levana at the annual candle ceremony in Grant Hall. Mrs. R. C. Wallace, Dean Winnifred Kydd and Miss Georgina Ross, Arts '38, of Kingston, president of Levana, received the girls.

* * * *

The A. M. S. was host to the first-year students at the annual freshmen's reception, held in the Gymnasium on October 14.

* * * *

After the freshmen's pyjama parade on the eve of the Queen's-Western game, the girls' residences were raided and considerable damage resulted. The A. M. S. court is conducting a thorough investigation.

* * * *

The League for Social Reconstruction held its annual reception in the Old Arts Building on October 19. The programme featured a presentation of music and several topical play-readings, after which refreshments were served.

* * * *

The Newman Club held a reception for the freshmen in Grant Hall on October 20. A "Paul Jones" helped to break the ice, and the large crowd had a good time.

* * * *

Principal Wallace addressed a meeting of Levana in Ban Righ Hall, October 20, on "The Changing Status of Women."

* * * *

The first meeting of the English Club was held in the Red Room on October 15. President J. K. Robertson outlined several suggestions for the year's programme.

* * * *

At the first meeting of the Chemical Engineers Club on October 19, Dr. L. F. Goodwin spoke on "Getting On," and "Security and Obligation."

* * * *

At the annual organization meeting of the Queen's Flying Club, held on October 21, Don Gallagher, Sc. '39, of Harrowsmith, Ont., was elected president for the year. Flight Lieutenant Waite, R. C. A. F., spoke on the theory of flight at the October 28 meeting.

* * * *

Dr. John R. Mott, world traveller, missionary, religious leader, and secretary of the World Alliance of the Y. M. C. A., addressed an open meeting of the A.M.S. in Grant Hall on October 21. He spoke on conditions in China.

* * * *

H. J. Hamilton, Arts '32, has been appointed permanent secretary-treasurer of the Alma Mater Society.

* * * *

Under the joint sponsorship of the Students' Christian Movement and the International Relations Club, two internationally famous students of world politics—John Nevin Sayre and Percy Bartlett—spoke on current European affairs at a meeting held in the Red Room on October 22.

* * * *

James Purvis, Arts '40, of Mallorytown, Ont., was elected president of the Press Club for the current academic year.

* * * *

Professor King Gordon, national secretary of the Fellowship for a Christian Social Order, addressed a well-attended meeting of the League for Social Reconstruction and the Students' Christian Movement on October 24.

* * * *

A resolution was passed at the first meeting of the Mining and Metallurgical

Society, on October 28, authorizing the formation of a committee to collect funds for the erection of a bronze plaque in Nicol Hall in memory of the late Professor MacKay.

* * * *

Dr. R. G. Sinclair addressed the first meeting of the Queen's Chemical Society on November 3 on the "Use of Labelled Molecules in the Studies on Fat Metabolism."

* * * *

The question of freshmen regulations has been revived, and at time of going to press the controversy is still raging. Several open meetings of the Alma Mater Society have been called to discuss the matter.

ATHLETICS

Senior Football

TWO wins and as many losses is the record for the Queen's senior football team as this issue of the *Review* goes to press. And this record is good enough to give the Tricolour second place in the Intercollegiate standing, a scant point behind Western and Varsity, in what is proving to be the most thrilling and most keenly contested race for gridiron honours that the college loop has seen in years.

There is little if anything to choose among the four teams, and the result is a revival of interest all around the circuit. Western was the pre-season favourite to win the title, but before the schedule was half over it was evident that all four squads had an equal chance.

Queen's started the season inauspiciously enough by losing to the traditional foe, Varsity, in Toronto by 9 to 3. The score in no way indicated the play. True, the Blue-and-White had a wide margin over the Tricolour in the first half, but the tables were reversed in the second. Queen's ran wild, ripping the Blue line to shreds, outkicking the opposing halves and, in fact, doing just about everything but score.

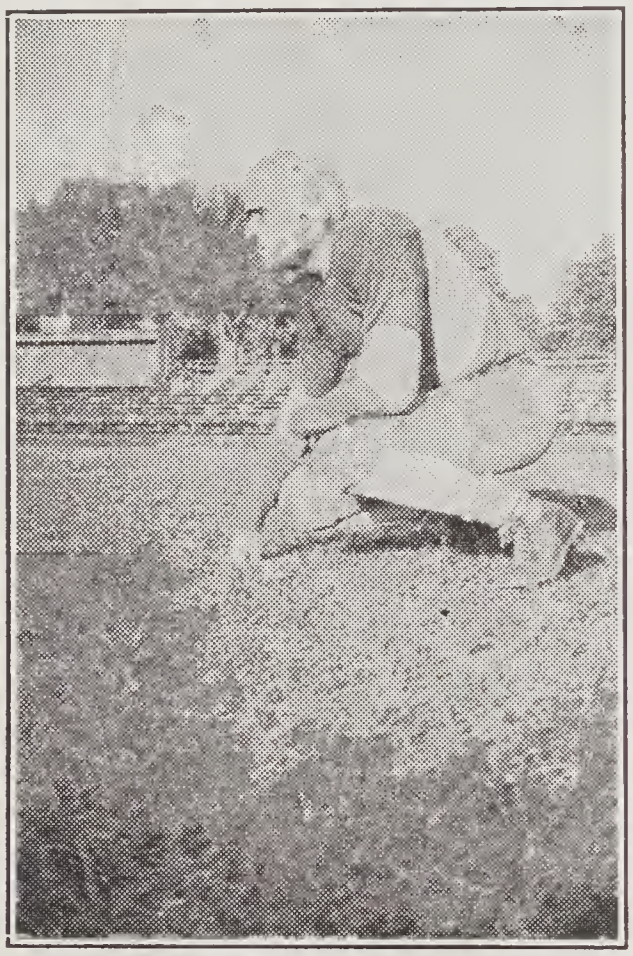

Coach Ted Reeve's famous goal-post play, the one that saved a couple of important games for the Tricolour a few years ago, backfired in favour of Varsity. On two of the occasions when Queen's carried the ball to within striking distance of the opposing goal Bernie Thornton tried placement kicks, only to have the

BERNIE THORNTON

ball hit the posts and be recovered by Varsity.

Queen's entertained Western at the Richardson Stadium on October 16, Reunion week-end, and the stage was all set for a win. The Tricolour looked like victors most of the way, after kicking a placement on the fourth play of the game, but by the final quarter Western had achieved a one-point lead. Queen's then

AB MILLER

launched a forward-passing attack that reeled off two forty-five yard gains, but a wild lateral tacked on the end of the last pass was scooped up by Western and nullified all the advantage won. The final score was 5 to 4 for the Purple-and-White.

Fighting desperately to avoid elimination, Queen's invaded Montreal on October 23. The boys got an early lead which they nursed until the last quarter, when McGill ripped through for five successive first downs to Queen's seventeen-yard line, where a placement kick gave the Red-and-White the lead by one point.

Ten minutes to go! Queen's carried the ball, blocked kicks and threw forwards until they found themselves on the McGill one-yard line. With less than ten seconds left and many of the spectators on their way to the exits, believing the game over and McGill in front, Bernie Thornton kicked a placement that sailed between the bars for three points and victory, 6 to 4.

That win was just a little too close for comfort, and when McGill came to the Richardson Stadium the following week, Queen's fought hard to turn in a decisive victory. So well did the Tricolour succeed that at no time was McGill within scoring distance, and the final count was 7 to 0 for the home team.

There was little that was spectacular about this game, but it was highly satisfactory from a Queen's point of view. McGill boasted a strong wing-line that

GERRY CONLIN

was able to make ten first downs to the Tricolour's five, but Johnny Munro's heady hoofing of the ball — long, low bounding punts to the open field—more than offset any advantage the visitors had along the line. Munro kicked two of his team's points, while Thornton earned the remaining five on a placement and two attempted field-goals.

The placement kick has proved to be the main scoring punch for all teams in the Intercollegiate this year; ten have been completed, of which Queen's have made four. Only three touchdowns have

been scored all season, the Tricolour having made none, but keeping their own goal-line uncrossed.

Intermediate Football

AFTER dropping the first game of the schedule to the Royal Military College, the Queen's seconds came back strongly to win the next three games and make sure of a play-off berth. The Tricolour is favoured to take the group title.

The Cadets won the first game from Queen's by the score of 3 to 1, but the next time these two teams met, the Tricolour handed out a 20-7 drubbing. Queen's downed Ottawa University by 11 to 6 and 9 to 2.

Junior Football

THE juniors got away to a bad start by losing to the Kingston Grads 23 to 3, but the next time out they whitewashed R. M. C. 12 to 0, to create a triple tie for first place in the local junior O. R. F. U. group.

The Tricolour has a nicely balanced team, and is expected to show even greater improvement before the schedule is finished.

Track and Field

BY amassing twenty-two points in the Intercollegiate meet in Toronto on October 22, the Queen's squad placed third and made its best showing since 1934. The tourney was won by Varsity, thus breaking McGill's seven-year strangle-hold on the title. Western and McMaster trailed Queen's, in that order.

Paced by Coach Jim Courtwright, Dominion champion in the javelin throw, the Tricolour team of nine captured two first, one second, three third and three fourth places. Courtwright established a new Intercollegiate record in his specialty, with a heave of 181 feet, 9 inches, winning that event. He also won a first in the 16-pound shot put, and placed second in the discus throw.

The other Queen's points were won as follows: J. Stevenson, third in the 440- and fourth in the 880-yard dashes; Ivan McDonnough, third in the broad jump; Rod Dingwall, fourth in the 440-yard dash; Paul Reider, fourth in the high jump; and the team of McDonnough, Dingwall, J. Parry and M. Hatch, third in the mile relay race. All members of the small squad gave a good account of themselves.

* * * *

The Science team wrested the inter-faculty title from Arts on October 15 by rolling up thirty-five points to the last year's champions twenty-four. The Medicals were third, with thirteen points.

* * * *

Jim Courtwright has been selected to represent Canada in the javelin throw at at the British Empire Games in Australia next year. He recently beat the best in the United States at the Pan-American Games, with a heave of 217 feet.

Tennis

WHILE the more highly favoured McGill and Varsity co-ed teams were fighting it out for what later proved to be second-place honours, the Tricolour girls upset the dope bucket by winning the Intercollegiate title in the tournament in Montreal on the week-end of October 23.

Queen's was trailing both McGill and Varsity by four points when Jean McIver and Ruth Cooper took the court against Vilma Richardson and Joyce Tannenbaum, of Toronto. The Tricolour was conceded only an outside chance of winning, and started off by dropping the first set to their opponents. The Queen's girls rallied strongly, however, to win the next two sets and the match. This victory gave the Tricolour the Intercollegiate title.

The members of the Queen's team were Jean McIver, Ruth Cooper, Isobel Matheson and Romola Girvin. Miss Cooper was a newcomer to the team.

The final standing gave Queen's eleven points, Toronto and McGill, ten each; McMaster, four; Western, three.

* * * *

Rain, rain and more rain, just about sums up the men's Intercollegiate tournament which was held at Queen's this year. On the first day of play it was possible to run off a few of the matches between

showers, and Varsity took a commanding lead. But on the next day, and the next, it rained steadily, and the tournament was called off. It was decided to finish the matches on indoor courts in Montreal, and Varsity ultimately won the championship. The Tricolour was not represented at Montreal.

The Queen's team was composed of Benson, Finlayson, Letourneau, Macdonald, Mable and Chernoff.

Sailing

TRICOLOUR sailors took third place, nosing out McGill by one point, in the second annual meet of the Canadian Intercollegiate Dinghy Racing Association which was held off Point Frederick, in the St. Lawrence River, on October 2.

The Royal Military College won top honours with 38 points; University of Toronto placed second with 35; while Queen's and McGill amassed 28 and 27, respectively. A stiff northeast breeze made racing conditions ideal.

Two crews from each institution were entered, manning a total of eight boats for each of the four races. All boats were the property of the R. M. C., and a system of switching was employed under which no crew sailed the same boat twice.

AT THE BRANCHES

Border Cities

HEAVY showers rained out a projected golf tournament, but failed to dampen the ardour of the Windsor members who held a stag dinner at the Roseland Golf Club on September 27. Despite the inclement weather, about thirty turned out and enjoyed a fine dinner and an evening of bridge and other games.

The committee in charge of arrangements was composed of J. H. D. Wilson, Sc. '23, N. J. Goebel, Sc. '18, Dr. S. M. Asselstine, Med. '13, and G. E. Marshall, Arts '20.

The branch has planned a bridge party for the evening of Wednesday, November 17, at the Windsor Court Apts., Ouellette Ave. The annual dinner-meeting will take place in February.

Ottawa

ARRANGEMENTS are being made by the Ottawa branch for a reception and banquet to be held in the Chateau Laurier on the evening of Thursday, November 25. The guest speaker will be the Hon. Norman Rogers, Minister of Labour in the Dominion Cabinet and Rector of Queen's. Other distinguished guests invited include Principal and Mrs. Wallace, Mr. J. C. Macfarlane, president of the General Alumni Association, and Mrs. Macfarlane.

The reception will probably commence at 7 o'clock and the banquet one half-hour later. It is hoped to have dancing in the grill-room after the dinner. A. K. Light, Sc. '17, 71 Park Avenue, is chairman of the general committee.

Queen's people in Ottawa are urged to keep this important function in mind. They will be informed of the details later by the Ottawa executive. If any alumni are missed, it is suggested that they get in touch with Mr. Light or with the secretary of the branch, C. D. Wight, 401 Huron Avenue.

Montreal

ON November 26 the Montreal alumni are entertaining Principal Wallace at a dinner in the Prince of Wales Salon, Windsor Hotel. Complete arrangements have not been made yet, but invitations will be mailed shortly.

* * * *

At the annual meeting or the branch on October 18, the retiring executive, headed by M. B. MacLachlan, Arts '15, was succeeded by a new and representative body as follows: president, F. W. Paynter, Arts '16; first vice-president,

C. A. Kirkegaard, Sc. '13; second vice-president, J. A. Edmison, Arts '26; secretary, C. A. Root, Arts '19; treasurer, W. D. Muir, Com. '33; committee—J. B. Stirling, Arts '09, Sc. '11, J. M. Geddes, Sc. '28, F. E. Brydon, Sc. '24, C. R. Coughlin, Arts '37, I. W. Hughes, Arts '28, A. F. White, Sc. '27, T. M. Dick, Arts '20, Rev. J. W. Patterson, Arts '28, Theol. '35.

New York City

THE alumni in New York City and vicinity are planning a Queen's dinner, to be held in the Men's Faculty Club of Columbia University, 400 West 117th Street, New York, at 7 o'clock on Saturday evening, November 27. Principal and Mrs. Wallace are to be guests of honour.

Notification of this function has already been sent to the Queen's men and women in the New York area. Any who may have been missed are asked to communicate with Dr. Bryce M. Stewart, R. K. O. Building, Rockefeller Centre, New York, who is secretary of the committee on arrangements. The other members of the committee are: Dr. J. G. Dwyer (chairman), Miss Nora Cordingly, Professor Lillian Hudson, and Dr. F. J. McCammon.

The committee asks that all graduates in the district keep this important function in mind. A hundred-per-cent attendance is desired.

Central New York

THE Hotel Utica, Utica, N.Y., was the scene of a most enjoyable gathering on the evening of October 30 when graduates and their wives from the Central New York area assembled for their annual dinner. Twenty-six were present.

The tables were tastefully decorated with ferns and autumn leaves, with a beautiful floral centre-piece of large and small yellow chyrsanthemums, red roses and blue tulle, carrying out the Tricolour *motif*. Yellow candles in silver candelabra, and Queen's pennants completed the scheme, which had been arranged by Mrs. William Hale, wife of Dr. Hale, Med. '10, of Utica. At each plate was a copy of *Queen's in Pictures,* and a statistical folder with information about the University. Even the ice cream was in Queen's colours.

Dr. J. E. McAskill, Med. '14, of Watertown, president of the branch, was chairman and toastmaster; and Dr. John Wyllie, professor of preventive medicine at the University, was guest of honour. Gordon Smith, general secretary of the Association, was also present.

During the dinner, Dr. McAskill called on several of the guests for impromptu "testimonies"; and afterwards, upon Dr. T. H. Farrell, Arts '89, Med. '95, of Utica, to propose the toast to "Our Alma Mater." Dr. Farrell spoke of the remarkable advance made by Queen's since his day, and of the splendid work now being done by Principal Wallace.

Dr. Wyllie, in the address of the evening, told in most interesting fashion of the development of the Medical faculty at Queen's, and of the many trials and tribulations that had beset it in the early days. His stories about the régime of the famous and colourful Dr. John Stewart and of his numerous grievances as aired in the columns of the weekly *Argus,* of which he was the editor, were particularly entertaining.

News of the University, information about the Alumni Association and its work, and greetings from the other branches of the Association were presented by Mr. Smith.

Further impromptu contributions, reminiscent and otherwise, were made by all of the alumni present. One of the most amusing was an old medical song entitled "Dr. Jones," rendered by Dr. Byron Haskin, Med. '03, of Theresa. Dr. J. G. Dwyer, Arts '02, Med. '05, LL.D. '27, brought felicitations from the New York City group; while Dr. T. J. Goodfellow, Arts '07, Med. '09, and Dr. G. F. Goodfellow, Med. '19, refuted the charge that Saratoga Springs rolled up its sidewalks in the winter time. Communications were read from Dr. L. W. Jones, Med. '02, of Rochester, and Dr. Janet Murray, Med. '91, of Schenectady, regretting their inability to be present on the happy occasion.

In a brief business session, the former officers of the branch were re-elected for a second term: president, Dr. McAskill; first vice-president, Dr. David Robb, Arts '07, Med. '09, of Ithaca; second vice-president, Dr. Janet Murray; secretary, Dr. Hale.

Rochester

A MEETING of the branch was held at the Rochester Club on October 8, and plans were made for pepping up the activities of the organization in the immediate future. Dr. F. W. Bush, Med. '22, was elected president, with Dr. J. H. Kemp, Med. '15, as secretary-treasurer. It was decided to hold the annual meeting a week or two prior to the Reunion at Queen's each year.

Mrs. E. L. Fay (Meta Newton), Arts '02, formerly of Rochester and latterly representative at Washington, D.C., of the Federal Deposit Insurance Corporation of the United States, and her daughter, Jeanne, now a student at Queen's, were guests at the meeting. Others present included Dr. W. H. English, Med. '30, Dr. P. L. Smith, Med. '19, Dr. W. R. Bloor, Arts '02, Dr. Kemp, Dr. Dennison, Arts '19, Med. '21, Dr. L. J. Nacey, Med. '13, Dr. Bush, W. H. Martin, Arts '26, and Dr. L. W. Jones, Med. '02.

Toronto

APPROXIMATELY fifteen hundred guests were present at the annual football dance of the Toronto branch in the Royal York Hotel on the night of October 9.

Despite the large number in attendance the dance was not crowded as in former years, owing to the fact that two ballrooms and two orchestras were engaged. The wide floors of the Banquet Hall and the Crystall Ballroom, together with the smooth syncopation of Romanelli and Stanley St. John, proved a happy combination and added much to the pleasure of the evening.

Joy reigned supreme in spite of the loss sustained by the Tricolour in the afternoon. The fact that Queen's had been outlucked rather than outplayed on the gridiron took away most of the sting. The members of the team were the guests of the branch for the evening.

The event was under the distinguished patronage of Principal and Mrs. Wallace, Mr. and Mrs. J. C. Macfarlane, Mr. and Mrs. J. M. Macdonnell, and Mr. and Mrs. R. J. Aitchison.

The committee in charge was convened by D. G. Geiger, Sc. '22, assisted by R. C. McNeill, Com. '31, and included, also, R. J. Aitchison, Arts '29, Paul A. Moreland, Arts '24, K. E. Kennedy, Arts '31, and R. E. Storey, Arts '30.

Niagara Peninsula

APPROXIMATELY fifty members gathered at the Fox Head Inn, Niagara Falls, Ont., on the evening of October 15 for the annual meeting of the branch. President D. D. Hall, Sc. '30, St. Catharines, was in the chair.

In the absence of the secretary, T. Imbleau, Sc. '19, St. Catharines, the minutes were read by Harold Evans, Sc. '28, Niagara Falls. A report on the June dance was given by G. P. Hillmer, Arts '27. A vote of thanks was tendered to last year's executive for its excellent work, and special appreciation was expressed to Dr. G. H. Berkley, Arts '19, and his committee, for the excellent dinner-dance held last year in St. Catharines.

The slate of officers for the ensuing year was presented by J. W. Marshall, Arts '98, of the nominating committee. The following officers were elected: honorary president, Mr. Hall; president, Mr. Hillmer; first vice-president, Dr. G. R. Stewart, Med. '18, Ridgeway; second vice-president, C. R. Buss, Sc. '27, Thorold; third vice-president, H. A. Norton, Sc. '21, Niagara Falls, N.Y.; secretary-treasurer, G. H. Hamilton, Arts '31, Niagara Falls, Ont.; representatives—H. A. Snelling, Arts '31, Welland; J. N. Campbell, Arts '30, Dunnville; Dr. R. G. Pfotzer, Med. '24, Buffalo, N.Y.; T. A. Marshall, Com. '26, Lockport, N.Y.; Dr. G. A. Publow, Med. '11, Thorold; Miss Dorothea Graves, Arts '29, Stamford; Mrs. C. S. Allin (Edna G. Johnstone), Arts '19, Niagara Falls, Ont.; S. A. McNeight, Sc. '31, and D. G. Cameron, Sc. '23, Niagara Falls, N.Y.; Bea-

trice G. Lauder, Arts '09, Jessie M. Scott, Arts '24, Alvin S. Townshend, Sc. '24, W. O. Asselstine, Arts '06, St. Catharines; R. C. McGuire, Sc. '18, Port Colborne; O. M. Weaver, Arts '28, Fort Erie; Edward L. Crossley, Arts '31, Fenwick.

The meeting ended with a delightful bridge and luncheon. Prizes for high scores were won by Mrs. Harold Evans and Mr. Hamilton, and the consolation prizes went to Mrs. H. V. Finnie, St. Catharines, and Mr. Cameron.

Peterborough

ON October 2, Principal and Mrs. Wallace were the guests of the Peterborough alumni at a dinner held at the Peterborough Golf and Country Club. Approximately ninety students and graduates attended, many coming from a considerable distance. E. R. Shirley, Sc. '12, president of the branch, acted as chairman.

Introduced by Adrian MacDonald, Arts '12, who spoke in appreciation of the Principal's administrative ability and fine scholarship, Dr. Wallace was greeted with the singing of "For He Is a Scottish Man" when he arose to speak.

The Principal reviewed recent progress at Queen's, which is enabling the University to become a stronger force in the development of Canadian national life. He also described how the scope of the Extension Department is being widened to include courses for those who are interested in education beyond the bare requirements for college grades and degrees. Futher efforts to meet the need of the times have been made by Queen's in the establishment of a Department of Industrial Relations, and in the provision of a new building for advanced research in biochemistry and allied subjects.

In these days of intense competition and changing values, not only ability is expected of students but also integrity of character, said Dr. Wallace. A premium is still placed on a high degree of scholarship, of course, but other factors now enter into consideration.

On behalf of the graduates and visitors, Miss Verna Burgess, Arts '36, thanked the Principal for his address, asking him if "'he would no come back again?"

A toast to Queen's was proposed by Dr. C. M. Scott, Arts '11, Med. '14, with a humorous illustration of the loyalty of her students. Tom Allen, Arts '36, and Don Munro, Arts '27, led a spirited singing of college songs, the latter contributing an original solo. A visiting artist, Mrs. Ross Williamson, accompanied at the piano by Miss M. Cox, favoured with two delightful songs.

Mr. Shirley's announcement of a social gathering in the spring was received with enthusiasm. Arrangements were left to a table committee composed of Mrs. V. R. Henry (Lulu Lawrence), Arts '13, Mrs. V. R. Currie (Marion Spence), Arts '25, Mrs. E. R. Shirley, and Mrs. R. G. Corneil (Mildred Tape), Arts '27, and to a programme committee of Dr. C. M. Scott, Miss Gladys Moore, Arts '22, Don Munro and Tom Allen.

While in Pterborough Principal and Mrs. Wallace were the guests of Dr. and Mrs. Scott.

ALUMNI NEWS

Births

Almqvist—On September 23, at the Kingston General Hospital, to C. Q. Almqvist, Sc. '36, and Mrs. Almqvist, a son (Carl Eric).

Bates—At the Mount Hamilton Hospital, Hamilton, Ont., on October 20, to J. M. Bates and Mrs. Bates (Marjorie Purtelle), Arts '26, of Burlington, Ont., a son (James Edward).

Bronson—On September 25, at the Private Patients' Pavilion, Toronto General Hospital, to E. H. Bronson, Sc. '24, and Mrs. Bronson, a daughter (Miriam Ruth).

Burley—At the Private Patients' Pavilion, Toronto General Hospital, on March 25,

to J. G. Burley, Sc. '26, and Mrs. Burley (Marjorie Harrison), Arts '24, a son (Douglas Harrison).

Carson—On October 15, at the Hotel Dieu Hospital, Kingston, to G. E. Carson, Com. '25, and Mrs. Carson, a daughter.

Draper—On September 16, at Irwin Sanatorium, to Dr. T. Fraser Draper, Med. '20, and Mrs. Draper, of Queen's Village, N.Y., twin daughters (Joan Ellen and Jacqueline Rose).

Elliott—On June 16, to J. D. Elliott, Sc. '31, of Timmins, Ont., and Mrs. Elliott, a daughter (Anne).

Hall—On August 9, to D. D. Hall, Sc. '30, and Mrs. Hall, of St. Catharines, Ont., a daughter (Patricia Helen).

Hillmer—At the General Hospital, Niagara Falls, Ont., on September 21, to G. P. Hillmer, Arts '27, and Mrs. Hillmer, a daughter (Elizabeth Jane).

Kindle—At the Civic Hospital, Ottawa, on October 27, to Dr. E. D. Kindle, Arts '30, and Mrs. Kindle, a daughter (Sandra Helen).

Limoges—At the General Hospital, Penetanguishene, Ont., on September 29, to Dr. L. E. Limoges, Med. '34, and Mrs. Limoges, a son (Donald).

Miller—In the Kingston General Hospital, on September 15, to Dr. Borden Miller, Med. '37, and Mrs. Miller, a son.

Moore—At the Private Patients' Pavilion, Toronto General Hospital, on October 8, to Kenneth T. Moore, Com. '29, and Mrs. Moore, a son.

Moore—On October 17, at the Toronto Western Hospital, to Allan A. Moore, Arts '33, and Mrs. Moore, a daughter.

North—At the General Hospital, Kenora, Ont., on August 25, to K. R. North, Sc. '35, and Mrs. North, of McKenzie Island, Ont., a daughter.

Ross — At Nicholls Hospital, Peterboro, Ont., on September 22, to Donald Ross, Sc '32, and Mrs. Ross, a daughter.

Stephens — At Dr. Kelly's Hospital, Hawkesbury, Ont., on October 25, to C. L. Stephens, Sc. '29, and Mrs. Stephens, of Brownsburg, Que., a son (John Campbell).

Strange—At the General Hospital, Kingston, on October 24, to Maxwell Strange, Com. '28, and Mrs. Strange, a son.

Ward—On July 11, at the Private Patients' Pavilion, Toronto General Hospital, to F. S. Ward, Sc. '35, and Mrs. Ward, a son (Lindsay Paul).

Whittle—At the Civic Hospital, Ottawa, on October 11, to R. S. Whittle, Arts '30, and Mrs. Whittle, a son (Robert MacLean).

Marriages

Abramsky—On September 23, at Kingston, Eva Abramsky, Arts '32, to Israel Smith, of Tyler, Texas.

Bateman-Leslie—At the Morgan Memorial Chapel, Queen's University, on October 8, Helen Madeleine Leslie, Arts '35, to Dr. James Henry Bateman, Med. '35. They will reside at Georgetown, Ont., where Dr. Bateman recently opened a practice.

Biesenthal—On September 21, Erma Hodgins, of Shawville, Que., to Clarence Gordon Biesenthal, Sc. '36, of Kapuskasing, Que.

Cameron—On September 20, at Finch, Ont., Katherine Nancy Cameron, Arts '34, to Rev. Walter Le Grow, minister of the United Church at Newington, Ont.

Crothers — At St. George's Cathedral, Kingston, on October 4, Helen Barlow Timmerman to Donald Coverdale Crothers, Sc. '37. They are living in Toronto, where Mr. Crothers is on the staff of the Canadian Ingersoll-Rand Company.

Deline—In Carman Church, Toronto, in October, Helen Aileen Graham to Harold Glenn Deline, Arts '31, Sc. '32.

Donovan—On October 2, at First Presbyterian Church, Winnipeg, Martha, only daughter of Mrs. Malcolm McLeod and the late Mr. McLeod, to Dr. Charles Roy Donovan, Med. '15, provincial epidermiologist for Manitoba.

Evans—At St. Andrew's Manse, Kingston, on October 2, Elizabeth Jane Mantrop to Owen Allen Evans, Sc. '33, of Sault Ste. Marie, Ont.

Grange — In St. George's Cathedral, Kingston, on June 26, Helen Margaret Grange, Arts '32, daughter of William Alexander Grange, Arts '98, and Mrs. Grange, Napanee, Ont., to George Ernest Gibbard. They are living in Napanee.

Hennessy—At Westmeath, Ont., on September 4, Emily Winters Hennessy, Arts '30, to Donald James Fletcher (Sc. 32 Michigan). They are living at 308 Randolph St., Windsor, Ont.

Jolliffe—At St. Stephen's Church, Westmount, Que., on October 23, Catherin Bell Peabody, of Woodstock, N.B., to Dr. Fred Thomas Jolliffe, Arts '29, of the Department of Mines and Resources, Ottawa.

Lindsay—On September 22, at the home of the bride's parents, Kingston, Evelyn Mary McEwen to Rev. Thomas David Lindsay, Arts '34.

McEwen—At Elmira, N.Y., on August 23, Ethel Dorothy Wallace to Dr. Harold Douglas McEwen, Arts '26. They will live at Vermillion, S.D., where Dr. McEwen has been appointed assistant professor in the department of biochemistry at the University of South Dakota.

McNab—At Arnprior, Ont., on October 2, by Rev. J. M. MacDonald, Arts '04, Theol. '14, Margaret Christina McNab, Arts '29, to Colin Carter, of Picton,, Ont. Miss Helen McNab, Com. '33, was bridesmaid.

Major—In St. Luke's Procathedral, Sault Ste. Marie, Ont., on September 22, Helen Nadine Hall to Wallace Stewart Major, Com. '33. They will live in Sault Ste. Marie.

Nunn—At Emmanuel College Chapel, Toronto, on June 26, Anna B. Dickey (B.A. McMaster) to Rev. Roger C. Nunn, Arts '33. They are residing at Cayuga, Ont., where Mr. Nunn is United Church minister.

Swaine—On September 18, Helen Alison Swaine, Arts '30, to Michael Timonin (M.A. Manitoba). They are living at 46 Baldwin St., New Brunswick, N. J.

Tisdale—During October, at the home of the bride's parents, Kingston, Vera Cliff to Dr. Clifford Tisdale, Med. '33. They will reside in Woodstock, Ont., where Dr. Tisdale is on the staff of the Ontario Hospital.

Watts—In the Anglican Church, Tamworth, Ont., on September 18, Marion Turkington to John Pollitt Watts, Sc. '36, son of Prof. J. O. Watts and the late Mrs. Watts, Kingston. They are living in Peterborough, Ont., where Mr. Watts is on the staff of the Canadian General Electric Company.

Deaths

Casselman—Long a resident of Sault Ste. Marie, Ont., Dr. S. B. Casselman, Med. '09, dropped dead in that city on August 27. After chatting with friends at the Abitibi offices, he stepped outside and was found unconscious only a few minutes later. He died before medical assistance could arrive. He is survived by his wife, one son, Dr. B. W. Casselman, Med. '33, who has taken over his father's practice, two brothers and two sisters.

Drummond—Famed far and wide for his "bee sting" serum treatment for rheumatism, and a medical practitioner for nearly half a century, Dr. Peter Drummond, Med. '89, died at his home in Grant, Mich., on September 24, following a heart attack. Dr. Drummond was born in 1867, and entered Queen's in 1885, graduating four years later. Shortly after completing his studies, he started practice in Grant, and was looking forward to celebrating next year his golden anniversary as a physician. Prominent in Grant civic affairs, Dr. Drummond was chairman of the Red Cross chapter, a member of the Oddfellows and Masons, and treasurer of the Grant Community Church. He also served as director of the Grant State Bank, and was a former president of the village and of its school board. On the day of the funeral all business places in Grant were closed. The deceased is survived by his wife, one son and one sister.

Estelle—A distinguished scholar and teacher, Mother M. Estelle (Lucy Nolan), Arts '10, died in Toronto recently. She was born at Stratford, Ont., in 1872, and attended Loretto Convent, Guelph, before coming to Queen's. She obtained her B.A. degree in 1910 and her M.A. the following year. After teaching in Loretto College, Stratford, and in Hamilton, Woodlawn, Chicago and Sault Ste. Marie schools, she joined the staff of the Loretto College School, Toronto. She is survived by one sister.

Gordon — Widely known for his church work and for his authorship under the pseudonym of Ralph Connor, Charles W. Gordon, LL.D. '09, died in a Winnipeg hospital on October 31. Dr. Gordon was born in Glengarry County, Ont., in 1860, and was educated in the public schools of that district and of Oxford County. He also studied at the University of Toronto, at Knox College, Toronto, and at New College, Edinburgh. In 1890 he was appointed missionary to Banff and the Rocky Mountains, and four years later went to Winnipeg as pastor of St. Stephen's Church, where he served until his retirement in 1924. He was moderator of the Presbyterian Church in Canada, 1921-22, and was convener of the Presbyterian Church Assembly's committee on social service and president of the Social Service Council for Manitoba. During the war he was senior chaplain of the Canadian forces in England, with the rank of major. He was the author of more than a score of novels, including "Black Rock" and "The Sky Pilot." He is survived by his wife and seven children.

Lehmann—Demonstrator in chemistry at Queen's from 1898 to 1900, Dr. Adolph L. F. Lehmann died at his home in Kingston on September 27. Dr. Lehmann was born at Sparrow Lake, Ont., in 1863. He was a graduate of the Ontario Agricultural College, and of the University of Leipzig, where he obtained his doctorate. He began his career in Ottawa as an assistant chemist at the Dominion Experimental Farm, later transferring to the Agricultural Experimental Station at New Orleans, La. After serving as a member of the Queen's staff, he organized and directed the State Department of Agriculture in Mysore, India, where he worked for ten years. He then returned to Canada to become professor of chemistry at the University of Alberta, retiring in 1929. He is survived by his wife, three children and one brother.

Potter—Pastor emeritus of MacVicar Memorial Presbyterian Church, Montreal, Rev. Dr. James G. Potter, Arts '91, died in Montreal on October 24, at the age of seventy-three. Dr. Potter was born in London, England, and moved to Canada with his parents early in life. He attended Dalhousie Collegiate Institute and entered Queen's in 1882. As a student he was called "Semper Paratus" by Professor Nicholson of the Latin department, and the name "Semper" remained with him for years after. He received his testamur in Theology in 1889, and was ordained into the Presbyterian ministry at Merrickville, Ont., in the same year. In 1891 he obtained his B.A. degree, and the following year he was inducted as minister of Southside Presbyterian Church, Toronto, where he remained for four years. From 1896 to 1910 he served as minister of St. Andrew's Church, Peterborough, and at the end of that period he was inducted as minister of MacVicar Memorial Church, Montreal, where he remained for more than twenty-five years. He received his M.A. degree from McGill in 1912, and in 1929 he was made the recipient of a D.D. degree by the Presbyterian Theological College. He was deeply interested not only in the affairs of his congregation but in every charitable undertaking. In 1925 he was elected to represent the Presbyterian Church of Canada at the general council of the Alliance of Reformed Churches, which met at Cardiff, Wales. He served as president of the General Protestant Ministerial Association of Montreal in 1931. He is survived by his wife, two sons, two daughters, four brothers and two sisters.

Robinson—Retired from active practice for less than a year, Dr. Andrew E. Robinson, Med. '95, died in the Kingston General Hospital on September 6. Dr. Robinson was born at Toronto in 1873. He received his preliminary education in Kingston, and entered the Royal College of Physicians and Surgeons, now the Medical faculty at Queen's. After a brilliant course, he graduated in 1895 and proceeded to Chicago, where he practised his profession for forty-two years. He is survived by one sister and three brothers.

Notes

1880-1889

Rev. Dr. J. Fraser Smith, Med. '88, who returned to Canada some years ago after a long missionary career in China, is now living at 10924—81st St., Edmonton, Alta., where he is still active in the ministry. His autobiography "Life's Waking Part" was published recently by Thomas Nelson and Sons, Toronto, and is receiving high praise both for its interesting presentation of the author's experiences in China as well as for its literary merit.

Mrs. Adam Shortt, Med. '84, was recently re-elected president of the Elizabeth Street Residence, Ottawa.

1890-1899

Dr. E. J. Melville, Med. '92, and **Mrs. Melville** (Mary Donovan), Arts '92, recently returned to their home in St. Petersburg, Florida, after a five months' tour of the Orient.

Dr. R W. Huffman, Med. '99, has practised for many years in Petaluma, Calif. Mrs. Huffman was **Georgina Jamieson**, Arts '99.

Dr. J. H. Putman, Arts '99, resigned recently as chief inspector of public schools for Ottawa in order to contest the Ottawa South constituency in the Ontario elections. He had been inspector for twenty-seven years.

1900—1909

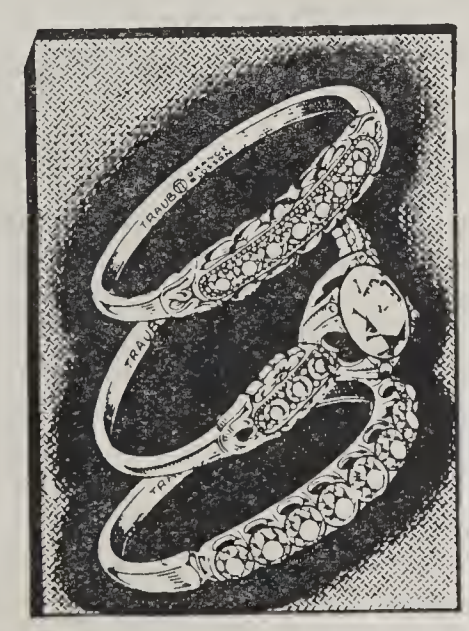

Dr. F. C. Bell, Arts '05 (M.D., Manitoba), of Vancouver, BC., has been commissioner for the Canadian Pension Commission since 1935.

C. H. Bland, Arts '07, chairman of the Civil Service Commission of Canada, was recently elected for a second term as president of the Civil Service Assembly of the United States and Canada.

Brigadier J. L. H. Bogart, Sc. '03, who has been with the Department of National Defence for many years, latterly as officer commanding Military District No. 13 at Calgary, is now retired and living at Renfrew, Ont.

J. E. S. Dunlop, Arts '04, of Winnipeg, was bereaved on September 22 by the death of his wife.

Dr. S. J. Keyes, Med. '05, of Kingston, was bereaved on September 19 by the death of his wife.

THE CANADIAN BANK OF COMMERCE

Dr. S. E. Porter, Med. '00, left Kingston recently for Foleyet, Ont., where he is opening a practice.

Rixon Rafter, Arts '07, although blind, has been for many years editor of the Arthur, Ont., "Enterprise." Mr. Rafter was recently honoured with the Coronation medal in recognition of his excellent newspaper work in the face of his great handicap.

Dr. L. A. H. Warren, Arts '03, for many years professor of mathematics at the University of Manitoba, has been appointed head of the recently established department of actuarial science at that institution.

1910-1919

J. M. Brough, Arts '13, is in the construction department of the British Columbia Electric Railway Company, Ruskin, B.C.

John Buss, Sc. '19, of Toronto, and **Richard Buss,** Sc. '28, of Thorold, Ont., were bereaved on October 10 by the death of their father, Charles Frederick Buss, at his home in Thorold.

Miss Helena F. Cameron, Arts '19, is in in the mines branch, Department of Mines and Resources, Ottawa.

G. F. Drewry, Sc. '10, district engineer of the Ontario Hydro Electric Power Commission, addressed a meeting of the Eastern Ontario Municipal Electrical Association held in Kingston recently. He reviewed power development in Ontario during the past year, particularly in regard to the Eastern Ontario system.

Dr. McGregor Easson, Arts '12, was recently appointed chief inspector of public schools for Ottawa. He has been a member of the Ottawa Public School Board since 1908.

Dr. W. H. Hicks, Med. '16, formerly of Radisson, Sask., is now in private practice at Kinistino, Sask.

A. M. Kirkpatrick, Sc. '11, who has been resident engineer in Charlottetown, P.E.I., for the Department of Public Works during the past year, was recently transferred to Winnipeg as chief resident engineer.

Mrs. W. J. Parker (Una Harris), Arts '18, is living at 1767 Elberon Ave., Cleveland, Ohio.

T. R. Patterson, Sc. '18, has been engineer for Huron County, with headquarters at Goderich, Ont., since 1921.

Miss Mabel F. Powell, Arts '17, recently returned from a year's special work in conversational French at the Sorbonne, Paris. She is head of the moderns department at Goderich Collegiate Institute, where she has taught for several years.

Dr. H. E. Preston, Med. '16, was elected to serve as counsellor of the Ontario Medical Association for the district of Leeds and Grenville at the annual meeting of district association held in Brockville in October.

S. A. Purvis, Sc. '12, is doing private work in Toronto as a civil and efficiency engineer. His address is 114 Pricefield Road.

Miss Bertha Robson, Arts '10, was recently appointed principal of the Girls' Training School in Galt, Ont. Before joining the staff of this school a few years ago, she had been engaged in missionary work in Amkhut, Central India.

1920-1929

Dr. W. C. Arkinstall, Arts '28, Med. '30, has returned to his practice at Hearst, Ont., after doing postgraduate work in surgery for some time at the Hammersmith Postgraduate Hospital, London, England.

H. E. Armstrong, Arts '22, Com. '24, is agency director for the New York Life Insurance Company at Toronto.

Dr. Ben Brachman, Arts '29, Med. '33, is doing postgraduate work in London, England, and from there will go to Vienna for further study. He expects to return to Regina next summer to start private practice, specializing in skin diseases.

A. J. Brown, Com. '27, formerly with the T. Eaton Company, Toronto, is now doing insurance work with the Mutual Life of Canada. His business address is 320 Bay St., Toronto.

Captain C. E. Bulmer, Sc. '22, is adjutant of the second division R.C.A.S.C. at Hamilton, Ont.

Miss M. M. Campbell, Arts '21, retired in June from her position on the staff of Goderich Collegiate Institute, where she had taught for seven years. She will continue to reside in Goderich.

Miss Thelma Craig, Arts '22, is on the staff of the Toronto "Globe and Mail."

Mrs. Keith Crowther (Frances MacCallum), Arts '24, supervises the activities of the University Settlement House, Toronto.

Stewart Lavell, Arts '29, has joined the staff of the Ryerson Press, Toronto.

Dr. L. H. Leggett, Med. '24, has resumed his practice in Guelph, Ont., after several months' illness.

M. S. Macgillivray, Sc. '23, is now on the engineering staff of Canadian Industries Limited, Montreal.

A. G. Muirhead, Sc. '26, is chief chemist at the Kenogami, Que., paper mills of Messrs. Price Brothers and Company.

Dr. H. E. Robertson, Med. '24, is staff physician at Queen Alexandra Sanatorium, London, Ont.

Miss Mary K. Rowland, Arts '26, Com. '28, librarian of the Bank of Canada, Ottawa, has been given temporary leave by the bank to serve as assistant to the secretary of the Royal Commission on Dominion-Provincial Relations. She spent some time in Europe during the past summer, and while in Germany visited Mrs. Wolfgang Bühring, formerly Miss Ellen Huebner, German exchange student at Queen's in 1931-32.

Phil Roy, Sc. '29, has joined the mechanical and electrical engineering staff of the Canadian Locomotive Company, succeeding the late F. H. Ryan, Sc. '09.

Rev. G. H. Sadler, Arts '21, formerly in charge of the Anglican mission of Cobden, Ont., has been transferred to Eganville, Ont., where he will be rector of the parish.

Robert Westwater, Arts '27, principal of York Street School, Ottawa, for the past six years, was recently appointed inspector of public schools for Ottawa.

Miss Elizabeth Williams, Arts '27, has moved from Toronto to Beverley Hills, Calif. Her address is care of Mrs. K. Bostwick, 936 South Olympic Blvd.

Dr. E. T. Wood, Med. '21, has practised in Westmeath, Ont., since graduation. He has also been prominent in the political affairs of that district for several years, as president of the North Renfrew Conservative Association and recently as candidate in the by-election for the federal house.

1930-1937

Miss Margery Ackerman, Arts '31, has resumed her position on the staff of Goderich Collegiate Institute after several months' illness.

E. G. Baker, Sc. '33, is with Canadian Refractories Limited, Kilmar, Que.

C. R. Ball, Sc. '37, is on the mill staff at the Falconbridge Nickel Mines, Falconbridge, Ont.

Dr. H. E. D. Bateman, Med. '34, of Cornwall, Ont., was bereaved on October 4 by the death of his wife, following the birth of a son, Charles Lester, at the General Hospital in Cornwall.

A. P. Beavan, Sc. '32, formerly geologist at the Athona Mines, Goldfields, Sask., is this year completing his doctorate studies in geology at Princeton University.

Dr. K. A. Bibby, Med. '32, is specializing in radiology at the Civic Hospital, Boston, Mass.

Dr. E. M. Boyd, Med. '32, assistant professor of pharmacology at Queen's, was one of the speakers at the annual meeting of the American Public Health Association held in the Hotel Pennsylvania, New York City, during October.

R. C. Bray, Sc. '37, is on the engineering staff of Noranda Mines, Noranda, Que.

Mrs. Wolfgang Bühring, formerly Miss Ellen Huebner, who was German exchange student at Queen's in 1931-32, has been living for the past year at List auf Sylt, on an island in the North Sea. Her husband, to whom she was married in June, 1936, is an officer in the German flying corps. They have a baby son Uwe. Mrs. Bühring is still much interested in Queen's activities.

Rev. Northcote Burke, Arts '32, has been appointed rector of St. John's Anglican Church, Ottawa, in succesion to the late Rev. Canon J. F. Gorman.

A. O. Carufel, Sc. '35, is doing postgraduate work at the University of Minnesota.

Omer Chaput, Sc. '36, is with the Aluminum Company of Canada, at Arvida, Que.

"Do I look sufficiently nonchalant?"
"You'll do—with the aid of that Sweet Cap."

SWEET CAPORAL CIGARETTES

"The purest form in which tobacco can be smoked."—Lancet

K. A. Clendenning, Arts '36, is at present acting as an assistant in the department of botany at the University of Toronto.

J E. Cliff, Arts '32, was called to the bar at Osgoode Hall in September. He will practise in Kingston.

Morris M. Conway, Com. '33, and **Mrs. Conway** (Helen Matheson), Arts '34, are now living at 93 Paradise Road N., Westdale, Hamilton. Mr. Conway has been transferred from Montreal to Hamilton as district manager of the Canada Dry Ginger Ale Company.

J. E. Dowsley, Sc. '33, is with the Department of National Revenue as investigator of drawback claims in the Toronto district.

R. C. Ellis, Arts '33, is teaching at the high school at South Porcupine, Ont.

C. L. Emery, Sc. '36, is back at the University this year as lecturer in the mining and metallurgy department.

Miss Aileen Froats, Arts '37, is teaching at Newington, Ont.

R. C. Greig, Arts '33, recently completed his studies at Osgoode Hall, and was called to the bar on September 16. He intends to practise in Ottawa.

Robert Gordon, Arts '36, has joined the office staff of A. Davis and Son, Bowmanville, Ont., as accountant.

Wallace Hare, Arts '35, sailed last month for South America, where he will spend two years with the Andian National Company at Bogota, Colombia.

A. B. Handler, Arts '31, is lecturing in the political science department at Queen's this session, and also doing research work for the Royal Commission on Dominion-Provincial Relations.

D. F. Hatfield, Sc. '37, is with Algold Mines, Goudreau, Ont.

Dr. W. J. Henderson, Arts '31, is on the physics staff of Perdue University, Lafayette, Indiana.

David Hutchinson, Sc. '35, has accepted a position with the West African Gold Corporation of London, England, and is at present stationed at the Abossa Mine, Gold Coast Colony, British West Africa.

V. E. Isaac, Sc. '36, is back at the University this session demonstrating in the electrical engineering department.

W. R. Johnson, Sc. '33, is with the McKinnon Industries, St. Catharines, Ont.

J. E. Kennedy Arts '37, is full-time demonstrator in the physics department at the University this session.

Miss Betty Laird, Arts '36, is now on the library staff of the University of Manitoba, Winnipeg.

Dr. W. M. S. Lauder, Med. '37, has opened a practice in Port Arthur, Ont. His address is Bank of Hamilton Chambers.

A. H. Lieff, Com. '36—An erroneous announcement that a daughter had been born to A. H. Lieff, Com. '36, and Mrs. Lieff, of Ottawa, was made in the August issue. The item was published in good faith, but

ART BOOKS, TRAVEL BOOKS, NOVELS—

These make ideal gifts

TOM THOMSON. By Albert H. Robson

"A splendid example of colour-printing. Everyone who has the slightest interest in Canadian art ought to procure a copy of this inexpensive, beautiful little book."—*Winnipeg Tribune.*

"These booklets will serve the useful purposes of valued Christmas cards."—*Globe and Mail.* Cloth $1.00; paper, 50c.

J. E. H. MacDONALD. By Albert H. Robson

Uniform with Tom Thomson, above, containing ten full-colour reproductions of the artist's work with analytical comment. Cloth, $1.00; paper, 50c.

THIS IS ONTARIO. By Katherine Hale

A fascinating travel book on Ontario, illustrated by the famous camera-artist "Jay." $2.50.

MORE ABOUT NOVA SCOTIA. By Clara Dennis

A second travel book by the author of the popular *Down in Nova Scotia.* Illustrated. $2.50.

THEY SEEK A COUNTRY. By Francis Brett Young

"It is, without question, one of the most humane, most poised and most finely imaginative novels ever penned."—*New York Times Book Review.* $2.50.

THE RYERSON PRESS — TORONTO

was later discovered to refer to another A. H. Lieff, of Ottawa—a non-graduate of Queen's. The Commerce alumnus informs the "'Review" that he is not married and that his present address is Trenton, Ont. The editors are glad to publish this correction.

H. W. Love, Sc. '36, is a lieutenant in the R.C.E. and is stationed at the Dominion Arsenal, Valcartier, Que.

Leonard Lucas, Arts '36, is now teaching mathematics and elementary science at Ashbury College, Ottawa.

W. D. McHoull, Arts '34, is now on the staff of the Earl Haig Collegiate Institute, Willowdale, Ont. He was boys' secretary at the Y.M.C.A., Peterboro, Ont., from September, 1936, until recently.

Miss Aileen Mason, Arts '36, of the staff of the Hendry Connell Research Foundation, Kingston, was bereaved on September 24 by the death of her mother.

G. G. Mervyn, Arts '31, formerly science teacher in Fort Frances, Ont., is now on the teaching staff of the high school at Kirkland Lake, Ont.

A. O. Monk, Sc. '35, is lecturer in drafting at the University this session.

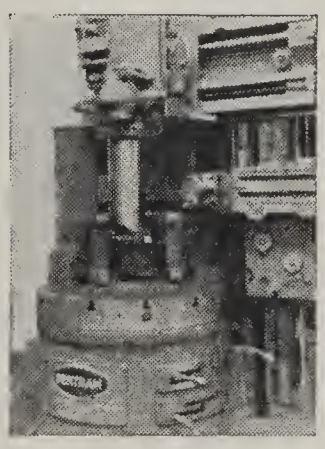

Miss Phyllis Nunn, Arts '37, is back at the University this session doing work towards her M.A. degree.

J. C. Orr, Com. '34, is doing general office work at the Sylvanite Gold Mines, Kirkland Lake, Ont.

FOR SALE

The University has a limited number of old, high-powered microscopes which are in good condition but which have not been used for some years. These will be sold at $15 each plus $2 for wrapping and shipping if buyer cannot take delivery in Kingston. The microscopes have no cases.

The original cost was probably between $65 and $70.

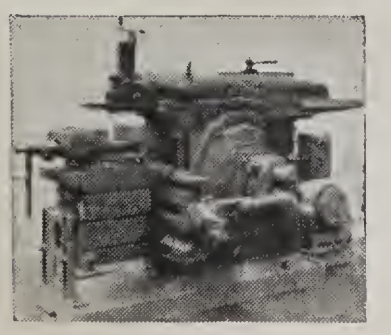

BERTRAM

MACHINE TOOLS

We build a complete line of Machine Tools for Railroad, Structural and General Machine Shops.

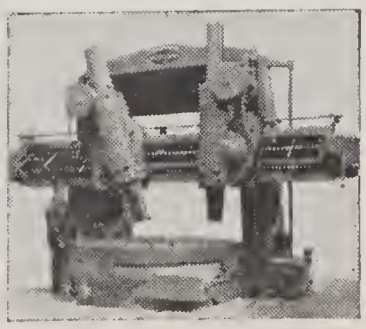

Boring Machines
Drilling Machines
Grinders
Hammers—Forging, Air or Steam
Lathes—Engine, Wheel, Axle, Extension Bed and Gap
Milling Machines
Planers—Openside, Double Housing, Frog and Switch, Plate and Rotary
Presses—Hydraulic and Power
Shapers—Crank
Slotters
Punches and Shears
Gate Shears
Angle Shears
Horizontal Punches
Bending Machines
Rolls—Bending and Straightening

IN REMEMBRANCE

By Dr. W. E. McNeill

An address delivered by the Vice-Principal at the University Memorial Service in Grant Hall on the morning of November 11.

THIS is Remembrance Day.

It is fitting to remember our part in the Great War.

More than fifteen hundred Queen's men and women served on the various fighting fronts—Queen's Engineers, Queen's Batteries, Queen's Highland Battalion, Queen's Hospital, Queen's Field Ambulance, Queen's men in other units.

Queen's men received three hundred and forty-two awards for gallantry and Queen's women two awards for service.

One hundred and ninety gave their lives. Their names are in letters of bronze in the Douglas Library. Their portraits and their records are in the Silence Room of the Memorial Union.

We are met in a place of ghostly memories. On the first Armistice Day, nineteen years ago, Kingston Hall and this Hall were War Hospitals. Women students helped to serve the broken men.

To-day a large part of the world is honouring in silence and sober thought the memory of the ten million who died in the Great War. To honour the dead is an immemorial tradition, extending unbroken from the first records of man to this day and hour. Barrow and cairn, pyramid and arch, sculptured groups and simple shafts, all proclaim the human wish to remember and be remembered. Even Christ asked, "This do in remembrance of Me."

All ages have remembered their war dead, but not in the same mood. For eighteen hundred years, from Titus to Napoleon, the victors built proud triumphal arches, with carved chariots and horses and men in battle array, declaring the glory of War. The memorials of to-day bear witness to a new spirit. Boasting has given place to sorrow.

England's cenotaph placed in Whitehall between rows of stately government buildings is a starkly simple obelisk, bearing only the numerals 1914 1918 and the words: "The glorious dead." The streaming thousands who go by reverently bare their heads.

The Scottish National War Memorial on Edinburgh Castle Rock has the plan and atmosphere of a Cathedral. An inner Shrine, rich in symbolic decoration, contains a steel casket with one hundred thousand names and the simple words: "Their Name Liveth." Outside is a Hall of Honour with a pillared arcade for each Scottish regiment or service. Each has a fitting inscription. This is one, taken from Laurence Binyon:

They shall grow not old as we that are left grow old;
Age shall not weary them nor the years condemn.
At the going down of the sun and in the morning
We will remember them.

The Canadian National War Memorial on Vimy Ridge, designed by Walter Allward of Toronto, was finished in 1936 after ten years in the making. It is nobly conceived. Sorrow is here lighted by hope. High up on two great pylons are figures of Justice and Honour, Faith and Peace. At the base are symbolic groups, one showing "The Breaking of the Sword." In front stands the bowed figure of a woman facing the battlefields. She is Motherhood mourning for her sons. It is a long way in reason and ideals from the old time triumphal arches of Rome and Paris and Berlin to this moving Canadian appeal for peace.

In the spirit of the Canadian National War Memorial we are met to honour the dead—the ten millions of many nations, the sixty thousand Canadians, the hundred and ninety Queen's students, professors, and graduates. In the idealism of youth they fought for a better world. It may seem not to have come. But on this Day of Remembrance let us remember that progress is like a river which, though it "crook and turn upon itself in many a backward streaming curve," yet always reaches the sea. Let us remember the calm wisdom of Euripides:

There be many shapes of mystery,
And many things God makes to be,
Past hope or fear.
And the end men looked for cometh not
And a path is there where no man sought.

So may it happen here.

BACONIAN SOCIETY FORMED TO DISCUSS RESEARCH

THREE interesting meetings of the newly formed Baconian Society have been held at the University during November and December.

The Society was established to provide discussion regarding research at the University and to give members an idea of the research programmes of the various departments. The membership is open to those engaged in teaching scientific subjects, and to the graduate students, in the different faculties.

It is planned to hold meetings every fortnight during the academic year. Outside speakers are not specially invited, but advantage is taken of the visits of experts to the University.

The Society derives its name from the words, "To make the mind of man, by help of art, a match for the nature of things," from volume four of Francis Bacon's *The Advancement of Learning.*

On November 10, Sir Frederick Banting the discoverer of insulin, spoke on "Medical Research Problems Now in Progress." Dr. E. M. Boyd, Arts '28, Med. '32, delivered a paper on "The Lipid Metabolism of the White Blood Cell," on November 25. On December 9, Prof. W. L. Malcolm, Arts '05, Sc. '07, spoke on "The Sanitary Engineering Laboratory at Queen's and the Research Problems that may be Studied Therein."

The series will be continued after Christmas.

FAITHFUL UNTO DEATH

BURIED in the stacks of the Douglas Library, an interesting little book entitled *Faithful Unto Death* was recently discovered by a staff member who was searching for information of a vastly different nature. The word "discovered" is used advisedly, as the book, which bore the printing date of 1859, had apparently never been opened since the day it was first catalogued.

Containing sixty-six pages, the book is a memorial to one John Anderson, who served the University as janitor from 1851 to 1859. What manner of man was this, it might be asked, that performing such humble duties, he should inspire such a tribute.

John Anderson, it seems, was born in Scotland in 1810, migrating to Canada at an early age and eventually arriving in Kingston, where he was variously engaged as a warehouseman, carrier, clerk and driver of a bread-cart. In 1851 he was hired by the Trustees of Queen's College as janitor, a position of more trust and responsibility than he had yet held.

At that time the College buildings consisted of what is now the Principal's Residence and its annexes. Looking after the buildings and the grounds, plus cultivating a large garden and cutting and piling wood for the winter fuel supply, gave John plenty to do during the long summer vacation. As the anonymous author of *Faithful Unto Death* naively states, John's duties "fully occupied his time and prevented him from feeling the loneliness of his situation."

In the winter he kept the classrooms in order, tended the fires, acted as messenger and general handyman, and rang the College bell hourly for classes. He even took the meteorological observations when, as sometimes happened, there was no one else to do so; but with the true Presbyterian's regard for the Sabbath, he could not easily be reconciled to the necessity of the readings being taken on that day.

At this period of the College's history, a "boarding establishment" was maintained on the grounds "under the general supervision of the Professors." But as

UNIVERSITY OF QUEEN'S COLLEGE.
The entire plant as it existed in the days of John Anderson

none of the professors resided within the "boarding establishment," its charge devolved almost solely upon John—a responsibility which seems to have weighed upon him rather heavily. So well did he carry out these duties, however, that he earned the lasting respect of his charges and the staff.

Board cost $7 a month, a rate which was made possible partly through John's labours in the garden and partly through his shrewd bargaining at the farmers' market. Tuition was £1 for matriculation fee, £2 a session for each class, and £1 for the expenses of apparatus used in the natural philosophy class. No fees were levied for students registered in Theology, but the calendars of that period carried a warning that the fees would be collected should a Divinity student enter some profession other than the ministry. A student was admitted to any faculty only after producing a certificate of moral and religious character from the minister of the congregation to which he belonged.

In his intercourse with the students John could be, as occasion required, the stern reprover, the sympathizing comforter or the paternal counsellor. He was even known to dig down into his own pocket to lend assistance to financially embarrassed undergraduates. He appreciated and entered into any "innocent fun," while "at the same time frowning down all that showed any tendency to impropriety or insubordination."

In a letter to his brother and sister in Scotland, John wrote as follows in 1853: "We have had at the College this winter a very severe dispensation of sickness—some cases of smallpox of the African kind. One young lad was in bed forty days—long blind and quite insensible, and yet he has got over it. The College was stopped for eight days; it is nothing at all to get on as long as they are kept at classes, but when you have thirty of them in the rooms all the day, burning wood and working mischief, it is a hard job to get along. This winter I have just wrought as hard as ever I was able—from six in the morning until ten at night—so many stoves and so much shovelling of snow. There is no end of it, for it is sometimes to be cleared away three times a day. It is a very confining berth, too. You must be there every hour. I was not farther than the market this twelvemonth."

In another letter, two years later, John had more complaints to make: "This is the first whole year of my life that I have kept Bachelor's Hall, and I think it would amuse you if you had dropped in sometimes on me and seen me going on in the most essential things in housekeeping. I must say that I find it rather unpleasant, after everything is done, to go and cook for myself. I am about tired of this way of living. I fully expected that this spring I would leave the College, for it does not answer me since the adoption of the Medical Faculty last session. There are many unpleasant things connected with it, and a very great deal of labour for one person to clean and fire such a large place, besides the work to keep the snow from so many doors. In winter, really I was heart-broken—you have no conception of the trial the wood and the snow is to people here.

"We had a great deal of sickness among the students. Last session two of them died—fine young fellows. One of then was taken home to London—500 miles—and I was sent over to Cape Vincent, N.Y., (across the ice) with the body to go upon the Railway that crosses again into Canada at Niagara. It was one of the coldest nights that was last winter. I never thought to be frozen to death before in my life, but I really thought my very heart was frozen within me, and I

got such a cold. I fully believed I never would get over it."

John sought to enliven his existence with pet birds and animals. At one time he kept a horse, apparently for the sole purpose of companionship, for he seldom went riding. He was specially attached to his dogs, and was deeply moved when one faithful attendant fell prey to some poisoned meat which had been thrown upon the street in a season of general dog-destruction.

A wife would have been of great comfort to John, and it was a subject of regret to his friends that he never married. As he once explained, he did not feel in a position to marry. He scrupulously saved his hard-won earnings for the needs of those at home in Scotland.

It was as an unswerving Christian, however, that John made his presence most strongly felt about the campus and the city. His was the religion of the uncompromising variety which frowned at the increasing tendency to sing hymns in Sunday School. John feared lest such practices might interfere with the old Scottish custom of singing the metrical Psalms, in which he tok a great delight all the days of his life. Regularly as nine o'clock arrived in the evening, John's voice might be heard in prayer or in the sweet old Psalmody of Scotland.

He early entered on the work of a Sunday School teacher and continued until a short time before his death. Sabbath after Sabbath, regardless of the weather, he was always at his post, teaching the young the way of the Lord.

The weekly evening prayer-meeting was particularly prized by John as a means of spiritual refreshment. Nothing but the call of imperative duty was permitted to interfere with his regular attendance. So unfailingly punctual was he that the appearance of "John Anderson's dog" at the Church door was a silent reproof to late-comers that the service had commenced.

He even found time amid his many chores to attend the daily religious exercises of the College, and his reverential demeanour must often have had a subduing influence on a careless or irreverent student.

John always found the Canadian climate a little too severe for comfort, and eventually he developed bronchitis. It was only with great difficulty that he was able to go about his labours, but continue to work he did, so great was his devotion to duty. Even during his last session he cleaned all the stove-pipes unassisted—a disagreeable enough task at any time, but infinitely more so from the action of the soot and dust on his now sensitive throat.

He rapidly declined in health, but resisted all efforts of the College authorities to make his path easier. On New Year's Day, 1859, he was found by friends reclining in a chair in a state of great weakness and unable to speak above a whisper. It seemed like the end, but he rallied when the students returned after the vacation, and resumed his work. Another relapse followed, and this time he had to take to his bed. He was never without callers, and every night the students took turns sitting up with him. During these nightly vigils, he would ask them to read his favourite passages of the Bible, or the Psalms he loved so well. Death released him from his earthly cares on February 1, 1859, and the event was announced at the close of classes. In the chemistry room a large body of undergraduates was just commencing the usual noisy break-up when the announcement was made. Instantly every sound was hushed, and stillness of some minutes succeeded. The news was accorded much the same reception in the other classrooms.

"The College business was suspended till after the interment, and both Professors and Students were careful to secure that no customary mark of respect to the deceased should, in his case, be omitted," says the author of the book. On the day of the funeral, snow fell heavily and few would have ordinarily stirred from their homes, but nevertheless it was a long and imposing cortège which accompanied John's body on the three-mile trek to the cemetery. "As the long procession of Professors, gowned students and private friends of the dead wound slowly along the snowy streets, it would naturally have excited surprise in the mind of a bystander to be told that he, to whose memory this tribute of respect was paid, had never been in a higher position than that of a servant."

Faithful Unto Death was published as "a tribute to the memory of this Christian gentleman who, in his humble position, but to the full extent of his powers, was an influence for good on all with whom he came in contact." Thus is the record of John Anderson, janitor, and the role he played in the early history of Queen's, preserved for succeeding generations. It is to be hoped that the little book will be "discovered" again and again, as the years roll on, so that John may never be entirely forgotten.

QUEEN'S COLLEGE REVISITED

After Twenty-Four Years. October 25-28, 1937

WE'VE traced again those old familiar streets
Of Kingston with its quaint historic stones;
We've walked the way where town with College meets
While sunset glories tinged the city's domes.

We've heard once more the signal gun at noon,
The bells that call to prayer by day and night;
We've trod the classic halls, and known the boon
Of friendships that survive the years in flight.

We've seen the changes that the times have brought—
Roused old memories from out the long ago—
The campus where we rowdy students fought,
The parks that winter mantled with her snow.

We've heard again our honoured teacher's voice
Relate the tasks the early Church essayed;
And truth, that makes the heart and mind rejoice,
Composed our thoughts and troubled doubts allayed.

Yet sense of our mortality diffused
A sombre tone through all those happy days;
Our generation nears the bourne confused,
Another one comes thronging up the ways.

Yon brawny lad with Balmoral tam o' shanter,
That maiden flushed with charm of grace and youth,
Now live their golden days 'mid student banter,
Seeking the growing Kingdom of the Truth.

—J. F. L. M.

THE LATE WILLIAM COOMBS BAKER

A MEMBER of the Queen's staff for forty years, Professor William Coombs Baker, Arts '95, died suddenly from a heart attack while attending a study group in the Principal's Residence on the evening of December 4. He was in his sixty-sixth year.

Principal Wallace had invited a number of staff members to hear a paper delivered by Dr. Barker Fairley, head of the German department, University College, Toronto. Professor Baker, who arrived in apparently the best of health, died shortly before the meeting began. Never sick a day in his life, he was in the habit of having a periodical medical examination, and only a short time ago passed such a test with flying colours.

No other member of the staff can equal Professor Baker's splendid record of service at the University. The forty years were continuous except for a two-year period when he was studying abroad.

Genial, generous to a fault, Professor Baker was one of the best-known teachers at Queen's. He entertained a large percentage of the students at his home, and, thanks to his hospitality, many freshettes and freshmen escaped the homesickness that so often besets first-year students. He was the perennial honorary president of the Science freshman year.

In his younger days Professor Baker was a prominent athlete and sportsman. As an undergraduate he was a member of the famous Queen's senior Intercollegiate football team, captained by Guy Curtis, which captured the Dominion title in 1893. He never lost his interest in sports and was a familiar figure at athletic events.

In later life he became an ardent golfer. He also rode a bicycle for exercise and, with his white shock of hair, was a familiar sight pedalling along the streets of Kingston.

A lover of nature, bird-banding was his hobby. He became interested in this work through his friend, the late R. O. Merriman, Arts '22, and made valuable contributions to this relatively new science. He set up the bird traps in his own garden and reported the results of his activities to the Canadian and United States governments.

Professor Baker also took a keen interest in music, art and literature. He was an accomplished violinist and, at one time, was the organizer of a family orchestra which played for its own experience and enjoyment.

His private life was exemplary. A friend of his told the *Review*: "Billy was a Christian gentleman of high ideals. He read his Bible daily. I never knew a more sincere man."

As a teacher he possessed the faculty of vivid expression, thereby commanding the respect of the long line of students who sat under him. "He never saved himself," said one of his colleagues. "His whole heart and soul were in his teaching. He was a man of decided views, but was always willing to listen to men who held opposite opinions. But no matter what others thought, he followed the course he believed to be right."

"Billy Baker was not afraid of his own faults," was the tribute of another member of the staff.

Professor Baker was born in Kingston and attended the schools of the city before entering Queen's in 1891. As a student he won the Leitch Memorial scholarship. He obtained his M.A. in 1895, graduating with first-class honours in chemistry and mineralogy. He was appointed to the University staff the same year and served until he went abroad for two years on an Exhibition of 1851 scholarship under Sir J. J. Thomson in the Cavendish Laboratory of Cambridge University. Returning to Canada, he was again appointed to the Physics department at Queen's in 1902. In 1920 he became the Robert Waddell Professor in Experimental Physics. For many years he was chairman of the committee on Douglas tutorships. He was a frequent contributor to leading scientific magazines, and he was regarded as an authority in his field.

A short but impressive service was held in Grant Hall on the morning of

December 6, after which the body was taken to Toronto for cremation. The service was conducted by Rev. E. Teskey, Arts '11, one of his old pupils, and by Rev. J. R. Watts, registrar of Queen's Theological College. The Hall and gallery were filled by staff members, students, and citizens of Kingston. Also present were Dr. A. E. Lavell, Arts '91, president of the Toronto branch of the General Alumni Association; Dr. B. R. MacKay, Sc. '08, Ottawa branch president; A. G. MacLachlan, Sc. '22, representing the Hon. Norman McL. Rogers, federal minister of labour; L. L. Bolton, Arts '02, Sc. '06, of the mines and geology branch of the Department of Mines and Resources, representing Dr. Charles Camsell, Sc. '01, LL.D. '22, deputy minister of that department; Rev. Dr. T. J. Thompson, Arts '95, Ottawa, president of the Queen's Theological Alumni Association; A. K. Light, Sc. '17, Ottawa, representing the Society of Chemical Industry. The pall-bearers were Dr. H. M. Cave, Dr. B. W. Sargent, Dr. J. A. Gray, Dr. J. K. Robertson, Dr. E. E. Watson and Vernon Crothers.

The numerous floral tributes included those from the University, the Alma Mater Society, various faculty societies, the General Alumni Association and a number of its branches. The choir sang *Lead Kindly Light* and *Abide With Me.*

Professor Baker is survived by his wife; two sons, William W., Sc. '28, London, Ont., and John H., Arts '29, Sc. '31, Sudbury, Ont.; one daughter, Mary C., Arts '32, Kingston; three brothers, Carey W., Sc. '05, St. Catharines, Ont., Henry S., Sc. '02, Niagara Falls, Ont., and Godfrey T., Sc. '07, New York City; and two grandchildren, Esther Anne and Mary Ellen.

TWO PROMINENT GRADUATES RECEIVE CIVIC RECOGNITION

THE City of Pasadena, California, has a population of 100,000. Of this number six are Queen's graduates. And of these, two—Miss Ida E. Hawes, Arts '05, and Dr. William B. Munro, Arts '96, LL.D. '12—have been publicly cited as belonging to the select group of six people who have contributed most to the civic progress of Pasadena during the past year.

Miss Hawes received recognition for her initiative and outstanding effort as the creator and administrator of an extraordinarily beautiful historical pageant in connection with the graduation exercises of the combined Pasadena high schools. The citation read, in part: "For many years you have furnished to our community an original and beautiful ceremony which elicits our highest commendation."

Miss Hawes has been prominent in the educational life of Pasadena for a long time. For fifteen years she was head of the French department at Pasadena Collegiate Institute (a school of two thousand pupils) and later became head of the delinquency department at that institution. For a time she acted as dean of women at Pasadena Junior College.

Dr. Munro was cited as "a tower of strength in the civic, educational and charitable work of Pasadena fields in which you have been untiring and remarkably effective."

Dr. Munro has long been recognized as one of the most distinguished of all Queen's alumni. His career has been a continuous credit to the University. As an undergraduate he won many prizes and scholarships. As an alumnus he has held many important posts and has received multitudinous honours. Teacher, author, publicist, administrator, executive, man of affairs, Dr. Munro decided to retire a number of years ago and selected Pasadena as his home. And in retirement he is now probably busier than ever before; but not so busy as to lose interest in Queen's, as shown by his active part in the reunion of the class of Arts '96 a year ago.

Thus, three thousand miles from their Alma Mater, are these two graduates upholding the traditions of Queen's.

A CHAMPION SOCCER TEAM

IN the August issue of the *Review* there appeared an article by W. I. Garvock, Arts '12, entitled "How Rugby Began at Queen's."

Dr. T. H. Farrell, Arts '89, Med. '90, Utica, N.Y., has writen to the *Review,* commenting on the general interest of the article and pointing out that the advent of rugby corresponded closely with the passing of association football, or soccer, at Queen's. It will be remembered that Mr. Garvock stated that the first Queen's rugby team included several members of the soccer team.

Dr. Farrell recently came across a photograph of the team which played the last game in the Central Ontario Association and won the championship. This picture is reproduced below. The cup which was emblematic of the title, stood for many years in the reading-room in the Old Arts Building.

Copies of the photograph were struck off and sent to the surviving members of the team by Dr. Farrell. Acknowledgment came from all but one, and, believing that their letters were too interesting to keep to himself, Dr. Farrell forwarded them to the *Review.*

Dr. W. D. Harvie, Med. '89, Oshkosh, Wis., said: "While I can name only two or three of the boys, I remember the faces of all very well. The picture called back the happy times and happy associations we had. I am in perfect health and do not feel the years that have passed. I am still as active as at any time in my life."

"What a nice idea," was the reaction of Edwin Pirie, Arts '88, Parry Sound, Ont. "I've not kept in touch with anyone but Leask, so have not the remotest idea of what has become of the others, though their mugs are just as fresh to me now as fifty-two years ago."

"Certainly one enjoys thinking about good old Queen's," wrote Dr. Harry Pirie, Arts '87, Med. '90, from Dundas,

CHAMPIONS OF CENTRAL ONTARIO, 1885-86

Left to right, top row: R. Whiteman, W. D. Harvie, H. McFarlane, H. Farrell.
Middle row: H. Pirie, L. Irving (Capt.), E. J. McCardel (Pres.), E. Pirie.
Bottom row: H. N. Dunning, J. J. Maclennan, T. O'Neill, H. Leask.

Ont. "I easily remembered all the faces, but the names of two of the boys escaped me for a while."

Judge Harry Leask, Arts '88, North Bay, Ont., said: "Many years ago I lost by fire in my apartments all my college group pictures, so you may realize how much I appreciate this reminder of the old days. I was pleased, as well as a bit surprised, to be able to pick out and name each individual of the group."

"The photograph took me back to the long, long ago, when we were young chaps at Queen's, and it brought to me many memories of those so happy days and the friends we made there," wrote J. J. Maclennan, Arts '87, Toronto.

"I was really proud of our Queen's championship team," said Lennox Irving, Arts '85, Victoria, B.C. "I had made the selection myself and refused to change the personnel of the team. That particular squad had quite a record and is entitled to a place in Queen's history. The previous soccer team, under the efficient coaching and captaincy of the late J. C. McLeod, was the first Queen's team to capture a championship, having defeated Knox College, Eastern and Central Ontario champions. The game was played on a Saturday afternoon on the R. M. C. grounds. It was a bitterly contested match, and when time was called the score was tied. Knox remained over and we fought it out on Monday, when Queen's won by a goal and captured the Cup. Good Principal Grant and our great philosopher, Dr. Watson, became so excited that they encroached on the field to such an extent that the police had to remove them."

Dr. Farrell, in his letter to the *Review,* said Harry Pirie later became one of the most brilliant all-round half-backs in rugby that he ever had the pleasure of playing with or against. Pirie was a hard, clean player, a fast runner and dodger, a quick and accurate punter.

"He made the most spectacular play I ever saw on a rugby field, against Ottawa College in Ottawa in 1890," said Dr. Farrell. "He and I were in position to receive a long punt, with three husky forwards bearing down on us. He said 'Let me take it, Harry.' To the perfect amazement of every one, most of all the opposing players, he jumped high in the air and kicked the ball back over the heads of the tacklers without touching it with his hands. Only an old and skilled soccer player could have done that."

And there's a wily bit of strategy that we pass along to Coach Ted Reeve for what it is worth.

TUTORIAL CLASSES STARTED BY EXTENSION DEPARTMENT

ONE of the most important items in the new programme being established by the Department of University Extension is its tutorial classes.

Appreciative of the difficulties facing extramural students in carrying on their studies, and anxious to be of greater assistance to these students, the University has established classes in various centres. Not only will the classes provide opportunities for closer contact, but they will give the students a chance to hear lectures and participate in discussion.

The classes are being held as follows: Ottawa—English, history and philosophy; Kingston—English, history, philosophy, mathematics; Belleville — English, history and philosophy; Peterborough—English and history.

Similar facilities are being arranged for the students in Port Arthur and Fort William. As a start, classes are being established in History 3, English 2, Philosophy 1 and 2. Miss Maude L. Brock, Arts '28, will be in charge of the history courses, and Miss M. Belle Elliott, Arts '26, of the English. At each class a section of the course is outlined, and full opportunity given for questions and discussion. The nature of University work and of effective methods of study and of preparing essays and exercises are stressed.

The first of the classes have already been held and have proved very valuable.

GRANT HALL TO HAVE ORGAN AND PUBLIC ADDRESS SYSTEM

AS additional improvements to Grant Hall, a full-size electric organ and a modern public address system are to be installed in the immediate future.

The organ is being given by Mrs. D. W. Boucher (Thelma Bogart), Arts '27, of Kingston, in memory of her mother, the late Mrs. I. G. Bogart. This generous gift fulfills a long-cherished hope of the University.

Demonstrations of the latest type of electric organ during the week-end of the Medical dance and at a subsequent

MRS. D. W. BOUCHER

special recital showed that such an instrument was entirely suitable for Grant Hall. It would add immeasurably to the enjoyment of convocations, religious services and other functions where organ music is appropriate.

The cost of the public address system is being assumed by the General Alumni Association as an extension of its original $14,000 commitment for the renovation of Grant Hall. The Directors felt that, as this obligation had been almost met, the Association might well shoulder the responsibility for additional facilities as they appeared necessary or desirable. Grant Hall is considered as *the alumni building* at Queen's, and its further improvement seemed a worthy objective for the Association.

Since its renovation, Grant Hall has been extensively used by the undergraduates for their social and other functions—a development eagerly hoped for when the work was undertaken. It is expected that the latest improvements will make the Hall even more attractive for both student and University affairs.

EDUCATIONAL SERIES CONTINUED OVER CFRC

TWENTY lectures on a wide range of subjects and two musical programmes in the University's educational series were broadcast over Queen's radio station, CFRC, during the month of November.

Those participating included Prof. Mary Macdonnell, Dr. L. S. Stavrianos, Mr. André Biéler, Dr. G. H. Clarke, Dr. H. L. Tracy, Dr. R. G. Trotter, Col. A. Macphail, Mr. E. C. Kyte, Dr. H. Henel, Dr. W. A. Mackintosh, Miss Lenore Black, Rev. R. T. Richards, Miss Hilda C. Laird, Dr. George Humphrey, Dr. F. L. Harrison, Mr. W. J. Coyle, Mr. C. J. Vincent. In addition, five addresses were delivered by members of the Medical staff who, for ethical reasons, remained anonymous.

INDUSTRIAL RELATIONS SECTION READY TO SERVE

FIRMLY established as an integral part of the educational system at Queen's, the new Industrial Relations section of the School of Commerce and Administration has now completed its staff and is already in operation.

This new division was inaugurated in October. It has been designed to serve as a clearing-house of industrial relations information, and to advance knowledge concerning the relationships of employers, employees and governments.

The facilities of the section will be available to anyone who cares to make use of them, and it is hoped that business executives, trade union officials, students, and interested parties generally will take full advantage of the service offered.

The co-operation of individuals, companies and labour organizations in a position to give information and materials, is sought. The department will reciprocate to the best of its ability.

J. C. Cameron, Com. '29, is in charge of the section. His research assistant is

Miss Idele Wilson, a B.A. of the University of British Columbia and an M.A. of Clark University, Worcester, Mass. Miss Wilson has done postgraduate work at the London (England) School of Economics and at Toronto University, and has also taught economics at the latter institution. The research secretary is Miss Jane McKee, a graduate of Toronto, who was with Canada Packers, Limited, until recently.

With the opening of this section, Queen's became the fifth university on this continent and the first in Canada with a department specifically devoted to the study of industrial relations.

The co-operation and financial support of a number of Canadian corporations have been secured for a five-year period. The arrangements ensure that the work of the department will be entirely unfettered and unbiased.

While emphasis is placed on a realistic approach to the subject, there is no thought of trying to turn out industrial relations experts. It is hoped, however, that Queen's graduates entering business will henceforth do so with an adequate knowledge of the place which industrial relations holds in the field of business management.

"FIVE POLITICAL CREEDS" TOPIC OF LECTURE SERIES

"FIVE Political Creeds" is the title of the series of special Monday-afternoon lectures arranged for January and February by the Public Lectures Committee of the University.

As has been the custom, the lectures will be held at five o'clock in Convocation Hall. They will be broadcast over Queen's radio station, CFRC. The programme is as follows:

January 17—"The Meaning of Fascism," by Prof. L. E. Law.

January 24—"The Meaning of Communism," by Prof. F. A. Knox.

January 31—"The Meaning of Socialism," by Prof. J. A. Corry.

February 7—"The Meaning of Conservatism," by Prof. A. E. Prince.

February 14—"The Meaning of Liberalism," by Prof. C. A. Curtis.

This annual series of lectures has always been popular with the public, and the 1938 programme should have a wide appeal because of general interest in the subject material.

Campus Briefs

THE Physics department is presenting a series of illustrated public lectures on subjects of general interest with the object of giving the citizens of Kingston an insight into the world of physics. Prof. J. K. Robertson delivered the first address on November 9 in Ontario Hall on "Light, Visible and Invisible." Succeeding lectures will be given at monthly intervals by Dr. E. E. Watson, Dr. H. M. Cave, and Dr. J. A. Gray.

* * * *

Mr. Harrison Brown, widely known English political and social writer, spoke to the students and staff in Convocation Hall, November 4, on "Can America be a Neutral?" An opportunity was afforded the staff members to meet and discuss with Mr. Brown the current Sino-Japanese situation. Mr. Brown also addressed a meeting of the International Relations Club held in the Principal's Residence.

* * * *

On the evening of the Queen's-Varsity game, the General Alumni Association held two football dances, one in Grant Hall and the other in the Gymnasium, in order to accommodate the large number in town for the week-end.

* * * *

The Kingston Art Association held a private showing on November 22, for the students and Association members, of an exhibition of book illustrations and fine printing. Mr. E. C. Kyte, University librarian, spoke on "Fine Books" in the evening.

* * * *

Cancellation of social privileges and a fine of twenty-five cents per person was the sentence handed down by the Alma Mater Society Court in connection with the raids into the girls' residences on October 15. In addition, the freshmen and sophomores were fined for damage to city property. The University authorities left action in the matter entirely to the students.

STUDENT ACTIVITIES

MORE than four hundred guests attended the annual At Home of the Medical Faculty in Grant Hall on November 12. Features included scintillating music by Eddie Stroud and his orchestra, of Toronto; the Shannon Sisters, singers; and Harry O'Grady at the console of an electric organ. The platform was arranged to represent a large pipe organ and served as a most appropriate background for the orchestra. The patrons and patronesses were Principal and Mrs. Wallace, Dean and Mrs. F. Etherington, Dr. and Mrs. G. S. Melvin, Dr. and Mrs. G. W. Mylks, Sr., Dr. L. J. Austin and Miss Austin.

* * * *

As a result of an amendment to the A. M. S. constitution, a mild form of initiation was imposed on the freshmen late this fall.

* * * *

The Newman Club held its annual dance in Grant Hall on November 5.

* * * *

Mr. J. L. Busfield, managing director of Gardner Engines (Eastern Canada) Limited, Montreal, spoke at an open meeting of the Engineering Society on "The Automotive Diesel," on November 5.

* * * *

Dr. Gerald Graham, Arts '24, of the History department, spoke at the meeting of the Press Club on November 5 on "Landmarks in the Evolution of the British Political Press."

* * * *

C. M. Cross, Arts '38, Chesterville, Ont., was elected president of the Mathematics and Physics Club at an open meeting on November 6.

* * * *

"Dutch dates" should be adopted at Queen's, according to the opinion reached at a meeting of the Levana Debating Society on November 8.

* * * *

A committee of students has been formed to raise money for the Chinese Students Relief Fund, established by the National Student Christian Movement. Two hundred and fifty dollars has been set as the objective.

* * * *

The Dramatic Guild scored a hit in Convocation Hall on November 9 with its presentation of Kayayev's *Squaring the Circle,* and on November 24 and 25, Shakespeare's *The Taming of the Shrew* was ably staged. Large audiences were present at the three performances.

* * * *

Sir Frederick Banting, discoverer of insulin, addressed a meeting of the Aesculapian Society in Convocation Hall on "Medical Research," on November 10. Dr. T. C. Routley, LL.D. '31, secretary of the Canadian Medical Association, spoke on "After Graduation," at the November 23 meeting.

* * * *

L. G. Smith, Sc. '15, Montreal, spoke to the Mining and Metallurgical Society on November 12 on "Mining in the Northwest Territories."

* * * *

Rev. Dr. Gordon A. Sisco, Arts '25, LL.D. '37, secretary of the United Church of Canada, delivered the sermon at the second of the series of University services in Grant Hall on November 14. He spoke on "Religion in a Changing World."

* * * *

Queen's will be represented by ten delegates at the Conference of Canadian University Students in Winnipeg during the Christmas holidays. The five hundred dollars expense money is being raised by subscription, student society grants and a tag day.

* * * *

Dr. R. G. Trotter, head of the History department, addressed the Camera Club on November 16, on the value of the miniature camera in documentary research.

* * * *

The Debating Union held a public-speaking contest for freshmen on November 16. John Houck, Arts '41, Brampton, Ont., was the winner.

Miss Lorna Runball, of Toronto, spoke to the Levana Society on November 17 on "Style Down the Years."

* * * *

Principal Wallace delivered the second in his series of addresses to the freshettes and freshmen on November 17. He spoke on "The World of Knowledge."

* * * *

C. O. Cole, Sc. '38, Sarnia, Ont., and J. Poliskin, Sc. '38, Sydney, N.S., were the speakers at the meeting of the Chemical Engineers Club on November 23. Dr. R. W. Horn, Eldorado Gold Mines, was the speaker on November 26.

* * * *

A party of twelve students under the charge of Col. A. Macphail, head of the Civil Engineering department, and Prof. W. P. Wilgar, recently inspected the new international bridge which is being constructed at Ivy Lea, Ont.

* * * *

Miss Katherine Brockel, Arts '38, Kingston, and Miss Joyce Hemlow, Arts '39, Liscombe, N.S., delivered interesting papers at the meeting of the English Club on November 25.

* * * *

Dr. T. Z. Koo addressed a meeting of the students in Grant Hall on November 29 on "The Present Chinese Crisis," under the auspices of the Student Christian Movement.

* * * *

Sunday evening sing-songs in the Common Room of the Union, so popular last session, have been revived. More than one hundred students have been attending these affairs.

THE BOOKSHELF

Foreign Missions

LIFE'S WAKING PART. By Rev. James Frazer Smith, Med. '88. Published by Thomas Nelson and Sons.

THE first foreign missionary of Queen's University Missionary Association, Rev. Dr. James Frazer Smith, makes *Life's Waking Part* a vivid and interesting autobiography.

Entitled "Queen's in the Eighties," one of the early chapters will have a particular appeal for graduates. Some new anecdotes about Principal George Monro Grant, tributes to Dr. J. C. Connell and others, give this account of Queen's a highly personal touch.

Dr. Smith was appointed the Queen's foreign missionary at a meeting of the alumni held in Convocation Hall in 1887. The money for his salary was raised by subscription among the students and graduates. The Arts and Divinity undergraduates paid into the funds of the Association upwards of six hundred dollars, while the Medicals contributed two hundred dollars towards his medical outfit.

It was to the Province of North Honan, China, that Dr. Smith proceeded to spread the Gospel. Missionary work is no bed of roses at any time, and fifty years ago it was particularly difficult, as may be well imagined. Dr. Smith had to make his home in a hostile land, but found in this foreign mission the fruition of his life's ambition.

His medical skill enabled him to make more rapid progress than would otherwise have been possible. In disease-ridden and heathen China, there was ample scope for his powers. Some of his operations bordered on the miraculous; in fact, he does define two of them as miracles. His first convert to Christianity was an old Chinese whose sight he restored.

Dr. Smith laboured at this interesting work through the Sino-Japanese war, the Boxer rebellion, and numerous native uprisings, until he was crippled through an attack of typhoid fever. Invalided home, he was later sent to Central India as treasurer of the Foreign Mission. Later he returned to Canada, but he has never lost touch with mission work.

Life's Waking Part is an interesting personal document of a man who devoted his life to Christ and humanity. It is a direct answer to the oft-asked question, "Do foreign missions pay?"

ATHLETICS

FOOTBALL TEAM WINS TITLE

QUEEN'S are senior Intercollegiate football champions for 1937!

Back of that bare but pregnant statement is a wealth of drama and thrills and action that would ring false if incorporated into a fiction story.

CAPTAIN GEORGE SPRAGUE

The Tricolour won the championship by nosing out Varsity 7 to 6 in Toronto on November 27 in what was, perhaps, the most exciting game ever staged in the college union. The end of the regulation time found the teams tied 5 to 5. Two ten-minute overtime periods were played, and Queen's came through with two points to Toronto's one to win the game and the title.

To make it all the more sensational, at one stage of the schedule Queen's was just ten seconds—one play—away from elimination. After losing the first two games the Tricolour had to win its tilt against McGill in Montreal on October 30 in order to stay in the running for the championship. With ten seconds left in the game the Red-and-White were out in front 4 to 3, but on the last play Bernie Thornton kicked a placement to give the game to Queen's 6 to 4.

From that point on, the Tricolour forged steadily ahead. They trimmed McGill in Kingston the following week-end, 7 to 0, showing a zip and zest in their play that had been lacking heretofore.

On October 6 Queen's invaded London to meet the fast-travelling Mustangs. The Purple-and-White piled up a 7 to 0 lead in the first quarter but, again facing elimination, the Tricolour rallied strongly to dominate the remainder of the contest and to come home in front by 12 to 8.

Said Bill Roche in the Toronto *Globe and Mail,* "Queen's University has had many great football teams, but no squad that wore the honoured Tricolour in recent years showed more of what-it-takes than did Coach Ted Reeve's outfit of grand gridders, who won in the 'hard' way over University of Western Ontario Saturday afternoon."

Three wins in a row, and Queen's were one point behind Varsity in the league standing when the Blue-and-White came to the Richardson Stadium on November 13. What a day and what a game that was! The rain came down in bucketfuls; the field looked like a miniature lake, and not so miniature at that. Judging by the heavy and continuous rainfall, it appeared as if the heavenly plumbing had gone to pieces after a lifetime of service.

Despite the, shall-we-say, unfavourable weather conditions, both teams put up a grand battle and fumbles were few. The players ploughed through the boggy sections, waded through the smaller puddles, and swam where the water was deep enough. And, oh yes! Queen's won this game too, shutting out Varsity 3 to 0.

thanks to the tremendous punting of the water-logged ball by Johnny Munro.

That victory gave Queen's top place in the league at the end of the regular schedule, one point ahead of Western and Varsity. On November 20 the last two played in Toronto for the right to meet Queen's in the play-offs, and the Blue-and-White triumphed by the convincing score of 19 to 5.

Varsity carried that winning drive right into the first quarter of the play-off game with Queen's, running wild, heaving long, successful forward passes and amassing a three-point lead. The Tricolour rallied in the second quarter to wind up on the short end of the 3-2 score at half-time.

In the third quarter Queen's acted as if the ball were a hot stove-lid, dropping it whenever they penetrated Varsity territory. The Blues added one point to their lead in this period and tacked on still another at the beginning of the fourth.

Trailing 5 to 2, Queen's then unleashed an offensive that just wouldn't be denied. It started with a Munro-to-Thornton forward pass which put the ball on Toronto's fifty-yard line. A Munro-Young forward and a penalty to Toronto advanced the ball to in front of the goal-posts, from where, a couple of plays later, Thornton kicked a placement to tie up the score, 5 to 5, with five minutes to go.

When the teams were still deadlocked at the end of the game, the officials went into a huddle, and finally ordered two ten-minute overtime periods. Forward passes, Peck-to-Young and Peck-to-Thornton, put the Tricolour in scoring position, twenty-five yards out, in the first period. Thornton's attempted placement was wide, but counted as a single when Varsity was forced to concede a rouge. In the second period, Queen's intercepted a forward and, a few plays later, Munro kicked the ball over the goal-line where a fine tackle by Thornton netted another point.

The Blues, on their own thirty-yard line, desperately resorted to an aerial attack, and two perfect forward passes advanced the ball to Queen's sixteen-yard line. Cam Gray, brilliant placement kicker, dropped back for his specialty, and a hush fell over the crowd of 11,000 and gloom enveloped the Queen's fans. The Tricolour line rushed the Varsity star, and while he managed to get the kick away it was wide of the uprights by inches. Munro caught the ball and cheerfully conceded a point. Queen's were the 1937 champions. It was a grand game to win, a heart-breaker to lose, and Varsity earned as many plaudits as the victors.

"THERE'S ONE MORE RIVER"
The day that Queen's outsplashed Varsity at the Richardson Stadium.

The Tricolour line-up for the final game was: flying wing, Stollery; halves, Munro, Latimer, Griffiths; quarterback, Young; snap, Paithouski; insides, McLean, Jones; middles, Sprague, Peck; outsides, Thornton, Miller; subs, Jack, Conlin, Thompson, Sampson, Annan, Dennis, Kerr, Carson.

The players worked well as a unit all fall, and it would be difficult to select individual stars. From Captain Sprague down to the last substitute, all turned in stellar performances. With Queen's losing only five men via the graduation route in the spring, and with half a dozen excellent prospects available from the intermediate team, prospects look exceedingly bright for next fall.

The victory for Queen's marked the sixth time the Tricolour has been the winner in the nine play-offs that have taken place since the Intercollegiate Union was formed in 1898. Queen's participated in all but one of those play-offs. The championship was the twelfth for Queen's,

the tenth since 1922 when the Evans-McKelvey-Batstone-Leadlay combination started the Tricolour on its winning ways.

The play-off record follows:
1904, Queen's defeated McGill 6 to 0;
1920, Varsity beat McGill 13 to 6;
1922, Queen's defeated Varsity 12 to 6;
1929, Queen's won from Varsity 15 to 5;
1933, Varsity won from Queen's 10 to 3;
1934, Queen's defeated Varsity 8 to 7;
1935, Queen's won from Varsity 6 to 4;
1936, Queen's lost to Varsity 11 to 3;
1937, Queen's defeated Varsity 7 to 6.

In addition, Queen's won the title in 1900, 1923, 1924, 1925, 1927, and 1930.

Coach Ted Reeve's record since coming to Queen's in 1933 is remarkable, inasmuch as the Tricolour under his tutelage has reached the finals five times in as many years, and has walked off with the championship on three of those occasions.

Intermediate Football

TIED for first place with the Royal Military College at the end of the regular schedule, Queen's intermediates triumphed over the Cadets by the one-sided score of 23-0 in the play-off game at the Richardson Stadium on November 17, thereby winning the group title.

Excellent kicking by Ted Bishop and superior line play were the factors that spelled victory for the Tricolour. Newman, Shaughnessy, Preston, Grandjean and Simpson were consistent ground-gainers, while Davis, Bishop and Hoba contributed several long runs. Cranston, at outside wing, was the best tackler on the field.

The eastern winners having defaulted, Queen's invaded Hamilton on November 20 to fight it out with McMaster University for the intermediate Intercollegiate crown. Sad to relate, the Tricolour received a dose of the same medicine previously administered to the Cadets, for the Maroons handed out a 22-2 beating.

The game is said to have been one of the most colourful ever staged in Hamilton, which is high praise indeed. Numerous forward passes, plenty of broken-field running and wide-open play generally, thrilled the three thousand fans. The Queen's line was at least the equal of the McMaster unit, but the Maroon backfield proved to be nothing short of sensational, and therein lay the secret of McMaster's success.

The Tricolour team was defeated in no uncertain fashion but not disgraced, as McMaster is being considered for senior Intercollegiate rating. And out of that same intermediate team the Queen's seniors will be able to draft at least half a dozen first-rate prospects for the 1938 campaign.

"Fuzz" Jack, senior lineman, was the coach.

Junior Football

THE Queen's juniors were eliminated in the battle for group honours when they went down to a 2-1 defeat before the heavier and more experienced Kingston Grads on November 6.

The Grads scored a single in the second quarter, and the Tricolour drew up on even terms by securing a rouge in the third period. The Kingston team registered another single in the final quarter to take the verdict.

The result was a moral victory for Queen's, who had previously lost 23-3 to the same team. "Tuffy" Griffiths of the senior squad was the coach.

Senior Hockey

WITH the impetus gained from last year's participation in the newly formed International Intercollegiate league, a much-improved Queen's hockey team is to be expected this year. In 1937 Queen's placed fifth, with four wins and six defeats.

Most of the 1937 players are back, and the team will be strengthened by the addition of several new men with senior experience. Eight teams compose the league, which is entering the second year of its existence. These include Queen's, Toronto, McGill, University of Montreal, Dartmouth, Princeton, Yale and Harvard. Much of the lost prestige of college hockey was restored by the fine exhibitions turned in last year, and this season even keener competition is anticipated.

The Tricolour's schedule of games is as follows:

January 6—Queen's at Yale.
January 8—Queen's at Princeton.
January 14—Montreal at Queen's.
January 21—Dartmouth at Queen's.
January 27—Queen's at Toronto.
February 2—Toronto at Queen's.
February 5—Queen's at McGill.
February 7—Queen's at Montreal.
February 11—McGill at Queen's.
February 18—Harvard at Queen's.

The Queen's team will be putting the final touches to their pre-season training with two games against the strong St. Nicholas hockey club in New York City on January 3 and 4.

Boxing and Wrestling

WITH the annual boxing and wrestling assault scheduled for the Queen's gymnasium on February 25 and 26, the fight fans are already beginning to look forward hopefully to another Intercollegiate championship.

In 1932 the mitt-and-mat men won the first title in twenty long, lean years. That was the famous assault in the Gym in which "Casey" Waugh made himself a Tricolour legend by knocking out Maughan of McGill, the Canadian heavyweight boxing champion, in the bout that meant the championship.

And in 1935 Queen's again won the Intercollegiate honours on home grounds, this time sweeping aside the opposition to take twelve out of the fifteen bouts in which she was entered. Seven victories in boxing and five in wrestling was the record when the shouting and the tumult died.

This year it is Queen's turn to entertain at home again, and in view of the foregoing it appears as if the Tricolour gladiators are due for the title. In the 1937 tourney Queen's placed second with wins by Sammy Smolkin, "Chuck" McLean and "Chuck" Peck, and these champions are all back this session. Most of the other campaigners are also competing this year, so that Queen's will have an experienced team.

Coach Jack Jarvis is master-minding the boxers again, and as John never comes up without a well-trained and well-conditioned squad, great things can be expected. In addition to the veterans who are well versed in the Jarvis technique, there are several promising freshmen who have been coming along fast, and at least one of these should make the grade.

For the first time in the memory of the Oldest Inhabitant the wrestlers will be completely without the skilled tuition of the one and only Jimmy Bews, who has been sick-a-bed this long time past. In 1936 Coach Bews was out for most of the season for the same reason. Gordie McMahon, Sc. '36, former Intercollegiate middleweight champion, carried on for the popular Bews last year, and this season he is again in charge of the grappling squad. The new coach can be depended upon to produce a team of top-notch performers.

The fencers are also competing on February 25 and 26, but for the first time they are holding their own tournament, and the results do not count in with the boxing and wrestling. The Tricolour had a strong squad of fencers in 1937, and this year should be even more formidable.

Sports Shorts

TED REEVE has been re-engaged as coach of the Queen's senior football team for the 1938 season. The announcement was made shortly before the Queen's-Varsity play-off for the 1937 championship, and the boys showed their approval by winning the Intercollegiate title for the popular Teddy.

* * * *

The records show that three players scored all the points collected by the senior football champions this fall. Bernie Thornton kicked five field goals and five singles, Johnny Munro contributed seventeen singles, and Art Stollery registered five on the Tricolour's one touchdown of the campaign. Thornton and Munro were second and third, respectively, among the Intercollegiate's leading scorers.

* * * *

Queen's placed three players on the mythical all-star Intercollegiate team picked annually by the Canadian Press. Thornton, Munro and Charlie Peck were the lads who caught the eyes of the newspapermen.

AT THE BRANCHES

Border Cities

MORE popular than ever was the annual bridge party held by the Border Cities branch at the Windsor Court in Windsor on November 17. Queen's alumni and their friends attended in large numbers, and a highly successful evening resulted.

MRS. FLETCHER

Smart little door-prize cards, with red ladies and blue gentlemen silhouetted on a yellow background, carried out the Tricolour *motif*. The guests were welcomed by Mrs. D. J. Fletcher (Emily Hennessy), Arts '30, and Miss Gladys Thomas, Arts '34, conveners of the party, assisted by the branch president, George E. Marshall, Arts '19, and Mrs. Marshall.

The bridge prize-winners included Mrs. N. J. Goebel, Mrs. W. A. Dawson, R. J. Srigley, Sc. '25, and Mr. James Walker. Mrs. Gerald W. Lusby and Mr. Charles O'Brien were the winners of the door-prizes, the drawing being made by Miss Annie Hume, Arts '14.

Delicious refreshments were served by Mr. and Mrs. Marshall and the conveners, assisted by Douglas Wilson, Sc. '23.

One of the highlights of the evening was the presentation of a beautiful floor lamp to Mrs. Fletcher as a token of the branch's appreciation of her services as secretary-treasurer both before and since her recent marriage.

Kent County

ELECTION of officers for the ensuing year took place at a recent meeting of the Kent County branch, held at the home of Miss Norma Stevens, Arts '34, Chatham, Ont. J. W. Edwards, Arts '19, Ridgetown, was appointed president.

Other officers elected were as follows: honorary president, John Gilchrist, Arts '15, Blenheim; secretary-treasurer, Miss Amy McQuarrie, Arts '23, Chatham; Chatham representatives, W. D. Colby, Sc. '17, Dr. Bryce Kendrick, Arts '09, Med. '11, R. S. Reynolds, Sc. '25, Miss Laura McCoig, Com. '27; other representatives, Miss Veronica McGuire, Arts '30, Ridgetown, Dr. Neil Leckie, Arts '02, Theol. '02, D.D. '30, Turnerville, Mrs. F. T. Myers (Florence McLeod), Arts '11, Dresden, A. H. Tennyson, Arts '32, Wallaceburg, Dr. C. H. Carruthers, Med. '19, Florence, and F. S. Fletcher, Arts '31, Merlin.

Toronto

A LARGE attendance and a particularly fine programme featured the dinner and annual meeting of the Toronto branch, which was held in Eaton's Round Room on October 29.

Prof. J. F. MacDonald, Arts '99, of the University of Toronto, spoke on "Negro Poetry in the United States." His splendid address was followed with much interest and was considered to be one of the most interesting speeches ever delivered before the Toronto branch.

Romeo Lapierre, Arts '27, led the sing-song, in which all joined heartily. Vocal solos were contributed by Dr. Harvey Doney, and harp selections by John Duncan.

During the business part of the meeting, Dr. A. E. Lavell, Arts '91, was elected president for the ensuing period. Dr. Lavell succeeds R. J. Aitchison, Arts '29, under whom the Toronto branch had a most successful year.

Other officers appointed included the following: honorary presidents, Capt. E. A. Baker, Sc. '14, W. P. Ferguson, Arts '08, N. G. Stewart, Arts '11, Sc. '15; vice-presidents, P. A. Moreland, Arts '24, V. S. Murray, Sc. '28, R. S. Welsh, Arts '24, Com. '28; treasurer, R. W. Willis, Sc. '27; secretary, R. C.

McNeil, Com. '31; executive committee, H. E. Armstrong, Arts '22, Com. '24, J. A. S. Broadbent, Arts '29, Dr. J. G. Brownlee, Med. '31, J. A. Bell, Sc. '24, A. R. Foster, Sc. '23, J. N. Gray, Sc. '33, J. C. Honey, Sc. '33, K. E. Kennedy, Arts '31, N. McLeod, Arts '26, Dr. W. R. Patterson, Arts '02, Med. '06, R. E. Story, Arts '30, G. N. D. Furse, Sc. '24, D. G. Geiger, Sc. '22.

Ottawa

APPROXIMATELY three hundred alumni and friends of Queen's attended the annual dinner of the Ottawa branch held in the Chateau Laurier on the evening of November 25. Dr. B. R. MacKay, Sc. '08, branch president, acted as chairman.

The guests were received in the drawing room by Principal and Mrs. Wallace, Dr. and Mrs. B. R. MacKay, J. C. Macfarlane, president of the General Alumni Association, and Gordon J. Smith, secretary of the Association.

The banquet was held in the ballroom, which was tastefully decorated in Queen's colours. A large Queen's crest was situated behind the centre of the head table, and large "Q's" were placed around the balcony. Tricolour streamers hung from the walls. Large and small chrysanthemums and yellow candles in silver candelabra made effective table decorations.

The banquet was opened with Grace by Rev. Dr. T. J. Thompson, Arts '95, D.D. '29. After the toast to the King, Dr. MacKay spoke briefly but forcefully, remarking on his pleasant duty to preside at the "happy family gathering." He said that it seemed to him that the main reason for the existence of an Alumni Association was to be found in just such meetings, where old classmates came together, renewing old friendships, recalling scenes and incidents of student days, repledging their loyalty to their Alma Mater, and cementing more firmly that bond of fellowship in the pursuit of those ideals that Old Queen's had always held up before her sons and daughters.

Mr. MacKay also touched upon the organization of the Ottawa branch, saying that it was one of the largest of the thirty-two branches which flourished in Canada and the United States. In Ottawa there were more than 700 alumni, and 119 extramural students, and of the 1805 undergraduates now in attendance at the University, 157 were from that city. On the executive of the branch there were representatives of classes stretching over forty years, from 1896 to 1936.

Welcome was extended to the guest speaker, the Hon. Norman McL. Rogers, Minister of Labour, and Rector of Queen's, to Principal and Mrs. Wallace, Mr. Macfarlane, Mr. Smith, and to other out-of-town guests.

The chairman introduced Rev. Dr. Hugh Cameron, Arts '76; and Venerable Archdeacon J. Snowdon, Rev. Dr. J. W. Milne, D.D. '14, and Alexander D. Cartwright, of the class of 1885.

The toast to Queen's was proposed by Dr. McGregor Easson, Arts '12, who spoke of the "pictures that hang on memory's walls." Reply was made by Dr. Wallace, who brought greetings from the University. "I am humble and proud to be with the Queen's people of Ottawa," he said.

Dr. Rogers, introduced by the Principal, spoke on "Political Education," in a manner that held his listeners enthralled. "If Communism and Fascism make any headway in this country of ours, it will be because of our own failure to appreciate the value of freedom," he declared. "In recent years, I have been impressed with the willingness of the young people to forego security for some vague and nebulous reward. This course inevitably results in Fascism and Communism."

"It is up to the schools and universities of this country to see to it that the young people know what they are giving up," he continued. "They have the duty before them to inculcate into the minds of our younger people a knowledge of and a willingness to respect the basic principles of the Canadian constitution."

An expression of thanks to the speaker was made on behalf of the gathering by Mr. Macfarlane. The speaker also extended greetings from the General Alumni Association. Felicitations from the extramural students were voiced by Mr. G. G. Croskery, president of the Queen's Summer School Association.

Community singing of such old Queen's favourites as "Queen's College Colours," "Bingo," "On the Old Ontario Strand" and "Litoria" was led by Rev. F. S. Milliken, Arts '15, Theol. '17, accompanied at the piano by his wife. Other entertainment was provided by Mrs. H. S. Britton, contralto, accompanied by Mrs. Milliken, Miss Elsie Flatt, violinist, accompanied by Miss Marion McLean, and a clever magician's act by the Great Ovette.

Seated at the head table were Principal and Mrs. Wallace, Dr. Rogers, Mr. Macfarlane, Dr. and Mrs. MacKay, Mr. Smith, Dr. and Mrs. Easson, Mr. Cartwright, Archdeacon Snowdon, Mr. and Mrs. Croskery, Rev. Dr. Cameron, Rev. Dr. Milne, A. E. MacRae, Sc. '14, and Mrs. MacRae (Irene McAllister), Arts '14, Dr. W. C. Clark, Arts '10, LL.D. '35, and Mrs. Clark (Margaret Smith), Arts '14, Senator H. H. Horsey, Arts '95, and Mrs. Horsey, N. B. MacRostie, Sc. '11, Arts '14, and Mrs. MacRostie (Annie Callander), Arts '13, J. M. Wardle, Sc. '12, and Mrs. Wardle (Leete Roney), Arts '12, C. Jackson Booth, Arts '86, and Mrs. Booth, Miss Charlotte Whitton, Arts '17, and Dr. Thompson.

Following the banquet, many of the guests adjourned to the grill-room for dancing.

Hamilton

ONE hundred and twenty-six members and friends in the Hamilton area greeted Principal Wallace at a meeting held in the Scottish Rite Club on November 10. Mr. J. C. Macfarlane, and Mr. G. J. Smith, president and secretary, respectively, of the General Alumni Association, were also present. Dr. C. H. Playfair, Med. '24, branch president, acting as chairman and toastmaster, extended a hearty welcome to all.

After the toast to the King, Miss Helen Talcott, Arts '25, proposed the toast to Sister Universities. Dr. W. H. Whidden, LL.D. '29, Chancellor of McMaster University, replied.

The toast to Queen's was proposed by K. F. Ettinger, Arts '13. Dr. Wallace, who responded, was introduced by F. E. Perney, Arts '02, Paed. '10. The Principal spoke of the future of Queen's and the important role that the University could play in the life of the Dominion. Quality rather than quantity of students was the objective. The undergraduate body now numbered 1800 and should never exceed 2000. Restriction of registration in all faculties would enable Queen's to select the best students and obtain the best results.

"There is a vital need to-day for people of judgment, who can speak wisely and weigh important matters," said Dr. Wallace. "I can see no better way of training them than in universities. If a university does not foster discussion, then it is a dying institution. We must be able to train men and women who can take a leading part in the life of the country."

In conclusion, Dr. Wallace spoke highly of the young people of to-day and of their evident desire to be frank, responsible and sincere. For that reason it was all the more desirable to inject into education the values that counted.

Appreciation of the Principal's thoughtful and inspiring address was voiced by Allan Donnell, Arts '09, F. P. Gavin, Arts '96, T. W. Oates, Arts '20, Com. '21, Dr. G. O. McMillan, Arts '06, Paed. '13, and B. L. Simpson, Arts '03.

While in Hamilton, Principal Wallace also spoke at the Normal School.

Montreal

ALUMNI in Montreal turned out one hundred strong at the dinner in the York Room, Windsor Hotel, held on the evening of November 26 in honour of Principal and Mrs. Wallace. F. W. Paynter, Arts '16, branch president, acted as chairman and toastmaster.

Yellow 'mums and red, yellow and blue ribbons on the tables added a festive touch to the dining-room and helped contribute to the gaiety of the occasion.

After "The King," Dr. Leslie Pidgeon, Arts '12, proposed a toast to McGill University. Reply was made by Dr. W. H. Brittain who, with Mrs. Brittain, represented the Montreal seat of learning.

R. H. Bissell, Sc. '28, in a humorous speech, "toasted" the ladies, and able response in a similar vein was made by

Miss Jennie Tweddell, Arts '12, president of the Montreal alumnae.

The toast to Queen's University was proposed by Knox MacLachlan, Arts '20, in a few well-chosen words. Dr. Wallace, who replied, was introduced by Mr. Paynter.

The Principal spoke concerning the present status and influence of the University and of the hopes and plans that were entertained for the future. He also outlined what was expected of universities to-day, remarking that accuracy of knowledge, quality of judgment, and an appreciation of the spiritual side of life were a few of the more important values that had to be stressed if universities were to make adequate contribution to the progress of the nation.

The sincere thanks of the gathering for Dr. Wallace's inspiring address were expressed by Mr. Paynter.

At the close of the formal part of the banquet, the Principal and Mrs. Wallace, who were accompanied by Gordon Smith, secretary of the General Alumni Association, had unfortunately to hurry away to entrain for New York City, their next port of call.

The dinner was followed by a dance.

* * * *

A successful meeting was held on November 10 at the Mount Royal Hotel, when Austin F. Cross, Arts '23, author of *Cross Roads* and *Snobs and Spires,* spoke on various interviews he has had with well-known people.

* * * *

Arrangements are being made for the annual dance in February, 1938, and a committee has already been appointed.

Kingston Alumnae

PLANS for their annual dinner in December were discussed at the recent meeting of the Kingston alumnae, held at Ban Righ Hall. Mrs. A. W. DesBrisay (Vera Skinner), Arts '26, who presided, announced that Principal Wallace would be the guest speaker.

The possibility of holding a bridge early in January to raise funds for the Ban Righ Hall extension scheme was also discussed.

Following the business meeting, Mr. E. C. Kyte, University librarian, gave an interesting address on "Swift," and afterward a play dealing with the life of Swift was presented. The serving of refreshments brought an enjoyable programme to a close.

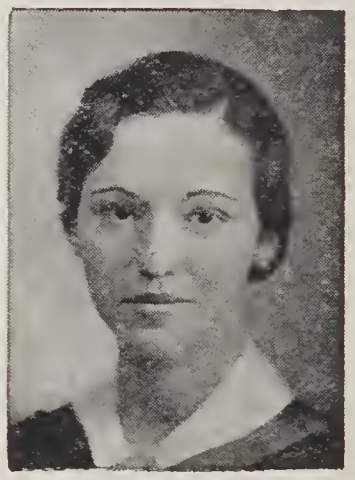

Kirkland Lake

THE fourth annual meeting of the Kirkland Lake branch was held on November 15 at the home of H. A. Hosking, Sc. '33, of the Lake Shore Mines. Sixteen members were in attendance.

The following were elected to the executive for the ensuing year: president,

H. HOSKING
President

MISS CRAMP
Secretary

Mr. Hosking; vice-presidents, Miss May Ball, Arts '25, John Bridger, Sc. '32, secretary-treasurer, Miss Florena Cramp, Arts '35.

A committee was appointed to make arrangements for the annual dance, to be held at the Curling Club early in December.

Guelph

GRADUATES and friends of Queen's turned out in full force to welcome Dr. W. E. McNeill, Vice-Principal and Treasurer of the University, when he visited the Guelph branch on November 5.

Dr. G. G. McNab, Arst '02, Paed. '24, branch president, acted as chairman at the dinner-meeting, which was held in the common room of the Y. W. C. A. Chrysanthemums, and the red, yellow and blue of the Tricolour provided a bright setting, and an atmosphere of jollity contributed to the highly successful programme.

College songs, led by Freeman Waugh, Arts '31, with a piano accompaniment

provided by Miss Jane Craig, Arts '29, Fergus, were much enjoyed.

Dr. McNeill, in replying to the toast to Queen's, proposed by Miss Wilhelmina Humphries, Arts '18, brought greetings from the University. He sketched briefly present conditions at Queen's, with particular reference to the work of new departments.

Dr. Drummond proposed the toast to the visitors, and Percy Devenney, Sc. '22, Kitchener, responded.

Rev. T. W. Goodwill, Arts '98, Hillsburg, on behalf of those present, thanked the committee who planned the meeting.

New York City

ALUMNI in the New York area had the pleasure of entertaining Principal and Mrs. Wallace at a dinner held in the Men's Faculty Club, Columbia University, on the evening of November 27. Approximately ninety guests attended.

The dining-room was tastefully decorated with autumn leaves, tricoloured ribbins, and with red, yellow and blue candlesticks in silver candelabra.

The announcement made by Dr. J. G. Dwyer, Arts '02, Med. '05, LL.D. '27, that Queen's had defeated Varsity and were the new senior Intercollegiate football champions was received with enthusiasm.

Mr. Gordon J. Smith, secretary of the General Alumni Association, spoke concerning the University and the work of the Association. Miss Winnifred Kydd, Dean of Women at Queen's, outlined most interestingly the affairs and activities of the co-eds.

Mr. Clarence J. Hicks, chairman of the board of Industrial Relations Counselors, Inc., New York,, told of the work in industrial relations now being undertaken at several United States universities, and of the new department recently established at Queen's, in the formation and promotion of which he had taken such an active part. His remarks were followed with keen interest.

Rev. Dr. E. F. Scott, LL.D. '20, of Union Theological Seminary, and formerly a distinguished member of the Queen's staff, introduced Dr. Wallace as the speaker of the evening. Dr. Scott's brief address showed that he had lost none of the force and humour for which he has always been noted.

The Principal spoke of the approaching centenary of the University and of the plans which were being arranged for it. It was felt that strengthening the work and influence of Queen's would be the most fitting manner of marking the occasion.

Dr. Wallace stated that Queen's, by intensive cultivation of her own particular sphere of influence, could compare favourably with the large, publicly supported universities. Queen's had done many things extremely well, and with the fruition of the new plans it was hoped that she would be able to do them even better, he said.

The members of the committee in charge of the banquet were Miss Nora Cordingley, Arts '10, Prof. Lillian Hudson, Arts '11, Dr. Dwyer, Dr. F. J. McCammon, Arts '89, Med. '92, and Dr. Bryce M. Stewart, Arts '11. Dr. Dwyer acted as chairman.

While in New York, Dr. Wallace also spoke at the annual banquet of the St. Andrew's Society, replying to the toast, "The Land o' Cakes." About seven hundred members were present.

Toronto Alumnae

ALUMNAE in Toronto were treated to a splendid address by Professor James A. Roy of Queen's at the annual meeting held in the Granite Club on November 26. Miss Florence Leggett, Arts '26, presided.

Speaking on Sir James Barrie, Professor Roy said that Barrie is likely to occupy a place analogous to Charles Lamb, in years to come. He stated that he considered J. B. Priestley most likely to carry on, in some respects, the torch lit by Barrie.

Professor Roy, whose boyhood days were spent in Kirriemuir, known to the world as "Thrums," and whose father and mother had much to do in encouraging and directing Barrie along the road he set his steps, gave intimate glimpses into the life of the great writer.

A book on the life of Barrie, written by Professor Roy, has recently been pub-

lished. Many of his former students congratulated him, after the dinner, on the work. Miss Constance Grant, Arts '34, thanked the speaker for his address.

Announcement was made that the alumnae members have been pledged to fill one hundred Christmas stockings for the tree at the Church of All Nations.

An attractive gold Queen's pin was presented to Miss Flora Stewart, Arts '98, who is leaving shortly to spend eighteen months in California.

During the evening, Miss Kathleen Elliott, Arts '26, sang, accompanied by Mrs. John Davidson (Helen Anglin), Arts '26. The dinner was under the convenership of Mrs. R. Hawkins (Jessie Isobel de Renzy), Arts '30.

ALUMNI NEWS

Births

Airth—At St. Michael's Hospital, Toronto, on November 24, to W. B. Airth, Sc. '26, a son.

Baker—At St. Joseph's Hospital, Sudbury, Ont., on December 2, to John H. Baker, Arts '29, Sc. '31, and Mrs. Baker, a daughter (Mary Ellen).

Bulmer—In the Vancouver General Hospital, on October 22, to H. O. Bulmer, Sc. '20, and Mrs. Bulmer, a son (Gordon Ross).

Carmichael—In August, to Dr. D. M. Carmichael, Med. '26, and Mrs. Carmichael, of Brentwood, N.Y., a son (Angus).

Devenny—At Kitchener, Ont, on November 21, to J. P. Devenny, Sc. '22, and Mrs. Devenny, a son (David Wallace).

Higgins—On July 16, at Talara, Peru, to J. A. Higgins, Sc. '25, and Mrs. Higgins, of Negritos, Peru, a daughter (Sheila Mary).

Hill—At the Private Patients' Pavilion, Toronto General Hospital, on October 29, to Armas J. Hill and Mrs. Hill (Dorothy Bamforth), Arts '31, twin sons.

Martel—At the General Hospital, Cornwall, Ont., on June 7, to Clifford J. Martel and Mrs. Martel (Ruth Goodfellow), Arts '29, a son (John Evans).

Minielly—On November 24, at Strathroy Hospital, Strathroy, Ont., to Rev. G. J. Minielly, Arts '36, and Mrs. Minielly (Agnes Mary Ward), Arts '34, a daughter (Elizabeth Margaret).

White—At the Homeopathic Hospital, Montreal, on November 21, to A. F. White, Sc. '27, and Mrs. White, a son.

Wright—On December 3, at the Red Cross Hospital, New Liskeard, Ont., to W. E. Wright, Sc. '26, and Mrs. Wright, a son (Gilbert Clark).

Marriages

Bishop—On August 16, in Toronto, Clara Loyst Ostrom, of Belleville, Ont., to Alfred Wesley Bishop, Arts '32. J. E. Grabb, Arts '33, of Timmins, Ont., was groomsman. They are living in Port Arthur, Ont., where Mr. Bishop has been appointed teacher of mathematics in the technical school.

Carmichael—On July 10, Gladys C. Rukland to Dr. Hugh Thompson Carmichael, Arts '20, Med. '23, of the medical staff, University of Chicago.

Denne—At Trinity Episcopal Church, Chicago, on November 12, Helen I. Denne, Arts '11, to Walter B. Schulte, of Freeport, Ill. Before her marriage Mrs. Schulte was director of the school of nursing at the University of Wisconsin.

Fisher—In Windsor, Ont., on November 8, Mabel Anne Browne, of Kingston, to Robert Kenneth Fisher, Sc. '37, of Windsor.

Galloway—Recently in Walmer Road Baptist Church, Toronto, Dorothy May Palmer to Dr. Charles Alexander Galloway, Med. '36.

Graham—At Trinity United Church, Bourlamaque, Que., on November 27, Dorothy E. Laird, of Kingston, to Thomas V. Graham, Sc. '34, of Bourlamaque.

Hamilton — In Trinity United Church, Chesterville, Ont., on August 25, Helen Marian Hamilton, Arts '35, to Rev. D. K. Perrie, minister of the Presbyterian Church at Hastings, Ont.

Wrinch—On August 28, at Glebe United Church, Ottawa, Janet Madaline Wightman to Arthur E. Wrinch, Sc. '35, of the headquarters staff, Military District No. 5, Quebec City.

Deaths

Cruikshank — Badly injured in a motor car accident, Miss Libbie Cruikshank, Com. '27, of Sarnia, died in St. Joseph's Hospital, London, Ont., on July 9. The intense heat had caused part of the paved highway near Exeter to explode, and the car struck the torn-up pavement and hurtled into the

ditch. Miss Cruikshank was born at Clinton, Ont., and received her preliminary education at the Sarnia Collegiate Institute. She entered Queen's in 1922 and obtained her B.Com. degree in 1927. She served as head of the commerce department at Sarnia Collegiate and Technical School for several years.

Dean—After an illness of several weeks, Mrs. G. S. Dean (Marguerite Anna Cameron), Arts '20, passed away in Ford Hospital, Wallaceburg, Ont., on November 14. Mrs. Dean was born at Carleton Place, Ont., in 1899, and received her early education in the schools of that town. She entered Queen's in 1916, graduated four years later with the degree of B.A. with honours, and then accepted a teaching position at Chapleau, Ont. She joined the staff of the Wallaceburg High School in 1925, remaining there until 1935, when she resigned to marry Mr. Dean. She was a devout member of Trinity United Church and took a keen interest in the work of the Harriet Newkirk Chapter, I.O.D.E., of which she was educational convener, as well as in girls' work at the high school. The funeral services were held on November 16, and interment was made in Wallaceburg cemetery. She is survived by her husband, her parents, two sisters, and one brother, D. G. Cameron, Sc. '23, of Niagara Falls, N.Y.

Instant—Suddenly, at his home in Stella, Amherst Island, Ont., Reginald Instant, Arts '95, died on November 7, at the age of sixty-four years. Mr. Instant was born at Emerald, Amherst Island, and attended Kingston Collegiate Institute before entering the Arts faculty at Queen's in 1891. As an undergraduate he won the Bruce Carruthers scholarship. He obtained his B.A. in 1895 and two years later enrolled in Science. After leaving Queen's he was engaged in mining at the Craigmount, Jewelville, Copper Cliff and Moose River mines. Subsequently he returned to Amherst Island. He was the owner of the general store and two cheese factories at Emerald and was also the representative of an insurance company. He was a student and lover of birds and nature and was keenly interested in fishing and hunting. He was a member of the Maple Leaf Lodge and of the Royal Arch Masons. He is survived by his wife, one daughter, one son, two brothers and one sister.

Russell—At the age of forty-nine years, Charles Scott Russell, Arts '10, Med. '12, passed away at his home in Hamilton, Ont., on November 5, following a brief illness. Dr. Russell was born at Hepworth, Ont., and attended North Bay High School before entering Queen's in 1906. He obtained his B.A. degree in 1910 and his M.D. degree two years later. He started a practice in Hamilton in 1914 and continued until his retirement a few years ago. It was his custom to winter in Florida, and recently he passed the Florida state medical license examinations. He was a member of the Hugh Murray Lodge, A.F. & A.M., thirty-second degree, and a member of the A.S. & A.S.R.. He is survived by one brother and one sister.

Stalker—Assistant waterworks engineer for Ottawa, Andrew Douglas Stalker, Sc. '18, died in that city on September 30. He was born in Ottawa in 1892 and received private tuition before entering Queen's in 1914. From 1916 to 1919 he served as works officer of the 38th Battalion, C.E.F. From 1919 to the time of his death he was in the employ of the waterworks department of Ottawa, first of all in the construction of the overland pipe extension and distribution system, Eastview, and the low-lift pumping station, Lemieux Island. He acted as resident engineer on the construction of the water purification plant and pumping station extension from 1929 to 1930. In 1933 he became assistant waterworks engineer.

Notes

1880-1889

Rev. W. J. Drummond, Arts '85, who was for many years connected with the American Presbyterian Mission at Nanking, China, has been compelled to give up his work there owing to ill health and the ravages of the Sino-Japanese war. He is now living at 1135 Arbolado Road, Santa Barbara, Cal.

Judge H. D. Leask, Arts '85, of North Bay, Ont., who retired in 1935, is spending the winter at 65 Peter St. N., Orillia, Ont.

1890-1899

Dr. Jonathan Brown, Med. '93, practises at 901 College St., Toronto.

Miss Elizabeth Campbell, Arts '99, who was for many years engaged in missionary work at the United Church Mission, Chissambra, Angola, West Africa, is now retired. Her present address is 257 Jarvis St., Toronto.

Dr. F. C. Hagar, Med. '95, is practising in Hollywood, Cal. His office is at 7022 Sunset Blvd.

1900-1909

Dr. E. L. Bruce, Sc. '09, Arts '11, Miller professor in research geology at Queen's, was guest speaker at the annual dinner of the Toronto branch of the Canadian Institute of Mining and Metallurgy, held in Toronto on November 25. His subject was "Certain Aspects of the Mineral Production of Russia."

Dr. Frederick Etherington, Med. '02, dean of the Medical faculty at the University, was recently elected to the council of the Royal College of Physicians and Surgeons of Canada.

F. A. Jones, Arts '05, has been principal of the Ottawa Normal School since 1929.

A. J. Kidd, Arts '05, of Nokomis, Sask., was appointed a King's Counsel in May, 1937.

J. M. Macdonnell, Arts '04, general manager of the National Trust Company, Toronto, and chairman of the Board of Trustees of the University, addressed the Canadian Club of Lindsay, Ont., recently on conditions in Western Canada.

Dr. T. A. Malloch, Arts '08 (M.D. McGill), of White Plains, N.Y., is librarian of the Academy of Medicine of New York City.

L. J. Pettit, Arts '04, has been elected president of the Kiwanis Club of Peterborough, Ont., for the coming year.

1910-1919

T. H. Bissonnentte, Arts '12, professor of biology at Trinity College, Hartford, Conn., will be listed in "American Men of Science" among the leading thousand scientific men in the United States. These include students of the natural and exact sciences whose work is held to be the most important in that country.

D. A. Cameron, Sc. '18, has been with the Alliance Paper Mills, Merritton, Ont., for some years. He is now chief chemist.

Dr. R. C. Cantello, Sc. '13, has been chemical engineer for the Sinclair Refinery Company, East Chicago, Indiana, for the past four years. He resides at 1621 Stanton Ave.

Dr. John S. Cornett, Arts '13, Theol. '17, professor of history and social science at Kansas Wesleyan University, Salina, Kansas, spent the past summer in Europe, studying social and economic conditions in several countries.

Dr. J. E. Fraser, Arts '13, Med. '16, has been in general practice at Port Elgin, Ont., since 1921. He has taken postgraduate courses at Chicago and at the Mayo Clinic, Rochester, Minn.

Miss Sadie Fraser, Arts '19, has begun her fourteenth year on the staff of the high school at Petrolia, Ont. During the past summer she motored to the Pacific coast through the United States, took a boat trip to Alaska, and on her return journey through Western Canada visited a former classmate, **Mrs. Andrew Graham** (Isabella McDougall), Arts '16, at Glen Kerr, Sask.

Prof. T. Watson Kirkconnell, Arts '16, of Wesley College, Winnipeg, Man., has received the silver academic laurel of the Polish Academy of Literature from the Polish ministry of religion and education. This is the second Polish honour to be conferred on Professor Kirkconnell within the past two years.

C. S. MacKenzie, Sc. '13, is manager of the recently formed Link Aviation Company, Gananoque, Ont. This company is a branch of an American organization which builds machines for giving instruction in "blind" flying. It is claimed that all con-

"They'll laugh when they see us coming in a sleigh—"
"They'll cheer when we hand out the Sweet Caps!"

SWEET CAPORAL CIGARETTES

"The purest form in which tobacco can be smoked."—Lancet

ditions met with in actual flying can be artificially produced in the Link "Trainer."

Dr. E. M. McCoy, Arts '16, Med. '18, of Central Islip, Long Island, N.Y., was recently elected president of the Suffolk County Medical Society.

Miss Mary Frances Mangan, Arts '16, of Toronto, is the woman member of the recently appointed Labour and Industry Board of Ontario.

E. P. Sawyer, Sc. '12, is superintendent of the Man Sask Gold Mines, Flin Flon, Manitoba.

J. H. Stitt, Arts '15, of Ottawa, was the speaker at the special Armistice Day meeting of the Kingston Rotary Club on November 12. He spoke on the horrors of war as an argument for peace.

T. W. Third, Arts '15, who received his M.B.A. at Harvard University in 1922 and his LL.B. at St. John's College in 1935, was admitted to the New York bar in 1936. He is now with the firm of E. B. Naylon, 61 Broadway, New York City. His residence address is 2 Grace Court, Brooklyn, N.Y.

R. B. Whitehead, Arts '12, of Toronto, is representative of the employers on the new Labour and Industry Board of Ontario.

1920-1929

Dr. Ford Connell, Med. '29, of Kingston, was recently made a fellow of the Royal College of Physicians and Surgeons of Canada.

Dr. T. J. Curphey, Med. '21, pathologist at Meadowbrook Hospital, Nassau County, and St. John's Hospital, Brooklyn, N.Y., was in charge of the pathology section of a recent meeting of the second district branch of the New York State Medical Society. He also read a paper on the pathology of the kidney at the same meeting.

W. A. Dawson, Sc. '23, recently resigned from the staff of the Algoma Steel Corporation, Sault Ste. Marie, Ont., to become mechanical superintendent of the Chrysler Corporation of Canada, Windsor. Before going to Sault Ste. Marie in 1935 Mr. Dawson was head of the machine and tool-design department of the Ford Motor Company, Windsor.

Robert England, Arts '21, resigned his position as director of extension and associate professor of economics at the University of British Columbia last September to become economic adviser to the Winnipeg Electric Company, Winnipeg. Before joining the staff of the University of British Columbia in 1936, Mr. England was connected with the colonization department of the Canadian National Railways, Winnipeg. He is the author of "The Threat to Disinterested Education: A challenge," which was recently published by the Macmillan Company.

Harold Evans, Sc. '28, has been general manager and treasurer of the Pollard Manufacturing Company, Niagara Falls, Ont., for the past year, and also of its subsidiary, the Dominion Safe and Vault Company.

D. R. Falconer, Arts '28, is with Millard, MacDonald and Company, chartered accountants, Winnipeg.

Dr. G. S. Farnham, Arts '29, Sc. '31 (Ph.D. Manchester), of the metallic minerals division of the Department of Mines and Resources, Ottawa, was the author of an article on "The Fatigue of Metals" in the November issue of the "Journal" of the Engineering Institute of Canada. The paper had previously been presented by Dr. Farnham before the Ottawa branch of the Institute.

Miss Jean Fetterly, Arts '26, has been appointed assistant to the librarian at the public library in Oshawa, Ont.

H. A. Graves, Sc. '28, formerly at the Central Patricia Gold Mines, is now at the East Malartic Gold Mines, via Amos, Que.

Dr. S. W. McIlmoyl, Arts '26, Med. '28, is practising at 335 Second St., Troy, N.Y.

Dr. J. L. McKelvey, Arts '23, Med. '26, who has been on the staff of Union Medical College, Peiping, China, since 1934, and **Mrs. McKelvey** (Ruth MacKinnon), Arts '23, are in good health and suffered no injury when the Japanese forces took possession of Peiping and its university some time ago. The capture of the city was achieved without any serious fighting.

N. C. MacPhee, Arts '20, is now plant metallurgist with McKinnon Industries, Limited, St. Catharines, Ont.

J. R. Martin, Arts '24, for the past ten years science master at the high school in Shaunavon, Sask., was recently appointed inspector of schools in the Canora district. His headquarters are at Sturgis, Sask.

T. S. Mathieson, Sc. '26, has been general industrial designer at the Falconbridge Nickel Mines, Falconbridge, Ont., since 1934.

W. S. Miller, Sc. '28, is welfare and personnel supervisor for Canadian Industries Limited at its plant in Shawinigan Falls, Que.

J. D. Murray, Sc. '25, is in the district engineer's office of the Department of Public Works, Ottawa.

A Message to College Men

Whether buying a life insurance policy as a provision for the future, or contemplating the selling of life insurance as a profession, you would do well to consider the outstanding sixty-seven year record of The Mutual Life of Canada. Communicate with our nearest Branch Manager or our Home Office.

MUTUAL LIFE OF CANADA

Established 1869

Owned by the Policyholders

Head Office, - Waterloo, Ontario

The husbandry of today yields the fruits of tomorrow

So, co-operative thrift through Life Insurance has brought security for loved ones and contentment in old age to many thousands of the Sun Life family all over the world.

Alumnus—
Imperial Mixture will not clog pipe, it burns slowly and evenly.

Tobacco expert—
Imperial Mixture for a smoke of true tobacco flavour.

Hudson's Bay Company.
INCORPORATED 2ND MAY 1670.

CANADA STANDS IN FOURTH PLACE IN THE PRODUCTION OF COPPER

During the past fifty-six years, approximately ten times as much copper was used by mankind as from the time of the stone-age days. Man depends upon the use of copper in his everyday life; copper conductors stretch across the country conveying electrical current; copper makes possible long distance telephone messages; copper conveys water for our everyday use; copper protects us against the elements and copper finds itself in many fields that are too numerous to mention here. Seventy years ago saw the opening of the first copper mine in the Province of Quebec. This mine—the Eustis—has been operated continuously since that time. Canada's production of copper for the last year amounted to a total of 418,753,148 pounds—a record. All Provinces, except one, showed an increase in production.

The use of C-I-L Explosives helped to make this great production figure possible. C-I-L Explosives are suitable for all types of mining work. Magazines are maintained across the Dominion to render the fastest possible service to mining operators. Our Technical Department is ready at all times to assist you in the solution of your particular blasting problem.
